Steven Philip Carbullido
[redacted]

Dear Mr. Carbullido:

Pursuant to my authority under 10 GCA § 45103, I am appointing you to serve as a

MEMBER, BOARD OF DIRECTORS, GUAM ENVIRONMENTAL PROTECTION AGENCY

Appointing you to this position comes with great responsibility because you will have a vital role to perform which will place many demands on your time and energy. Integrity and honesty are virtues that I prioritize for my Administration to exemplify, and I know that you will do the same while in service to the people of Guam. Your responsibilities shall be significant and consequential. I trust that you will fulfill your duties and set a standard for others to follow.

I appreciate your willingness to serve in this position, and I am confident that your time will be spent in a manner to improve the island of Guam.

This appointment is subject to the advice and consent of *I Liheslaturan Guåhan*. If you have any questions or concerns, please contact the Office of the Governor.

Senseramente,

LOURDES A. LEON GUERRERO
I Maga'hågan Guåhan
Governor of Guam

Steven Carbullido

Engineer

Qualified: B.S. Environmental Engineer / University of California, San Diego / 2014

Connected: Society of American Military Engineers

Professional Summary: Steven has four years of construction management experience on environmental-related projects. His recent work experience includes landfills, wastewater treatment plants, and drone work. Steven is resourceful and flexible, able to adapt to changing priorities and maintains a positive attitude, has a strong work ethic and strong people skills. He communicates effectively with project team members and creatively develops procedures to streamline efficiency and reduce project costs.

Staff Engineer
Ordot Dump Closure | Gershman, Brickner & Bratton | Ordot, Guam | 2014 - 2016

Steven observed, documented, and inspected the contractor's activities throughout construction. This included 5,000 linear feet (LF) of leachate collection lines; 3,000 LF of sewer and stormwater pipes; 8,000,000 square feet of Geosynthetics for the waste cap system; various stormwater and leachate storage ponds, leachate storage tanks, a gas collection system, and a sewer pump station.

Steven reviewed and coordinated responses to submittals & requests for information, issued design clarification memos, transcribed meeting minutes weekly, reviewed contract change requests, designed grading plans, and managed the MIS portal (Bentley's ProjectWise, formerly known as EADOC). This was a high profile project under a court ordered consent decree, and it finished to the client's satisfaction on schedule, within budget, and with no lost time accidents.

Upon project completion, Steven submitted GHD's work on the project for three awards. GHD was awarded: The Construction Management Association of America's 2016 Infrastructure Project of the Year (Construction Value Less than $50M Category); Bentley System's Year in Infrastructure Special Recognition Award for Advances in Construction Management; and Construction Management Association of Korea's Recognition Award at their 4th International CM Conference.

Assistant Project Manager
Agat-Santa Rita Wastewater Treatment Plant | Guam Waterworks Authority | Agat, Guam | 2016 - Present

Steven observed, documented, and inspected the contractor's activities during construction for a new secondary wastewater treatment plant. This included Oxidation Ditches, Clarifiers, Aerobic Digesters, a Dewatering Centrifuge Building, Equalization Tank, Headwork's, Lift Station, an Ultraviolent Disinfection Building, and sanitary sewer and waterlines. Steven reviewed submittals, payment applications, contract change requests, schedules, and delay claims. He transcribed meeting minutes, and managed the project MIS portal. The project had a tight court ordered deadline and required extensive documentation to analyse the contractor's delay claims and showcase how the contractor's progress compared to the phase deadlines. During the final year of the project, due to staffing patterns and budget constraints, Steven successfully managed the project with minimal oversight.

Staff Engineer
Northern District Wastewater Treatment Plant | Guam Waterworks Authority | Dededo, Guam | 2018 - Present

Steven spearheaded various pre-construction tasks, including scope and fee development, implementation and customization of the MIS portal for the Client's program, design review, and organization and revising of quality assurance forms for use during construction.

FAA Certified UAV Pilot
Various Projects throughout Guam & Northern Mariana Islands | USA | 2014 - Present

Steven is a certified Unmanned Aerial Vehicle (UAV) pilot with the FAA. He has flown various UAVs for projects, including landfills; wastewater treatment plants; roads; commercial buildings; solid waste transfer stations; water tanks; and piers, for inspections, photo and video documentation, business development, and client satisfaction.

Steven is the lead remote pilot for the Pacific Group and is in charge of obtaining clearance from the FAA for flights in restricted airspace, conducting site safety assessments,

Note that the Legislature has taken steps to ensure that any protected personal identifying information has been redacted or excluded in whole or in part in order to protect the privacy of any individual(s) whose information has been included as part of this transmittal.

equipment inspections, and completing flight logs. Steven's UAV work has been printed in various publications, including Engineering News-Record (ENR) Magazine, The Pacific Daily News, and The Guam Daily Post. Steven has collaborated with team members to create videos using UAV footage for clients to showcase at their conferences.

Lead MIS Manager

Bentley's ProjectWise, formerly known as EADOC | 2014 - Present

Steven manages Bentley's ProjectWise, an MIS portal, that is used throughout the Pacific Group on all construction management projects. It is the portal where stakeholders from around the world view, forward, respond to, and process all project documentation (such as RFIs, submittals, document revisions, reports, project correspondence, etc) in real time. GHD's success with the system has led to clients tasking Steven to manage, customize, and provide support for their ProjectWise systems for their own programs. Steven leads trainings for contractors, owners, consultants, and other stakeholders on all projects across various timezones.
