Memorandum

To: The Governor

From: Executive Secretary, Guam Land Use Commission

Subject: **GLUC Zone Change Approval from "A" (Rural/Agricultural) to "M-1" (Light Industrial) zone for Lot 5223-6-NEW-9-1, Barrigada; Applicant, Han Sun Reep, Application No. 2013-25**

Submitted for your consideration and action is Zone Change Application No. 2013-25. The Applicant, Han Sun Reep represented by Ignacio F. Santos is requesting approval for a Zone Change from "A" (Agricultural/Rural) to "M-1" (Light Industrial) zone on Lot 5223-6-NNEW-9-1, for the proposed construction of a church and warehouse.

Application chronology is as follows:

- April 12, 2013 – Application officially accepted
- May 2, 2013 – Reviewed by the Application Review Committee (ARC)
- November 14, 2014 – Public Hearing, Yigo Senior Center
- June 28, 2018 – Guam Land Use Commission (GLUC) Public Hearing (approval of Zone Change)
- The four (4) year gam pin the completion of the zone change process was due to personal reasons with the applicant's consultant.

Pursuant to the Guam Code Annotated, Title 21 (Real Property), Chapter 61 (Zoning Law), Section 61634 (Decision by the Commission), which states, *"if the application is approved in whole or in part by the Commission, the same shall be forwarded to the Governor who may approve or disapprove the proposed change in whole or in part";* this application is being sent to you for your action.

CFN-1018-5062

This application is being sent to you pursuant to Title 21, GCA, Chapter 61 (Zoning), Section 61634.

Please contact Land Planning Division at 649-5263, extension 375 should you have any questions and/or need further clarification.

Si Yu'os Ma'ase,

MICHAEL J.B. BORJA
Executive Secretary
Guam Land Use Commission

March 9, 2013

Mr. Monte Mafnas
Acting, Executive Secretary
Guam Land Use Commission
c/o Planning Division
Department of Land Management
Government of Guam
P.O. Box 2950
Hagatna, Guam 96932

Dear Mr. Mafnas,

On behalf of Han Sun Reep, enclosed is an application for a Zone Change request to rezone Lot No. 5223-6-NEW-9-1 from an "A" (Rural) zone to an "M-1" (Light Industrial) zone. The subject lot is located within the Municipal District of Barrigada and contains a land area of 5,271 square meters or 56,738 square feet.

The applicant's petition for a Zone Change request through the Guam Land Use Commission will be to construct a church and a warehouse building to house toys.

The proposed request will be in compliance with the provisions outlined in sections 61630 through 61637et seq., Part 3-Changes of Zones, Article 6-Administration and Enforcement, Chapter 61-Zoning Law, Title 21, Guam Code Annotated.

The lot is in close proximity to other existing warehouses in the area. A typical land-use that is consistent with the proposed development of the property.

I request your attention on the enclosures and look forward on presenting this application before the commissioners of the Guam Land Use Commission.

Si Yūus Maāse,

IGNACIO F. SANTOS
Principal in Charge

Affidavit of Authorization

THAT I, duly authorized representative of **Lot No. 5223-6-NEW-9-1** located within the Municipal District of Barrigada.

THAT, Ignacio F. Santos is the duly authorized representatives to act on my behalf to file for consideration an application for:

a. Zone Change

THAT, the extent of my authorization to Ignacio F. Santos and he may conduct himself accordingly to arbitrate, negotiate, commit, revocate, represent, mitigate and abate the proposed request for a Zone Change approval through all the reviewing instrumentalities involved along the process.

THAT, the extent of this authorization continues until I hereby revoke it in writing.

Further, the affiant sayeth naught.

Authorized Representative of
Lot No. 5223-6-NEW-9-1, Barrigada

ZONE CHANGE

TO: Executive Secretary, Guam Land Use Commission
c/o Land Planning Division, Department of Land Management
Government of Guåhan, P.O. Box 2950, Hagatna, Guåhan 96932

The Undersigned owner(s)/lessee(s) of the following described property hereby request consideration for a *Zone Change*.

1. Information on Applicant:

Name of Applicant: Han Sun Reep U.S. Citizen: [X] Yes [ ] No

Mailing Address: P.O. Box 24725 GMF, Barrigada, Guam 96921

Telephone No.: Business 734-5351 Home: 777-3862

2. Location, Description and Ownership:

Subdivision Name: N/A

Lot(s): 5223-6-NEW-9-1 Block: N/A Tract: N/A

Lot Area: Acres 1.42 Square Meters 5,271 Square Feet: 56,738

Village: Barrigada Municipality: Barrigada

Registered Owner: Han Sun Reep

Certificate of Title No.: 461750 Recorded Document No.: 387831

3. Current and Proposed Land Use:

Current Use: Vacant Zoned: "A"

Proposed Use: Warehouse Proposed Zone: "M-1"

Master Plan Designation: Rural

4. **Attached a one page** typed, brief and concise justification (letter format explaining the compatibility of the proposed project with adjacent and neighborhood developments as they exist; your intentions and purpose of the Zone Change request justifying public necessity, public convenience and general welfare in accordance with ***Guåhan Code Annotated 21 GCA, Chapter 61, Section 61630***.

5. **Support Information.** The following supporting information shall be attached to this application:

a. 8 1/2" X 14" map, drawn to scale, showing existing zoning within 1000 feet radius from the subject lot's boundaries.

ATTACHMENT: Section 61630 (Requirements For Changes) and Section 61638 (Review by Municipal Planning Council is attached for your information and guidance in preparation of your Zone Change Application. For additional requirements, visit the Zoning Section, Land Planning Division.

ZONE CHANGE

5. Supporting Information (Continuation):

b. All parcels and their uses within 750 feet radius from the subject lot's boundaries. The map shall also contain:

(1) Lot number for every parcel(s);
(2) Identify by name and use all existing activities on all parcel(s) through a legend/code reference;
(3) All adjacent inclusive and exclusive easements and roads to the property, their widths, and condition of surfaces;
(4) The nearest location of all public utilities to the subject lot;
(5) All natural or topographic peculiarities.

c. 8 1/2" X 14" map, drawn to scale, showing all parcels within 500 feet radius of the subject lot's boundaries. Each parcel shall be identified with property lot number.

d. The most recent survey map, certified and recorded at the Department of Land Management, showing the subject property.

e. A detailed As-Built Plan of the lot shall include the following:

(1) Total number and types of building;
(2) Parcel size in square meters/feet;
(3) Layouts of utilities and drainage;
(4) Proposed lot coverage of building(s) and accessories in square meters/feet;
(5) Approximate gross and net densities allowed on parcel;
(6) Feasibility study;
(7) Topography;
(8) Existing earth faults and sinkholes;
(9) Water courses and lens;
(10) Reservation, conservation and historic places;
(11) Total percentage of open spaces exclusive of parking stalls and other man-man features;
(12) Percentage of building footprint (PD only); and
(13) Compatibility to surrounding uses (PD only).

f. If leased, lease agreement (the assignment of lease and the covenant).

g. An initial comprehensive ***Environmental Impact Assessment (EIA)*** in accordance with Executive Order 90-10.

h. Additional information as required by the Guåhan Chief Planner

Submit one set of the Application with all the supporting information listed above. Once the Application is reviewed and accepted, applicant must submit the required number of hard copies (32 sets) of the Application and nine (9) copies of the Application in electronic format (example: in CD format, etc.)

6. Filing Fee: Fifty Dollars ($50.00) filing fee for the first five pages, and $.25 for any additional page, under Public Law 29-02, Chapter V, Part III *(Fees and Charges Assessed by the Department of Land Management).*

7. **Required Signatures:** All legal owners/lessees of designated parcel shall sign form with name(s) typed or handwritten, signed and dated:

"I hereby certify that all information contained in this application and its supplements is true and correct. I also understand that any misrepresentation in this application shall void the entire submission. Further, that thirty-two (32) sets of the above listed required information is provided."

_____

GLUC Resolution No.: _____ Date of Notice of Action: _____

I. Intent and Purpose

Han Sun Reep proposes to construct two 5,000 square feet warehouses, one for storing toys and the other to be used as church. The proposed project will be located on Lot 5223-6-NEW-9-1, located within the Municipal District of Barrigada. The property is currently zoned "A" (Rural) and contains a cumulative land area of 5,271 square meters or 56,738 square feet.

II. Authority

A zone change request through the Guam Land Use Commission is petition to approve the proposed development. The request is in compliance to the provisions as outlined in Sections 61630 through 61637et seq., Part 3 Changes of Zones of Article 6, Chapter 61 - Zoning Law, Title 21, Guam Code Annotated.

III. Location

Lot 5223-6-NEW-9-1 is located within the Municipal District of Barrigada. It is specifically located along an unnamed street approximately 1,550 feet from Route 16. The entrance to this street is just north of Conwood hardware store, and runs along the side yard of the store. The ingress and egress to the project site is a forty feet wide public access and utility easement which connects to Route16 the main thoroughfare.

IV. Site Description

Lot 5223-6-NEW-9-1 is currently vacant with no permanent or temporary structures within its boundaries. The project site contains a cumulative land area of 5,271 square meters or 56,738 square feet and is currently zoned "A" (Rural). The property is accessible via a 40-foot wide Public Access and Utility Easement (see property map). The property is currently occupied by overgrown vegetation and trees. Topographically, the property has 2 to 3 percent slopes with no ponds or streams occurring within its boundaries. The underlying soils consist of Guam cobbly clay loam, 3 to 7 percent slopes. Shallow and well-drained soil on limestone plateaus make this class of soil poorly suited to subsistence farming, being the main limitations is the very shallow soil depths and doughtiness. Permeability of this soil is moderately rapid. Runoff is slow and the hazard of water erosion is slight. The need for a community sewage system would be required to prevent contamination of ground water, being the site is located within ground water protection zone. It is not known at this time whether archeological or historical resources are located within the project boundaries however; clearances would be required prior to any clearing or grading of the property. The project site is also located within the Air Installation Compatible Use Zones, Accident Potential Zone I, with a noise exposure level of 65 -70.

V. Project Description

The proposed project entails the construction of two butler style buildings, each consisting of 5,000 square feet. Occupancy of these structures will consist of toys and the other for a church. The on-site improvements will consist of fifty-eight parking stalls with four accessible parking stalls and a catchment system to handle all surface runoffs within

the project boundaries. A six foot high concrete wall will be installed along the rear and side yards of the property. All utility infrastructures such as power and water to service the project will be located underground and within the property boundaries.

VI. Project Analysis

i. Density

Zoning, land-use, land area, and the availability of a sewer system were the basis for determining the density of a lot. The project site is presently zoned "A" (Rural) and is accessible to a public sewer system. The density of the project site under its current zoning designation equates to 3 single-family dwelling units without sewer. The proposed project plans does not include the construction of any dwelling units.

ii. Height

The height limitation for the proposed project site is determined, based on its zoning and uses within the zone. The project proposes for the construction of two, one story warehousing facilities with a maximum building height of twenty-two feet six inches from ground level to the apex of the building.

The zoning code of Guam promulgates a height limitation of three stories not to exceed a height limit of thirty feet. The proposed project is within this criterion under its requested zone.

iii. Setbacks

The criterion for yard depths and widths within the project is base upon the approval of the zone change request. The setback criterions for a light industrial zone versus the proposed setbacks are as follows.

Yards	Minimum	Proposed
Front	0′ – 0″	69′ – 0″
Side - L	8′ – 0″	20′ – 0″
Side - R	8′ – 0″	30′ – 0″
Rear	20′ – 0″	46′ – 0″

iv. Parking

Parking requirements of the project will be in conformance to Part 4 of Article 5, Zoning Law. The criterion for parking under the proposed project was based on its proposed use as a storage facility and a church. A total of fifty-eight parking spaces including four accessible parking stalls are being proposed versus the required thirteen stalls.

VII. Infrastructure

Impact to the existing utilities will be nominal and will not require the construction of new facilities. General utility services for power, water, sewer, and telephone are available along Route16 the main thoroughfare accessing the access road. A potable water line located along the access road consists of two-inch line. A sanitary holding tank will be used to handle all wastewater form the proposed project.

Water

A two-inch waterline will be used to service the demand of the proposed development. This line will then be tied into a backflow preventer to the meter which will then be connected to a proposed six-inch line which will then be tied into the existing waterline along Route 16. See attached engineering calculations.

Sewer

A sanitary holding tank will be used to handle all wastewater to support the proposed project. A plan to install a new wastewater line is in the future.

Power

The estimated electrical load calculations for the proposed development were based on preliminary load assumptions and conventional utilization equipment commonly used for this type of development and occupancies. The projected electrical load for the development is 81.2 KVA.

Drainage

All storm water generated within the project boundaries will be collected on site via catchments facilities. The catchments facilities will then discharge the storm water run-offs into underground pipes and then disposed of into a ponding basin.

Solid Waste

Urban pollution is a concern due to the increase of solid waste. All solid waste generated by the proposed project will be recycled and disposed of by a commercial sanitation system.

VIII. Land Use

The subject lot is presently zoned "A" (Rural). The land-use of the property under its present zone is restricted to one-family dwellings, duplexes, farming fisheries, cockpits and uses customarily accessory to any of these listed. These types of permitted land uses may not be the best desired setting to the health, safety and general welfare in the development of the property and its surrounding areas under its present zone. Existing land-uses surrounding the project site within the periphery of 750-feet consists primarily of quarry activities, warehousing, auto repair shop, equipment storage yard, Catholic Social Services and single-family dwellings. The proposed land-use change will provide an improvement to the lot and increase the quality of life of the area. Impacts associated with the proposed development will exhibit an orderly form of development. The impact on the environment of the area by the proposed project will greatly enhance its aesthetic value. The proposed land-use of the property will be in association to the neighboring land-uses in the area.

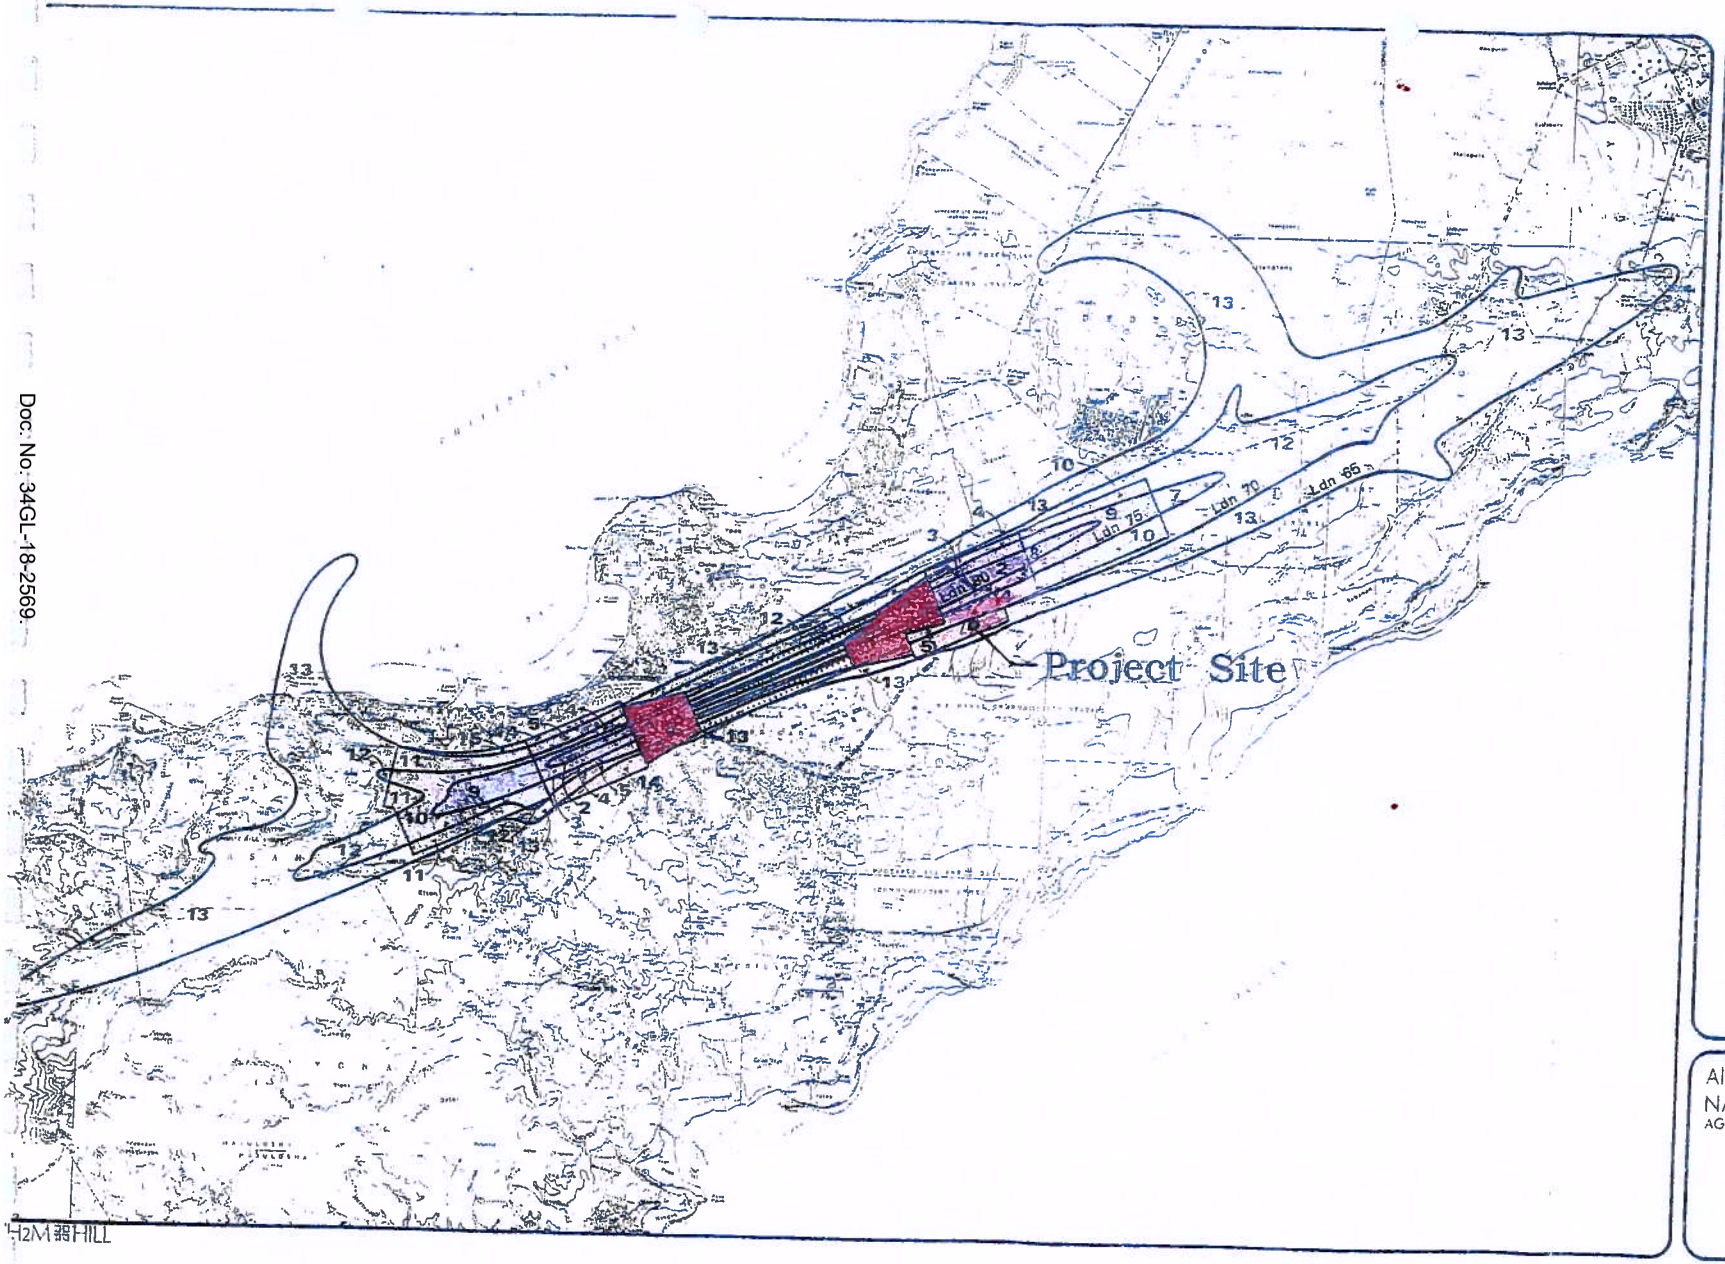

IX. Compatibility of Project

The subject lot is presently zoned "A" (Rural). Existing land-uses surrounding the project site within the periphery of 750-feet consists of quarry activities, warehousing, auto repair shop, equipment storage

yard, Coca-Cola storage facilities, Catholic Social Services and single-family dwellings. Permitted land uses on the property under its present zone consist of one-family dwellings, duplexes, farming, fisheries, cockpits and uses customarily accessory to any of those listed. These types of permitted land uses may not be the best desired setting to the health, safety and general welfare in the development of the property. Impacts from the nearby A.B. Wonpat Guam International Airport situate the property within the foot prints of the Air Installation Compatible Use Zone (AICUZ). An area classified as Accident Potential Zone 1, Ldn 65 – 70 (APZ Ldn 65-70) see Figure 1. The AICUZ area represents the environs an air facility both on and off station that are impacted by either safety hazards or noise from aircraft operations. The APZ 1 although described as imposing a lessened of hazard, it is still of strong enough impact to seriously affect residential or populated areas. The Ldn 65-70 is the day-night average sound level used to delineate the noise counter and its noise exposure zone. The AICUZ study describes the impacts within the APZ 1, Ldn 65-70 as loud, but more tolerable in soundproofed structures. Industrial and commercial activities would be accepted along with agricultural uses. Figure 2 briefly describes this study entitled Air Installation Compatible Use Zone and Figure 3 is an excerpt from the AICUZ study prepared by CH2M Hill Corvallis, Oregon describing the noise impacts.

X. Zone Change Request

The site does not contain any known historical or archaeological resources. The surrounding zoning within the periphery of 1,000 feet consists of "M-1" (Light Industrial), "C" (Commercial) and "A" (Rural) zone. Surrounding land-uses within the periphery of 750 feet consists of

Doc. No. 34GL-18-2569

Implementation Plan. The development of a compatible land use plan for the areas surrounding NAS Agana/GIAT calls for a series of actions by the Navy, GAA, and the GOVGUAM Bureau of Planning. These actions should be towards creating public awareness, formulating public policies, and controlling/influencing local land uses. The following sections summarize the various recommended strategies for compatible development of the adjacent areas. The letter keys are in reference to the map on the previous page.

Areas A. These are sections of the Clear Zone that currently extend beyond the station boundaries. The Navy should acquire these areas and include them within the station boundaries. The Clear Zones, after acquisition, should be cleared and maintained as open space.

Areas B. The APZ I and APZ II areas are high hazard areas with high noise exposure. Stringent controls over the future use of this land should be developed. The density of population within these zones should be kept low; only some industrial uses and agricultural uses are fully suited. The high noise exposure prevalent through most of the APZ's preclude those land uses for residential, commercial, and for some industrial uses. At the present time there are residential, commercial, industrial, and agricultural zones within the B1 and B2 areas. Only the agricultural use is fully compatible. Zoning should be changed to eliminate further incompatible development. Also, the agricultural zone itself should be changed to prevent the possibility of churches, schools and other public buildings from being constructed.

Areas C. These are high noise areas outside the APZ's. The only incompatibility in these areas is the residential and some commercial land uses. Area C1 is almost totally compatible now, with very little development and mostly undeveloped open space. Efforts should be made to assure that it remains this way in the future. Area C2, however, is much larger and encompasses some residential areas. Existing zoning is mostly agricultural. Because of the high noise exposure, it is recommended that the zoning remain agricultural with the change in zoning description to eliminate the construction of residences and other structures. Where zoning changes cannot be made, soundproofing should be a requirement of any new construction.

Areas. D. These are the largest areas, and encompass most residential land use. Because of the noise in these areas it is recommended that the zoning and building codes be changed to call for soundproofing in any new residential and commerical construction. With modest soundproofing, these residential areas can be classified as compatible.

Area of Concern. All land uses are compatible within this area, but because aircraft can be seen and heard in all of these areas, they must be considered within the area of concern of the station. No zoning controls or changes are recommended; but any request for intensive public assembly — e.g., sports stadiums, theme parks, large auditoriums, etc. — should be reviewed in light of the then existing flight paths and noise contours surrounding the station.

Officials and Citizens,
Territory of Guam

The purpose of this letter and pamphlet is to introduce you to the concepts and findings of the Air Installation Compatible Use Zone (AICUZ) Study for the U. S. Naval Air Station, Agana, Guam. NAS Agana is unique because our runways are shared with commercial aircraft. Therefore, the AICUZ Study must account for the activities of NAS Agana as well as the Guam International Air Terminal (GIAT). It is our objective to continue to conduct both military and civilian flight operations with minimum adverse effect. In keeping with our policy of not only complying with the law but of providing leadership in environmental matters, we commissioned an AICUZ Study to define areas of adverse impact from air facility operations and then attempt, through procedural and operational changes, to lessen those impacts by reducing the area affected. A second goal of the study is to develop long range strategies that would provide both military and civilian communities with information on areas that are impacted by aircraft operations so that planning for future developments can take these factors into account.

The study was made by the firm of CH2M HILL, Corvallis Oregon, Engineers-Architects-Consultants, a leading consultant on airports. A private firm was selected to get the most objective study possible.

Let me allay any fear regarding noise and accident potential mentioned in the study. Noise zone designations and contours are developed from data collected on aircraft types, flight paths and power settings and the effect they have on people exposed to airfield operations. I assure you that everything possible, short of reducing operational capability, will be done to lessen the noise. In fact, three operational changes to decrease noise have already been implemented.

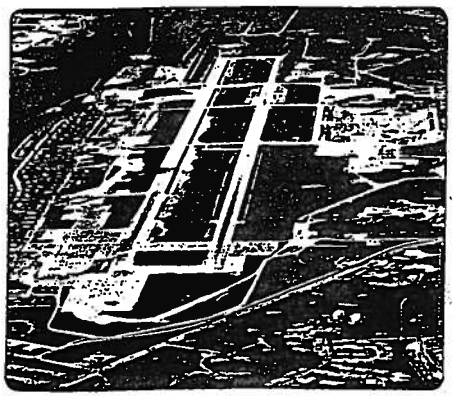

Potential for accidents exist in all areas where aircraft operate. Statistically, those areas immediately beyond the ends of the runways experience more aircraft accidents than any other area, and these areas have been identified as Accident Potential Zones. The Navy and all commercial carriers have effective air safety programs and the probability of a crash is very, very unlikely. However, our interest is to ensure that damage to life and property due to a possible aircraft crash is reduced by promoting a minimal exposure of people within significant accident potential zones.

I take this opportunity to thank you, the officials and citizens of the Territory of Guam for your past cooperation. I am sure that this same cooperation will continue and that Naval Air Station Agana, vital to the national defense, will remain a good neighbor to all of you.

If you wish to see the entire AICUZ Study, it is available in the Main Library in Agana and at various Government of Guam agencies. If you have any questions on the study, you may call my Staff Civil Engineer, Phone 339-1136.

Sincerely,

D. ESTES
Captain, United States Navy
Commanding Officer

WHAT IS AN AICUZ?
This pamphlet briefly describes a detailed study entitled Air Installation Compatible Use Zones (AICUZ). The AICUZ study completed at NAS Agana in 1978 is concerned with noise, aircraft accidents, and incompatible development. It is intended to acquaint local officals, planners, developers, and concerned citizens with the study and recommendations so that solutions to a complex problem can be realized. The AICUZ program seeks to achieve compatible land use on nongovernment, undeveloped land areas around Naval Air Stations.

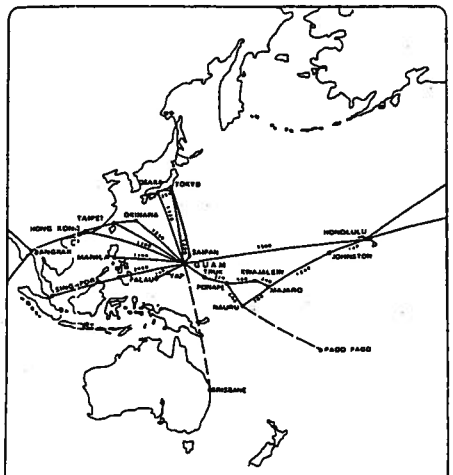

WHY IS THERE A PROBLEM?
Naval Air Stations attract development to the surrounding area in response to the need for services of military personnel, their dependents, and civilian employees. This situation is compounded at NAS Agana because the facility also serves as the commercial airport for the Island of Guam and this attracts additional businesses and services to the airport area. Without some form of compatible land use control this encroachment could spread to the point of impeding or inhibiting the use of the facility by aircraft. The land closest to the station is subject to high noise levels and aircraft accident potential from jet and propeller driven aircraft, helicopters, and the facilities which operate and maintain these aircraft. Aircraft noise often exceeds levels compatible with some land uses, and at NAS Agana/GIAT the areas most seriously impacted are Mongmong, Dededo, and portions of Barrigada and Agana.

DEFENSE AND ROLE IN THE ECONOMY.
NAS Agana, Brewer Field, is on the site of a World War II Japanese airfield built during the Japanese occupation of Guam. The U.S. Navy has continuously operated the Air Station since "Liberation Day" in 1944, and the Guam International Air Terminal was completed in 1967 to serve all major air passenger and cargo carriers stopping at Guam. In addition to service to Guam itself, GIAT acts as the primary hub for all air service to the Central and Western Pacific areas and to the Trust Territories of the Pacific Islands. The Naval Air Station hosts eight Navy tenant organizations and the Coast Guard, and has a total population (Navy, Dependents, and Civilians) of almost 4,000. Several hundred people work at GIAT in addition to the more than 600,000 passengers going through the terminal each year. The payroll alone for all these employees (Navy and Civilian) exceeds 15 million dollars each year, while the contribution of tourism and commercial dollars through GIAT is in the hundreds of millions each year. NAS Agana/GIAT is vital to the United States defense posture in the Central and Western Pacific as well as to the economic well being of the Island of Guam.

COMPATIBLE DEVELOPMENT URGED.
The purpose of the AICUZ is to provide a guide to compatible development through cooperation with local jurisdictions in order to minimize public exposure to aircraft noise and accidents, while at the same time protecting the operational capability of the Air Station and GIAT. By defining multiple compatible use zones the range of acceptable land uses is max mized. The result of the AICUZ and the recommendations for compatible land use are submitted to the local jurisdictions for considerations as a determinant in developing new or amending existing land use controls.

LESSENING OF CONFLICTS.
To eliminate the conflicts arising from encroachment of high density development the GOVGUAM Bureau of Planning, the Legislature, and the Guam Airport Authority working with the Air Station Command must take positive action to ensure that future land use and zoning will be compatible with all activities. A cooperative relationship exists between all parties, and progress is already being made towards resolving some of the encroachment problems.

WHO DID THE STUDY?
The AICUZ for NAS Agana/GIAT was prepared by CH2M HILL, a nationally known firm of engineering and planning consultants with offices in principal cities throughout the U.S. This study was conducted by staff from the firm's home office in Corvallis, Oregon The firm has designed and master planned many major commercial and military airports, terminals, runways, control towers, and support facilities. The study was performed for NAS Agana/GIAT under supervision of the Pacific Division, Naval Facilities Engineering Command located in Pearl Harbor, Hawaii.

GUAM AIR ROUTES

Figure 2

Doc. No. 34GL-18-2569

NOISE DESCRIPTOR EQUIVALENTS

Noise Exposure Zone	Composite Noise Rating*	Noise Exposure Forecast*	Day-Night Average Sound Level
3	CNR Zone 3	NEF above 40	L_{dn} above 75
2	CNR Zone 2	NEF 30 thru 40	L_{dn} 65 thru 75
1	CNR Zone 1	NEF below 30	L_{dn} below 65

Ldn contours were produced for Ldn 65, 70, 75, and 80, resulting in the following noise exposure zones:

>Ldn 80

The noise level within this zone is intolerable for human living or working areas.

Ldn 75-80

Very annoying noise. Suitable for industrial if structures are heavily soundproofed.

Ldn 70-75

Also very loud, but more tolerable in soundproofed structures.

Ldn 65-70

Generally acceptable for all uses except residential. Residential might be acceptable if homes are thoroughly soundproofed.

<Ldn 65

Acceptable for all kinds of uses.

Figure 3

Ldn LAND USE COMPATIBILITY

GENERALIZED LAND USE	Ldn RANGE	GENERAL LAND USE RECOMMENDATION
Residential and Educational	less than 65	Satisfactory, with little noise impact and requiring no special noise insulation requirements for new construction.
	65 to 70	New construction or development should be undertaken only after an analysis of noise reduction requirements is made and needed noise insulation features included in the design.
	greater than 70	New construction or development should not be undertaken.
Commercial	less than 70	Satisfactory, with little noise impact and requiring no special noise insulation requirements for new construction.
	70 to 80	New construction or development should be undertaken only after an analysis of noise reduction requirements is made and needed noise insulation features included in the design.
	greater than 80	New construction or development should not be undertaken unless related to airport activities or services. Conventional construction will generally be inadequate and special noise insulation features should be included in construction.
Industrial	less than 75	Satisfactory, with little noise impact and requiring no special noise insulation requirements for new construction.
	75 to 85	New construction or development should be undertaken only after an analysis of noise reduction requirements is made and needed noise insulation features included in the design.
	greater than 85	New construction or development should not be undertaken unless related to airport activities or services. Conventional construction will generally be inadequate and special noise insulation features should be included in construction.
Open	less than 75	Satisfactory, with little noise impact and requiring no special noise insulation requirements for new construction.
	greater than 75	Land uses involving concentrations of people (spectator sports and some recreational facilities) or of animals (livestock farming and animal breeding) should generally be avoided.

Figure 3

quarry activities, warehousing, auto repair shop, equipment storage yard, Catholic Social Services and single-family dwellings. The proposed project is in a reasonable association to the desired land use pattern for this area.

It is not anticipated that the proposed project will have an adverse impact to the government's ability to maintain the existing infrastructure of the area as the demand is very nominal.

Density, height, setbacks, and parking will be in compliance with the present Zoning law. The proposed project is not expected to impose a hardship on the available resources within the area. The developmental trends on Guam have had to adhere to additional requirements, above those imposed by law, to satisfy government agencies. These components are essential to ensure an orderly development of a project and the general protection of adjacent landowners. The proposed development has and will integrate these concerns in its development plans. . This zone change request will serve the public necessity, public convenience, and general welfare in the following manner.

i. Public Necessity

The location of the property within the restrictive AICUZ designations is more of a desired need of an "M-1" (Light Industrial) zone. The proposed project underscores the need for revitalizing the image of development within the area. The construction of the proposed warehouses, services this need for storing toys.

As Guam's economy prospers, many new or proposed developments design to cater towards retail activities requires a need for storage. The rezoning of the

subject lot to construct this facility serves as an integral aspect of Guam's expanding economic base. The proposed land use of the property serves as an optimum land use for its strategic location and proximity to activities that will benefit from it.

ii. Public Convenience

The proposed zone change affords public convenience through the availability of this facility for warehousing within the area. Route 16 a major thoroughfare is primarily utilized to commute between the northern and central villages and other business districts of Guam. The location of their proposed projects locates the proposed development within close proximity.

iii. General Welfare

The locations of the lot in addition to the underlying soils make it unfeasible to utilize the property for rural activities such as commercial agricultural or subsistence farming. The rock exposure on the adjacent quarry pits to the west provides a description on the type of soils within the area. Rural activities within the project site are neither a desirable or recommended use for the location. The surrounding land uses restricts the property from its full potential as zoned. The requested zone change will not reduce any zoning standards in the immediate vicinity. The improvements to the lot will create a more stable environment providing for an orderly development scheme.

The proposed development will not be unreasonably detrimental, as the zone change is not anticipated to adversely alter the surrounding area drastically, artificially increase property values or decrease the government's ability to construct service or maintain the infrastructures in the area. The proposed development will provide for a well-planned and integrated development and not de-characterize the surrounding area. The development will not detract from the usual land uses of the adjacent lots.

The developmental trends on Guam have received numerous requirements by the Government Agencies. Requirements on parking facilities, storm drainage and sewer hook-ups are now being enforce for new development projects. These components are essential to ensure an orderly development of a project and the general protection of adjacent landowners. The proposed project has and will integrate these concerns in its development plans.

ENVIRONMENT IMPACT ASSESSMENT

CASE NO.: _____ **PROJECT TITLE:** Proposed Warehouse & Church

APPLICATION FOR A FINDING OF NO SIGNIFICANT IMPACT

1. **Name, address and business telephone of applicant:**

   Han Sun Reep
   P.O. Box 24725
   GMF, Barrigada, Guam 96921
   (671) 734-5351

2. **Name and title of representative if applicant is a business or governmental agency:**

   Ignacio F. Santos
   Land Use Consultant
   (671) 777-3862

3. **Location of proposed project: (Include tract, lot, municipality and a location map)**

   Lot No. 5223-6-NEW-9-1
   Municipality of Barrigada
   The project site is located along unnamed street which borders the northern side of Conwood Hardware Store and is approximately 1,550 feet from the intersection of this street and Route 16. See Exhibit "A"

4. **General nature of project: (i.e. single family residence, gas station, parking lot, etc.)**

   The general nature of the project will be to construct a warehouse and church consisting of 5,000 square feet each.

5. **Are any of the following critical environmental factors affected by the proposed project? If yes, describe the impact, otherwise enter "none".**

ENVIRONMENTAL FACTOR	IMPACT
Archaeological Feature	"None"
Critical Habitat Area	"None"

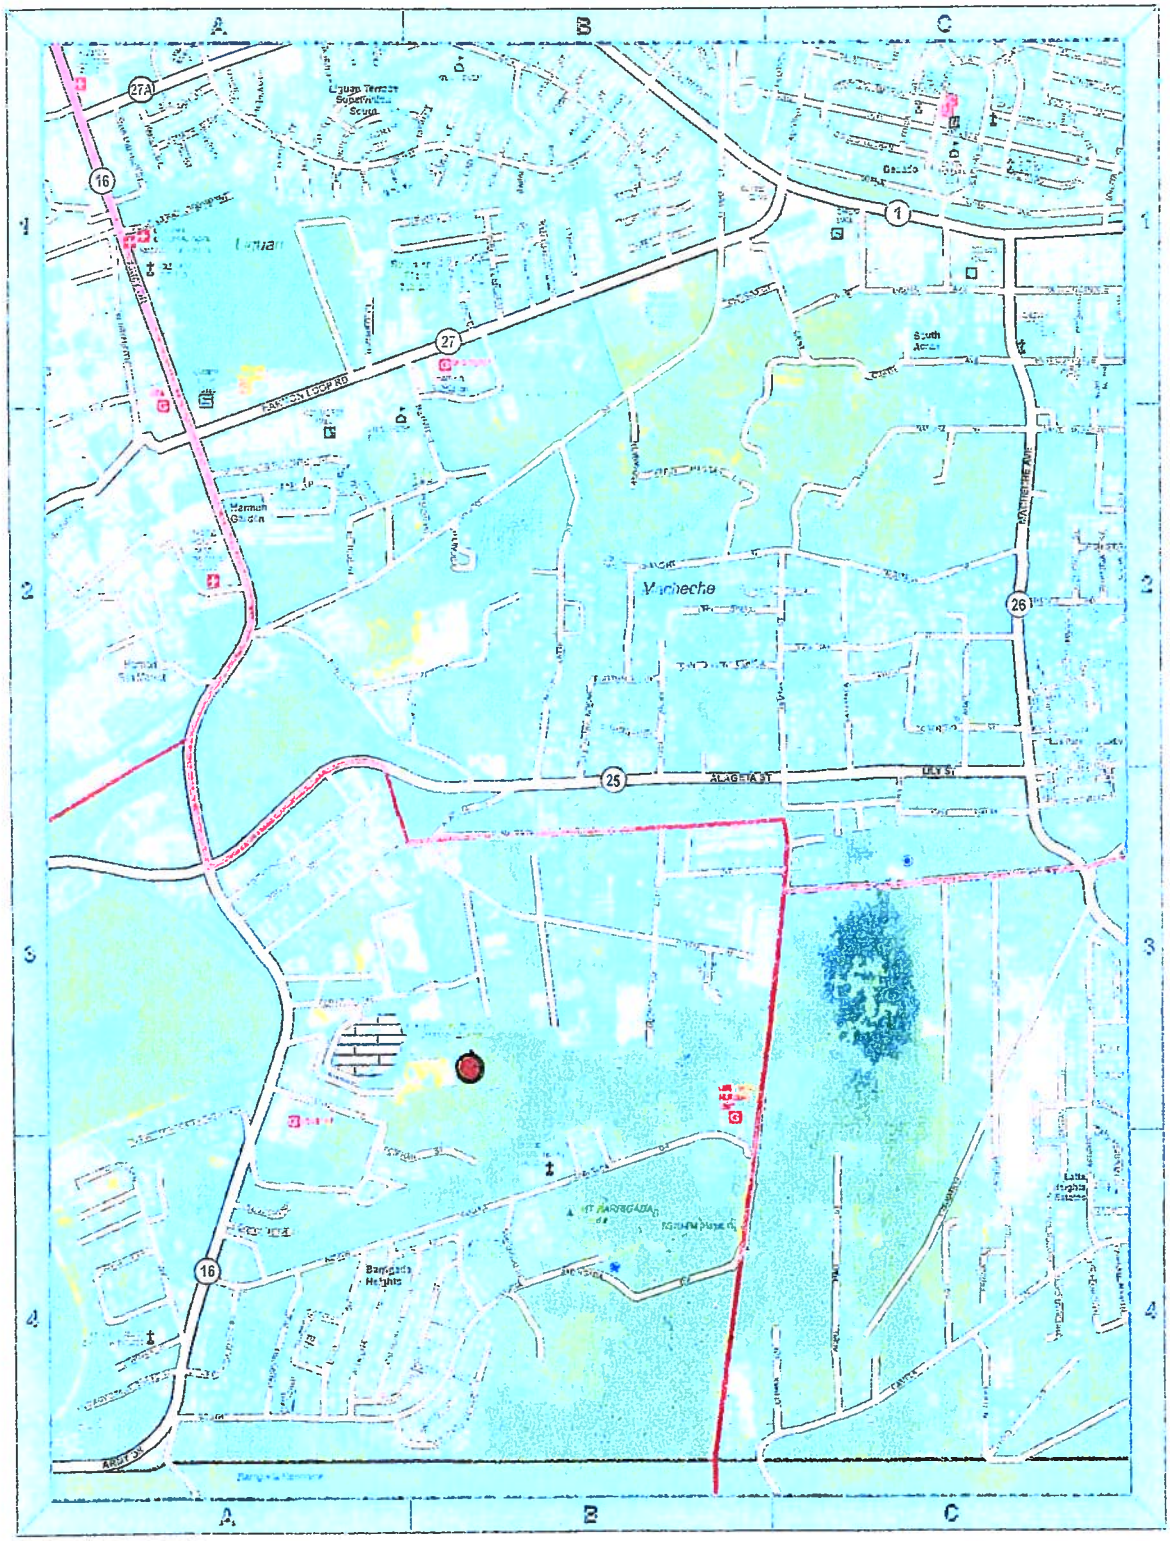

Guam

Groundwater recharge Area	"Yes*"
Marine Waters	"None"
Pristine Forest	"None"
Reef Flats	"None"
Streams, Lakes or Ponds	"None"
Watersheds	"None"
Wellhead Protection Zone	"None"
Wetlands	"None"

* The proposed project is located within the ground water recharge area. A sanitary holding tank will be used to collect all wastewater generated by the proposed project.

6. **Will the project result in any of the following environmental impacts:**

Production of toxic or hazardous waste?

The project will not involve the production of any toxic or hazardous waste.

Dislocation of existing business?

A general land use activity of existing business within the area consists primarily of warehouses, auto repair shops and quarry activities. Land-uses that is consistent with the proposed project. Therefore, the proposed project will not dislocate any of the existing business within the area.

Dislocation of existing residences?

The proposed project does not anticipate an adverse impact to the existing residences of the area as the proposed project is in a reasonable association to the desired land use pattern for its location. Nearby residences are located on a higher elevation.

Dislocation of existing public areas?

The project will not dislocate any of the existing public areas within the vicinity. There are no public areas or parks within miles from the project site.

Production of air contaminants?

The project does not anticipate nor will it involve itself in the production of any air contaminants.

Increase in the requirements for drinking water supply?

The proposed development is a relatively small project as compared to a permitted residential land use of the site. Impacts to the existing facilities will be nominal and will not require the construction of new facilities. A two-inch diameter waterline will be used to supply the proposed project.

Increase in the requirements for sewage disposal?

The project will not significantly increase the requirements for sewage disposal. The project proposes to dispose of any wastewater generated from its use via a holding tank.

Increase in the requirements for vehicle traffic?

The proposed project will not significantly increase the requirements for vehicular traffic. Based on existing road improvements, the flow of vehicle traffic from the project should not be disruptive to affect the normal living patterns of the area.

Clearing and grading?

The project site exhibits a relative 2-3 percent grade with overgrown vegetation. Prior to any construction on the site a clearing permit will be required to initiate the proposed development.

On-site, individual wastewater disposal system?

The project will require the installation of an on-site, individual wastewater disposal system. Any and all wastewater generated from by the proposed development will be disposed of via a holding tank.

Above ground or below ground storage tank?

The project will not require a storage tank below ground level to store all wastewater generated by the proposed project.

DECLARATION BY APPLICANT

This proposed project will not result in a significant adverse environmental impact.

SPECIAL WARRANTY DEED
FOR EXCHANGE PURPOSES

TO ALL TO WHOM THESE PRESENTS MAY COME, GREETINGS:

THIS SPECIAL WARRANTY DEED FOR EXCHANGE PURPOSES is made on this 17th day of October, 1991 by and between **FIRST PACIFIC EXCHANGE, INC.**, T.I.N. # **66-0474908** whose address is 118 Hernan Cortes Ave. Agana, Guam 96910 hereinafter referrred to as "**GRANTOR**" and **HAK YUL KIM**, T.I.N. # 586-62-9308 and **HAN SUN REEP**, T.I.N. # 562-27-0783 whose address is P.O. Box AQ Agana, Guam 96910, hereinafter referred to as "**GRANTEES**".

WHEREAS, Grantor acquired title by virtue of a Warranty Deed from JOSEPH BLAS QUINTANILLA AND SHARON N. QUINTANILLA.

WHEREAS, Grantor is acting as Accomodating Buyer pursuant to an Exchange Agreement between Grantor and HAK YUL KIM AND HAN SUN REEP.

SPECIAL WARRANTY DEED AFFECTING: Lot 5223-6NEW-9-1 Barrigada, Guam.

Grantees shall vest title on the property as joint tenants with rights of suvivorship

WHEREAS, Grantor acquired title by virtue of a warranty deed from **Joseph Blas Quintanilla and Sharon K. Quintanilla.**

WHEREAS, Grantor is acting as Accommodator pursuant to an Exchange Agreement between Grantor and **Joseph Blas Quintanilla and Sharon K. Quintanilla.**

NOW, THEREFORE, for and in consideration of the mutual covenants herein exchanged, and receipt of good and valuable consideration, the parties hereby agree as follows:

Grantor, the owner, in fee simple of Lot. No.5223-6NEW-9-1 Barrigada, Guam as hereinafter described, does hereby grant, bargain, transfer, and convey unto Grantee all right, title and interest in fee simple Lot No. 5223-6NEW-9-1 Barrigada, Guam as more particularly described below:

DESCRIPTION:

Lot No. 5223-6NEW-9-1 bBarrigada, Guam, Estate No. 61418, as said lot is marked and designated on Map Drawing No. 4686; dated September 6, 1986 and recorded on July 27, 1987 in the Department of Land Management, Government of Guam, under Document No. 387831.

Said Map shows the area to be 56,732 +/- Square Feet or 5,271 +/- square meters.

SPECIAL WARRANTY DEED AFFECTING: Lot 5223-6NEW-9-1 Barrigada, Guam

Grantor does hereby expressly grant, bargain, transfer and convey to Grantee all right, title and interest in fee simple to said real property above described, including specifically, without way of limitation, any and all warranties made to Grantor herein by **JOSEPH BLAS QUINTANILLA AND SHARON N. QUINTANILLA.**

Further, the grant hereof, by Grantor to Grantee shall include all right, title, and interest Grantor now has or may have in the foregoing property and to all reversions, remainders, rents, issues and profits thereof, as Grantor may now have or may hereinafter acquire and with the same effect to the buildings, improvements, rights, easements, privileges and appurtenances thereto or thereon.

Grantor does hereby warrant and covenant directly to the Grantee that Grantor has not created any lien or encumbrance on said real estate and that Grantor its successors and assigns, hereby agrees to warrant and defend the same to Grantee and Grantee's successors and assigns against any lawful claims or demands of all persons created by Grantor by reason of any lien or encumbrance.

The parties acknowledge and confirm that water and electricity are immediately available on the property or within 100 feet of the property described above.

461750

SPECIAL WARRANTY DEED AFFECTING: Lot 5223-6NEW-9-1 Barrigada, Guam

IN WITNESS WHEREOF, this instrument was executed on the day and year first above written.

November 10, 2014

Honorable June Blas
Mayor of Barrigada

Dear Mayor:

The following application has been filed with the Guam Land Use Commission (GLUC) by:

The Applicant, Han Sun Reep, represented by Ignacio F. Santos, request for a Zone Change from "A" (Rural) to "M-1" (Light Industrial) zone for a proposed church and a warehouse building, on Lot 5223-6-NEW-9-1, in the Municipality of Barrigada, under Application No. 2013-25.

For any **Zone Change** requests that may have adverse impact on the public's interest, the GLUC is mandated by law to conduct a public hearing in the municipality where the subject lot is located. Accordingly, we would like to schedule a public hearing to be held at the **Barrigada Community Center, Wednesday, November 26, 2014 at 6:00 p.m.**

Please confirm the time, date and place.

Si Yu'os Ma'ase,

MARVIN Q. AGUILAR
Guam Chief Planner

MEMORANDUM

To: Chairman, Guam Land Use Commission

From: Guam Chief Planner

Subject: Staff Report – Zone Change Request
(Application No. 2013-25)
Lot 5223-6-NEW-9-1, Municipality of Barrigada

1. PURPOSE:

a. **Application Summary:** The applicant, Han Sun Reep, represented by Mr. Igancio Santos is requesting approval for a Zone Change of Lot 5223-6-NEW-9-1, Municipality of Barrigada, from "A" (Rural) to "M-1" (Light Industrial) Zone for a proposed church and warehouse.

b. **Legal Authority:** Sections 61630 to 61638 of Chapter 61 (Zoning Law), Title 21, GCA (Real Property)

2. FACTS:

a. **Location:** The subject lot is located along a 40-foot unnamed public access street about 1,550 feet east and inward of Route 16, with the entrance to this street located north and at the corner of the Conwood hardware store (**see Attachment 1).**

b. **Lot Area:** 5,271 Square Meters or 56,738 Square Feet
(Ref: LM Map No. 274FY86)

c. **Present Zoning:** "A" (Rural) Zone

d. **Field Description:** The property is vacant with no structures located within the lot. It is occupied by overgrown vegetation and trees.

e. **Masterplan:** Rural-Agricultural

f. **Community Design Plan:** Conservation/Open-Space

ATTACHMENT 5

g. **Previous Commission Action:** None.

3. **APPLICATION CHRONOLOGICAL FACTS:**

a. **Date Application Accepted:** April 12, 2013

b. **Date Heard by ARC:** May 2, 2013

c. **Public Hearing Results:** On November 26, 2014, a Public Hearing was conducted at the Barrigada Community Center. Present were DLM Planning Division staff, the applicant's representative, the Barrigada Mayor and Vice Mayor, and a member of the Municipal Planning Council.

Mr. Ike Santos presented the application to those in attendance; the requested zone change is to allow the construction of two warehouses, one for storing toys and the other to be used as a church. The mayor asked what type (denomination) of church and how large is the congregation. She wanted to know because she said the road leading to the property is bad. Mr. Castro, a member of the Barrigada Municipal Planning Council agreed that the road is in poor condition but recommended that the applicant seek out the other property owners to share the cost for making road improvements. There were no other concerns or comments and the hearing concluded shortly after.

d. Posting of **Public Notice:** Pursuant to Title 21GCA, Ch.61, §61633 (b)(1-2) regarding posting of public notice, a photo of the billboard is provided (**see Attachment 2).**

e. **Review by Municipal Planning Council (MPC):** Pursuant to Title 21GCA, Ch.61, §61638, no MPC resolution from the Barrigada MPC has been forwarded to Planning Division as of preparation of this report.

4. **STAFF ANALYSIS:** As proposed by this application, the request is to change the existing designated "A" (Agricultural/Rural) zone of the subject lot to "M-1" (Light Industrial) in order to construct two warehouses. If favorably considered, the proposed development must to meet the minimum requirements for setbacks, height, parking, on site storm water retention, and landscaping.

A request for a change of zone must address positive impacts contributing to Public Necessity, Convenience and General Welfare. Justification to support these caveats is provided for in the application as the proposed construction of warehouses underscores the need for revitalizing the image of development within the area and perhaps from a perspective of providing consistency as may be vetted to surrounding development. It affords convenience through the availability of warehousing service, or for such matter activities associated light-industrial services within the area of a major thoroughfare, Route 16.

The development trend shows growth from rural residential to commercial/light industrial uses within the area, and future commercial/light industrial growth is foreseeable as this property lies less than 500 feet inland from Route 16. This and the existence of adequate infrastructure will accommodate and serve the growth of this area.

With respect to protecting the welfare of the general public, a critical land use element considered in our analysis is the impact of the AICUZ (Air Installation Compatible Use Zone) generated by aircraft activities utilizing the Guam International Air Terminal. Based on the existing AICUZ, the subject property falls within an area designated as Accident Potential Zone 1 (APZ I) and Ldn (noise level) of 65-70 decibels. Any type of activity within the surrounding area will be affected by noise levels not conducive to residential use within this area but can be addressed through appropriate soundproofing. The AICUZ requirements do not favor residential development within the area as opposed to commercial/industrial, agricultural, golf courses or open space. As such, it is the position of Planning Staff that the area is best suited for industrial type uses followed by commercial activities/uses.

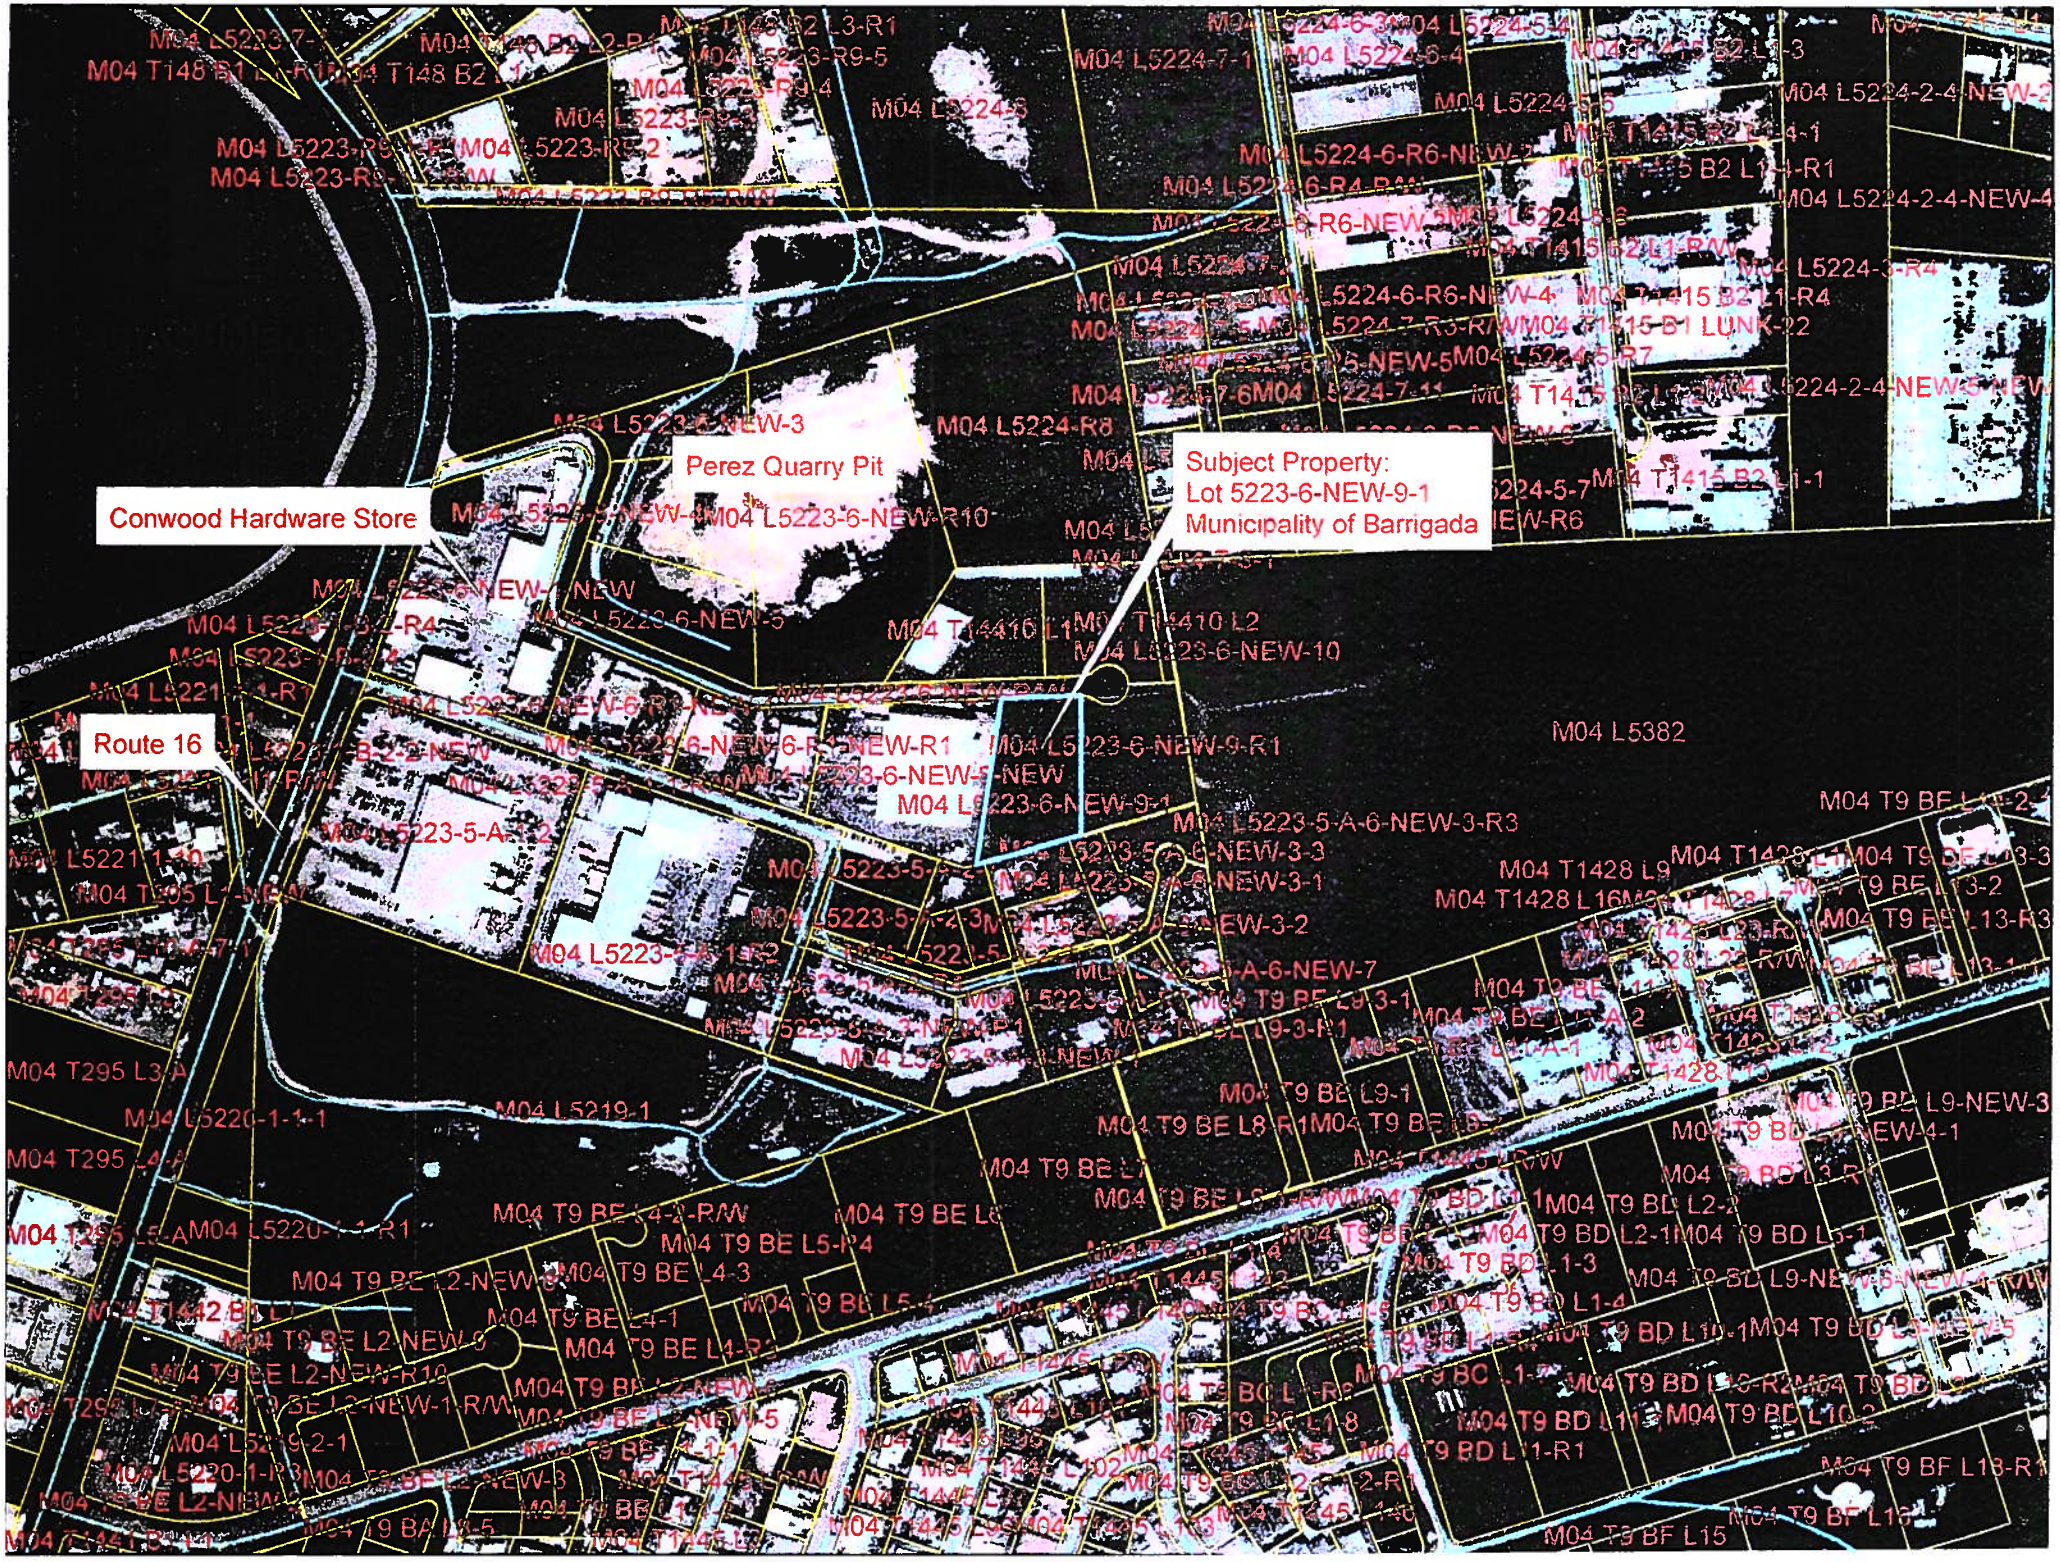

Since the lot is presently zoned "A", the required "Agricultural Impact Statement" indicated no major impacts to any agricultural activity and to any environmental issues regarding endangered species and habitat. We have reviewed the submitted ARC positions and find that there are "No Objections with conditions" for the zone change. We find within the context of the application, justification that the public necessity, convenience and general welfare, adequately supports a positive action on the zone change request.

5. **RECOMMENDATION:** Based on the above, Planning Staff recommends **Approval** with the following condition:

That the applicant adheres to the ARC conditions as stipulated on their Position Statements.

MEMORANDUM

TO: Guam Land Use Commission (GLUC) Members

FROM: Chairman, Application Review Committee (ARC)

SUBJECT: Summary of Position Statements by ARC Members

RE: Zone Change Application – 2013-25

Listed below are the APPLICATION REVIEW COMMITTEE POSITION STATEMENTS as submitted:

PERMANENT VOTING MEMBERS

1. DEPARTMENT OF LAND MANAGEMENT: Recommend APPROVAL WITH CONDITIONS as follows:
   That the Applicants adhere to all ARC recommendations as provided in their respective position statements.

2. GUAM ENVIRONMENTAL PROTECTION AGENCY:
   No Position Statement has been received as of the date of this Memorandum of June 6, 2018.

3. DEPARTMENT OF AGRICULTURE:
   Agriculture has reviewed the subject lot and request for a "Zone Change" from an "Agricultural" to an "M1" zone and finds that there are no major impacts to any agricultural activity and to any environmental issues regarding endangered species and habitat. However, our agency does recommend and require that proper mitigation measures are in place to prevent spillage of any industrial chemicals associated with any development activities. This is to protect our "Northern Aquifer" the major source of Guam's drinking water. To also aide in protecting our environment Agriculture encourages the land owner and developer to incorporate a landscaping plan that includes indigenous and/or fruit tree species planted on the site. These trees will help filter chemical pollutants and have the added benefits of windbreak protection, shading and an aesthetic component to enhance the area.

4. GUAM WATER WORKS AUTHORITY:
   No Position Statement has been received as of the date of this Memorandum of June 6, 2018.

5. GUAM POWER AUTHORITY:
Comments and Recommendations Concerning GPA requirements:
- GPA has no objection; however, customer is required to comply with the following pursuant to the National Electric Code, National Electric Safety Code and GPA's Service Rules and Regulations.
- Coordinate overhead/underground power requirements with GPA Engineering for new structure.
- Maintain minimum clearances as defined by the current edition of the National Electrical Safety Code and National Electrical Code.
- Maintain adequate clearance between any structures and electrical utility easements in accordance with NESC and GPA requirements.
- Developer/Owner shall provide necessary electrical utility easements to GPA prior to final connection.
- Provide scheduling and magnitude of project power demand requirements for new loads.
- All relocation costs for GPA's facilities, if necessary, is 100% chargeable to the applicant including but not limited to labor and materials.
- Primary distribution overhead and underground line extensions and GPA service connections must adhere to the guidelines outlined in the current issue of GPA's Service Rules and Regulations.
- A system impact assessment may be required to determine the effect of this facility on GPA's existing power facilities.
- All costs associated with the modification of GPA facilities shall be chargeable to the customer. This includes relocation costs, new installation costs and any required system upgrades.

General Comments
GPA has no objection to the request subject to the conditions cited above.

6. DEPARTMENT OF PARKS AND RECREATION:
We reviewed the subject application and have determined that the proposed zone change will not affect historic properties within the subject lot. Therefore, we have no objection to the approval of this zone change application.

7. DEPARTMENT OF PUBLIC WORKS:
The Department of Public Works (DPW) has inspected the location area on April 25, 2013 and has no objection to the applicant's requests, with the following conditions:

To install a sign on site, which is one of the requirements from the applicant, that will serve as a landmark to the exact location of the property; Restroom must be ADA compliant; and, If the owner chooses to use a solid waste disposal or any private services, the location of the trash bin container should be situated in an area that will not impact the public rights of way.

8. BUREAU OF STATISTICS AND PLANS:
Based on our review of the subject application as submitted, the Bureau provides the following comments and/or concerns:

The Bureau believes the proposed activity is consistent with existing activities in this particular area. According to the AICUZ (air Installation Compatible Use Zone) study and maps, this area is classified as APZ 1 (Accident Potential Zone), Ldn 65-70 (day-night average sound level). The AICUZ area represents the environs of an air facility, both on and off station, that are impacted by either safety hazards of noise from aircraft operations. APZ 1, Ldn 65-70 is described as imposing a lessened degree of hazard but is still of strong enough impact to seriously affect

residential or populated areas. The area is loud, but more tolerable in soundproofed structures. Industrial and commercial activities would be acceptable, along with agricultural uses. Given that the adjacent lot and lots nearby are a warehouse/equipment storage type activity and the activity due west is a light industrial/commercial land use (Conwood Hardware), the Bureau views the proposed zone change for auto repair and safety inspection activity expansion as a compatible activity.

Because the subject lot is located over the Northern Lens, we are concerned with oil petroleum and lubricants that may be stored or used on site. Also, we are concerned with the potential of these fluid accidentally making their way to the ground and seeping below. Steps must be taken to ensure that the Pollution Protection Plan is submitted to Guam Environmental Protection Agency (GEPA) for approval.

Should the zone change be approved, the Bureau recommends that there are measures to ensure that the property will be landscaped in such a way to provide a buffer between the subject lot and residential dwellings. This will improve the area in order to be aesthetically pleasing but also help reduce storm water runoff.

Because the site is presently an agricultural designated lot, we suggest that the applicant coordinate with the Department of Agriculture for an Agricultural Impact Statement.

This area is not served by public sewer. The closest sewer line in the immediate vicinity is along Route No. 16. The applicant proposes a sanitary holding tank to handle all wastewater from the proposed project. Due to the activity proposed, the Bureau believes waste water generated from the site will be minimal. However, the Guam Environmental Protection Agency (GEPA) and the Guam Waterworks Authority (GWA) will be the entities to determine the appropriateness of a sanitary holding tank.

In light of the increase of development and need for warehouse activity, the Bureau finds the proposed zone change request to adequately justify public necessity, public convenience and general welfare, and therefore recommends approval. With regards to the proposed church, the use is permitted in an "M-1" zone. The Bureau hopes our concerns and recommendations are taken into consideration as the commission reviews this application and makes its final decision.

EX-OFFICIO MEMBERS

1. DEPARTMENT OF PUBLIC HEALTH and SOCIAL SERVICES:
   No Position Statement has been received as of the date of this Memorandum of June 6, 2018.

2. GUAM FIRE DEPARTMENT:
   No Position Statement has been received as of the date of this Memorandum of June 6, 2018.

3. GUAM ECONOMIC DEVELOPMENT AUTHORITY:
   No Position Statement has been received as of the date of this Memorandum of June 6, 2018.

4. GUAM PUBLIC SCHOOL SYSTEM:
   No Position Statement has been received as of the date of this Memorandum of June 6, 2018.

5. DEPARTMENT OF CHAMORRO AFFAIRS:

MEMORANDUM

To: Chairman, Guam Land Use Commission

Via: Executive Secretary, Department of Land Management

From: Director, Bureau of Statistics and Plans

Subject: Position Statement on **Application No. 2013-25**; Lot 5223-6-NEW-9-1, Barrigada; Han Sun Reep; Zone Change – A to M-1; Proposed Use: Warehouses.

The applicant is requesting to rezone the subject lot from "A" (agriculture) to "M-1" (light industrial) in order to construct two (2) 5,000 square feet warehouses. One of the warehouses will be for storage and the other will be used on the weekends as a place of assembly for the church which the applicant attends. The on-site improvements will consist of 58 parking stalls with 4 accessible parking stalls and a catchment system to handle all surface water runoff within the project boundary. A six foot high concrete wall will be installed along the rear and side yards of the property and all utility infrastructures such as water and power to serve the project will be located underground and within the property boundaries. Public sewer is not available. The property is 5,271 square meters or 1.42 acres in land area and is adjacent to other property applying for a zone change to "M-1" light industrial as well. Access to the property is via Route 16 onto an unnamed road north of Juan G. Fejeran Street on the foot of Barrigada Heights and also north of the Department of Revenue and Taxation compound. According to the applicant's representative, construction of the 2 structures will be of butler style material. The surrounding land uses within a 750 feet radius consists of a warehouse, the Coca Cola storage facilities, Catholic Social Services, a quarry and single family dwellings.

Based on our review of the subject application as submitted, the Bureau provides the following comments and/or concerns.

1. The Bureau believes the proposed activity is consistent with existing activities in this particular area. According to the AICUZ (Air Installation Compatible Use Zone) study and maps, the area is classified as APZ 1 (Accident Potential Zone), Ldn 65-70 (day-night average sound level). The AICUZ area represents the environs of an air facility, both on and off station, that are impacted by either safety hazards of noise from aircraft operations. APZ 1, Ldn 65-70 is described as imposing a lessened degree of hazard, but is still of strong enough impact to seriously affect residential or populated areas. The area is loud, but more tolerable in soundproofed structures. Industrial and commercial activities would be acceptable, along with agricultural uses.

6.17.13

Doc. No. 34GL-13-2569

2. Given that the adjacent lot and lots nearby are a warehouse/equipment storage type activities and the activity due west is a light industrial/commercial land use (Conwood Hardware), the Bureau views the proposed zone change for auto repair and safety inspection activity expansion as a compatible activity.

3. Because the subject property is located above the Northern Lens, we are concerned with oil, petroleum and lubricants that may be stored or used on site. Also, we are concerned with the potential of these fluids accidentally making their way to the ground and seeping below. Steps must be taken to ensure that the Pollution Protection Plan is submitted to Guam Environmental Protection Agency (GEPA) for approval.

4. Should the zone change be approved, the Bureau recommends that there are measures to ensure that the property will be landscaped in such a way to provide a buffer between the subject lot and residential dwellings. This will improve the area in order to be aesthetically pleasing but also help reduce storm water runoff.

5. Because the site is presently an agricultural designated lot, we suggest that the applicant coordinate with the Department of Agriculture for an Agricultural Impact Statement.

6. The area is not served by public sewer. The closest sewer line in the immediate vicinity is along Route No. 16. The Applicant proposes a sanitary holding tank to handle all wastewater from the proposed project. Due to the activity proposed, the Bureau believes waste water generated from the site will be minimal. However, the Guam Environmental Protection Agency (GEPA) and the Guam Waterworks Authority (GWA) will be the entities to determine the appropriateness of a sanitary holding tank.

In light of the increase of development and need for warehouse activity, the Bureau finds the proposed zone change request to adequately justify public necessity, public convenience and general welfare, and therefore recommends approval. With regard to the proposed church, the use is permitted in an "M-1" zone. The Bureau hopes our concerns and recommendation are taken into consideration as the commission reviews this application and makes its final decision.

From: General Manager

Subject: Lot 5223-6-NEW-9-1, Municipality of Barrigada, (Han Sun Reep); Zone Change Application from "A" (Agriculture) to "M-1" (Light Industrial) to construct a church and warehouse building. **Application No. 2013-25**

Guam Power Authority has reviewed the application described above and submits the following position statement:

A. Comments and Recommendations Concerning GPA requirements:

1. GPA has no objection, however customer is required to comply with the following pursuant to the National Electric Code, National Electric Safety Code and GPA's Service Rules and Regulations:
   - Coordinate overhead underground power requirements with GPA Engineering for new structures.
   - Maintain minimum clearances as defined by the current edition of the National Electrical Safety Code and National Electrical Code.
   - Maintain adequate clearance between any structures and electric utility easements in accordance with NESC and GPA requirements.
   - Developer/Owner shall provide necessary electric utility easements to GPA prior to final connection.
   - Provide scheduling and magnitude of project power demand requirements for new loads.
   - All relocation costs for GPA's facilities, if necessary, is 100% chargeable to the applicant including but not limited to labor and materials.

2. Primary distribution overhead and underground line extensions and GPA service connections must adhere to the guidelines outlined in the current issue of GPA's Service Rules and Regulations.

3. A system impact assessment may be required to determine the effect of this facility on GPA's existing power facilities.

4. All costs associated with the modification of GPA facilities shall be chargeable to the customer. This includes relocation costs, new installation costs and any required system upgrades.

B. General Comments
GPA has no objection to the request subject to the conditions cited above.

Comments:
Based on a preliminary inspection of the site, the electrical facilities may require upgrading to meet the demand of the proposed project. A system impact assessment maybe required to determine the effect of this facility on GPA's existing power distribution system. The applicant will be responsible for the cost of any required system upgrade.

MEMORANDUM

TO: Chairperson, Guam Land Use Commission

VIA: Director, Department of Land Management

FROM: Acting Director

SUBJECT: Position Statement on Application No. 2013-25
Zone Change from Agricultural ("A") to Light Industrial ("M-1")
Lot No. 5223-6-NEW-9-1, Municipality of Barrigada

Buenas yan hafa adai !

The applicant, Han Sun Reep, is petitioning GLUC for a zone change requests from ("A") to ("M-1"). The proposed project entails the construction of two 5,000 square feet butler type buildings. Thepurpose of the structure is for storing toys and the other to be utilized as a church. The total land area of 5,271 square meters or 56,738 square feet. The existing property is located within the Municipality ofBarrigada.

The Department of Public Works (DPW) inspected the location area on April 25, 2013 and has no objection to the applicant's requests, with the following conditions:

1. to install a sign on site, which is one of the requirements from the applicant, that will serve as a landmark to the exact location of the property;

2. restroom must be ADA compliance; and,

3. if the owner chooses to use a solid waste disposal or any private services, the location of the trash bin container should be situated in an area that will not impact the public rights of way.

Memorandum

To: Director, Department of Land Management

Attn: Executive Secretary, Guam Land Use Commission and Guam Seashore Protection Commission

From: Director of Agriculture

Subject: **"Agricultural & Environmental Impact Statement" for a "Zone Change" request from an "Agricultural Zone" to an "M1" on Lot 5223-6-NEW-9-1 on a private road off of Rte. 16 and behind Conwood Lumber in the Municipality of Barrigada (Han Sun Reep).**

Agriculture has reviewed the subject lot and request for a "Zone Change" from an "Agricultural" to an "M1" zone and finds that there are no major impacts to any agricultural activity and to any environmental issues regarding endangered species and habitat. However, our agency does recommend and require that proper mitigation measures are in place to prevent spillage and contamination by any industrial chemicals associated with any development activities that are typical of "M1" Light Industrial Zones. These measures include absorption mats and catchment basins this is to protect our **"Northern Aquifer"** the major source of Guam's drinking water. To also aide in protecting our environment Agriculture encourages the land owner and developer to incorporate a landscaping plan that includes indigenous and/or fruit tree species planted on the site. These trees will help filter chemical pollutants and have the added benefits of windbreak protection, shading and an aesthetic component to enhance the area.

Please contact our **Agricultural Development Services & Forestry** divisions here at the agency for further assistance and guidance at 300-7972 & 7976 respectively. Our Forestry division grows and maintains these native tree species should you choose to incorporate them into the project. Contact their office for assistance and consultation at 300-7976. Please be aware that the increased loss of Guam's native habitat contributes to a diminished capacity to sustain and support a healthy island community.

Candidate responds to Klitzkie petition

By Louella Losinio
louella@postguam.com

ELECTION '18

Lieutenant governor candidate David Cruz has responded to the petition filed by former Sen. Bob Klitzkie, who is seeking Cruz's removal from the Guam Department of Education payroll.

Cruz, who is running alongside gubernatorial candidate Sen. Dennis Rodriguez Jr., said his contract with the education department has been fully vetted.

"My contract went through all the legal vetting and approval process with GDOE, the (attorney general) and the governor's office. Bob Klitzkie is entitled to his own legal opinion. My pay and/or other issues with my contract are irrelevant to his argument. Those are memorandum of agreement conditions between the Air Force and GDOE," Cruz said.

Klitzkie sent the petition on Monday.

Attorney general's opinion sought

Meanwhile, GDOE already has asked the Office of the Attorney General to weigh in on the Klitzkie petition.

GDOE spokeswoman Isa Baza confirmed the department has received the petition.

"This is a contract that was reviewed and approved by the attorney general and governor of Guam," Baza said. "We have forwarded his concerns to the AG and will wait for input as we continue to review his argument."

Cruz, a retired Air Force officer, is a Junior Reserve Officer Training Corps instructor at John F. Kennedy High School. Just before he began campaigning for public office, the status of his employment changed from being a direct employee of GDOE to a contractor who is paid under a professional service agreement.

The petition, which was sent to GDOE Superintendent Jon Fernandez, stated he should "stop the illegal spending."

Klitzkie stated that if Fernandez agreed to change Cruz to a contract employee so Cruz could continue to receive pay from GDOE and run for public office, Fernandez would be in violation of campaign law.

Barrigada Heights review to wrap up in July, AG says

By John O'Connor
john@postguam.com

The Office of the Attorney General is a little more than half a month away from completing its review of leasehold files related to Chamorro Land Trust Commission properties in Barrigada Heights.

Attorney General Elizabeth Barrett-Anderson wrote to the commission on June 20 that her office anticipates completing the review by early July, with a recommendation to follow afterward.

In the meantime, the attorney general suggested that the commission consider hiring an administrative director.

The commission already has a director through Department of Land Management Director Michael Borja, who plays the role of administrative chief as the commission was merged with DLM.

The attorney general, however, is suggesting that CLTC hire a director dedicated only to the commission.

Sen. Frank Aguon Jr., on the other hand, is "absolutely" against the hiring of an administrative director. Aguon, who is a gubernatorial candidate, has been pursuing CLTC issues after constituents complained of flooding from development in the Barrigada Heights properties.

He has since introduced bills promising to improve government accountability. One of these include establishing a temporary receivership on DLM and CLTC. This would also displace the DLM director from duties related to CLTC.

"What is needed is a wholesale approach of establishing a moratorium on land leases, adoption of administrative rules and regulations, and the appointment of a local judge as the temporary receiver to weed out corruption and mismanagement from the root," Aguon said in a press release.

"The attorney general stopped short of saying that Director Michael Borja should be stripped of both his executive and administrative duties, effective immediately; and that the decision of the CLTC chair to place Director Borja in charge of auditing all other CLTC files was wrong."

The attorney general previously issued an opinion that leases without CLTC approval were voidable and leases issued after applicants switched or transferred lease rights were expressly void.

The CLTC is moving to rectify these issues.

Trial date set for teacher, 53, accused of sexual misconduct

Peregrine San Nicolas

A Bishop Baumgartner Memorial Catholic School physical education teacher will go to trial on July 25.

Although there was discussion about a possible plea agreement, the parties have not reached a deal.

Peregrine San Nicolas, 53, was arrested in August 2017 on charges of second-degree criminal sexual conduct and child abuse, following accusations that he had inappropriately touched a 10-year-old female student. He was placed on leave.

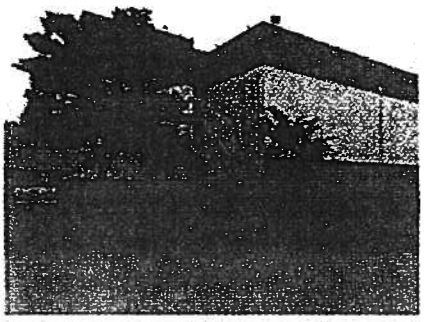

According to court documents, the girl accused San Nicolas of asking her to remain behind after class and walk with him. She alleged San Nicolas placed his hand "on her breast area." The girl told police she asked her friends to stay with her after class, and said, "If you guys are with me, he won't do it," according to court documents.

The parties agreed they will notify the court should they reach an agreement.

A pretrial conference is scheduled for July 9. ***(Daily Post Staff)***

Bill takes school funding from governor's office

By John O'Connor
john@postguam.com

CAMPUS: *Simon Sanchez High School is shown.*
Post file photo

Sen. Frank Aguon Jr., a gubernatorial candidate, has introduced a measure that would shift $1 million from the Office of the Governor to fund the procurement of engineering and other services related to the construction of a new Simon Sanchez High School.

Aguon introduced the measure after a Guam Department of Education budget hearing in which Superintendent Jon Fernandez notified lawmakers that funding reserved for the school project was no longer available.

A prior measure from Aguon handed the reigns to GDOE with regard to the Simon Sanchez procurement. But the superintendent stated during a budget hearing in mid-June that no funds were set aside from the Territorial Education Financing Fund to support the school.

Adelup, however, said lawmakers didn't appropriate money for this purpose.

"Sen. Frank Aguon authored a bill giving the Department of Education authority to oversee Simon Sanchez High School's reconstruction, but failed to provide funding," the governor's office stated.

Public Law 32-120, the enabling legislation for the Simon Sanchez reconstruction, did authorize $5 million from property taxes for lease payments.

"And there is no lease payment," the release added.

Aguon's new measure, Bill 305-34, specifies that the $1 million would be used for hiring an owner's agent engineer and architectural, engineering and other services. The superintendent is to report on the status of this procurement within 60 days after the end of the fiscal year.

The enabling law for the reconstruction or rehabilitation of Simon Sanchez High School was enacted in 2014, but procurement delays and protests have kept the school from being rebuilt.

Introducing his measure on Monday, Aguon said the administration needed to be held accountable, beginning with Adelup.

"For the past eight years, rebuilding Simon Sanchez High School has fallen short of this administration's list of top priorities."

Extended tax amnesty ends today

The Department of Revenue and Taxation extended deadline to apply for tax amnesty ends today, the governor's office has announced.

The application period was supposed to end June 19.

The registration period for the tax amnesty was extended by a week due to overwhelming response on June 19, the governor's office has stated.

The Department of Revenue and Taxation previously has stated the primary reason for taxpayers' requests is for additional time to secure money for the taxes that will be due in full by Aug. 6.

The amnesty allows taxpayers to avoid paying fines and penalties, but they must pay the tax due. ***(Daily Post Staff)***

GUAM LAND USE COMMISSION REGULAR MEETING MINUTES
Department of Land Management Conference Room, 3rd Floor, ITC Bldg., Tamuning
Thursday, June 28, 2018 • 1:37 p.m. to 4:20 p.m.

I. Notation of Attendance

Chairman Arroyo called the regular meeting of the Guam Land Use Commission for Thursday, June 28, 2018 to order at 1:37 p.m., noting a quorum.

Present were: Chairman John Arroyo, Commissioner Victor Cruz, Commissioner Hardy Vy, Executive Secretary Michael Borja, Legal Counsel Nick Toft, Guam Chief Planner Marvin Aguilar, Planning Staff Frank Taitano, Celine Cruz and Recording Secretary Cristina Gutierrez.

[Excused: Vice Chairman Tae Oh and Commissioner Conchita Bathan]

Chairman Arroyo before the Commission is today's agenda. Is the order of the agenda okay with the Commissioners.

Marvin Aguilar (Chief Planner) FC Benavente, Planners requested to go before the Commission as the first item on the agenda; Item IV-C.

Chairman Arroyo acknowledges the request for Application 2015-28 to move to the top of New Business; with no objection from the Commissioners.

II. Approval of Minutes

Chairman Arroyo the Minutes of May 24, 2018 was just mailed out this morning. Chairman Arroyo was unsure if the Commissioners present had had the chance to review the draft. In addition, there are two Commissioners who are not present at today's meeting. Therefore, Chairman Arroyo postponed the approval of the Minutes of May 24, 2018 meeting minutes until the next available scheduled GLUC meeting. **[No objections noted from the Commissioners]**

III. Old or Unfinished Business [None Noted]

IV. New Business

Zone Variance & Tentative Development Plan

A. **Application No. 2015-28 A/B**, Applicants Ben and Jae K. Chong represented by FC Benavente, Planners; request for a Zone Variance and Tentative Development Plan for the proposed construction of a six-story, eighteen units, apartment complex, on Lot 5137-4-3-, in an "H" (Hotel/Resort) zone, in the Municipality of Tamuning.
Case Planner: Frank Taitano

Marvin Aguilar (Chief Planner) reads the staff report to include purpose, facts, public hearing results, staff analysis/discussion, recommendation and conditions. [For full contents/context, please see attached report]

[Attachment A – Staff Reports dated July 22, 2018]

work with the Chief Planner and the Case Planner to be reschedule this application through the Hybrid Commission.

Richard Sana requested for a written legal opinion from the AG's Office on today's decision. This application was submitted in 2015, has gone through the ARC and public hearing process before the new law passed requiring a hybrid commission for projects with development costs of over three-million dollars.

Nick Toft it will state exactly what was stated at today's meeting.

Chairman Arroyo the request will be submitted to the AG's Office. The position of the Commission is to protect the applicant and it does not want to make a decision that would raise undo scrutiny for this project. The Commission reviews and approves this application today, Chairman Arroyo stated that he does not want the applicants to be in a situation later on where the decision of the Board is challenged which will cause further delays in moving forward with the development. It is better for the Board to be safe than to not be.

Richard Sana agreed with Chairman Arroyo, and just asked that he has something in writing to provide to his client.

Nick Toft requested that a written request be forwarded to the Attorney General for a memorandum of opinion.

[Discussion ensues]

Michael Borja (Executive Secretary) suggested that the Chairman's decision to move this application to the hybrid commission be made by motion.

Nick Toft concurred with Mr. Borja's suggestion.

Chairman Arroyo requested for a motion.

Commissioner Vy made a motion to present Application No. 2015-28A/B before the Hybrid Commission.

Commissioner Cruz second.

Chairman Arroyo motion by Commissioner Vy, seconded by Commissioner Cruz. No discussion noted on the motion, Chairman put the motion to a vote.

All in favor say "aye" [Chairman Arroyo, Commissioner Vy, Commissioner Cruz], all opposed say "nay." **[Motion passed; 3 ayes, 0 nay]**

Next item on the agenda –

Zone Changes

B. Application No. 2012-43, the Applicant Christine Joon Chang represented by Ignacio Santos; Zone Change request from "A" (Rural) to "M-1" (Light Industrial) zone for the proposed construction of warehouse structures, on Lot 5223-6-NE-9-R1, in the Municipality of Barrigada. Case Planner: Celine Cruz

Celine Cruz (Case Planner) reads the staff report to include summary, facts, public hearing results, staff analysis/discussion, and recommendation. [For full content/context, please see attached report.]

[Attachment B – Staff Report dated June 21, 2018]

Chairman Arroyo no questions noted for staff, Chairman Arroyo opened the floor to the applicant's representative.

Ike Santos (representing Christine Joon Chang) the applicant currently owns a couple of hair salon businesses; one at GPO and the other at Micronesia Mall. The applicant proposes to build two 5,000 square foot warehouses; one to be used for by the applicant and her husband and the other one for lease.

There is also a lot next door which is the next item on the agenda for a zone change. Both applicants have agreed to share the expense of improving the infrastructure which includes the road and the water and sewer lines. The Mayor of Barrigada has requested access to use government land that is located on the other side (referring to the drawing displayed). There is an 80-foot setback.

(Using drawing for reference) This is the subject lot, and all the parcels indicated in blue are all zoned M1.

Chairman Arroyo what are zones of lots that are located to the left, above and below the subject lot.

Ike Santos explained the location of the Department of Revenue and Taxation, directly behind that is Foremost building, auto repair shop, Guam Construction warehouse which is zoned agricultural.

Commissioner Cruz is there a structure on the lot.

Celine Cruz there is a warehouse on the lot, but does not appear that it is being utilized.

[Discussion ensues on zoning of lots close to the vicinity of the subject lot; access to the subject property.]

Chairman Arroyo no additional comments and/or questions, Chairman Arroyo opened the floor for public comment.

Public Comments [There was no public comments noted, Chairman Arroyo closed the public comment period.]

Chairman Arroyo the Commission has been reviewing several application requests for this particular area to rezone from agriculture to M-1 zone, and it seems that it is a better zoning for properties in this area, and did not see that this request for a zone change as an exception.

There were no additional comments from the Commissioners, Chairman Arroyo was ready to entertain a motion.

Commissioner Cruz made a motion to approve Application No. 2012-43 for the applicant Christine Joon Chang represented by Ignacio Santos requesting for a zone change for Lot 5223-66-NEW-9-R1 in the municipality of Barrigada from agricultural to light industrial zone for the purpose of constructing warehouses; subject to the applicant adhering to the ARC conditions and requirements as stipulated in the official position statements.

Chairman Arroyo motion has been made by Commissioner Cruz to approve Application 2012-43 to change the zone of Lot 5223-6-NEW-9-R1 in the municipality of Barrigada from rural to light industrial zone. Is there a second.

Commissioner Vy second.

Chairman Arroyo seconded by Commissioner Vy. Noting no discussion on the motion, Chairman Arroyo put the motion to a vote. All in favor of the motion say "aye" [Chairman Arroyo, Commissioner Cruz and Commissioner Vy], all opposed say nay. **[Motion passed; 3 ayes, 0 nay]**

Zone Change

C. Application No. 2013-25, the Applicant, Han Sun Reep represented by Ignacio Santos; Zone Change Request from "A" (Rural) to "M-1" (Light Industrial) zone, for the proposed construction of a church and warehouse facility, on Lot 5223-6-NEW-9-1, in the Municipality of Barrigada. Case Planner: Celine Cruz

Marvin Aguilar asked that the Commissioners take into consideration, for the record, that the attributes of this property is similar if not identical to the previous property that the Commission had just approved. An AIS has been provided for this application and this requirement has been fulfilled; the property is within the AICUZ, LDN 1. (Air Installation Compatible Use Zone, noise level). And requested, from the Commission, to proceed to the public comment portion.

Chairman Arroyo what is staff's recommendation.

Marvin Aguilar Planning is recommending approval of the request subject to the applicant adhering to the ARC conditions and requirements stipulated in the official position statements.

[Attachment C – Staff Report/Summary of Position Statement Report dated June 22, 2018]

Chairman Arroyo similar to the last application, this property is adjacent to the one that was just approved. No questions noted for staff, Chairman Arroyo opened the floor to the applicant's representative.

Ike Santos (representing the applicant Han Sun Reep] stated that his client owns a retail store that is located in Mangilao. She currently has two warehouses and has a business selling toys to retailers. There are two warehouses proposed for this parcel; one will be used for her business, and the other for her church.

[Discussion ensues on location of the project site, joint effort with Christine Chang to develop the road and water/sewer lines.]

Chairman Arroyo the two properties together will jointly develop the water, sewer and the roads. Will improvement be from where their respective lots are located all the way to Route 16.

Ike Santos that is correct. There are other owners situated on this side (referring to the drawing) that will more than likely contribute to the development of the access road and the infrastructure.

Chairman Arroyo opened the floor for public comments.

Public Comments [Seeing none, Chairman Arroyo closed the public comment period]

Chairman Arroyo there were no additional comments and/or comments, Chairman Arroyo was ready to entertain a motion.

Commissioner Cruz Mr. Chairman, I would like to make a motion to approve Application No. 2013-25, Han Sun Reep represented by Ike Santos; Zone Change for Lot No. 5223-6-NEW-9-1, in the municipality of Barrigada, from "A" (Rural) to "M-1" (Light Industrial) zone for the proposed construction of a church and warehouse facility; subject to the condition that the applicant adheres to the ARC conditions and requirements as stipulated in their official position statements.

Chairman Arroyo there's a motion on the floor by Commissioner Cruz to approve Application No. 2013-25 to change the zone on Lot 5223-6-NEW-9-1, in the municipality of Barrigada from "A" (Rural) to "M1" (Light Industrial) zone subject to ARC conditions. Is there a second.

Commissioner Vy I second.

Chairman Arroyo seconded by Commissioner Vy. No discussion noted, Chairman Arroyo puts the motion to a vote. All in favor of the motion say aye [Chairman Arroyo, Commissioner Cruz, Commissioner Vy], all opposed say nay. **[Motion passed; 3 ayes, 0 nay]**

V. Administrative and Miscellaneous Matters

Horizontal Property Regime

D. **Application No. 2008-78I**, the Applicant, Karen Young S. Kim represented by Melinda S. Swavely, Esq.; requests issuance of its Ninth Supplementary Final Public Report for Happy Condo, located on Lot 10, Block 1, in an "R-2" (Multi Family Dwelling) zone, in the Municipality of Tamuning, HPR No. 160. Case Planner: Celine Cruz

Celine Cruz summarizes the staff report to include purpose, facts, staff analysis/discussion, recommendation and condition. Issuance of the 9th supplementary final public report will have an expiration date of thirteen months from the date of the GLUC meeting which is July 28, 2019. [For full content/context, refer to attached report]

[Attachment D – Staff Report dated June 11, 2018]

Chairman Arroyo questions for staff.

Commissioner Cruz verified with the Case Planner the bank for Happy Condo.

Celine Cruz it is Bank of Hawaii (not Bank of Guam as stated when reading the report).

Chairman Arroyo opened the floor to the applicant's representative.

Melinda Swavely (representing Happy Condo) as Ms. Cruz mentioned this is the 9th time before the Commission and they asking for a renewal. Ms. Swavely stated that her client is still not sure when she will be able to sell the remaining units and would like to keep her options open.

Chairman Arroyo any questions for Ms. Swavely. [None noted] Chairman Arroyo asked for a motion.

Commissioner Vy makes a motion to accept the issuance of the 9th supplementary final public report for Happy Condo on Lot 10, Block 1, in the municipality of Tamuning in an "R2" zone, HPR No. 160, under Application No. 2008-78I pursuant to Sections 54101 to 54155, Chapter 45, Horizonal Property Regime Act.

Chairman Arroyo the motion is to accept the 9th supplementary final public report for Happy Condo on Lot 10, Block 10 in the municipality of Tamuning; made by Commissioner Vy, is there a second.

Commissioner Cruz second.

Chairman Arroyo seconded by Commissioner Cruz. No discussion noted; Chairman Arroyo puts the motion to a vote. All in favor of the motion say aye [Chairman Arroyo, Commissioner Vy and Commissioner Cruz]. all opposed say nay. **[Motion passes; 3 ayes, 0 nay]**

Next item on the agenda –

Status Report

E. **Application No. 2008-003B** the Applicant, Grandview Development LLC; requests acceptance of its six-month status report in continuance of an Order to Show for failure to comply with conditions of approval of an amended TDP for Tumon Bay Mall.
Case Planner: Frank Taitano

Marvin Aguilar summarizes the Commission Brief [for full content/context, please see attached report]

[Attachment E – Commission Brief dated June 18, 2018]

Chairman Arroyo inquires on item number two with respect to a traffic control light and the removal of curbs and center lane median.

Marvin Aguilar perhaps the applicant and/or the representative can speak on this matter.

Chairman Arroyo no questions noted, Chairman Arroyo opened the floor to the applicants.

Richard Sana (with Phillip Schrage and Fred Yamon, Grandview Development LLC) the Case Planner had suggested that a supplemental report for the Commission was needed to further explain the reasons leading up to the issuance of the Order to Show Cause by the Commission which began in 2008 and moving forward to date.

Mr. Sana stated that the applicants are still preserving the integrity of this development by completing Phase I of the construction and was completed a few months back. They are now moving forward with discussion with DPW with respect to the removal of the center-lane median.

Chairman Arroyo is the traffic light that is being installed permanent or temporary.

Richard Sana it is permanent. Mr. Sana assures the Commission that the property will not deteriorate because Grandview Development continues to maintain the property and has hired JJ Global to maintain the landscaping; private security company has been retained to monitor the property 24-7 to ensure that there is no vandalism and to protect the property.

Chairman Arroyo questions.

Commissioner Cruz how is the search for an anchor company coming along.

Phillip Schrage states that he had nothing to announce at this time, they are still looking.

Chairman Arroyo what is being constructed at the corner portion of the Mall.

Phillip Schrage Jollibee Restaurant; and the other construction that looks like an additional building is not, French drains are being added to the parking lot.

Chairman Arroyo there were no additional comments and/or questions, Chairman Arroyo was ready to entertain a motion.

Commissioner Vy Mr. Chairman, I make a motion to accept the six-month status report in compliance of an Order to Show cause for failure to comply with the conditions of approval of Application No. 2008-003B, of an amended tentative development plan for Lot numbers 5131NEW, 5131-1, 5126-3-1NEW, in the municipality of Tumon/Tamuning.

Chairman Arroyo there's a motion to accept the six-month status report for Application No. 2008-003B by Commissioner Vy. Is there a second.

Commissioner Cruz second.

Chairman Arroyo seconded by Commissioner Cruz; discussion on the motion. None noted, Chairman Arroyo puts the motion to a vote. All in favor say aye [Chairman Arroyo, Commissioner Vy and Commissioner Cruz], all opposed say nay. **[Motion passes; 3 ayes, 0 nay]**

[Chairman Arroyo calls for a 10-minute recess at 2:37 p.m. and reconvened the meeting at 2:45 p.m.] Next item on the agenda –

Order to Show Cause

F. **Application No. 2015-29**, Guam Wanfang Construction Ltd., Order to Show Cause as to reason(s) and/or failure to submit its required six-month status report in a timely manner for the Pago Bay Report project, on Lot 164-4NEW-1, in the municipality of Yona.
Case Planner: Marvin Aguilar/Celine Cruz

DECISION GRANTING ZONE CHANGE
(with findings)

Guam Land Use Commission

WHEREAS, the following decision of the Guam Land Use Commission is made in accordance with 21 GCA §61630, now therefore;

WHEREAS, prior to consideration of the application by the Guam Land Use Commission, public hearings on the Zone Change were held on the **26th** day of **November, 2014**, in the Municipal District of **Barrigada** where the property to be rezoned is located pursuant to Title 21 GCA §61633.

WHEREAS, notice of the time and place of the hearings were published in a newspaper of general circulation on the **15th** day of **November, 2014** as evidenced by an affidavit of publications attached as **Exhibit "A"**.

WHEREAS, notice was mailed to the Mayor of the Municipal District concerned and to those landowners owning land within 500 feet of the property where the property to be rezoned is located as evidenced by the affidavit of mailing attached as **Exhibit "B"**.

WHEREAS, in accordance with notices duly issued to consider the application of **Han Sun Reep** for a Zone Change, hearing of the Guam Land Use Commission (GLUC) was held on the **28th** day of **June, 2018** as evidenced of publications attached as **Exhibit "C"**.

BE IT RESOLVED, that on the **28th** day of **June,2018**, the Guam Land Use Commission, **Approved** the Zone Change from **"A" to "M-1"** for **Lot 5223-6-NEW-1**, Municipality of **Barrigada**.

A quorum of the Commission was present. In attendance were:

1. **Mr. John Arroyo, Chairman**
2. **Mr. Victor Cruz, Vice Chairman**
3. **Mr. Hardy Vy, Commissioner**

Appearing for the applicant was: **Ignacio Santos;**

Also appearing and testifying on the above project were: **None.**

None in favor; **None** against:

After considering all the statements and testimony presented by interested parties the GLUC finds that the application for zone change is granted on the following grounds: (Note: All three (3) sections should be answered.)

(a) **Public Necessity**: **The following facts support a finding that public necessity justifies the zone change**:

That the application as presented by the applicant, the Application Review Committee's Position Statements submitted and the results of the Community Public Hearing satisfy the above section.

(b) **Public Convenience: The following facts support a finding that public convenience justifies the zone change:**

That the application as presented by the Applicant, the Application Review Committees' Position Statements submitted and the results of the Community Public Hearing, satisfy the above section.

(c) **General Welfare: The following fact support a finding that the General Welfare of the public is best served by the granting of a Zone Change:**

That the application as presented by the applicant, the Application Review Committees' Position Statements submitted and the results of the Community Public Hearing, satisfy the above section.

The members, after due consideration voted to approve the application. The vote of members was as follows:

3 Ayes, 0 Nays, 0 Abstentions

This decision was adopted this **28th** day of **June, 2018**, and shall be submitted to the Governor for final approval pursuant to Title 21, GCA §61634.

Matao: Guam to face tough DPR Korea team

■ Continued from Page 28

home over the years and our maturity level in these types of situations," Cunliffe said. "It shows that we're continuously moving in the right direction, but there's still a lot of work to do."

Guam's match against DPR Korea, currently ranked No. 148 in the world, is set for 4 p.m. Nov. 16, Chinese Taipei time. Guam's final match in the tournament will be against Hong Kong on Nov. 19.

Showed their quality

"I'm happy with how we've started the tournament and especially to see several players show their quality at the international level," White said. "It was great to see Cal State San Marcos senior Mason Grimes gel so well with the team in his international debut, and I'm sure this was helped by playing alongside such an experienced professional player like AJ DeLaGarza.

"Also, on defense, Jonahan Romero's huge first-half tackle, where he put life and limb on the line, summed up the team's positive and committed attitude during the night's battle. Goalkeeper Doug Herrick had a relatively quiet night, but when he was called upon, consistently showed his quality."

Watch it online

All matches of the EAFF East Asian Cup and Women's East Asian Cup semifinal rounds are being streamed live on the EAFF Web site, www.eaff.com.

Tournament schedules are listed on the website. All kick off times are indicated in Chinese Taipei time.

The Masakåda, Guam women's national football team, will play 2:30 p.m. Nov. 15 against Chinese Taipei and again at 4 p.m. Nov. 18 against Hong Kong.

Schulte: Swimmer very thankful for all the support

■ Continued from Page 28

Schulte said his long-term goal is to qualify for the NCAA championships, but he may be a few years away from reaching that point.

He has yet to compete in his favorite events — breaststroke events — that will likely offer him his best chance to do that, because his team has other talented breaststrokers and he needed to score points for them in other events, he said.

"I don't know this year whether I'll make NCAA A-cut, but I have four years left," he said. "That's a pretty big goal, and I don't necessarily think that's too far out of my reach. I'm going to keep hammering it, because it can only get better."

Next up for the Bulldogs are home meets against Vermont and the New Jersey Institute of Technology, and the two-day University of Rhode Island Invitational later this month.

Schulte said in addition to the competition, he's looking forward to an intense holiday training trip to Puerto Rico. His team will practice several times per day to get ready for the stretch run of the season.

He's relying on his coaches, teammates and fans to motivate him along the way.

"My team and all three coaches are really supportive of me," Schulte said. "The kind of support I get before the race, through the race and even after he race. I couldn't ask for anything more. ... The continued support off all my family and friends on Guam, in the mainland and in Australia has always been one of my biggest sources of motivation, and I'd just like to thank everyone."

Gasol scores 27, Bulls beat Raptors

The Associated Press

Pau Gasol had a season-high 27 points and 11 rebounds, Derrick Rose scored 25 points before leaving with a sore left hamstring, and the Chicago Bulls beat the Toronto Raptors 107-93 on Thursday night.

Jimmy Butler scored 21 and Mike Dunleavy had 14 as the Bulls won for the sixth time in seven games and snapped Toronto's five-game winning streak in the matchup of teams with the best records in the Eastern Conference. Both teams are 7-2.

Rose stumbled on a drive to the basket late in the fourth and was replaced by Dunleavy with 1:53 left, taking a seat at the end of the bench.

Kyle Lowry scored 26, and James Johnson had 14 against his former team, but the Raptors lost for the first time in six home games this season.

■ MAVERICKS 123, 76ERS 70: Dirk Nowitzki scored 21 points while playing only 20 minutes and Dallas had its largest victory ever while keeping Philadelphia winless.

The 53-point margin for Dallas surpassed its 50-point win over the New York Knicks in January 2010.

■ GRIZZLIES 111, KINGS 110: Courtney Lee scored on a lob pass as time expired to cap a furious fourth-quarter rally, and Memphis came from 25 points down to beat Sacramento.

The outcome wasn't decided until after a lengthy review by officials who were trying to determine if the inbounds pass from Vince Carter with less than a second left was tipped by the Kings, and failed to determine if Lee got the shot off before the horn sounded.

Matthews still learning middle linebacker job

GREEN BAY, Wis. (AP) — Clay Matthews is still learning to play inside linebacker for the Green Bay Packers. He said he's in favor of the move despite comments reportedly made by his brother indicating otherwise.

Matthews said Thursday that that there was "not much truth to that" after Philadelphia Eagles inside linebacker Casey Matthews said that Clay didn't like the move. The Packers' Matthews said he still got grief from his teammates.

The Eagles and Packers meet Sunday at Lambeau Field. Matthews said that he was still learning the nuances of the position and getting more comfortable.

Coach Mike McCarthy has been coy about where Matthews might line up. Matthews had a memorable debut playing inside much of the game last week against Chicago, getting 11 tackles and a sack.

"I said, 'Sure' I was all for it," Matthews said in recounting his response to McCarthy when approached about the move. "Because I've played a number of positions on this team, as well as being all over the field. But to say the extent in which we ran it, I think that was a little surprising at first."

November 10, 2014

Dear Sir/Madam:

An application has been filed with the Guam Land Use Commission (GLUC) by:

The Applicant, Han Sun Reep, represented by Ignacio F. Santos, request for a Zone Change from "A" (Rural) to "M-1" (Light Industrial) zone for a proposed church and a warehouse building, on Lot 5223-6-NEW-9-1, in the Municipality of Barrigada, under Application No. 2013-25.

For any **Zone Change** requests, the Guam Land Use Commission is mandated by law to conduct a Public Hearing in the Municipal District where the property is located. Accordingly, a Public Hearing on this application is scheduled to be held:

PLACE:	**Barrigada Community Center**
DATE:	**November 26, 2014, Wednesday**
TIME:	**6:00 p.m.**

As a property owner identified within 500 feet of this proposed development, we invite you to attend this Public Hearing and participate in the review process and to express your opinion on this application. If you are unable to attend the Public Hearing, please submit written comments to our office on or before, **November 25, 2014, Tuesday.** Written comments should be addressed to:

Chairman, GLUC or Executive Secretary, GLUC
c/o Department of Land Management
Land Planning Division
P.O. Box 2950, Hagatna, Guam 96932

ATTACHMENT A

Accordingly, a GLUC Hearing for this application will be advertised in the Pacific Daily News open ad, Government meeting, and the website.

Should the public hearing be canceled due to unforeseen circumstances beyond our control, please consult with the village mayor's office.

You may review the development application at our office or your Mayor's Office.

Thank you for your interest.

Si Yu'os Ma'ase,

MARVIN Q. AGUILAR
Guam Chief Planner
