Subject: Zone Change Application for 5224-3-1-R1, from "R-1" to "M-1" in Barrigada, Guam

Hafa Adai Mr. Borja:

On behalf of Ian Corporation, Inc. (ICI), owner of the above referenced property, I am pleased to submit 32 sets of this Zone Change Application for review and approval by the Guam Land Use Commission (GLUC). The application seeks GLUC approval, of a Zone Change to allow Warehousing, Offices, and Accessory Uses on the above subject lot.

We look forward to working with The Department of Land Management and the other agencies tasked to review this application and our eventual presentation before the Guam Land Use Commission. Thank you for your valuable time and consideration.

3. Current and Proposed Land Use:

Current Use: Intermittent Off-site Parking Zoned: "R-1"(Single Family Dwelling)

Proposed Use: Allow warehouse, Office, Accessory Uses; GCA S61309(a) Proposed Zone: "M-1" (Light Industrial)

Master Plan Designation: (No updated area master plan)

4. **Attached a one page** typed, brief and concise justification (letter format explaining the compatibility of the proposed project with adjacent and neighborhood developments as they exist; your intentions and purpose of the Zone Change request justifying public necessity, public convenience and general welfare in accordance with ***Guåhan Code Annotated 21 GCA, Chapter 61, Section 61630.***

5. **Support Information.** The following supporting information shall be attached to this application:

a. 8 1/2" X 14" map, drawn to scale, showing existing zoning within 1000 feet radius from the subject lot's boundaries.

ATTACHMENT: Section 61630 (Requirements For Changes) and Section 61638 (Review by Municipal Planning Council is attached for your information and guidance in preparation of your Zone Change Application. For additional requirements, visit the Zoning Section, Land Planning Division.

ZONE CHANGE

5. Supporting Information (Continuation):

b. All parcels and their uses within 750 feet radius from the subject lot's boundaries. The map shall also contain:

(1) Lot number for every parcel(s);
(2) Identify by name and use all existing activities on all parcel(s) through a legend/code reference;
(3) All adjacent inclusive and exclusive easements and roads to the property, their widths, and condition of surfaces;
(4) The nearest location of all public utilities to the subject lot;
(5) All natural or topographic peculiarities.

c. 8 1/2" X 14" map, drawn to scale, showing all parcels within 500 feet radius of the subject lot's boundaries. Each parcel shall be identified with property lot number.

d. The most recent survey map, certified and recorded at the Department of Land Management, showing the subject property.

e. A detailed As-Built Plan of the lot shall include the following:

(1) Total number and types of building;
(2) Parcel size in square meters/feet;
(3) Layouts of utilities and drainage;
(4) Proposed lot coverage of building(s) and accessories in square meters/feet;
(5) Approximate gross and net densities allowed on parcel;
(6) Feasibility study;
(7) Topography;
(8) Existing earth faults and sinkholes;
(9) Water courses and lens;
(10) Reservation, conservation and historic places;
(11) Total percentage of open spaces exclusive of parking stalls and other man-man features;
(12) Percentage of building footprint (PD only); and
(13) Compatibility to surrounding uses (PD only).

f. If leased, lease agreement (the assignment of lease and the covenant).

g. An initial comprehensive ***Environmental Impact Assessment (EIA)*** in accordance with Executive Order 90-10.

h. Additional information as required by the Guåhan Chief Planner

Submit one set of the Application with all the supporting information listed above. Once the Application is reviewed and accepted, applicant must submit the required number of hard copies (32 sets) of the Application and nine (9) copies of the Application in electronic format (example: in CD format, etc.)

6. Filing Fee: Fifty Dollars ($50.00) filing fee for the first five pages, and $.25 for any additional page, under Public Law 29-02, Chapter V, Part III *(Fees and Charges Assessed by the Department of Land Management).*

Justification

Background.
Ian Construction, Inc. desires to construct and operate a warehouse with office facilities as they move forward and grow their operations in support of the construction industry on Guam. They provide a particular life saving product; the lightweight Shoring and Shielding Systems which they represent locally. Ian Construction, Inc. will locate its main warehouse operations, presently located on Route 8A in Barrigada, to this more accessible and central location. It is a more appropriate location for an "M-1" zone, especially with the property's close proximity to the Guam International Airport. With the property located within the AICUZ, a more appropriate use is "M-1" rather than the potentially increased number of residences permitted by the present "R-1" zone.

Location.
Lot 5224-3-1-R1 is a vacant lot fronting Benigno Benavente Street, which is a fifty foot wide access easement. Benigno Benavente Street intersects with Bello Street, a fifty foot wide access easement. The project site is located 3 lots north of Bello Street. The lot contains an area of 1,793 square meters (19,297 SF) as shown on the attached property map (Exhibit G). Both streets have 2 lanes of asphalt pavement, with graded shoulders. Both streets and shoulders are well maintained and are in excellent condition.

Infrastructure.
Water and power for the property are immediately available for connection and are located on Benigno Benavente Street. Preliminary field review has not revealed the existence of any threatened or endangered flora and fauna on the project site. Nor are there any known archaeological, historic, or cultural features on site.

We submit the following justification requirements for this Zone Change application as required by *21 GCA, Chapter 61, Section 61630.*

a. Compatibility of the proposed project with adjacent and neighborhood developments as they exist;

Response:
The proposed light industrial activity is for warehousing and offices; and is compatible with the existing nature of adjacent and neighborhood uses. The property adjacent to the north is zoned "M-1", is presently used for open storage of construction materials, and will soon be used to provide parking for the proposed warehouse activity. This adjacent north lot is owned by the same owner. The property 1 lot away toward the south, and at the corner, is zoned M-1 and is used by Orion Construction for construction activities and for their Temporary Workforce Housing Facilities. The 2 neighboring properties, located immediately adjacent to the rear are zoned M-1; as well as the 5 lots adjacent to them in that rear neighborhood. The property's location along the take-off and landing flight path of the Guam International Airport, within an Air Installation Compatible Use Zone (AICUZ), serves to discourage full use of the existing "R-1" zoning. The Guam International Airport's AICUZ designations nearby, favors

A Comparison Chart			
Zoning Categories	Proposed "M-1" Zone	What is Allowed in Present "R-1" Zone	Uses Present on Site (Lot 5224-3-1-R1)
Use	Warehouse, Offices, and Accessory Uses	Permitted Uses include Duplexes, Multi-family dwellings, Hotels, etc. All Conditional Uses allowed only w/ GLUC approval.	This lot is presently zoned "R-1" and used as an open storage yard for building materials.
Height/Storey	Proposed Warehouse Building is 26" in height, and is within MBH legal allowance	Standard Height Limitation (SHL) is 30' Standard Storey Limitation (SSL) is 3	No buildings presently on project site
Parking	Required Parking for proposed Uses, Employees, Storage area, Loading/Unloading, and ADA will be provided off-site	Required Parking for all activities must be provided	No buildings presently on project site
Setbacks	F=8'3"; R=20'0; LS=8'; RS=10'1"	F=15'0"; R=10'0"; S=8'0"	No buildings presently on project site
Landscaping	Greater than 10% of total land area will be in landscaping using local flora	Not Required for uses permitted in "R-1" zone. May be required for Conditional Uses.	No buildings presently on project site.
Density (Area is 0.44 Acres = 19,289SF)	No residential uses proposed.	**Northern Aquifer "R-1"** **W Sewer = 3.85 DU** (i.e., 19,297 / 5,000sf = 3.85 Minimum Lot size – 5,000sf)	No building or residential uses presently on project site

GUAM ENVIRONMENTAL PROTECTION AGENCY (GEPA)
ENVIRONMENTAL IMPACT ASSESSMENT (SHORT FORM)
October 1999

GEPA has developed this EIA form for use by developers proposing projects or land use activities, which may pose only insignificant environmental impacts. This form is provided as an alternative to the EIA standard format provided to satisfy the requirements of Executive Order 96-26. If potential environmental impacts and issues are assessed or determined to be significant either by the applicant or GEPA, a more detail EIA may be required including a thorough presentation and discussion of alternatives as required by the *Guidelines for the Preparation of Environmental Impact Assessments and Statements* (GEPA October 1999).

This EIA format constitutes the minimum necessary assessment and disclosure of potential impacts for a project. This form may also be used as a preliminary scoping guide or checklist in consultation with the Agency.

Case No: _____

Project Title: Rezoning From "R-1" to "M-1" To Allow Warehouse, Offices, and Accessory Uses for Construction Equipment, Materials and Supplies.

1. Name, address and business telephone of applicant: Ian Corporation PO Box 26764, Barrigada, Guam 96921 Tel: (671) 734-3939

2. Name, title and telephone number of representative: Richard J. Sana, Principal, FC Benavente, Planners (671) 687-9865

3. Name, title and telephone number of EIA document preparer: Richard J. Sana, Principal, FC Benavente, Planners (671) 687-9865

4. Location of the proposed project: (include tract, block, lot, municipality and a location map) Lot 5224-3-1-R1, Barrigada, GU

5. Describe the general nature or type of proposed project: To allow Warehouse, Offices, and Accessory Uses for Construction Equipment, Materials, and Supplies to support construction activities related to local organic growth in Guam and Micronesia, and the ongoing and upcoming military buildup on Guam.

6. Are the following critical environmental factors affected by the proposed project? If yes, describe the impact and state why it would not be significant. If not affected, provide reasons why. If more space is required refer to and attach additional sheets.

a. Ground water recharge area: The property is located within the boundary of the Northern Guam Aquifer however, will not be expected to significantly impact the groundwater recharge area due to adequate provision and design of a stormwater management system.

b. Watersheds: The property is not located within a major watershed and will not be expected to impact any watershed.

c. Wellhead protection zone: The property is not located near any wellheads; subject to GWA, GEPA determinations.

d. Marine waters: The property is not located near marine waters.

e. Reef flats: The property is not located near reef flats.

f. Pristine forest: The property is not located within the pristine forest.

g. Critical habitat area: The property is not located within a critical habitat area.

h. Wetlands: The property is not located within a wetland area.

i. Flood hazard area: The property is not within the flood hazard zone.

j. Archaeological feature(s) or historical sites: The property is not located within an archaeological or historical sites; subject to DPR/HPO determinations.

7. Will the project result in any of the following environmental or infrastructure impacts.

a. Production of toxic or hazardous waste: No. Any production of toxic or hazardous waste will be disposed of accordingly in compliance with local and federal regulations.

b. Dislocation of existing businesses, residents or public areas: No. There will be no dislocation of any businesses, residences, or public areas on the property.

c. Production of air contaminants (temporary or permanent): There will be some production of dust and fumes from emissions by construction equipment and will be mitigated in accordance with applicable regulations.

8. Will the project require an increase in the requirements for any of the following public service (provide estimated quantities or volumes)? If answering yes to any of these items you must describe how the impact affects current infrastructure capacity. In addition, if the applicant/ developer proposes contributions or mitigation to offset impacts, describe the contribution or mitigation.

a. Drinking water: Water service is available along Benigno Benavente Street fronting the property. Water demand will be primarily for employees and will not significantly impact the water service.

k. Sewage disposal (public system): Public sewerage is available via Guam Waterworks Authority systems in place. No significant impact to the sewer system is expected.

l. Vehicle traffic: The use is not expected to significantly increase existing traffic in the area. Employees and customers are minimal.

9. Will clearing and/or grading be required (include the number of acres and a general description of site soil and slope conditions): Clearing and grading will be required during construction. Approximately ½ acre is impacted, soil condition is shallow clay and relatively flat.

10. Will the project utilize an individual waste water disposal system such as septic tank/leaching field system, secondary package treatment system, etc.?) The project will utilize the public sewer system available on the public utility easement and rights of way fronting the property.

11. Will the project include the use of above or below ground storage tanks for fuel or water? No. there are none anticipated at this time. But will comply with regulatory permit requirements if needed.

12. Does the project require permitting, land resources, financial and or other assistance from the federal government (please provide type of permit, issuing agency, application dates, and contact person)? No. There will be none required.

13. Does the project include any special or unique features that are not covered above? No.

If preliminary construction drawing, site plans, or related documents are available please provide such as attachments. For more information and assistance you may call GEPA Environmental Planning & Review Division at 475-1662/3.

DECLARATION BY APPLICANT

Based on this assessment, it is reasonable to expect that this project will not result in significant adverse environment impacts. I/we hereby declare a "finding of no significant impact".

Applicant (Signature) — Date: 8.11.16

Providing false or misleading information in this assessment may constitute grounds for permit and EIA suspension or disapproval until such time as the applicant or document preparer makes all appropriate amendments or corrections as required by Guam EPA. Statements made in this form are binding for the purpose of environmental protection and the preparer and/or applicant is responsible for the timely implementation of protection and mitigation measures identified. Failure to fulfill stated avoidance, minimization or mitigation measures may also constitute grounds for Agency enforcement actions to the full extent of all applicable environmental regulations and statues.

GEPA-EPR001 (12/12/96)

AFFIDAVIT OF AUTHORIZATION

I, Ian JH Chong, Authorized Representative of Ian Corporation, resident of Guam, of legal age, as owner of Lot 5224-3-1-R1, located in Municipality of Barrigada, Guam, through this instrument hereby depose and say the following:

1) That FC BENAVENTE, PLANNERS, Consultant, is hereby authorized to request the Guam Land Use Commission to review and consider this request for approval of a Zone Change Application at the above mentioned location; and

2) That our authorized Consultant may conduct himself accordingly to arbitrate, negotiate, commit, revoke, represent, mitigate and abate the proposed project through all reviewing instrumentalities involved in the Zone Change Application process.

In TESTIMONY THEREOF, I/We hereunto affix my signature to my/our deposition.

Ian JH Chong, Authorized Representative

RECEIVED
JAN 06 2017
MAYORS' COUNCIL
OF GUAM

Honorable June U. Blas
Mayor of Barrigada

Dear Mayor:

The following application has been filed with the Guam Land Use Commission (GLUC) by:

The Applicant, Ian Corporation, represented by F.C. Benavente, request for a zone change from "R-1" (Single Family Dwelling) to "M-1" (Light Industrial) zone to allow Warehousing, Offices and Accessory Uses on Lot 5224-3-1-R1, in the Municipality of Barrigada, under Application No. 2016-40.

For any **Zone Change** requests that may have adverse impact on the public's interests, the GLUC is mandated by law to conduct a public hearing in the municipality where the subject lot is located. Accordingly, we would like to schedule a public hearing to be held at the **Barrigada Community Center, January 17, 2017, at 6:45 p.m.**

Please confirm the time, date and place.

Si Yu'os Ma'ase,

MARVIN Q. AGUILAR
Guam Chief Planner

ATTACHMENT (PUBLIC HEARING MINUTES OF JANUARY 17, 2017) ; CASE NO. 2016-40

The required public hearing was held at the Barrigada Mayor's Office / Community Center on January 17, 2017, at 6:45 P.M. Present were, the Case Planner, Mr. Richard Sana, the Applicant's Rep, Mayor June Blas, Vice mayor Jessie Bautista, a few MPC Members, neighbors and lotowners. A total of 10 persons were in attendance.

The Case Planner presented the proposed project and read the positions statements from various agencies and departments. Mr. Sana also highlighted the full extent of the proposed development on the site.

Public comments and concerns that were noted are as follows:

Mr. Frank Benavente, (Neighbor nearby and MPC member):

He expressed concern of the narrow access/road (Belo Road) fronting the site and he wanted to advise the applicant to keep trucks from parking on the roadside if possible and that keep tires clean from trucks from the field as mud is brought in to the streets in Bello area. Advise developer to clean their muddy tires coming the field, this will fair to the neighborhood. He has stated again of no objection to the rezoning application of IAN Construction.

Response from Mr. Sana (representative):

Mr. Sana responded and stated that the owners will adhere and improve their operations and be good neighbors keeping Belo Road and other easements clean and safe for commuters to travel on a daily basis in the area.

Response (from the Case Planner) :

Based on information on their application and discussion with their consultant, the owners/applicants will equipment and visitors access to and from Belo Road to Route No 16 (near GIAA underpass) and to Alageta Street (Route No. 25, Alageta/GIAA access). The applicants will ensure to make improvements only up to the front line of their property to improve and safe access to the street.

Mr. Sana (representative):

Mr. Sana had further explained in detail other aspects of the zone change application, proposed uses as noted on the application...that the site will be fenced and any Commission or ARC conditions imposed, to include landscaping to provide a buffer between the residences nearby, again...he reassured the public that his clients will be making improvements of the site and operations and to protect the neighbors and to further comply to all conditions imposed by the commission or permitting agencies ...and additionally

he further stated that other requirements by the agencies on this application will be complied with, that this development will create more jobs in the community and our island.

Mr. James Castro, MPC member :

Again, we note that there is sewer in the area, he stated that the applicant will adhere to all runoffs of surface water unto the a ponding basin. Green areas are always helpful on any development.

Response (from the Case Planner) :

Public sewer is available and the existing residence on site is already connected to public sewer. All public utility infrastructure is available within 100 feet. An on-site ponding basin will be in place and is a development requirement of Guam Environmental Protection Agency. New structures on the lot will be connected to public sewer.

Mayor June Blas:

Mayor stated that MPC will further review the application and work with the consultant and applicant..developer..as how they can contribute to our village and community as well as employment and ..if we can provide assistance ..come in and see us at the mayor's office.

Mr. Sana (reperesentative):

He again informed those in attendance that other permitting requirements will be adhered to should other permits are needed. On-site ponding basin will be coordinated with Guam EPA and on the approved location. The project and other structures will be hooked up to the sewer line and he reassured those present there will be minimal impacts to infrastructure, traffic, noise...etc... the applicants will continue to be good neighbors and that they will landscape and fence the site..further stated ..as you can see those that have been rezoned to M1 (in the neighborhood) have already started cleaning up their site and have enhanced the area ... my clients will be doing their part to be good neighbors and comply to all government requirements for the proposed uses on the site. The company has a good name and will help the community. Further stated that the area of the site is noisey as it is along the flight zone of the airport (Accident Potential Zone I) and this area/neighborhood is progressing more towards light industrial uses, rather than residential uses. Many of the lots were rezoned to M1 in the last 15-20 years by Public Law and GLUC

Planning Staff Summary of Public Hearing:

After discussion on rezoning and information given by the consultant, and clarification of the access .. the attendees were agreeable on the fact that majority of their concerns, frustrations, and objections were of the traffic/access on Belo Road ...for others they were frustrated that for many years this road has not been improved by the government. The Mayor encourage lot owners to be proactive and report some of their issues regarding development in the area.

There were no objections on the proposed rezoning at the hearing by those in attendance. Planning Staff reminded the Mayor to provide a Municipal Planning Council Resolution prior to the Land Use Commission hearing.

There hearing was adjourned at 7:05 p.m.

MEMORANDUM

TO: Chairman, Guam Land Use Commission

FROM: Guam Chief Planner

SUBJECT: Staff Report - Application No. 2016-40, Zone Change
Lot 5224-3-1-R1, Municipality of Barrigada

1. PURPOSE:

A. Application Summary: The Applicant, Ian Construction, Inc., represented by F.C. Benavente Planners, is requesting approval of a Zone Change from "R-1" (Single-Family Dwelling) to "M-1" (Light Industrial) Zone, in order to allow construction of a warehouse with office and an open storage facility for accessory uses on Lot 5224-3-1-R1, Municipality of Barrigada.

B. Legal Authority: Title 21, Guam Code Annotated, Chapter 61 Title 21, Article 6, Park 3 (Changes of Zones), Sections 61630 thru 61638 (Zoning Law).

2. FACTS:

A. Location: The subject site is fronting Benigno Benavente Street and approximately 300-feet east of the Bello Street and approximately 1,500 feet east of Route No. 25 (GIAA-Alageta access) and is in Barrigada (See **ATTACHMENT).**

B. Lot Area: 1,793 square meters or 19,297 square feet or .44 Acres

C. Present Zoning: "R-1" (Single-Family) Dwelling Zone.

D. Field Description: The lot is vacant and is currently being utilized as a parking area. The immediate area includes one single-family residence, certain vacant lots, duplexes, as well as large and small warehouses to the north and eastern sectors within 750 and 1,000 feet radius of the subject lot. There are material storages and contractors' yards within 1,000 feet located on M1 zoned lots. Many lots in the area were re-zoned to M1 in recent years and others by Public Law in the last 15-20 years. Other land use activities within 500 - 2,300 feet radius to the east are M1 zoned lots with warehouses and light and heavy equipment repair shops, sporadic residential homes, some small subsistence farming exists.

E. Masterplan: Residential – Low Density

F. Community Design Plan: Conservation – No Updated Land Use Masterplan to this date.

G. Previous Commission Action: None

3. APPLICATION CHRONOLOGICAL FACTS:

A. Date Heard By ARC: September 15, 2016

B. Public Hearing Results of: January 17, 2017
(SEE ATTACHMENT)

4. STAFF ANALYSIS:

A Zone change must be addressed **Public Necessity, Public Convenience and General Welfare** criteria. Our analysis is as follows:

PUBLIC NECESSITY and CONVENIENCE

The requested zone change to "Light Industrial" is a more prudent zone designation for the area. The fact that the area is in the APZ-1 Zone (Accident Potential Zone-1) requires a shift from residential to commercial or industrial uses notwithstanding the fact that residential uses are permitted in the current zone. The surrounding and nearby parcels have also been zoned to "Light Industrial". Industrial activities currently in operation on site has not been a detriment to other current residential or competing commercial or industrial uses.

The "Health, Safety and General Welfare" issues, in a community's comprehensive Plan divides these categories and mandates the various governmental entities to develop plans to address such factors. For example, the government basically has several "powers" so to speak; the power of taxation, the policing powers, the power of eminent domain and the regulatory power.

In doing so, it defers the specific issues to the specific government entity mandated to oversee the technical review of a proposed plan such as for GEPA/GWA for sewer requirements (a health issue), DPW on access (a safety issue) and so forth, thus ensuring that the overall **General Welfare** of the community is not compromised.

The Commission is responsible to regulate zoning under the basic edicts of insuring the "health, safety and welfare" of the community, but from zoning perspective. In the case at hand, the requested light industrial rezoning, is in our opinion, a much suitable zone and location for commercial or industrial uses for the primary reason

that the area is overshadowed by the AICUZ zone and in which an APZ-1 factor exist based on the AICUZ study. If rezoned to Light Industrial, such zoning designation would appear to have the least impact on the surrounding community's health, safety and general welfare that would be more pronounced should residential development be applied under the property's current zoning designation.

Properties nearby are zoned Light industrial as can be noted within 1,000 feet of the subject lot. There is construction that are ongoing or completed projects on lots recently zone changed to M1; while older "M-1" zone properties have been operating accordingly. The area is developing and growing more in the light-industrial use as opposed to agricultural-residential uses as suggested in earlier comprehensive planning efforts.

The proposed rezoning for warehousing with an office, proposed accessory uses permitted in light industrial zone uses on the subject lot that would be consistent with current land uses and activities in the immediate area within a range from 200' to 3,000' near the airport access/over pass, and along Route No. 16 and to the northeast in the Belo and Alegeta access ways (Route 25- Airport Access) area and along lower Barrigada Heights area. The location is central and near Tamuning, Dededo and Yigo municipalities with large population. It is also in close proximity to the Airport, Airport Industrial Park, Harmon Industrial Park and other commercial districts.

GENERAL WELFARE

Legitimate agricultural activities in this area is either non-existent or negligible. While it is true that remaining parcels are still zoned "Agricultural", the prevalent use is heavy towards a more intense industrial and commercial uses; however, we do point out that there exists, residential uses scattered throughout the area as well. This is supported by an agricultural assessment received from Department of Agriculture with recommendations, finding that there are no major impacts to agricultural activities in the area. Historically this area has been disturbed and developed for over 40 years.

Thus, the proposed zone change and land use development is the highest and best use for this site is not a good site for agricultural or residential uses or activities. It is affected by an APZ factor of 1. The propose activity is more conducive due to its central location in areas supporting commercial/industrial areas.

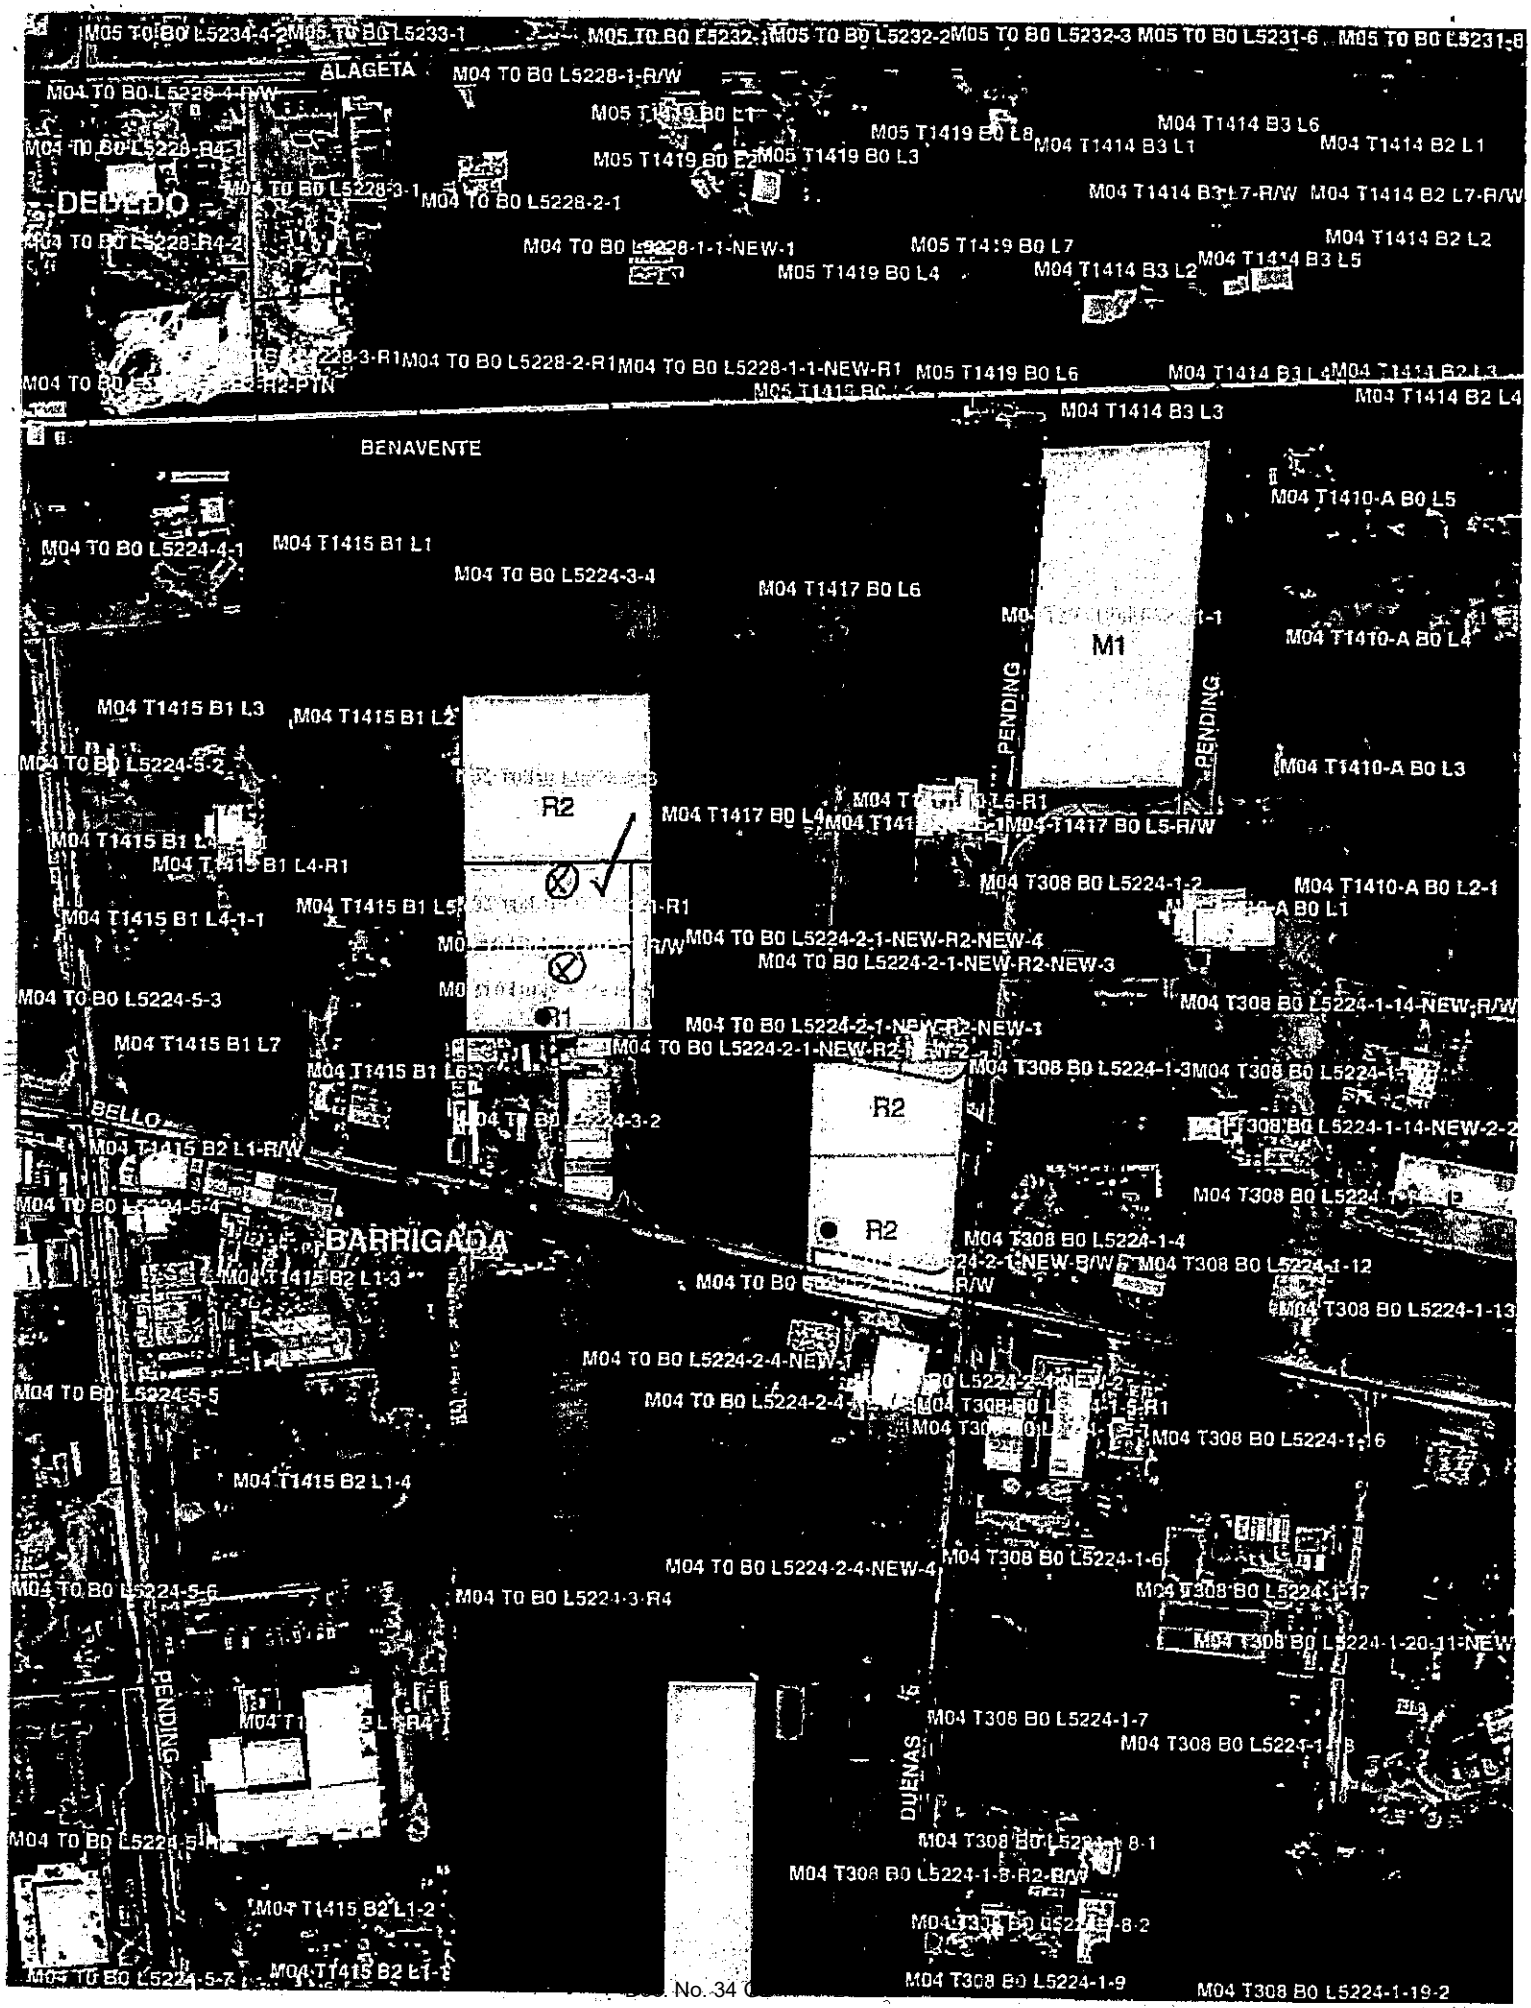

Any development on the site will accommodate wastewater and storm water drainage to protect the residents and the groundwater (aquifer) in the area. The zone change will not reduce any zoning standards in the immediate vicinity, but rather, the improvements to the subject lot will create a more stable environment that will provide for an orderly development scheme within the area and its surroundings.

As such, it is the position of DLM planning Staff the area is best suited for industrial type uses followed by commercial activities/uses.

5. **RECOMMENDATION: Recommend approval, and that the applicant shall adhere to all ARC recommendations/conditions as noted on their official position statements.**

MEMORANDUM

TO: Guam Land Use Commission (GLUC) Members

FROM: Chairman, Application Review Committee (ARC)

SUBJECT: Summary of Position Statements by ARC

Re: **Zone Change - Application No. 2016-40,**
GLUC Hearing – April 13, 2017

Listed below is the compilation of Positions received from various ARC Member Agencies as submitted to Planning Division. The conditions as imposed by the ARC Member Agencies are listed when applicable.

1. **DEPARTMENT OF LAND MANAGEMENT (DLM):**

   Recommends APPROVAL

2. **BUREAU OF STATISTICS AND PLANS (BoPS)**
   The Bureau has comments with recommendations with no objection (See Attached)

3. **DEPARTMENT OF PARK AND RECREATION/HISTORICAL PRESERVATION OFFICE (DPR/HPO):**

   DPR/HPO have determined that the proposed project has low probability that cultural resource will be present in the area. They have no objections to approving the subject application. (See Attached)

4. **GUAM WATERWORKS AUTHORITY (GWA):**
   No Objections, with permitting requirements noted. (See Attached)

5. **DEPARTMENT OF PUBLIC WORKS (DPW):**
   No Objections, with permitting requirements noted. (See Attached)

6. **ENVIROMENTAL PROTECTION AGENCY (GEPA):**
   No Position Statement Received as of Staff Report Date.

7. **GUAM POWER AUTHORITY (GPA):**

No Objections with recommendations and requirements noted (See Attached)

8. **DEPARTMETN OF AGRICULTURE (DoAG):**

No Objections with Recommendations noted, (Attached)

EX OFFICIO

1. **GUAM FIRE DEPARTMENT (GFD):**
No Position Statement Received as of Staff Report Date

2. **GUAM ECONOMIC DEVELOPMENT AGENCY (GEDCA):**
NO OBJECTIONS.

3. **DEPARTMENT OF EDUCATION (DOE):**
Has not submitted a Position Statement as of Staff Report date.

4. **DEPARTMENT OF PUBLIC HEALTH AND SOCIAL SERVICES (DPHSS):**
Has not submitted a Position Statement as of Staff Report date.

MEMORANDUM

To: Chairman, Guam Land Use Commission
Executive Secretary, Guam Land Use Commission

From: General Manager (A)

Subject: Lot 5224-3-1-R1, Municipality of Barrigada, (Ian Corporation); Zone Change Application from "R-1" (Single-Family Dwelling) to "M-1" (Light-Industrial) to construct a warehouse. **Application No. 2016-40**

Guam Power Authority has reviewed the application described above and submits the following position statement:

A. Comments and Recommendations Concerning GPA requirements:

1. GPA has no objection, however customer is required to comply with the following pursuant to the National Electric Code, National Electric Safety Code and GPA's Service Rules and Regulations:
   - Coordinate overhead/underground power requirements with GPA Engineering for new structures.
   - Maintain minimum clearances as defined by the current edition of the National Electrical Safety Code and National Electrical Code.
   - Maintain adequate clearance between any structures and electric utility easements in accordance with NESC and GPA requirements.
   - Developer/Owner shall provide necessary electric utility easements to GPA prior to final connection.
   - Provide scheduling and magnitude of project power demand requirements for new loads.
   - All relocation costs for GPA's facilities, if necessary, is 100% chargeable to the applicant including but not limited to labor and materials.
   - GPA reserves its easement rights established at the Department of Land Management under document number **538059**.

2. Primary distribution overhead and underground line extensions and GPA service connections must adhere to the guidelines outlined in the current issue of GPA's Service Rules and Regulations.

3. A system impact assessment may be required to determine the effect of this facility on GPA's existing power facilities.

4. All costs associated with the modification of GPA facilities shall be chargeable to the customer. This includes relocation costs, new installation costs and any required system upgrades.

B. General Comments
GPA has no objection to the request subject to the conditions cited above.

MELINDA R. CAMACHO, P.E.

ASG/arp

INFRASTRUCTURE CERTIFICATION FORM

Agency Certifying: **Guam Power Authority**
Applicant: Ian Corporation
Location: Lot 5224-3-1-R1, Barrigada
Type of Application: Zone Change
GLUC/GSPC Application No. 2016-40
Brief Project Description:
"R-1" to "M-1" to construct a warehouse.

For the purposes of this Certification, GOVERNMENT SERVICES, FACILITIES, and INFRASTRUCTURE include, but are not limited to: **power lines poles and facilities; water lines, pumps and facilities; sewer and liquid waste disposal; storm water disposal; solid waste disposal; telephone lines and facilities; schools; health facilities; police and fire fighting service and facilities; roads; traffic and street lights; parks and recreational activities.**

1. I hereby certify that the required GOVERNMENT SERVICES, FACILITIES and INFRASTRUCTURE are currently **AVAILABLE AND IN PLACE** to support this project:
   Yes ☒ No ☐

2. If the answer to #1 above is YES, then:
   I hereby certify that the required GOVERNMENT SERVICES, FACILITIES and INFRASTRUCTURE are currently **ADEQUATE** to support this project:

   Yes ☐ No ☒

3. If the required GOVERNMENT SERVICES, FACILITIES and INFRASTRUCTURE currently in place are **NOT AVAILABLE** or they are **AVAILABLE, BUT NOT ADEQUATE**, itemize the services, facilities and infrastructure that are needed, the estimated cost thereof and whether funds are currently available and identified to develop such services, facilities and infrastructure:

Services, Facilities and Infrastructure Needed	Cost of Upgrades	Funds Available	Date Available	Funds Identified
Please see comments below				

I hereby certify that the foregoing is true and correct to the best of my knowledge.

MELINDA R. CAMACHO, P.E.
General Manager (A)

9/9/16
Date

Comments:
Based on a preliminary inspection of the site, the electrical facilities may require upgrading to meet the demand of the proposed project. A system impact assessment maybe required to determine the effect of this facility on GPA's existing power distribution system. The applicant will be responsible for the cost of any required system upgrade.

MEMORANDUM

To: Chairman, Guam Land Use Commission

Via: Executive Secretary, Department of Land Management

From: Director, Bureau of Statistics and Plans

Subject: **Application No.** 2016-40; **Location:** Lot 5224-3-1-R1, Barrigada; **Applicant:** Ian Corporation, Inc. **Proposed Use:** Zone Change from "R-1" (Single Family Dwelling) to "M-1" (Light Industrial) for Warehouse, Office, and Accessory Uses;

Håfa Adai! The applicant, Ian Corporation Inc. (ICI), represented by Richard J. Sana, is requesting for a zone change for Lot 5224-3-1-R1 located in Barrigada from Single Family Dwelling (R-1) to Light Industrial (M-1). The property can be accessed on Benigno Benavente Street and Bello Road just off of Route 16. The applicant requests approval for a zone change in order to construct a warehouse, an office, and allow for accessory uses on Lot 3224-3-1-R1. Properties surrounding Lot 3224-3-1-R1 are already zoned light industrial and the area itself is a designated light industrial zone by the Guam North and Central Land Use Plan.

To justify public necessity, convenience, and general welfare, the applicant cited that the proposed project will help provide a "particular lifesaving product; the lightweight Shoring and Shielding Systems". The rezoning of this "R-1" property to "M-1" is also supported by the fact that the property lies within the take-off and landing flight path, within an Air Installation Compatible Use Zone. The Environmental Impact Assessment (EIA) further specifies that the project will produce dust as trucks move in and out of the property in addition to increased traffic from customers and from flatbed trucks entering and exiting the property, however the applicant assures us that the dust and fumes will be mitigated in accordance with applicable regulations.

The Bureau of Statistics and Plans (Bureau) has completed its review of the subject application and provides the following comments. Should the Guam Land Use Commission (GLUC) decide to approve the zone change request, the applicant is advised to address the following issues and adhere to the conditions prior to approval.

11/14

Aquifer Protection from Industrial Waste. The applicant's Barrigada property is located above the Northern Guam Lens Aquifer (NGLA). The NGLA is an essential resource for Guam and is the primary source of drinking water for eighty percent of the island population. Moreover, the U.S. Environmental Protection Agency has designated the NGLA as Guam's sole source aquifer. Therefore, it is of paramount importance to prevent sources of contamination from entering Guam's water supply. The primary goal for protecting the aquifer is to safeguard human health and the environment by maintaining water quality for continued use.

The Bureau is concerned that industrial activities will have adverse effects to Guam's sole source aquifer. The applicant is advised to consult with the Guam Environmental Protection Agency (EPA) to:

1. Implement practices for managing industrial waste to avoid potential contamination and ensure long term protection of the aquifer pursuant to the "Resource Conservation and Recovery Act of 1976". Practices may include the following, but are not limited to:

    a. Keeping a spill kit close to where spills are likely and ensure all staff know how to use it;
    b. Mopping the workshop floor rather than hosing;
    c. Surrounding storage areas with containment berms to control leaks or spills and;
    d. Employee training to manage waste and materials properly.

2. Comply with an Aquifer Protection Review pursuant to the "Federal Safe Drinking Water Act," § 1424 and "Guam Safe Drinking Water Act," 10 GCA Chapter 53.

3. Ensure the NGLA is protected through compliance with the "Water Pollution Control Act," 10 GCA Chapter 47; "Water Resources Conservation Act," 22 GCA Chapter 5; 10 GCA Chapter 46, as amended by P.L. 17-97, and the Guam Water Resource Development & Operating Regulations.

Stormwater Management. The application is lacking a stormwater management plan with detailed features. A site plan identifies a water infiltration basin for another property (Lot 5224-3-3) other than Lot 5224-3-1-R1. Therefore, the applicant must address stormwater on site and provide a site plan relevant Lot 5224-3-1-R1.
As industrial activities produce high concentrations of pollutants, the Bureau is concerned that activities generated by Ian Corporation's operations may impair the water quality of Guam's sole-source aquifer if stormwater runoff is not treated. Hazardous substances and

liquid waste entering the groundwater may be caused by spills of liquids such as oil, coolant, paints, solvents and other chemicals.
According to the CNMI Guam Stormwater Management Manual, Ch. 2 Stormwater Treatment Practice Criteria and Standards:

- *"...stormwater runoff from hotspots cannot be allowed to infiltrate into groundwater without prior water quality treatment."*

- *"...a greater level of stormwater treatment is needed at hotspot sites to prevent pollutant wash off after construction. This will involve preparing and implementing a stormwater pollution prevention plan (SWPPP) that involves a series of operational practices at the site that reduce the generation of pollutants from a site or prevent contact of rainfall with the pollutants."*

The Bureau advises the applicant to consult with Guam EPA in submitting a SWPPP and to install appropriate stormwater methods that will address runoff and hazardous waste on site.

Erosion Control. Controlling erosion and sediment flow from construction sites are a priority with regard to stormwater impacts to receiving water bodies within the project site, which includes the NGLA. Therefore, before any clearing and grading on the property, the applicant is required to consult Guam EPA.

The Bureau further recommends that the applicant prevent adverse impacts from construction site runoff by employing best management practices. These practices include the following, but are not limited to:

1. Installing perimeter sediment controls to retain or filter concentrated runoff from disturbed areas to trap or retain sediment before it leaves the construction site.

2. Where feasible, schedule construction during dry season.

3. Stabilize construction entrances to reduce the tracking of sediment/mud from the construction site onto paved roads and parking lots.

Additional methods are listed in the CNMI Guam Stormwater Management Manual and the Guam Erosion and Sediment Control Field Guide. These guides may be obtained from the Bureau's website www.bsp3.guam.gov under Guam Coastal Management Program.

Low Impact Development (LID) Practices. The project site also lies within the Mataguac Spring-Frontal Pacific Ocean Watershed. This area has seen an increase in impervious surfaces throughout the years. In between the years 2005 and 2011, the impervious surface area increased by more than five percent according to National Oceanic Atmospheric Administration's (NOAA) Coastal Change Analysis Program (C-CAP). As surface area increases so does the risk of flooding and degradation of water quality. The Bureau is concerned that additional impervious surfaces may exacerbate flooding in the area and surrounding neighbors if practices are not in place to manage runoff on the property.

The LID approach works with nature to manage stormwater as close to its source as possible. LID employs principles such as preserving and recreating natural landscape features while minimizing the use of impervious surfaces to create functional and appealing site drainage that treats stormwater as a resource rather than a waste product.

Considering the growing concerns of flooding due to increased impervious surface, the Bureau recommends the applicant to implement LID practices such as permeable parking and walkways, grassed swales, island bio-retentions, green roofs, and/or rain gardens into the landscape as a means to reduce runoff and control erosion from their property. An electronic file of the Island Stormwater Practice Design Specifications is available on the Bureau's website at www.bsp3.guam.gov under Guam Coastal Management Program.

Native Flora Protection. In the proposed zone change application to an M-1 zone, it is stated that greater than 10% of total land area will be landscaped using local flora. This proposed landscaping is not included in the site plan provided by the applicant. The Bureau recommends the following:

1. The applicant is advised to include a landscape design modeling how Ian Corporation plans to implement "greater than 10% of total land area landscaped of local flora".
2. The applicant is advised to consult with the Department of Agriculture's (DOAG) Division of Forestry and Soil Resources on using native plants to avoid and/or minimize the spread of invasive species.
3. Consult with DOAG on the use of organic fertilizers or pesticides for landscaping purposes to avoid additional contaminants from entering any natural water source.
4. Consult with Guam EPA regarding their Pesticide Control Program.

Other Environmental Impacts. Other potential environmental concerns include air pollution including odors from the releases of chemicals within the facility. The applicant is advised to consult with Guam EPA to address these impacts.

Emergency Access. The applicant is advised to consult with the Guam Fire Department (GFD) to ensure that the access to the subject development is sufficient and acceptable for emergency vehicles in the event of fire or an emergency.

In conclusion, the Bureau finds that activities of the proposed construction of a warehouse, parking lot, and office space may adversely affect Guam's sole source aquifer. Therefore, should this application be approved, the Bureau recommends that Ian Corporation Inc. comply with the above listed conditions. The applicant is further advised to seek guidance from Guam EPA with respect to current unauthorized industrial activities within the property such as clearing and grading of currently vacant lot.

As government officials, it is our primary responsibility to ensure that the construction and operations of this proposed endeavor are in a manner designed to protect the public health, safety, and to promote the public welfare and convenience. We further encourage and promote the protection of Guam's natural resources for generations to enjoy. *Si Yu'os Ma'ase'.*

MEMORANDUM

TO: Director, Department of Land Management

FROM: Director

APPLICATION: 2016-40 ✓

APPLICANT: Ian Corporation

SUBJECT: Zone Change from "R-1" to "M-1", Lot 5224-3-1-R1, Barrigada

Buenas yan Hafa Adai!

The applicant, Ian Construction, Inc.is requesting a zone change application from "R-1" to "M-1" located in Route 8, Barrigada. The lot contain an area of 1,793 square meters (19,297) square feet and both streets have two lane street asphalt pavement with graded shoulder. The intent is to construct a warehouse operations with office facilities and to provide an open storage for construction materials including the parking area and make it compatible to the neighboring lots.

The Department of Public Works (DPW) has completed its review of the subject application and has no objection to the requests provided the following conditions are in place:

- provide a layout of the site development plan to incorporate the future construction of the warehouse, storage and office facilities;
- parking area (compact, standard and accessible stalls) must meet the ADA requirements;
- storm drainage water disposal must be shown in details in the final drawings and to be supported with calculations; and
- to include the solid waste composition.

DPW recommends approval, subject to the comments reviewed by the Application Review Committee (ARC) with conditions that the building permit application must have a complete set of design drawings to incorporate all the necessary engineering disciplines needed that must be in conformance with the latest building code edition including the ADA requirements.

If you have any questions, please call John F. Calanayan, Acting Engineer in Charge or Maryrose M. Wilson, Engineer III in the Division of Capital Improvement Projects (CIP) at 646-3189/3224.

MEMORANDUM

September 29, 2016

TO: Director, Department of Land Management

FROM: Thomas F. Cruz, P.E., Acting General Manager

SUBJECT: Position Statement on Zone Change Application No. 2016-40 for Lot 5224-3-1-R1, in the Municipality of Barrigada.

APPLICANT(S): Ian Corporation

The Guam Waterworks Authority (GWA) has reviewed the applicant's request for a zone change from "R1" (Single-Family Dwelling) to "M1" (Light Industrial) zone to allow for warehousing, offices, and accessory uses.

This memorandum shall serve as GWA's position statement to the above zone change request related to availability of water and sewer infrastructures to serve the above subject lot. This position statement shall not be construed as notice that water and sewer systems have the capabilities to accommodate the proposed development including fire flow without on-site or off-site improvements. Any extension of the water and sewer systems and/or capacity upgrades required to serve property shall be subject to the rules and regulations of GWA. Any required extension to the existing facilities to serve the subject properties shall be at expense of the applicant.

Given the information provided in the application and field observations, the following comments explain GWA's position to support approval of this zone change application:

1. Future development must be covered under a Department of Public Works (DPW) construction permit. Plans and specifications must be submitted for GWA review and approval prior to construction. Submittals shall include water and sewer design calculations and complete drawings and specifications. Design calculations shall include water demand calculations and wastewater production calculations for the proposed development. Drawings shall delineate the water and wastewater service point of connection and provide specific connection details. If sewage disposal is to be accomplished by an Individual Sewage Disposal System,

the plan must be in compliance with Guam Environmental Protection Agency (GEPA) and GWA requirements.

2. GWA requires coordination with the GWA Engineering Department in advance of the permitting process to determine if available water and sewer system capacity can accommodate future development. Any offsite utility improvements necessary to support the proposed development shall be at the expense of the applicant. GWA's approval of the construction permit application will be contingent upon the applicant's agreement to construct the necessary offsite utility improvements. GWA's approval of the occupancy permit application will be contingent upon the completion of the offsite improvements.

3. Finalized property maps identifying public rights of way or easements must be submitted to GWA.

4. Public water and sewer infrastructure facilities installed by the developer must meet GWA standards including construction on public rights of way or easements and inspection by GWA.

5. The applicant's construction plans shall include the proposed meter size(s) and identify water meters in the public right of way or easement.

6. New development is subject to water and/or sewer system development charges (SDC).

7. Backflow prevention devices are required for non-residential activities.

This GWA Position Statement shall remain valid for 365 calendar days from the date of this response. Please contact GWA Engineering Division regarding water and sewer system improvement design and construction standards and procedures. For additional information please contact Mauryn McDonald, P.E., Permits and New Area Development Supervisor, at 300-6054.

October 24, 2016
Memorandum

To: Director, Department of Land Management

Attn: Executive Secretary, Guam Land Use Commission and Guam Seashore Protection Commission

From: Director of Agriculture

Subject: **"Environmental Impact Position Statement" for a "Zone Change request in an "R1" zone on Lot 5224-3-1-R1 located off of Chalan Benigno Benevente and Chalan Bello in the Municipality of Barrigada (Carmen Mesa c/o FC Benavente Planners)**

Agriculture has reviewed the subject lot and request for a "Zone Change" and finds that there are no major impacts to existing activity in this area. With regard to any environmental issues the **Department of Agriculture** highly recommends that the developer incorporate a dedicated **"Green Zone"** as part of the development should any plans to develop it further come to fruition. Please be aware that although development is good for the islands economy left un-checked the destruction and loss of environmentally important ecosystems will have lasting damage to the island. The entire northern part of Guam sits atop the islands primary source of drinking water contained in the **"Northern Aquifer"**. In order to help protect and maintain its viability and importance to the island the once vast system of trees must be incorporated into modern developments throughout Guam. The trees root system helps to protect from erosion and filters out runoff sediments from above to protect what lies below. This dedicated **"Green Zone"** within the property will help do its part to further insure that the island continues to provide its people safe and clean water. In addition to providing erosion and sediment control the trees will also have the added benefit of providing windbreak capabilities buffeting structures, equipment and property from destructive storms as well as providing improved aesthetic appeal to the overall development of the site.

Please contact our **Agricultural Development Services & Forestry** divisions here at the agency for further assistance and guidance at 300-7972 & 7976 respectively. Our Forestry division grows and maintains native tree species should you choose to incorporate them into the project. Contact their office for assistance and consultation at 300-7976. For the planting of fruit trees and other sound environmental practices designed and showcased at our **Organic Demonstration Farm** in Mangilao to help protect the environment please contact the ADS office at 300-7973 to arrange for a guided tour and demonstration of these practices in use.

11/3

Please be aware that the increased loss of Guam's native habitat contributes to a diminished capacity to sustain and support a healthy island community it is vital that all land developers take a proactive step in preventing and causing this loss. For questions or concerns regarding Agriculture's position please contact **Pete Terlaje, John Borja, Rick Lizama** at our office at 300-7973. Thank you in this regard.

MATTHEW L.G. SABLAN
Director

GUAM DAILY POST • THURSDAY, APRIL 6, 2017

Baltimore commissioner reiterates support for police reform, says federal request for delay lacks justification

By Kevin Rector
The Baltimore Sun

BALTIMORE — Baltimore Police Commissioner Kevin Davis on Tuesday said he is "ready to roll" with the city's pending consent decree with the U.S. Department of Justice and fully opposes the federal agency's request for a 90-day pause in the police reform effort.

"I want to say to the community in particular that the police department is absolutely dedicated to the consent decree process. There's no backroom deals. There's no sleight of hand," Davis said. "It'll make us better, it'll make the city better, it'll make our relationships with the community better."

Davis said he and Mayor Catherine Pugh are "both disappointed" that the Justice Department asked for more time to "review and assess" the proposed agreement, which is pending in U.S. District Court in Baltimore and must be approved by a judge if it is to become binding.

He said Justice Department officials made their request "without a whole lot of justification."

Commissioner Kevin Davis, Mayor Catherine Pugh, U.S. Attorney for Maryland Rod Rosenstein, Deputy Attorney General Sally Yates and Baltimore City Police Department officials arrive at City Hall to announce an agreement between the Justice Department and the city to enact reforms mandated by a consent decree currently pending before a federal judge. (Kenneth K. Lam/Baltimore Sun)

City police routinely violated residents' constitutional rights

The consent decree was reached after months of negotiations between Baltimore officials and Justice officials under the former Obama administration. Those negotiations followed a sweeping investigation by the Justice Department into the Baltimore Police Department and a report last summer that determined city police routinely violated local residents' constitutional rights.

The report found that police engaged in unconstitutional stops and searches, particularly in poor, predominantly black neighborhoods, and mistreated a range of people from protesters to people with disabilities and youths. It found the department mishandled sexual assault cases and that officers were poorly trained and supervised.

The consent decree, if approved, would be a binding agreement mandating the police department implement sweeping reforms to address the discriminatory and unconstitutional practices identified. A federal monitor would be appointed to oversee the process, reporting directly to Bredar.

Sessions orders review of local policing initiatives

The city remains "clearly resolved to reform — 'We're not going to back up. We're not going to throw the towel in,' — and reforms are going to take place no matter what," Davis said.

But without the federal deal, he said, they may not take root as quickly.

Davis spoke Tuesday morning, after the Justice Department filed a motion late Monday asking to delay a public hearing scheduled for Thursday by 90 days.

The motion was filed along with a memo issued by Attorney General Jeff Sessions to his top deputies instructing them to initiate a review of a broad spectrum of department activities related to law enforcement, particularly around local policing initiatives and consent decrees.

The A.B. Won Pat Int'l. Airport Authority, Guam (GIAA), will receive sealed bids for the project listed above. Bid documents may be obtained between 8:00 am - 5:00 pm Monday through Friday, excluding holidays from the 3rd floor GIAA Executive Office, Main Terminal and are also available for download at www.guamairport.com. All bids must be accompanied by a bid security in the amount of 15% of the total bid price in the form of a bid bond, or certified/cashier's check made payable to the GIAA. A non-refundable fee of Twenty Five U.S. Dollars ($25.00) in cash, or certified check, or cashier's check is required as payment for printed Bid documents or Ten U.S. Dollars ($10.00) for electronic file (pdf format) in compact disc, which can be obtained from the GIAA Executive office. GIAA recommends that any and all prospective bidders register by submitting to GIAA the Acknowledgement of Receipt form included as part of this IFB. GIAA shall not be liable for failure to provide notice(s) or addenda to any bidders who did not submit an Acknowledgement of Receipt Form. GIAA also reserves the right to reject any and all bids and to waive any and all informalities, and to disregard all nonconforming or conditional bids or counter proposals when in GIAA's opinion, such rejection or waiver will be in the Authority's best interest. For additional information, contact Mr. Franklin P. Taitano, Supply Management Administrator, at (671) 646-0300 ext. 0302.

AGENDA - Disposition

Regular Meeting

Thursday, April 13, 2017 at 1:30 p.m.

Department of Land Management Conference Room
590 S. Marine Corps Drive, 3rd Floor, ITC Building, Tamuning
[As advertised in the Guam Daily Post on April 6, 2017 and April 11, 2017]

I. **Notation of Attendance** [X] Quorum 1:40 p.m. [ ] No Quorum
Present were: Chairman John, Arroyo, Vice Chairman Victor Cruz, Commissioner Tae Oh, Commissioner Hardy Vy, Executive Secretary Michael Borja, Guam Chief Planner Marvin Aguilar, Planning Staff Frank Taitano, Penmer Gulac and Recording Secretary Cristina Gutierrez.

II. Approval of Minutes

- GLUC Regular Meeting of Thursday, March 9, 2017

Motion to approve the Minutes of March 9, 2017 was passed unanimously. No corrections received by COB 4/13/2017.

III. **Old or Unfinished Business [NONE]**

IV. New Business

Zone Change

A. The Applicant, Carmen Mesa represented by FC Benavente, Planners; request for a zone change from "R-1" (Single Family Dwelling) to "M-1" (Light Industrial) zone to allow uniformity of zoning consistent with the existing and adjacent "M-1" neighborhood, on Lot 5224-3-1-1, in the Municipality of Barrigada, under Application No. 2016-39.
Case Planner: Penmer Gulac
Action – Motion to approve the applicant's request for a zone change was passed unanimously subject to adherence to the recommendations noted on the official position statements of the ARC agencies.

B. The Applicant, Ian Corporation represented by FC Benavente, Planners; request for a zone change from "R-1" (Single Family Dwelling) to "M-1" (Light Industrial) zone to allow for warehousing, offices and accessory uses, on Lot 5224-3-1-R1, in the Municipality of Barrigada, under Application No. 2016-40.
Case Planner: Penmer Gulac
Action – Motion to approve the applicant's request for a zone change was passed unanimously subject to adherence to the recommendations noted on the official position statements of the ARC agencies.

Tentative Subdivision

C. The Applicant, KOA Inc. represented by Ignacio F. Santos; request for a Tentative Subdivision approval for the proposed construction of 86 single family residential lots on Tract 10441 (formerly Lot 7134), in an "R-1" (Single Family Dwelling) zone, in the Municipality of Yigo, under Application No. 2008-70C.
Case Planner: Frank Taitano
Action – Motion to approve the request for a tentative subdivision was passed unanimously subject to the following conditions:

a. **Applicant adheres to conditions and requirements as stipulated on the official position statements provided by the Application Review Committee, as such conditions and requirements apply to permitting requirements;**
b. **Applicant may request for an extension from the one-year tentative subdivision approval as provided by law within reason and supporting information. The initial one-year approval shall commence on the date of issuance as noted on the Notice of Action;**
c. **Any consideration of significant change to the tentative subdivision plan shall first be submitted to the Guam Chief Planner for assessment and consideration to be forwarded to the GLUC; and,**
d. **Any changes greater than purported in the submitted tentative subdivision plan as reviewed and approved by the GLUC to include, but not limited to, a request to increase density and/or any similar changes of development preference and not as a result of the compliance with government regulations or requirements shall require consideration by the GLUC.**

D. The Applicant, Guam Five Star Corporation represented by Ignacio F. Santos; request for a Tentative Subdivision approval for the construction of 116 single family residential lots on Tract 10442, (formerly Lot 7135-3-5NEW-R1) in a "PUD" (Planned Unit Development) zone, in the Municipalities of Dededo and Yigo, under Application No. 2016-54.
Case Planner: Frank Taitano
Motion – Motion to approve the request for a tentative subdivision was passed unanimously subject to the following conditions:

a. **Applicant adheres to conditions and requirements as stipulated on the official position statements of the ARC, as such conditions and requirements apply to permitting requirements;**
b. **Applicant may request for an extension from the one-year tentative subdivision approval as provided by law within reason and supporting information. The initial one-year approval shall commence on the date of issuance as noted on the Notice of Action;**
c. **Any consideration of significant change to the tentative subdivision plan shall first be submitted to the Guam Chief Planner for assessment and consideration to be forwarded to the GLUC;**
d. **Any changes greater than purported in the submitted tentative subdivision plan as reviewed and approved by the GLUC to include, but not limited to, a request to increase density and/or any similar changes of development preference and not as a result of the compliance with government regulations and requirements shall require consideration by the GLUC, and,**
e. **Applicant coordinates with DPW upon approval of the final subdivision to ensure adequate bus shelters are provided for the subdivision. In addition, cost of construction will be at the cost of the developer.**

V. Administrative & Miscellaneous Matters

Status Report

E. The Applicant, Grandview Development, LLC; continuance of an Order to Show Cause for failure to comply with the conditions of approval of an amended TDP for the Grandview Shopping Mall as noted on the GLUC Notice of Action dated March 29, 2013 and its six-month status report, under Application No. 2008-003B. [Continuation of GLUC Hearing – 4/14/2016]
Case Planner: Frank Taitano
Action – Commission accepted the applicant's six-month status report, and to return to the Commission in another six-months for the next status report. [Mr. Phillip Schrage noted for the record that the official name for the project will be Tumon Bay Shopping Mall.]

Additional items for discussion:

- **Discussion on bill being introduced for sunset clause on all GLUC applications;**
- **Bill 54-34; telecommunication towers as conditional uses rather than variances;**
- **Status on the Pago Bay Resorts ongoing suit.**

VI. Adjournment [There being no further business for discussion, the meeting was adjourned at 4:07 p.m.]

GUAM LAND USE COMMISSION REGULAR MEETING MINUTES
Department of Land Management Conference Room, 3rd Floor ITC Bldg., Tamuning
Thursday, April 13, 2017 • 1:40 p.m. to 4:07 p.m.

I. Attendance

Chairman Arroyo called the regular meeting of the Guam Land Use Commission for Thursday, April 13, 2017 to order at 1:40 p.m., noting a quorum.

Present were: Chairman John Arroyo, Vice Chairman Victor Cruz, Commissioner Tae Oh, Commissioner Hardy Vy, Executive Secretary Michael Borja, Guam Chief Planner Marvin Aguilar, Planning Staff Frank Taitano, Penmer Gulac and Recording Secretary Cristina Gutierrez

[Excused – Commissioner Conchita Bathan and Legal Counsel Nicolas Toft]

Chairman Arroyo the agenda before you, do any of you want to make any changes to the order of the agenda.

Vice Chairman Cruz can we review and entertain the first two items on the agenda (Zone Changes, A and B) since the properties are adjacent from each other. However, when it is time to vote the applications will be voted separately.

[No objections noted from Chairman Arroyo and the Commissioners. For the record, Application No. 2016-39 and Application No. 2016-40 will be heard simultaneously.]

II. Approval of Minutes

Chairman Arroyo next item on the agenda is the approval of the Minutes from the last GLUC meeting of March 9, 2017. Can I get a motion to approve.

Vice Chairman Cruz I move to approve the Minutes of March 9, 2017.

Commissioner Oh seconds the motion.

Chairman Arroyo motion by Vice Chairman Cruz, seconded by Commissioner Oh. Any discussion on the minutes (none noted).

All in favor of the motion say "aye" [Vice Chair Cruz, Commissioner Oh and Commissioner Vy], all opposed say "nay."

[Motion passed; Minutes of March 9, 2017 approved. No corrections noted]

III. **Old or Unfinished Business** [None]

IV. **New Business**

Zone Change

a. The Applicant, Carmen Mesa represented by FC Benavente, Planners; request for a Zone Change from "R-1" (Single Family Dwelling) to "M-1" (Light Industrial) zone to fallow uniformity of zoning that is consistent with the existing and adjacent "M-1" neighborhood, on Lot No. 5224-3-1-1, in the Municipality of Barrigada, under Application No. 2016-39.
Case Planner: Penmer Gulac

b. The Applicant, Ian Corporation represented by FC Benavente Planners; request for a Zone Change from "R-1" (Single Family Dwelling) to "M-1" (Light Industrial) zone to allow for warehousing, offices and accessory uses, on Lot No. 5224-3-1-R1, in the Municipality of Barrigada, Under Application No. 2016-40.
Case Planner: Penmer Gulac

Chairman Arroyo is it okay to review both applications at the same time; these properties are adjacent to each other.

[It was noted that Mr. Richard Sana, FC Benavente, Planners had no objection.]

Marvin Aguilar (Case Planner) summarizes both staff reports to include purpose, facts, public hearing results, staff analysis/discussion, and recommendation. (For full content/context, please see attached staff report.)

[Attachment A & Attachment B – Staff Report dated April 7, 2017]

Chairman Arroyo Bureau of Statistics and Plans had an issue. They say that the applicant has not justified the public necessity, convenience and general welfare and they did not provide some required documentation. Did we get those documentations we needed? This was for Application 2016-39. I think what they were referring to was the requirement for a site plan.

Marvin Aguilar request for a change of zone is not for development structure. The focus should be on, if approved, what impact would the zone change have on the surrounding community.

[Discussion ensues on industrial development sprawl in the area by virtue of a public law which basically rezoned about ten to fifteen lots which changed the potential comprehensive planning of the area.]

Chairman Arroyo any other questions.

Commissioner Oh just a quick question, clarification. It does say on the initial report here that this is a zone change from "A" to "M1".

Marvin Aguilar it should be "R1" to "M1". For the record, we received the MPC Resolutions for both applications. [For full content/context please refer to attached exhibits.

[Exhibit 1/Exhibit 2 – Resolution 2017-001 and Resolution 2017-002]

Chairman Arroyo anything else? Any other questions? [None noted] Let's invite the applicants and the applicants' representative up. Please state your name for the record.

Richard Sana (with FC Benavente, Planners representing the two applications for zone change; Carmen Mesa (2016-39) and Ian Corporation (2016-40).

Carmen Mesa is here today, and she is the applicant for Application 2016-39 and also the lessor of the property being leased by Ian Corporation.

The property, 2016-39 is an existing residence. We did not provide the site plan because the occupant is still living in the dwelling. And one of the reasons for the zone change is to have uniformity of the M1 zone in that area. If Ian Corporation is approved for M1 that would leave Carmen Mesa being the only R1-zone in that sector that we are looking.

For Ian Corporation, the purpose for the zone change is to allow for warehouse office and accessory uses. They have a construction supply company that serves the construction industry in the shoring, lightweight shoring and shielding system. The other necessity of having the property zone changed is because they desire to move out of their current Barrigada location which is in the Radio Barrigada area on the road between Happy Market, Guam Trades Academy which is adjacent to their existing office/operations. I think the new location is a more desirable location for them and more compatible with their operation. It takes them away from the neighborhood environment. There is a lot of traffic congestion because of the store, the elementary school and Guam Trades Academy. Also, behind their current location there are residential dwellings.

The new location has the potential of becoming a light industrial area, and it is gradually transforming that way.

And as I mentioned earlier, with the Carmen Mesa application it is just to keep that uniformity of the M1 zone because right now she is sandwiched between all these properties that are operating industrial type activities.

Chairman Arroyo with Carmen Mesa, there is a residential structure now?

Richard Sana she is currently living in that structure.

Chairman Arroyo are you planning to stay there once the property is rezoned?

Carmen Mesa (Applicant) no, I don't plan to stay there once I get it rezoned.

Chairman Arroyo are you going to develop that property for warehouses and other purposes that are allowable in M1?

Carmen Mesa probably in the future, not at this time.

Chairman Arroyo but, that is the intent.

Carmen Mesa because like he said the uniformity; I want it to go with everyone else in the compound because it is a cul-de-sac.

Commissioner Oh just a quick question. Are there difficulties residing there because...all your neighbors are currently industrial.

Carmen Mesa yes, that's why I choose to eventually leave because I don't have my view anymore, it's not an ocean view anymore or a city view and it's not so attractive as it was before.

Chairman Arroyo how about the noise from planes ---

Carmen Mesa the noise, the traffic, the dust. My swimming pool always has dust in it now. We don't even swim or hangout outside anymore.

Commissioner Oh so, you said your intentions are to move out once you rezone it.

Carmen Mesa yes, once it is rezoned.

Commissioner Oh so, what is the immediate plan for the property.

Carmen Mesa nothing right now. I have not thought of that. I just wanted to get it rezoned. Whatever I plan on doing once I move out; I will probably rent it out or sell it easily because of the neighborhood.

Chairman Arroyo we have heard a lot of applications to rezone from agriculture to M1, R1 to M1 in that area. We kind of agree that that really should be zoned something other than residential or agricultural specifically because it is right underneath the flight path, the hazardous of planes flying overheard, and just the things that you mentioned. This is the first time, at least as far as I can remember that we actually sat down with a property owner who lives there. It's good to hear that you are confirming some of the things that we thought that would make it uncomfortable for somebody who had a residence to live there. Thank you for coming in and saying that.

Carmen Mesa thank you.

Chairman Arroyo any other questions.

Commissioner Oh Richard, you mentioned that Ian Construction is currently utilizing the lot as mainly as an office space?

Richard Sana no, not this lot. They have an existing office and warehouse in Barrigada. They have a lot that has already been zoned M1 adjacent to the lot that we are talking about that is before you.

[Discussion ensues on lot location, as well as the current use.]

Richard Sana as a result of the public hearing, we have a letter from Ian Corporation to the Mayor of Barrigada because there was some issues that were raised during the public hearing. And the letter that was provided was a way of mitigating the issues and concerns that were raised at the public hearing.

Vice Chairman Cruz no, what we have is the resolutions.

Chairman Arroyo Penmer, were you at the public hearing? What were the issues?

Penmer Gulac (Case Planner) it was just to ensure that the roads were not blocked because of the residential homes. Some trailers are parked on the side of the road blocking the access of the right-of-way.

Richard Sana summarizes the letter from Ian Corporation to Mayor of Barrigada on mitigation of issues that were brought up at the public hearing. Issues include mud and debris on roadways, speeding vehicles, lack of a conceptual plan and parking on access easements. [For full content/context, refer to Exhibit 3]

[Exhibit 3 – Ian Corporation correspondence dated January 18, 2017]

Vice Chairman Cruz who is currently using the right-of-way, parking there? Is it the applicant or is it other people.

Richard Sana the applicant and other people. I believe Mr. Benavente that is right across the street was one of the concerned citizens that was at the public hearing.

Chairman Arroyo sir, if you want to come up and state your name for the record.

Glenn Makepeace I attended the public hearing and the issue was that at one time when there was very little to no activity in that area, Ian had some trailers parked on the easement, and it was blocking the entrance to Mr. Benavente's property. Now that Mr. Benavente has leased the property to Orion, the issue of vehicles parked on the side of the road no longer exists because Ian already moved it.

Vice Chairman Cruz so, I asked you which company was using it. The applicant is using the rights-of-way despite the property they that is vacant and everything they would rather park in the rights-of-way rather than ----

Richard Sana no, it's not on the rights-of-way because I saw where they were parking.

Vice Chairman Cruz well, that's the complaint.

Richard Sana no, they were not in the rights-of-way. If you are talking about the paved area or part of the roadway, they were actually parked on the shoulder of the rights-of-way which actually was blocking Mr. Benavente's property.

Vice Chairman Cruz how wide is the road, 40?

Richard Sana it says 50.

Vice Chairman Cruz so, he's parking within the 50-feet, not within his property. Can you ask him to explain it?

Glenn Makepeace if I may. The reason why Ian at that time had parking of his vehicles ---

Vice Chairman Cruz no, I want to hear it from Ian.

Richard Sana Mr. Ian is not here.

Vice Chairman Cruz unless you are speaking for Mr. Ian...I don't know. I don't like the way it's presented.

Richard Sana Mr. Cruz, if we are going to talk about the width of the right-of-way, the 50-foot right-of-way then Mr. Ian would have been parked within the boundaries of that right-of-way. But, that has been resolved due to this public hearing. Mr. Ian has removed the trailers and no longer there.

Vice Chairman Cruz so, it took this application to make him move.

Richard Sana it was not an issue until the public hearing when we found out that it was happening.

Chairman Arroyo prior to the public hearing Mr. Benavente never complained to Ian.

Richard Sana no. They actually know who Ian is and they are pretty familiar with the company and not hostile towards each other.

Commissioner Oh further back, is there a residence back there or is it undeveloped. I am talking about this property right here (referring to the map on the monitor). This is Ian's property, and it is right at the edge of the cliff. And this is Mr. Benavente's property and all these are undeveloped. And currently these properties are being utilized at M-1, and so the only real residence here is Carmen Mesa.

Richard Sana yes.

[Discussion ensues --]

Chairman Arroyo any other questions.

Commissioner Oh going back to that point you mentioned. You mentioned that Mr. Benavente leased out that undeveloped land over there to Orion. So, Orion is utilizing it mainly as an M-1 property.

Richard Sana correct.

Chairman Arroyo I would like to open the floor to public comment. Is there anybody in attendance who would like to say anything about these two applications, please come forward.

Public Comment **[Seeing none, Chairman Arroyo closed the public comment period.]**

Chairman Arroyo anything else you want to add? [No further comments noted from the applicant, consultant and the Commissioners.]

We've heard the presentation for both applications. So, let's take each of them one at a time, and we will start with Application 2016-39; this is the Carmen Mesa zone change request. I am ready to hear a motion.

Commissioner Oh Chairman Arroyo, I move to recommend approval of the zone change for the applicant Carmen Mesa represented by FC Benavente, Planners; request for a zone change from "R1" to "M1" zone to allow uniformity of zoning consistent with the existing and adjacent M-1 neighborhood, on Lot 5224-3-1-1, in the municipality of Barrigada, under Application No. 2016-39; and adhere to all ARC and Commission conditions.

Chairman Arroyo motion made by Commissioner Oh. Second?

Commissioner Vy second.

Chairman Arroyo second by Commissioner Vy. Any discussion on the motion? [None]

All in favor of the motion please say "aye" [Chairman Arroyo, Vice Chair Cruz, Commissioners Oh and Vy], all opposed please say "nay."

[Motion to approve Application 2016-39 was passed unanimously]

Chairman Arroyo on the second application; this is for 2016-40, zone change request for Ian Corporation.

Commissioner Oh Mr. Chairman, I move to approve the recommendation for the zone change of the applicant Ian Corporation represented by FC Benavente, Planners for their request for a zone change from "R1" to "M1" zone to allow for warehousing, office and accessary uses, on Lot 5224-3-1-R1, in the municipality of Barrigada, under Application No. 2016-40 adhering to all ARC recommendations and conditions as noted in the official position statements.

Chairman Arroyo with respect to the mitigating factors that was brought up at the public hearing; they are a matter of record, we don't need to make it a condition of this approval?

Marvin Aguilar no sir.

Chairman Arroyo we have a motion on the floor by Commissioner Oh, do I have a second?

Commissioner Vy second.

Chairman Arroyo any discussion on the motion? [None noted] All in favor of the motion please say "aye" [Chairman Arroyo, Vice Chair Cruz, Commissioners Oh and Vy], all opposed say "nay."

[Motion to approve Application 2016-40 was passed unanimously]

Chairman Arroyo let's move onto the next application –

Tentative Subdivision

c. The Applicant, KOA Inc. represented by Ignacio F. Santos; request for a Tentative Subdivision approval to create a subdivision of 86-single family residential lots, on Tract 10441 (formerly Lot 7134), in an "R-1" (Single Family Dwelling) zone, in the Municipality of Yigo, under Application No. 2008-70C. Case Planner: Frank Taitano

Frank Taitano (Case Planner) reads the staff report to include facts, purpose, chronological facts, staff analysis/discussion, conditions and recommendation. [For full content/contest, please see attached staff report.]

[Attachment C – Staff Report dated April 7, 2017]

Michael Borja (Executive Secretary) can I ask a question. On this survey map, top right corner there is a bull-cart trail that enters into the perimeter of the lot. That bull-cart trail does not transit through the lot?

Marvin Aguilar no.

Michael Borja it ends?

Frank Taitano yes.

Vice Chairman Cruz it ends at the property line?

Frank Taitano on the western side.

Vice Chairman Cruz the property to the right of that they actually developed already and they widened the road.

Marvin Aguilar there are roads throughout the perimeter of this property.

The regular meeting of the Guam Land Use Commission for Thursday, April 13, 2017 was adjourned at 4:07 p.m.

DECISION GRANTING ZONE CHANGE
(with findings)

Guam Land Use Commission

WHEREAS, the following decision of the Guam Land Use Commission is made in accordance with 21 GCA §61630, now therefore;

WHEREAS, prior to consideration of the application by the Guam Land Use Commission, a hearing on the Zone Change was held on the **17th day** of **January**, **2017**, in the Municipal District of **Barrigada** where the property to be rezoned was located pursuant to Title 21 GCA §61633.

WHEREAS, notice of the time and place of the hearing was published in a newspaper of general circulation on the ____ day of _____, **2017** as evidenced by an affidavit of publication attached as **Exhibit A.**

WHEREAS, notice was mailed to the Mayor of the Municipal district concerned and to those landowners owning land within 500 feet of the property where the property to be rezoned is located as evidenced by the affidavit of mailing attached as **Exhibit B.**

BE IT RESOLVED, that on the **13th** day of **April**, **2017**, a hearing of the Guam Land Use Commission (GLUC) was held in accordance with notices duly issued to consider the application of **Ian Corporation, C/O Benanvente Planners** for a Zone Change of Lot No. **5224-3-1-R1**, Municipality of **Barrigada**.

A quorum of the Commission was present. In attendance were:

1. **Mr. John Z. Arroyo, Chairperson**
2. **Mr. Victor F. Cruz, Commissioner**
3. **Mr. Tae Oh, Commissioner**
4. **Mr. Hardy Vy, Commissioner**

Appearing for the applicant were: **Mr. Richard Sana; FC Benavente Planners**

Also appearing and testifying on the above project was:

none in favor/against

After considering all the statements and testimony presented by interested parties the GLUC finds that the application for zone change is granted on the following grounds: (Note: All three (3) sections should be answered.)

(a, b) Public Necessity and Convenience: The following facts support a finding that public necessity and convenience justifies the zone change:

We, the Commission, find that the application as presented by the applicant and the Application Review Committee's Position Statements submitted satisfy the above sections.

(c) General Welfare: The following fact support a finding that the General Welfare of the public is best served by the granting of a zone change:

We, the Commission, find that the application as presented by the applicant and the Application Review Committee's Position Statements submitted satisfy the above section.

We, the Commission, further find that from a planning perspective the area is best suited for industrial type uses followed by commercial activities/uses.

The members, after due consideration voted to approve the application. The vote of the members was as follows:

4 Ayes 0 Nays 0 Abstentions

This decision was adopted this 13th day of April, 2017, and shall be submitted to the Governor for final approval pursuant to Title 21 GCA §61634.

John Z. Arroyo
Chairman,
Guam Land Use Commission

AFFIDAVIT OF PUBLICATION

I, the undersigned, do hereby depose and state that:

1. I am an employee of the Department of Land Management, Government of Guam, and I am not an interested party in the above-entitled matter.

2. I have personal knowledge of all the facts herein.

3. I am competent to testify to the matters stated herein and would so testify in any hearing concerning this matter.

4. On **December 28, 2016**, I submitted the Official Memorandum (attached as **Attachment A**) from the Guam Chief Planner to the Guam Daily Post, Tamuning, Guam; a request to publish the 2 x 2 legal notice to appear on January 7, 2017 for Application No. **2016-40 & (Ian Corporation)** to be heard on January 17, 2017 at the Barrigada Community Center. Proof of advertisement is attached as **Attachment B**.

5. This Affidavit is executed as proof of the compliance with 21 G.C.A. Section 61633 (Hearing Date – Notice).

In WITNESS, WHEREOF, I hereby affix my signature this 22nd day of September, 2017.

GUAM DAILY POST • SATURDAY, JANUARY 7, 2017

Bones of Japan's World War II dead to be DNA tested

TOKYO (Japan News/Yomiuri) - The government intends to expand DNA tests conducted on the remains of war dead to include leg and arm bones, in a bid to identify more Japanese victims of World War II, according to sources.

The Health, Labor and Welfare Ministry has hitherto restricted such tests to teeth. However, in response to growing calls from bereaved families to widen the scope of the tests, the ministry plans to include thigh, arm and other bones in its DNA appraisal methods, the sources said.

DNA tests using bones from hands and feet are common in the United States and South Korea.

At least several hundred sets of remains with no teeth are recovered each year, meaning the expanded tests will increase the potential for identifying these remains.

The ministry started DNA tests on the remains of the war dead in fiscal year 2003. The tests were, in principle, conducted on teeth covered in hard enamel, from which it is easy to extract nuclear DNA that can accurately identify an individual even after many years. Arm and leg bones were excluded for reasons including the low probability of getting a sample of this DNA.

However, in places such as Okinawa and southern countries and areas, which were the site of ferocious battles, many remains have been found without heads, which had been blown off by bombs or removed due to other reasons. This prompted many bereaved families to push the ministry to adopt testing involving arm and leg bones, as is done overseas.

In light of improvements in DNA testing technology, the ministry went on an inspection tour of the United States in June 2016 to examine the procedures used there. The ministry learned the United States successfully extracted nuclear DNA from about 50 percent of the arm and leg bones it tested. Given that South Korea also conducts DNA appraisals on such bones, the ministry has decided to hear the opinion of a panel of DNA appraisal experts as early as this fiscal year and then make a final decision on tests involving the bones.

2.4M wartime deaths

According to the ministry, about 2.4 million Japanese military personnel and civilian employees of the military died in Okinawa and overseas during the war. The remains of about 1.27 million have been collected so far. The remains of about 540,000 unidentified war dead have been laid to rest at locations including the Chidorigafuchi National Cemetery in Tokyo, although most were incinerated and DNA samples cannot be taken from them.

The ministry recovered the remains of 1,437 war dead in fiscal 2014, and 1,053 war dead in fiscal 2015. Of them, several hundrad sets of remains found each year had no teeth. In preparation for the expansion of the testing program, the ministry has stored - instead of incinerating - 55 sets of remains found since July 2016.

The ministry's DNA tests have identified the remains of 1,064 people since fiscal 2003. However, 98 percent of them were detainees who had been buried in areas such as Siberia in the former Soviet Union. Just 12 identified sets of remains were from Okinawa and southern countries and areas.

The ministry plans to establish this fiscal year a database containing DNA information from the teeth of about 8,000 war dead. If such information can be gleaned from arm and leg bone tests, it will be added to the database starting next fiscal year.

After the law promoting the collection of the remains of the war dead came into effect in April 2016, the government established a plan to strengthen its DNA testing and recovery operations for remains over a nine-year "concentrated implementation period" that began this fiscal year.

China media warn Trump of 'big sticks' if he seeks trade war

(Bloomberg) - Chinese state media warned U.S. President-elect Donald Trump that he'll be met with "big sticks" if he tries to ignite a trade war or further strain ties.

"There are flowers around the gate of China's Ministry of Commerce, but there are also big sticks hidden inside the door - they both await Americans," the Communist Party's Global Times newspaper wrote in an editorial Thursday.

The article was published in response to Trump picking Robert Lighthizer, a former trade official in the Ronald Reagan administration who has criticized Beijing's trade practices, as U.S. trade representative.

The latest salvo from state-run outlets followed others aimed at Peter Navarro, a University of California at Irvine economics professor and critic of China's trade practices whom Trump named to head a newly formed White House National Trade Council. Those choices plus billionaire Wilbur Ross, the nominee for commerce secretary, will form an "iron curtain" of protectionism in Trump's economic and trade team, according to the paper.

The three share Trump's anti-globalization beliefs and seem unlikely to keep building the current trade order, it said, adding that they will be more interested in disrupting trade. Souring relations could have serious ramifications for the economies: Americans are the biggest buyers of exports from China, the world's largest trading nation.

Other warnings

Official media issued other recent warnings after the announcement about Navarro, saying he doesn't understand trade and will damage relations. An editorial in the state-run China Daily accused Navarro of "anti-China alarmism" and said appointing the "Death by China" author is another sign Trump seems intent on confron-

December 28, 2016

Dear Sir/Madam:

An application has been filed with the Guam Land Use Commission (GLUC) by:

The Applicant, Ian Corporation, represented by F.C. Benavente, request for a zone change from "R-1" (Single Family Dwelling) to "M-1" (Light Industrial) zone to allow Warehousing, Offices and Accessory Uses on Lot 5224-3-1-R1, in the Municipality of Barrigada, under Application No. 2016-40.

For any **Zone Change** requests, the Guam Land Use Commission is mandated by law to conduct a Public Hearing in the Municipal District where the property is located. Accordingly, a Public Hearing on this application is scheduled to be held:

PLACE:	**Barrigada Community Center**
DATE:	**January 17, 2017, Tuesday**
TIME:	**6:45 p.m.**

As a property owner identified within 500 feet of this proposed development, we invite you to attend this Public Hearing and participate in the review process and to express your opinion on this application. If you are unable to attend the Public Hearing, please submit written comments to our office on or before the scheduled Guam Land Use Commission which will be published on the Guam Daily Post and noted on the applicant's onsite sign. Our office is located on the third floor (room 304) of the ITC Building and written comments should be addressed to:

Chairman, GLUC or Executive Secretary, GLUC
c/o Department of Land Management
Land Planning Division
P.O. Box 2950, Hagatna, Guam 96932

Accordingly, a GLUC Hearing for this application will be advertised in the Guam Daily Post open ad, Government meeting and the website.

You may review the development application at our office or your Mayor's Office.

Thank you for your interest.

Si Yu'os Ma'ase,

MARVIN Q. AGUILAR
Guam Chief Planner

Memorandum

To: The Governor

From: Executive Secretary, Guam Land Use Commission

Subject: **GLUC Zone Change Approval from "R-1" (Single Family Dwelling) to "M-1" (Light Industrial) zone for Lot 5224-3-1-R1, Barrigada; Applicant, Ian Corporation, Application No. 2016-40**

Submitted for your consideration and action is Zone Change Application No. 2016-40. The Applicant, Ian Corporation requests for a Zone Change from "R-1" (Single Family Dwelling) to "M-1" (Light Industrial) zone to allow warehousing, offices and accessory uses.

Application chronology is as follows:

- August 11, 2016 – Application officially accepted
- September 15, 2016 – Reviewed by the Application Review Committee (ARC)
- January 17, 2017 – Public Hearing, Barrigada Community Center
- April 13, 2017 – Guam Land Use Commission (GLUC) Public Hearing (approval of Zone Change)

Pursuant to the Guam Code Annotated, Title 21 (Real Property), Chapter 61 (Zoning Law), Section 61634 (Decision by the Commission), which states, *"if the application is approved in whole or in part by the Commission, the same shall be forwarded to the Governor who may approve or disapprove the proposed change in whole or in part";* this application is being sent to you for your action.

CEO 1017-4900

This application is being sent to you pursuant to Title 21, GCA, Chapter 61 (Zoning), Section 61634.

Please contact Land Planning Division at 649-5263, extension 375 should you have any questions and/or need further clarification.

Si Yu'os Ma'ase,

MICHAEL J.B. BORJA
Executive Secretary
Guam Land Use Commission
