Madam Speaker Tina Rose Muña Barnes
Office of the Speaker
35th Guam Legislature

Håfa Adai Madam Speaker,

Thank you for the opportunity to address the 35th Legislature of Guam yesterday. I am grateful for the invitation to provide the Senators the latest information concerning the ongoing development of the future Marine Corps Base, Camp Blaz, and the relocation of Marines to Guam. I appreciate any opportunity to update the legislature and provide greater understanding of the build-up for you and your colleagues.

I understand that some members of the legislature were left with more questions than we could answer during the time allotted. I will be happy to address follow-on questions and concerns related to yesterday's update. To promote efficiency in providing a response, I respectfully request that your office collect and consolidate questions from the Legislative members and pass them to us for action. This will also serve to address questions and concerns for the pending public meeting.

Should Legislative members require further explanation to address specific concerns with our subject matter experts, I request that we coordinate and schedule a follow-on meeting through your office to meet with them; along with you or your staff as you desire.

I truly appreciate the working relationship with you and your staff and I look forward to working through these challenges together.

Si Yu'us Ma'ase,

Brent W. Bien
Colonel, U. S. Marine Corps
Officer in Charge, Marine Corps Activity Guam
