ABOUT THE BUREAU

BSP is a staff agency to the Office of the Governor. Other public laws and Governor's Executive Orders granted additional roles to BSP such as providing administrative support to the Guam Developmental Disabilities Council and providing a preliminary Business Sector Disaster Damage report to the Governor in the aftermath of a Typhoon.

The Bureau employed approximately 35 employees that supported five program divisions: Administration, Business & Economic Statistics, Socio-Economic & Coral Reef Initiative, Planning Information Program, and the Guam Coastal Management Program.

The Bureau is dedicated to providing expediency in all of our endeavors and promoting the welfare of the community. Each individual is professional in their field of work and everyone is dedicated to ensure the Bureau's mission is carried out for the overall benefit of the island.

In FY 2017, the Bureau showcased its professionalism and dedication to public service by winning 15 MagPro Awards of Excellence under the Governor's Employee Recognition Program. The awards include the following:

The graph depicts how prices, on average, have changed over time. While prices on all items have gradually increased, food prices show more volatility and have outpaced energy price changes over this time period.

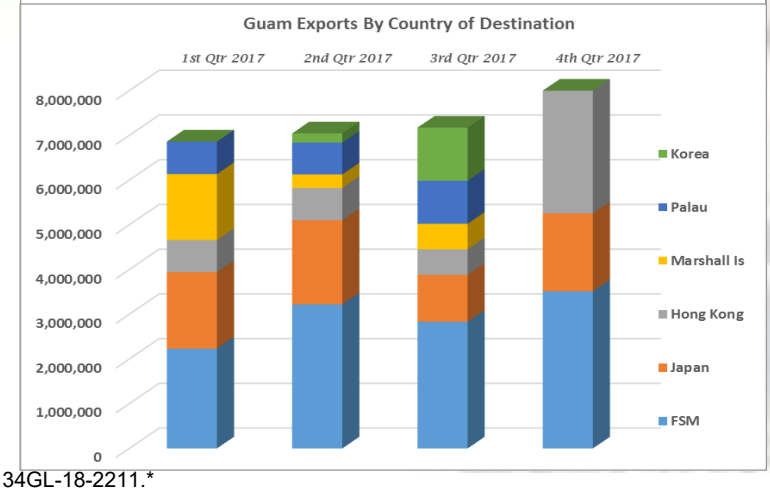

The cost for Guam to provide educational, public safety, health and welfare services to Freely Associated State citizens was $147.3 million and $85.6 million in federal assistance. Since 2004, a total of $1.2 billion (unaudited) assistance has been provided to citizens of the FAS.

In support of fisheries management and sustainability, the Fish Import and Export Data Collection and Monitoring System reported a total of 148,301 or $2 million in air cargo imports and 127,379 or $6.1 million in maritime imports for a variety of aquatic fisheries in 2017.

For 2017, exports have averaged $8.2 million per quarter with FSM at 36% followed by Japan at 20% of that total.

BSP is included in the Government-Wide Annual Audit.
Complete information can be found at the Office of the Public Auditor website at www.opaguam.org.

Challenges in 2017:

- Although the Bureau's mandates did not change, additional program initiatives were absorbed from other agencies which caused challenges as the Bureau is limited in staff resources. Despite the challenges, the Bureau met its mandates and additional program initiatives.
- Implementing a succession plan to build capacity and institutional knowledge of critical program areas remains a challenge with funding constraints.
- Obtaining federal clearances in a timely manner on special award conditions such as congressional mandates, the Section 106 review process, permitting requirements, and GSA procurement to meet federal grant requirements and achieve full implementation of project activities.
- Funding constraints to continue implementation of Fisheries Import and Export Data Collection and Monitoring System to capture data for analysis and economic development opportunities.

Marked success at the Manell-Geus (Merizo) watershed for forest restoration, replanting of native species and firebreak maintenance at the Quinene Hill (Merizo) reforestation site. Ridge-to-Reef efforts help minimize negative impacts on ecosystems, infrastructure and reefs.

MOVING FORWARD IN 2018……..

The BSP will continue moving forward in 2018 with the following and more:

- Publish quarterly publications for Import and Export Trade Data and Consumer Price Index reports.
- Develop and publish the 2018 Statistical Yearbook, the 2017 Guam Facts & Figures At-A-Glance brochure and other statistical indices to make sound decisions to improve the island's economic viability and resource sustainability.
- Provide technical support to GovGuam entities when needed in order that they meet their missions.
- Continue collaboration with U.S. Census Bureau officials and stakeholders on Guam in the planning of the 2020 Guam Decennial Census.
- Prepare the 2018 Annual Compact Impact Report to identify and assess the costs incurred for services to Freely Associated States migrants on Guam.
- Conduct the 2018 Guam Compacts of Free Association Enumeration to determine USDOI reimbursement in 2019.
- Continue securing federal dollars from USDOJ to further improve and advocate criminal justice initiatives on Island.
- Provide technical assistance to GEDA on the development of the 2018-2023 Comprehensive Economic Development Strategy (CEDS).
- Continue securing federal dollars from NOAA and DOI to compile commercial fishery data; spearhead best management practices for coral reef, coastal and environmental conservation initiatives.
- BSP involvement in the Safe Housing Task Force, the Imagine Guam 2065 and other Community Action Programs.
- Coordinate and develop Guam's new FY 2018-2021 Drug Control, Violent Crime and Criminal Justice Systems Improvement Grant Program.
- Serve as the catalyst for planned and balanced economic, social, environmental and physical growth through Guam State Clearinghouse, legislative review of bills, and the mandated review process of elements via Comprehensive Development Plans.
- Continue ARC/GLUC, GIS Mapping and Federal Consistency reviews to ensure sustainable, well planned development efforts are central to protecting Guam's natural resources.
- Coordinate the 3rd Planners Symposium, 24th GICC, the 8th Kika Summer Camp and publication of the Man, Land and Sea Newsletters.
- Coordinate the kick-off of Guam's year-long participation in the International Year of the Reef (GYOR), 4th Coral Reef Symposium, and other coral partnerships.
- Continue to conduct outreach programs such as the Guardians of the Reef, Eyes on the Reef, the Pig Hunting Derby and Pork in the Park Cook-Off to promote and advocate best management practices in protecting the island's coastal environment and balance of sustainable uses of resources and capabilities.
- Continue with watershed restoration and reforestation efforts in the south; and the promotion of green infrastructure technology.
- Sustain or promote employee development, recognition and satisfaction.

Flood study completed on Manell-Geus watershed. As a result, outreach materials for flood mitigation developed on a residential, governmental and community scale. Site: Flood and bamboo impact on Barcinas culvert (Merizo).
