The statistical information presented in this report has been compiled from the 2016 Annual Statements filed with this office. The report also contains a directory of licensed Insurance companies arranged by class and selected industry characteristic, covering calendar year 2016.

The Regulatory Division of the Department of Revenue and Taxation, under the supervision of the Commissioner, regulated two hundred fifty three (253) insurers transacting insurance business in Guam. Among the two hundred fifty three (253) insurers are: two hundred twenty one (221) foreign companies, twenty (20) alien companies, and twelve (12) domestic companies.

Of the two hundred fifty three (253) companies, one hundred nine (109) are engaged in providing coverage for property and casualty lines, one hundred two (102) in life, eight (8) in title guaranty, three (3) in captive insurance, fifteen (15) in fidelity and surety and sixteen (16) in approved reinsurance.

There were five (5) insurance companies admitted in 2016:

Name of Insurance Company	***Admission Date***
Peak Reinsurance Company, Ltd.	04/05/16
Swiss Re International SE	08/04/16
HDI Global SE	07/16/16
Hannover Re (Bermuda), Ltd	04/05/16
TaiPing Reinsurance Co, Ltd	04/05/16

In the Calendar Year 2016, the insurers' generated premiums written on property and casualty was **338 million** and **199 million** on life and health.

The assets of these companies were at **$2.3 trillion**. All insurers admitted to Guam maintain deposits with this Department at **$13.2 million** for the protection of policies sold in Guam.

There are twelve (12) domestic companies in the year 2016 with **$285 million** in assets, **$49million** in capital and **$113 million** in surplus.

There are twenty eight (28) approved reinsurance companies in the year 2016 with **$264 billion** in assets, **$2.2 billion** in capital and **$54 billion** in surplus.

Some of the model laws that we recommend to be adopted are as follows:

Model Law and Regulations	***Purpose***
Standard Valuation Law	Provides actuarial standards for setting reserves for life & health policies.
Credit for Reinsurance Law	Protects the insured and ceding insurers
Insurance Holding Company Act	Requires insurance companies that are within the holding company system to maintain a required level of capital and surplus before dividends can be declared and paid.

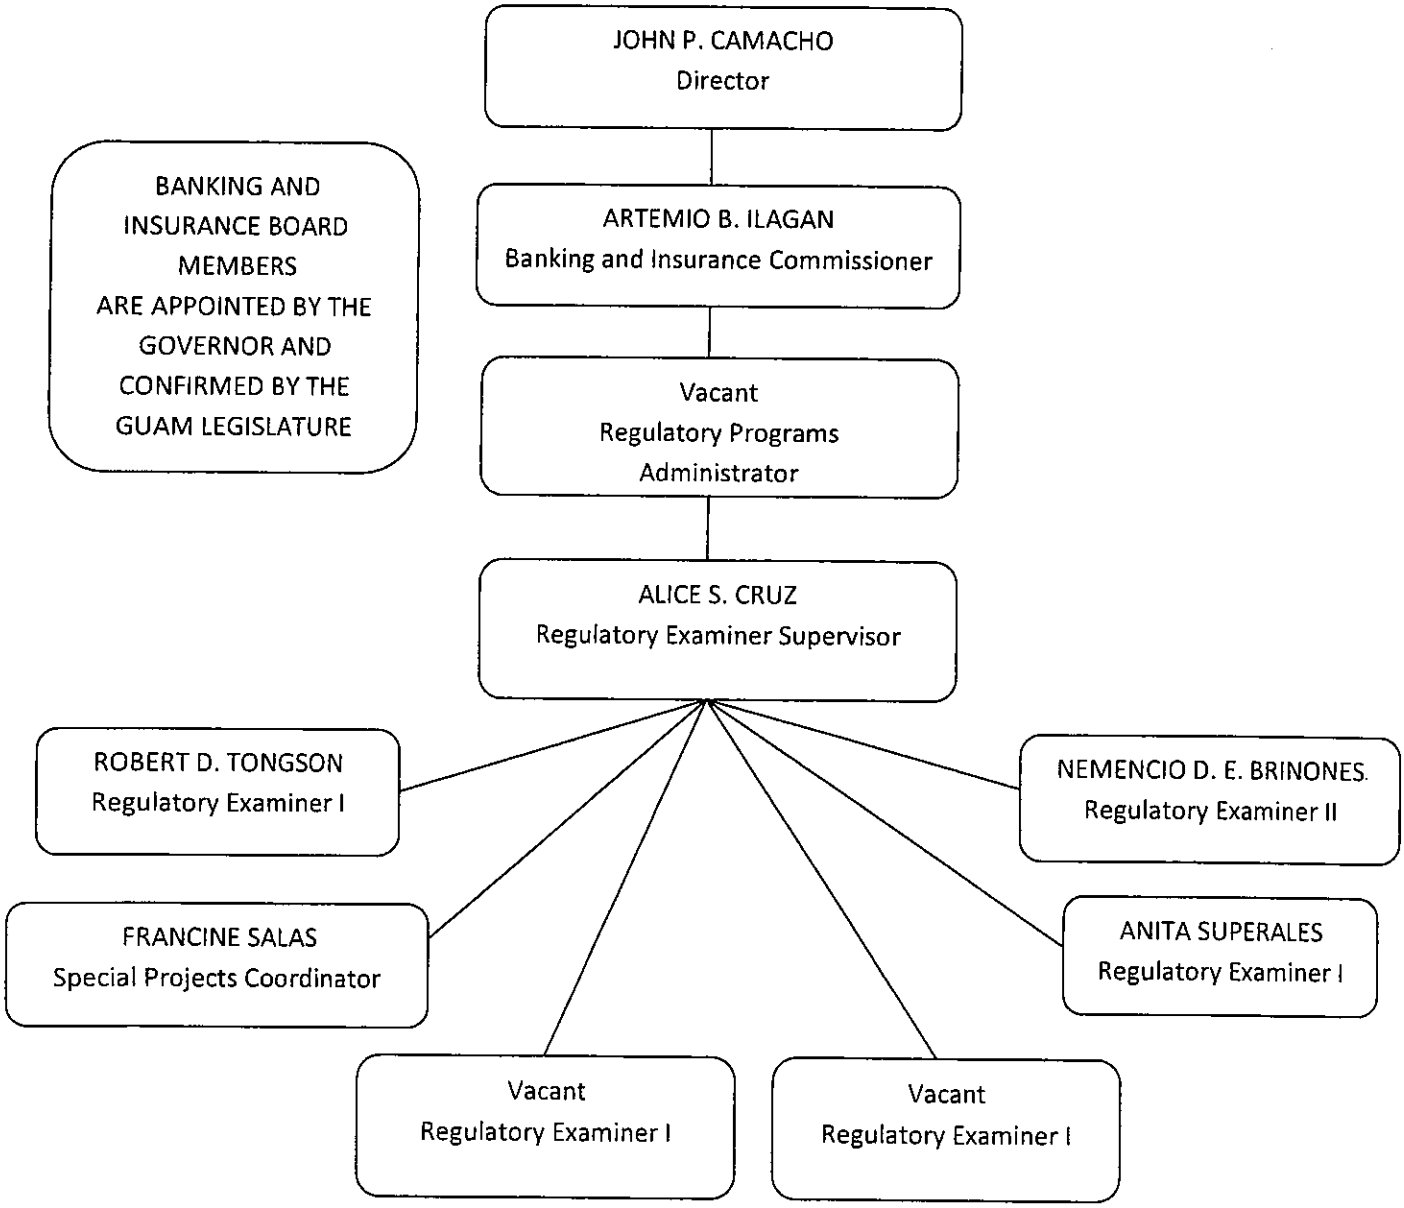

Market Conduct Regulation Law	Requires insurance companies to be in compliance with laws and regulations other than those related to financial solvency. Market regulation complements financial solvency regulation. Problems spotted during a market conduct review can be a precursor to financial solvency concerns. Market regulation also evaluates companies' fulfillment of contractual obligations to their policyholders and claimants.
Producer Licensing Model Act	Requires qualifications and procedures for the licensing of insurance producers. It simplifies and organizes some statutory language to improve efficiency, permits the use of new technology and reduces costs associated with issuing and renewing insurance licenses.

We firmly believe that the above listed model laws and regulations are the bare minimum that must be adopted in order to protect the consumers in Guam.
