II. COMMITTEE PROCEEDINGS

Chairman Vicente Pangelinan. The next bill on the agenda is Bill 95-32, an act introduced by Speaker Won Pat. It's an act to appropriate three million escheated to the General Fund for purposes supporting unfunded government obligations. I have, signed up to testify, Lieutenant Michael Archangel, with written testimony submitted, and he is here for Chief Bordallo. I also have Carl Dominguez, Mr. Arthur Clark from the Governor's Office, Tony Blaz, Paul Suba signed up, supporting the bill, and Mr. Benavente, were you going to testify? We'll go ahead and begin. Speaker Won Pat, please give a short summary, and we'll have the witnesses present their testimony.

(a) Bill Sponsor Summary

Speaker Won Pat. Thank you very much, Mr. Chairman. Bill 95 seeks to capture any unclaimed tax refunds—checks that have already escheated to the government of Guam as of Fiscal Year 2012. The bill will appropriate $1.4 million to the Department of Revenue and Taxation for real property valuation. I know that this is tied to another bill that has to do with—when you pay to have the real property valuation done it brings in more money for TEFF which is the Territorial Education Facilities Fund. Then, of course, at the same time, it increases the debt ceiling—I realize that.

The second is that $500,000 will be appropriated to the Department of Public Works for the acquisition of property for the Tiyan Parkway Project.

Third is $700,000 to the Department of Administration for acquisition of software migration, fiber connection, security of government-wide activity directory, and upgraded infrastructure for government of Guam network-related purposes.

Fourth is $400,000 to the Guam Police Department for the purchase of completely marked police vehicles and a whole other description to it.

Last, but not least, is to get the Better Public Service—the Cash Economy Enforcement Act in 2011—to get us off the ground is that $100,000 is being appropriated to the Better Public Service Fund to be administered by the Department of Revenue and Taxation to support that Cash Economy Enforcement to bring in revenues that are being lost so that we can provide the additional revenues for the government of Guam.

Chairman Vicente Pangelinan. Thank you very much, Madame Speaker. We can go ahead and begin.

Speaker Won Pat. Can I just say that this has been in existence since 1986—by law?

Chairman Vicente Pangelinan. Mr. Dominguez and then Mr. Clark.

Mr. Carl Dominguez. Håfa adai and good afternoon, Mr. Chairman, Madame Speaker, and Members of the Committee. Thank you for the opportunity to testify on Bill 95-32. The DPW is in support of the portion of this bill that appropriates $500,000 for the acquisition of property for the Tiyan Parkway Project.

We need this money to acquire at least one—possibly two—of the six parcels of the Ancestral Lands in what's called the *Phase II* portion of the project in order to make this project work. We're in full support of this bill. Thank you.

Chairman Vicente Pangelinan. Thank you very much, Mr. Dominguez. Mr. Clark?

Mr. Arthur Clark. Thank you, Mr. Chairman; Senators. Actually, I'm here in behalf of the Governor's Office in favor of all of the portions of the bill but in particular, my presence here was requested by DPW because relative to—as Mr. Dominguez indicated here—the $500,000 for acquisition of property for the Tiyan Parkway. I've been involved in discussions and meetings with the various entities—including the airport and also the Federal Aviation Administration. In the event that there were any questions that came up in that regard, I wanted to make myself available for the information of all the members of the legislature. I have met, already with—I think it's been a couple of months ago—with Senator Ada (Tom) and with Senator San Nicolas who chair the committees over the airport and DPW to keep them apprised of the discussions and the developments towards the Tiyan Parkway.

Most recently, I promised Senator (Tom) Ada that this week I was going to try to get a hold of him again to give him an update, and I was going to extend the same courtesy to Senator San Nicolas to keep him updated on the progress.

As you know, there are about 14-15,000 cars that traverse through the Tiyan Parkway in its current configuration. We're trying to avoid the closure of Central Avenue and the inconvenience that it's going to cause and to overburden and stress the highway surrounding the airport and the Tiyan Parkway. We're moving in that direction. We've been in good faith,

earnest discussions with the airport and with Federal Highway and Federal Aviation so I'm here to make myself available in case there are any questions that come up in that regard.

Chairman Vicente Pangelinan. Thank you very much, Mr. Clark. Mr. Blaz?

Mr. Anthony Blaz. Thank you very much, Mr. Chairman, Madame Speaker, and Members of the Committee. We are wholeheartedly in favor of Bill 95-32. This bill will enable our government to enhance revenues by updating our real estate property tax assessments; improve the Tiyan Parkway—put more vehicles on the streets; and improve the government-wide networks and improve our collection enforcement.

This escheat law has been in the books since 1976 for unclaimed checks and in 1986 for dormant accounts. In practice, these funds are transferred to the General Fund until the statute of limitation has been completely exhausted. The Division of Accounts became aware of and started the escheat process in Fiscal Year 2004. The bill would allow the government to dedicate the revenue stream to improve our revenues for infrastructure and services. We'd like you to know that the practice is not to escheat these funds until the end of each fiscal year, after we've exhausted the statute of limitations which is a total of four years.

This allows the taxpayer the opportunity to come to our office and claim these funds. The funds identified will not be available until the subsequent year. The Department of Administration is wholeheartedly in favor of Bill 95-32.

Chairman Vicente Pangelinan. Thank you very much, Mr. Blaz. Mr. Camacho?

Mr. John Camacho. Thank you, Mr. Chairman; Madame Speaker; Members of the Committee for the opportunity to testify on Bill 95-32, specifically on the issue of the revaluation of the real property of the entire island of Guam. The additional funding of the $1.4 million needed to actually complete revaluation of property in need. This will bring in additional revenue as the values will eventually go up. Secondly, DRT has seen the passage of PL 31-135, for the Cash Economy Act of 2011 and jump-start this program, and we are very anxious to go out and look at all the cash transactions, taxpayers that are happening out there. Again, the DRT fully supports this bill.

Chairman Vicente Pangelinan. Speaker Won Pat, do you have any questions? Senator Muna Barnes?

Senator Muna Barnes. Thank you, Mr. Speaker. A question to the funding for the valuation—the property revaluation—the support for the $1.4 million... my question to you, John, after the revaluations are done, what about the maintenance of those? Where are we going to get it?

Mr. John Camacho. We currently have maintenance for the Real Property system that we have. Every year, we bid it out so the person who will be maintaining our system will be a vendor that would carry out the Real Property system.

Senator Muna Barnes. Would there be sufficient funding for the maintenance after the revaluation?

Mr. John Camacho. We normally get a portion of the appropriation from our budget for the maintenance.

Senator Muna Barnes. I guess my concern is this valuation would be for the vendor to go out and do the appraising, am I right?

Mr. John Camacho. That is correct.

Senator Muna Barnes. So after the appraising, you're going to have to record it, put it in the system… am I right?

Mr. John Camacho. Yes.

Senator Muna Barnes. So wouldn't you need something to update, maintain, and keep, or will this funding suffice, after?

Mr. John Camacho. We're required to do the revaluation every five years. If you're looking at another valuation, that would be something that we have to look forward. We're doing the revaluation for Tax Year 2013. The next revaluation is due in five years. That is something we would have to address later.

Senator Muna Barnes. Do we have to go back to the drawing board, or is there something to augment what would already be after valuation coming up if this were to go through?

Mr. John Camacho. If this were to go through, it would establish the rates for all the properties on Guam, and thereafter, the rates will be applicable—applied every year until another revaluation occurs which is in another five years.

Senator Muna Barnes. Thank you, Mr. Chair.

Chairman Vicente Pangelinan. Thank you very much. Senator Ada?

Senator Tom Ada. I just have a question on this half-a million dollars for the Tiyan Parkway. Do we know, with some certainty, if when that money is made available and GovGuam purchases a couple of the tracts, would that be the last piece that is necessary to get this Tiyan Parkway in motion?

Mr. Arthur Clark. Yes. That's what we've been advised by the airport and by FAA.

Senator Tom Ada. With this money being made available, are there those two tracts of land—one or two—that have already been identified—just give me the money and—

Mr. Arthur Clark. Yes, Land Management has reached out—I take it back—Land Management, initially, then Guam Housing together with GEDA, have reached out to the owners of these six tracts and have indicated the government's willingness to enter into negotiations for the purchase of these properties. There has been some interest expressed by most—I don't think all of them—but most of them have expressed an interest in negotiating. We are waiting for final appraisals which, we anticipate, will be happening shortly so that we can lock down the numbers so that when we start negotiating, it's not speculative, it's not based on old appraisals, it's not based on current draft appraisals, but these are current numbers that will allow the parties to move forward with good faith negotiations. But interest has been expressed in some of these parcels.

Senator Tom Ada. Just one question for DPW, what stage of completion is the design for the first phase of Tiyan Parkway?

Mr. Carl Dominguez. As of this week, we're just slightly ahead of 60%.

Senator Tom Ada. Thank you.

Chairman Vicente Pangelinan. Senator Duenas?

Senator Chris Duenas. Can I be number three co-sponsor? Thank you, Mr. Chair.

Chairman Vicente Pangelinan. Thank you. Senator Ada?

Senator V. Anthony Ada. Thank you, Mr. Chair? Do we know exactly what tracts these are already identified for purchase?

Mr. Arthur Clark. Yes, we do.

Senator V. Anthony Ada. That way we can have them placed in the bill. I don't want, arbitrarily, to say that we're going to—acquisition of property and we don't have it listed it—what properties are going to be…

Mr. Arthur Clark. I don't think that's a problem. We can identify the specific tracts that we're trying to acquire.

Senator V. Anthony Ada. The size and description…

Mr. Carl Dominguez. We have that information.

Senator V. Anthony Ada. Thank you. Thank you, Mr. Chair.

Chairman Vicente Pangelinan. On the acquisition of this property… typically, property that is funded by partly by federal grants and federal highway funds, acquisition of properties included in the construction… is there any reason why we're not able to access the federal grants or federal highway funds for the construction of this?

Mr. Arthur Clark. Well, there are two phases to this project: Phase I and Phase II. Phase II is the property that we're trying to reacquire—GovGuam—and that's ancestral properties and returned to the original owners. Phase I is the area that's closer to where you come out by Cars Plus and that particular area. The Federal government and federal highway is making money available. I think some of the estimates are between 4-5 million dollars in that neighborhood to acquire that property from airport.

Chairman Vicente Pangelinan. So we're paying the airport for their property with federal highway funds?

Mr. Arthur Clark. Yes.

Chairman Vicente Pangelinan. And we're doing this because of the convenience and the needs of the airport to comply with?

Mr. Arthur Clark. We're doing this because they own the property.

Chairman Vicente Pangelinan. No, but the moving of the road is to comply with some airport requirements for safety zones and things like that?

Mr. Arthur Clark. It's because they've expanded the runway to allow the long liners to come in so it's for the benefit of the island and the entire population of people, right?

Chairman Pangelinan And yet the airport still wants us to pay them, but they won't contribute anything back to us?

Arthur Clark Maybe we can revisit the $260,000 after we give them the five million dollars.

Chairman Vicente Pangelinan. That's right. That's what I mean… the airport says they can't do—they're under restrictions, but… I think that's what drives Senator Cruz and me, sometimes.

Mr. Arthur Clark. I'm happy to have a discussion with both you and Senator Cruz on some of these issues. Maybe there might be an alignment of efforts there, but as to the Phase II portion, the reason that the federal government will not give us money to reacquire that property is because they gave the property to GovGuam. They've essentially said, we gave the property back to you, and we're not going to give you money to purchase property we already gave back to you is what the response has been.

Chairman Vicente Pangelinan. John, the legislature authorized the Department of Revenue and Taxation to use monies from the Additional Child Tax Credit reimbursement to meet the needs of the agency inclusive of the appraisal. How much money, since we've started floating bonds and paying out the refunds, in Additional Child Tax Credit reimbursements, has the department received?

Mr. John Camacho. Overall—I don't know that number right now, but for example, the last spell that we paid out the $21 million, I think we got back about 5 million dollars so 10% of that would be about $500,000 for our purposes.

Chairman Vicente Pangelinan. And of the $260 million that we paid out?

Mr. John Camacho. I'd have to go back and check on that, Senator. I don't know the numbers.

Chairman Vicente Pangelinan. Can you just guess, John?

Mr. John Camacho. It's probably around three to four million dollars, maybe.

Chairman Vicente Pangelinan. So the department has received that amount?

Mr. John Camacho. Yes.

Chairman Vicente Pangelinan. And it has chosen not to use it for the re-appraisal?

Mr. John Camacho. I think we did use part of it for the Phase I, updating our records. That was the Phase I that we did—I'm not too sure... the exact amount, but the Phase II is what we're actually doing right now—trying to bring in the certified appraiser to appraise the entire island. That's the second phase.

Chairman Vicente Pangelinan. But the department has received money that could have covered this?

Mr. John Camacho. Yes.

Chairman Vicente Pangelinan. Mr. Blaz, how does the Department of Administration recognize the escheated revenues? Where is it in your financial statements?

Mr. Anthony Blaz. It's in the Use of Money and Property.

Chairman Vicente Pangelinan. And when you put that in your revenue budget which is a revenue line item, are we re-appropriating this money then?

Mr. Anthony Blaz. I guess the current budget, as of fiscal 2011, I believe—I don't have it in front of me—I believe $400-some thousand was in the escheated amount. And then, I guess during the whole process at the end of the fiscal year, we found—for fiscal year 2012, when we did our own accounting, closed the books, the escheated amount was about $3.167 million, and that's the escheated amount that's there. That's available for fiscal year 2013 appropriation.

Chairman Vicente Pangelinan. And you said it wasn't appropriated?

Mr. Anthony Blaz. It wasn't appropriated. I know, Senator, in fact, I can work with your staff tomorrow—there's some updated ones as well so to provide for your information.

Chairman Vicente Pangelinan. Yes, because in our earlier conversation, you had indicated that the escheated amount is not in the Use of Money, and it actually is in that revenue account.

Mr. Anthony Blaz. Yes... it's in the revenue account. But I know that this is unappropriated for this $3.167 million for the escheated funds.

Chairman Vicente Pangelinan. Thank you very much. There being no further discussion on this bill, Bill 95-32 has received its public hearing.

This concludes the testimony on Bill No. 95-32. There being no additional individuals to present any additional testimony, this Committee will continue to remain open for the acceptance of any additional information or public testimony on the bill discussed. You can submit those testimonies to my office directly on Soledad Avenue, as well as the Guam Legislature or through any of the electronic processes either email at office@senbenp.com or through our website at senbenp.com.

This hearing is adjourned.

FINDINGS & RECOMMENDATIONS.

1. The Committee on Appropriations, Public Debt, Legal Affairs, Retirement, Public Parks, Recreation, Historic Preservation, and Land (Committee) finds that Bill 95-32 contains multiple unrelated appropriations and is out of order according to Section 6.01(a) from Rule VI of the *I Mina'Trentai Dos Na Liheslaturan Guåhan* Standing Rules, which states:

> **(a) One Subject Matter.** No bill introduced, considered or passed by *I Liheslaturan Guåhan* (the Guam Legislature), or any of its Members, *shall* contain more than one (1) subject matter, and *shall not* contain unrelated subjects or pertain to multiple projects, except for one (1) annual budget bill and one (1) supplement to the annual budget bill per fiscal year; except that, the succeeding Guam Legislature may, on the year it commences, introduce, consider and pass, one (1) supplement to the annual budget bill for that fiscal year, whose subject and contents may be exempted from this Section (See also 2 G.C.A. §2108(a)).
>
> The Chairperson of the Committee on Rules *shall* not accept and *shall* return to the prime sponsor any bill, which on introduction or on reporting out by Committee, violates this Section, as determined by the Chairperson of the Committee on Rules.
>
> No bill, amended bill, or substitute bill *shall* be entertained on the Floor with non-germane items, except as allowed in this Section. The Speaker *shall* rule on the germaneness of any item of any bill challenged by a Member, and if the Speaker rules that an item is non-germane to the bill's primary subject matter, unless the Speaker is overruled by the body as described elsewhere in these Rules, the item *shall* be removed prior to the final vote upon the bill.

Bill 95-32 contains multiple appropriations for multiple unrelated projects; therefore, the Committee recommends only one appropriation be allowed in the bill to be reported out of Committee.

2. Section 1(b) of Bill 95-32 contains authorization for the condemnation of ancestral land and therefore requires separate consideration by *I Liheslatura* together with appraisals that have not yet been provided pursuant to § 2107(a) and (b), Title 2 of the Guam Code Annotated as follows:

> (a) Every bill authorizing the sale, gift, disposal, transfer, or trade of government of Guam land (hereinafter called transfer of land or land transfer), and every bill authorizing the leasing of any government land for more than two (2) years shall contain only matters reasonably related to one (1) such transaction, and may not be considered with any other transaction or any unrelated matters, unless the particular transaction is a transfer or trade which involves the taking by the government of Guam of more than one privately-owned lot at essentially the same time for the same public purpose and project, in which case the bill may contain all matters related to that transfer or trade. No authorization for such land lease or land transfer may be considered as a "rider" or amendment to another bill, and neither may any unrelated amendment or "rider" be considered by the Legislature on any bill which authorizes the lease or transfer of land.
>
> (b) No such bill authorizing the transfer of land or leasing of land may be considered by the Legislature on third reading unless accompanied by two (2) appraisals on all land concerned, appraised for highest and best use regardless of zoning, from two separate licensed real estate appraisers, one (1) of which appraisals is not more than twelve (12) months old, and which appraisals are paid for by the transferee. If the transferee is the government of Guam by virtue of exercising its eminent domain power or similar action for specific and identified public benefit, the appraisals, surveys, maps, and recordation shall be paid by the government of Guam. The private land owner shall sign a statement that the person agrees that his paying for the appraisals does not in any way obligate the Legislature nor the government of Guam to approve the transfer. One (1) of the appraisers shall be selected by the Department of Land Management and the other by the private landowner. The average of the two (2) appraisals may be used by the Legislature as the value for the transfer or trade.

3. The Committee finds that the funds escheated to the General Fund, pursuant to § 21116, Chapter 21, Division 2, Title 5 of the Guam Code Annotated are recorded as a revenue to the government of Guam under the category of "Use of Money and Property." The Use of Money and Property is identified as a revenue source under the General Fund in Public Law 31-233.Section 2(I)(C), Chapter 1 of Public Law 31-233 estimated $808,896 to be collected for the Use of Money and Property. As such, the funds identified in Bill 95-32 purport to identify an excess revenue of $5,343,066 of escheated funds, excluding dormant accounts that are also recorded as Use of Money and Property.

4. Article 16, Chapter 22, Title 5 of the Guam Code Annotated creates the Supplemental Appropriations Revenue (SAR) Fund which states that "[t]he revenue sources identified in any... Acts that identify new revenue sources that have *not* been identified in the General Appropriations Act during each fiscal year *shall* be deposited or transferred into the SAR Fund and *shall* be expended exclusively for the purposes set forth by *I Liheslaturan Guåhan* in any... Acts that identify new revenue sources during each fiscal year."

The excess revenues to the Use of Money and Property General Fund category as a result of additional escheated funds that have been identified in Bill 95-32 are required under the SAR Fund enabling legislation, to be deposited or transferred into the SAR Fund and are subject to legislative appropriation.

5. The Committee further finds that § 21116(a), Chapter 21, Division 2, Title 5 of the Guam Code Annotated requires the Director of Administration to cause an audit of the amounts of all government of Guam checks or drafts which *shall* have been unclaimed or outstanding for more than one year from the respective dates thereof. Subsequent to the audit caused by the Director of Administration, said checks are to be cancelled and upon demand by the lawful claimant of said check, a new check is to be issued. The period for which the claimant can claim said check is three years; therefore, a period after four years subsequent to the issuance of an unclaimed check, can such funds be escheated to the government of Guam.

6. A record made of each check or draft was also to be made by the Director of Administration. To date, there has been no detailed record or check register of the unclaimed or unpaid checks that will escheat to the government of Guam, provided to the Committee.

The Committee finds that in Fiscal Year 2009, $112,000,000 was paid for 2006 and prior year income tax refunds pursuant to the requirements of Public Law 30-24 which authorized the issuance of a bond. It is the understanding of the Committee, based on information provided by Mr. John Camacho (Director – DRT); Kathy Kakigi (Financial Manager – DOA); and Mr. Tony Blaz (Deputy Director - DOA) that the period in which the unclaimed income tax refund checks from that bond issuance will escheat to the government of Guam, and the largest percentage of such funds identified in Bill 95-32 are for income tax refunds.

In accordance with Chapters 50 and 51, Title 11 of the Guam Code Annotated and as discussed in depth in the Office of Public Accountability's OPA Report No. 11-10, the process in which income tax refunds are to be paid is via a transfer from the Income Tax Refund Efficient Payment Trust Fund upon a written request from the Tax Commissioner, to the Income Tax Refund Reserve Fund (Reserve Fund). The Reserve Fund is the fund from which income tax refunds are to be paid. *I Maga'låhen Guåhan* has no transfer authority from this fund, and the only expenditures authorized from the Reserve Fund are for income tax refunds.

The Committee recommends that escheated funds identified in Bill 95-32 resulting from income tax refund checks should be reverted back into the Reserve Fund for future payments of income tax refunds.

7. The Committee also recognizes that each Fiscal Year in the General Appropriations Act, *I Liheslaturan Guåhan* appropriates money for the annual Cost of Living Allowance and Supplemental Annuity payment to eligible retirees and their survivors. Checks written against these appropriations unpaid and unclaimed after four (4) years are returned to the General Fund by the Government of Guam Retirement Fund (GGRF).

The Committee finds that for the last several Fiscal Years, the appropriation for the Medicare Reimbursements for retirees are short due to additional retirees becoming eligible for reimbursement during the fiscal year. *I Liheslatura* subsequently appropriates money back to the Retirement funds to pay for additional reimbursement to retirees and therefore recommends that the GGRF retain unpaid and unclaimed checks after four (4) years for the purpose of funding Medicare Reimbursement payments; annual Cost of Living Allowance payments; and Supplemental Annuity payments.

8. Furthermore, Public Law 31-233 provides the Governor of Guam with lump sum appropriations for the departments and agencies that are proposed to be provided additional appropriation authority in Bill 95-32. These departments and agencies include the Department of Revenue and Taxation, the Department of Public Works, the Department of Administration, and the Guam Police Department. BBMR Circular No. 13-01 places a 15% reserve on all these agencies as directed by *I Maga'låhen Guåhan.*

The Committee believes that providing the Governor of Guam lump sum appropriations for each line agency allows exercise of a very flexible authority to manage his budget in a way that he can cover for those appropriations identified in Bill 95-32. In addition, with a 15% reserve in place, it is not feasible for *I Liheslaturan Guåhan* to be providing additional spending authority to the Governor when the spending authority already granted him is being self-reserved. Unless the 15% reserve is lifted and the Governor believes that he needs additional spending authority to cover such projects, the Committee believes it is at that point when further discussion can take place, if funding permits.

(a) In reference to the appropriation of $500,000 to the Department of Public Works for the Tiyan Parkway project, the DPW reported to the Committee that the design of the project is about 60% completed. If the design is not completed on time, the funds appropriated may not be encumbered or expended in time thus causing a lapse.

Further, the appraisals for the property have not yet been provided to the Committee, as promised during the public hearing nor have negotiations with the landowners been resolved. Appraisals and separate consideration of land condemnation measures are required under § 2107, Title 2 of the Guam Code Annotated. The Committee has been informed that the government intends to condemn the property from the ancestral landowners and in turn sell it back to the airport, who can then sell it to the federal government at a higher price. There remain outstanding concerns with the Committee that the ancestral owners are at a disadvantage in these proceedings and that the airport will profit from the government of Guam's condemnation of this ancestral land. The government of Guam will repeat the injustice perpetuated on ancestral landowners by the government, yet the government of Guam has not been assured of any

land transfer or source of funds from the airport to replenish this property or to further compensate the ancestral landowners for their loss.

(b) With regards to the $700,000 appropriation to the Department of Administration, this represents over 9% of an increase in its General Fund appropriations for FY 2013. Public Law 31-233 appropriated $7,756,778 from the General Fund to the Department of Administration. The Committee believes this is as a result of a unilateral decision by the Executive Branch to move the Department of Administration's offices from a rent-free facility to one that costs tens of thousands of dollars per year.

I Liheslaturan Guåhan has not appropriated any funds to object category 233 (Office Space Rental) over the past several fiscal years, and such a move by the Executive Branch to unilaterally increase its expenditure base is an unbudgeted decision made by the Executive Branch that should be funded by the Executive Branch.

The Committee on Appropriations, Public Debt, Legal Affairs, Retirement, Public Parks, Recreation, Historic Preservation and Land, hereby reports Bill No. 122-32 (LS), with the recommendation To Pass.

"An Act to Appropriate the Sum of Three Million One Hundred Thousand Dollars ($3,100,000.00) Escheated to the General Fund, Pursuant to §21116 of Chapter 21, Division 2, Title 5, Guam Code Annotated, for the Purpose of Supporting Unfunded Government of Guam Obligations."

Committee on Appropriations, Public Debt, Legal Affairs, Public Parks,
Recreation, Historic Preservation & Land

Buenas Yan Hafa Adai! On behalf of the men and women of the Guam Police Department (GPD), I wish to express my full support for Bill 95-32(COR).

Section 1(d) of the Bill proposes to appropriate Four Hundred Thousand Dollars ($400,000.00) to the Guam Police Department (GPD) for the purchase of completely marked police vehicles. This appropriation would certainly address our current need for vehicles and will be an addition to the limited number of vehicles in service now. For too long now, the Guam Police Department has had to endure the strain of providing enough working police vehicles to patrol our neighborhoods and respond to calls for service, often falling short of the number required. Too often, patrol officers have been doubling up in a vehicle due to the lack of working vehicles, which can often affect our response time to calls. The availability of an adequate number of vehicles will surely provide better coverage of our villages and streets, which translates to a greater deterrence to criminal activity and improved response. This is the much-needed "shot in the arm" that the department needs to recover from the loss of vehicles experienced due to crashes and survey. Our current fleet is comprised of vehicles purchased as far back as 2004, and our most recent purchase came in 2010. Patrol vehicles should be cycled out at least every 3 years, due to wear and tear from being driven practically 24 hours a day, 7 days a week, all year long.

On behalf of the hardworking staff and employees of the Guam Police Department, we thank you for your continued effort to support the needs of GPD and the opportunity to testify in favor of this Bill. *Dangkulo Na Si Yu'os Ma'ase!*

RE: Bill 95-32

Buenas yan Håfa Adai Senator Pangelinan,

I would first like to thank *I Liheslaturan Guåhan* for the opportunity to comment on Bill 95-32.

> AN ACT TO APPROPRIATE THE SUM OF THREE MILLION ONE HUNDRED THOUSAND DOLLARS ($3,100,000.00) ESCHEATED TO THE GENERAL FUND, PURSUANT TO §21116 OF CHAPTER 21, DIVISION 2, TITLE 5, GUAM CODE ANNOTATED, FOR THE PURPOSE OF SUPPORTING UNFUNDED GOVERNMENT OF GUAM OBLIGATIONS.

I understand the intent of Bill 95-32. The Department of Administration is in favor of the bill. This bill sets aside funds that will enable our government to: (a) enhance revenues by updating our real property tax assessments, (b) improve the Tiyan Parkway, (c) put more police vehicles on the streets of Guam, (d) improves the government-wide networks, and (e) improves our collection enforcement. In addition, *I Liheslaturan Guåhan* has the foresight to include a sunset provision.

The escheat laws have been on the books since 1976 for unclaimed checks and 1986 for dormant accounts. In practice, the funds are transferred to the general fund after the statute of limitation has been exhausted. The Division of Accounts became aware of and started the escheat process in fiscal year 2004. This bill would allow the government to dedicate that revenue stream to improve our revenues, infrastructure, and services.

We would like to remind *I Liheslaturan Guåhan* that it is our practice not to escheat these funds until the end of the fiscal year and after we have exhausted the statute of limitations which is a total of four years. This allows taxpayers to opportunity to come to our office and claim these funds. As such, the funds identified will not be available until the subsequent year.

The Department of Administration is strongly in favor of passing Bill 95-32.

Buenas yan Hafa Adai, Mr. Chairman and Members of the Committee:

Thank you for giving the Department of Public Works the opportunity to review Bill 95-32, "An act to appropriate the sum of three million one hundred thousand dollars ($3,100,000) escheated to the general fund, pursuant to §21116 of Chapter 21, Division 2, Title 5, Guam Code Annotated, for the purpose of supporting unfunded Government of Guam obligations."

The DPW supports the bill to offer the amount of $500,000 for the acquisition of property for the Tiyan Parkway project. These funds are direly needed to begin the process of not only acquiring the required land, but also spawn the progress of gaining the appropriate GARVEE funding for this project, Hamburger Road, and Ypao Road.

The Department commends I Mina'Trenta Dos Na Liheslaturan Guahan and appreciates its support in building better roads.

On behalf of the DPW, I would like to thank you for the opportunity to provide our input on this proposed legislation. If you have any questions or require any additional information, please do not hesitate to contact me.

Buenas Yan Saludas:

The Department of Revenue & Taxation (DRT) hereby submits written testimony regarding the aforementioned proposed legislation. DRT would like to thank the sponsors of this legislation for the following reasons:

1) DRT is currently conducting the Real Property Revaluations as required by law for the year 2013 and requires additional funding to complete said project. The $1,400,000 will be used to refine and insure arms-length data is collected so as to revalue properties to existing market models and conditions. The result should reap additional tax revenue without adjusting tax rates.

2) DRT has seen the passage of P.L. 31-135 known as the "*Cash Economy Act of 2011*" and can jump start the program with the designated $100,000 in this bill.

Should you have any concerns on this matter, feel free to contact me at 635-1815.

Comments:

1/ Should the proposed legislation become law, the sum of four hundred thousand dollars ($400,000) will be appropriated to the Guam Police Department. The intent of the bill is to allow GPD to purchase completely marked police vehicles which shall include, but not be limited to, graphics, emergency lighting, sirens, police/radio communication system, and a prisoner transport system. According to Department of Administration, there is available funding in the General Fund's escheatment account to cover the cost of the appropriation. However, due to the nature of the escheatment account being funded by unclaimed tax returns, an estimated value of the account could not be determined because of the uncertainty concerning the amount of unclaimed tax returns being claimed between this current date and the end of FY13. It should be noted that the funds being appropriated through this bill must be expended by the department within one full year of this bill's enactment, in which any leftover funds after one full year will no longer be available to the Guam Police Department and reverted back for future appropriations to *I Liheslaturan Guahan*.
