COMMITTEE REPORT DIGEST

I. OVERVIEW

The Committee on Tourism, Cultural Affairs, Youth, and Public Broadcasting convened a public hearing on Wednesday, April 14, 2010 at 9:00 a.m. in *I Liheslatura's* Public Hearing Room. Among the items on the agenda was the consideration of Bill No. 352-30 (LS) "An act to renumber §20119 and to add a new §§20119 and 20120 to Chapter 20 of 19 GCA relative to prohibiting discrimination for government of Guam programs solely on the basis of conviction of a status offense," sponsored by V.A. Ada.

Public Notice Requirements

All legal requirements for public notices were met. Notices were disseminated via hand-delivery and facsimile to all senators and all local media outlets on April 7, 2010, and again on April 12, 2010 with requests for publication in the Marianas Variety and the Pacific Daily News. Notice of the hearing was printed in the Pacific Daily News on Monday, April 5, Wednesday, April 7, and Monday, April 12 and was also announced on Committee Chair B.J. Cruz's website and the Guam Legislature's website.

Senators Present

Frank B. Aguon, Jr., Acting Chairperson
V.A. Ada
Telo Taitague
Judith P. Guthertz

The public hearing was called to order at 9:00 a.m.

II. SUMMARY OF TESTIMONY AND DISCUSSION

Acting Chair Frank B. Aguon, Jr. called the hearing to order and invited Sen. Ada to speak on his Bill No. 352.

Senator V.A. Ada explained the bill seeks to seal the records for status offenders, whom are juveniles charged or adjudicated for offenses that would not be illegal if committed by adults. The bill intends to prevent discrimination against a person solely on the basis of such an offense.

Senators present had no comments or questions.

No witnesses appeared to testify.

III. FINDINGS AND RECOMMENDATIONS

The Committee on Tourism, Cultural Affairs, Youth, and Public Broadcasting finds that status offenses such as truancy, possession of alcohol, or possession of tobacco, should not interfere with an individual's ability to participate in government programs or a private agency in receipt of government funds.

...adult symptoms, such as suicidal thoughts, say researchers who reviewed 23 published studies.

High-risk sex

The analysis found that the reported prevalence of body piercing ranged from 6.8 percent to 14 percent in the general population and from 4.3 percent to 51 percent among teenagers and young adults. Females were more likely than males to have body piercing, which was associated with a wide range of potentially harmful behaviors, such as alcohol use, smoking, drug use, ... is significantly associated with high negative emotionality and low positive emotionality in young females.

Age bias

"A number of studies provide evidence of an association between BP and high-risk behaviors and point to a possible relationship with certain personality traits and self-reported psychopathological symptoms. However, many of the included studies are based on samples of adolescents or college students, where these behaviors might be more frequent than in other age groups. This age bias might ... by normal practice and should perhaps not be considered as a marker of deviance," the researchers noted.

Recommendation

"In most studies reviewed in this paper, psychopathological symptoms as well as BPs were both self-reported, introducing a possible social desirability bias. However, this review of literature indicates that it could be useful for general practitioners to screen for high-risk behaviors in body-pierced subjects and for psychiatric symptoms such as suicidal ideation, and to help patients explore the role of BP in their identity."
