MINUTES OF THE BOARD OF DIRECTORS REGULAR MEETING
2:00 p.m., Tuesday, September 25, 2012
GIAA TERMINAL CONFERENCE ROOM #3

I. CALL TO ORDER AND ATTENDANCE

Vice Chairman Francisco G. Santos called the A.B. Won Pat International Airport Authority, Guam (GIAA) regular meeting to order at 2:00 p.m. The presence of Directors is noted as follows Director Jesus Q. Torres, Director Rosalinda A. Tolan, and Director Martin J. Gerber. Also present Executive Manager Charles H Ada, II, Deputy Executive Manager, Peter Roy Martinez, Carlos P. Bordallo, Acting Comptroller, Frank R. Santos, Business and Financial Consultant, Jannalyn C. Damian, Legal Counsel. The Vice Chairman welcomed the presence of Airport Tenants, stakeholders and members of the public who are noted in a sign in sheet made as an attachment to the minutes.

II. APPROVAL OF AGENDA

Director Torres made a motion to approve the agenda, seconded by Director Tolan; motion carried.

III. APPROVAL OF MINUTES

A. August 29, 2012 Board Regular Meeting

Director Tolan made a motion to approve the minutes for the Board Regular Meeting on August 29, 2012, subject to correction, seconded by Director Gerber; motion carried.

IV. CORRESPONDENCE

No correspondence was presented.

V. MATTERS FOR BOARD RATIFICATION/APPROVAL

A. Grant Agreement - Extend Runway 06L/24R-Phase X

GIAA Business and Financial Consultant Mr. Frank R. Santos presented Grant Agreement 3-66-0001-83 to Extend Runway 06L/24R-Phase X for Board's Approval. Management has requested the Board's acceptance to approve the grant award of $2,000,000.00.

Director Gerber made a motion to ratify Grant Agreement – Extend Runway 06L/24R-Phase X, seconded by Director Tolan' motion carried.

AMERICAN ASSOCIATION OF AIRPORT EXECUTIVES
AIRPORTS COUNCIL INTERNATIONAL
NASAO National Association of State Aviation Officials
IACA THE INTERNATIONAL AIR CARGO ASSOCIATION

B. Grant Agreement-Rehabilitation Runway 06L24R – Phase II

Management has requested the Board's acceptance of Grant Agreement 3-66-0001-084 to Rehabilitate Runway 06L/24R-Phase II in the amount of $5,441,024.00.

Director Gerber made a motion to ratify Grant Agreement – Rehabilitate Runway 06L/24R-Phase II, seconded by Director Torres; motion carried.

C. Approval of GIAA FY2013 Insurance Program Renewal

The Executive Manager recognized the presence of the Airport's Insurance Broker, Ms. Annmarie Muna of AM Insurance, who presented a summary of various insurance carriers who responded to the insurance specifications for the Airport. She also explained the process of renewal and presented the following policies along with a comparison from FY 2012 to FY 2013:

POLICY	FY 2012	FY2013
Property	$ 741,671	$ 716,153
Property (Cat Cover)	*(Included in the Above Premium)*	
Airport Operators Liability	425,000	425,000
Directors & Officers	80,000	100,000
Workers Compensation	80,000	74,400
Automobile Insurance	45,698	38,486
Excess Automobile	*(Included in the Above Premium)*	
Crime Insurance	11,700	11,500
TOTAL:	**$1,384,069**	**$1,365,539**

(Premium in Comparison for FY2012 to FY2013 is $18,530 less)

Management recommends the Board adopt and ratify the FY2013 insurance as appended.

The premium costs for all coverage including Catastrophic perils for FY13 is $1,365,539 net of the broker's commissions. This represents a total savings of $18,530 per annum compared to the FY12 premium cost of $1,384,069.

As there were no further questions, Director Tolan made a motion to ratify the approval of FY 2013 Insurance Program Renewal, seconded by Director Gerber; motion carried.

In relation to Airport Insurance, the Executive Manager Mr. Charles H. Ada, presented a letter sent to the Board Chairman Mr. Michael Ysrael dated September 19, 2012 from Senator Rory J. Respecio concerning the Aviation Insurance Requirement. Mr. Ada informed the Board that Senator Respecio is referring to GIAA's general aviation

insurance requirement that sets its aviation liability insurance at $1M for each passenger on a seat in an aircraft, with a $10M minimum even if the aircraft has fewer than 10 passengers. Mr. Ada also reported that Senator Respicio's concern with GIAA's current policy limits the ability of the smallest aviation businesses to succeed and that the Board has the authority to change the self-imposed requirement. The Executive Manager reported the Senator Respicio is ready to assist GIAA in preparing and introducing a bill if a legal conclusion states that legislation is required. Management called on Mr. Mike Moody Airport Insurance Consultant from Iris, Ltd. to respond. Mr. Moody reported to the Board that he is currently exploring ideas and working on a study that would potentially bring down passenger liability costs, but at this time ould not make a presentation. Mr. Moody did assure the Board that a response regarding the matter should be presented to GIAA Management in the early part of next year. Board had no objection.

D. Ratification of Disbursements

Director Torres made a motion to ratify the approval of payments over the $50,000 threshold made to vendors for the period of September 5-September 24, 2012, seconded by Director Tolan; motion carried.

VI. OLD BUSINESS

A. Executive Manager's Report

The Executive Manager presented brief reports on Airline Issues, Executive and Legislative Issues, and he announced that GIAA will be entering the Fiscal Year 2013 which should commence on October 1, 2012. He reported that United Airlines remains committed to keeping Guam as one of its hubs, but plans to close the Guam contact center, reduce its airport operations staff and outsource cargo handling operations.

He also reported that Runway 6L became operational for taxi purposes on August 1, 2012 at 10:00 a.m. A notice to Airmen has been issued regarding the operations, and all airline operators have been briefed on Runway 6L issues.

It was reported that Airport Management conducted a brief Informational Briefing for the Committee of Transportation on the Airport's Master Plan on September 19, 2012. The Authority and its Master Plan Consultant, Parsons Transportation, delivered a presentation on the recommendations of the Master Plan and fielded questions from the legislators. This briefing followed a successful presentation to the signatory airlines held on September 18, 2012 and was followed by a stakeholders and the employees of GIAA briefing on September 20, 2012.

B. Financial Report

The Acting comptroller's report as of August 31, 2012 was presented for Board's information. He also announced an audit of the Airport's financials will commence next month.

C. Legal Counsel's Report

Legal counsel requested that the report be presented during Executive Session. The Board had no objection.

D. Tenant Matters

Miss Angela Ng, a representative of Eva Airlines addressed the Board and Management to introduce Mr. Garrin Lin, the new General Manager for Eva Air Guam. Mr. Lin thanked the Board and Management for allowing him the opportunity to formally introduce himself.

E. Status on Capital Improvement Programs

The Undistributed Obligation schedule was presented for the Board's information.

VII. NEW BUSINESS

No new business.

VIII. EXECUTIVE SESSION

Director Tolan made a motion to convene Executive Session after a brief recess, seconded by Director Gerber. At this time, the Executive Manager announced that he be excused from the Board meeting to prepare for his departure off-island and that the Deputy Executive Manager Mr. Peter Roy Martinez will take his place; Board had no objection. The meeting recessed at 3:30 p.m.

Executive Session was called at 4:02. Executive Session adjourned at 4:57 p.m., at which time the presence of two representatives from Tecker, Torres & Tecker (GIAA's Conflicts Council) were present, Mr. Brian Kelley and Miss Brooke Wright. Both representatives are present in place of Mr. Phil Torres, who is currently off-island, to discuss the opinion letter submitted by Mr. Torres regarding the issue of a conflict of interest concerning Chairman Michael Z. Ysrael.

The Board made a motion for Conflicts Counsel to draft a formal policy addressing the Chairman's conflict of interest. Director Torres made a motion to direct Conflicts

Counsel to work with Management to draft a general policy that articulates and provides direction that can be used to identify any conflict of interest on any issue that includes leasing of Airport property, whether it's aeronautical and non-aeronautical business, seconded by Director Tolan; motion carried.

Vice Chairman Santos requested the Board to make a motion to pay Pac Air LLC in the amount of $88,200 for the month of September, Director Tolan made the motion, seconded by Director Torres; motion carried.

IX. PUBLIC COMMENTS

No public comments.

X. ADJOURNMENT

As there was no further business, Director Torres made a motion to adjourn, seconded by Director Gerber; motion carried. The meeting adjourned at 6:15 p.m.

Respectfully Submitted,

MINUTES OF THE BOARD OF DIRECTORS REGULAR MEETING
2:00 p.m., Tuesday, November 27, 2012
GIAA TERMINAL CONFERENCE ROOM #3

I CALL TO ORDER AND ATTENDANCE

Vice Chairman Francisco G. Santos called the A.B. Won Pat International Airport Authority, Guam (GIAA) regular meeting to order at 2:20 p.m. The presence of Directors is noted as follows Director Rosalinda A. Tolan, Director Martin J. Gerber, and Director Jesus Q. Torres. Also present Executive Manager Charles H Ada, II, Deputy Executive Manager, Peter Roy Martinez, Carlos P. Bordallo, Acting Comptroller, Frank R. Santos, Business and Financial Consultant, Jannalyn C. Damian, Legal Counsel. The Chairman welcomed the presence of Airport Tenants, stakeholders and members of the public who are noted in a sign in sheet made as an attachment to the minutes.

II APPROVAL OF AGENDA

Director Torres made a motion to approve the agenda as presented, seconded by Director Tolan; motion carried.

III APPROVAL OF MINUTES

A September 25, 2012, Board Regular Meeting

Director Torres made a motion to approve the minutes for the Board Regular Meeting on September 25, 2012, subject to correction, seconded by Director Tolan; motioned carried.

IV CORRESPONDENCE

No correspondence was presented.

V MATTERS FOR BOARD RATIFICATION/APPROVAL

A Request for Proposals - A & E Services for Pipeline and Hydrant Systems (North and South Ramp)

The Executive Manager reported that Board action is requested to approve the ranking results based on the request for proposals (RFP) process for A&E services for Pipeline and Hydrant Systems for the north and south ramp.

Mr. Ada stated that the RFP was advertised in the local newspapers throughout the months of August and September 2012. The established deadline to submit the proposals was on September 21, 2012. A total of fourteen (14) firms obtained the RFP package;

however four (4) firms responded by submitting their proposals by the established deadline.

After the evaluation committee completed their evaluations and the Procurement Office tabulated the scores. The Executive Manager announced the results in the order of their ranking as follows:

1. N.C. Macario & Associates
2. E.M. Chen & Associates
3. Duenas, Camacho, & Associates
4. GHD Inc.

Management has recommended the approval of the ranking results and the contract award to N.C. Marcario & Associates, as they are the highest ranked proposer for the A&E Pipeline and Hydrant Systems (North and South Ramp).

Director Tolan made a motion to award the RFP for A&E Pipeline and Hydrant systems (North and South Ramp) to N.C. Macario & Associates, seconded by Director Gerber; motion carried.

B Request for Proposals – Development of GIAA Immigrant Investor Visa Program (EB-5)

The Executive Manager announced the airport's initiative to solicit interest from other firms or individuals to provide professional services for the development of the GIAA Immigrant Investor Vise Program (EB-5). It had been reported that a total of eleven (11) firms/individuals had picked up packages and only two (2) had submitted proposals before the submission deadline:

1. DGT Consulting
2. Baumann Kondas, XU

Based on the tabulations of the scores submitted by the evaluation committee, Management has recommended that the Board award the contract to DGT Consulting.

Director Torres made a motion to approve the ranking results and award for the Development of GIAA Immigrant Investor Visa Program (EB-5) to DGT Consulting, seconded by Director Tolan; motion carried.

C. Request for Proposal – Real Estate Appraisal & Consulting Services

The Executive Manager announced the Request for Proposals (RFP) for Real Estate Appraisal and Consulting Services. For Board's information, Management reported that GIAA requires the professional services of a Firm(s)/Individual(s) for real estate

appraisal and consulting services whose principle focus will be to provide professional expertise in the area of real estate and consulting services, and other services as may be required by the authority.

After further discussion, Management requested the Board's approval of the selection of two (2) firms will allow the GIAA flexibility for real estate appraisal and consulting services. Therefore, based on the ranking results and based on the ranking results Management recommends the selection of Captain & Associates and Cornerstone Valuation Guam, Inc.

Director Gerber made a motion to award the RFP contract to Captain & Associates and Cornerstone Valuation Guam, Inc. , seconded by Director Tolan; motion carried.

D. Ratification of Quarterly Travel Report

Director Gerber made a motion to ratify the quarterly travel report for July 2012 – September 2012, seconded by Director Torres; motion carried.

E. Ratification of Disbursements

Director Torres made a motion to ratify payments above the $50,000.00 threshold made to vendors, seconded by Director Tolan; motion carried.

VI OLD BUSINESS

A Executive Manager's Report

The Executive Manager presented updates on various matters relating to airlines and announced United Airlines suspension of its twice-weekly service from Okinawa to Guam on October 27, 2012 due to lower than expected traffic demand and high operational costs. Mr. Ada also announced that Cebu Pacific Air's has submitted an application with the U.S. Department of Transportation to provide scheduled flights to Guam and that it had been approve on November 18, 2012 and the airline plans to start services on in April 2013.

B Financial Report

The Acting Comptroller's report as of September 30, 2012 was presented for Board's information, to include reports on the Airport's investment schedule.

C Legal Counsel's Report

At the request of counsel, all matters will be discussed during Executive Session. Board had no objection.

D Tenant Matters

No tenant matters to report.

E Status on Capital Improvement Programs

The UDO analysis was reported for Board's information.

VII NEW BUSINESS

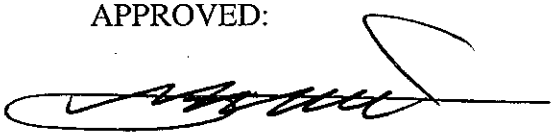
The Executive Manager announced the the A.B. Won Pat international Airport Authority was the recipient of the 2012 Governor's MagPro Department of the Year for medium department/agency for the second time in a row. Director Torres commended Management and employees for their hard work.

VIII EXECUTIVE SESSION

The Vice Chairman suggested that the Board recess the meeting and convene Executive Session after the recess. Director Tolan made a motion to recess and convene Executive Session after the recess, seconded by Director Gerber; motion carried. The meeting recessed at 3:36.

IX PUBLIC COMMENTS

The Vice Chairman called upon any public member wishing to make comments. There was no response.



X ADJOURNMENT

Director Gerber made a motion to adjourn the meeting, seconded by Director Torres; motion carried. The meeting adjourned at 3:45 p.m.

MINUTES OF THE BOARD OF DIRECTORS SPECIAL MEETING
2:00 p.m., Tuesday, December 18, 2012
GIAA TERMINAL CONFERENCE ROOM #3

I. CALL TO ORDER AND ATTENDANCE

Acting Chairman Francisco G. Santos called the A.B. Won Pat International Airport Authority, Guam (GIAA) special meeting to order at 2:21 p.m. The presence of Directors is noted as follows Director Rosalinda A. Tolan, Director Lucy M. Alcorn, and Director Jesus Q. Torres. Also present Executive Manager Charles H Ada, II, Deputy Executive Manager, Peter Roy Martinez, Carlos P. Bordallo, Acting Comptroller, Frank R. Santos, Business and Financial Consultant, Janalynn C. Damian, Legal Counsel. The Chairman welcomed the presence of Airport Tenants, stakeholders and members of the public who are noted in a sign in sheet made as an attachment to the minutes.

II. APPROVAL OF AGENDA

Director Tolan made a motion to approve the agenda, seconded by Director Alcorn; motion carried.

III. MATTERS FOR BOARD RATIFICATION/APPROVAL

A. Approval of Award for Airport Ambassador Program & Airport Information Center

The Executive Manager reported that Board action is needed to approve the ranking results based on the evaluation process performed through the request for proposals (RFP) No. GIAA-FY13 for Airport Ambassador Program & Airport Information Center. He stated that the reference RFP was advertised in the local newspapers throughout the month of November 2012; the established deadline to submit the proposals was on December 6, 2012.

A total of eleven (11) firms shoed their interest by obtaining the RFP package; however two (2) firms responded by submitting their proposals before the established deadline.

1. Lima Corporation/Discover Guam
2. G4S Security System

Mr. Ada announced that the Airport Ambassador Program & Airport Information Center Agreement will be funded from the approval of the O&M Budget for Fiscal Year 2013. Management recommends the approval of the ranking results and the contract be award to Lima Corporation/Discover Guam, as the highest ranked proposer for the Airport Ambassador program & Airport Information Center.

Director Torres requested for further explanation on the ambassador program, the Airport Services Manager called on Ms. Rolenda Faasuamalie, Airport Marketing Administrator, to provide background information to the Board. Ms. Faasuamalie reported for Board's information the Airport Ambassador Program has been around for a while, and the ambassadors are multi-lingual individuals' station in the Customs and Border Protection hall. They are able to speak Chinese, Japanese, and Korean to assist passengers with their required forms upon entering Guam. Ms. Faasuamalie added the Airport Information Center is located outside the Customs area, and they provide information to passengers arriving to Guam who may need information on tour packages, location information, where to stay and how to get there. Mr. Ada added that the information center provides vital information to the Airport and GVB, as well as information used during the AOC meetings. Director Torres added that the program enhances the Airport's hospitality to its customers.

Director Torres made a motion to award for Airport Ambassador Program & Airport Information Center to Lima Corporation/Discover Guam, seconded by Director Tolan; motion carried.

B. Approval of Board Resolution No. 13-01: Extension of the Agreement for Legal Services – Conflicts Counsel

The Executive Manager announced that the Airport entered into an agreement with Attorney Tom Fisher a year ago and the referenced resolution is an extension of the same agreement for legal services. Director Tolan inquired with Management on the amount of work that has been given to Mr. Fisher. The Executive Manager reported that Mr. Fisher's workload has been very minimal but he has been very efficient to the Airport.

Director Tolan made a motion to approve the Extension of the Agreement for Legal Services for Attorney Tom Fisher – Conflicts Counsel, seconded by Director Torres; motion carried.

IV. ADJOURNMENT

Director Torres made a motion to adjourn the meeting, seconded by Director Alcorn; motion carried. The meeting adjourned at 2:31 p.m.

MINUTES OF THE BOARD OF DIRECTORS REGULAR MEETING
3:00 p.m., Tuesday, January 29, 2013
GIAA TERMINAL CONFERENCE ROOM #3

I. CALL TO ORDER AND ATTENDANCE

Vice Chairman Francisco G. Santos called the A.B. Won Pat International Airport Authority, Guam (GIAA) regular meeting to order at 3:06 p.m. The presence of Directors is noted as follows: Rosalinda A. Tolan; Martin J. Gerber; Edward G. Untalan; Lucy M. Alcorn, and Jesus Q. Torres. Also present were Peter Roy Martinez, Acting Executive Manager, Carlos P. Bordallo, Acting Comptroller, Frank R. Santos, Business and Financial Consultant, Janalynn C. Damian Esq., and Michael A. Pangelinan Esq., Legal Council. The Vice Chairman welcomed the presence of Airport Tenants, stakeholders, and members of the public who are noted in a sheet made as an attachment to the minutes.

The Vice Chairman welcomed new Board Member Edward G. Untalan, stating that he would be an asset to the airport. Board Members and all who were present applauded and welcomed Mr. Untalan.

II. APPROVAL OF AGENDA

The Vice Chairman suggested that a motion be made to amend the agenda to include election of new officers, and that the election take place before the approval of the minutes. Director Torres added that the Board may want to consider entertaining a Memorandum from the Vice Chairman regarding suggested Standing Committees. As there were no objections, Director Torres made motion to amend the agenda to add the Nomination and Election of Officers, and the Establishment of Board Standing Committees; seconded by Director Tolan; motion carried.

- Nomination and Election of Officers

Director Torres made a motion to nominate and elect Vice Chairman, Francisco G. Santos as Chairman of the Board. Vice Chairman called for any other nominations. As there were no other nominations, Director Untalan seconded the motion and was unanimously approved.

Director Gerber made motion to nominate and elect Director Torres as Vice Chairman, seconded by Director Untalan; motion carried. The newly elected Chairman stated that

it is an honor to be elected Chairman, and thanked the Board for giving him the opportunity to lead.

- Establishment of Board Standing Committee

In order to open dialogue with management on various Airport issues, Chairman Santos suggested for the Board to consider establishing committees as noted in the memorandum to the Board. The following committees were recommended:

1. Finance
2. Capital Projects
3. Personnel
4. Tenant Relations
5. Air Service Development
6. Operations

After some discussion, it was suggested that the following Board Members will take charge of chairing the respective committees:

1. Finance – Director Edward Untalan
2. Capital Projects – Director Martin Gerber
3. Personnel – Director Linda Tolan
4. Tenant Relations – Director Lucy Alcorn
5. Air Service Development
6. Operations – Vice Chairman Jesus Torres

It was noted that the Air Service Development Committee remain vacant until a later time. Vice Chair Torres made motion to approve suggested committees and their respective Chairpersons, seconded by Director Gerber; motion duly carried.

III. APPROVAL OF MINUTES

A. November 27, 2012, Board Regular Meeting
B. December 18, 2012, Board Special Meeting

Director Tolan made motion to approve both the regular meeting minutes, and the special meeting minutes, subject to correction, seconded by Director Gerber; motion carried.

IV. CORRESPONDENCE

No correspondence presented.

V. MATTERS FOR BOARD RATIFICATION/APPROVAL

A. Approval of GIAA FY12 Independent Financial Audit Report by Ernst & Young

Chairman Santos announced that the Airport's FY12 audit had been completed and introduced Mr. Jim Whitt from Ernst & Young LLP, (E&Y) who, together with the E&Y team has put together the results of the audit.

Mr. Whitt thanked the Airport Accounting Department and all other divisions for the excellent cooperation given to E&Y during the audit process. He preceded with a power point presentation of the audit results. At the end of the presentation, the Chairman thanked Mr. Whitt for the outstanding presentation and asked that E&Y continue to provide the airport with good recommendations.

The Acting Executive Manager noted that assistance of the Public Auditor's office was received to get the audit completed, and recognized the Airport's Accounting Division for their role in getting everything prepared. Director Untalan, made motion to approve the FY12 Audit, seconded by Director Tolan; motion carried.

B. Approval of Award for Independent Airport Consultant(s) RFP No. GIAA-004-FY13

Board action is requested to approve the ranking results based on the evaluation process performed through the Request for Proposals (RFP) No. GIAA-004-FY13. Acting Executive Manager stated that a total of 11 firms showed interest by obtaining packages. Only one firm responded, submitting a proposal by the deadline. The sole firm selected is as follows:

1. Leigh Fisher

The Acting Executive Manager went on to report that the Independent Airport Consultant(s) agreement will be funded from the approved O&M Budget for Fiscal Year 2013. Management recommended that the approval of the ranking results and the contract be awarded to Leigh Fisher, as the sole ranked proposer. Vice Chairman inquired about the number of firms that submitted proposals, if they were off-island firms, and suggested that in order to provide services to the airport, that they be authentic. Director Gerber made motion to approve management's recommendation, seconded by the Vice Chairman; motion carried.

C. Approval of Award for Air Service Development Plan RFP No. GIAA-001-FY13

Management has requested that the Board take action to approve the ranking results based on the evaluation process performed through the Request for Proposals (RFP) No.

GIAA-001-FY13. Acting Executive Manager presented the summary stating that the RFP was advertised in November. A total of eleven firms showed interest, with two submitting proposals by the deadline. After an evaluation was completed, the selected firms in order of ranking are as follows:

1. Airport Strategy & Marketing Ltd. (ASM)
2. Ascend Worldwide Limited

Management recommended that the approval of the ranking results and the contract be awarded to Airport Strategy & Marketing Ltd. (ASM), being the highest ranked proposer. Vice Chairman asked if either company were local, and if they had completed airport work locally. Mr. Santos replied stating that both are off-island companies, and that ASM had performed services for the airport, as well as CNMI. Mr. Santos also noted that ASM is a global, U.K. based company, and that Ascend Worldwide Limited is based out of Hong Kong. Vice Chairman noted that the company chosen will be involved in intensive activities to promote the airport in the Pacific and Asian regions, therefore needs to be skilled in that area, in order to generate activity and to lure other carriers.

Acting Executive Manager mentioned that he attended, along with Director Gerber and representatives from GVB, a Routes Asia Conference where meetings were also held with the ASM group. He added that through these meetings, which included various airlines, there were nine different companies that had expressed interest in Guam, two of them being Jeju Air, and Eva Air.

At this time Chairman welcomed the presence of Director Alcorn.

Vice Chairman Torres made motion to approve the Air Service Development Plan, awarding the project to Airport Strategy & Marketing Limited; seconded by Director Gerber; motion carried.

D. Ratification of Quarterly Travel

Director Untalan inquired if it is normal to ratify the Quarterly Travel report, or if the Board takes a look at the quarters of upcoming travel. Director Alcorn responded, stating that the Board ratifies the travel, after it has been approved by the Chairman at his discretion. Director Gerber asked if there were still a travel calendar. Management responded that the travel calendar is submitted during the budget proposal to the Board. Vice Chairman Torres made motion to ratify the quarterly travel report from October – December 2012, seconded by Director Alcorn; motion carried.

E. Ratification of Disbursements

Vice Chairman inquired about the payments paid out to Sumitomo Mitsui Construction Co. Ltd. for Runway 6L-24R totaling over $750, 000 and if it is part of the Instrument Landing System project (ILS). Mr. Santos responded that the runway is closed but departures are currently being allowed on the runway; the Instrument Landing System project is expected to be completed in April 2013, however the airport awarded the Runway Rehabilitation project for the same runway. The plan is that the runway will be closed during construction, but will open for departures only during windows of opportunity. Mr. Santos went on to explain that ILS serves runway 6L, but the Rehabilitation project covers both Runway 6L and the other end Runway 24R, the entire runway will be rehabilitated. The Runway Rehabilitation project is awaiting approval from FAA, upon approval, a notice to proceed will be issued; the project is expected to be completed by 2014.

Director Untalan made a motion to ratify payments above the $50,000.00 threshold made to vendors for the period of November 27, 2012 – January 25, 2013, seconded by Director Gerber; motion carried.

VI. OLD BUSINESS

A. Executive Manager's Report

The Acting Executive Manager presented updates on various matters relating to airlines including Cebu Pacific Air, a Philippine based carrier's application to provide scheduled flights between Guam and Manila. Approval by the U.S. Department of Transportation was made November 18, 2012, and service is planned to start in April 2013.

Star Flyer, based in Kitakyushu, will operate Charter flights from Kitakyushu Airport to Guam and Saipan during the summer 2013. Acting Executive Manager reported that Daisy S. Sablan, Station Manager for Saipan Delta Airlines has now been appointed Station Manger for both Guam and Saipan. GIAA and Japan Airlines (JAL) have been finalizing plans for a JAL flight crew training on Guam. Pilot training will commence on Guam in December 2013.

Acting Executive Manager announced that Guam Airport and GEDA will be presenting a briefing to a Standard & Poor's group on February 6, 2013 in preparation of the Airport's plan to refinance the 2003 Bonds. Acting Executive Manager went on to say that a listing of the Airport's goals and objectives, "Go 2013" has been compiled and shared with the Governor's Office and media, and a report of the 2012 accomplishments has been issued detailing the Airport's milestones over the past year which are attached to the report.

Director Tolan inquired if renovations to the Airport's restrooms would be part of the "Go 2013" list of goals and accomplishments, and recommended that the upgrade of restrooms be under Services and Community Engagement area in the that list.

B. Financial Report

For the Board's information, Acting Comptroller Carlos Bordallo presented the financial report as of December 31, 2012. Mr. Bordallo noted that the power bill has dropped significantly.

Director Untalan inquired about how much the Airport is expected to receive this year in grants. Mr. Santos replied that the amount should approximately be seven to eight million in grants.

C. Legal Counsel's Report

Legal Counsel recommended that discussions regarding litigation matters be reported during Executive Session. The Board had no objection.

D. Tenant Matters

No Tenant Matters were reported.

E. Status on Capital Improvement Programs

Mr. Frank Santos presented the UDO analysis.

VII. NEW BUSINESS

No New Business.

VIII. EXECUTIVE SESSION

The Chairman announced that the Board will recess and convene Executive Session after the recess. Director Tolan made motion to recess and convene Executive Session after the recess, seconded by Director Alcorn; motion carried. The board recessed at 4:17 p.m.

After recess, the meeting convened at 4:37 p.m. Chairman stated that no Executive Session would be held at this time.

IX. PUBLIC COMMENTS

The Vice Chairman called upon any public member wishing to make comments. There

was no response.

X. ADJOURNMENT

Director Tolan made a motion to adjourn the meeting, seconded by Director Alcorn; motion carried. The meeting adjourned at 4:37 p.m.

Respectfully submitted,

Amanda O'Brien-Rios
Board Secretary

SUBJECT: Board Meeting

MESSAGE:

Please be informed the Board of Directors of the A.B. Won Pat International Airport Authority has scheduled its Regular Board meeting on Tuesday, January 29, 2013 at 3:00 p.m. in the terminal conference room.

A copy of the agenda is available upon request. Parking is available in the Public Parking Lot. For special accommodations, please contact the Administration office at 646-0300. Thank you.

MINUTES OF THE BOARD OF DIRECTORS REGULAR MEETING
2:00 p.m., Tuesday, November 27, 2012
GIAA TERMINAL CONFERENCE ROOM #3

I CALL TO ORDER AND ATTENDANCE

Vice Chairman Francisco G. Santos called the A.B. Won Pat International Airport Authority, Guam (GIAA) regular meeting to order at 2:20 p.m. The presence of Directors is noted as follows Director Rosalinda A. Tolan, Director Martin J. Gerber, and Director Jesus Q. Torres. Also present Executive Manager Charles H Ada, II, Deputy Executive Manager, Peter Roy Martinez, Carlos P. Bordallo, Acting Comptroller, Frank R. Santos, Business and Financial Consultant, Jannalyn C. Damian, Legal Counsel. The Chairman welcomed the presence of Airport Tenants, stakeholders and members of the public who are noted in a sign in sheet made as an attachment to the minutes.

II APPROVAL OF AGENDA

Director Torres made a motion to approve the agenda as presented, seconded by Director Tolan; motion carried.

III APPROVAL OF MINUTES

A September 25, 2012, Board Regular Meeting

Director Torres made a motion to approve the minutes for the Board Regular Meeting on September 25, 2012, subject to correction, seconded by Director Tolan; motioned carried.

IV CORRESPONDENCE

No correspondence was presented.

V MATTERS FOR BOARD RATIFICATION/APPROVAL

A Request for Proposals - A & E Services for Pipeline and Hydrant Systems (North and South Ramp)

The Executed Manager reported that Board action is requested to approve the ranking results based on the request for proposals (RFP) process for A&E services for Pipeline and Hydrant Systems for the north and south ramp.

Mr. Ada stated that the RFP was advertised in the loacl newspapers throughout the months of August and September 2012. The established deadline to submit the proposals was on September 21, 2012. A total of fourteen (14) firms obtained the RFP package; however four (4) firms responded by submitting their proposals by the established deadline.

After the evaluation committee completed their evaluations and the Procurement Office tabulated the scores. The Executive Manager announced the results in the order of their ranking as follows:

1. N.C. Macario & Associates
2. E.M. Chen & Associates
3. Duenas, Camacho, & Associates
4. GHD Inc.

Management has recommended the approval of the ranking results and the contract award to N.C. Marcario & Associates, as they are the highest ranked proposer for the A&E Pipeline and Hydrant Systems (North and South Ramp).

Director Tolan made a motion to award the RFP for A&E Pipeline and Hydrant systems (North and South Ramp) to N.C. Macario & Associates, seconded by Director Gerber; motion carried.

B Request for Proposals – Development of GIAA Immigrant Investor Visa Program (EB-5)

The Executive Manager announced the airport's initiative to solicit interest from other firms or individuals to provide professional services for the development of the GIAA Immigrant Investor Vise Program (EB-5). It had been reported that a total of eleven (11) firms/individuals had picked up packages and only two (2) had submitted proposals before the submission deadline:

1. DGT Consulting
2. Baumann Kondas, XU

Based on the tabulations of the scores submitted by the evaluation committee, Management has recommended that the Board award the contract to DGT Consulting.

Director Torres made a motion to approve the ranking results and award for the Development of GIAA Immigrant Investor Visa Program (EB-5) to DGT Consulting, seconded by Director Tolan; motion carried.

C. Request for Proposal – Real Estate Appraisal & Consulting Services

The Executive Manager announced the Request for Proposals (RFP) for Real Estate Appraisal and Consulting Services. For Board's information, Management reported that GIAA requires the professional services of a Firm(s)/Individual(s) for real estate appraisal and consulting services whose principle focus will be to provide professional expertise in the area of real estate and consulting services, and other services as may be required by the authority.

After further discussion, Management requested the Board's approval of the selection of two (2) firms will allow the GIAA flexibility for real estate appraisal and consulting services. Therefore, based on the ranking results and based on the ranking results Management recommends the selection of Captain & Associates and Cornerstone Valuation Guam, Inc.

Director Gerber made a motion to award the RFP contract to Captain & Associates and Cornerstone Valuation Guam, Inc. , seconded by Director Tolan; motion carried.

D. Ratification of Quarterly Travel Report

Director Gerber made a motion to ratify the quarterly travel report for July 2012 – September 2012, seconded by Director Torres; motion carried.

E. Ratification of Disbursements

Director Torres made a motion to ratify payments above the $50,000.00 threshold made to vendors, seconded by Director Tolan; motion carried.

VI OLD BUSINESS

A Executive Manager's Report

The Executive Manager presented updates on various matters relating to airlines and announced United Airlines suspension of its twice-weekly service from Okinawa to Guam on October 27, 2012 due to lower than expected traffic demand and high operational costs. Mr. Ada also announced that Cebu Pacific Air's has submitted an application with the U.S. Department of Transportation to provide scheduled flights to Guam and that it had been approve on November 18, 2012 and the airline plans to start services on in April 2013.

B Financial Report

The Acting Comptroller's report as of September 30, 2012 was presented for Board's information, to include reports on the Airport's investment schedule.

C Legal Counsel's Report

At the request of counsel, all matters will be discussed during Executive Session. Board had no objection.

D Tenant Matters

No tenant matters to report.

E Status on Capital Improvement Programs

The UDO analysis was reported for Board's information.

VII NEW BUSINESS

The Executive Manager announced the the A.B. Won Pat international Airport Authority was the recipient of the 2012 Governor's MagPro Department of the Year for medium department/agency for the second time in a row. Director Torres commended Management and employees for their hard work.

VIII EXECUTIVE SESSION

The Vice Chairman suggested that the Board recess the meeting and convene Executive Session after the recess. Director Tolan made a motion to recess and convene Executive Session after the recess, seconded by Director Gerber; motion carried. The meeting recessed at 3:36.

IX PUBLIC COMMENTS

The Vice Chairman called upon any public member wishing to make comments. There was no response.

X ADJOURNMENT

Director Gerber made a motion to adjourn the meeting, seconded by Director Torres; motion carried. The meeting adjourned at 3:45 p.m.

Respectfully submitted,

Rochelle D. Uson

MINUTES OF THE BOARD OF DIRECTORS SPECIAL MEETING
2:00 p.m., Tuesday, December 18, 2012
GIAA TERMINAL CONFERENCE ROOM #3

I. CALL TO ORDER AND ATTENDANCE

Acting Chairman Francisco G. Santos called the A.B. Won Pat International Airport Authority, Guam (GIAA) special meeting to order at 2:21 p.m. The presence of Directors is noted as follows Director Rosalinda A. Tolan, Director Lucy M. Alcorn, and Director Jesus Q. Torres. Also present Executive Manager Charles H Ada, II, Deputy Executive Manager, Peter Roy Martinez, Carlos P. Bordallo, Acting Comptroller, Frank R. Santos, Business and Financial Consultant, Janalynn C. Damian, Legal Counsel. The Chairman welcomed the presence of Airport Tenants, stakeholders and members of the public who are noted in a sign in sheet made as an attachment to the minutes.

II. APPROVAL OF AGENDA

Director Tolan made a motion to approve the agenda, seconded by Director Alcorn; motion carried.

III. MATTERS FOR BOARD RATIFICATION/APPROVAL

A. Approval of Award for Airport Ambassador Program & Airport Information Center

The Executive Manager reported that Board action is needed to approve the ranking results based on the evaluation process performed through the request for proposals (RFP) No. GIAA-FY13 for Airport Ambassador Program & Airport Information Center. He stated that the reference RFP was advertised in the local newspapers throughout the month of November 2012; the established deadline to submit the proposals was on December 6, 2012.

A total of eleven (11) firms shoed their interest by obtaining the RFP package; however two (2) firms responded by submitting their proposals before the established deadline.

1. Lima Corporation/Discover Guam
2. G4S Security System

Mr. Ada announced that the Airport Ambassador Program & Airport Information Center Agreement will be funded from the approval of the O&M Budget for Fiscal Year 2013.

Management recommends the approval of the ranking results and the contract be award to Lima Corporation/Discover Guam, as the highest ranked proposer for the Airport Ambassador program & Airport Information Center.

Director Torres requested for further explanation on the ambassador program, the Airport Services Manager called on Ms. Rolenda Faasuamalie, Airport Marketing Administrator, to provide background information to the Board. Ms. Faasuamalie reported for Board's information the Airport Ambassador Program has been around for a while, and the ambassadors are multi-lingual individuals' station in the Customs and Border Protection hall. They are able to speak Chinese, Japanese, and Korean to assist passengers with their required forms upon entering Guam. Ms. Faasuamalie added the Airport Information Center is located outside the Customs area, and they provide information to passengers arriving to Guam who may need information on tour packages, location information, where to stay and how to get there. Mr. Ada added that the information center provides vital information to the Airport and GVB, as well as information used during the AOC meetings. Director Torres added that the program enhances the Airport's hospitality to its customers.

Director Torres made a motion to award for Airport Ambassador Program & Airport Information Center to Lima Corporation/Discover Guam, seconded by Director Tolan; motion carried.

B. Approval of Board Resolution No. 13-01: Extension of the Agreement for Legal Services – Conflicts Counsel

The Executive Manager announced that the Airport entered into an agreement with Attorney Tom Fisher a year ago and the referenced resolution is an extension of the same agreement for legal services. Director Tolan inquired with Management on the amount of work that has been given to Mr. Fisher. The Executive Manager reported that Mr. Fisher's workload has been very minimal but he has been very efficient to the Airport.

Director Tolan made a motion to approve the Extension of the Agreement for Legal Services for Attorney Tom Fisher – Conflicts Counsel, seconded by Director Torres; motion carried.

IV. ADJOURNMENT

Director Torres made a motion to adjourn the meeting, seconded by Director Alcorn; motion carried. The meeting adjourned at 2:31 p.m.

Respectfully submitted,

Rochelle D. Uson

INTERNATIONAL AIRPORT AUTHORITY, GUAM
BOARD OF DIRECTORS
EXECUTIVE SUMMARY

REQUEST FOR PROPOSALS, RFP NO. GIAA-004-FY13
INDEPENDENT AIRPORT CONSULTANT(S)

January 29, 2013

Purpose

Board action is requested to approve the ranking results based on the evaluation process performed through the Request For Proposals (RFP) No. GIAA-004-FY13 for Independent Airport Consultant(s).

Background

The referenced RFP solicits proposals from firms to provide professional services to advise and assist management of GIAA on airport, aviation, planning and capital improvement projects and other related matters.

Procurement Background

The above referenced RFP was advertised in the local newspapers throughout the month of November 2012. The established deadline to submit the proposals was on January 4, 2013.

A total of eleven (11) firms showed their interest by obtaining the RFP package; however, one (1) firm responded by submitting their proposals before the established deadline.

After receipt of all proposals, an Evaluation Committee was established to perform an independent evaluation of the proposals to determine the best qualified proposer. As a result of the tabulation of scores, the sole firm selected are as follows:

1. Leigh Fisher

Legal Review

Upon Board approval, a standard professional services contract will be forwarded to Legal Counsel for review and approval as to form.

Financial Review

The Independent Airport Consultant(s) Agreement will be funded from the approved O & M Budget for Fiscal Year 2013.

Recommendation

Management recommends the approval of the ranking results and the contract award to **Leigh Fisher,** as the sole ranked proposer for the Independent Airport Consultant(s), subject to negotiations of fair and reasonable fees.

In the event that the negotiations prove unsuccessful, GIAA Management may re-solicit the services.

January 24, 2013

MEMORANDUM

TO: Charles H. Ada II, Executive Manager

FROM: Franklin P. Taitano, Supply Management Administrator

SUBJECT: Evaluation and Recommendation - Request For Proposal (RFP)
Independent Airport Consultant(s)
RFP No. GIAA-004-FY13

The referenced Request for Proposal (RFP) solicits interests from firms or individuals to provide professional services for the Independent Airport Consultant(s). The advertisement for this RFP was published in the local newspaper for the month of November 2012. The deadline to submit the proposals was on January 4, 2013.

Eleven (11) firms/individuals acknowledged receipt of the package and one (1) firm listed below have submitted qualification documents before the submission deadline:

1. Leigh Fisher

Evaluation and Selection

Pursuant to Section VIII of the package, after receipt of all proposals, the GIAA Evaluation Committee conducted an independent evaluation for the purpose of selecting the most responsive and responsible offeror based on the evaluation criteria. The committee which Management established to evaluate the firms' qualifications included the following:

a. Jean M. Arriola, Airport Services Manager
b. Carlos Bordallo, Controller
c. Frank R. Santos, Expansion Office

The committee completed their evaluation and the scores were tabulated as reflected on the attached summary worksheet. As a result of our tabulation, the sole firm below has earned the number one rank in this solicitation:

1. Leigh Fisher

Recommendation

It is determined that **Leigh Fisher** ranked number one and the best qualified firm to perform the required services in accordance with the criteria set forth in the RFP. Also, as a result of our review of the submitted required documents, the firm has been deemed to have met the standards of responsibility and responsiveness outlined in the Guam Procurement Regulations.

AMERICAN ASSOCIATION OF AIRPORT EXECUTIVES
AIRPORTS COUNCIL INTERNATIONAL
NASAO National Association of State Aviation Officials
TIACA THE INTERNATIONAL AIR CARGO ASSOCIATION

Therefore, it is recommended that the firm **Leigh Fisher** be given the first opportunity to negotiate a fee for the Independent Airport Consultant(s) contract. In the event that the aforementioned negotiations prove unsuccessful, the GIAA may re-solicit the services.

Should you have any questions or need to discuss this matter further, I am available at your request.

Franklin P. Taitano

INTERNATIONAL AIRPORT AUTHORITY, GUAM
BOARD OF DIRECTORS
EXECUTIVE SUMMARY

REQUEST FOR PROPOSALS, RFP NO. GIAA-001-FY13
AIR SERVICE DEVELOPMENT PLAN

January 29, 2013

Purpose

Board action is requested to approve the ranking results based on the evaluation process performed through the Request For Proposals (RFP) No. GIAA-001-FY13 for Air Service Development Plan.

Background

The referenced RFP solicits proposals from a Consultant to assist in securing new international air service to regional and world markets by existing or new air carriers being served to or from Guam.

Procurement Background

The above referenced RFP was advertised in the local newspapers throughout the month of November 2012. The established deadline to submit the proposals was on November 21, 2012.

A total of eleven (11) firms showed their interest by obtaining the RFP package; however, two (2) firms responded by submitting their proposals before the established deadline.

After receipt of all proposals, an Evaluation Committee was established to perform an independent evaluation of the proposals to determine the best qualified proposer. The proposals were evaluated based on the point system assigned for each criteria identified in the RFP package.

The Evaluation Committee has completed their evaluations and the scores sheets were gathered and tabulated by Procurement Office. As a result, the selected firms in the order of their ranking are as follows:

1. Airport Strategy & Marketing Ltd. (ASM)
2. Ascend Worldwide Limited

Legal Review

Upon Board approval, a standard professional services contract will be forwarded to Legal Counsel for review and approval as to form.

Financial Review

The Air Service Development Plan Agreement will be funded from the O & M Budget for Fiscal Year 2013.

Recommendation

Management recommends the approval of the ranking results and the contract award to **Airport Strategy & Marketing Ltd.(ASM),** as the highest ranked proposer for the Air Service Development Plan subject to negotiations of fair and reasonable fees. In the event that the negotiations prove unsuccessful, GIAA Management will enter negotiations with the next highest ranked proposer.

MEMORANDUM

TO: Charles H. Ada II, Executive Manager

FROM: Franklin P. Taitano, Supply Management Administrator

SUBJECT: Evaluation and Recommendation - Request For Proposal (RFP)
Air Service Development Plan
RFP No. GIAA-001-FY13

The referenced Request for Proposal (RFP) solicits interests from firms or individuals to provide professional services for the Air Service Development Plan. The advertisement for this RFP was published in the local newspaper for the month of November 2012. The deadline to submit the proposals was on November 21, 2012.

Eleven (11) firms/individuals acknowledged receipt of the package and two (2) firms listed below have submitted qualification documents before the submission deadline:

1. Airport Strategy & Marketing Ltd. (ASM)
2. Ascend Worldwide Limited

Evaluation and Selection

Pursuant to Section VII of the package, after receipt of all proposals, the GIAA Evaluation Committee conducted an independent evaluation for the purpose of selecting the most responsive and responsible offeror based on the evaluation criteria. The committee which Management established to evaluate the firms' qualifications included the following:

a. Carlos Bordallo, Controller
b. Jean Arriola, Airport Services Manager
c. Rolenda Faasuamalie, Airport Marketing Administrator
d. Frank R. Santos, Expansion Office

The committee completed their evaluation and the scores were tabulated as reflected on the attached summary worksheet. As a result of our tabulation, the firms selected in the order of their ranking are as follows:

1. Airport Strategy & Marketing Ltd. (ASM)
2. Ascend Worldwide Limited

Recommendation

Based on the tabulation of the proposers ranking, it is determined that **Airport Strategy & Marketing Ltd.(ASM)** ranked number one and the best qualified firm to perform the required services in accordance with the criteria set forth in the RFP. Also, as a result of our review of the submitted required documents, the firm has been deemed to have met the standards of responsibility and responsiveness outlined in the Guam Procurement Regulations.

Therefore, it is recommended that the firm **Airport Strategy & Marketing Ltd.(ASM)** be given the first opportunity to negotiate a fee for the Air Service Development Plan contract. In the event that the aforementioned negotiations prove unsuccessful, the GIAA may enter negotiations with the next highest ranked proposer.

Should you have any questions or need to discuss this matter further, I am available at your request.

Franklin P. Taitano

Executive Manager's Report
GIAA Board of Directors Meeting
January 29, 2013

AIRLINE ISSUES

Cebu Pacific

Philippine-based carrier Cebu Pacific Air's application with the U.S. Department of Transportation to provide scheduled flights to Guam was approved November 18, 2012, and plans to start service in April 2013. Cebu Pacific will become the third airline to provide scheduled flights between Guam and Manila, joining United and Philippine Airlines. They will provide service under a "wet lease" arrangement, in which aircraft and crew of another airline will be used until the FAA upgrades the airline's Philippine safety rating to Category 1.

Star Flyer

A Star Flyer technical and operations team met with GIAA division managers during a fact-finding tour conducted mid November, 2012. Star Flyer, based in Kitakyushu, plans to operate charter flights from the Kitakyushu Airport to Guam and Saipan during summer 2013. Kitakyushu Airport operates 24 hours daily, which allows Star flyer to schedule takeoffs in the early morning hours for arrival in the morning, local time.

Delta Air Lines

Daisy S. Sablan has been appointed station manager for Guam and Saipan for Delta airlines. She was previously Saipan station manager for Delta and its predecessor Northwest Airlines. She is well known in the regional aviation arena, having also served as marketing and reservations director for Pacific Island Aviation.

Japan Airlines

GIAA and Japan Airlines (JAL) have been finalizing plans for JAL flight crew training to occur on Guam. JAL pilots will be conducting touch and go and full stop landing operations utilizing B737 and B767 aircraft. Pilot training will commence in December 2013 with approximately 6 cadets on island for training, and will continue through the term ending June of 2015.

Standard & Poor's Guam Airport Briefing

Guam Airport and GEDA, through their consultants, Citigroup, will be presenting a "Credit Update" briefing to a Standard & Poor's contingent on February 6, 2013, in the GIAA Board Conference room. This is in preparation of the Airport's plan to refinance the 2003 Bonds that would provide capital for much needed projects.

"GO 2013" AND 2012 ACCOMPLISHMENTS

The Goals and Objectives for 2013 has been compiled and shared with the Governor's Office and media for reference. Additionally, a report of 2012 Accomplishments has also been issued detailing the Airport's milestones this past year. (Attached).

PROCUREMENT

IFB for Custodial Maintenance

Announced:	January 25, 2013
Pre Bid:	February 6, 2013 10:00am
Submission Deadline:	February 15, 2013 2:00pm

IFB: Purchase/Delivery of Airport Police Vehicle

Announced:	January 17, 2013
Pre Bid:	January 24, 2013 10:00am
Submission Deadline	February 5, 2013 2:00 pm

ANNOUNCEMENTS

- A portion of Sunset Boulevard will be reduced to one lane beginning January 28 through February 9, 2013, between the hours of 9am through 4pm. The contractor will be performing work on this very busy roadway. A public notice has been issued to all media, and ads notifying the public of the lane closure has been scheduled to run in the papers.

A.B. Won Pat International Airport Authority, Guam
Management Goals & Objectives
"GO 2013"

Air Service Development

1. Capture air service from new airline operators (Star Flyer, Summer 2013; Cebu Pacific, Fall 2013) with engaged air service development consultant.
2. Incentivize stopover flight operations from foreign airlines.
3. Refine new air service incentives.
4. Market GUM for regional airline flight training.
5. Establish cooperative agreements with industry stakeholders for air service development. (GEDA/GVB joint marketing initiatives)
6. Be China ready for potential approval of parole authority for visa waiver.

Finance

1. Refinance 2003 Revenue Bonds.
2. Assess need for new capital bonds.
3. Influence re-affirmed or upgraded bond ratings.
4. Apply for EB-5 airport regional center status.
5. Continue cost containment and efficiency maximization.
6. Increase non-aeronautical revenue sources.
7. Sustain downward trend for airline costs.
8. Implement next phase for employee compensation program.
9. Obtain "0" findings in financial and compliance audits.

Capital Programs

1. Rehabilitate Runway 6L/24R.
2. Complete installation of new ILS for Runway 6L.
3. Finalize master plan update pending noise exposure maps.
4. Install PAPI navaid for Runway 24L.
5. Proceed with Noise Mitigation Program.
6. Invite bids for final demolition packages.
7. Initiate design for concourse segregation project.
8. Complete FAA sponsored Airport Geographic Information System (AGIS) pilot program.
9. Commence design for new ARFF facility.
10. Replace one ARFF vehicle.
11. Conduct planning for common use passenger check-in facilities.

Doc. No. 35GL-19-0628.*

Operations

1. Implement Table Top Annual Disaster Exercise for Certification.
2. Obtain "0" discrepancies in Annual FAA Inspections.
3. Improve efficiency in terminal equipment to include full implementation of the Energy Performance Management Program.
4. Adopt minimum standards for aeronautical activities.
5. Assess and adopt tiered aviation insurance requirements.
6. Start new fuel system operations and maintenance contract.
7. Negotiate new water system O&M contract with GWA.
8. Enhance Drug Free Workplace.

Services & Community Engagement

1. Expand Ambassador Program Services.
2. Support implementation of CBP Global Entry program.
3. Lobby for TSA Pre-Check expedited screening initiative.
4. Award and negotiate retail concession agreement.
5. Adopt upgraded business model for food & beverage services.
6. Enhance Website with Mobile Application Capability.
7. Engage Community Discussion with Social Media Applications.
8. Initiate landscaping improvements.
9. Support DPW projects for the Tiyan Parkway and expanded Route 10A roadways.

A.B. Won Pat International Airport Authority, Guam
2012 Accomplishments

Finance

1. (Audit Findings – ongoing/to be approved at the Board Meeting tentatively scheduled for January 29, 2013)
2. Ratings giant Standard & Poor affirmed its BBB rating with a stable outlook for the A.B. Won Pat International Airport, Guam's 2003 Revenue Bonds . Per S& P, "The rating reflects our view of the airports continued adequate financial performance against a fluctuating demand profile, low levels of fully unrestricted liquidity and cash flow debt service coverage and a strong business position serving Guam" .
3. Completed short-term, USDA guaranteed, low interest loan from FHB for energy efficient equipment.

Capital Programs

1. Runway 6L/24R - 2,000 linear foot extensions completed
2. Commissioned operations of new airport water system
3. Full replacement of terminal carpeting
4. Completed EDA funded site development for leasable north Tiyan properties
5. Partial refurbishment of airport fuel system completed

Operations

1. Takeoffs on Runway 6L Effective September 2012
2. GIAA welcomed Inaugural charter flight from Dalian, China on January 23, 2012, operated by United Airlines. This represents the 6th destination in China operated by United Airlines.
3. Effective January 15, 2012, GIAA started seeing Russian tourist arrivals with Russian nationals flying into Guam under the Guam-CNMI Visa Waiver Program, primarily via Seoul, Korea.
4. FEDEX opened its office in July of 2012 at the Integrated Air Cargo Building in Tiyan, marking its presence onsite, vs. offsite sales and freight office of the past.
5. Jeju commenced daily operations from Seoul to Guam on September 28, 2012. Operating a B737-800 with a 186 passenger seat capacity, this which translates to 1,302 additional seats weekly between Guam and Seoul.

Services & Community Engagement

1. On November 19 2012, a Sister Airport relationship was established with the Sendai Airport in Miyagi prefecture located in northern Japan. This area was the hardest hit by

the Great Earthquake and Tsunami in March 2011 and the flight to Guam was the first international flight that resumed operations in July 2011 (operated by United Airlines). Guam has four flights weekly to and from Sendai.

2. Enhanced communication and passenger service were the result of new web applications on the www.guamairport.com site.
    - Lost and Found Electronic Filing and Recording system
    - Airport Information Query System
    - Requests for Proposals and Invitations to Bid Electronic Copies download capability.
    - Business Prospectus for Prospective Investors download capability
    - Airport Tour Request Form download capability
    - Subscriber to Airport News and Announcements allows interested individuals to receive automatic electronic messages of all new postings on the www.guamairport.com site.
3. GIAA won first place for its Liberation Float entry in the Government Agency category in July of 2012, marking a two year in the row first place prize. The theme "68 years of progress through peace inspired the design of Airport history starting with the Quonset Hut to the modern facility we have today.
4. GIAA won 1st place accolades as a medium sized agency in the MagPro Government of Guam Best Agency division
5. GIAA received acknowledgement of the "Innovative Cost Savings Initiative" with the Implementation of the Energy Performance contract in May of 2012. This program calls for the replacement of inefficient terminal equipment and lighting to realize savings of over $1.3 million annually in power consumption in the terminal.
6. The Airport Authority secured Board level appointment in the prestigious Airports Council International Asia- Pacific Region (ACI Asia-Pacific), an industry organization, with the appointment of Deputy Manager Peter Roy Martinez as First Vice Chair of the Small Airports Committee.

MEMORANDUM

To: Mr. Francisco G. Santos
Vice-Chairman
GIAA Board of Directors

From: Carlos Bordallo
Acting Comptroller

Subject: **Operating Results - Revenues and Expenses as of December 31, 2012**

Attached herewith is GIAA's Operating Results Report for the month ending December 31, 2012. This report summarizes the Budgeted versus Actual Revenues and Expenses for the month and year-to-date results ended December 31, 2012.

The key operating results for 3 month(s) of FY 2013 ending December 31, 2012 - (in $000's) are:

CATEGORY	YEAR-TO-DATE				FORECAST FOR FULL YEAR-FY13	
	Budget FY 13 Y-T-D	Actual FY 13 Y-T-D	% Variance Budget vs. Actual		Actual Y-T-D + Remaining FY 13 Budget	% Variance Budget vs. Estimate for Full Year
			Y-T-D Current Month	Y-T-D Last Month		
Total Signatory Revenues	$6,622.1	$7,136.3	7.8%	7.3%	$27,836.3	1.9%
Total Concession Revenues	$2,639.7	$2,765.6	4.8%	5.2%	$10,948.1	1.2%
Total PFC's	$1,446.9	$1,503.0	3.9%	1.9%	$6,031.5	0.9%
Total Other Revenues	$3,664.7	$3,779.1	3.1%	2.5%	$15,247.4	0.8%
Total Operating Revenues	$14,373.4	$15,183.9	5.6%	5.2%	$60,099.3	1.4%
Total Operating Expenses	$11,271.3	$8,220.0	-27.1%	-28.1%	$37,391.1	-7.5%
Net Revenues from Operations	$3,102.1	$6,963.9	124.5%	145.4%	$22,708.2	20.5%
Non-Operating Expenses	$250.0	$0.0	-100%	-100%	$250.0	-50.0%
Other Available Moneys/other sources of funds	$1,195.8	$1,082.1	-9.5%	-9.5%	$4,669.6	-2.4%
Net Debt Service Coverage	**.99**	**1.92**	**93.5%**	**101.1%**	**1.63**	**16.7%**

Year-to-date Total Signatory Revenues for the month ending December 31, 2012 are above Budgeted revenues by **7.8%.** Signatory revenue estimates are based on projections submitted by Signatory airlines and adopted in the annual budget.

Year-to-date Total Concession Revenues and Passenger Facility Charges are above budget estimates by **4.8%** and **3.9%,** respectively.

Year-to date Total Other Revenues, inclusive of non-signatory and non-airline revenues, are above the budget estimate by **3.1%.**

Year-to-date Total Operating Revenues Actual of **$15.2M** is **5.68%** above the budget estimate of **$14.4M.**

Year-to-date Total Operating Expenses are below budget by **-27.1%** from budget. Components of this line item include a **-19.2%** decrease in Personnel Service, a **-30.2%** decrease in Contractual Services and a **-57.3%** decrease in Materials & Supplies from budgeted amounts for these respective categories.

The actual year-to-date Net Revenues from Operations of **$6.96M** reflects an increase of **124.5%** over the year-to-date budgeted amount of **$3.1M.**

Finally, our year-to-date results for Debt Service Coverage is at **1.63** versus the requirement of **1.25.**

MINUTES OF THE BOARD OF DIRECTORS REGULAR MEETING
3:00 p.m., Thursday, February 28, 2013
GIAA TERMINAL CONFERENCE ROOM #3

I. CALL TO ORDER AND ATTENDANCE

Chairman Francisco G. Santos called the A.B. Won Pat International Airport Authority, Guam (GIAA) regular meeting to order at 3:07 p.m. The presence of Directors is noted as follows: Jesus Q. Torres, Vice Chairman, Rosalinda A. Tolan; Martin J. Gerber; Edward G. Untalan; and Lucy M. Alcorn. Also present were Charles H. Ada, Executive Manager, Peter Roy Martinez, Deputy Executive Manager, Carlos P. Bordallo, Acting Comptroller, Frank R. Santos, Business and Financial Consultant, and Janalynn C. Damian Esq., Legal Counsel. The Chairman welcomed the presence of Airport Tenants, stakeholders, and members of the public who are noted in a sheet made as an attachment to the minutes.

II. APPROVAL OF AGENDA

Vice Chair Torres made motion to approve the agenda as presented, seconded by Director Tolan; motion carried.

III. APPROVAL OF MINUTES

A. January 29, 2013, Board Regular Meeting

Director Alcorn made motion to approve the minutes, subject to correction, seconded by Vice Chair Torres; motion carried.

IV. CORRESPONDENCE

No correspondence presented.

V. MATTERS FOR BOARD RATIFICATION/APPROVAL

A. Approval of TSA Other Transaction Agreement

Mr. Frank Santos presented a request for Board's approval of the TSA Other Transaction Agreement. He stated it is a grant agreement from TSA, in the amount of $444,000.00. Mr. Santos explained that there are two parts to the agreement involving the baggage screening; the first part is Recapitalization, the replacement of two machines for a

newer model; the second part is Optimization, the relocation of the checked baggage screening pods. TSA has agreed to fund both up to 30%. The amount of $444,000.00 was derived from a proposal by Siemens, the manufacturer of the baggage systems currently in use. Mr. Santos stated there are also two parts to the request; the TSA Other Transaction Agreement and the approval of the selection of Siemens to perform the work, also adding that Siemens is the company that did the design work for the "In-line" project which fell through because of funding issues. After some discussion on the positive impact the Recapitalization effort will bring, Vice Chair made motion to approve the TSA Other Transaction Agreement, seconded by Director Tolan; motion carried.

B. Approval of Award for Residential Sound Insulation Phase 2A – IFB No. GIAA-C02-FY13

The Executive Manager presented a summary of the Invitation For Bid for the above noted project. The project is phase 2 under the Noise Mitigation Program, with an objective of providing noise reduction to those homes mostly affected by aircraft operations. Of the fourteen (14) firms/individuals that purchased bid packages, six (6) firms submitted bid proposals before the submission deadline of February 5, 2013. Management recommended that the Board approve the contract award of $1,787,324.04 to Nippo Corporation who has been determined to have met the standards of responsibility and responsiveness outlined in the Guam Procurement Regulations. Janalynn Damian, Legal Counsel, made a disclosure for the record that the item be referred to Conflict Counsel as Calvo Fisher & Jacob LLP represent two (2) of the bidders. Director Tolan made motion to approve management's recommendation to authorize the contract award to Nippo Corporation, seconded by Vice Chair Torres; motion carried.

C. Ratification of Disbursements

Vice Chair Torres made a motion to ratify payments above the $50,000.00 threshold made to vendors for the period of January 30, 2013 – February 22, 2013, seconded by Director Gerber; motion carried.

VI. OLD BUSINESS

A. Executive Manager's Report

The Executive Manager presented updates on various matters concerning airlines, including an announcement of Japan based airline, Skymark commencing services with charter flights. The flights are planned to start during March 14 – 23. The key element to Skymark's service is to operate during non-peak hours.

The Manager reported on the Airports part in returning families and the deceased back to Japan after the tragic attack of tourists in Tumon in February. Executive Manager noted the assistance provided by GIAA Marketing and Airport Police who worked closely with GVB, GPD and the Governor's Office from February 14 – 18.

The Executive Manager announced the Pacific Asia Travel Associations' (PATA's) recent nomination of GIAA's Executive Manager, Charles H. Ada II to the PATA Board, which was accepted by Mr. Ada. The nomination will now be ratified at the PATA Annual Summit from April 25 – 28. Another upcoming event also announced was the 8th Airports Council International (ACI) Asia-Pacific Regional Assembly, Conference and Exhibition which will be held in Phuket, Thailand from April 22 – 25. A delegation from GIAA led by Deputy Executive Manager, Peter Roy Martinez, Director Gerber, and two (2) Marketing staff will be in attendance at the Conference.

The Manager reported that GIAA and GEDA presented a 'Credit Update' briefing to a contingent from Standard & Poor's on February 6, 2013 in preparation of the Airport's plan to refinance the 2003 Bonds. Director Untalan was in attendance for the briefing and informed the Board that he thought the presentation went rather well, staff and Management did an excellent job and provided a wealth of information to the group that represented Standard & Poors.

B. Financial Report

For the Board's information, Carlos P. Bordallo, Acting Comptroller presented the financial report as of January 31, 2013.

Vice Chair Torres inquired about the Airport Police having an adequate number of vehicles to operate appropriately, and explained that now would be the perfect time to request as the budget allows for it. The Chairman stated that he would rather see a golf cart in front instead of a patrol vehicle, and went on to suggest that Chief Robert Camacho request for two to three golf carts.

C. Legal Counsel's Report

Legal Counsel recommended that discussions regarding litigation matters be reported during Executive Session. The Board had no objection.

D. Tenant Matters

No Tenant Matters reported.

E. Status on Capital Improvement Programs

Mr. Frank Santos presented the UDO analysis.

VII. NEW BUSINESS

No New Business presented.

The Chairman announced that the Board will recess and convene Executive Session after the recess. Vice Chair Torres made motion to recess and convene Executive Session after the recess, seconded by Director Untalan; motion carried. The Board recessed at 4:03 p.m.

VIII. EXECUTIVE SESSION

Chairman Santos called Executive Session to order at 4:14 p.m. Executive Session adjourned at 4:30 p.m.

IX. PUBLIC COMMENTS

The Chairman called upon any public member wishing to make comments. There was no response.

X. ADJOURNMENT

Director Untalan made a motion to adjourn the meeting, seconded by Director Tolan; motion carried. The meeting adjourned at 4:35 p.m.

Respectfully submitted,

Amanda O'Brien-Rios
Board Secretary

APPROVED:

Japan posts record $17.4B trade deficit in January

TOKYO (AP) – Japan posted a record 1.63 trillion yen ($17.4 billion) trade deficit in January as rebounding exports lagged behind surging imports of crude oil and gas due to rising prices and the weakening yen.

The provisional data released Wednesday show exports for the world's third-biggest economy rose 6.4 percent to 4.8 trillion yen ($51.2 billion) in January from a year earlier, the first year-on-year increase in eight months. Imports jumped 7.3 percent to 6.43 trillion yen ($68.6 billion.)

A weakening in Japan's currency over the past few months has helped boost exports by making its products more price competitive overseas. But it has also inflated the value of resource-scarce Japan's imports of crude oil and other commodities, which offset a recovery in demand for Japanese-made vehicles and machinery.

Prime Minister Shinzo Abe is expected to seek help from Japan's ally the U.S. in a visit later this week to Washington, where he plans to appeal to President Barack Obama for wider access to cheaper exports of U.S. shale gas, Kyodo News Service and other local reports said Wednesday.

Abe's office would not confirm those reports. But it did say that "the government of Japan attaches utmost importance to the necessity of cooperation in the areas of resources and energy, particularly considering our current stringent energy situation," after the March 2011 disasters.

The Fukushima Dai-Ichi nuclear accident, triggered by a massive earthquake and tsunami, led to the closures of most of Japan's nuclear power plants, necessitating a sharp increase in imports of oil and gas.

Abe took office in December vowing to boost the economy by restoring Japan's export competitiveness, while at the same time stimulating demand at home through higher public works spending. He also has promised to push ahead with politically tough reforms needed to sustain growth in the longer term, though such efforts have not made much headway in the past.

Trade with the United States and major Asian trading partners rose early this year as the global recovery strengthened and the economic impact of friction with China over a territorial dispute appeared to recede. But trade with European countries remained weak, with a 6 percent decline in exports from a year earlier. Imports from Western Europe climbed 6.3 percent.

Exports to the United States jumped 11 percent from the year before to 839.8 billion yen ($8.97 billion), while imports rose 5.8 percent to 521.1 billion yen ($5.6 billion). That boosted Japan's surplus with the U.S. by 20 percent from a year earlier to 318.7 billion yen ($3.4 billion)

Exports to China climbed 3 percent but imports also surged, leaving a deficit of 654.6 billion yen ($7 billion), up 11 percent from the year before.

Delta employees earn $372M in profit sharing

GUAM/SAIPAN – Delta Air Lines will pay $372 million in earned profit sharing as part of the company's commitment to recognize its 80,000 employees for their crucial role in achieving financial and operational goals in 2012. Employees' individual payouts will equal 6.67 percent of their eligible 2012 earnings.

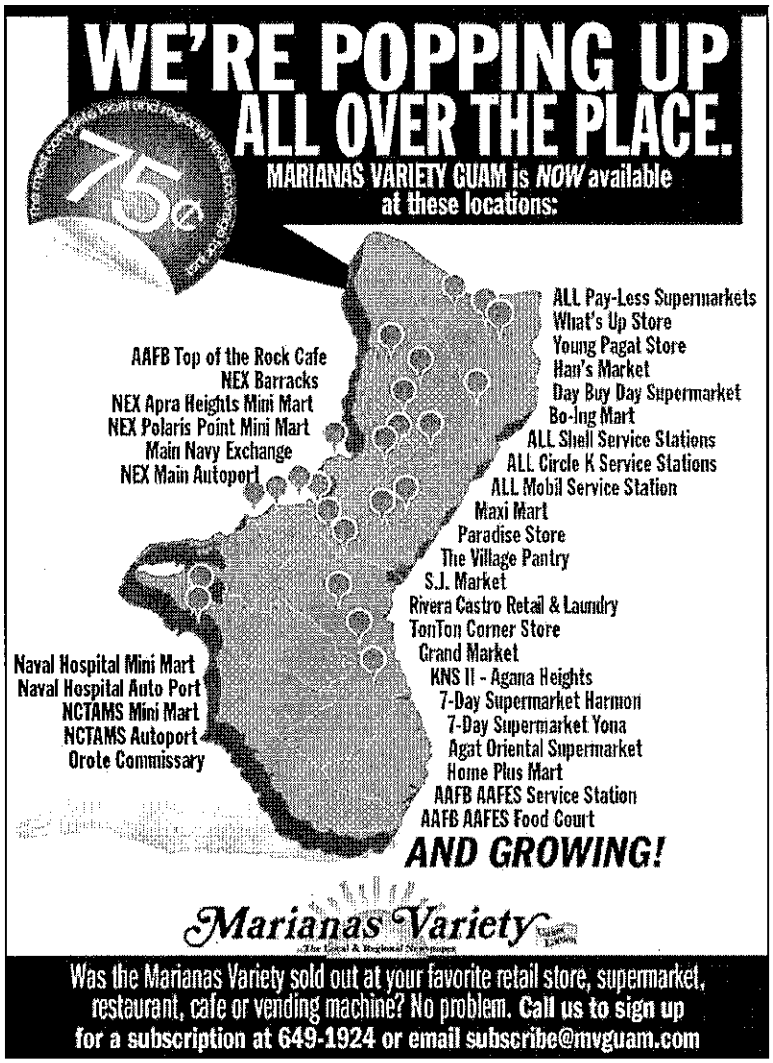
"This year's profit sharing payment is a reflection of the hard work and dedication Delta people have shown in delivering what our customers have come to expect – great operations and service," said Delta CEO Richard Anderson. "Profit sharing is not only a demonstration of appreciation for employees' hard work in 2012, it's an investment in improving our customer experience on Delta now and in the future."

Along with base pay, Delta's additional compensation elements like the Delta Annual Profit Sharing Plan and "Shared Rewards" program, which pays monthly bonuses for meeting corporate operational goals, are designed to allow employees to earn more when the company performs well. In 2012, Delta employees earned $91 million in "Shared Rewards," which, combined with profit sharing, results in a total of $463 million in performance pay for 2012. The company has paid out more than $1.1 billion in profit sharing and "Shared Rewards" over the past three years.

Boeing close to fixing Dreamliner battery

NEW DELHI (Reuters) – Boeing Co. has found a way to fix battery problems with its grounded 787 Dreamliner jets which involves increasing the space between cells, a source familiar with the U.S. company's plans told Reuters.

"The gaps between cells will be bigger. I think that's why there was overheating," said the source, who declined to be identified because the plans are private.



The 50 Dreamliners in commercial service were grounded worldwide last month after a series of battery-related incidents including a fire on board a parked plane in the United States and an in-flight problem on another jet in Japan.

Until the Dreamliner is cleared to fly again, Boeing will be starved of delivery payments.

The logical solution for Boeing would be to install ceramic plates between each cell and add a vent to the battery box, Kiyoshi Kanamura, a professor at Tokyo Metropolitan University who has conducted research with several Japanese battery makers, told Reuters on Tuesday.

Earlier on Wednesday, the chairman of state-run Air India said Boeing is hopeful of getting the Dreamliner back in service by early April.

"They said that these planes should start flying again from early April. They can't be sure but they are hopeful," Rohit Nandan said.

GWIB
PUBLIC NOTICE

The Guam Workforce Investment Board will hold its Regular Monthly Meeting on **Thursday, February 28, 2013** at **4:00 p.m.** at the GDOL/AHRD Conference Room, 3rd floor, GCIC Building in Hagåtña.

For more information, or for special accommodations, please contact Joleen Santos at 300-4385/4501 or email joleen.santos@dol.guam.gov

This activity is solely supported by the Agency for Human Resources Development

The Honorable EDDIE B. CALVO Governor
A.B. WON PAT
The Honorable RAY TENORIO Lt. Governor

PUBLIC NOTICE

The Board of Directors of the A.B. Won Pat International Airport Authority, Guam (GIAA) will convene its Regular Board meeting on Thursday, February 28, 2013 at 3:00 p.m. in Terminal Conference Room No. 3. In addition to regular matters, pursuant to 5 G.C.A §8111(c)(2), Executive Session will be held to discuss pending litigation to which GIAA is a party. Parking is available in the Public Parking Lot.

For special accommodations or agenda items, please call the Board Office at 642-4717/18.

Marshalls Energy Company going after 'power thieves'

By Giff Johnson
For Variety

MAJURO – The Marshalls Energy Company has launched a campaign to root out electricity cheaters.

"We may not catch you now," said Marshalls Energy Company General Manager David Paul, "but we will definitely catch you."

"We are inventorying our meters and meter numbers to update our system," Paul said. These inspections are already uncovering numerous instances of meter tampering by local residents.

The initial survey last week found more than 25 residences cheating on power, Paul said. He expects the number to go up as utility crews inspect all meters on Majuro in the coming weeks. As part of its campaign to discourage meter tampering, the utility published a notice in the Feb. 22 edition of the Marshall Islands Journal, titled "Illegal hookups – Names of Shame," and named 28 customers.

"We have a newly formed department called the Meter Inspection Team," Paul said. He warned power cheaters and people considering tampering with their meters to beware. "They're out there (the Meter Inspection Team) and you never know but they are watching you," he said.

He encouraged anyone who has illegally tampered with their meter to immediately correct the problem. Anyone caught tampering with their meter is subject to immediate disconnection, a $1,000 fine and a $100 reconnection fee.

Students frustrated over online courses

By Thomas Lee A. Manglona II
Marianas Variety
Junior Reporter

ROTA – The CNMI Public School System's $9 million deficit triggered the launch of online courses for public high school students last school year. Students from Dr. Rita H. Inos Jr./Sr. High School (RHI) say they are frustrated with online courses and want to return to the traditional system of learning from teachers in the classroom.

RHI Sophomore Kelina Hocog said," I find it really challenging because I'm the type who needs someone to teach me face to face instead of me doing it on my own. I am not learning. It's like they just throw work at us and we have to do it on our own without guidance."

The Public School System makes most of its classes available online because of the shortage of teachers. The shortage is more evident at RHI where a large number of students expressed dissatisfaction with the online program because they could not get their questions answered promptly. Students also complain that on many occasions online assignments are not clear and immediate help is not available.

CUC contracts IT&E for call center service

By Junhan B. Todeno
junhan.todeno@mvariety.com
Variety News Staff

SAIPAN – Commonwealth Utilities Corp. CFO Charles H. Warren said they have recently contracted IT&E to provide call center service.

The services, he said, are available 24 hours a day, every single day of the week.

The program is in line with CUC's "goal of improving customer service and access to CUC departments," he said.

Warren said any CUC department and division, including trouble calls, can now be reached by calling 670-664-4CUC.

He said calls will be answered by a live operator, and will either be handled directly or connected to the appropriate CUC employee.

CUC acting Executive Director Alan W. Fletcher said they are still in the trial run for the online bill payment and payment via phone program.

He said service orders will soon be dispatched electronically to field operation crews via tablets, a feature of the new customer information system.

CUC has an ongoing water system improvement project in areas across Northern Marianas College on Chalan Msgr. Guerrero Road; along ChalanTun Herman Pan Road by Herman's Bakery; and near Dandan Elementary School on Dandan Road.

PROGRAMMING SCHEDULE

Week of Feb. 25 - Mar. 3

PBS weekly programming schedule brought to you by Marianas Variety

To view the entire month's schedule visit pbsguam.org

MONDAY

6:00	Sesame Street
7:00	Curious George
7:30	The Cat in the Hat Knows A Lot About That!
8:00	Super Why!
8:30	Dinosaur Train: Submarine Adventure
9:00	Sid the Science Kid
10:00	Martha Speaks
10:30	Arthur
11:00	Wild Kratts
11:30	WordGirl
12:00	Cyberchase
12:30	The Electric Company
1:00	Washington Week
1:30	Need to Know
2:00	Religion & Ethics Newsweekly
2:30	Tavis Cooking with Bernie Sibe
3:00	This Old House Hour
4:00	American Masters "Sister Rosetta Tharpe: The Godmother of Rock & Roll"
5:00	Nova "Murder at Cluny"
7:00	Masterpiece Classic "Downton Abbey Series 3"
9:00	Masterpiece Contemporary "Page Eight"
11:00	Austin City Limits "Esperanza Spalding" (58 minutes)

TUESDAY

6:00	Clifford the Big Red Dog
6:30	Wild Kratts
7:00	Arthur
7:30	Martha Speaks
8:00	Curious George
8:30	The Cat in the Hat Knows A Lot About That!
9:00	Dinosaur Train: Submarine Adventure (Special)
9:30	Dinosaur Train
10:00	Sesame Street
11:00	Daniel Tiger's Neighborhood
11:30	Sid the Science Kid
12:00	WordWorld
12:30	Barney & Friends
1:00	Caillou
1:30	Daniel Tiger's Neighborhood
2:00	Super Why!
2:30	Dinosaur Train: Submarine Adventure (Special)
3:00	The Cat in the Hat Knows A Lot About That!
3:30	Curious George
4:00	Arthur
4:30	WordGirl
5:00	Wild Kratts
5:30	The Electric Company
6:00	Martha Speaks
6:30	Curious George
7:00	PBS NewsHour
8:00	Antiques Roadshow "Myrtle Beach" (Hour One)
9:00	Make Mine Music "Peter and the Wolf"
10:00	Independent Lens "All Watched Over Sorry"
11:30	Need to Know "The Struggle for a Country" (Documentary)

WEDNESDAY

6:00	Clifford the Big Red Dog
6:30	Wild Kratts
7:00	Arthur
7:30	Martha Speaks
8:00	Curious George
8:30	The Cat in the Hat Knows A Lot About That!
9:00	Super Why!
9:30	Dinosaur Train
10:00	Sesame Street
11:00	Daniel Tiger's Neighborhood
11:30	Sid the Science Kid
12:00	WordWorld
12:30	Barney & Friends
1:00	Caillou
1:30	Daniel Tiger's Neighborhood
2:00	Super Why!
2:30	Dinosaur Train
3:00	The Cat in the Hat Knows A Lot About That!
3:30	Curious George
4:00	Arthur
4:30	WordGirl
5:00	Wild Kratts
5:30	The Electric Company
6:00	Martha Speaks
6:30	Curious George
7:00	PBS NewsHour
8:00	Makers: Women Who Make America
11:00	Charlie Rose (60 minutes)

THURSDAY

6:00	Clifford the Big Red Dog
6:30	Wild Kratts
7:00	Arthur
7:30	Martha Speaks
8:00	Curious George
8:30	The Cat in the Hat Knows A Lot About That!

The Honorable
EDDIE B. CALVO
Governor

The Honorable
RAY TENORIO
Lt. Governor

PUBLIC NOTICE

The Board of Directors of the A.B. Won Pat International Airport Authority, Guam (GIAA) will convene its Regular Board meeting on Thursday, February 28, 2013 at 3:00 p.m. in Terminal Conference Room No. 3. In addition to regular matters, pursuant to 5 G.C.A §8111(c)(2), Executive Session will be held to discuss pending litigation to which GIAA is a party. Parking is available in the Public Parking Lot.

For special accommodations or agenda items, please call the Board Office at 642-4717/18.

(This ad paid for by GIAA)

Doc. No. 35GL-19-0628.*

MINUTES OF THE BOARD OF DIRECTORS REGULAR MEETING
3:00 p.m., Tuesday, January 29, 2013
GIAA TERMINAL CONFERENCE ROOM #3

I. CALL TO ORDER AND ATTENDANCE

Vice Chairman Francisco G. Santos called the A.B. Won Pat International Airport Authority, Guam (GIAA) regular meeting to order at 3:06 p.m. The presence of Directors is noted as follows: Rosalinda A. Tolan; Martin J. Gerber; Edward G. Untalan; Lucy M. Alcorn, and Jesus Q. Torres. Also present were Peter Roy Martinez, Acting Executive Manager, Carlos P. Bordallo, Acting Comptroller, Frank R. Santos, Business and Financial Consultant, Janalynn C. Damian Esq., and Michael A. Pangelinan Esq., Legal Council. The Vice Chairman welcomed the presence of Airport Tenants, stakeholders, and members of the public who are noted in a sheet made as an attachment to the minutes.

The Vice Chairman welcomed new Board Member Edward G. Untalan, stating that he would be an asset to the airport. Board Members and all who were present applauded and welcomed Mr. Untalan.

II. APPROVAL OF AGENDA

The Vice Chairman suggested that a motion be made to amend the agenda to include election of new officers, and that the election take place before the approval of the minutes. Director Torres added that the Board may want to consider entertaining a Memorandum from the Vice Chairman regarding suggested Standing Committees. As there were no objections, Director Torres made motion to amend the agenda to add the Nomination and Election of Officers, and the Establishment of Board Standing Committees; seconded by Director Tolan; motion carried.

- Nomination and Election of Officers

Director Torres made a motion to nominate and elect Vice Chairman, Francisco G. Santos as Chairman of the Board. Vice Chairman called for any other nominations. As there were no other nominations, Director Untalan seconded the motion and was unanimously approved.

Director Gerber made motion to nominate and elect Director Torres as Vice Chairman, seconded by Director Untalan; motion carried. The newly elected Chairman stated that it is an honor to be elected Chairman, and thanked the Board for giving him the opportunity to lead.

- Establishment of Board Standing Committee

In order to open dialogue with management on various Airport issues, Chairman Santos suggested for the Board to consider establishing committees as noted in the memorandum to the Board. The following committees were recommended:

1. Finance
2. Capital Projects
3. Personnel
4. Tenant Relations
5. Air Service Development
6. Operations

After some discussion, it was suggested that the following Board Members will take charge of chairing the respective committees:

1. Finance – Director Edward Untalan
2. Capital Projects – Director Martin Gerber
3. Personnel – Director Linda Tolan
4. Tenant Relations – Director Lucy Alcorn
5. Air Service Development
6. Operations – Vice Chairman Jesus Torres

It was noted that the Air Service Development Committee remain vacant until a later time. Vice Chair Torres made motion to approve suggested committees and their respective Chairpersons, seconded by Director Gerber; motion duly carried.

III. APPROVAL OF MINUTES

A. November 27, 2012, Board Regular Meeting
B. December 18, 2012, Board Special Meeting

Director Tolan made motion to approve both the regular meeting minutes, and the special meeting minutes, subject to correction, seconded by Director Gerber; motion carried.

IV. CORRESPONDENCE

No correspondence presented.

V. MATTERS FOR BOARD RATIFICATION/APPROVAL

A. Approval of GIAA FY12 Independent Financial Audit Report by Ernst & Young

Chairman Santos announced that the Airport's FY12 audit had been completed and introduced Mr. Jim Whitt from Ernst & Young LLP, (E&Y) who, together with the E&Y team has put together the results of the audit.

Mr. Whitt thanked the Airport Accounting Department and all other divisions for the excellent cooperation given to E&Y during the audit process. He preceded with a power point presentation of the audit results. At the end of the presentation, the Chairman thanked Mr. Whitt for the outstanding presentation and asked that E&Y continue to provide the airport with good recommendations.

The Acting Executive Manager noted that assistance of the Public Auditor's office was received to get the audit completed, and recognized the Airport's Accounting Division for their role in getting everything prepared. Director Untalan, made motion to approve the FY12 Audit, seconded by Director Tolan; motion carried.

B. Approval of Award for Independent Airport Consultant(s) RFP No. GIAA-004-FY13

Board action is requested to approve the ranking results based on the evaluation process performed through the Request for Proposals (RFP) No. GIAA-004-FY13. Acting Executive Manager stated that a total of 11 firms showed interest by obtaining packages. Only one firm responded, submitting a proposal by the deadline. The sole firm selected is as follows:

1. Leigh Fisher

The Acting Executive Manager went on to report that the Independent Airport Consultant(s) agreement will be funded from the approved O&M Budget for Fiscal Year 2013. Management recommended that the approval of the ranking results and the contract be awarded to Leigh Fisher, as the sole ranked proposer. Vice Chairman inquired about the number of firms that submitted proposals, if they were off-island firms, and suggested that in order to provide services to the airport, that they be authentic. Director Gerber made motion to approve management's recommendation, seconded by the Vice Chairman; motion carried.

C. Approval of Award for Air Service Development Plan RFP No. GIAA-001-FY13

Management has requested that the Board take action to approve the ranking results based on the evaluation process performed through the Request for Proposals (RFP) No. GIAA-001-FY13. Acting Executive Manager presented the summary stating that the RFP was advertised in November. A total of eleven firms showed interest, with two submitting proposals by the deadline. After an evaluation was completed, the selected firms in order of ranking are as follows:

1. Airport Strategy & Marketing Ltd. (ASM)
2. Ascend Worldwide Limited

Management recommended that the approval of the ranking results and the contract be awarded to Airport Strategy & Marketing Ltd. (ASM), being the highest ranked proposer. Vice Chairman asked if either company were local, and if they had completed airport work locally. Mr. Santos replied stating that both are off-island companies, and that ASM had performed services for the airport, as well as CNMI. Mr. Santos also noted that ASM is a global, U.K. based company, and that Ascend Worldwide Limited is based out of Hong Kong. Vice Chairman noted that the company chosen will be involved in intensive activities to promote the airport in the Pacific and Asian regions, therefore needs to be skilled in that area, in order to generate activity and to lure other carriers.

Acting Executive Manager mentioned that he attended, along with Director Gerber and representatives from GVB, a Routes Asia Conference where meetings were also held with the ASM group. He added that through these meetings, which included various airlines, there were nine different companies that had expressed interest in Guam, two of them being Jeju Air, and Eva Air.

At this time Chairman welcomed the presence of Director Alcorn.

Vice Chairman Torres made motion to approve the Air Service Development Plan, awarding the project to Airport Strategy & Marketing Limited; seconded by Director Gerber; motion carried.

D. Ratification of Quarterly Travel

Director Untalan inquired if it is normal to ratify the Quarterly Travel report, or if the Board takes a look at the quarters of upcoming travel. Director Alcorn responded, stating that the Board ratifies the travel, after it has been approved by the Chairman at his discretion. Director Gerber asked if there were still a travel calendar. Management responded that the travel calendar is submitted during the budget proposal to the Board. Vice Chairman Torres made motion to ratify the quarterly travel report from October – December 2012, seconded by Director Alcorn; motion carried.

E. Ratification of Disbursements

Vice Chairman inquired about the payments paid out to Sumitomo Mitsui Construction Co. Ltd. for Runway 6L-24R totaling over $750, 000 and if it is part of the Instrument Landing System project (ILS). Mr. Santos responded that the runway is closed but departures are currently being allowed on the runway; the Instrument Landing System project is expected to be completed in April 2013, however the airport awarded the Runway Rehabilitation project for the same runway. The plan is that the runway will be

closed during construction, but will open for departures only during windows of opportunity. Mr. Santos went on to explain that ILS serves runway 6L, but the Rehabilitation project covers both Runway 6L and the other end Runway 24R, the entire runway will be rehabilitated. The Runway Rehabilitation project is awaiting approval from FAA, upon approval, a notice to proceed will be issued; the project is expected to be completed by 2014.

Director Untalan made a motion to ratify payments above the $50,000.00 threshold made to vendors for the period of November 27, 2012 – January 25, 2013, seconded by Director Gerber; motion carried.

VI. OLD BUSINESS

A. Executive Manager's Report

The Acting Executive Manager presented updates on various matters relating to airlines including Cebu Pacific Air, a Philippine based carrier's application to provide scheduled flights between Guam and Manila. Approval by the U.S. Department of Transportation was made November 18, 2012, and service is planned to start in April 2013.

Star Flyer, based in Kitakyushu, will operate Charter flights from Kitakyushu Airport to Guam and Saipan during the summer 2013. Acting Executive Manager reported that Daisy S. Sablan, Station Manager for Saipan Delta Airlines has now been appointed Station Manger for both Guam and Saipan. GIAA and Japan Airlines (JAL) have been finalizing plans for a JAL flight crew training on Guam. Pilot training will commence on Guam in December 2013.

Acting Executive Manager announced that Guam Airport and GEDA will be presenting a briefing to a Standard & Poor's group on February 6, 2013 in preparation of the Airport's plan to refinance the 2003 Bonds. Acting Executive Manager went on to say that a listing of the Airport's goals and objectives, "Go 2013" has been compiled and shared with the Governor's Office and media, and a report of the 2012 accomplishments has been issued detailing the Airport's milestones over the past year which are attached to the report.

Director Tolan inquired if renovations to the Airport's restrooms would be part of the "Go 2013" list of goals and accomplishments, and recommended that the upgrade of restrooms be under Services and Community Engagement area in the that list.

B. Financial Report

For the Board's information, Acting Comptroller Carlos Bordallo presented the financial report as of December 31, 2012. Mr. Bordallo noted that the power bill has dropped significantly.

Director Untalan inquired about how much the Airport is expected to receive this year in grants. Mr. Santos replied that the amount should approximately be seven to eight million in grants.

C. Legal Counsel's Report

Legal Counsel recommended that discussions regarding litigation matters be reported during Executive Session. The Board had no objection.

D. Tenant Matters

No Tenant Matters were reported.

E. Status on Capital Improvement Programs

Mr. Frank Santos presented the UDO analysis.

VII. NEW BUSINESS

No New Business.

VIII. EXECUTIVE SESSION

The Chairman announced that the Board will recess and convene Executive Session after the recess. Director Tolan made motion to recess and convene Executive Session after the recess, seconded by Director Alcorn; motion carried. The board recessed at 4:17 p.m.

After recess, the meeting convened at 4:37 p.m. Chairman stated that no Executive Session would be held at this time.

IX. PUBLIC COMMENTS

The Vice Chairman called upon any public member wishing to make comments. There was no response.

X. ADJOURNMENT

Director Tolan made a motion to adjourn the meeting, seconded by Director Alcorn; motion carried. The meeting adjourned at 4:37 p.m.

Respectfully submitted,

Amanda O'Brien-Rios
Board Secretary

APPROVED:

OTHER TRANSACTION AGREEMENT

BETWEEN

DEPARTMENT OF HOMELAND SECURITY
TRANSPORTATION SECURITY ADMINISTRATION

AND

A.B. WON PAT INTERNATIONAL AIRPORT AUTHORITY

RELATING TO

A.B. WON PAT INTERNATIONAL AIPORT
Checked Baggage Recapitalization Screening Design Services Project

---

Negotiated by the TSA pursuant to
Aviation and Transportation Security Act, Pub. L. 107-71, 115 Stat. 597
49 U.S.C. §114(m)(1) and 106(l)(6) and

HSTS04-13-H-CT1045

ARTICLE I – PARTIES

The parties to this Other Transaction Agreement (OTA or Agreement) are the U.S. Department of Homeland Security, Transportation Security Administration (TSA) and the A.B. Won Pat International Airport Authority, Guam (Aiport Authority) as owner and operator of the A.B. Won Pat International Airport, Guam (GUM). The TSA and the GUM agree to cooperate in good faith and to perform their respective obligations in executing the purpose of this Agreement.

ARTICLE II – LEGAL AUTHORITY

This Agreement is entered into under the authority of the Aviation and Transportation Security Act, Pub. L. 107-71, 115 Stat. 597, specifically 49 U.S.C. § 114(m)(1) and 106(l)(6), which authorizes other transactions.

ARTICLE III – SCOPE

Objectives

The purpose of this Agreement is to set forth the terms and conditions, as well as establish the respective cost-sharing obligations of the TSA and the GUM with respect to the design services necessary to implement the TSA Recapitalization effort at A.B. Won Pat International Airport. The design services will result in 100% drawings and specifications, and will be submitted to TSA for review in accordance with the published TSA Planning Design Guidelines and Design Standards (PGDS) Version 4.1. http://www.tsa.gov/research-center/airport-checked-baggage-guidance-materials

The Aiport Authority will be responsible for developing various cost-effective solutions to replace the aging Explosive Detection System (EDS) machines currently deployed at the airport, while minimizing the impact to operations and reducing the number of EDS by using higher throughput technology units (as appropriate). These solutions will be offered by establishing a current and future baggage screening rate to allow TSA to consider the optimum solution and act utilizing all cost factors from the analysis.

Background

The Electronic Baggage Screening Program (EBSP) of the Transportation Security Administration monitors the status of its existing EDS equipment to ensure compliancy, functionality and efficiency. The TSA Headquarters keeps the following detailed, historical records relating to each EDS machine: age, maintenance logs, performance (rate), technical obsolescence, and local TSA reported issues, among others. When triggered by one or more of these factors, an examination of the system becomes warranted and TSA develops a modification plan to correct any outstanding conditions. The TSA has established the Recapitalization Program to address these needs.

- **Recapitalization** is the replacement of EDS equipment that has reached the end of its useful life. Typically, such EDS machines will be replaced with a newer model of EDS machine that has similar throughput and capabilities. The EDS replacement

may include some minor modifications to the existing conveyor shunts and Programmable Logic Controllers (PLC) programming to foster the EDS machine placement and operation. NOTE: Baggage Handling System (BHS) modifications that extend beyond the scope of work of this design OTA are cPSPsified as "Optimization".

Typically, the aging CTX 9000 EDS machine (400 bph) will be replaced with an MDI 9800 EDS machine (680 bph); and the aging L3 6600 (400 bph) will be replaced with the L3 6700 (540 bph) or the L3 6700ES (680 bph). Although these are typical plans, TSA reserves the right to determine the model of EDS machine(s) to be used in a recapitalization project at an airport. The differences in processing capabilities – when applied to the future needs of the airport - may provide for a "Return on the Investment" (ROI) when the quantity of required EDS is reduced. When applicable, the ROI for the Recapitalization process, which is to be calculated based on a 10 year period, shall be specifically identified by the Aiport Authority.

Project Summary

Deliverables:

1) Establish and provide to TSA the current baggage rates in accordance with the PGDS (v.4.1), Chapter 5. The baggage rate analysis must be for the current year (2013), and forecast the baggage rate 6 years into the future (through 2019). The quantity of EDS machines as a result of Recap will be based on the future demand, which is based on the baggage rate analysis. The report shall include information (graphs, charts, tables, figures, diagrams, etc) about the steps and calculations performed (see PGDS Chapter 5).
2) Provide a report containing a minimum of two solutions (including a cost estimate formatted to the CWE in Appendix F of PGDS) that reflects the most cost efficient solution to recapitalize the EDS units (candidate units and terminal information are included in Attachment 1). The solutions shall take into account the available speed EDS machine options and the costs associated with the following elements:
    a. EDS price
    b. EDS maintenance
    c. Phasing required to install the new EDS units
    d. Necessary modifications to the Baggage Handling System (BHS) (e.g. egress, quick disconnect, accommodations for new EDS machines)
3) The report shall include a cost/benefits analysis comparison, advantages and disadvantages for each solution, and a suggestion as to the best solution proposed. Provide documentation of airport/airline configuration changes that will affect the current and future baggage rates (additional gates, airline moves, additional flights, etc). This documentation shall also include the Aiport Authority master plan, when available.
4) Identify and provide a required statement of work, whenever minor BHS changes are necessary to accommodate the replacement EDS machines. By providing this statement of work, the Aiport Authority is not entitled to reimbursement of the costs of such work unless allowed for in a separate OTA or other agreement with TSA.
5) If major BHS system modifications are needed, the Aiport Authority shall provide a scope of work with a solution to support the increased baggage rate requirement (see "Constraints", paragraph 4). By providing this statement of work, the Aiport Authority is not entitled to reimbursement of the costs of such work unless allowed for in a separate OTA or other

agreement with TSA.

Constraints:

A) The Aiport Authority must comply with the following rules and regulations governing the deliverables to be provided in support of the TSA Recapitalization Program:

1) Reports shall contain ALL supporting documentation. This documentation includes, but is not limited to: flight schedules, airport master plan, arrival distributions applied, equipment demand calculations, cost analysis tools, among others. The TSA reserves the right to request any additional information that is not provided along with the deliverables listed in this section.

2) PGDS where applicable.

3) Contact TSA to obtain the available historical data of the airport in study. The historical data includes:

- Monthly total passengers per checkpoint
- Daily total passengers per checkpoint
- Hourly total passenger per hour
- Bag information reports (a.k.a. FDRS reports) for all the EDS for the ADPM
- Bags per passengers for each airline
- Enhanced Staffing Model results and reports

4) If the existing BHS is unable to sustain the future expected baggage rate, as predicated by EDS machine replacement alone, the system may not be a viable candidate for the Recapitalization effort. If this is the case, please contact the TSA Regional Deployment Coordinator (RDC).
5) If the Field Data Reporting System (FDRS) reports are available and can be provided by the TSA, the Aiport Authority shall use this data to establish the baggage rate demands and contrast it with the flight schedule analysis.
6) When possible, the replacement EDS units shall be of the same type as the existing EDS equipment that is currently deployed at the airport, to eliminate an unnecessary need for a new network system, and any other unnecessary modifications to the system.
7) The Aiport Authority shall examine the existing BHS's status and ensure that the conveyor system is capable of supporting the new EDS rate, independently and as a system. (The intent is that the EDS machines can be fully utilized at their rated capacity). Redundant EDS machines – as per the PGDS – are to be an integral requirement. If major BHS modifications are needed, and only with the RDM's approval, the Aiport Authority may produce a scope of work with a solution to support the increased rate requirements. By providing a scope of work, the Aiport Authority is not entitled to reimbursement of the costs of such work unless allowed for in a separate OTA or other agreement with TSA.

In both solutions provided pursuant to this OTA, the Aiport Authority shall identify the removal

path for the EDS machines, include special requirements, and/or identify limitations or constraints.

This Design Services Project requires the Aiport Authority to provide the architect and engineering services to develop the design and construction specifications to install the inline systems designated for replacement within the Airport Terminal (hereinafter the Design Project). The Checked Baggage Inspection System (CBIS) design needs to address Airport Terminal modifications required to be made to incorporate the new systems to include required changes per the instructions below: The objective of the Design Services Agreement is to provide the design documents and specifications to identify the necessary construction modifications required to install an inline CBIS to enhance the security and baggage screening capabilities at the Airport. The TSA detailed design deliverables for each Design Phase to be provided by the Aiport Authority are outlined per Appendix A of this Agreement. The Design Phases include:

1. Pre-Design Phase: Preliminary Alternative Analysis Report and Preferred Analysis Report
2. Schematic Design Phase: Basis of Design Report and associated deliverables
3. Detailed Design Phase
    a. 30 % Design Submittals and associated deliverables
    b. 70% Design Submittals and associated deliverables
    c. 100% Design Submittals and associated deliverables

4. Construction Bid proposal documentation to include contract solicitation, requirements issued to prospective contractors, bid specifications and other applicable documents that complete the local request for proposal package listed at the CITY's public point of entry.
5. Construction Bid proposal evaluation.

Any future allowable, allocable and reasonable costs for Recapitalization Project construction, project management, construction management, and commissioning/site acceptance testing is anticipated to be funded through a separate Agreement or OTA modification in accordance with Article XIII "Changes and/or Modifications" between the Aiport Authority and the TSA. This Design Agreement shall not be construed to obligate the TSA, in any manner, to provide construction cost funding or obligate the TSA to enter into an Agreement with the Aiport Authority for reimbursement of construction costs related to the Recapitalization Project. TSA funding for the construction portion of the project is subject to the Congressional authorization and appropriation budget process.

ARTICLE IV – COST SHARING AND OTHER RESPONSIBILITIES

1. Capital Costs: The estimated cost of the Design Project refers to the design services to be completed by the Aiport Authority to develop the necessary design documents for the construction modifications needing to be made to the Terminal building and associated baggage conveyor system to support the Recapitalization Project. It does not include the costs of acquisition, delivery or installation of the EDS equipment itself. All work performed by the Aiport Authority pursuant to this Agreement shall be accomplished in accordance with the TSA PGDS in effect at the time this Agreement is executed and in accordance with the applicable local Aiport Authority Building Standards and Criteria. Recognizing the uniqueness of this Design Project, in the event of any conflicts between the provision of the PGDS and this

Agreement, the Parties agree to resolve such conflicts through the design review and Alternative Analysis processes described in the TSA PDGS.

2. The estimated cost for the design services for the Design Project is **$$444,000**. TSA agrees to reimburse the Aiport Authority for (100%) of the allowable, allocable and reasonable costs of the design services for the Design Project, not to exceed a total reimbursement of **$$444,000**. TSA reimburses for allowable, allocable and reasonable costs submitted by the Aiport Authority for reimbursement up to the TSA funded amount of **$$444,000**.

3. TSA will determine allowable and allocable costs in accordance with the OMB Circular A-87 "Cost Principles for State, Local and Indian Tribal Governments" codified at 2 C.F.R. Part 225 (together with Appendices A – D) and Appendix F of the TSA PGDS in effect upon the signing of this Agreement by both parties. TSA will reimburse the Aiport Authority on an actual expense basis supported by one or more invoices submitted by the Aiport Authority in accordance with Article X – Payment. The parties understand and agree that all design costs in excess of **$$444,000**, as well as any costs that are inconsistent with OMB A-87 and the guidance set forth in Appendix F of the TSA PGDS in effect at the time the Agreement is executed, shall be borne solely by the Aiport Authority unless otherwise agreed by the TSA in a modification in accordance with Article XIII – Changes and/or Modifications. Should the TSA contributions of **$$444,000** represent more than the total final TSA allowable, allocable, and reasonable design costs for the Design Project, the Aiport Authority will refund TSA sufficient funds such that TSA's total reimbursement will be no more than the total allowable, allocable and reasonable costs submitted by the Aiport Authority.

4. The Design Project costs which TSA will reimburse are limited specifically to those costs associated with the Design Deliverables mandated by the TSA PGDS, outlined in Appendix A "TSA PGDS Design Deliverables Checklist."

5. Change orders shall not be considered authorization to exceed TSA's reimbursement limit of **$$444,000** for the Design Project, unless the TSA Deployment Manager and TSA Contracting Officer have been notified in advance of the impact the Change Order has on the total cost of the design services for the Design Project, and TSA provides its written approval to proceed with the work identified in the Change Order. Use of contingency funds for the TSA Design Project requires TSA's prior written approval.

ARTICLE V: PROJECT RESPONSIBILITIES

The primary Project responsibilities of the TSA and the Aiport Authority are outlined below. The Design Project will be overseen by the Aiport Authority.

A. TSA Responsibilities

1. Review and concur with the Recapitalization Project design, plans, and specifications for alternative analysis, schematic, 30%, 70% and 100% design packages for the installation of the replacement EDS units in the CBIS based upon the recommendations and guidelines in the TSA PGDS in effect at the time of execution of this Agreement.
2. The Aiport Authority must receive concurrence from TSA at each stage of the design

review in order to proceed to the next design review stage.
3. Consider design alternatives during the design review process in order to achieve the most efficient screening solution for both TSA and the Aiport Authority.
4. Provide the applicable version of the TSA PGDS as well as the EDS equipment specification(s) as required.
5. Advise the type of EDS equipment to be provided at each stage of the design.
6. Provide EDS Original Equipment Manufacturer Technical Advisory Support Services to the Aiport Authority regarding integration of the EDS units into the baggage handling system (BHS).
7. Review and consider requested changes to the design and associated costs.

B. Aiport Authority Responsibilities

1. Except for the responsibilities of the TSA, as outlined above, the Design Project will be managed and overseen by the Aiport Authority. The Aiport Authority, acting through such contractors as it may engage, will provide the engineering and design services necessary for successful completion of the Design Project. The Aiport Authority will provide oversight of such contractor(s) to ensure the design of the Recapitalization Project conforms to the TSA design guidelines identified in the PGDS and is completed within the project milestone schedule.
2. The Aiport Authority must receive concurrence from TSA at each stage of the design review in order to proceed to the next design review stage.
3. Provide a budgetary construction cost estimate with the schematic, 30% design review and subsequent 70% and 100% design reviews for the Recapitalization Project.
4. Obtain all necessary licenses, insurance permits and approvals.
5. Ensure the EDS OEM site planning, installation, integration and networking guidelines are incorporated into the design to ensure operational, maintenance and environmental specifications are met.
6. As part of the design, provide reasonable measures to protect the EDS and ETD equipment from harm, theft, and water intrusion in the screening area.
7. Incorporate heating, ventilation, air conditioning into the design as well as OSHA requirements for those spaces occupied by TSA personnel.
8. Submit monthly progress reports by the 10th of each month to the TSA Deployment Manager via e-mail at OSTCBD@tsa.dhs.gov

ARTICLE VI - EFFECTIVE DATE AND TERM

The period of performance for this Agreement is effective on the date signed by TSA and ends on August 31, 2013 unless earlier terminated by the parties pursuant to Article XV "Termination" as provided herein or extended by mutual written agreement pursuant to Article XIII "Changes and/or Modifications." The period of performance allows the Aiport Authority time to submit a final invoice, close out the Design Project, and address any other issues.

Aiport Authority will establish and provide Design Schedule Milestones to the TSA that allow objective measurement of progress toward completion. Design Schedule Milestones will be provided to the TSA within 30 days after the Aiport Authority has established their design services contract(s). TSA maintains the right to identify any additional milestones to be tracked.

ARTICLE VII - ACCEPTANCE AND TESTING

TSA will deem the Design Project complete upon review and concurrency of the 100% design package for each Terminal. The design must conform to the TSA PGDS in effect at the time that this Agreement is executed.

ARTICLE VIII - AUTHORIZED REPRESENTATIVES

The authorized representative for each party shall act on behalf of that party for all matters related to this Agreement. Each party's authorized representative may appoint one or more personnel to act as an authorized representative for any administrative purpose related to this Agreement, provided written notice of such appointments is made to the other party to this Agreement. The authorized representatives for the parties are as follows:

A. TSA Points of Contact:
Regional Deployment Coordinator/Contracting Officer's Representative:
Shahzan Akber
Mail Stop TSIF #32
Transportation Security Administration
1 Post Office Road
Washington, DC 20528-6032
Phone: 571-227-5645
E-Mail: shahzan.akber@dhs.gov

Contracting Officer:
William Melanson
701 South 12th Street
Arlington, Va. 20598
Phone: 571-227-3266
E-Mail: william.melanson@dhs.gov

Only the TSA Contracting Officer (CO) shall have the authority to bind the Federal government with respect to funding and liability. The TSA Regional Deployment Coordinator (RDC) is also the TSA Contracting Officer Representative (COR) and is responsible for the technical administration of this Agreement and technical liaison with the Aiport Authority and the Airport. The TSA COR is not authorized to change the scope of work, to make any commitment or otherwise obligate the TSA, or authorize any changes which affect the liability of the TSA such as amount or level of funding.

The Aiport Authority must notify the TSA CO and COR in the event that any TSA employee or TSA contracted agent takes any action that may be interpreted by the Aiport Authority as direction which could increase the Design Project costs and could cause the Aiport Authority to seek reimbursement from TSA in excess of the of the TSA's total reimbursement liability as defined in Articles IV and IX of this Agreement.

B. Aiport Authority Points of Contact:

The A.B. Won Pat International Airport Authority Point of Contact for all correspondence is:
Mr. Ada II
P.O. Box 8770
Tamuning, Guam 96931

ARTICLE IX - FUNDING AND LIMITATIONS

TSA will provide funding to the Aiport Authority in an amount not to exceed **$$444,000**. Funds in the amount of **$$444,000** are hereby obligated and made available for payment for performance of this Agreement. Expenses incurred in executing the work identified herein are chargeable to:

PR: 21-13-203-CT1045
Accounting Code: 5CF10XB010D2013SWE044GE013723006200622CTO 5903001505010000 251B

Amount: $$444,000

In the event of termination or expiration of this Agreement, any TSA funds that have not been spent or incurred for allowable expenses prior to the date of termination and are not reasonably necessary to cover termination expenses will be returned and/or de-obligated from this Agreement. TSA's liability to make payments to the Aiport Authority is strictly limited to the amount of funds obligated and available for payment hereunder, including written modifications to this Agreement.

Under no circumstances will TSA be responsible to reimburse the Aiport Authority for profit or the general costs of government. The Aiport Authority may recover the allowable direct costs of the Aiport Authority personnel performing work necessary under this Agreement, as well as the allowable and allocable costs of the contractors hired by the Aiport Authority to perform the necessary work under this Agreement. Profit and overhead costs for the Aiport Authority's contractors performing work on the TSA Project are allowable costs. Submission of a cost allocation plan is required to address any indirect costs, to include Aiport Authority employees, who work on multiple activities that will result in a request for reimbursement under this Agreement. TSA will not be responsible for costs incurred by the Aiport Authority, its contractors or agents to perform work not in compliance with the TSA requirements in this Agreement. The TSA has the right to recoup any payments made to the Aiport Authority if the TSA Contracting Officer determines that the invoices submitted by the Aiport Authority exceed the actual costs incurred, or if the work substantially deviates from the TSA-approved design requirements for the Project pursuant to this Agreement.

TSA will reimburse only for allowable, allocable and reasonable costs in accordance with the OMB Circular No. A-87 in effect on the Effective Date of the Agreement (codified at 2 C.F.R. Part 225) and the allowable/not-allowable costs identified in the TSA PGDS in effect as of the effective date of this Agreement.

ARTICLE X – PAYMENT

The United States Coast Guard Finance Center performs the payment function on behalf of the TSA. For purposes of submission to the Coast Guard Finance Center, the Aiport Authority must submit a completed Summary Invoice. Registration in the System for Award Management (SAM) is mandatory for invoice payment; for information regarding SAM, please refer to https://www.sam.gov/portal/public/SAM/.

Invoices for reimbursable expenses will be submitted every thirty (30) days, as expenses are incurred. For periods in which the Aiport Authority has not incurred a reimbursable expense, an invoice is not required. Expenses are considered to accrue on the date that the Aiport Authority is invoiced from a sub-contractor, supplier, or provider of services. Reimbursement by TSA is conditioned upon submission to TSA of an invoice identifying the Project costs that have been incurred and paid. The TSA intends to make payment to the Aiport Authority within 120 days of receipt of each properly prepared invoice for reimbursement of incurred costs.

In the event that an invoice for reimbursable expenses is not received by the TSA within a twelve (12) month period, the TSA reserves the right to terminate the Agreement per Article XV "Termination."

The TSA reimbursement process consists of two steps.

Step 1 – Summary Invoice Submittal to the U.S. Coast Guard Finance Center for Payment, and at a minimum should contain the following information:

(1) Agreement Number:HSTS04-13-H-CT1045
(2) Invoice Number and Invoice Date
(3) Complete Business Name and Remittance Address
(4) Point of Contact with address, telephone, fax and e-mail address
(5) Tax Identification Number and DUN's Number
(6) Dollar Amount of Reimbursement requested
(7) Signature of the Aiport Authority's authorized representative and the following certification language: *"This is to certify that the services set forth herein were performed during the period stated and that the incurred costs billed were actually expended for the Project."*

The Summary Invoice may be submitted by standard email or by electronic transmission to the following address(s):

Mailing Address: TSA Commercial Invoices
USCG Finance Center
P.O. Box 4111
Chesapeake, VA 23327

Email: FIN-SMB-TSAINVOICES@uscg.mil

Step 2 – Submission of Summary Invoice and Supporting Documentation Submittal to TSA for Approval of Payment:

The TSA CO and the COR are required to review and approve all invoices prior to payment. To aid in this review, the Aiport Authority shall provide a copy of the Summary Invoice along with all receipts, contractor pay requests and other supporting information which specify the vendor, services provided, and products delivered as well as the appropriate identifications that the Aiport Authority has paid these obligations. The Aiport Authority should provide this supporting information simultaneously with Step 1 to expedite the payment process.

The Support Documentation should contain the following items:

- Summary Invoice from Step 1
- An executive summary project overview with the first invoice
- A summary spreadsheet providing a categorized breakdown of the amount invoiced.
- Signed, approved and legible copies of each individual contractor's invoice to include schedules of values statements of work.
  - Copies of contracts and change orders that provide support for the actual work being invoiced
  - Vendor and subcontractor invoices with specific details about services provided
  - Rationale for all allocations or unusual calculations or assumptions
  - Proof of delivery to the project sponsor
  - Copies of subcontractor's invoices if listed on a prime contractor's invoice as a single amount (copies of timesheets and detailed backup not required if descriptions are clear and specific).
- Proof of payment by the Aiport Authority for each invoice in the form of copies of check/warrants, bank wire transfers, or accounting systems transactions

The Summary Invoice and supporting documentation may be submitted by email or mail via CD or paper documents to the below addresses. The final closeout invoice should include proof that all required deliverables have been provided.

Shahzan Akber
Mail Stop TSA TSIF - #32
Transportation Security Administration
1 Post Office Way
Washington, D.C. 20528-6032
Email: OSTCBD @tsa.dhs.gov

William Melanson
C/O Mr. Henry Edquist
Faithful & Gould
1725 Duke Street, Suite #200
Alexandria, VA 22314
Phone: 571-403-8777
Email: Henry.Edquist@fgould.com

Upon completion of the review of the supporting documentation for the Summary Invoice, the TSA CO and the TSA RDM/COR will advise the Coast Guard Finance Center regarding payment of the Summary Invoice.

ARTICLE XI - AUDITS

The Federal Government, including the Comptroller General of the United States, has the right to examine or audit relevant financial records for a period not to exceed three (3) years after expiration of the terms of this Agreement. The Aiport Authority's and its contractors must maintain an established accounting system that complies with generally accepted accounting principles. Records related to disputes arising out of this Agreement shall be maintained and made available until such disputes have been resolved. As used in this provision, "records" includes books, documents, accounting procedures and practices, and other data, regardless of type and regardless of whether such items are in written form, in the form of computer data, or in any other form.

The Aiport Authority shall maintain all records and other evidence sufficient to reflect costs claimed to have been incurred or anticipated to be incurred directly or indirectly in performance of this Agreement. The TSA CO or the authorized representative of the TSA CO shall have the right to examine and audit those records at any time, or from time to time. The right of examination shall include inspection at all reasonable times at the offices of the Aiport Authority or at the offices of the Aiport Authority's contractor(s) responsible for the Project. The Aiport Authority will be required to submit cost or pricing data and supporting information in connection with any invoice relating to this Agreement if requested by the TSA CO.

This Article XI shall not be construed to require the Aiport Authority or its contractors or subcontractors to create or maintain any record that they do not maintain in the ordinary course of business pursuant to a provision of law, provided that those entities maintain records which conform to generally accepted accounting practices.

The Aiport Authority shall insert a clause containing the terms of Article XI – Audits in all its contracts and subcontracts under this Agreement that exceed $100,000.00 (One Hundred Thousand Dollars).

ARTICLE XII – REQUIRED FEDERAL PROCUREMENT PROVISIONS

Competition in the award of contracts or procurements resulting from this Project is strongly encouraged and the Aiport Authority should promote competition to the maximum extent practicable.

The Aiport Authority agrees to include in its contract(s) a provision that the Airport Terminal designs for this Project are required to comply with the TSA's PGDS.

ARTICLE XIII – CHANGES AND/OR MODIFICATIONS

Changes and modifications to this Agreement shall be in writing and signed by the TSA CO and duly executed by the authorized representative of the Aiport Authority. Any modification shall cite this Agreement and shall state the exact nature of the change and/or modification. No oral statement by any person shall be interpreted as modifying or otherwise affecting the terms of this Agreement. The properly signed written modification shall be attached to this Agreement and thereby become a part of this Agreement.

ARTICLE XIV – DISPUTES

When possible, disputes will be resolved by informal discussion between the parties. All disputes arising under or related to this Agreement shall be resolved under this Article. Disputes, as used in this Agreement, mean a written demand or written assertion by one of the parties seeking, as a matter of right, the adjustment or interpretation of Agreement terms, or other relief arising under this Agreement. The dispute shall be made in writing and signed by a duly authorized representative of the Aiport Authority or the TSA. At a minimum, a dispute under this Agreement shall include a statement of facts, adequate supporting data. In the event that the parties are unable to resolve any disagreement through good faith negotiations, the dispute will be resolved by the TSA Assistant Secretary or his or her designee. The parties agree that the TSA Assistant Secretary's decision shall be final and not subject to further judicial or administrative review and shall be enforceable and binding upon the parties.

ARTICLE XV – TERMINATION

In addition to any other termination rights provided by this Agreement, either party may terminate this Agreement at any time prior to its expiration date, with or without cause, and without incurring any liability or obligation to the terminated party (other than payment of amounts due and performance of obligations accrued, in each case on or prior to the termination date) by giving the other party at least thirty (30) days prior written notice of termination. Upon receipt of a notice of termination, the receiving party shall take immediate steps to stop the accrual of any TSA additional obligations that might require payment.

In the event of termination or expiration of this Agreement, any TSA funds that have not been spent or incurred for allowable expenses prior to the date of termination and are not reasonably necessary to cover termination expenses will be returned and/or de-obligated from this Agreement.

ARTICLE XVI – CONSTRUCTION OF THE AGREEMENT

This Agreement is an "other transaction" issued under 49 U.S.C. § 106(l) and 114(m)(1) and is not a procurement contract, grant or cooperative agreement. Nothing in this Agreement shall be construed as incorporating by reference or implication any provision of Federal acquisition law or regulation. It is not intended to be, nor shall it be construed as creation of a partnership, corporation, or other business entity between the parties.

Each party acknowledges that all parties hereto participated equally in the negotiation and drafting of this Agreement and any amendments thereto, and that, accordingly, this Agreement shall not be construed more stringently against one party than against the other.

This Agreement constitutes the entire agreement between the parties with respect to the subject matter hereof and supersedes all prior agreements, understandings, negotiations and discussions, whether oral or written, of the parties.

In the event that any Article and/or parts of this Agreement are determined to be void or otherwise invalid or unenforceable, such Article or portions thereof shall lapse. No such lapse will affect the rights, responsibilities, and obligations of the parties under this Agreement, except

as provided therein. If either party determines that such lapse has or may have a material effect on the performance of the Agreement, such party shall promptly notify the other party, and shall negotiate in good faith a mutually acceptable amendment to the Agreement if appropriate to address the effect of the lapse.

ARTICLE XVII - PROTECTION OF INFORMATION

The parties agree that they shall take appropriate measures to protect all proprietary, privileged, confidential, or otherwise Sensitive Security Information (SSI) that may come into their possession as a result of this Agreement.

A. RELEASE OF TECHNICAL DATA

No Sensitive Security Information (SSI), as defined in 49 CFR Parts 15 and 1520, concerning the scope of this Agreement, shall be published or released to the public without prior written approval of the TSA Assistant Secretary or his or her designee. Guidance regarding SSI may be found in Appendix G, Checked Baggage Screening Equipment Sensitive Security Information Identification Guide", of the TSA PGDS.

B. RECORDS AND RELEASE OF INFORMATION

All Sensitive Security Information (SSI), as defined in 49 CFR Part 1520, shall be handled in accordance with TSA policies and regulations. All employees, contractors, and subcontractors assigned to work under this Agreement are subject to the provisions of 49 CFR Part 1520, Protection of Sensitive Security Information, because they act for, or carry out duties for, or on behalf of the TSA. SSI may not be disclosed except in accordance with the provisions of that rule or where TSA otherwise approves.

C. MEDIA

Neither the Aiport Authority, nor its contractors shall make publicity or public affairs activities related to the subject matter of this Agreement unless written approval has been received from the TSA Office of Security Technology or the TSA Office of Strategic Communication and Public Affairs. The purpose of this provision is to preclude the inadvertent release of SSI to the general public.

ARTICLE XVIII - SURVIVAL OF PROVISIONS

The following provision of this Agreement shall survive the termination of this Agreement: Article XII – Required Federal Procurement Provisions; Article XI – Audits; Article XIV – Disputes, Article XVII – Protection of Information and Article XVIII – Survival of Provisions.

IN WITNESS WHEREOF, the Parties have entered into this Agreement by their duly authorized officers this _____ day of _____, 2013.

APPENDIX B, SCHEDULE OF DELIVERALBES

The following deliverables are required to be submitted by the A.B. Won Pat International Airport Authority.

Item	Submitted To:	Frequency or Due Date
Schedule to include Project Milestones (Design and proposed Construction)	TSA Deployment Manager, OSTCBD@tsa.dhs.gov and TSA Contracting Officer	Within 30 days of the A.B. Won Pat International Airport Authority awarding the design contract. Updates submitted with monthly TSA report.
Pre-Design Phase, Schematic, 30%, 70% and 100% Design deliverables	TSA Deployment Manager, OSTCBD@tsa,dhs.gov	In accordance with the TSA PGDS Deliverables Checklist
Preferred Alternative Package	TSA Deployment Manager, OSTCBD@tsa,dhs.gov	April 2013
30% Design	TSA Deployment Manager, OSTCBD@tsa,dhs.gov	June 2013
Design Contract Schedule of Fees	TSA Deployment Manager, TSA Contracting Officer, OSTCBD@tsa.dhs.gov	Provide upon issuing Design Contract
Copies of the Design Contract(s) and Change Orders	TSA Deployment Manager, TSA Contracting Officer. OSTCBD@tsa.dhs.gov	Change Orders requiring advanced TSA approval.
Monthly Project Report	TSA Deployment Manager, OSTCBD@tsa.dhs.gov	By the 10th of each month. Electronic submission is requested.
Requests for Information or Clarification	TSA Deployment Manager	As needed
Final Invoice	TSA Deployment Manager TSA Contracting Officer, OSTCBD@tsa.dhs.gov	No later than 90 days after completion of the CBIS Construction Project.

The Monthly Project Report is to be submitted by the 10th of each month to the TSA Deployment Lead, and OSTCBD@tsa.dhs.gov and shall address the following:

- Design Schedule in both PDF and "live"/usable format to depict the critical path, baseline and actual date information; predecessors/successors. The Design Schedule will be used for all planned TSA activities.

Attachment 1: A.B. Won Pat International Airport Authority Recapitalize EDS Candidate Units and Terminal Information

Main FIS	**C613, C605**

SIEMENS

Infrastructure & Cities

Chuck Ada
Executive Manager
Antonio B. Won Pat Guam International Airport Authority
355 Chalan Pasaheru, Route 10A
Tamuning, Guam 96931

February 26, 2013

Subject: A.B. Won Pat International Airport– TSA Recapitalization effort under TSA PDGS Version 4.1

Mr. Ada,

Thank you very much for your interest in working with Siemens to assist you in the development of the A.B. Won Pat International Airport Recapitalization effort project. We appreciate this opportunity to provide a proposal for the Baggage Handling System (BHS) engineering services for the above mentioned project.

At this time we are submitting only ROM pricing for the attached scopes of work until a final definition of the scope of work is agreed to. These two **ROM** prices are based on developing each scope of work in series, if a more defined scope is developed for both packages worked in parallel, an overall reduction in total cost could occur.

This proposal is for the baggage handling engineering services required to produce a 100% drawings and specifications for submittal to TSA for review in accordance with the published TSA Planning Design Guidelines and Design Standards (PGDS) Version 4.1 for the recapitalization effort. The pricing and scope of this system will be consider under the Mini In-Line CBIS requirements for PDGS 4.1

The project summary as defined by your Other Transaction Agreement (OTA) with the TSA for the Recapitalization effort at A.B. Won Pat International Airport is outlined below.

Project Summary – Recapitalization Effort

Deliverables:

1) Establish and provide to TSA the current baggage rates in accordance with the PGDS (v.4.1), Chapter 5. The baggage rate analysis must be for the current year (2013), and forecast the baggage rate 6 years into the future (through 2019). The quantity of EDS machines as a result of Recap will be based on the future demand, which is based on the baggage rate analysis. The report shall include information (graphs, charts, tables, figures, diagrams, etc) about the steps and calculations performed (see PGDS Chapter 5).
2) Provide a report containing a minimum of two solutions (including a cost estimate formatted to the CWE in Appendix F of PGDS) that reflects the most cost efficient solution to recapitalize the EDS units (candidate units and terminal information are included in Attachment 1). The solutions shall take into account the available speed EDS machine options and the costs associated with the following elements:
    a. EDS price
    b. EDS maintenance
    c. Phasing required to install the new EDS units
    d. Necessary modifications to the Baggage Handling System (BHS) (e.g. egress, quick disconnect, accommodations for new EDS machines)
3) The report shall include a cost/benefits analysis comparison, advantages and disadvantages for each solution, and a suggestion as to the best solution proposed. Provide documentation of airport/airline configuration changes that will affect the current and future baggage rates (additional gates, airline moves, additional flights,

USA / Infrastructure & Cities / Mobility and Logistics / Infrastructure Logistics

Postal address:
P.O. Box 613209
DFW Airport, TX 75261

Office address:
2700 Esters Blvd Suite 200B
DFW Airport, TX 75261
Tel: 972-947-7100

etc). This documentation shall also include the Aiport Authority master plan, when available.

4) Identify and provide a required statement of work, whenever minor BHS changes are necessary to accommodate the replacement EDS machines. By providing this statement of work, the Aiport Authority is not entitled to reimbursement of the costs of such work unless allowed for in a separate OTA or other agreement with TSA.
5) If major BHS system modifications are needed, the Aiport Authority shall provide a scope of work with a solution to support the increased baggage rate requirement (see "Constraints", paragraph 4). By providing this statement of work, the Aiport Authority is not entitled to reimbursement of the costs of such work unless allowed for in a separate OTA or other agreement with TSA.

Constraints:

A) The Aiport Authority must comply with the following rules and regulations governing the deliverables to be provided in support of the TSA Recapitalization Program:
   1) Reports shall contain ALL supporting documentation. This documentation includes, but is not limited to: flight schedules, airport master plan, arrival distributions applied, equipment demand calculations, cost analysis tools, among others. The TSA reserves the right to request any additional information that is not provided along with the deliverables listed in this section.
   2) PGDS where applicable.
   3) Contact TSA to obtain the available historical data of the airport in study. The historical data includes:
      - Monthly total passengers per checkpoint
      - Daily total passengers per checkpoint
      - Hourly total passenger per hour
      - Bag information reports (a.k.a. FDRS reports) for all the EDS for the ADPM
      - Bags per passengers for each airline
      - Enhanced Staffing Model results and reports
   4) If the existing BHS is unable to sustain the future expected baggage rate, as predicated by EDS machine replacement alone, the system may not be a viable candidate for the Recapitalization effort. If this is the case, please contact the TSA Regional Deployment Coordinator (RDC).
   5) If the Field Data Reporting System (FDRS) reports are available and can be provided by the TSA, the Aiport Authority shall use this data to establish the baggage rate demands and contrast it with the flight schedule analysis.
   6) When possible, the replacement EDS units shall be of the same type as the existing EDS equipment that is currently deployed at the airport, to eliminate an unnecessary need for a new network system, and any other unnecessary modifications to the system.
   7) The Aiport Authority shall examine the existing BHS's status and ensure that the conveyor system is capable of supporting the new EDS rate, independently and as a system. (The intent is that the EDS machines can be fully utilized at their rated capacity). Redundant EDS machines – as per the PGDS – are to be an integral requirement. If major BHS modifications are needed, and only with the RDM's approval, the Aiport Authority may produce a scope of work with a solution to support the increased rate requirements. By providing a scope of work, the Aiport Authority is not entitled to reimbursement of the costs of such work unless allowed for in a separate OTA or other agreement with TSA.

In both solutions provided pursuant to this OTA, the Aiport Authority shall identify the removal path for the EDS machines, include special requirements, and/or identify limitations or constraints.

This Design Services Project requires the Aiport Authority to provide the architect and engineering services to develop the design and construction specifications to install the inline systems designated for replacement within the Airport Terminal (hereinafter the Design Project). The Checked Baggage Inspection System (CBIS) design needs to address Airport Terminal modifications required to be made to incorporate the new systems to include

required changes per the instructions below: The objective of the Design Services Agreement is to provide the design documents and specifications to identify the necessary construction modifications required to install an inline CBIS to enhance the security and baggage screening capabilities at the Airport. The TSA detailed design deliverables for each Design Phase to be provided by the Aiport Authority are outlined per Appendix A of this Agreement. The Design Phases include:

1. Pre-Design Phase: Preliminary Alternative Analysis Report and Preferred Analysis Report
2. Schematic Design Phase: Basis of Design Report and associated deliverables
3. Detailed Design Phase
    a. 30 % Design Submittals and associated deliverables
    b. 70% Design Submittals and associated deliverables
    c. 100% Design Submittals and associated deliverables

4. Construction Bid proposal documentation to include contract solicitation, requirements issued to prospective contractors, bid specifications and other applicable documents that complete the local request for proposal package listed at the CITY's public point of entry.
5. Construction Bid proposal evaluation.

ROM Pricing - Recapitalization Effort

1. We are estimating that this project should take approximately 3 months for the entire scope of work including time for all required site trips (3 trips and 9 man days).
2. Travel expenses have not been included in the project estimate below for any travel. All travel and per diem will be billed at actual expenses plus 10% for processing (airline tickets, hotel, car and $50.00/day per Diem) estimated at approximately $7,500 for project.
3. Simulation of the conveyor system may be required and we have budgetary estimates of $6,500 for a 100% AVI development and deliverable for just the screening matrix.
4. All submittal packages will be delivered on CD on PDF format. CADD drawings can be supplied if requested.
5. This price includes the development of the bid packages with A.B. Won Pat International Airport using the TSA submittal information.
6. Siemens will be working for you as a subcontractor; as such we (Siemens) will want to bid on the project when the project solicitation occurs.
7. Our proposal is based on mutually agreeable terms and conditions between Siemens and A.B. Won Pat International Airport.

Pre-Design Phase	$ 11,700
Schematic Design Submittal	$ 17,550
30% Design Submittal	$ 40,950
70% Design Submittal	$ 23,400
100% Design Submittal	$ 23,400
Construction Bid Proposal Documentation (BHS scope only)	$ 5,000
Construction Bid Proposal Evaluation (BHS scope only)	$ 3,000
Travel and Simulation Budget	$ 14,000
TOTAL	**$ 139,000**

SIEMENS

Project Summary – Optimization Effort

The scope identified below indicates the basis for the work by the designer to achieve a TSA compliant submittal for a 100% EDS; if during the evaluation process it was determined that the scope would produce a submittal for an Optimization of the existing system the following scope would be included. . As the requirement for your project is only a Recapitalization many of the deliverables below are required by both efforts, however the work load for the Optimization effort is larger than for the Recapitalization effort.

A 100% TSA design submittal consists of 5 phases.

- Pre-Design Phase
- Schematic Design Phase
- 30% Design Phase
- 70% Design Phase
- 100% Design Phase

Our design as well as budgetary pricing will incorporate all PDGS requirements for Version 4.1 as well as incorporating all of our "Lessons Learned" from previous projects.

Antonio B. Won Pat Guam International Airport Authority may be required to assist Siemens by providing local information pertaining to operations for the airport and the TSA as well as budgetary construction costs to accommodate the baggage handling system, if required.

Antonio B. Won Pat Guam International Airport Authority and Local Stakeholders may be required to assist Siemens by providing local information pertaining to the operations for the airlines and the TSA.

Pre-Design Phase

Below is the breakdown of the Pre-Design Phase:

Task 1 - Data Collection and Facilities Inventory
Task 2 - Zoning Scheme Definitions and Demand Estimates
Task 3 - Preliminary Screening Alternatives Development
Task 4 - Preliminary Screening Alternatives Evaluation
Task 5 - Preliminary Screening Alternatives Selected
Task 6 - Preliminary Alternatives Analysis Report
Task 7 - Selected Screening Alternative Refinement Task 8 – Staffing Level Estimates for life cycle costs
Task 9 - ROM Evaluations and Life-Cycle Cost Analyses
Task 10 - Preferred Screening Alternative Selection
Task 11 - Preferred Alternatives Analysis Report
Task 12 - Approval/Rejection and Submittal Comments

Deliverables for Pre-Design

The significant deliverables to be submitted by the project sponsor to the TSA during the Pre-Design Phase are listed below in chronological order:

- Preliminary Alternatives Analysis Report. This report should document the assumptions and methodology used to derive the design-year baggage screening demand, the process used to develop alternatives, a description of all alternatives considered, and a list of the preliminary set of alternatives to be carried forward for analysis on a life-cycle cost basis.

- Preferred Alternatives Analysis Report. This report should document the life-cycle cost analysis and basis for selection of the preferred alternative(s) to be further developed in the Schematic Design Phase.

TSA Responsibilities

- As part of the review process during the Pre-Design Phase, TSA Headquarters is expected to provide the project sponsor with the following:
    - Estimates of staffing levels necessary to complete the lifecycle cost analysis in preparing the Preferred Alternatives Analysis Report.
    - Formal approval/rejection and comments on the report submittals.

Schematic Design Phase

Below is the breakdown of the Schematic Design Phase:

Task 1 - Preferred Alternative Refinement.
Task 2 - ROM and the Life-Cycle Cost Refinement.
Task 3 - Program Schedule Refinement.
Task 4 - Indication of Expected Equipment Type.
Task 5 - Basis of Design Report.
Task 6 - Approval/Rejections and Submittal Comments.
Task 7 - ILDT/TSA Meeting.

Deliverables for Schematic Design

The major deliverable for this phase will be a Basis of Design Report, which will add the following elements to Pre-Design Phase work products:

- Detailed Program Requirements, including planning and modeling assumptions and results, a conceptual system overview, and a system evaluation of the preferred alternative which will be the proposed system in the bid documents
- High-level flow-based modeling assumptions and results based on information supplied by TSA, Airport Authority and flight data obtained from OAG .
- Preliminary Concept Plans for the existing BHS, as well as the planned configuration of the in-line CBIS.
- Phasing and Constructability Technical Memoranda documenting project-specific issues for each discipline, including CBIS design and architectural, structural, mechanical, plumbing, electrical, and communications considerations.
- ROM estimate of probable construction costs and operating and maintenance (O&M) costs based on the Basis of Design Report documentation.
- Documentation of stakeholder review and approval.
- Preliminary Project Schedule.
- TSA Responsibilities
    - As part of the review process at the end of the Schematic Design Phase, TSA Headquarters is expected to provide the project sponsor with the following: (A.B. Won Pat International Airport)
    - Preliminary indication of expected equipment type to be delivered. (assumed this has already happened)
    - Formal approval/rejection and comments on the Basis of Design Report. (we only expect comments back on our design assumptions)
- TSA Funding Application we will work with you to submit the application.

30% Design Phase

Below is the breakdown of the 30% Design Tasks:

Task 1 - Based on the TSA-approved Basis of Design Report, refine detailed design.
Task 2 - Refine ROM construction and O&M cost estimates.
Task 3 - Update the preliminary program schedule developed in the Schematic Design Phase.
Task 4 - Obtain an updated indication of expected equipment type(s) from TSA.
Task 5 - Submit the 30% design deliverables specified below.
Task 6 - Receive comments on the 30% design submittals and formal approval/rejection from TSA.
Task 7 - Receive TSA memorandum stating that TSA responses must be addressed and that the CBIS design cannot be bid until after TSA approval of the 100% design submittal.
Task 8 - Conduct a meeting with the ILDT and TSA to review the 30% design submittals.

Deliverables for 30% Design Package

Preliminary Plans for all disciplines, including: – Plan views of outlined conveyors (and rights of ways), mechanical, showing EDS locations and CBRA area(s) – EDS machine removal route as well as all other O&M related access
Inclines/declines

- Conveyor delineations, especially near the EDS machines and in the CBRA
- Conveyor identification (ID) labels
- Elevations of significant areas (floor/wall penetrations, steep gradients, congested areas)
- Top of Bed (TOB) approximate elevations
- Approximate (Master Control Panel) MCP locations
- Demolition and phasing plans
- CBRA plans shall include:
    - Elevations
    - Bag lift-assist operation
    - BRPs in relation to workstations
    - OS bag staging
    - Shrouding materials
    - Flooring material
    - Lighting design
    - Noise reduction design
    - Minimum environmental conditions
- Cross Sections showing the vertical dimensions of the CBIS including equipment removal paths.
- Prepare an Operational Standards Assessment (OSA) including a BHS Simulation Analysis and AVI as described in the PGDS
- Table of contents for CBIS but not limited to specifications for equipment for On-Screen Resolution (OSR) room, CBRA, BSDs, conveyor specifications prior to EDS, insert/removal point of IQ bags, and reference to all of the TSA-furnished screening equipment to be used in the CBIS.
- Screening Equipment Installation Guidelines, documenting the satisfactory accommodation of the selected screening equipment in compliance with the manufacturer's site-installation guide.
- Outline of Reporting Capabilities to be provided by the CBIS (see Appendix A for examples of detailed reports generated.)
- Documentation of stakeholder review and approval, including responses to TSA OSO and OST comments concerning OSR and CBRA areas for TSA review.
- 30% estimate of probable construction and O&M costs.
- Preliminary phasing schedule
- Conveyor manifest showing:

  - Conveyor identifiers
  - Approximate conveyor lengths
  - Approximate conveyor speeds
- A list of EDS equipment, by make, model, and serial number that will be decommissioned after the proposed inline system is operational.

TSA Responsibilities
As part of the review process at the end of the 30% design subphase, TSA Headquarters is expected to provide the project sponsor with the following:

- Updated indication of expected equipment type to be delivered.
- Formal approval/rejection and comments on the 30% design submittals.
- A memorandum from TSA stating that TSA responses must be addressed (if appropriate) and that the CBIS design cannot be bid until after TSA approval of the 100% design submittal.

Meetings

- A meeting will be conducted with the ILDT and TSA at the end of this sub-phase to review the above-mentioned deliverables

---

70% Design Phase

Below is the breakdown of the 70% Design Phase:

Task 1 - Based on TSA-comments on the 30% design submittals, refine detailed design drawings.
Task 2 - Refine ROM construction and O&M cost estimates.
Task 3 - Update the preliminary program schedule developed in the 30% design sub-phase.
Task 4 - Obtain an updated indication of expected equipment type from TSA.
Task 5 - Submit the 70% design deliverables specified below.
Task 6 - Receive comments on the 70% design submittals and formal approval/rejection from TSA.
Task 7 - Conduct a meeting with the ILDT and TSA to review the 70% design submittals.

Deliverables for 70% Design Package

- Updated Basis of Design Report.
- Prepare an Operational Standards Assessment (OSA) including a BHS Simulation Analysis and AVI as described in the PGDS
- 70% design drawings for all disciplines, including:
- Mechanical drawings, including:
  - Motor/drive package locations
  - Catwalk/platforms/ladders and stairways
  - Dimensions of points of intersection
  - Realistic elevations and TOB identifiers, including areas of interest
  - Pertinent details (specific required structural attachments, maintenance space requirements, etc.) Notable interference issues
- Demolition requirements
- Electrical
  - Control station locations
  - E-stop zones (drawings which reflect areas and activating stations)
  - Device locations (photo-eyes, shaft encoders, audio/visual alarms, remote I/O boxes)
  - Final MCP locations and sizing

- EDS machine removal route as well as all other O&M related access
- Control room location (if applicable)
- Demolition and phasing plans
- Any refinements to CBRA plans
- Cross sections showing the vertical dimensions of the CBIS.
- Refinements to the Description of Operations including refinements to the discussion of how the system is intended to work with emphasis on the CBRA
- Preliminary Contingency Plan describing contingency operations in the event of:
    - Screening equipment failure
    - Conveyance equipment failure
    - Loss of utility power
    - Unplanned surges in system demand
- 70% specifications, with specific reference made to the responsibility of the BHS contractor to meet TSA-specified CBIS design performance requirements and current CBIS commissioning requirements for final TSA approval as well as documentation on the reporting capabilities for which the CBIS is designed and related operational procedures (e.g., jam clear procedures).
- Draft Site-Specific Configuration Management Plan,
- Documentation of stakeholder review and approval, including responses to TSA OSO and OST comments concerning OSR and CBRA areas for TSA review.
- 70% estimate of probable construction and O&M costs.
- Refined phasing schedule.
- Conveyor manifest, including:
    - Motor sizing
    - Total amperage requirements
    - Conveyor speeds (refined)
- An updated list of EDS equipment, by make, model, and serial number that will be decommissioned after the proposed in-line system is operational.

TSA Responsibilities
As part of the review process at the end of the 70% design subphase, TSA Headquarters is expected to provide the project sponsor with the following:

- Updated indication of the expected equipment type to be delivered.
- Formal approval/rejection and comments on the 70% design submittals.

Meetings

- A meeting will be conducted with the ILDT and TSA at the end of this sub-phase to review the above-mentioned deliverables.

100% Design Phase

Below is the breakdown of the 100% Design Phase: (All Tasks Required in Recapitalization)

Task 1 - Based on TSA-comments on the 70% design submittals, refine and finalize detailed design drawings.
Task 2 - Refine and finalize ROM construction and O&M cost estimates.
Task 3 - Update the preliminary program schedule developed in the 70% design sub-phase.
Task 4 - Confirm with TSA the exact equipment to be delivered and expected delivery schedule.
Task 5 - Submit the 100% design deliverables specified below.
Task 6 - Receive comments on the 100% design submittals and formal approval/rejection from TSA.
Task 7 - Conduct a meeting with the ILDT and TSA to review the 100% design submittals.

Deliverables for 100% Design Package

- Bid Documents, including: We will include the following with our 100% submittal package; however they will not be titled Bid Documents. We will supply CADD files, excel and word documents for your use.
    - Cover sheet (with noted stakeholders, project locale, title, dates, revision block).
    - Drawing index
    - Legend sheet
    - Mechanical
        - Conveyor manifest sheet(s)
        - Plan views (including catwalk, stairs, egress)
- Elevation views
    - Project specific/standard details
    - Phasing drawings
    - Demolition requirements
- Electrical
    - o Control stations/devices/MCP locations
    - o E-stop zones, with relevant control station
- Demolition and phasing plans
- EDS machine removal route as well as all other O&M related access
- CBRA plans
- Final Description of Operations including the final discussion of how the system is intended to work with emphasis on the CBRA
- Contingency Plans, including diagrammatic depictions of baggage screening contingencies, as well as other screening methods and mitigation measures. A consolidated document shall be provided to TSA describing the conditions that would trigger mitigation measures and protocols for operation. In addition, a directory of all project stakeholders with direct responsibilities for operation of the CBIS should be included in the document. (all contingency plans would come from A.B. Won Pat International Airport with our assistance)
- Project specifications, with specific reference as to the responsibility of the BHS contractor to meet TSA-specified
- CBIS design performance requirements and current commissioning requirements for final TSA approval, including functional specifications of the system.
- Final Site-Specific Configuration Management Plan, including any updates on documentation of the boundaries of the screening system, areas of responsibility among TSA, the project sponsor, and the airlines (if they are not the project sponsor), and procedures for documenting and informing relevant parties of modifications to the CBIS after submission of documentation for the SSTP.
- Documentation of stakeholder review and approval, including responses to TSA OSO and OST comments concerning OSR and CBRA areas for TSA review. (A.B. Won Pat International Airport)
- Final estimate of probable construction and O&M costs.
- Final phasing schedule.
- An updated list of EDS equipment, by make, model, and serial number that will be decommissioned after the proposed in-line system is operational.
- Operations training materials and documentation

TSA Responsibilities
As part of the review process at the end of the 100% design subphase, TSA Headquarters is expected to provide the project sponsor with the following:

- Confirmation of the exact equipment to be delivered and the expected delivery schedule.
- Formal approval/rejection and comments on the 100% design submittals.

Meetings

- A meeting will be conducted with the ILDT and TSA at the end of this sub-phase to review the above-mentioned deliverables.

ROM Pricing - Optimization Effort

1. We are estimating that this project should take approximately 6 months for the entire scope of work including time for all required site trips (approximately 6 trips and 18 man days).
2. Travel expenses have not been included in the project estimate below for any travel. All travel and per diem will be billed at actual expenses plus 10% for processing (airline tickets, hotel, car and $50.00/day per Diem) estimated at approximately $15,000 for project.
3. Simulation of the conveyor system will be required and we have estimated it will be $10,000 for the 30% AVI development and deliverables through 100% design.
4. All drawings will be transmitted to you as *.dwg files for your use under your own boarders if required, all other documents submitted in Microsoft Word, Excel, Projects, etc.
5. This price includes the development of the bid packages with A.B. Won Pat International Airport using the TSA submittal information.
6. Siemens will be working for you as a subcontractor; as such we (Siemens) will want to bid on the project when the project solicitation occurs.
7. Our proposal is based on mutually agreeable terms and conditions between Siemens and A.B. Won Pat International Airport.

Pre-Design Phase	$ 28,000
Schematic Design Submittal	$ 42,000
30% Design Submittal	$ 98,000
70% Design Submittal	$ 56,000
100% Design Submittal	$ 56,000
Travel and Simulation Budget	$ 25,000
TOTAL	**$ 305,000**

We have assumed Siemens terms and conditions for this proposal. Our proposal is valid for 45 days. If you have any questions please call me at anytime at (972) 947-7465 or on my cell at (817) 475-6240.

Sincerely,
Siemens Industry Incorporated

BOARD OF DIRECTORS
EXECUTIVE SUMMARY

INVITATION FOR BID
RESIDENTIAL SOUND INSULATION PROGRAM PHASE 2A
IFB NO. GIAA-C02-FY13
PROJECT NO. GIAA-FY13-02-5; AIP NO. 3-66-0001-69 & 75

February 28, 2013

Purpose

Board action is requested to approve the bid award of the above project under the Invitation For Bid No. GIAA-C02-FY13.

Background

The project is under the Noise Mitigation Grant Program which has an overall objective of providing noise reduction to selected homes mostly affected by the aircraft operations. The project consists of alterations and modifications to privately owned and occupied selected residences. The work includes minor removal/demolition and installation of windows, doors, door frames, interior wall/ceiling treatments, air conditioning system and electrical system modifications.

Procurement Background

The solicitation announcement was advertised through the local newspapers during the months of December 2012 and January 2013. The bid submission deadline and bid opening took place on February 5, 2013.

Fourteen (14) firms/individuals purchased bid package and six (6) firms submitted bid proposal before the submission deadline. All six (6) firms were evaluated and determined that five (5) firms to be acceptable. As required by the Procurement Rules and Regulations, the bids were publicly opened and read aloud in the presence of the bidders.

The submitted bids are presented below:

BIDDER'S NAME	AMOUNT
ProPacific Builder Corp.	$1,914,500.00
BME & Sons Inc.	$1,803,824.85
J&B Modern Tech	$1,981,422.59
Nippo Corporation	$1,787,324.04
Reliable Builders Inc.	$2,239,987.31
Inland Builders Corp.**	$1,639,950.00

**rejected for non compliance

Legal Review

Upon receipt of the required Performance and Payment Bonds, contract documents will be forwarded to legal counsel for review prior to execution and issuance of Notice to Proceed.

Financial Review

The lowest responsive, responsible total bid amount received is $1,787,324.04. Funding for this project is available under the AIP grant no.3-66-0001-69 & 75.

Recommendation

Management recommends the contract award of **$1,787,324.04** to **Nippo Corporation,** who has been determined to have met the standards of responsibility and responsiveness outlined in Guam Procurement Regulations.

February 26, 2013

MEMORANDUM

TO: Charles H. Ada II, Executive Manager

FROM: Franklin P. Taitano, Supply Management Administrator
Victor J. Cruz, Chief Engineer

SUBJECT: Bid Evaluation and Recommendation "Invitation For Bid"
Residential Sound Insulation Program Phase 2A
IFB No. GIAA-C02-FY13
Project No. GIAA-FY13-02-5; AIP No. 3-66-0001-69 & 75

Procurement Background:
The above referenced Invitation For Bid was publicly announced through the local newspaper during the months of December 2012 and January 2013. The bid submission deadline and bid opening took place on February 5, 2013.

Fourteen (14) firms/individuals purchased the bid package and six (6) firms submitted proposals before the bid submission deadline. The bid submittals were opened in the presence of the bidders, members of the public and several GIAA representatives. The bid offer was read aloud by the Supply Management Administrator and tabulated by a Procurement staff.

The results of the bid price submittals are as follows in the order they were received and opened:

BIDDER'S NAME	AMOUNT
ProPacific Builder Corp.	$1,914,500.00
BME & Sons Inc.	$1,803,824.85
J&B Modern Tech	$1,981,422.59
Nippo Corporation	$1,787,324.04
Reliable Builders Inc.	$2,239,987.31
Inland Builders Corp.**	$1,639,950.00

**rejected for non compliance

Bid Analysis and Evaluation:
Pursuant to Section 9 of the Instructions to Bidders, the contract is to be awarded, if it is to be awarded, as soon as possible to the lowest responsible, responsive bidder. To determine the responsibility of bidders, the bid package specified the required documents that bidders must submit with their bid packages. The attached abstract illustrates the inventory of required documents and bidders submittal.

Propacific Builders Corp.: The firm has submitted a total bid price of **$1,914,500.00.** The bidder submitted a copy of their current Guam Contractors License **#5135**. All other required documents are complete and in conformance with the Invitation For Bid.

BME & Sons Inc.: The firm has submitted a total bid price of **$1,803,824.85.** The bidder submitted a copy of their current Guam Contractors License **#3028**. All other required documents are complete and in conformance with the Invitation For Bid.

J&B Modern Tech: The firm has submitted a total bid price of **$1,981,422.59.** The bidder submitted a copy of their current Guam Contractors License **#7487**. All other required documents are complete and in conformance with the Invitation For Bid.

Nippo Corporation: The firm has submitted a total bid price of **$1,787,324.04.** The bidder submitted a copy of their current Guam Contractors License **#7978**. All other required documents are complete and in conformance with the Invitation For Bid.

Reliable Builders Inc.: The firm has submitted a total bid price of **$2,239,987.31.** The bidder submitted a copy of their current Guam Contractors License **#1224, #6519, #5288**. All other required documents are complete and in conformance with the Invitation For Bid.

****Inland Builders Corp.:*** The firm has submitted a total bid price of **$1,639,950.00.** The bidder submitted a copy of their current Guam Contractors License **#1072**. All other required documents are complete and in conformance with the Invitation For Bid. The bidder did not submit the required "Buy American Preferences".

The proposal was submitted to the designer of record, Rim Architects to evaluate and to determine if the proposed materials meet the minimum required specifications. Although the firm submitted all the documents required under this bid, the proposed specification did not meet all the required minimum specifications according to the attached analysis submitted by Rim Architect. **Inland Builders Corp. is deemed to be non-responsive and non-responsible bidder. Therefore, the bid is rejected.

Recommendation:
Pursuant to the guidelines in Item 9 of the Instruction to Bidders, the award of contract will be made to the **lowest responsible, responsive bidder.** Nippo Corporation has been determined to have met the standards of responsibility and responsiveness outlined in the Guam Procurement Regulations and has deemed to be the lowest responsible, responsive bidder.

Therefore, it is recommended that **Nippo Corporation** be awarded the contract in the amount of **$1,787,324.04** for this project.

Should you have any questions or concerns, please call our office at your convenience.

Victor Cruz **Franklin P. Taitano**

APPROVED:

Re: **Residential Sound Insulation Program Phase 2**
Tiyan, Guam
RIM Project No. 09406

Dear Ms. Tara Perez-Steffy,

As requested, we have reviewed the documentation submitted by Inland Builders to justify the use of non-domestic materials (aluminum windows and doors) as provided for in the "Buy American Preferences" provision in the bid documents for the Residential Sound Insulation Program Phase 2. The following is our analysis and recommendations.

1. Inland Builders states as their justification that the "Buy American Preference" provision states that "manufactured products from non-domestic sources are allowed if inclusion of domestic material will increase the cost of the overall project contract by more than twenty-five percent (25%). They then include calculations that show that their bid increased by more than 25%. The problem with their justification is they are just comparing costs with their own bid and not the bids submitted by others on the project. The actual cost that it should be compared to is the bid of the next lowest bidder, Nippo Corporation, who from the documentation is using domestic materials throughout the project. This comparison shows that the overall project contract price would only increase by approximately nine-percent (9%) and based on a level playing field assuming all the other bidders used domestic materials in their bids; Inland Builders would be ranked 5th out of the six bidders.
2. Inland Builders has provided no documentation that the windows and doors will meet the project specifications. In fact, what they have provided has made it dubious in our minds that they will. In the notes of their justification, they state it is noteworthy that the non-domestic windows are not pre-fabricated like the domestic windows. This is noteworthy in the fact that it raises doubts in our minds that the windows will meet the specifications, because the domestic windows are prefabricated in a factory under controlled conditions and that the quality control of the fabrication of the windows is much better, which will lead to a higher quality product.
3. The windows to be approved for use in the project will need to meet the following requirements of the specifications; otherwise our office will never approve them for use on the project.
   a. The windows will need to be certified by a NVLAP certified acoustical testing facility to a minimum of STC-44. Since the windows are to be assembled on Guam, in order to insure that the window conforms to the specification, it would be necessary for the window to be first fabricated on Guam and send to a NVLAP lab for testing to get the results.

Larry S. Cash, CEO | Timothy L. Armour | Scott A. Bohne | James E. Dougherty | Michelle M. Jones | David L. McVeigh
Eric R. Nelson | Phillip L. Noret | Krista R. Phillips | Matthew P. Vogel | Brent L. Wiese | Christine M. Wolke

Results with IMagination

b. The windows need to be impacted tested in accordance with TAS-201 and TAS-202 or ASTM E 1886 and ASTM E 1996, this is an International Building Code 2009 requirement.
c. The windows need to meet the performance requirements for AAMA 101, and the wind load requirements in the specification.
d. There are other requirements such as air infiltration, water leakage, and forced entry that the windows are required to meet.

Based on our analysis, the bid from Inland Builders should be rejected for non-compliance with the "Buy American Preference "provision of the specification, since their justification does not adequately satisfy the requirements to meet that exception. There is also serious doubt that the product that they have proposed to use, will meet the requirements of the specifications. Doing otherwise will call into question the integrity of the whole bid process for the project.

Best Regards,

Phillip Noret, AIA, LEED AP

Recovery Support

GIAA Marketing and Airport Police Protocol worked very closely with GVB, GPD and Adelup to coordinate the return of the families and deceased persons who were part of the tragic attack of tourist in Tumon in February. Coordination necessitated the approvals of TSA with a tailored outbound process to keep the affected travelers away from the harassment of the local and international media swarming the airport. Approved was GPD escort of bus/ambulance from hospital/hotel to airport, Airport Police escort on AOA from Main Gate to Gate 8/9 elevator with check-in and boarding pass issuance by HIS tour operator traveling with outbound passengers. The process was replicated for the following flights:

- **14 Feb.** (Thursday) UA #196 Guam-Narita – 3 pax (3 adults) + 1 nurse escort
- **15 Feb.** (Friday) JAL 942 Guam-Narita –23 pax (18 adults, 2 children, 2 infants, 1 HIS Tour Mgr.) + 1 nurse escort
- **16 Feb.** (Saturday) UA #165 Guam–Fukuoka – 3 pax (2 adults, 1 HIS Tour Staff)
- **18 Feb.** (Monday) UA #196 Guam – Narita – 6 pax (6 adults, including stretcher) + 1 doctor & 1 nurse escort

Pacific Asia Travel Association (PATA) – Board

The Pacific Asia Travel Association (PATA) recently informed GIAA of its nomination to the PATA Board. Executive Manager, Charles H. Ada II, accepted the nomination, which will be placed before the voting membership of PATA for ratification at the PATA Annual Summit from April 25 - 28, 2013 in Bangkok, Thailand. The appointment will be for a two-year term, effective April 28, 2013 at the PATA Annual General Meeting, and will end at the meeting prior to the Annual Conference in April 2015.

ACI Asia Pacific

The 8th Airports Council International (ACI) Asia-Pacific Regional Assembly, Conference and Exhibition will be held in Phuket, Thailand from April 22 through 25, 2013. A delegation from GIAA led by the DEM Martinez, Director Gerber plus 2 Marketing staff will be in attendance, who will staff our exhibit booth. GIAA's presence is critical to push attendance for our upcoming hosting of the 2013 Small and Emerging Markets Seminar from October 8 - 11, 2013. This was announced at the ACI Asia-Pacific Conference in Hyderabad, India, October 2012 building up on the announcement at last year's ACI Asia Pacific's Regional Assembly in Singapore, wherein GIAA Deputy Executive Manager Peter Roy Martinez was appointed First Vice Chair of the Small and Emerging Airports Committee.

AIRLINE ISSUES

Skymark
Skymark is commencing service with charter flights planned to take place between March 14, 2013 and March 23, 2013. In summary, there will be 9 charters between NRT and GUM with B-738 aircraft with a 177-seat configuration. Total seat capacity for the charter flights is 1,593. The key element with Skymark's service is they plan to operate during our non-peak hours with ETAs at 7:35pm and ETDs at 9:40am.

Star Flyer
A Star Flyer technical and operations team met with GIAA division managers during a fact-finding tour conducted mid-November 2012. Star Flyer, based in Kitakyushu, plans to operate charter flights from the Kitakyushu Airport to Guam and Saipan during summer 2013. Kitakyushu Airport operates 24-hours daily, which allows Star flyer to schedule takeoffs in the early morning hours for arrival in the morning, local time.

Delta Air Lines
Daisy S. Sablan has been appointed station manager for Guam and Saipan for Delta airlines. She was previously Saipan station manager for Delta and its predecessor Northwest Airlines. She is well known in the regional aviation arena, having also served as marketing and reservations director for Pacific Island Aviation.

Japan Airlines
GIAA and Japan Airlines (JAL) have been finalizing plans for JAL flight crew training to occur on Guam. JAL pilots will be conducting touch and go and full stop landing operations utilizing B737 and B767 aircraft. Pilot training will commence in December 2013 with approximately 6 cadets on island for training, and will continue through the term ending June of 2015.

Cebu Pacific
Philippine-based carrier Cebu Pacific Air's application with the U.S. Department of Transportation to provide scheduled flights to Guam was approved November 18, 2012, and plans to start service in April 2013. Cebu Pacific will become the third airline to provide scheduled flights between Guam and Manila, joining United and Philippine Airlines. They will provide service under a "wet lease" arrangement, in which aircraft and crew of another airline will be used until the FAA upgrades the airline's Philippine safety rating to Category 1.

"GO 2013" AND 2012 ACCOMPLISHMENTS

The Goals and Objectives for 2013 has been compiled and shared with the Governor's Office and media for reference. Additionally, a report of 2012 Accomplishments has also been issued detailing the Airport's milestones this past year. (Attached).

PROCUREMENT

IFB for Custodial Maintenance

Announced:	January 25, 2013
Pre Bid:	February 6, 2013 10:00am
Submission Deadline:	February 15, 2013 2:00pm

Addendum A
Pre Bid date moved from February 6, 2013, 10:00 a.m. to February 7, 2013, 10:00 a.m.

Addendum B -
Bid inquiries submission deadline moved from February 7, 2013, 5:00 p.m. to February 11, 2013, 5:00 p.m.
Bid submissions deadline moved from February 15, 2013, 2:00 p.m. to March 15, 2013, 2:00 p.m.

IFB: Purchase/Delivery of Airport Police Vehicle

Announced:	January 17, 2013
Pre Bid:	January 24, 2013 10:00am
Submission Deadline	February 5, 2013 2:00 pm

ANNOUNCEMENTS

- A portion of Sunset Boulevard was reduced to one-lane traffic from the period beginning January 28 and ending February 9, 2013, between the hours of 9am through 4pm. The contractor Sumitomo Mitsui Construction Co., Ltd performed necessary trenching work with traffic movement directed by signage and flagmen. Public notification was issued to all media, and an ad notifying the public of the lane closure was printed in the PDN advising motorists to be on the alert for posted signs, directions of flagmen, and to drive cautiously on the heavily traveled Sunset Boulevard.

- Guam Airport and GEDA officials presented a "Credit Update" briefing to a contingent from Standard & Poor's on February 6, 2013, in the GIAA Board Conference room. This is in preparation of the Airport's plan to refinance the 2003 Bonds that would provide capital for much needed projects. The briefing was followed by a tour of the ongoing and planned airport projects throughout our property footprint.

MEMORANDUM

To: Mr. Francisco G. Santos
Chairman
GIAA Board of Directors

From: Carlos Bordallo
Acting Comptroller

Subject: **Operating Results - Revenues and Expenses as of January 31, 2013**

Attached herewith is GIAA's Operating Results Report for the month ending January 31, 2013. This report summarizes the Budgeted versus Actual Revenues and Expenses for the month and year-to-date results ended January 31, 2013.

The key operating results for 4 month(s) of FY 2013 ending January 31, 2013 - (in $000's) are:

CATEGORY	YEAR-TO-DATE				FORECAST FOR FULL YEAR-FY13	
	Budget FY 13 Y-T-D	Actual FY 13 Y-T-D	% Variance Budget vs. Actual		Actual Y-T-D + Remaining FY 13 Budget	% Variance Budget vs. Estimate for Full Year
			Y-T-D Current Month	Y-T-D Last Month		
Total Signatory Revenues	$9,036.7	$9,741.8	7.8%	7.8%	$28,027.3	2.6%
Total Concession Revenues	$3,682.7	$3,762.0	1.2%	4.8%	$10,901.5	0.4%
Total PFC's	$1,982.5	$2,253.2	13.7%	3.9%	$6,246.1	4.5%
Total Other Revenues	$4,717.7	$5,139.4	8.9%	3.1%	$15,554.7	2.8%
Total Operating Revenues	$19,419.6	$20,860.4	7.4%	5.6%	$60,729.6	2.4%
Total Operating Expenses	$15,132.4	$11,301.0	-25.3%	-27.1%	$36,611.0	-9.5%
Net Revenues from Operations	$4,287.3	$9,559.4	123.0%	124.5%	$24,118.6	28.0%
Non-Operating Expenses	$250.0	$173.6	-30.5%	-39.3%	$423.6	-15.3%
Other Available Moneys/other sources of funds	$1,594.4	$1,442.8	-9.5%	-9.5%	$4,631.7	-3.2%
Net Debt Service Coverage	**1.03**	**1.94**	**87.4%**	**91.1%**	**1.69**	**21.6%**

AMERICAN ASSOCIATION OF AIRPORT EXECUTIVES
AIRPORTS COUNCIL INTERNATIONAL
NASAO National Association of State Aviation Officials
TIACA THE INTERNATIONAL AIR CARGO ASSOCIATION

Year-to-date Total Signatory Revenues for the month ending January 31, 2013 are above Budgeted revenues by **7.8%.** Signatory revenue estimates are based on projections submitted by Signatory airlines and adopted in the annual budget.

Year-to-date Total Concession Revenues and Passenger Facility Charges are above budget estimates by **1.2%** and **13.7%,** respectively.

Year-to date Total Other Revenues, inclusive of non-signatory and non-airline revenues, are above the budget estimate by **8.9%.**

Year-to-date Total Operating Revenues Actual of **$20.8M** is **7.4%** above the budget estimate of **$19.4M**.

Year-to-date Total Operating Expenses are below budget by **-25.3%** from budget. Components of this line item include a **-11.8%** decrease in Personnel Service, a **-31.9%** decrease in Contractual Services, a **-46.8%** decrease in Materials & Supplies and a **-100%** decrease in Equipment/Furnishings from budgeted amounts for these respective categories.

The actual year-to-date Net Revenues from Operations of **$9.56M** reflects an increase of **123.0%** over the year-to-date budgeted amount of **$4.29M**.

Finally, our year-to-date results for Debt Service Coverage is at **1.69** versus the requirement of **1.25**.

MINUTES OF THE BOARD OF DIRECTORS REGULAR MEETING
3:00 p.m., Thursday, March 28, 2013
GIAA TERMINAL CONFERENCE ROOM #3

1. CALL TO ORDER AND ATTENDANCE

Chairman Francisco G. Santos called the A.B. Won Pat International Airport Authority, Guam (GIAA) regular meeting to order at 3:06 p.m. The presence of Directors is noted as follows: Jesus Q. Torres, Vice Chairman, Rosalinda A. Tolan; Martin J. Gerber; Edward G. Untalan, and Lucy M. Alcorn. Also present were Charles H. Ada II, Executive Manager, Peter Roy Martinez, Deputy Executive Manager, Carlos P. Bordallo, Acting Comptroller, Frank R. Santos, Business and Financial Consultant, Janalynn C. Damian Esq., and Michael A. Pangelinan Esq., Legal Counsel. The Chairman welcomed the presence of Airport Tenants, stakeholders, and members of the public who are noted in a sheet made as an attachment to the minutes.

2. APPROVAL OF AGENDA

Vice Chair Torres made motion to approve the agenda as presented, seconded by Director Tolan; motion carried.

3. APPROVAL OF MINUTES

A. February 28, 2013 Board Regular Meeting

Director Untalan made motion to approve the minutes, subject to correction, seconded by Director Alcorn; motion carried.

4. CORRESPONDENCE

Chairman called upon Executive Manager to present any correspondence. The Executive Manager informed the Board that in January 2013 the Federal Aviation Administration (FAA) received a letter at the Honolulu Airports District Office regarding allegations in reference to GIAA's Lease Agreement with Pac Air and its operations. Executive Manager went on to say that GIAA has been in extensive discussion with the FAA regarding this issue. In closing, the Executive Manager informed the Board that a letter dated March 27, 2013 was received stating that GIAA did not violate any federal regulations, and the matter is now considered closed.

Copies were provided for the Board's information.

5. MATTERS FOR BOARD RATIFICATION/APPROVAL

A. Approval of Award for Specialty Retail Concession Multi Concepts RFP No. GIAA010-FY12

Chairman Santos disclosed for the record that there have been some media reports relating to the trip to Korea for the inaugural flight of Jeju Air in September 2012, that both the Chairman and Director Tolan attended. Although there were statements of supposed gifts received by the Chairman and Director, he stated that he did not believe there were any ethical violations. However, to avoid the appearance of any wrong doing, and to maintain the publics' confidence and integrity of the solicitation process, the Chairman chose to abstain from participating in any discussions or votes relating to this particular RFP. The Chairman requested the item be chaired by Vice Chair Torres. At this time, Director Tolan also chose to abstain and removed herself from any discussion or vote on this item. As there were no objections from the members, the meeting proceeded with Vice Chairman Torres presiding.

Acting Chairman Torres called for an open discussion regarding the RFP. Legal Counsel, Michael A. Pangelinan informed the Board that after the two Directors abstained, there is still a quorum of four (4) Directors for today's meeting. The Board's By-Laws refer to Robert's Rules of Order to determine how a Board will pass an agenda item, and states that a majority vote will pass an agenda item. The By-Laws also state that the Chairman of the meeting shall only vote if the vote could affect the outcome. Board members discussed and reiterated the voting process and the number of votes needed to pass the agenda item. Director Untalan suggested the Board proceed with the Executive Managers presentation before discussing voting numbers in depth.

Executive Manager informed the Board that the Airport issued a Request For Proposal seeking a qualified concessionaire to develop, construct and operate a high quality specialty retail concession at the main passenger terminal featuring branded merchandise products using exciting and innovative marketing and merchandising techniques to enhance the terminal environment and to appeal to the traveling public. The RFP was advertised in the Pacific Daily News July 19, 23, and 25, 2012; and in the Marianas Variety July 19, 23, and 30, 2012. The deadline to submit proposals was originally September 21, 2012 but was extended to October 17, 2012 due to an amendment to the RFP. The Manager reported that eight (8) firms obtained RFP packages, however only four (4) firms submitted proposals before the established deadline. To maintain the confidentiality requirement of the procurement law, each of the proposers were randomly assigned a letter designation. An evaluation committee was established, and as a result of the tabulation of scores, the order of ranking is as follows:

1. Proposer 'A'
2. Proposer 'D'
3. Proposer 'C'
4. Proposer 'B'

Management requests that the Board of Directors approve the ranking results of the highest ranked proposer, being proposer 'A', and that proposer 'A' be awarded the Specialty Retail Concession Agreement. Acting Chairman Torres called for any Board member that would like to comment or discuss the RFP that the Executive Manager presented. Director Untalan inquired about the random letter designation, to which Legal Counsel Damian responded that the letter designation was in the order of how the proposals were received. Director Untalan asked how it was handled afterwards, and was the evaluation committee and Executive Manager aware of the results? Ms. Damian responded stating yes, the Executive Manager was aware of the evaluation results. Director Untalan went on to ask if there was a third party that assisted the evaluation committee with conducting a review of the financial analysis. The Executive Manager's response was yes, there was a third party that assisted, and it was an off-island consultant. Director Untalan inquired if the off-island consultant gave a recommendation or just provided an analysis? The Executive Manager informed the Board that there was no recommendation, purely analytical. Discussion followed with Acting Chairman Torres questioning the assignment of the random letter designation, leaving the names of the proposers confidential. He stated that the Airport has never done this before, and found the process to be questionable.

At this time, a recess was suggested. Director Untalan made motion to recess and convene the regular meeting after the recess, seconded by Director Alcorn; motion carried. The Board recessed at 3:54 p.m.

After recess, the regular meeting convened at 4:11 p.m.

Director Untalan stated he would like to make a motion that the item be tabled, so that Legal Counsel may be able to review all of the matters that were raised accordingly, seconded by Director Alcorn. Discussion followed with Mr. Pangelinan informing the Board that Counsel would like to do an analysis and come up with a recommendation on how to proceed with this matter. As there were no further discussions, the motion was duly carried.

B. Approval of Board Resolution No. 13-02: Extension of the Agreement for Legal Services with Calvo Fisher & Jacob LLP and the Agreement for Legal Services with Teker Torres & Teker

The Executive Manager stated that item (B) is a Board Resolution relative to consenting to the Extension of the Agreement for Legal Services with Calvo Fisher & Jacob (Legal

Counsel) and Teker Torres & Teker now known as Torres Law Group (Conflict Counsel). Agreements were entered into with both firms in May 2010. Director Tolan inquired on the number of Conflict Counsels providing services to GIAA. Executive Manager replied stating there are currently two (2) Conflict Counsels providing services, Attorney Tom Fisher and Torres Law Group. Ms. Arriola also added that Torres Law Group is on a one (1) year contract and only handle particular matters; unless Conflict Counsel, Tom Fisher has a conflict, in which case Torres Law Group will then provide services. Director Tolan made motion to approve Board Resolution No. 13-02, which extends the term of the Agreement for Legal Services between GIAA and Calvo Fisher & Jacob, LLP for a period of year, commencing on March 23, 2013; and the Agreement for Legal Services between GIAA and Torres Law Group, commencing on March 1, 2013. The motion was seconded by Director Gerber; motion carried.

C. Ratification of Disbursements

Vice Chair Torres made a motion to ratify payments above the $50,000.00 threshold made to vendors for the period of February 27, 2013 – March 26, 2013, seconded by Director Untalan; motion carried.

6. OLD BUSINESS

A. Executive Manager's Report

The Executive Manager presented brief reports on various issues and announcements relating to Airlines, System Upgrades and a number Legislative Issues, to include Bill 60-32; an act to create the "Made in Guam" business incubator program within the GIAA. The incubator program gives opportunities to small businesses to provide "Made in Guam" products at the Airport. The Executive Manager reported that some concerns were raised regarding Bill 60-32, which he had transmitted to Senators and the Oversight Chairman. He went on to state that written testimony will be provided by GIAA during the Public Hearing scheduled for the upcoming Monday. Vice Chair Torres requested for a copy of the written testimony.

The Executive Manager announced that a representative from FAA's Airport District Office will be meeting with Management and Division Heads on April 15 and 16, 2013 to discuss project updates and general compliance. Also, scheduled for April 29, 2013 FAA will conduct their annual certification inspection of Guam Airport facilities; along with reviews of re-certifications, record-keeping and documentation, there will also be inspections of the airfield, runways, aprons and safety areas.

The Manager reported that under the LEO Reimbursement Program, GIAA was awarded $1,051,200.00 to fund three (3) years of services. Effective April 1, 2013, approximately $350,000.00 per year for Airport Police services at the TSA checkpoint.

B. Financial Report

For the Board's information, Carlos P. Bordallo, Acting Comptroller presented the financial report as of February 28, 2013. Director Gerber noted the 80.8% increase over the budgeted amount for the Net Revenues from Operations and commended the Comptroller for the report.

C. Legal Counsel's Report

Legal Counsel recommended that discussions regarding litigation matters be reported during Executive Session. The Board had no objection.

D. Tenant Matters

No Tenant Matters reported.

E. Status on Capital Improvement Programs

Mr. Frank Santos presented the UDO analysis, reporting that the Airport received approval to advertise for Phase 2 of the Runway Rehabilitation Project. A Notice to Proceed is expected to be issued for the Noise Mitigation Project in April 2013, which will be another twenty-eight homes to be sound-proofed. Mr. Santos reported that "Grant Season" is approaching and from May – June GIAA will be working with the FAA with regard to what grants to anticipate for Fiscal Year 2013. Mr. Santos informed the Board that GIAA has been working with GEDA regarding the proposed bond refunding and he will provide a detailed report at the next regular Board meeting. Director Tolan inquired on the Air-conditioning systems and installation, if it was completed. Mr. Santos replied, stating that it is expected to be completed by May 2013.

7. NEW BUSINESS

No New Business presented.

8. EXECUTIVE SESSION

The Chairman announced that the Board will recess and convene Executive Session after the recess. Vice Chair Torres made motion to recess and convene Executive Session after the recess, seconded by Director Tolan; motion carried. The Board recessed at 4:42 p.m.

Chairman Santos called Executive Session to order at 4:59 p.m. Executive Session adjourned at 5:10 p.m., at which time the Board reconvened the regular meeting.

9. PUBLIC COMMENTS

The Chairman called upon any public member wishing to make comments. There was no response.

10. ADJOURNMENT

The Chairman announced that the next regular meeting is scheduled for Thursday, April 25, 2013. Director Untalan made a motion to adjourn the meeting, seconded by Director Tolan; motion carried. The meeting adjourned at 5:14 p.m.

Respectfully submitted,

Amanda O'Brien-Rios
Board Secretary

Police officers plead not guilty in Blue House case

Court jurisdiction debated

By Geraldine Castillo
geraldine@mvguam.com
Variety News Staff

TWO police officers implicated in the Blue House Lounge prostitution and kidnapping case yesterday pled not guilty to a set of new charges contained in a third superseding indictment in Superior Court.

Guam Police Department Officers David Manila and Anthony Quenga appeared for an arraignment before Magistrate Judge Alberto Tolentino and waived a reading of the indictment, pleading not guilty to the charges and requesting a jury of 12, discovery, and for grand jury proceedings to be provided.

Their co-defendant Blue House owner Song Ja Cha, however, declined to enter a plea due to a pending appeal in the Supreme Court of Guam.

Because of issues raised between Cha's defense counsel Jeffrey Moots and lead prosecutor Assistant Attorney General Nelson Werner, the judge scheduled a continued arraignment hearing for Cha on March 27 at 1 p.m.

"What will happen is the court – as to Miss Cha – will delay the arraignment for one week. This will allow the court to do a little more research on the issue," Tolentino said.

"As to the two gentlemen – Mr. Quenga and Mr. Manila – the court will proceed with the arraignment on the third superseding indictment. The court believes that the appeal as to Miss Cha does not affect the government's ability to go forward with the superseding incitement against you," Tolentino told the two officers.

Guam Police Department Officer David Manila appeared for an arraignment before Magistrate Judge Alberto Tolentino. Matt Weiss / Variety

Jurisdiction issues

According to Moots, because Cha has a pending appeal in the Supreme Court, the lower court has no jurisdiction to take a plea from the defendant.

The interlocutory appeal, filed by Cha's attorney F. Randall Cunliffe, challenged Judge Anita Sukola's denial of a motion for dismissal on grounds of double jeopardy.

Sukola, who is hearing the case, recently denied several motions to dismiss filed by the defendants. The interlocutory appeal is an appeal to the high court of a ruling by the lower court that was made before the conclusion of a trial.

Moots argued that the appeal in Supreme Court takes the case from Superior Court's custody.

Werner disagreed, stating that while the prosecution was aware of the interlocutory appeal, a motion to stay in the lower court was required.

"No motion to stay was filed," he told the court: "And therefore it's our position that we have jurisdiction to proceed with the superseding indictment."

Apart from the continued arraignment for Cha, all defendants are scheduled to return to court on April 1 for a status hearing before Sukola. All remain behind bars.

Charges

Cha and Officers Quenga and Manila now face a total of 17 charges in the third superseding indictment which include kidnapping, felonious restraint, compelling and promoting prostitution, criminal sexual conduct, criminal intimidation, and official misconduct, among others.

The alleged crimes committed by the defendants in the case occurred in a period between April 2006 and January 2008 and lists up to 10 female victims who were subjected to prostitution at the Blue House Lounge.

A third police officer previously named in the case, Mario Laxamana, pleaded guilty last week and agreed to fully cooperate with prosecutors as well as testify when his co-defendants go to trial. Laxamana pleaded guilty to felonious restraint as a third-degree felony and official misconduct as a misdemeanor while prosecutors agreed to dismiss the remaining charges.

GWiB PUBLIC NOTICE

The Guam Workforce Investment Board will hold its Regular Monthly Meeting on **Thursday, March 28, 2013** at **4:00 p.m.** at the GDOL/AHRD Conference Room, 3rd floor, GCIC Building In Hagåtña.

DeSoto defense wants more time to review 456 pages of documentation

By Geraldine Castillo
geraldine@mvguam.com
Variety News Staff

MURDER suspect Chad Ryan DeSoto appeared briefly in Superior Court yesterday for a trial setting, but the hearing was continued to next month, allowing more time for his attorney to go over hundreds of pages of discovery documents pertinent to his case.

DeSoto's attorney, Public Defender Eric D. Miller, informed the court that he received a disk of discovery, which includes police reports and grand jury proceedings. However, he said he still needed to go over the material with DeSoto.

"We have received a disk of discovery. I do not know yet if it's all of it, [but] we certainly have received a lot of it," Miller told Judge Anita Sukola.

In response, Sukola told Miller to make sure he has gone over all information with his client.

Miller said he hasn't had the opportunity yet to go over the discovery with his client due to the high volume of documents, which amounted to 456 pages.

"It's a lot of material, your honor. It's on a disk. I know it's hundreds of pages," he said. "We filed motion for discovery but we need a chance to review what we have so far before we determine what else we're going to need."

Meanwhile, Sukola informed the present prosecutor, Assistant Attorney General Jesse Nasis, that she expected the assigned prosecutor, Assistant Attorney General Gerald Henderson, to be available at the next court hearing.

Murder suspect Chad Ryan DeSoto appeared briefly in Superior Court yesterday for a trial setting. Matt Weiss / Variety

The 21-year-old DeSoto is scheduled to return to court for another trial setting on April 10 at 10 a.m.

DeSoto is being held on $3 million bail in connection with the Feb. 12 Tumon attack that left three Japanese tourists dead and 11 others injured.

He pled not guilty by reason of mental illness to three counts of aggravated murder and 11 counts of attempted aggravated murder, both as first-degree felonies and attached with special allegation of possession and use of a deadly weapon.

More visitor traffic anticipated with Seafix's warship repair certification

By Raquel C. Bagnol
raquel.bagnol@mvariety.com
Variety News Staff

SAIPAN – Seafix Inc., a company that specializes primarily in ship repair and maintenance in Micronesia, is anticipating an increase in visitor traffic in the following months following the award they got to repair visiting U.S. military vessels and warships.

In an interview with Variety, Seafix Inc. GM Mark R. Blackburn said the exclusive Boat Repair Agreement issued by the Military Sealift Command/ Ship Support Unit Guam is seen to increase not only visitor traffic but also revenue.

Blackburn said the U.S. navy has lots of choices on where to go for Rest and Recreation but they get lots of A-1 feedback from those who have been here. "If they realize they can come for R&R and get some needed maintenance at the same time, it would make Saipan more attractive," Blackburn said.

He said that to clarify earlier reports, Seafix Inc. has been working with the government vessels like all the preposition ships on Saipan since they started business for the last 18 years, providing industrial assistance and maintenance work.

"The vessels that are being referred to in the ABR are the military vessels or war ships that visit the islands for rest and recreation," he said.

He said the ABR award is another highlight in the Seafix milestone and accomplishments, after over three years of working to meet all the requirements and standards of the U.S. military.

Blackburn said Seafix Inc. did repairs on the USS Cowpens as a test model during the audit for quality assurance.

"The quality control/assurance people from the navy flew in here and witnessed all our procedures and paperwork and everything that we do, and saw that we fit seamlessly with the standards of the U.S. navy," Blackburn said.

He said that was the final qualifying factor before they were awarded the ABR.

"We had been audited by several groups of from the navy who checked our capabilities, procedures, financial capability and everything else," Blackburn said.

The award is a reward for years of renewed capabilities and continued improvement of Seafix's Quality Management System as the only American Bureau of Shipping certified to provide ship repair and industrial assistance on Saipan, a release Blackburn provided to the Variety stated.

Seafix Inc. is an an affiliate company of the Ambyth Group of Companies. For more information visit www.seafix.net.

Navy, House discuss increased CNMI buildup

By Emmanuel T. Erediano
emmanuel.erediano@mvariety.com
Variety News Staff

SAIPAN – Two officials of the U.S. Navy met last week with House representatives to discuss additional military buildup in the CNMI.

But Adm. Tilghman D. Payne, commander of the Joint Region Marianas of the U.S. Pacific Command, said the proposed action to provide more training sites in the islands "has nothing to do" with North Korea's recent threat to attack U.S. military facilities in Guam and Japan.

Payne was accompanied by Defense coordinating officer and political-military advisor Roy N. Tsutsui in a meeting with the lawmakers at the House chamber at 10 a.m. Thursday last week.

They presented Pentagon's proposed action to "establish a series of ranges and training areas within the CNMI to meet unfilled unit-level and combined-level military training requirements in the Western Pacific."

The purpose is to "reduce existing and anticipated joint training deficiencies for Pacific Command and its service components in the Western Pacific."

Payne and Tsutsui said the military has identified Tinian and Pagan as only possible locations for combined and unit-level training.

Payne told reporters that these proposals are just part of the continuing dialogue between the NMI Legislature and the Defense Department. It is an interaction between the military and our community.

In separate interview, Senate Floor Leader Ray N. Yumul said the Senate welcomes the military buildup here, knowing there be will economic activities that come with it.

Army base workers in Marshall Islands face layoffs

By Giff Johnson
For Variety

MAJURO – Workers at a missile testing range in the Pacific are facing job losses as U.S. government budget "sequestration" cutbacks begin hitting home 7,000 miles from Washington D.C.

The U.S. ambassador to the Marshall Islands briefed President Christopher Loeak and otherelected leaders earlier this week on the possibility that 15 percent of the Marshall Islands workforce at the Reagan Test Site on Kwajalein Atoll could lose their jobs.

"One hundred and thirty (job cuts) is the number on the table," Foreign Minister Phillip Muller said Thursday following a briefing by U.S. Ambassador Thomas Armbruster. There are currently about 900 Marshall Islands workers at the base. American workers are also expected to be affected by the funding cutbacks.

The Honorable EDDIE B. CALVO, Governor
The Honorable RAY TENORIO, Lt. Governor
A.B. WON PAT INTERNATIONAL AIRPORT AUTHORITY, GUAM

PUBLIC NOTICE

The Board of Directors of the A.B. Won Pat International Airport Authority, Guam (GIAA) will convene its Regular Board meeting on Thursday, March 28, 2013 at 3:00 p.m. in Terminal Conference Room No. 3. In addition to regular matters, pursuant to 5 G.C.A 98111(c)(2), Executive Session will be held to discuss pending litigation to which GIAA is a party. Parking is available in the Public Parking Lot.

For special accommodations or agenda items, please call the Board Office at 642-4717/18.

MINUTES OF THE BOARD OF DIRECTORS REGULAR MEETING
3:00 p.m., Thursday, February 28, 2013
GIAA TERMINAL CONFERENCE ROOM #3

I. CALL TO ORDER AND ATTENDANCE

Chairman Francisco G. Santos called the A.B. Won Pat International Airport Authority, Guam (GIAA) regular meeting to order at 3:07 p.m. The presence of Directors is noted as follows: Jesus Q. Torres, Vice Chairman, Rosalinda A. Tolan; Martin J. Gerber; Edward G. Untalan; and Lucy M. Alcorn. Also present were Charles H. Ada, Executive Manager, Peter Roy Martinez, Deputy Executive Manager, Carlos P. Bordallo, Acting Comptroller, Frank R. Santos, Business and Financial Consultant, and Janalynn C. Damian Esq., Legal Council. The Chairman welcomed the presence of Airport Tenants, stakeholders, and members of the public who are noted in a sheet made as an attachment to the minutes.

II. APPROVAL OF AGENDA

Vice Chair Torres made motion to approve the agenda as presented, seconded by Director Tolan; motion carried.

III. APPROVAL OF MINUTES

A. January 29, 2012, Board Regular Meeting

Director Alcorn made motion to approve the minutes, subject to correction, seconded by Vice Chair Torres; motion carried.

IV. CORRESPONDENCE

No correspondence presented.

V. MATTERS FOR BOARD RATIFICATION/APPROVAL

A. Approval of TSA Other Transaction Agreement

Mr. Frank Santos presented a request for Board's approval of the TSA Other Transaction Agreement. He stated it is a grant agreement from TSA, in the amount of $444,000.00. Mr. Santos explained that there are two parts to the agreement involving the baggage screening; the first part is Recapitalization, the replacement of two machines for a

newer model; the second part is Optimization, the relocation of the checked baggage screening pods. TSA has agreed to fund both up to 30%. The amount of $444,000.00 was derived from a proposal by Siemens, the manufacturer of the baggage systems currently in use. Mr. Santos stated there are also two parts to the request; the TSA Other Transaction Agreement and the approval of the selection of Siemens to perform the work, also adding that Siemens is the company that did the design work for the "In-line" project which fell through because of funding issues. After some discussion on the positive impact the Recapitalization effort will bring, Vice Chair made motion to approve the TSA Other Transaction Agreement, seconded by Director Tolan; motion carried.

B. Approval of Award for Residential Sound Insulation Phase 2A – IFB No. GIAA-C02-FY13

The Executive Manager presented a summary of the Invitation For Bid for the above noted project. The project is phase 2 under the Noise Mitigation Program, with an objective of providing noise reduction to those homes mostly affected by aircraft operations. Of the fourteen (14) firms/individuals that purchased bid packages, six (6) firms submitted bid proposals before the submission deadline of February 5, 2013. Management recommended that the Board approve the contract award of $1,787,324.04 to Nippo Corporation who has been determined to have met the standards of responsibility and responsiveness outlined in the Guam Procurement Regulations. Janalynn Damian, Legal Counsel, made a disclosure for the record that the item be referred to Conflict Counsel as Calvo Fisher & Jacob LLP represent two (2) of the bidders. Director Tolan made motion to approve management's recommendation to authorize the contract award to Nippo Corporation, seconded by Vice Chair Torres; motion carried.

C. Ratification of Disbursements

Vice Chair Torres made a motion to ratify payments above the $50,000.00 threshold made to vendors for the period of January 30, 2013 – February 22, 2013, seconded by Director Gerber; motion carried.

VI. OLD BUSINESS

A. Executive Manager's Report

The Executive Manager presented updates on various matters concerning airlines, including an announcement of Japan based airline, Skymark commencing services with charter flights. The flights are planned to start during March 14 – 23. The key element to Skymark's service is to operate during non-peak hours.

The Manager reported on the Airports part in returning families and the deceased back to Japan after the tragic attack of tourists in Tumon in February. Executive Manager noted the assistance provided by GIAA Marketing and Airport Police who worked closely with GVB, GPD and the Governor's Office from February 14 – 18.

The Executive Manager announced the Pacific Asia Travel Associations' (PATA's) recent nomination of GIAA's Executive Manager, Charles H. Ada II to the PATA Board, which was accepted by Mr. Ada. The nomination will now be ratified at the PATA Annual Summit from April 25 – 28. Another upcoming event also announced was the 8th Airports Council International (ACI) Asia-Pacific Regional Assembly, Conference and Exhibition which will be held in Phuket, Thailand from April 22 – 25. A delegation from GIAA led by Deputy Executive Manager, Peter Roy Martinez, Director Gerber, and two (2) Marketing staff will be in attendance at the Conference.

The Manager reported that GIAA and GEDA presented a 'Credit Update' briefing to a contingent from Standard & Poor's on February 6, 2013 in preparation of the Airport's plan to refinance the 2003 Bonds. Director Untalan was in attendance for the briefing and informed the Board that he thought the presentation went rather well, staff and Management did an excellent job and provided a wealth of information to the group that represented Standard & Poors.

B. Financial Report

For the Board's information, Carlos P. Bordallo, Acting Comptroller presented the financial report as of January 31, 2013.

Vice Chair Torres inquired about the Airport Police having an adequate number of vehicles to operate appropriately, and explained that now would be the perfect time to request as the budget allows for it. The Chairman stated that he would rather see a golf cart in front instead of a patrol vehicle, and went on to suggest that Chief Robert Camacho request for two to three golf carts.

C. Legal Counsel's Report

Legal Counsel recommended that discussions regarding litigation matters be reported during Executive Session. The Board had no objection.

D. Tenant Matters

No Tenant Matters reported.

E. Status on Capital Improvement Programs

Mr. Frank Santos presented the UDO analysis.

VII. NEW BUSINESS

No New Business presented.

The Chairman announced that the Board will recess and convene Executive Session after the recess. Vice Chair Torres made motion to recess and convene Executive Session after the recess, seconded by Director Untalan; motion carried. The board recessed at 4:03 p.m.

VIII. EXECUTIVE SESSION

Chairman Santos called Executive Session to order at 4:14 p.m. Executive Session adjourned at 4:30 p.m.

IX. PUBLIC COMMENTS

The Chairman called upon any public member wishing to make comments. There was no response.

X. ADJOURNMENT

Director Untalan made a motion to adjourn the meeting, seconded by Director Tolan; motion carried. The meeting adjourned at 4:35 p.m.

Respectfully submitted,

Amanda O'Brien-Rios
Board Secretary

Mr. Ron Simpson
Manager, Airports District Office
Federal Aviation Administration
300 Ala Moana Blvd.
Room 7128
Honolulu, Hawaii 96250

Hafa Adai Mr. Simpson:

Thank you for opportunity to respond to and clarify some concerns which have been raised in regard to GIAA. Mr. Ysrael makes a number of general allegations and false assumptions in his comments. This letter will respond with specific facts. In particular, we are responding to the list of items numbered 1 through 25 which was sent to us by Mr. Juan Reyes. Going through these items, we found that they would best be addressed by grouping related items together, so our response is categorized under the subject headings as follows:

1) The Pac Air Ground Lease Agreement and Terms
2) The Customs and Quarantine Sublease
3) Rental Valuation
4) Tax-related Inquiries
5) Leases to Non-Aeronautical Tenants
6) Airport Security

Despite these categories, our answers to these inquiries should be taken as a whole, as some concerns may touch on more than one category. We will continue to identify the individual queries based on their number in the list from Mr. Reyes. We will first address the concerns raised regarding the Pac Air Ground Lease Agreement and Terms:

I. THE PAC AIR GROUND LEASE AGREEMENT AND TERMS

(1) ***Unusual for a lease to be amended four different times, all conditions beneficial to the lessee and detrimental to GIAA and on the conditions of the lease, e.g. cost of the improvements to be made.***

The business decision to amend the lease was made by GIAA Board of Directors based on the best information and opportunity at the time the agreements

were made. Analysis of the actual terms of the Ground Lease Agreement and Amendments is stated below.

The Ground Lease Agreement between the A.B. Won Pat International Airport Authority and Pac Air Properties, LLC was entered into on October 31, 2006 ("Ground Lease"). The First Amended and Restated Ground Lease Agreement ("First Amended Agreement,") required Pac Air to spend Twenty-Five Million Dollars ($25,000,000.00), on agreed-upon capital improvements to the leased space, instead of the Five Million Dollars required by the original Ground Lease. In return, the rent for the construction period was deferred for five years (not waived), with a specific schedule for repayment. The term of the original Ground Lease was thirty (30) years, and Pac Air was permitted to obtain a 10 year extension (maximum two times) for each additional 2.5 million dollars spent over its obligated $5,000,000 investment, The First Amended Agreement, §2(A), changed this by extending the lease term to fifty years from thirty years. The First Amended Agreement also provided GIAA with the right to approve subleases under the Ground Lease Agreement (*See* First Amended Agreement §6).

Other alterations made by the The First Amended Agreement include a requirement that Pac Air reimburse GIAA for costs of seeking remedies under the agreement in case of termination through Pac Air's default, while clarifying the definition of default under the Agreement. (First Amended Agreement §23C-D). Finally, it places any mortgage or encumbrance "subject and subordinate to" GIAA's bond indentures and the rights of the bondholders. CITE

After the First Amended Agreement, the parties entered into The Second Amended and Restated Ground Lease Agreement ("Second Amended Agreement"). The difference between the Second and the First Amended Agreement is that the Second Amended Agreement clarified that the rent was payable on a monthly basis and corrected the payment schedule, in accordance to the lease terms. The terms themselves remain the same.

The Third Amended and Restated Ground Lease Agreement ("Third Amended Agreement") is largely the same as the First and Second, but was entered when Customs desired to move to the new Pac Air Cargo Facility from its location on a less desirable part of the Airport Property in Tiyan. Because Customs had an existing tenant relationship with GIAA, and the payment methodology had already been set up for GIAA to receive rental payments from Customs, it was decided by the parties that it would be most efficient for Customs to maintain its tenant relationship with GIAA, and for GIAA to sublease the property from Pac Air in order to provide Customs with space in the facility. This would allow GIAA to continue to receive rent revenues from Customs as well, in support of its mandate to be self-sufficient. Therefore, the Third Amended Agreement provides for GIAA to enter three separate 5-year subleases in the completed facility: one of 7,500 ft^2 for $1.50 per square foot per month; one of 7500 ft^2 for the accommodation of Guam Customs

and Cargo Inspections, which was already housed in a less-desirable part of the Tiyan facility, for $3.05 per square foot per month; and one of 17,500 Square feet, also to accommodate Customs and Cargo Inspections, built to suit their needs, for $2.60 per square foot per month, with an additional $0.49 per square foot per month to be paid back for the construction of the Customs facility.

The Fourth Amended and Restated Ground Lease clarified the language in the agreement regarding Pac Air's obligations under GIAA's security requirements, including security directives and FAA regulations. It extended these duties of compliance to Pac Air's agents, employees and invitees.

(2) Did it meet the minimum Twenty-Five Million Dollar ($25,000,000.00) investment?

Under the terms of the Ground Lease Agreement §7I(i), Pac Air must provide GIAA with certification of the Twenty-Five Million Dollars ($25,000,000.00) spent on the project, setting forth the development and construction costs, with details of all the component costs. Pac Air provided and GIAA reviewed and accepted its certification as set forth in the Agreement. The certification was for investment in excess of $27 Million, and FAA is in possession of a copy of this certification.

(3) Was extending the lease terms from 30 years to 50 years with an optional ten more years, for a total of 60 years, in violation of existing law, of 40 years?

Guam has passed laws which place limitations on lease durations. For example, 12 G.C.A. §1105 deals with GIAA powers generally and limits GIAA to a forty (40) year maximum on leases with the Government of Guam and the United States. However, with respect to lease terms with private entities, there is not restriction on the airport. Thus, 12 GCA 1005 does not apply to the lease agreement between Pac Air and GIAA.

Airport counsel has addressed this issue and confirmed the Airport's authority to enter into leases in excess of 40 years. In addition to the above statute, Counsel has also found authority at 12 GCA 1203 which grants GIAA the power to "... (f) Improve, construct or reconstruct, lease, furnish or refurnish, use, repair, maintain, control, sell or dispose of its property, including any buildings, structures, lighting equipment and all other equipment and facilities necessary therefor; and notwithstanding any other provision of law, make and enter into contracts, leases and permits for the use of airport facilities and properties for airport purposes, and visitor related activities, and make and enter into airline agreements, without prior approval of I Liheslaturan Guahan, " Thus, the Pac Air lease term does not violate Guam law.

(15) GIAA agrees in the ground lease to "delay" all ground rents for 5 years. So, after GIAA spent considerable time and money developing a business (salaries

of the various GIAA employees involved in leasing ground) and legal fees, no income for 5 years.

Before the Pac Air Lease, the land was vacant and not utilized. GIAA furthered its mission statement by having Pac Air lease and develop the land. GIAA had envisioned an integrated cargo building long before Pac Air's proposal. Pac Air assumed all of the financial risk of the development. A rent deferral is a small and reasonable incentive to capture an improvement worth over Twenty-Five Million Dollars ($25,000,000.00). The deferral of rent is the cost of doing business and achieving GIAA's goal in that regard. The rental payments have been deferred for five (5) years, with the deferral period ending and payment of the deferred rental commencing in September 2014, in addition to the monthly rent due from Pac Air.

(16) After Pac Air completes the enormous Air Cargo building (way beyond any rational need), GIAA then begins a series of "amendment to the Ground lease" to provide various forms of subsidies to PacAir.

There were several factors considered in determining the ultimate size of the cargo facility, including a proposed runway extension, U.S. Department of Transportation air cargo service exemptions, and the anticipated Guam Military Buildup. The Board is tasked with envisioning the needs for GIAA not only at present, but for decades in the future. After considering all variables, Pac Air determined that it would be most efficient and least expensive to build one facility of the present size, rather than building in phases to increase the size of the facility in the future. This could be analogized to the development of large hotels in the Tumon area of Guam; initially this was seen as a needless waste, flooding the market; but the investment paid off in the long run. Now, tourists to Guam are turned away during peak seasons, because there are not enough hotel rooms to accommodate them all. The criticism of flooding the market was proven wrong. Likewise, to determine the size of the air cargo facility based on current needs rather than the needs of the future would be shortsighted, inefficient and wasteful. The financial risk in developing the facility was all Pac Air 's, and as discussed in item (1) above, it is inaccurate to characterize the Ground Lease Amendments as "subsidies" to Pac Air . At present, the facility is around 60% occupied.

(17) GIAA agrees to "guarantee" a portion of PacAir's construction loan. In exchange for this "guarantee", GIAA has the privilege of leasing some 15,000 square feet of cargo area for $1.50 per square foot per month. There is no evidence the airport guaranteed any portion of the loan.

The Ground Lease agreement, §7I(2), provided that GIAA would "consider" providing up to $4million in loan guarantee for Pac Air to aid in financing the construction of the cargo facility, but this provision was never implemented and GIAA never guaranteed any loans to Pac Air , so GIAA never acquired the right to lease space under that provision. Therefore, this is a moot issue.

(21) Next, GIAA "directly" leased some 15,000 square feet of cargo area for its "maintenance department". Again, the rent was in the $1.50 range which is at least double the rent outside. Again, the lease was via an "amendment" to the Ground lease. No bidding

GIAA leased 7500 square feet of cargo facility space for its maintenance department, not 15,000 square feet. GIAA's maintenance department had previously been working out of a loading dock in the basement level of the terminal building, which was inadequate and an inefficient use of Airport resources. When the new facility was completed, management decided to consolidate the maintenance department and move it into a more appropriate space.

II. THE CUSTOMS AND QUARANTINE SUBLEASE

(10) Where is the RFP from GIAA when they went out and leased '32,500 sq. ft". of space, that resulted in a monthly rental expenditure of $80,000 to Pac Air which was sub-leased back to Customs and Quarantine.

No RFP was required for Customs' relocation to the Pac Air building. Customs was already a tenant of GIAA's air terminal and south Tiyan property when it elected to relocate to the new Pac Air facility. Under the Agreement, GIAA was given a sublease of the property, for the purpose of accommodating the needs of Customs. That property was sub-subleased to Customs and Quarantine, and that sub-sublease was approved by both the Guam Attorney General and the Governor of Guam. As discussed above, the parties entered into this lease arrangement because of the existing relationship between Customs and GIAA. It benefits GIAA to have the lease revenue from Customs, and it benefits Customs to maintain its tenant relationship with GIAA rather than going through the process of developing a new payment method with PacAir.

(12) and (13) ***Space in these new buildings was rented back to GIAA for $1.50 and $3.60 per square foot, monthly, without benefit of a RFP. Outside warehouse space, in the open market, is available at the rate of $0.50 cents monthly rental per square foot. Why was the Guam Customs and Quarantine Lease entered into via a sub-lease with GIAA, rather than a direct lease with the Lessor? Was it to avoid THE NEED OF AN RFP (Request for Proposal), or the scrutiny by the Legislature and the public?***

This is inaccurate, as can be seen by reference to the Agreement and Sublease documents. As stated above, there was no requirement for an RFP.

The GIAA Board of Directors and Executive Manager approved the sublease rate for the second 7,500 square foot space, and the 17,500 square foot space for $3.05, and $3.09 per square foot per month, respectively; GIAA then sub-subleased

the space to Customs, as provided in the sublease agreement, for $3.57, and $3.57 per square foot, per month, respectively, for the first five years, dropping to $2.60 for each for the next five years; thus, the rent is basically a pass-through minus an administrative fee charged for Customs by GIAA. The rental rates were a result of negotiations between Customs and and GIAA, taking into account the tenant fit-out costs for Pac Air upgrades to the rental space. Rent is collected by the Airport in accordance with 5 GCA 73145 and 73146.

Mr. Ysrael asserts that other warehouse spaces is available for $0.50 per square foot per month in other areas of Guam. GIAA cannot confirm whether warehouse space exists on Guam for $0.50/ft2, but even assuming it to be true for the sake of argument, it is not relevant to the Pac Air Cargo Facility. The Pac Air Cargo facility is not general warehouse space; it is a fully improved Cargo Facility at the Guam International Airport. The $0.50 suggested rental amount does not take this into account. The original Ground Lease Agreement rental price was determined according to an appraisal, and finalized after a solicitation of interest.

Rental rates for subleasing space in the facility vary on a lease-by-lease basis, depending on the amount of fitting out required of Pac Air by the tenant. Clearly, if space is available elsewhere for $.50/square foot, then there is no unfair competition with private entities in the Guam market.

(18) and (19) how much space does Guam Customs really need? Are they incurring space unnecessarily just so GIAA can provide a subsidy to Pac Air for their disastrous business decision? Though there is a "lease agreement" between Guam Customs and GIAA, the GIAA to Pac Air deal is part of an "amendment to Ground Lease". This is all internal. There has been no evaluation of "fair rents" through a public bidding process.

GIAA entered the lease at Customs' request pursuant to Customs' needs. Before the present arrangement, Customs was leasing two barracks in South Tiyan from GIAA consisting of approximately 32,000 square feet. Due to facility conditions and space requirements, Customs elected to relocate in whole to the terminal and the Pac Air facility. Customs is required to be located on airport property.

No other appropriate space exists at the airport that meets Customs' requirements.

(25) Where is the RFP from GIAA when they went out and leased '32,500 sq. ft". of space, that resulted in a monthly rental expenditure of $80,000?

As stated above, there was no similar space available at or near the airport to meet the needs of GIAA. Also as stated above, an RFP was never required. Airport

management made the decision to rent the space to be more responsive to its clientele and mission statement.

III. RENTAL VALUATION

(7) Land rental lease is below fair market value.

The land rental lease rate was determined based on an appraisal and entered into with the approval of both parties, after a solicitation of interest for the development of the facility. Though the initial Appraisal was for a thirty-year lease term and the actual lease was later amended to be extendable for up to 50 years, the original Appraisal also accounted for an extended term by increasing the rental amount by 10% every 5 years, which is a standard real estate practice on Guam. *See* Second Amended Agreement, Exhibit C.

(8) Rental back to GIAA is higher than prevailing fair market value.

Where GIAA is in a tenancy arrangement, as a landlord it is required to get no less than fair market value. In this case,the tenancy agreement is agreeable to all parties, and Customs does not agree that it is paying a rate in excess of a fair market value for the building, the location, and other advantages therein.

1. In my opinion, some ground leases, have been entered into for a monthly rental of $0.04 cents per square foot, lower than prevailing Fair Market Value, and that these rental payments were deferred, interest free, and paid back on installments basis, fully paid up on the fifteenth (15) year of the lease agreement.

The Airport board of Directors views this agreement in its entirety, and rent is stated in annual terms and paid in monthly payments over the term of the lease. Pac Air expects to recoup its investment, and the Airport is expected to get the benefit of an integrated Air Cargo Facility.

IV. TAX-RELATED INQUIRIES

(9), (14), and (24). Leases were entered into in direct competition with tax paying entities. GIAA does not pay real estate taxes, income taxes, or Gross Receipts Taxes on its revenues.

This is true, but it is not a violation any law or regulation. The legislature granted GIAA a tax-exempt status in order for GIAA to be able to raise revenue and operate in a self-sufficient manner. Pursuant to this legislative mandate, GIAA has entered into lease- and sub-lease agreements. GIAA is not unique among Government of Guam instrumentalities; the Guam Economic Development Authority and the Ancestral Lands Commission, for example, also enter into commercial lease

agreements. As an enterprise fund, GIAA can earn revnue and incur expenses without being subject to local taxes. GIAA is required to be self-sustaining and is granted the power to improve its facilities and enter into contracts and leases. Under its Grant Assurances, it is required to do so. Pac Air and the subtenants, on the other hand, are not beneficiaries of GIAA's exemption. They are subject to the same taxes as any other private enterprise on Guam.

V. LEASES TO NON-AERONAUTICAL TENANTS

(4) ***Sub-leases to non-airport related activities, (Social Security Services).***

Pac Air has subleased space to non-aviation tenants, but this is not a violation of law, FAA Grant Assurances or lease terms, and no aviation-related tenant has been denied space.

The Ground Lease Agreement, §1A, requires subleases for certain specified air-transportation-related activities set forth in Exhibit "B" to the agreement. It also provides, however, that subleases for other activities may be entered into with GIAA's written consent. GIAA has consented to all existing subleases. Most of the present Pac Air facility's tenants were GIAA tenants before the facility was built; only a limited number of Federal Agencies, such as the Social Security Administration, moved from other locations. No tenant with airport-related business has ever been turned away from subleasing in the facility, and there remains vacant space available to any aviation-related tenant who desires the property.

(22) Pac Air leasing space to non-airport related entities. As you point out, the FAA wants to see maximum utilization of Airport assets. However, these rents are going to PacAir, not GIAA.

The statement above presumes that GIAA gathers no benefits from its relationship with Pac Air. In fulfilling its missioin statement, GIAA entered into the tenancy agreement to develop an integrated air cargo facility, and this has now been done. The Ground Lease Agreement gives aviation-related tenants preference in the cargo building, and reserves to GIAA the authority to veto any lease by withholding its consent. There is still vacant space in the facility, and no aviation-related tenant has ever been turned away in favor of a non-aviation-related tenant.

GIAA has acquired the asset and at present, GIAA is accruing $259,200.00 in deferred annual rental income from Pac Air, and is receiving $1,024,200.00 in rental income from Customs, while paying Pac Air $1,058,400.00 for rental space. These numbers will dramatically increase to the positive in September 2014, when GIAA begins receiving monthly rent and deferred rent from Pac Air.

(23) GIAA made its deal in the very beginning, a low ground rent based on the promise that the facility would be used for Airport related activities.

This is inaccurate and does not reflect the terms of the Ground Lease Agreement. As discussed above, the Ground Lease agreement provides for non-aviation-related subleases with GIAA's approval, and the approval shall not be withheld unreasonably. This is an agreement that benefits both GIAA and Pac Air as previously stated.

VI. AIRPORT SECURITY

(5) and (6) where is airport security at risk, when the public can now come to the air cargo building to visit non-airport related activities? Where is the security to the Federal Offices, when a car or truck can come up to the cargo building to unload and it can carry explosives?

The Pac Air Facility and all tenants are included in GIAA's general security requirements, and a perimeter fence separates the Air Operations Area (AOA). There is no general access to the AOA from the Pac Air facility nor is there direct access to the AOA from the mezzanine level.

The Airport Security Program includes three levels of security: The first relates to Air Operations Area (AOA) access, which is under airport security and requires a SIDA badge for access. The second level of security is at the tenant level. Tenants may either use the airport SIDA system or develop their own method of restricting access within their space, but non-SIDA-badge-carrying tenant affiliates will not be permitted access to the AOA area. The third security level is at the gatehouse, which monitors access to the parking area. The entire facility can be placed on lockdown in the event of a general or specific threat.

The Fourth Amendment to the Ground Lease Agreement requires that "LESSEE shall comply with and conform its use of the Premises to Lessor's Airport Security Program, Security Directives and Emergency Amendments and FAA regulations (collectively, "Security Requirements")." The Airport Security Program meets Federal TSA requirements, and is subject to FAA and TSA inspection.

VII. CONCLUSION

GIAA's lease, as amended, with Pac Air for the cargo facility is fair, reasonable, and non-discriminatory and not in violation of any leases term nor any Guam or federal law, regulation or any policy established by the Board of Directors. The FAA has recognized that compatible land uses include such entities as motels and hotels, restaurants, shipping agencies, aircraft related industries, industries that benefit from access to the airport and provide a broad range of services and conveniences for the customers of the Airport. The tenants of Pac Air are there with the

knowledge and consent of GIAA. Compatible land use is an evolving dynamic and the Airport is a good neighbor of the Guam community. It does not solicit tenants for Pac Air nor has it ever refused aeronautical or airport-related tenants nor displaced any; rather, the present arrangement has allowed GIAA to get sustainable use out of its land which was previously undeveloped land. This is consistent with GIAA's mission statement and mandates under Guam Law and the FAA grant assurances.

Si Yu'us Ma'ase,

Charles H. Ada, II
Executive Manager

March 27, 2013

Mr. Charles H. Ada, II
Executive Manager
A. B. Won Pat International
Airport Authority, Guam
P. O. Box 8770
Tamuning, Guam 96931

Dear Mr. Ada:

We are replying to the allegations communicated to our office regarding the lease agreement between the Guam International Airport Authority and PacAir for the construction and operation of a new cargo building at Guam International Airport. The following report discloses the results of our investigation into the allegations made in a series of E-mails we received during January and February 2013.

Introduction

This matter was brought to the attention of the Federal Aviation Administration (FAA) Honolulu Airports District Office based on the informal complaint filed in accordance with the FAA Investigative and Enforcement Procedures, Title 14 Code of Federal Regulations (CFR) Part 13.1.

Mr. Alfred C. Ysrael and Mr. Michael Ysrael (Complainants) have filed an informal complaint pursuant to Title 14 CFR Part 13.1 against the Guam International Airport Authority (GIAA) owner, sponsor, and operator of Guam International Airport, the United States Territory of Guam (GUM or Airport).

The Complainants allege the GIAA engaged in questionable leasing and rate setting practices with regard to the air cargo facility at GUM, which may represent acts or omissions that do not comply with the requirements of the Sponsor Grant Assurances.

With respect to the allegations presented, in consideration of the specific circumstances at the Airport, and based on the evidence of record, the FAA finds GIAA is not currently in violation of its federal obligations with respect to Grant Assurances. The FAA's decision in this matter is based on applicable federal law and FAA policy and the review of the statements and supporting documentation submitted by the parties to the complaint.

Complainant

Messrs. Alfred and Michael Ysrael are residents of Guam. Mr. Michael Ysrael was a former member of the GIAA Board of Directors. Neither is presently a tenant or officer at Guam International Airport.

Issues

The FAA analyzed the following allegations as presented to us by the Complainants to determine if any non-compliance with the grant assurance exists.

1. The GIAA executed the original lease with PacAir for a low ground rent so the cargo building could be used for airport related activities.

2. A lease agreement with PacAir was amended four different times incorporating provisions that were beneficial to PacAir and detrimental to GIAA. For example,
   - GIAA subsidizes PacAir by paying rent to PacAir for space in the cargo building.
   - Rent is deferred and repaid in installments over 15 years without interest.
   - GIAA expended resources to promote and execute the development of the new cargo center.
   - Space in the cargo building was subleased to GIAA at excessive rental rates.
   - GIAA sub-subleased space to Customs.

3. The lease term was extended from 30 to 50 years. Including the 10-year option, the full term of the lease was increased to a total of 60 years. Under Guam law, leases greater than 40 years are illegal.

4. GIAA allowed subleasing the PacAir cargo building to non-aeronautical tenants such as the Social Security Administration.
   - PacAir leases space to tenants, some of which are non-aviation businesses. PacAir, rather than GIAA, collects these rents.

5. A security risk exists because pedestrians and vehicles have access to the cargo building when they visit the facility.

6. The rental rate for the land is below fair market value.
   - Rental rate that GIAA pays to PacAir is more than fair market value.
   - Rental rate of $0.04 monthly per square foot for ground leases is lower than fair market value.
   - Rental rate for warehouse space elsewhere in Guam is $0.50 monthly per square foot.
   - GIAA pays a rate that exceeds fair market value for subleased space in the cargo building for its maintenance department in order to subsidize PacAir.

7. Lease in the cargo building represents direct competition with tax paying entities.
   - GIAA does not pay real estate taxes, income taxes, or gross receipts taxes.
   - GIAA is competing with tax paying entities when it consummates leases on the airport.

8. Requests for proposals were not used to solicit bids for spaces occupied by Customs.

9. GIAA agreed to provide loan guarantees to PacAir for a portion of a construction loan.

10. Customs may be leasing more space than needed, which results in higher rental payments to PacAir.

11. GIAA leased 32,500 square feet of space and spent $80,000 in the process.

Applicable Federal Law and FAA Policy

The federal role in civil aviation has been augmented by various legislative actions that authorize programs for providing federal funds and other assistance to local communities for the development of airport facilities. In each such program, the airport sponsor assumes certain obligations, either by contract or by restrictive covenants in property deeds and conveyance instruments, to maintain and operate its airport facilities safely and efficiently and in accordance with specified conditions. Commitments assumed by airport sponsors in property conveyance or grant agreements are important factors in maintaining a high degree of safety and efficiency in airport design, construction, operation and maintenance, as well as ensuring the public fair and reasonable access to the airport.

The following is a disclosure meant to explain the Airport Improvement Program, Airport Sponsor Assurances, the FAA Airport Compliance Program, and the enforcement of Airport Sponsor Assurances.

The Airport Improvement Program
Title 49 U.S.C. § 47101, *et seq.*, provides for federal airport financial assistance for the development of public-use airports under the Airport Improvement Program (AIP) established by the Airport and Airway Improvement Act of 1982, as amended. Title 49 U.S.C. § 47107, *et seq.*, sets forth assurances to which an airport sponsor agrees as a condition of receiving federal financial assistance. Upon acceptance of an AIP grant, the assurances become a binding contractual obligation between the airport sponsor and the federal government. The assurances made by airport sponsors in AIP grant agreements are important factors in maintaining a viable national airport system.

Airport Sponsor Assurances
As a condition precedent to providing airport development assistance under the Airport Improvement Program, 49 U.S.C. § 47107, *et seq.*, the Secretary of Transportation and, by extension, the FAA must receive certain assurances from the airport sponsor. Title 49 U.S.C. § 47107(a) sets forth the statutory sponsorship requirements to which an airport sponsor receiving federal financial assistance must agree.

The FAA has a statutory mandate to ensure that airport owners comply with these sponsor assurances. FAA Order 5190.6B, *FAA Airport Compliance Manual* (Order), issued on September 30, 2009, provides the policies and procedures to be followed by the FAA in carrying out its legislatively mandated functions related to compliance with federal obligations of airport sponsors. The FAA considers it inappropriate to provide federal assistance for improvements to

airports where the benefits of such improvements will not be fully realized due to inherent restrictions on aeronautical activities.

Certain FAA grant assurances apply to the circumstances set forth in this Complaint: (1) Grant Assurance 5, *Preserving Rights and Powers*; (2) Grant Assurance 19, *Operation and Maintenance;* (3) Grant Assurance 22, *Economic Nondiscrimination;* (4) Grant Assurance 23, *Exclusive Rights;* and (5) Grant Assurance 24, *Fee and Rental Structure*.

Grant Assurance 5, Preserving Rights and Powers

Grant Assurance 5, *Preserving Rights and Powers* (Grant Assurance 5), requires the airport owner or sponsor to retain all rights and powers necessary to ensure the continued operation of the airport consistent with its federal obligations. This assurance implements the provisions of the AAIA, 49 U.S.C. § 47107(a), et seq., and requires, in pertinent part, that the owner or sponsor of a federally obligated airport "...will not take or permit any action which would operate to deprive it of any of the rights and powers necessary to perform any or all of the terms, conditions, and assurances in the grant agreement without the written approval of the Secretary, and will act promptly to acquire, extinguish or modify any outstanding rights or claims of right of others which would interfere with such performance by the sponsor."

Grant Assurance 19, *Operation and Maintenance*

Grant Assurance 19, *Operation and Maintenance* (Grant Assurance 19), requires the owner of an airport developed with federal assistance to operate and maintain a safe airport at all times. The owner will not permit any activity that would interfere with the airport purpose of the facility. Grant Assurance 19 deals with safety and implements the provisions of 49 U.S.C. § 47107(a)(7) and requires that the airport and facilities on or connected with the airport be operated and maintained in a safe manner.

Grant Assurance 22, *Economic Nondiscrimination*

Grant Assurance 22, *Economic Nondiscrimination* (Grant Assurance 22), requires the owner of any airport developed with federal grant assistance to operate the airport for the use and benefit of the public and to make it available to all types, kinds, and classes of aeronautical activity on fair and reasonable terms, and without unjust discrimination. Grant Assurance 22 deals with both the reasonableness of airport access and the prohibition of adopting unjustly discriminatory conditions as a potential for limiting access. Grant Assurance 22 implements the provisions of 49 U.S.C. § 47107(a)(1) through (6), and requires, in pertinent part, that the sponsor of a federally obligated airport:

> *...will make its airport available as an airport for public use on reasonable terms, and without unjust discrimination, to all types, kinds, and classes of aeronautical activities, including commercial aeronautical activities offering services to the public at the airport.* [Grant Assurance 22(a)]

...may establish such fair, equal, and not unjustly discriminatory conditions to be met by all users of the airport as may be necessary for the safe and efficient operation of the airport. [Grant Assurance 22(h)]

...may...limit any given type, kind, or class of aeronautical use of the airport if such action is necessary for the safe operation of the airport or necessary to serve the civil aviation needs of the public. [Grant Assurance 22(i)]

Grant Assurance 23, *Exclusive Rights*

Grant Assurance 23, *Exclusive Rights* (Grant Assurance 23), implements the provisions of 49 U.S.C. §§ 40103(e) and 47107(a)(4), and requires, in pertinent part, that the owner or sponsor of a federally obligated airport:

...will permit no exclusive right for the use of the airport by any persons providing, or intending to provide, aeronautical services to the public.

...will not, either directly or indirectly, grant or permit any person, firm, or corporation, the exclusive right at the airport to conduct any aeronautical activities...

...will terminate any exclusive right to conduct an aeronautical activity now existing at such an airport before the grant of any assistance under Title 49 United States Code.

Grant Assurance 24, *Fee and Rental Structure*

Grant Assurance 24, *Fee and Rental Structure* (Grant Assurance 24), requires the owner of an airport developed with federal assistance to make the airport as self-sustaining as possible. Grant Assurance 24 implements the provisions of 49 U.S.C. § 47107(a)(13) and requires that the airport owner maintain a schedule of charges for use of facilities and services at the airport that will make the airport as self-sustaining as possible under the circumstances existing at the airport, including volume of traffic and economy of collection. It also requires the airport owner to undertake reasonable efforts when entering into new and revised agreements establishing rates, charges, and fees to make the airport as self-sustaining as possible under the circumstances existing at the airport.

The FAA Airport Compliance Program

The FAA discharges its responsibilities for ensuring airport owners' compliance with their federal obligations through its Airport Compliance Program. The FAA's airport compliance efforts are based on the contractual obligations an airport owner accepts when receiving federal grant funds or the transfer of federal property for airport purposes. These obligations are incorporated in grant agreements and instruments of conveyance in order to protect the public's interest in civil aviation and to ensure compliance with federal laws.

The FAA Airport Compliance Program is designed to ensure the availability of a national system of safe and properly maintained public-use airports operated in a manner consistent with the airport owners' federal obligations and the public's investment in civil aviation.

The Airport Compliance Program does not control or direct the operation of airports. Rather, it monitors the administration of the valuable rights pledged by airport sponsors to the people of the United States in exchange for monetary grants and donations of federal property to ensure that the public interest is being served. FAA Order 5190.6B sets forth policies and procedures for the FAA Airport Compliance Program. The Order establishes the policies and procedures to be followed by FAA personnel in carrying out the FAA's responsibilities for ensuring airport compliance. It provides basic guidance for FAA personnel in interpreting and administering the various continuing commitments made to the United States by airport owners as a condition of receiving a grant of federal funds or the conveyance of federal property for airport purposes. The Order analyzes the various obligations set forth in the standard airport sponsor assurances, addresses the nature of those assurances, addresses the application of those assurances in the operation of public-use airports, and facilitates interpretation of the assurances by FAA personnel.

The FAA Compliance Program is designed to achieve voluntary compliance with federal obligations accepted by owners and/or operators of public-use airports developed with FAA-administered assistance. Therefore, in addressing allegations of noncompliance, the FAA will make a determination as to whether an airport sponsor is *currently* in compliance with the applicable federal obligations. Consequently, the FAA will consider the successful action by the airport to cure any alleged or potential past violation of applicable federal obligation to be grounds for dismissal of such allegations.

FAA Enforcement Responsibilities

The Federal Aviation Act of 1958, as amended (FAAct), 49 U.S.C. § 40101, et seq., assigns the FAA Administrator broad responsibilities for the regulation of air commerce in the interests of safety, security, and development of civil aeronautics. Pursuant to 49 U.S.C. § 47122, the FAA has a statutory mandate to ensure that airport owners comply with their federal grant assurances.

Analysis and Discussion

For the most part, the allegations describe decisions made by GIAA that led to actions or omission that concerned the two Complainants. However, the complaint did not describe how and which grant assurances were being violated as a result of GIAA's decisions. The above grant assurances were selected for review because they provide a standard against which to compare the allegations and are the ones that more commonly cause compliance problems for airport owners.

1. Allegation: The GIAA executed the original lease with PacAir for a low ground rent so the cargo building could be used for airport related activities.
FAA Analysis: The record shows that GIAA entered into the original lease and used a professional appraisal to determine the fair market value (FMV) of the leased property based on a proposed use that included both aviation and non-aviation users.

Conclusion: It would appear that GIAA exercised due diligence to plan and execute a lease for the airport property. GIAA did not compromise its rights and powers by soliciting and executing the lease. (Grant Assurance 5) The FAA concludes that there is no grant assurance violation.

2. Allegations: A lease agreement with PacAir was amended four different times incorporating provisions that were beneficial to PacAir and detrimental to GIAA. For example,

- GIAA subsidizes PacAir by paying rent to PacAir for space in the cargo building.
- Rent is deferred and repaid in installments over 15 years without interest.
- GIAA expended resources to promote and execute the leases for the new cargo center.
- Space in the cargo building was subleased to GIAA at excessive rental rates.
- GIAA sub-subleased space to Customs.

FAA Analysis: GIAA made decisions to amend the lease agreement several times and changed the terms and conditions of the lease considerably. In doing so, GIAA exercised its management discretion and prerogative. The FAA cannot replace its own decision for that of the airport sponsor. GIAA has the ability to make good and bad decisions. The quality of a decision does not determine whether or not it complies with the grant assurances. Although critics may deride an airport sponsor's decisions, the decisions may not actually conflict with the grant assurances because even bad decisions may not violate a grant assurance. A decision must cross the line into noncompliance and actually violate the grant assurances before they can be found to be noncompliant by the FAA.

Conclusion: Grant Assurance 24 directs GIAA to make the airport available on reasonable terms for aeronautical uses. Grant Assurance 24 directs GIAA to make the airport as self-sustaining as possible. The assurances do not describe the specific means that GIAA should follow to make the airport available and self-sustaining. Although the criticism alleges that GIAA's decisions were imprudent, imprudence alone is not a violation of the grant assurances. Therefore, we must conclude that they were not a violation of the grant assurances.

3. The lease term was extended from 30 to 50 years. Along with the 10-year option, the full term of the lease was increased to a total of 60 years. Under Guam law, leases greater than 40 years are illegal.

FAA Analysis: In accordance with Grant Assurance 22, the airport must be made available on reasonable terms without unjust discrimination to all classes of aeronautical activities. GIAA was negotiating with PacAir for a new airport cargo facility. Furthermore, GIAA and PacAir apparently considered the new term to be reasonable in view of the other changes to the lease agreements. Furthermore, GIAA provided information to indicate that the lease with PacAir, although greater than 40 years, is not a violation of Guam law.

Conclusion: The FAA cannot speculate whether or not GIAA could have negotiated better terms and conditions. At the time of the negotiations, the terms and conditions were deemed reasonable by the parties. As a result, The FAA concludes that there is no grant assurance violation.

4. GIAA allowed subleasing the PacAir cargo building to non-aeronautical tenants, such as the Social Security Administration.

- PacAir leases space to tenants, some of which are non-aviation businesses. PacAir, rather than GIAA, collects these rents.

FAA Analysis: Both the appraisal and the lease agreement anticipated that the cargo building would be used for aviation and non-aviation activities. The appraisal estimated FMV based on the contemplated use of the building for both aviation and non-aviation tenants. It was also expected that existing airport tenants might relocate to the new facility form elsewhere on the airport. The lease was drafted and the building was built to accommodate the space needs of these different airport groups. Apparently, some off-airport tenants chose to move to the cargo building, such as the Social Security Administration. It appears that the building has ample space, so it can accommodate extra tenants from off the airport without displacing any airport or aeronautical tenants.
Conclusion: The FAA cannot speculate why the Social Security Administration, or any other off-airport entity, relocated to the airport cargo building. The decision to include non-aeronautical tenants in the cargo building is not necessarily improper if the right conditions and approval exist, as they do in this case. Per Grant Assurance 19, non-aviation uses should not interfere with aeronautical uses of the airport. The FAA would not object to leasing of available space to the Social Security Administration at FMV if there is vacant space available in the building that can be used to accommodate aeronautical tenants that might need space in the future. Since the FAA is not objecting to the non-aviation tenants, the FAA concludes that there is no grant assurance violation.

5. A security risk exists because pedestrians and vehicles have access to the cargo building when they visit the facility.
FAA Analysis: GIAA reports that controls are in place to keep unauthorized people from entering the airfield, so GIAA is complying with Grant Assurance 19. The FAA enforces Title 14 Code of Federal Regulations Part 139.329 and 335 and requires that airport owners maintain an effective program to keep pedestrians and vehicles away from the airfield. The Transportation Security Administration (TSA) maintains regulations limiting access to the secured areas of the airport. GIAA is subject to inspections by both the FAA and TSA to ensure these regulations are being enforced. The FAA has not detected any violations of these safety standards during our inspections at GUM.
Conclusion: The FAA concludes that there is no grant assurance violation.

6. Rental rate for the land is below FMV.
   - Rental rate that GIAA pays to PacAir is more than FMV.
   - Rental rate of $0.04 monthly per square foot for ground leases is lower than FMV.
   - Rental rate for warehouse space elsewhere in Guam is $0.50 monthly per square foot.
   - GIAA subleases space in excess of market rates in the cargo building for its maintenance department to subsidize PacAir.

FAA Analysis: The planning done for the cargo center included a professional appraisal to determine the FMV of the airport property. The application of the Grant Assurance 24 to leases for airport property requires that the following standards be used: Aeronautical users must be charged *reasonable rates,* which allow certain flexibility in the rate setting process depending on the specific airport circumstances and the terms of the deal. Non-aeronautical users must be charged *fair market value* rates that are best established using an appraisal.
It is true that the subleasing arrangement of the amended leases has complicated the relationships between landlord and tenants. We are not evaluating the merits of this arrangement. The fact is that GIAA has allowed non-aviation uses of the cargo building, both as landlord and subtenant,

which should be subject to FMV rental rates. Therefore, the FMV standard is appropriate to the existing airport circumstances that exist in the cargo building. Under the master lease, PacAir is subject to a ground rent, which is based on a reasonable standard. As the master tenant, PacAir is entitled to seek a return on its investment and is charging what is considers to be FMV. GIAA has chosen to pay the rental rate that PacAir imposed. Therefore, the two parties have agreed on the rate they consider to be FMV.
As specified in Grant Assurance 22, GIAA made the airport available for an aeronautical activity. GIAA and PacAir negotiated and agreed to rental terms and rates. As explained in the FAA policy, *Policy Regarding Airport Rates and Charges,* airport sponsors have substantial discretion in establishing airport fees and rates structures. The FAA does not set fee levels. The FAA will not generally challenge a fee that is low and prevents a sponsor from recovering its full costs unless the shortfall is unreasonably shifted to another aeronautical group or user. Furthermore, the FAA will not generally investigate fees set by agreement unless it can be shown that its terms and conditions violate a grant assurance, for example, an agreement that grants an exclusive right in violation of Grant Assurance 23. It is assumed the parties to the agreement exercised their due diligence when agreeing to the terms of the agreement and the specific rental rates.
Conclusion: In view of the circumstances, the FAA concludes that there is no grant assurance violation.

7. The lease for the cargo building represents direct competition with tax paying entities.
   - GIAA does not pay real estate taxes, income taxes, or gross receipts taxes.
   - GIAA is competing with off-airport tax paying entities when it executes on-airport leases.

FAA Analysis: It is true that public entities and local government agencies may not be subject to certain local taxes for land they own and control. The FAA does not consider the tax exemption to be a compliance problem with airport leases. This is standard practice for local governments on the United States mainland and in its Territories. However, one may wish to consider if public agencies paid taxes of their own property, they would have to pass these costs along to the users and taxpayers.
Conclusion: The FAA concludes that tax issue does not violate the grant assurances.

8. Requests for proposals (RFP) were not used to solicit bids for spaces occupied by Customs.
FAA Analysis: GIAA reported that there is no local requirement to use RFP's to lease space at the airport. When making the airport available for aviation uses, per Grant Assurance 22, FAA policy does not specify that RFP's are mandatory. The FAA does recommend the use of RFP's when airport space is limited. Use of an RFP helps to avoid the appearance of favoritism or conflict of interest in the selection process. Since RFP's are not mandatory, there is no compliance problem.
Conclusion: The FAA concludes that there is no grant assurance violation.

9. GIAA agreed to provide loan guarantees to PacAir for a portion of a construction loan.
FAA Analysis: GIAA reported that no loans were ever guaranteed. Therefore, there is no issue with a loan guarantee.
Conclusion: The FAA concludes that there is no grant assurance violation.

10. Customs may be leasing more space than needed, which results in higher rental payments to PacAir.
FAA Analysis: The FAA cannot speak for Customs or formulate an opinion regarding its space requirements. This is a local government matter.
Conclusion: The FAA concludes that there is no grant assurance violation.

11. GIAA leased 32,500 square feet of space and spent $80,000 in the process.
FAA Analysis: GIAA explained that it could not reconcile this statement with the actual square feet being leased and the actual amount of rental payments being paid because the allegation does not match the actual figures. Therefore, there is no response to this allegation, although information offered elsewhere in this document does respond to issues dealing with rental space and costs.
Conclusion: The FAA concludes that there is no grant assurance violation.

Final Determination

We have given consideration to all the concerns expressed by the Complainants and have concluded that GIAA's decisions did not result in acts or omissions that represent non-compliance with the grant assurances. While it is true that reasonable people may disagree with decisions made by GIAA, its decisions may not result in a violation of any grant assurance. Within the range of decisions that airport sponsors can make, whether satisfactory or not, the FAA takes an interest in correcting decisions that do not comply with the grant assurances. If a decision does not violate the grant assurances, the FAA does not have authority to intercede to change it. It is GIAA's governing body that is empowered to monitor the actions and decisions of airport management to ensure they are prudent, comply with the law, and safeguard the airport's financial interest.

Unless there is new evidence to demonstrate that GIAA has violated specific grant assurances, the Honolulu Airport District Office considers this matter closed.

Sincerely,

Ronnie V. Simpson
Manager, Honolulu Airports District Office

ANTONIO B. WON PAT INTERNATIONAL AIRPORT AUTHORITY, GUAM
BOARD OF DIRECTORS RESOLUTION NO. 13-02

RELATIVE TO THE
EXTENSION OF THE AGREEMENT FOR LEGAL SERVICES WITH CALVO FISHER & JACOB LLP AND THE AGREEMENT FOR LEGAL SERVICES WITH TEKER TORRES & TEKER NOW KNOWN AS TORRES LAW GROUP

WHEREAS, an Agreement for Legal Services was entered into on May 5, 2010, by and between the ANTONIO B. WON PAT INTERNATIONAL AIRPORT AUTHORITY, GUAM ("GIAA") and Calvo Fisher & Jacob LLP ("CFJ") (the "CFJ Agreement"); and

WHEREAS, an Agreement for Legal Services was entered into on May 5, 2010, by and between the ANTONIO B. WON PAT INTERNATIONAL AIRPORT AUTHORITY, GUAM ("GIAA") and Teker Torres & Teker now known as Torres Law Group ("Torres") (the "Teker Agreement"); and

WHEREAS, the CFJ Agreement provides for a term of one year with four options to extend for a period of one year each, not to exceed a total contract period of five years with GIAA approval; and

WHEREAS, the Teker Agreement provides for a term of one year with four options to extend for a period of one year each, not to exceed a total contract period of five years with GIAA approval; and

WHEREAS, the Board of Directors has determined that GIAA continues to require the services of CFJ and that it is in the best interests of GIAA to extend the term of the CFJ Agreement for an additional one year period commencing on March 23, 2013, under the same terms and conditions as set forth in the CFJ Agreement.

WHEREAS, the Board of Directors has determined that GIAA continues to require the services of Torres and that it is in the best interests of GIAA to extend the term of the Torres Agreement for an additional one year period commencing on March 1, 2013 under the same terms and conditions as set forth in the Torres Agreement.

NOW, THEREFORE, BE IT RESOLVED, that the Board of Directors of GIAA hereby extends the term of the CFJ Agreement for an additional one year period commencing on March 23, 2013, under the same terms and conditions as set forth in the CFJ Agreement; and

BE IT FURTHER RESOLVED, that the Board of Directors of GIAA hereby extends the term of the Torres Agreement for an additional one year period commencing on March 1, 2013, under the same terms and conditions as set forth in the Torres Agreement.

DULY AND REGULARLY ADOPTED BY THE BOARD OF DIRECTORS OF THE ANTONIO B. WON PAT INTERNATIONAL AIRPORT AUTHORITY, GUAM AT THE MARCH 28, 2013 REGULAR BOARD MEETING.

FRANCISCO G. SANTOS, Chairman	**ROSALINDA A. TOLAN**
JESUS Q. TORRES	**MARTIN GERBER**
LUCY ALCORN	**EDWARD G. UNTALAN**

ATTEST:

AMANDA RIOS, Board Secretary

BOARD APPROVAL OF DISBURSEMENTS
February 27, 2013 - March 26, 2013
Ratified by the Board of Directors on
March 28, 2013 Regular Meeting

Payee	Amount	Purpose	Date Approved
Aircraft Service International Group	$87,054.09	Outbound Baggage System for Jan 2013	2/27/2013
Government of Guam Retirement Fund	$147,252.76	Payroll Employee & Employers Contribution for PPE 02/23/13	2/28/2013
BEJJESS Enterprises Inc. DBA: GEMCCO	$80,949.79	CIP - AIP65 Electrical (Power Hardening Phase 2)	3/6/2013

GIAA Board of Directors Meeting
March 28, 2013

AIRLINE ISSUES

CHARTER FLIGHTS

Delta

Delta will be increasing operations between Japan and Guam for Golden week as follows:

- Nagoya/ Guam - Service increases from 7 to 9 weekly from May 2 through 6, 2013.
- Osaka Kansai/ Guam - Service increases from 7 to 9 weekly from May 2 through 6, 2013
- Tokyo Narita /Guam - 1 of 3 daily service will be operated by Airbus A330-300 instead of Boeing 757 from April 26 through May 6, 2013.

Delta regular operations are three daily flights from Tokyo to Guam, one daily flight from Osaka to Guam, and a daily flight from Nagoya to Guam.

Skymark

Skymark, a Japanese domestic airline, commenced service with nine charter flights that operated March 14 through 23, 2013 on the NRT/GUM route utilizing B738 aircraft with a 177-seat capacity, adding 1,593 seats in this 9-day period. The charters were unique in operating during non-peak hours with Skymark's arrival at 7:35pm and departure at 9:40am. Speculation within the industry is that Skymark may be positioning itself to join SkyTeam, of which Delta Air Lines is a member airline.

EVA Air

EVA Air operated 5 additional round trip charter flights to their twice-weekly scheduled flights on the TPE/GUM route between March 17 and 23, utilizing A330 aircraft with a 252 seat capacity. With the inclusion of Taiwan to not only the Guam CNMI Visa Waiver Program, but extended to the U.S. Visa Waiver Program, Guam has become an increasingly convenient and preferred destination for Taiwan travelers with direct flights to Guam serviced by EVA Air and China Airlines.

TICKET COUNTER CONSTRUCTION

Ticket counter construction is underway in the West ticket lobby. Six passenger check-in counter positions are planned to accommodate increased demand and anticipated new market entrants.

FIDS/BIDS System Upgrades

Interim upgrades to the FIDS/BIDS system will begin with the replacement of monitors and system software updates which will include access to the system to all airlines and staff as well as remote user capabilities. The current system software is 16 years old, and the modification or upgrade will tie into all electronic signage at gates, baggage information monitors, and Flight Information Display units. The replacement monitors are 42" LEDs, which are 16 inches larger than current monitors for enhanced visibility.

GIAA Board of Directors Meeting
March 28, 2013

LEGISLATIVE ISSUES

Bill 60-32
An act to create the "*Made in Guam*" business incubator program within the Antonio B. Won Pat Guam International Airport Authority; to authorize the promulgation of rules and regulations for the program; to provide incentives for eligible businesses; and, to provide sources of funding for the program.

Bill 55-32
An act relative to transfer of the a tract of land currently leased to South Pacific Petroleum Corporation from the Guam International Airport Authority to the Chamorro Land Trust Commission.

Bill 52-32
An act relative to the transfer of autonomous agency revenues to the autonomous agency collections fund. This pertains to the $875k annual assessment on GIAA, PAG, and GPA for use of general fund services, uncollected since 1985 to present, and to the future, be null and void.

Bill No. 29-32
An act relative to Competitive Equalization Act on the leasing of Government of Guam property. This bill would require all income received from commercial land leases made by autonomous agencies and public entities to be assessed business privilege taxes, and that all improvements made on these commercial leased properties be assessed real estate taxes.

Bill 69 -32
An act to relative to the duration of commercial leases for public real property and related facilities. This bill seeks to establish a five (5) year standard for the duration of leases, inclusive of extension and renewal options.

FAA Visit
Representatives from FAA's Airport District Office will be meeting with Management and Division Heads on April 15 and 16, 2013 to discuss AIP project updates and general compliance. FAA's annual certification inspection of Guam Airport facilities is scheduled for April 29, 2013. Training, annual re-certifications, self inspections, documentation and record-keeping will be reviewed, along with the airfield, runways, aprons and safety areas.

TSA
TSA has awarded the Airport Authority of $1,051,200.00 to fund 3 years services under its LEO Reimbursement Program. This programs approximately $350K a year for Airport Police services at the TSA checkpoint, and is effective April 1, 2013.

PROCUREMENT

MEMORANDUM

To: Mr. Francisco G. Santos
Chairman
GIAA Board of Directors

From: Carlos Bordallo
Acting Comptroller

Subject: **Operating Results - Revenues and Expenses as of February 28, 2013**

Attached herewith is GIAA's Operating Results Report for the month ending February 28, 2013. This report summarizes the Budgeted versus Actual Revenues and Expenses for the month and year-to-date results ended February 28, 2013.

The key operating results for 5 month(s) of FY 2013 ending February 28, 2013 - (in $000's) are:

CATEGORY	YEAR-TO-DATE				FORECAST FOR FULL YEAR-FY13	
	Budget FY 13 Y-T-D	Actual FY 13 Y-T-D	% Variance Budget vs. Actual		Actual Y-T-D + Remaining FY 13 Budget	% Variance Budget vs. Estimate for Full Year
			Y-T-D Current Month	Y-T-D Last Month		
Total Signatory Revenues	$11,342.5	$12,319.1	8.6%	7.8%	$28,298.9	3.6%
Total Concession Revenues	$4,642.5	$4,580.0	-1.3%	1.2%	$10,795.7	-0.6%
Total PFC's	$2,490.0	$2,761.1	10.9%	13.7%	$6,246.5	4.5%
Total Other Revenues	$6,454.6	$6,470.4	.2%	8.9%	$15,148.7	.1%
Total Operating Revenues	$24,929.6	$26,130.6	4.8%	7.4%	$60,489.8	2.0%
Total Operating Expenses	$18,336.2	$14,208.9	-22.5%	-25.3%	$36,315.1	-10.2%
Net Revenues from Operations	$6,593.4	$11,921.7	80.8%	123.0%	$24,174.7	28.3%
Non-Operating Expenses	$250.0	$195.4	-21.8%	-30.5%	$445.4	-10.9%
Other Available Moneys/other sources of funds	$2,004.7	$1,803.5	-10.0%	-0.0%	$4,582.1	-4.2%
Net Debt Service Coverage	**1.22**	**1.94**	**59.2%**	**87.4%**	**1.69**	**21.5%**

AMERICAN ASSOCIATION OF AIRPORT EXECUTIVES
AIRPORTS COUNCIL INTERNATIONAL
NASAO National Association of State Aviation Officials
TIACA THE INTERNATIONAL AIR CARGO ASSOCIATION

Year-to-date Total Signatory Revenues for the month ending February 28, 2013 are above Budgeted revenues by **8.6%.** Signatory revenue estimates are based on projections submitted by Signatory airlines and adopted in the annual budget.

Year-to-date Total Concession Revenues are below budget estimate by **-1.3%** and Passenger Facility Charges are above budget estimates by **10.9%.**

Year-to date Total Other Revenues, inclusive of non-signatory and non-airline revenues, are above the budget estimate by **.2%.**

Year-to-date Total Operating Revenues Actual of **$26.1M** is **4.8%** above the budget estimate of **$24.9M.**

Year-to-date Total Operating Expenses are below budget by **-22.5%** from budget. Components of this line item include a **-11.5%** decrease in Personnel Service, a **-27.7%** decrease in Contractual Services, a **-44.0%** decrease in Materials & Supplies and a **-100%** decrease in Equipment/Furnishings from budgeted amounts for these respective categories.

The actual year-to-date Net Revenues from Operations of **$11.9M** reflects an increase of **80.8%** over the year-to-date budgeted amount of **$6.6M.**

Finally, our year-to-date results for Debt Service Coverage is at **1.69** versus the requirement of **1.25.**

MINUTES OF THE BOARD OF DIRECTORS SPECIAL MEETING
3:00 p.m., Friday, April 12, 2013
GIAA TERMINAL CONFERENCE ROOM #3

1. CALL TO ORDER AND ATTENDANCE

Chairman Francisco G. Santos called the A.B. Won Pat International Airport Authority, Guam (GIAA) special meeting to order at 3:15 p.m. The presence of Directors is noted as follows: Jesus Q. Torres, Vice Chairman, Rosalinda A. Tolan; Martin J. Gerber; Edward G. Untalan, and Lucy M. Alcorn. Also present were Charles H. Ada II, Executive Manager, Peter Roy Martinez, Deputy Executive Manager, Carlos P. Bordallo, Acting Comptroller, Frank R. Santos, Business and Financial Consultant, Janalynn C. Damian Esq., and Michael A. Pangelinan Esq., Legal Counsel. The Chairman welcomed the presence of Airport Tenants, stakeholders, and members of the public who are noted in a sheet made as an attachment to the minutes.

At this time Chairman Santos acknowledged the presence of Mr. Pedro (Sonny) Perez Ada III. The Chairman informed the Board that Mr. Ada's Confirmation Hearing was April 8th, 2013; he is now just awaiting approval from the Legislature before becoming an official Board Member. The Chairman stated it is honor for Mr. Ada to be a part of the Airport Board of Directors and thanked him for attending the meeting.

2. APPROVAL OF AGENDA

Director Tolan made motion to approve the agenda as presented, seconded by Vice Chair Torres; motion carried.

3. MATTERS FOR BOARD RATIFICATION/APPROVAL

A. Appropriation to Capital Improvement Fund

Mr. Frank Santos presented item A. He informed the Board that during the course of the year, GIAA has worked closely with FAA in planning future projects for the Airport. The three (3) projects listed were anticipated during the budget preparation for Fiscal Year 2013. Board's approval is requested to appropriate the sponsors share for each project to the Capital Improvement Fund. Once approved, preparation may begin on the Request For Proposals for each project. The projects are as follows:

	Sponsor	FAA
1. Sterile Arrivals Corridor (Design Only)	$139,000	$1,250,000
2. Aeronautical Survey (AGIS) Phase 2	$ 54,000	$ 486,000
3. Extend Runway 6L/24R Completion Part B	$222,845	$2,005,605
TOTAL	$415,845	$3,741,605

Mr. Santos informed the Board, that the requested amount to be appropriated is $415,845.00. Vice Chair Torres inquired on project number one (1), the Sterile Arrivals Corridor, and if this project will include eliminating the divider in the Arrivals Corridor. Mr. Santos responded stating that the divider will be eliminated, but needs to be designed first. This will be an ongoing upgrade project consisting of three (3) phases so as not to disrupt the flow of the arrivals area. Vice Chair Torres made motion to appropriate the requested amount of $415,845.00 to the Capital Improvement Fund, seconded by Director Alcorn; motion carried.

B. Approval of Award for Specialty Retail Concession Multi Concepts RFP No. GIAA010-FY12

The Executive Manager stated that the Airport solicited proposals from qualified concessionaires to develop, construct and operate a high quality specialty retail concession at the main passenger terminal featuring branded merchandise products using exciting and innovative marketing and merchandising techniques to enhance the terminal environment and to appeal to the traveling public. A total of eight (8) firms obtained RFP packages, however only four (4) firms submitted proposals before the deadline of October 17, 2012. To maintain the confidentiality requirement of the procurement law, each of the proposers were randomly assigned a letter designation. The four (4) proposals were evaluated by a committee and as a result, Management recommends that the Board approve the contract award to the highest ranked proposer, Proposer 'A'; subject to the successful negotiation of the said Agreement. If negotiations prove unsuccessful, Management may commence negotiations with the next highest ranked proposer. Before voting commenced, the Chairman stated for the record that he and Director Tolan will continue to abstain from discussing or voting on item B, and requested that item B be chaired by the Vice Chairman. Since the Board had no objection, the Acting Chairman called for a motion on item B. Director Untalan made motion to approve Management's recommendation, seconded by Director Alcorn; motion carried.

At this time Acting Chairman called on the Executive Manager to announce the concessionaire that was randomly designated the letter 'A'. The Manager announced that the proposer ranked number one and approved to commence negotiations is Lotte Duty Free.

4. ADJOURNMENT

Vice Chair Torres made a motion to adjourn the meeting, seconded by Director Tolan; motion carried. The meeting adjourned at 3:32 p.m.

Respectfully submitted,

Amanda O'Brien-Rios
Board Secretary

APPROVED:

FRANCISCO G. SANTOS
Chairman of the Board

Pizza Hut – From a secret lab comes a cheesy idea

PLANO – For around 16 months, Chef Wiley Bates III has done his work in a closely monitored, difficult-to-access test kitchen in Plano, Texas, one where research is conducted, where ideas are abandoned or advanced, and where product development is handled with care.

It is near this kitchen, located within an attractive building in a suburban office park, that he and a set of his colleagues are seated around the newest product from the pizza seller, the Crazy Cheesy Crust pizza.

The name is a fair one, though perhaps only by seeing it in person can one truly appreciate it. This particular item relies on the hand-tossed crust, but it comes with an immediately noticeable difference rather than the slices ending in that familiar arc of baked dough, each piece of the Crazy Cheesy Crust has appended to it two edible pockets filled with melted cheese.

Courtesy of Pizza Hut

"You notice how the dough actually nestles around," Chef Bates says. "The hand-tossed [crust] lends itself to absorbing some of those wonderful flavors, while again maintaining the integrity of the cheese."

His description of the pizza's characteristics and how it came to exist can perhaps be summed up by one short statement he adds: "Consumers always want more cheese."

(Yahoo! News)

Weak economic reports send stock market lower

NEW YORK (AP) – Weak reports on hiring and service industries sent the stock market sharply lower Wednesday, giving the Dow Jones industrial average its worst day in more than a month.

The Dow fell 111.66 points, or 0.8 percent, to 14,550.35, its worst decline since Feb. 25. The Standard & Poor's 500 index dropped 16.56 points, or 1.1 percent, to 1,553.69. Both indexes closed at record highs the day before.

The reports Wednesday disappointed the market and came two days after news that U.S. manufacturing growth slowed unexpectedly last month.

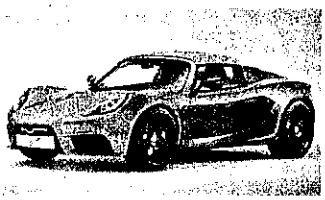
The losses were widespread. All 10 industry groups in the S&P 500 index fell. Banks and energy stocks had the worst losses, 1.7 percent and 1.6 percent. Utilities, which investors hold when they want to play it safe, fell the least, 0.3 percent.

Japan central bank revamps policy to boost economy

TOKYO (AP) – Japan is making a sweeping shift in its monetary policy, aiming to spur inflation and get the world's third-largest economy out of a long, debilitating slump.

Bowing to demands from Prime Minister Shinzo Abe for more aggressive monetary easing, the Bank of Japan announced Thursday a policy overhaul intended to double the money supply and achieve a 2 percent inflation target at the "earliest possible time, with a time horizon of about two years."

The central bank said it was launching "a new phase of monetary easing both in terms of quantity and quality" to "drastically change the expectations of markets and economic entities."



Financial markets, which had feared new BOJ Gov. Haruhiko Kuroda might not live up to expectation for bold steps, reacted with relief. The Japanese yen, which was trading at about 92.8 yen per U.S. dollar, dropped to about 94.95 yen per dollar by mid-afternoon Thursday after the announcement. The benchmark Nikkei 225 stock index rebounded from negative territory to close 2.2 percent higher.

The policy shift is a coup for Abe, whose Liberal Democratic Party needs to make headway in reviving the economy before an upper house parliamentary election in July. The LDP is hoping for a strong enough mandate to push ahead with other items on their wish list, such as politically difficult economic and educational reforms and changes to the constitution to give Japan's military a higher profile.

$135K battery-powered sports car

DETROIT (Reuters) – Detroit Electric, a startup electric-car maker reviving a brand that dates back more than a century, unveiled its first model on Wednesday: a $135,000, battery-powered sports car that is to go into limited production in August.

With a projected top speed of 155 mph, the Detroit Electric SP:01 is "the world's fastest pure-electric sports car," the company says, adding the two-seater has a range of "just under 190 miles" between charges.

◀Detroit Electric's two-seat all electric sports car model named SP:01 is shown in this recent photo released to Reuters on April 3. Reuters

Income tax filing deadline approaches

By Frank Whitman
frank@mvguam.com
Variety News Staff

ON MONDAY, April 15, Department of Revenue and Taxation officials estimate about 7,000 taxpayers will file their 2012 income tax returns. In order to ease the filing process and avoid congestion at DRT's Barrigada office, the department will man tables to accept returns at the center courts of Micronesia Mall and the Agana Shopping Center from 10 a.m. to 4 p.m. on Friday, April 12 and on Monday, the final day to file the returns without penalty.

"You can drop off returns [at the shopping centers]," said Marie Benito, deputy director of Revenue and Taxation. "There will be no payments accepted; there won't be any cashiers there." The satellite shopping center locations will each be staffed with six Rev and Tax employees.

The satellite locations will also have available "basic" tax forms – 1040EZ, 1040A and 1040, Schedule B, Schedule 8812 and Schedule EIC, "and of course, the Form 4868, [for an] automatic six-month extension," Benito said. "If you need any of the complicated forms or other schedules, then you have to come to the department."

The department has offered the satellite locations for the past two years, Manglona said. Last year, 2,000 or 3,000 taxpayers filed their returns at the shopping centers. "We had comments from the public that it's so convenient," she said.

At the Barrigada office, canopies will be set up in the parking lot where returns can also be dropped off, though payments will only be accepted at the collections branch and the Treasurer of Guam cashier inside the Rev and Tax building. Payments are also accepted at the other Treasurer of Guam locations – the Department of Administration in Hagåtña and the Department of Public Works One Stop Center in Upper Tumon.

A drop box is also at the front of the building, and returns can be placed inside it – no later than midnight, April 15 to avoid a penalty. "The drop box is monitored," Benito said. "[Staff is] here all night collecting the returns. Anything dropped off after midnight is considered April 16."

Mail

Taxpayers can also mail returns to the department which will in turn consider them timely, provided the returns are postmarked no later than April 15.

Online filing is also available at myguamtax.com only for taxpayers using form 1040EZ. Electronic forms must be filed not later than midnight, April 15.

The returns of taxpayers who file Form 4868 for an extension are due Oct. 15.

Benito said taxpayers should take care to avoid mistakes that might result in penalties or delay refunds. "Do not put down your residential address if that's not where you get your mail," she said. "It must be where you get your mail."

Taxpayers should make sure the proper schedules and copy B of Form W-2 are attached to the return. "Review the return for errors," she said. "If it's mathematical, we will correct it and send them the adjustment."

Any incorrect Social Security number – for taxpayer, spouse or dependent – may result in a $50 penalty, Benito said. She also reminded taxpayers that returns must be signed. "If we find something that we need to clarify, we'll send a notice to the taxpayer," she said. "It's called a 30-day notice and they'll come in and respond to that."

As of yesterday, 38,947 taxpayers had filed 2012 returns, leaving more than 22,000 still to file, Benito said. About 46,000 returns require refunds, she said. The department expects about $4 million in income tax payments. Based on recent years, officials expect about 5,900 taxpayers to file for extensions and they will pay about $2.2 million when they file returns.

Marie Benito

Refunds

As of March 27, the government had paid about $29 million in tax refunds for all 7,668 taxpayers who had filed error-free returns through Feb. 12. The administration of Gov. Eddie Calvo is "making every effort" to continue paying refunds in a timely manner, said Benita Manglona, director of the Department of Administration.

While the government has paid out refunds with almost all of the money it had designated for that purpose, it will continue to set aside 26 percent of tax revenues every month to pay refunds. "Tax refunds are a priority of this administration," she said. "This is the first time they have been paid in such a timely manner."

She also acknowledged that the government "is mindful" of the permanent injunction issued by the District Court of Guam in January mandating that tax refunds be paid within six months. The injunction was the result of a class-action lawsuit regarding the government's historical record of paying tax refunds years after returns were filed.

Calvo cancels his China trip

DUE to the ongoing North Korea threat, Gov. Eddie Calvo has canceled a trip to China planned for next week, according to a statement yesterday from the Governor's Office. During the trip, Calvo was to meet with Chinese officials and the U.S. Ambassador. The governor will remain on Guam.

"While my meetings in China are important, there is always another time to go," Calvo said in the statement. "There is a need for everyone to be vigilant and prepared for anything, even though the threat level isn't alarming at this time. We've been busy preparing and testing the components of our emergency management system, and we've been fielding calls at the Joint Information Center. Many people have concerns. I want to stay with Guamanians during this time to help relieve any concerns there may be. I'm not going anywhere. Because of our current heightened status, it's important we work together to get Guam prepared and to sharpen our vigilance."

According to a release on the National Governors Association website, Calvo was to have been a member of a four-governor delegation that includes Gov. Terry Branstad of Iowa, Gov. Bob McDonnell of Virginia and Gov. Scott Walker of Wisconsin. While there, they were to participate in the third U.S.-China Governors Forum.

GIAA BOARD OF DIRECTORS

SPECIAL MEETING

April 12, 2013, 3:00 p.m.

Appropriation to Capital Improvement Fund

In anticipation of federally-assisted grants for FY'13, management requests Board consideration and favorable action to appropriate unencumbered funds to the Capital Improvement Fund as outlined below.

The funds to be appropriated represent the sponsor or GIAA's share of a FAA grant at a 90/10 percentage split. The projects are as follows:

	Sponsor	FAA
1. Sterile Arrivals Corridor (Design Only)	$139,000	$1,250,000
2. Aeronautical Survey (AGIS) Phase 2	54,000	486,000
3. Extend Runway 6L/24R Completion Part B	222,845	2,005,605
TOTAL	$415,845	$3,741,605

The amount requested to be appropriated to the CIF is $415,845.

We appreciate the Board's consideration and approval.

ANTONIO B. WON PAT INTERNATIONAL AIRPORT AUTHORITY, GUAM
BOARD OF DIRECTORS
EXECUTIVE SUMMARY

REQUEST FOR PROPOSAL FOR
SPECIALTY RETAIL CONCESSION – MULTIPLE CONCEPTS
RFP NO. GIAA010-FY12

April 12, 2013

Purpose

Board action is requested to approve the ranking results by the Evaluation Committee of the proposals submitted in response to Request for Proposal No. GIAA-010-FY12, Specialty Retail Concession – Multiple Concepts.

Background

Under the RFP, GIAA seeks a qualified concessionaire to develop, construct, and operate a high quality specialty retail concession at the GIAA Main Passenger Terminal. GIAA seeks a concessionaire who will market and sell high quality, branded merchandise products, using exciting, innovative marketing and merchandising techniques that will appeal to the traveling public, and will employ culturally and aesthetically pleasing facility designs that will enhance the GIAA Terminal environment.

Procurement Background

The RFP was issued on July 19, 2012. The advertisement for this RFP was published in the Pacific Daily News on July 19, 23, and 25, 2012, and in the Marianas Variety on July 19, 23, and 30, 2012. The deadline for the submission of proposals in response to the RFP was October 17, 2012 via an addendum to the RFP.

Eight (8) firms acknowledged receipt of the RFP package and four (4) firms submitted proposals on or before the submission deadline.

To maintain the confidentiality requirements of the Procurement Law, each of the proposers were randomly assigned a letter designation of A, B, C, or D, by lottery. The designations are a part of the Procurement Record.

An Evaluation Committee was appointed by me comprised of the following individuals:

a. Pedro R. Martinez, Deputy Executive Manager
b. Jean M. Arriola, Airport Services Manager
c. Carlos Bordallo, Comptroller
d. Frank Santos, Expansion Office

Pursuant to Part III (F) of the RFP package, after receipt of all proposals the GIAA Evaluation Committee conducted an independent evaluation of the four (4) proposals

submitted for the purpose of selecting the best qualified proposer based on the evaluation criteria established in the RFP. Interviews with each proposer were also conducted.

Ranking Results

The Evaluation Committee completed their evaluation and the scores were tabulated and ranking established. As a result of the tabulation of the ranking, the proposers were ranked as follows:

1. Proposer A
2. Proposer D
3. Proposer C
4. Proposer B

Financial

The rent under the concession agreement will be the greater of a minimum annual guarantee or a percentage of the concessionaire's gross revenues.

Proposers were required to propose Minimum Annual Guaranteed Rent (MAG) in an amount equal to or exceeding $6,000,000.00 each lease year.

Proposers were required to propose a Percentage Rent at a rate equal or exceeding 25% of the concessionaire's annual gross revenues for each lease year

Capital investments for the retail space must exceed $250 per square foot.

Legal

Subject to successful negotiations and legal review, a concession agreement will be entered into with the highest ranked proposer. If negotiations are unsuccessful, GIAA may commence negotiations with the next highest ranked proposer.

Recommendation

Based on the tabulation of Evaluation Committee's ranking of the proposers, **Proposer A** is ranked number one and is the best qualified firm to perform the required services in accordance with the criteria set forth in the RFP. Also, **Proposer A** has been determined to have met the standards of responsibility and responsiveness outlined in the Guam Procurement Regulations.

Therefore, it is recommended that the Board of Directors approve the ranking of the proposers as determined by the Evaluation Committee, that **Proposer A** be given the first opportunity to negotiate the Specialty Retail Concession Agreement, and that in the event that the aforementioned negotiations prove unsuccessful, GIAA may commence negotiations with the next highest ranked proposer.

MINUTES OF THE BOARD OF DIRECTORS REGULAR MEETING
3:00 p.m., Thursday, April 25, 2013
GIAA TERMINAL CONFERENCE ROOM #3

1. CALL TO ORDER AND ATTENDANCE

Chairman Francisco G. Santos called the A.B. Won Pat International Airport Authority, Guam (GIAA) regular meeting to order at 3:08 p.m. The presence of Directors is noted as follows: Jesus Q. Torres, Vice Chairman, Rosalinda A. Tolan; Edward G. Untalan; Pedro P. Ada III, and Lucy M. Alcorn. Also present were Charles H. Ada II, Executive Manager, Carlos P. Bordallo, Acting Comptroller, Frank R. Santos, Business and Financial Consultant, Janalynn C. Damian Esq., and Michael A. Pangelinan Esq., Legal Counsel. The Chairman welcomed the presence of Airport Tenants, stakeholders, and members of the public who are noted in a sheet made as an attachment to the minutes.

At this time Chairman Santos acknowledged the presence of Director Ada. The Chairman welcomed the Director informing the Board that he was sworn-in at the Governor's Office this morning. Director Ada thanked the Chairman and stated that he looks forward to being an asset to the GIAA Board of Directors and that he appreciated the support shown to him by GIAA at the Legislative Hearing and the Swearing-In Ceremony this morning. The Board members welcomed the new Director.

2. APPROVAL OF AGENDA

Vice Chair Torres made motion to approve the agenda as presented, seconded by Director Alcorn; motion carried.

3. APPROVAL OF MINUTES

A. March 28, 2013 Board Regular Meeting
B. April 12, 2013 Board Special Meeting

Vice Chair Torres made motion to approve the minutes of both meetings, subject to correction, seconded by Director Alcorn; motion carried.

4. CORRESPONDENCE

The Executive Manager informed the Board that several correspondence were received relative to the Specialty Retail Concession that was recently awarded, and suggested that it be moved to Executive Session.

5. MATTERS FOR BOARD RATIFICATION/APPROVAL

A. Approval of Award for Custodial Services IFB No. GIAA-001-FY13

An Invitation For Bid was announced to solicit bids from professional firms to provide custodial services at the Guam International Air Terminal, inclusive of all labor, materials, supplies and equipment. The term of the contract is for a period of three (3) years with options for renewal, not to exceed a total term of five (5) years. Of the twenty-one (21) firms that received bid packages, seven (7) firms submitted bids before the submission deadline. In reviewing the bid prices submitted, the potential amount of the bid award for all of the Terminal Levels totaled $875,557.68. The Manager stated that additional custodial services were added to include: Administration third floor offices and balcony, Air Terminal Services offices, Properties and Facilities break room, Terminal Conference Rooms 1, 2, and 3, Ramp Control Center office, and Terminal Center. The Executive Manager requested that the Board authorize the contract award for the four (4) bid items as follows:

ITEM & DESCRIPTION	**AWARD TO**
Item 1: Basement Level	MTO Maintanance
Item 2: Apron Level	Guam Cleaning Masters
Item 3: Concourse Level	Guam Cleaning Masters
Item 4: Other Facilities	JJ Global

It has been determined that all three firms have met the standards of responsibility and responsiveness outlined in Guam Procurement Regulations. Director Tolan inquired on Item 4, and what area JJ Global will be servicing. The Executive Manager answered, informing the Board that Item 4 consists of the additional custodial services that were added, to include Administration Offices third floor and balcony. Director Ada asked that if the contract is awarded to the lowest bidder, how Management upholds the standard. Executive Manager responded, stating that there are provisions within the contract allowing Management to monitor their work and even withhold payment if the standards outlined in the scope of work are not met. Vice Chair Torres made motion to approve Managements recommendation, seconded by Director Ada; motion carried.

B. 2013 Bond Legislation

The Executive Manager informed the Board the Bond Legislation consists of three (3) components and handed over the presentation to Mr. Frank Santos, Business and Financial Consultant. Mr. Santos informed the Board members that the handouts given

out include the proposed legislation in draft form and presentation material regarding an overview and background of the 2003 Bonds.

The first of the three (3) components is the refunding of the 2003 Bonds. The 2003 Bonds were issued to refund the 1993 GIAA Bonds which financed the construction of the new Airport. The estimated amount outstanding is $145,415,000. Refunding it precludes GIAA from paying the Bond Insurer, MBIA. In October of this year, GIAA will be required to pay approximately $795,000 to MBIA if the 2003 Bonds are outstanding, including $25,000 annual Surveillance Fee. Mr. Santos stated that GIAA is looking at a lower interest rate and avoiding charges that do not make sense at this point. The current Bonds are approximately 5.95%. As of today, GIAA is looking at a potential rate of 3.5%, which justifies the refunding of the Bonds. Mr. Santos informed the Board that the Legislation in itself is calling for a maximum interest rate of 6.5%. Once GIAA requests for a lower rate than the one stated by law, GIAA cannot pursue the refinancing, the maximum rate of 6.5% would be capped but likely wouldn't be lowered to make the refunding feasible.

Mr. Santos stated that the second component is to refinance the subordinate loan, the Energy Management Program taken out last year of 11.9 million. The loan would have been paid over five (5) years with the bulk of the principal interest paid in the last four (4) years, committing to 3.2% per year. To extend the loan out over a ten (10) year term would mean a lower annual payment.

The third component is New Money. Mr. Santos informed the Board that the master plan identified nine (9) projects estimating $77,300,000. Mr. Santos handed out a three (3) year draft list of projects which showed a $41,960,000 in Bond proceeds. Based on the savings from the refunding, if GIAA were to take 10% of the GIAA Debt Service of eighteen (18) million, 10% savings is 1.8 million. That 1.8 million can translate into 45-65 million dollars worth of projects, without increasing the current Debt Services. Therefore, the new money is from the savings of the Debt Service because of the lower interest rate.

After a brief presentation of the three financial components, Refunding, Refinancing the Energy Management loan and New Money, Mr. Santos stated that there is no projected increase in Debt Service therefore, no increases in airline rates and charges at this time that GIAA is contemplating. There are administrative components to the Legislation, to include increasing any subordinate loans from five (5) years to ten (10) years. It also includes increasing the terms for exclusive service agreements from five (5) years to ten (10) years. Mr. Santos went on to say that once Board approves the authorization, Management will introduce the draft Legislation to be revised, to include additional projects and any other modifications that the finance team should make. The finance team consists of GEDA, the Airport, and the Governor's Office from the Government Sector. The private sector is the Underwriter's: Citigroup, Wells Fargo, the Bond Council,

and the Underwriter's Council. Mr. Santos stated that a finance team was set up to process all of the official statements, the offer, preparing for the two (2) formal presentations to Standard & Poor's and Moody's.

The presentation to the rating agencies is expected in June, the Bond pricing in July, and the Bond closing in August 2013. Mr. Santos informed the Board that at this time Management is asking for Board authorization to proceed with the introduction of the Legislation to the Governor's Office and Oversight Senator. Vice Chair Torres stated that the Oversight Chairman should always be kept informed in regard to this item B, the Executive Manager responded, informing the Board that the Senator was in attendance at the presentation with Citigroup. Director Ada inquired if the forty (40) million toward improvements was a set priority. Mr. Santos replied, informing the Director and the Board that the list is based on what the market conditions are in June. The amount of savings results in 45-65 million dollars worth of projects. When the projects are put together, there will be a list Priority One projects, which will include most of the projects listed on the handout; Priority Two projects, consisting of projects that will support the Airport in terms of first and last impressions, and improve the passenger experience. Mr. Santos answered yes; most of these projects are priority. Eventually we will have a list of Priority One and Priority Two projects which will include additional projects.

Director Ada inquired on the refinance money, if it would be extending out the terms as well. Mr. Santos responded that the refunding won't, but the refinancing of the Energy Loan, yes. Director Ada added that it would be stretching out the payment terms. Mr. Santos replied, yes.
Chairman Santos called for a motion to authorize the Executive Manager to draft and proceed, Director Untalan made motion to authorize Management to introduce the draft legislation, seconded by Director Tolan; motion carried.

C. Ratification of Quarterly Travel

Vice Chair Torres made motion to ratify the quarterly travel from January - March 2013. With the majority of the employees travelling being ARFF personnel travelling to Saipan for their Live Fire Certification, The Vice Chair stated that the travel was critical to enhance the skills of GIAA Fire Fighters and inquired if the facility in Saipan is still up to par. The Executive Manager responded stating yes, that GIAA along with other airports in the region are utilizing the facility. Director Ada inquired as to why the travel is ratified after the travel has already occurred. Mr. Bordallo responded informing Director Ada that the budget is prepared every year with a travel calendar, and every year a portion of the budget is allocated for travel. Ms. Arriola also added that the travel policy requires the Board to approve any travel. Once the Chairman approves, the employee travels, the Board then ratifies the approval that the Chairman has made. As there were no further discussion, the motion was seconded by Director Tolan; motion carried.

D. Ratification of Disbursements

Vice Chair Torres made a motion to ratify payments above the $50,000.00 threshold made to vendors for the period of March 27, 2013 – April 22, 2013, seconded by Director Untalan; motion carried.

6. OLD BUSINESS

A. Executive Manager's Report

The Executive Manager presented updates on various matters concerning airlines and charter operations, to include China Airlines announcing eight (8) new charter flights for the month of May. Four (4) flights arrive Friday, May 3rd from Fukuoka, Kansai, and Taipai; and four (4) flights will depart Monday, May 6th.

The Manager reported that terminal improvements continue in the West Ticket Lobby, with the construction of new ticket counters almost complete.

The FAA Airport District Office (ADO) Manager, Mr. Ron Simpson was here on island to meet with Management, Division Heads and also met with some of the Board Members on April 15 and 16, 2013. The visit was to discuss AIP projects and general compliance issues. The Executive Manager went on to add that before Mr. Simpson departed, he expressed his gratitude and satisfaction with the efforts made by GIAA. FAA's annual certification inspection of Guam Airport Facilities is scheduled for Monday, April 29, 2013. Last year's inspections yielded minimal discrepancies, which GIAA has worked hard to address. The Manager noted for the Board's information that last year's discrepancies were the fewest in the region.
The Executive Manager informed the Board that GIAA has been advised that the FAA is implementing traffic management initiatives at airports and facilities around the country as a result of employee furloughs due to sequestration. Travelers are expected to see a wide range of delays that will change daily depending on staffing and weather related issues. GIAA Management does not foresee any impacts locally in the near future.

TSA Federal Security Director (FSD) Brian Cahill has notified GIAA that there have been delays in implementing changes to TSA's Prohibited Items List. The changes were supposed to take effect April 25, 2013 but were delayed to accommodate further input from the Aviation Security Advisory Committee (ASAC). FSD Cahill has expressed his commitment to sharing the updated information with GIAA as soon as it becomes available.

The Executive Manager announced to the Board that on April 24, 2013 a positive rating update from Moody's Investors Service was received indicating that GIAA's 2003 Revenue Bonds Baa2 Rating was reaffirmed with a 'stable' outlook. Guam has the

potential for greater growth with the possible increased military presence on Guam and more tourism opportunities from the mainland, China and Russia.

In regard to the Annual Budget the Manager reported that GIAA has begun the annual budget review and preparations for fiscal year 2014. GIAA is required to submit a preliminary budget to the carriers by July 1st of every year, as stated in the signatory airline agreement.

At this time the Executive Manager welcomed the newly appointed Board Member, Director Ada.

Announcing procurement issues, GIAA officially received a protest from DFS on Tuesday, April 23, 2013 in response to the Specialty Retail Concession RFP being awarded to Lotte Duty Free at the last Special Board Meeting held April 12, 2013.

GIAA sent a delegation of four (4) members to the 8th Airports Council International (ACI) Asia-Pacific Regional Assembly, Conference and Exhibition held in Phuket, Thailand from April 22 – 25, 2013. The delegation consisted of Deputy Executive Manager, Peter Roy Martinez, and Board Director, Martin Gerber; staffed by GIAA Marketing Administrator, Rolenda Faasuamalie, and Marketing Program Coordinator, Marcia Taitano. The team is also there as an exhibitor to market and push attendance for the upcoming ACI Asia-Pacific 2013 Small and Emerging Markets Seminar scheduled for October 8 – 11, 2013, which will be hosted by Guam. The Manager announced that the Deputy Executive Manager is attending the conference as the First Vice Chair of the Small and Emerging Airports Committee and will be installed as a Regional Board Member of ACI Asia Pacific. Following the ACI Conference, Deputy Executive Manager Martinez and Director Gerber will travel on to Bangkok, Thailand to attend the Pacific Asia Travel Association (PATA) Annual Summit from April 25 – 28, 2013. Deputy Executive Manager will represent the Executive Manager, Charles H. Ada II who was nominated and accepted the nomination to the PATA Board.

Director Ada inquired on the furloughs and or delays, and if Guam will be affected. Mr. Santos responded stating there may be a trickle-down effect, but does not anticipate an impact locally.

B. Financial Report

For the Board's information, Carlos P. Bordallo, Acting Comptroller presented the financial report as of March 31, 2013. Director Untalan suggested for the Boards information that the Comptroller explain the 70% variance over budget. The Comptroller responded informing the Board that some operating expenses were transferred from the operating budget to the capital budget, primarily for the Energy

Efficient Loan. The Comptroller went on to say that GIAA is $52,000.00 in payments above budget, and that operational expenses are down and revenue is up.

C. Legal Counsel's Report

Legal Counsel recommended that discussions regarding litigation matters be reported during Executive Session. The Board had no objection.

D. Tenant Matters

No Tenant Matters reported.

E. Status on Capital Improvement Programs

Mr. Frank Santos presented the UDO analysis and informed the Board that all projects are moving forward with Phase 2A of the Noise Mitigation Sound Solution project beginning shortly, sound proofing twenty-eight (28) homes on both sides of the runway. Director Ada inquired if the grants listed on the report were multi-year grants or single grants spanned throughout multiple years. Mr. Santos responded informing the Board that normally the performance rate is over a period of four (4) years.

7. NEW BUSINESS

No New Business presented.

The Chairman announced that the Board will recess and convene Executive Session after the recess. Vice Chair Torres made motion to recess and convene Executive Session after the recess, seconded by Director Alcorn; motion carried. The Board recessed at 3:48 p.m.

8. EXECUTIVE SESSION

Chairman Santos called Executive Session to order at 4:00 p.m. *(At this time Chairman Santos and Director Tolan exit the conference room).* Executive Session adjourned at 4:58 p.m., at which time the Board reconvened the regular meeting.

9. PUBLIC COMMENTS

The Chairman called upon any public member wishing to make comments. There was no response.

10. ADJOURNMENT

The Chairman announced that the next regular meeting is scheduled for Thursday, May 30, 2013. Vice Chair Torres made a motion to adjourn the meeting, seconded by Director Tolan; motion carried. The meeting adjourned at 5:00 p.m.

Respectfully submitted,

Amanda O'Brien-Rios
Board Secretary

Ken Leon Guerrero, CEO of Able Industries, said the new store will hold a soft opening on April 26 in the 6,500-square foot space that formerly housed the Korea Palace restaurant. Frank Whitman / Variety

Office Depot to open next week

By Frank Whitman
frank@mvguam.com
Variety News Staff

ABLE Industries of the Pacific will begin operating its Office Depot store in the Julale Shopping Center at the end of next week, if all goes as planned, according to Ken Leon Guerrero, CEO of Able Industries.

The store will hold a soft opening on April 26 in the 6,500-square foot space that formerly housed the Korea Palace restaurant.

During its soft opening, the store will be selling six shipping containers full of inventory remaining from the military base supply stores Able Industries operated from 1999 until 2012. The inventory is comprised of office supplies and furniture, safety equipment, and cleaning supplies, Leon Guerrero said.

As that inventory is liquidated, the store's product offerings will be about one-third Office Depot brand, one-third AbilityOne brand, and one-third national name brands, he said. AbilityOne products are made in factories with 75 to 80 percent employees who are blind or have severe disabilities. "AbilityOne is a priority source of supply for the federal government," Leon Guerrero said.

Leon Guerrero said that while the company would have preferred not to have lost the contract for the base stores on Naval Base Guam and on Andersen Air Force Base (to the General Services Administration), the new location has advantages. "We will be able to serve corporate customers, government of Guam, individuals, and the federal government," he said. "We're closer to the federal court building, to a lot of the federal offices, and to Naval Hospital."

The store will employ 20 to 25 people with disabilities, Leon Guerrero said. "Our mandate is to provide challenging employment for people with disabilities," he said. "We are the largest employer of people with disabilities on Guam."

Office Depot was a vendor of the Able Industries base stores, and the company built on the 13-year relationship to be able to open the Guam store, Leon Guerrero said.

Roundtable on coral reef protection urged

By Louella Losinio
louella@mvguam.com
Variety News Staff

STRESSING his concern for the state of the island's coral reef system, Vice Speaker Benjamin J.F. Cruz has urged his fellow lawmakers to convene a roundtable meeting with stakeholders and the relevant agencies and affected parties to discuss other causes of damage to the coral reef system, such as storm water and runoff.

The stakeholders to be convened for the meeting include the Guam Environmental Protection Agency, Department of Public Works, the Coastal Zone Management Authority, Department of Agriculture, and the Guam Fishermen's Cooperative.

In a letter addressed to Sens. Rory J. Respicio and Tom Ada, the Vice Speaker said the "roundtable will open the discussion on the issue and provide a means to efficiently address the concerns raised with Bill 11, namely sedimentation as a significant cause of adverse impacts on coral reef systems."

Bill 11, relative to creating the Guam Coral and Marine Life Protection Act, was introduced by Cruz to promote coral reef conservation. According to Cruz, the measure is being held in abeyance in the natural resources committee due to concerns raised that the proposed legislation does not properly address threats to marine life."

"One main concern was that the bill focused on overfishing and failed to regulate all causes of sedimentation, such as storm water and runoff," Cruz stated in his letter.

The Vice Speaker said it is imperative that enforcing agencies and affected parties come together for an in-depth discussion on the matters of storm water and runoff. At the very least, Cruz said, the roundtable will open the discussion on the issue and provide a means to efficiently address the concerns raised with Bill 11.

"While stakeholders may continue to disagree on the reasons for the degradation of our once-pristine coral reefs, I feel that we can come together to work cooperatively to find a solution. Without adequate control of storm water and runoff, along with other major threats to coral and marine life, this generation may be the last to enjoy Guam's recreational waters," Cruz warned.

ARC offers shelter training to mayors

By Joy White
joy@mvguam.com
Variety News Staff

AMERICAN Red Cross officials are on-island to help boost the Guam chapter's disaster response in light of North Korea's threats.

On Guam for a few weeks, ARC officials met with the Mayors' Council of Guam to offer training in shelter fundamentals.

"This meeting [entails talking] to the mayors on the opportunity to take their citizens and get trained in shelter operations so that shelters can be maintained at the local level," said Glenn Lockwood, volunteer assistant to the vice president of disaster operations for the national American Red Cross.

The mayors are being offered training for setting up, running and closing a shelter during a disaster, including setting up food distribution areas, communication strategies, and ensuring residents' safety and comfort.

Lockwood said he is on Guam to provide support and training resources to strengthen the American Red Cross Guam Chapter's response "should this threat from North Korea actually

Lockwood said North Korea's threat is being taken seriously in the mainland. "They're watching carefully how places like Guam and Hawaii prepare because we have not had to prepare for something of this type for decades."

Several areas in the United States have painted scenarios of a possible missile attack from North Korea, he added.

Yoña Mayor Ken Joe Ada said he is looking forward to participating in workshops. "Guam is ready to take the next step in preparedness," he said.

Roundup diverts recyclables from landfill

By Joy White
joy@mvguam.com
Variety News Staff

THE Great Recycle Roundup has provided an opportunity for the Guam Environmental Protection Agency and the i*recycle program to determine the amount of recyclable materials diverted from the landfill, according to Peggy Denney, i*recycle's program administrator.

The roundup, held Saturday at the parking lot near the Agana Shopping Center as part of the Earth Day celebration, provided residents with a venue to bring recycle materials such as glass, cardboard, plastic items, cooking oil, motor oil, cardboard, aluminum, Styrofoam packaging and light metals.

Stacks of paper collected during the event were shredded for composting to be used by farmers.

The project sought to determine how much recyclable materials were diverted from the landfill, Denney said.

She added all recyclable materials collected from Saturday's roundup will recorded by volume or by weight.

"It's a great idea," said Dededo resident Jesse Mort. "[There are] a lot of things that can be recycled on Guam."

Mort said he would participate in similar events that may be held more often in the future.

Denney said the cost of hauling away recyclable materials to the appropriate sites poses an obstacle to holding similar events on a frequent basis.

She said the goal is to have the event at least once a year.

However, Denney reminded residents there are things they can do to protect the environment throughout the year, such as using the appropriate recyclable bins when they are available and minimize the use of paper.

"We should try to strive to make every day Earth Day," Denney added.

Concerns raised over QCs, government debt

By Louella Losinio
louella@mvguam.com
Variety News Staff

SEN. Michael F.Q. San Nicolas has sent a letter to Gov. Eddie Calvo requesting that he direct the Guam Economic Development Authority to refrain from issuing qualifying certificates, or QCs, to industries that have existing government debt obligations which are backed by the full faith and credit of the people of Guam.

"I fully appreciate the QC program and how it has helped grow Guam's economy," San Nicolas said in a statement. "However, we should not issue tax breaks if it has the potential of putting our people's credit at risk."

In the letter, San Nicolas stressed that if QCs are issued in those identified industries, the terms should include the beneficiary assuming debt.

"This will help ensure that our people's credit is not adversely affected by any potential loss of revenue resulting from the tax rebates or abatements made available through qualifying certificates," the senator stated.

Bill to raise community representation in HRDA

By Louella Losinio
louella@mvguam.com
Variety News Staff

A BILL has been filed that seeks to increase community representation in the Hagåtña Restoration and Development Authority.

Bill 96 – introduced by Sens. Frank Aguon, Jr., Tina Muña-Barnes, and Vice Speaker Benjamin J.F. Cruz – proposes to raise the membership in HRDA from its present number of seven members to a total of nine.

The two additional members will be the Hagåtña mayor and a representative from the Guam Legislature, who will be appointed by the Speaker.

In addition, Bill 96 would add two non-voting ex-officio members from the Department of Public Works and the Guam Environmental Protection Agency, who will be tasked to contribute toward the final consideration, adoption and implementation of the Hagåtña master plan that will be approved by HRDA.

GSA ordered to amend bid for fire truck

By Joy White
joy@mvguam.com
Variety News Staff

THE Office of Public Accountability has ordered the General Services Agency to amend the bid terms for fire equipment procurement after finding that the solicitation issued in November set an "unnecessary" requirement for two inspection trips for two Guam Fire Department employees.

The bid also contained a requirement for a 240-day, or eight-month, delivery date that was found to "unduly restrict competition."

OPA ordered GSA to amend the bid specification within 30 days.

Bidder Morrico Equipment LLC filed an appeal with the OPA in January, challenging GSA's decision to reject its bid because it could not deliver the equipment within 240 days.

Morrico had argued in its appeal that although it did not meet this specific requirement for a 240-day delivery, GSA failed to evaluate its bid based on remaining criteria. The company could have potentially accrued enough points to move on in the bidding process, the appeal stated.

The OPA sustained Morrico's appeal last Friday.

MINUTES OF THE BOARD OF DIRECTORS REGULAR MEETING
3:00 p.m., Thursday, March 28, 2013
GIAA TERMINAL CONFERENCE ROOM #3

1. CALL TO ORDER AND ATTENDANCE

Chairman Francisco G. Santos called the A.B. Won Pat International Airport Authority, Guam (GIAA) regular meeting to order at 3:06 p.m. The presence of Directors is noted as follows: Jesus Q. Torres, Vice Chairman, Rosalinda A. Tolan; Martin J. Gerber; Edward G. Untalan, and Lucy M. Alcorn. Also present were Charles H. Ada II, Executive Manager, Peter Roy Martinez, Deputy Executive Manager, Carlos P. Bordallo, Acting Comptroller, Frank R. Santos, Business and Financial Consultant, Janalynn C. Damian Esq., and Michael A. Pangelinan Esq., Legal Counsel. The Chairman welcomed the presence of Airport Tenants, stakeholders, and members of the public who are noted in a sheet made as an attachment to the minutes.

2. APPROVAL OF AGENDA

Vice Chair Torres made motion to approve the agenda as presented, seconded by Director Tolan; motion carried.

3. APPROVAL OF MINUTES

A. February 28, 2013 Board Regular Meeting

Director Untalan made motion to approve the minutes, subject to correction, seconded by Director Alcorn; motion carried.

4. CORRESPONDENCE

Chairman called upon Executive Manager to present any correspondence. The Executive Manager informed the Board that in January 2013 the Federal Aviation Administration (FAA) received a letter at the Honolulu Airports District Office regarding allegations in reference to GIAA's Lease Agreement with Pac Air and its operations. Executive Manager went on to say that GIAA has been in extensive discussion with the FAA regarding this issue. In closing, the Executive Manager informed the Board that a letter dated March 27, 2013 was received stating that GIAA did not violate any federal regulations, and the matter is now considered closed.

Copies were provided for the Board's information.

5. MATTERS FOR BOARD RATIFICATION/APPROVAL

A. Approval of Award for Specialty Retail Concession Multi Concepts RFP No. GIAA010-FY12

Chairman Santos disclosed for the record that there have been some media reports relating to the trip to Korea for the inaugural flight of Jeju Air in September 2012, that both the Chairman and Director Tolan attended. Although there were statements of supposed gifts received by the Chairman and Director, he stated that he did not believe there were any ethical violations. However, to avoid the appearance of any wrong doing, and to maintain the publics' confidence and integrity of the solicitation process, the Chairman chose to abstain from participating in any discussions or votes relating to this particular RFP. The Chairman requested the item be chaired by Vice Chair Torres. At this time, Director Tolan also chose to abstain and removed herself from any discussion or vote on this item. As there were no objections from the members, the meeting proceeded with Vice Chairman Torres presiding.

Acting Chairman Torres called for an open discussion regarding the RFP. Legal Counsel, Michael A. Pangelinan informed the Board that after the two Directors abstained, there is still a quorum of four (4) Directors for today's meeting. The Board's By-Laws refer to Robert's Rules of Order to determine how a Board will pass an agenda item, and states that a majority vote will pass an agenda item. The By-Laws also state that the Chairman of the meeting shall only vote if the vote could affect the outcome. Board members discussed and reiterated the voting process and the number of votes needed to pass the agenda item. Director Untalan suggested the Board proceed with the Executive Managers presentation before discussing voting numbers in depth.

Executive Manager informed the Board that the Airport issued a Request For Proposal seeking a qualified concessionaire to develop, construct and operate a high quality specialty retail concession at the main passenger terminal featuring branded merchandise products using exciting and innovative marketing and merchandising techniques to enhance the terminal environment and to appeal to the traveling public. The RFP was advertised in the Pacific Daily News July 19, 23, and 25, 2012; and in the Marianas Variety July 19, 23, and 30, 2012. The deadline to submit proposals was originally September 21, 2012 but was extended to October 17, 2012 due to an amendment to the RFP. The Manager reported that eight (8) firms obtained RFP packages, however only four (4) firms submitted proposals before the established deadline. To maintain the confidentiality requirement of the procurement law, each of the proposers were randomly assigned a letter designation. An evaluation committee was established, and as a result of the tabulation of scores, the order of ranking is as follows:

1. Proposer 'A'
2. Proposer 'D'
3. Proposer 'C'
4. Proposer 'B'

Management requests that the Board of Directors approve the ranking results of the highest ranked proposer, being proposer 'A', and that proposer 'A' be awarded the Specialty Retail Concession Agreement. Acting Chairman Torres called for any Board member that would like to comment or discuss the RFP that the Executive Manager presented. Director Untalan inquired about the random letter designation, to which Legal Counsel Damian responded that the letter designation was in the order of how the proposals were received. Director Untalan asked how it was handled afterwards, and was the evaluation committee and Executive Manager aware of the results? Ms. Damian responded stating yes, the Executive Manager was aware of the evaluation results. Director Untalan went on to ask if there was a third party that assisted the evaluation committee with conducting a review of the financial analysis. The Executive Manager's response was yes, there was a third party that assisted, and it was an off-island consultant. Director Untalan inquired if the off-island consultant gave a recommendation or just provided an analysis? The Executive Manager informed the Board that there was no recommendation, purely analytical. Discussion followed with Acting Chairman Torres questioning the assignment of the random letter designation, leaving the names of the proposers confidential. He stated that the Airport has never done this before, and found the process to be questionable.

At this time, a recess was suggested. Director Untalan made motion to recess and convene the regular meeting after the recess, seconded by Director Alcorn; motion carried. The Board recessed at 3:54 p.m.

After recess, the regular meeting convened at 4:11 p.m.

Director Untalan stated he would like to make a motion that the item be tabled, so that Legal Counsel may be able to review all of the matters that were raised accordingly, seconded by Director Alcorn. Discussion followed with Mr. Pangelinan informing the Board that Counsel would like to do an analysis and come up with a recommendation on how to proceed with this matter. As there were no further discussions, the motion was duly carried.

B. Approval of Board Resolution No. 13-02: Extension of the Agreement for Legal Services with Calvo Fisher & Jacob LLP and the Agreement for Legal Services with Teker Torres & Teker

The Executive Manager stated that item (B) is a Board Resolution relative to consenting to the Extension of the Agreement for Legal Services with Calvo Fisher & Jacob (Legal

Counsel) and Teker Torres & Teker now known as Torres Law Group (Conflict Counsel). Agreements were entered into with both firms in May 2010. Director Tolan inquired on the number of Conflict Counsels providing services to GIAA. Executive Manager replied stating there are currently two (2) Conflict Counsels providing services, Attorney Tom Fisher and Torres Law Group. Ms. Arriola also added that Torres Law Group is on a one (1) year contract and only handle particular matters; unless Conflict Counsel, Tom Fisher has a conflict, in which case Torres Law Group will then provide services. Director Tolan made motion to approve Board Resolution No. 13-02, which extends the term of the Agreement for Legal Services between GIAA and Calvo Fisher & Jacob, LLP for a period of year, commencing on March 23, 2013; and the Agreement for Legal Services between GIAA and Torres Law Group, commencing on March 1, 2013. The motion was seconded by Director Gerber; motion carried.

C. Ratification of Disbursements

Vice Chair Torres made a motion to ratify payments above the $50,000.00 threshold made to vendors for the period of February 27, 2013 – March 26, 2013, seconded by Director Untalan; motion carried.

6. OLD BUSINESS

A. Executive Manager's Report

The Executive Manager presented brief reports on various issues and announcements relating to Airlines, System Upgrades and a number Legislative Issues, to include Bill 60-32; an act to create the "Made in Guam" business incubator program within the GIAA. The incubator program gives opportunities to small businesses to provide "Made in Guam" products at the Airport. The Executive Manager reported that some concerns were raised regarding Bill 60-32, which he had transmitted to Senators and the Oversight Chairman. He went on to state that written testimony will be provided by GIAA during the Public Hearing scheduled for the upcoming Monday. Vice Chair Torres requested for a copy of the written testimony.

The Executive Manager announced that a representative from FAA's Airport District Office will be meeting with Management and Division Heads on April 15 and 16, 2013 to discuss project updates and general compliance. Also, scheduled for April 29, 2013 FAA will conduct their annual certification inspection of Guam Airport facilities; along with reviews of re-certifications, record-keeping and documentation, there will also be inspections of the airfield, runways, aprons and safety areas.

The Manager reported that under the LEO Reimbursement Program, GIAA was awarded $1,051,200.00 to fund three (3) years of services. Effective April 1, 2013, approximately $350,000.00 per year for Airport Police services at the TSA checkpoint.

B. Financial Report

For the Board's information, Carlos P. Bordallo, Acting Comptroller presented the financial report as of February 28, 2013. Director Gerber noted the 80.8% increase over the budgeted amount for the Net Revenues from Operations and commended the Comptroller for the report.

C. Legal Counsel's Report

Legal Counsel recommended that discussions regarding litigation matters be reported during Executive Session. The Board had no objection.

D. Tenant Matters

No Tenant Matters reported.

E. Status on Capital Improvement Programs

Mr. Frank Santos presented the UDO analysis, reporting that the Airport received approval to advertise for Phase 2 of the Runway Rehabilitation Project. A Notice to Proceed is expected to be issued for the Noise Mitigation Project in April 2013, which will be another twenty-eight homes to be sound-proofed. Mr. Santos reported that "Grant Season" is approaching and from May – June GIAA will be working with the FAA with regard to what grants to anticipate for Fiscal Year 2013. Mr. Santos informed the Board that GIAA has been working with GEDA regarding the proposed bond refunding and he will provide a detailed report at the next regular Board meeting. Director Tolan inquired on the Air-conditioning systems and installation, if it was completed. Mr. Santos replied, stating that it is expected to be completed by May 2013.

7. NEW BUSINESS

No New Business presented.

8. EXECUTIVE SESSION

The Chairman announced that the Board will recess and convene Executive Session after the recess. Vice Chair Torres made motion to recess and convene Executive Session after the recess, seconded by Director Tolan; motion carried. The Board recessed at 4:42 p.m.

Chairman Santos called Executive Session to order at 4:59 p.m. Executive Session adjourned at 5:10 p.m., at which time the Board reconvened the regular meeting.

9. PUBLIC COMMENTS

The Chairman called upon any public member wishing to make comments. There was no response.

10. ADJOURNMENT

The Chairman announced that the next regular meeting is scheduled for Thursday, April 25, 2013. Director Untalan made a motion to adjourn the meeting, seconded by Director Tolan; motion carried. The meeting adjourned at 5:14 p.m.

Respectfully submitted,

Amanda O'Brien-Rios
Board Secretary

MINUTES OF THE BOARD OF DIRECTORS SPECIAL MEETING
3:00 p.m., Friday, April 12, 2013
GIAA TERMINAL CONFERENCE ROOM #3

1. CALL TO ORDER AND ATTENDANCE

Chairman Francisco G. Santos called the A.B. Won Pat International Airport Authority, Guam (GIAA) special meeting to order at 3:15 p.m. The presence of Directors is noted as follows: Jesus Q. Torres, Vice Chairman, Rosalinda A. Tolan; Martin J. Gerber; Edward G. Untalan, and Lucy M. Alcorn. Also present were Charles H. Ada II, Executive Manager, Peter Roy Martinez, Deputy Executive Manager, Carlos P. Bordallo, Acting Comptroller, Frank R. Santos, Business and Financial Consultant, Janalynn C. Damian Esq., and Michael A. Pangelinan Esq., Legal Counsel. The Chairman welcomed the presence of Airport Tenants, stakeholders, and members of the public who are noted in a sheet made as an attachment to the minutes.

At this time Chairman Santos acknowledged the presence of Mr. Pedro (Sonny) Perez Ada III. The Chairman informed the Board that Mr. Ada's Confirmation Hearing was April 8th, 2013; he is now just awaiting approval from the Legislature before becoming an official Board Member. The Chairman stated it is honor for Mr. Ada to be a part of the Airport Board of Directors and thanked him for attending the meeting.

2. APPROVAL OF AGENDA

Director Tolan made motion to approve the agenda as presented, seconded by Vice Chair Torres; motion carried.

3. MATTERS FOR BOARD RATIFICATION/APPROVAL

A. Appropriation to Capital Improvement Fund

Mr. Frank Santos presented item A. He informed the Board that during the course of the year, GIAA has worked closely with FAA in planning future projects for the Airport. The three (3) projects listed were anticipated during the budget preparation for Fiscal Year 2013. Board's approval is requested to appropriate the sponsors share for each project to the Capital Improvement Fund. Once approved, preparation may begin on the Request For Proposals for each project. The projects are as follows:

	Sponsor	FAA
1. Sterile Arrivals Corridor (Design Only)	$139,000	$1,250,000
2. Aeronautical Survey (AGIS) Phase 2	$ 54,000	$ 486,000
3. Extend Runway 6L/24R Completion Part B	$222,845	$2,005,605
TOTAL	$415,845	$3,741,605

Mr. Santos informed the Board, that the requested amount to be appropriated is $415,845.00. Vice Chair Torres inquired on project number one (1), the Sterile Arrivals Corridor, and if this project will include eliminating the divider in the Arrivals Corridor. Mr. Santos responded stating that the divider will be eliminated, but needs to be designed first. This will be an ongoing upgrade project consisting of three (3) phases so as not to disrupt the flow of the arrivals area. Vice Chair Torres made motion to appropriate the requested amount of $415,845.00 to the Capital Improvement Fund, seconded by Director Alcorn; motion carried.

B. Approval of Award for Specialty Retail Concession Multi Concepts RFP No. GIAA010-FY12

The Executive Manager stated that the Airport solicited proposals from qualified concessionaires to develop, construct and operate a high quality specialty retail concession at the main passenger terminal featuring branded merchandise products using exciting and innovative marketing and merchandising techniques to enhance the terminal environment and to appeal to the traveling public. A total of eight (8) firms obtained RFP packages, however only four (4) firms submitted proposals before the deadline of October 17, 2012. To maintain the confidentiality requirement of the procurement law, each of the proposers were randomly assigned a letter designation. The four (4) proposals were evaluated by a committee and as a result, Management recommends that the Board approve the contract award to the highest ranked proposer, Proposer 'A'; subject to the successful negotiation of the said Agreement. If negotiations prove unsuccessful, Management may commence negotiations with the next highest ranked proposer. Before voting commenced, the Chairman stated for the record that he would like to recues himself as well as Director Tolan from discussing or voting on item B, and requested the RFP be chaired by the Vice Chairman. Since the Board had no objection, the Acting Chairman called for a motion on item B. Director Untalan made motion to approve Management's recommendation, seconded by Director Alcorn; motion carried.

At this time Acting Chairman called on the Executive Manager to announce the concessionaire that was randomly designated the letter 'A'. The Manager announced that the proposer ranked number one and approved to commence negotiations is Lotte Duty Free.

4. ADJOURNMENT

Vice Chair Torres made a motion to adjourn the meeting, seconded by Director Tolan; motion carried. The meeting adjourned at 3:32 p.m.

Respectfully submitted,

Amanda O'Brien-Rios
Board Secretary

INVITATION FOR BID
CUSTODIAL SERVICES
BID NO. IFB No. GIAA-001-FY13

April 22, 2013

Purpose:

Board action is requested to approve the bid award of Custodial Services.

Background:

The bid is to provide custodial services at the Guam International Air Terminal. The contract includes all labor, materials, supplies, parts, and equipment necessary to perform the services.

Procurement Background:

The bid announcement was publicly advertised through the local newspaper on the months of January & February 2013. The bid opening took place at the Guam International Airport Authority's Board Room on March 29, 2013.

Twenty-one (21) firms/individuals purchased the bid package and seven (7) firms submitted bids before the submission deadline. The bids were received, publicly opened, and read aloud by the Supply Management Administrator, Franklin P. Taitano. The results are as follows:

Bidder/Firm's Name	Item 1 Basement Level	Item 2 Apron Level	Item 3 Concourse Level	Item 4 Other Facilities
Guam Cleaning Masters	$202,575.41	**$247,523.68**	**$427,304.78**	$51,924.14
Unlimited Service Group LLC (see note below)	$288,665.48	$385,792.27	$495,652.57	$128,584.98
Able Industries of the Pacific (see note below)	$293,320.65	$461,694.75	$479,568.87	$33,084.90
Pacific Waste/GPS	$541,841.00	$657,950.00	$593,445.00	$103,208.00
MTO Maintenance	**$156,960.00**	$272,820.00	$540,000.00	$114,300.00
JJ Global	$250,055.93	$371,610.28	$560,379.23	**$43,769.22**
Service Master Guam, Inc.	$492,875.00	$439,950.00	NO BID	NO BID

Note: Rejected bids due to Bidder's non-conformance to bid requirements.

Legal Review:

Contract will be forward to legal counsel for review prior to execution.

Financial Review:

In reviewing the bid prices submitted above, the potential amount of bid award for all the Terminal Levels totaled $875,557.68, or an increase of $15,066, compared to the current contract. Additional custodial services added includes Administration Third Floor Offices & Balcony, Air Terminal Services Offices, Properties & Facilities Break Room, Terminal Conference Room 1, 2, and 3, Ramp Control Center Office, and Terminal Center. Please note that the removal of six (6) Public Restrooms will be contract under a Federal program for Non-Profit Organizations. The costs for these services are budgeted under FY13 O&M.

Recommendation:

Pursuant to the guidelines in Item 8 of the Instruction to Bidders, the bid will be awarded, if it to be awarded, as soon as possible to the lowest responsible, responsive bidder. The contract term is for three (3) years with two (2) 1-Year options for renewal, not to exceed five (5) years, subject to GIAA's approval. Therefore, management moves that the Board approve the award of the Custodial Services Bid No. GIAA-001-FY13 as follows:

Item & Description	Award to	Total Amount
Item 1: Basement Level	MTO Maintenance	$156,960.00
Item 2: Apron Level	Guam Cleaning Masters	$247,523.68
Item 3: Concourse Level	Guam Cleaning Masters	$427,304.78
Item 4: Other Facilities	JJ Global	$43,769.22
	Total Contract Award	**$875,557.68**

The bidders/firms above are determined to have met the standards of responsibility and responsiveness outlined in Guam Procurement Regulations. Additionally, we have compiled documentation substantiating that all bidders are duly licensed.

MEMORANDUM

TO: Charles H. Ada II, Executive Manager

FROM: Jose Onedera, Buyer Supervisor

SUBJECT: Bid Evaluation and Recommendation "Invitation For Bid"
Custodial Services
IFB No. GIAA-001-FY13

Procurement Background:
The above referenced Invitation For Bid was publicly announced through the local newspaper on the months of January & February 2013. The bid submission deadline and bid opening took place on March 29, 2013, at 2:00 p.m.

Twenty-One (21) firms/individuals purchased the bid package and seven (7) firms submitted bids before the bid submission deadline. The bid submittal was opened in the presence of the bidders, members of the public and several GIAA representatives. The bid offer was read aloud by the Supply Management Administrator and tabulated by a Procurement staff.

The results of the bid price submittals are as follows in the order they were received and opened:

Bidder/Firm's Name	Item 1 Basement Level	Item 2 Apron Level	Item 3 Concourse Level	Item 4 Other Facilities
GUAM CLEANING MASTERS	$202,575.41	**$247,523.68**	**$427,304.78**	$51,924.14
UNLIMITED SERVICE GROUP LLC **(see note below)**	$288,665.48	$385,792.27	$495,652.57	$128,584.98
ABLE INDUSTRIES OF THE PACIFIC **(see note below)**	$293,320.65	$461,694.75	$479,568.87	$33,084.90
PACIFIC WASTE/GPS	$541,841.00	$657,950.00	$593,445.00	$103,208.00
MTO MAINTENANCE	**$156,960.00**	$272,820.00	$540,000.00	$114,300.00
JJ GLOBAL	$250,055.93	$371,610.28	$560,379.23	**$43,769.22**
SERVICE MASTER GUAM INC.	$492,875.00	$439,950.00	NO BID	NO BID

Note: Rejected bids due to Bidder's non-conformance to bid requirements.

AMERICAN ASSOCIATION OF AIRPORT EXECUTIVES
AIRPORTS COUNCIL INTERNATIONAL
NASAO National Association of State Aviation Officials
IACA THE INTERNATIONAL AIR CARGO ASSOCIATION

Pursuant to Section 8 of the Instructions to Bidders, the contract is to be awarded to the lowest responsible, responsive bidder, provided his bid is reasonable and it is in the best interest of the GIAA to accept it. To determine the responsibility of bidders, the bid package specified the required documents that bidders must submit with their bid packages. (Attached abstract illustrates the inventory of required documents and bidders' submittal).

Guam Cleaning Masters: Guam Cleaning Masters submitted a bid for Item 1 in the amount of $202,575.41 and Item 2 in the amount of $247,523.68 and Item 3 in the amount of $427,304.78 and Item 4 in the amount of $51,924.14, respectively. All other documents are complete and in conformance with the Invitation For Bid.

Unlimited Service Group LLC: Unlimited Service Group LLC submitted a bid for Item 1 in the amount of $288,665.48 and Item 2 in the amount of $385,792.27 and Item 3 in the amount of $495,652.57 and Item 4 in the amount of $128,584.98, respectively. Unlimited Service Group LLC did not submit Equipment Inventory List, Resumes of Personnel, and Bonding Capability as required. As a result, Unlimited Service Group LLC has been determined to be non-responsive and non-responsible. Therefore, Unlimited Service Group LLC's bid is hereby rejected.

Able Industries of the Pacific: Able Industries of the Pacific submitted a bid for Item 1 in the amount of $293,320.65 and Item 2 in the amount of $461,694.75 and Item 3 in the amount of $479,568.87 and Item 4 in the amount of $33,084.90, respectively. Able Industries of the Pacific did not submit Bid Security and Bonding Capability as required. As a result, Able Industries of the Pacific has been determined to be non-responsive and non-responsible. Therefore, Able Industries of the Pacific's bid is hereby rejected.

Pacific Waste/GPS: Pacific Waste/GPS submitted a bid for Item 1 in the amount of $541,841.00 and Item 2 in the amount of $657,950.00 and Item 3 in the amount of $593,445.00 and Item 4 in the amount of $103,208.00, respectively. All other documents are complete and in conformance with the Invitation For Bid.

MTO Maintenance: MTO Maintenance submitted a bid for Item 1 in the amount of $156,960.00 and Item 2 in the amount of $272,820.00 and Item 3 in the amount of $540,000.00 and Item 4 in the amount of $114,300.00, respectively. All other documents are complete and in conformance with the Invitation For Bid.

JJ Global: JJ Global submitted a bid for Item 1 in the amount of $250,055.93 and Item 2 in the amount of $371,610.28 and Item 3 in the amount of $560,379.23 and Item 4 in the amount of $43,769.22, respectively. All other documents are complete and in conformance with the Invitation For Bid.

Service Master Guam Inc.: Service Master Guam Inc. submitted a bid for Item 1 in the amount of $492,875.00 and Item 2 in the amount of $439,950.00, and Item 3 No Bid and Item 4 No Bid, respectively. All other documents are complete and in conformance with the Invitation For Bid.

Recommendation:
Pursuant to the guidelines in Item 8 of the Instruction to Bidders' it is recommended that the award of contract be made to the lowest responsible, responsive bidder for each Item Bid, provided his bid is reasonable and in the best interest of GIAA.

MTO Maintenance, Guam Cleaning Masters, and JJ Global have been determined to meet the standards of responsibility and responsiveness outlined in the Guam Procurement Regulation. The term of the contract is for three (3) years with options for renewal, not to exceed five (5) years, subject to GIAA's approval. Therefore, it is recommended the contracts awards be made according to the areas as follows:

Item & Description	Awarded to:	Total Amount
Item 1: Basement Level	MTO Maintenance	$156,960.00
Item 2: Apron Level	Guam Cleaning Masters	$247,523.68
Item 3: Concourse Level	Guam Cleaning Masters	$427,304.78
Item 4: Other Facilities	JJ Global	$43,769.22
	Total Contract Award:	**$875,557.68**

Should you have any questions or concerns, I am available at your request.

APPROVED:

CHARLES H. ADA II
Executive Manager

Section __. Legislative Findings.

(a) Section 1216 of Title 12 of the Guam Code Annotated provides that Antonio B. Won Pat International Airport Authority (the "Authority") is authorized to incur indebtedness by the issuance of general revenue bonds for the purpose of refunding any general revenue bonds of the Authority then outstanding.

(b) Section 1208 of Title 12 of the Guam Code annotated provides that no general revenue bonds of the Authority shall be issued unless authorized by the Board of the Authority in a bond resolution adopted by it and approved by *I Maga'lahen Guahan* and unless *I Liheslaturan Guahan* approves the terms and conditions of the bonds.

(c) Section 50103 of Title 12 of the Guam Code Annotated provides that public corporations of the government of Guam, including the Authority, shall issue bonds and other obligations only by means of, and through the agency of the Guam Economic Development Authority ("GEDA"), and that GEDA shall not sell any bond without the approval by *I Liheslaturan Guahan* of the terms and conditions of the bonds.

(d) Based on historic low interest rates and current market conditions, the Authority expects to be able to refinance its outstanding general revenue bonds for substantial debt service savings.

(e) The Authority has incurred an energy efficiency loan with a final bullet maturity in 2017 that it expects to refinance with general revenue bonds.

(f) The Authority needs to finance security improvements and other capital projects that are expected to enhance the operational efficiency and passenger experience at the airport.

(g) In order to benefit the airport and the tourism industry that depends on the airport, *I Liheslaturan Guahan* has determined to approve the issuance of revenue bonds by the Authority to refund its general revenue bonds and an outstanding energy efficiency loan and to finance new projects at the airport, all subject to approval by *I Maga'lahen Guahan* and the Board of Directors of GEDA in accordance with law.

Section __. Approval of the Terms and Conditions of Antonio B. Won Pat International Airport Authority Refunding Bonds.

I Liheslaturan Guahan, pursuant to §1208(a) and §50103(k) of Title 12 of the Guam Code Annotated, hereby approves the terms and conditions of the issuance of general revenue bonds by the Authority for the purpose of refunding all or a portion of the Authority's outstanding general revenue bonds (the outstanding bonds being refunded are referred to herein as the "prior bonds") in accordance with the following requirements, limitations, terms and conditions:

(a) All obligation of the Authority to pay debt service on, and the redemption price of, the prior bonds shall be discharged concurrently with the issuance of the refunding bonds. Thereafter, the prior bonds shall be payable solely from and secured solely by an escrow established for such purpose in accordance with the Authority's existing bond indenture.

(b) The final maturity of the refunding bonds shall not be greater than the final maturity of the prior bonds.

(c) Such bonds shall be issued and sold in compliance with the provisions of Article 2 of Chapter 1 of Title 12 of the Guam Code Annotated, including approval of the bond resolution by the Board of Directors of the Authority and by *I Maga'lahen Guahan* as provided therein.

(d) The sale of the bonds shall be approved by the Board of Directors of GEDA as provided by Chapter 50 of Title 12 of the Guam Code Annotated.

(e) The debt service savings resulting from the issuance of the refunding bonds shall be not less than an amount equal to two percent (2%) of the principal amount of the prior bonds. Debt service savings is defined for this purpose to be the amount by which the present value of debt service on the prior bonds exceeds the present value of debt service on the refunding bonds, using the yield on the refunding bonds as the discount rate for purposes of calculating present value.

[Section __. Approval of the Terms and Conditions of the Issuance by the Authority of General Revenue Bonds to Finance Airport Projects and Refinance an Energy Efficiency Loan.

(a) *I Liheslaturan Guahan*, pursuant to pursuant to §1208(a) and §50103(k) of Title 12 of the Guam Code Annotated, hereby approves the terms and conditions of general revenue bonds by the Authority in one or more series in an aggregate principal amount not to exceed Sixty-Five Million Dollars ($65,000,000) for the purpose of financing or refinancing the projects and paying the other costs listed in subsection (c) of this section, *provided*, that such bonds have a final maturity not later than 32 years from their date of issuance, bear interest at such rate or rates and are sold for such price or prices as shall result in a net interest cost to the Authority of not to exceed six and one-half percent (6.5%) per annum, and are issued and sold pursuant to the Airport's existing bond indenture as it may be amended in compliance with the provisions of Chapter 1 of Title 12 of the Guam Code Annotated, including approval by the Authority and by *I Maga'lahen Guahan* as provided therein.

(b) The sale of the bonds shall be approved by the Board of Directors of GEDA as provided by Chapter 50 of Title 12 of the Guam Code Annotated.

(c) The proceeds of the bonds may be applied to pay for the costs of issuance of the bonds, for accrued and capitalized interest thereon, for credit enhancement therefor, to provide for reserves, for refinancing the Authority's outstanding energy efficiency loan and the costs associated with such refinancing, and the costs of capital improvement projects at the airport, in the following order of priority:

(1) [list projects here].]

Section __. Amendments to Title 12, Chapter 1 of the Guam Code Annotated.

(a) Section 1115 is hereby added to Title 12, Chapter 1 of the Guam Code Annotated, as follows:

"§ 1115. Compliance with Federal Law.

The Authority shall comply with the terms of all grants-in-aid or grants-in-kind received from the United States for use by the Authority for airport purposes and of all related federal law, including without limitation the provisions of Section 47133 of Title 49 of the United States Code."

(b) Section 1224 of Title 12, Chapter 1 of the Guam Code Annotated is hereby amended to read as follows:

"§ 1224. Other Indebtedness Authorized.

The Board may at any time, or from time to time, by resolution adopted by a majority of all the members of the Board and approved by the Governor, incur indebtedness for any lawful purpose for any period not exceeding ~~**five**~~ **ten** (~~**5**~~**10**) years evidenced by a contract with any person or by one or more promissory notes executed as provided in this Article and delivered to any person. Any such indebtedness incurred shall be subject and subordinate to any contractual obligations of the Authority to the holders of any bonds and the principal thereof and interest thereon may be repaid either from revenue or, if incurred for a purpose for which bonus may be issued, from revenue or from the proceeds of sale of bonds."

(c) Paragraph (a)(1) of Section 1203.1 of Title 12, Chapter 1 of the Guam Code Annotated is hereby amended to read as follows:

"(1) allow for an exclusive right to sell certain goods or provide certain services only after a competitive ~~**proposal procedure, according to the General Services Administration rules and regulations**~~ **process**, and for a duration of no longer than ~~**five**~~ **ten** (~~**5**~~**10**) years (Any exclusive right for a duration of longer than ~~**five**~~ **ten** (~~**5**~~**10**) years shall be given by the ABWPGIAA to any party only upon subsequent approval by I Liheslaturan Guåhan by statute.);"

(d) Paragraph (a)(4) of Section 1203.1 of Title 12, Chapter 1 of the Guam Code Annotated is hereby amended to read as follows:

"(4) in order to maximize local participation in concession businesses at the ABWPGIAA, the ABWPGIAA shall ~~abide by the~~ **employ a** competitive bid process, to the extent consistent with good business practice, and make available **or, in the event the ABWPGIAA selects a master concessionaire, require such master concessionaire to develop procedures to make available** the maximum number of opportunities for local businesses to provide concession goods and services at the ABWPGIAA."

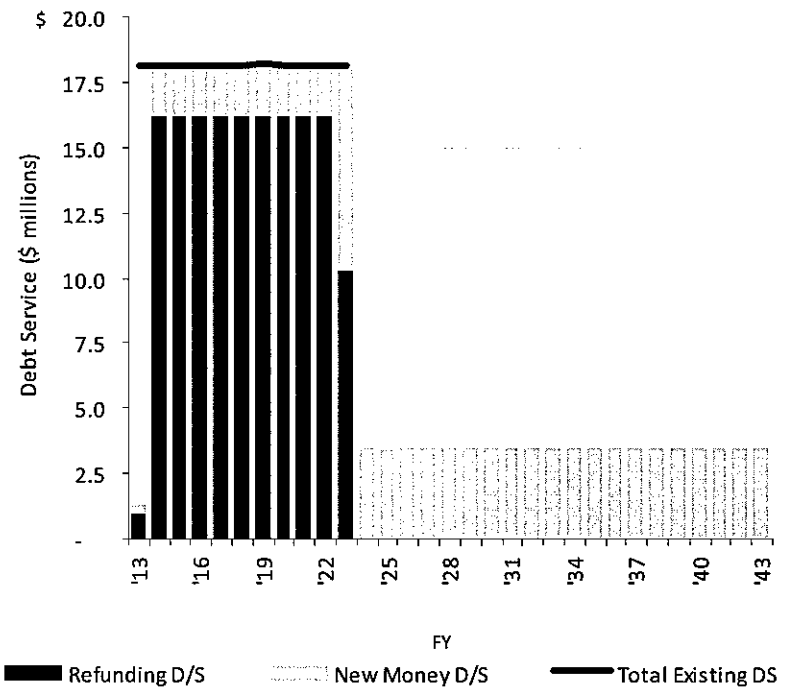
GIAA Series 2003 Bonds Overview and Background

The 2003 Bonds were issued to refund the 1993 GIAA Bonds which financed the construction of the new Airport

- In 2003, GIAA issued $216.25 million to current refund the then outstanding Series 1993 Bonds
  - Series A Tax-Exempt - $25,810,000
  - Series B Tax-Exempt - $34,790,000
  - Series C AMT - $151,305,000
  - Series D Taxable - $4,345,000
- $145,415,000 remain outstanding
  - $22,540,000 of the Series 2003C AMT bonds are currently callable
  - $112,845,000 of the remaining Series 2003A, 2003B and 2003C bonds are callable on 10/1/2013
    - Can be refunded as soon as 7/3/2013, 90 days prior to the call date
- The 2003 Bonds were insured by MBIA, which in 2003 allowed for over $17.6 million in debt service savings net of all scheduled insurance premium payments
- The MBIA insurance policy requires an Annual Premium and an annual Surveillance Fee
  - The Annual Premium is calculated as 0.8% of outstanding Series 2003C Bond principal and is due on October 15 of each year
    - $794,840 is owed on October 15, 2013 if the 2003 Bonds are outstanding on October 1, 2013
  - Surveillance Fee of $25,000 is paid September 1 of each year



citi

New Money Considerations

Depending upon market conditions at the time of pricing, GIAA could issue at least $40 million of new money bonds without increasing existing debt service levels through FY 2023

- The savings generated from refunding the existing Series 2003 Bonds could create enough capacity to pay debt service on at least an additional $40 million of new money bonds without exceeding existing debt service levels
- The amount of new money capacity may fluctuate over the next few months based on the following potential factors:
  - Interest rate variation
  - Changes in credit spreads due to:
    - Favorable market conditions
    - Change in bond ratings
  - Allocation of the new money projects' tax status (ie: AMT vs. Non-AMT)

Resulting New Money Debt Service (AMT)

1) Includes MBIA premium & annual surveillance fee.
Estimated market conditions as of April 19, 2013. Assumes pricing in mid-July and closing on August 1, 2013.
New money bonds amortized over 30 years. Assumes GIAA contributes accrued bond funds from 4/1/2013 to 8/1/2013 to refunding issue.
Past performance does not indicate future results. For illustrative purposes only; Subject to Tax Counsel review and approval.

In January 2007, Citi released a Climate Change Position Statement, the first US financial institution to do so. As a sustainability leader in the financial sector, Citi has taken concrete steps to address this important issue of climate change by: (a) targeting $50 billion over 10 years to address global climate change: includes significant increases in investment and financing of alternative energy, clean technology, and other carbon-emission reduction activities; (b) committing to reduce GHG emissions of all Citi owned and leased properties around the world by 10% by 2011; (c) purchasing more than 52,000 MWh of green (carbon neutral) power for our operations in 2006; (d) creating Sustainable Development Investments (SDI) that makes private equity investments in renewable energy and clean technologies; (e) providing lending and investing services to clients for renewable energy development and projects; (f) producing equity research related to climate issues that helps to inform investors on risks and opportunities associated with the issue; and (g) engaging with a broad range of stakeholders on the issue of climate change to help advance understanding and solutions.

Citi works with its clients in greenhouse gas intensive industries to evaluate emerging risks from climate change and, where appropriate, to mitigate those risks.

Three-Year Capital Plan Overview

The Airport has developed a conservative capital plan that may rely on modest new money borrowing and will maximize non-bonding sources of funds

		Funding Source		
Project	**Total Project Cost**	**Federal Grants**	**GIAA Funds**	**Bond Proceeds**
International Arrivals Corridor	$31,900,000	$13,200,000	-	$18,700,000
ARFF Facility Replacement	11,600,000	10,440,000	-	1,160,000
Cargo Apron Relocation	7,700,000	6,930,000	$770,000	-
Parking Expansion	7,400,000	-	-	7,400,000
Hold Bag Screening Relocation	6,600,000	-	-	6,600,000
FIDS Replacement	5,000,000	-	-	5,000,000
SSCP Improvements	3,100,000	-	-	3,100,000
Interisland Passenger Facility	3,000,000	-	3,000,000	-
Fuel System Improvements	1,000,000	-	1,000,000	-
Total	**$77,300,000**	**$30,570,000**	**$4,770,000**	**$41,960,000**

Preliminary and subject to change

- Capital plan is preliminary and designed to be flexible
- Airport will maximize other sources of funds
- Any debt borrowing will incorporate feasibility report and projections

Executive Manager's Report
GIAA Board of Directors Meeting
April 25, 2013

AIRLINE ISSUES

CHINA AIRLINES CHARTER FLIGHTS

China Airlines announced eight (8) new charter flights for the month of May. Four (4) inbound flights will be services by A330-300 aircraft all arriving and ferrying out on Friday May 3rd.
4 flights arrive May 3, Friday (all carry in and ferry out) from: Fukuoka, Narita, Kansai and Taipei
4 flights depart May 6, Monday (all ferry in and carry out) to: Fukuoka, Narita, Kansai and Takamatsu

TERMINAL IMPROVEMENTS FOR AIRLINES

Terminal improvements continue in the West Ticket Lobby with the construction of new ticket counters nearing completion. The ticket counter bulkhead is 98% complete with the actual counters targeted for completion in 2 weeks time, allowing for eventual occupancy.

FEDERAL ISSUES

FEDERAL AVIATION ADMINISTRATION (FAA) PROGRAM UPDATES

Ron Simpson, the FAA Airport District Office (ADO) Manager out of Honolulu ADO was here to meet with Airport Management and Division Heads on April 15 and 16, 2013 to discuss AIP project updates and general compliance.

FAA CERTIFICATION INSPECTION

FAA's annual certification inspection of Guam Airport facilities will be held on Monday, April 29, 2013. Training, annual re-certifications, self-inspections, documentation and record keeping will be reviewed, along with the airfield, runways, aprons and safety areas. Last year's inspections yielded minimal discrepancies, and we've worked hard to address. The goal this year is to pass inspections with fewer discrepancies than last year.

FAA ADVISORY

GIAA has been advised, "as a result of employee furloughs due to sequestration, the FAA is implementing traffic management initiatives at airports and facilities around the country. Travelers can expect to see a wide range of delays that will change throughout the day depending on staffing and weather related issues. The FAA will continue to work with the airlines throughout the day to try and minimize delays for travelers. Travelers are encouraged to check their flight status and also to visit fly.faa.gov for the latest airport delay information. As of April 23, 2013, there were more than 1,200 delays in the system attributable to staffing reductions resulting from the furlough. There were more than 1,400 additional delays as a result of weather and other factors. GIAA Management does not foresee any impacts locally in the near future.

TRANSPORTATION SECURITY ADMINISTRATION (TSA)

TSA Federal Security Director (FSD) Brian Cahill has notified GIAA that the implementation of the changes to the TSA's Prohibited Items List has been delayed. The changes were supposed to become effective today, April 25, 2013 but were delayed to accommodate further input from the Aviation Security Advisory Committee (ASAC), which includes representatives from the aviation community, passenger advocates, law enforcement experts, and other stakeholders. FSD Cahill further expressed his commitment to sharing the updated information with GIAA as soon as reasonably possible.

FINANCIAL ISSUES

MOODY'S RATING UPDATE

Yesterday, April 24, 2013 we received good news on the financial front. In a rating update from Moody's Investors Service, GIAA's 2003 Revenue Bonds **Baa2 Rating** was reaffirmed with a **STABLE** outlook. The summary rationale bases the Baa2 rating indicates GIAA's strengths as its monopoly position as essential transportation ling for the island economy and also the potential for greater growth in enplanements with possible increased military presence in Guam and more tourism opportunities from mainland China and Russia. The stable outlook also acknowledged that conditions that could change the rating upward would be sustained enplanement growth leading to wider financial margins.

ANNUAL BUDGET

GIAA has commenced the annual budget review and preparations for fiscal year 2014. As stipulated in the signatory airline agreement, GIAA is required to submit a preliminary budget to the carriers by July 1st of every year.

LEGISLATIVE ISSUES

Confirmation Hearing – On Monday, April 8, 2013 the 32nd Guam Legislature confirmed Pedro "Sonny" Ada appointment to serve on the GIAA Board of Directors as appointed by Governor Calvo. A swearing-in ceremony was held at 11:30 this morning at the Adelup Chambers of the Governor of Guam, where Mr. Ada was sworn in as a Director of the Board for the A.B. Won Pat International Airport Authority, Guam by Governor Eddie Calvo. **Welcome on board Director Ada!**

Bill 16-32 (Rezone Parcel 4 NAS from agricultural to light industrial)
Public Hearing was conducted on April 12, 2013. Bill has been moved to 3rd reading as of 4/22/2013.

Bill 29-32 (Equalization Act on leasing government property)
Public Hearing was conducted on March 12, 2013.

Bill 31-32 (Retention of Procurement-related electronic mail correspondence)
Public Hearing was conducted on March 6, 2013.

Bill 52-32 (Transfer of autonomous agency revenues to autonomous agency collection fund)
Public Hearing was conducted on April 12, 2013.

Bill 55-32 (Ownership title transfer Lot No 1New-1, Block No. 2 Tract 1427 from GIAA to CLTC)
Public Hearing not scheduled.

Bill 60-32 ("Made in Guam" Incubator program at GIAA)
Public Hearing was conducted on April 1, 2013; GIAA SUPPORTS the bill and sent letter stating such to Sen. Muña-Barnes on March 29, 2013.

Bill 65-32 (Educational programs for new Members of Boards and Commissions)
Discussed in session on April 22, 2013 as amended by the Committee on General Government & Cultural Affairs.

Bill 69-32 (5-yr. lease duration inclusive of extensions and renewal options)
Public Hearing was conducted on April 2, 2013; GIAA does NOT SUPPORT the bill and sent a letter stating such to Sen. Cruz on April 9, 2013.

PROCUREMENT ISSUES

RFP No. GIAA 010-FY12 – SPECIALTY RETAIL CONCESSION

GIAA officially received a protest from DFS on Tuesday, April 23, 2013 in response to the awarding of the specialty retail concession contract to Lotte at the last special board meeting held on Friday, April 12, 2013. GIAA is precluded from proceeding further with the solicitation or with the award of the contract prior to the final resolution of the protest.

ANNOUNCEMENTS

- GIAA supported the Guam Homeland Security (GHS) Office of Civil Defense' (OCD) activation of the Emergency Operations Center (EOC) and the Joint Information Center (JIC) as a result of the North Korean missile launch threat and the declaration of emergency made by Governor Eddie B. Calvo. Personnel from Airport Police, Operations and Marketing supported the EOC and JIC operations.
- The A.B. Won Pat International Airport Authority, Guam (GIAA) sent a 4-member delegation to the 8th Airports Council International (ACI) Asia-Pacific Regional Assembly, Conference and Exhibition held in Phuket, Thailand from April 22 through 25, 2013. GIAA Deputy Executive Manager Pedro Roy Martinez leads the delegation with Board Director Martin Gerber, which is staffed, by GIAA Marketing Administrator Rolenda Faasuamalie and Marketing Program Coordinator Marcia Taitano. GIAA is there also as an exhibitor to market and push attendance for Guam's hosting of the ACI Asia-Pacific 2013 Small and Emerging Markets Seminar, later this year from October 8 - 11, 2013. DEM Martinez is attending the Regional Conference in his new capacity as the First Vice Chair of the Small and Emerging Airports Committee, and delivered a presentation "Airport's Role in Advancing Tourism and Economic Development", sharing the Guam airport experience on the first day of the conference, Tuesday, April 23, 2013. Mr. Martinez will also be installed as a Regional Board Member of ACI Asia Pacific at this forum!
- Following the ACI Asia Pacific Conference, DEM Martinez and Director Gerber will travel further on to attend the Pacific Asia Travel Association (PATA) Annual Summit from April 25 - 28, 2013 in Bangkok, Thailand. DEM Martinez will represent Executive Manager, Charles H. Ada II who was nominated and accepted the nomination to the PATA Board. The nomination will be placed before the voting membership of PATA for ratification this summit. Mr. Ada's appointment will be for a two-year term, effective April 28, 2013 at the PATA Annual General Meeting, and will end at the meeting prior to the Annual Conference in April 2015.

MEMORANDUM

To: Mr. Francisco G. Santos
Chairman
GIAA Board of Directors

From: Carlos Bordallo
Acting Comptroller

Subject: **Operating Results - Revenues and Expenses as of March 31, 2013**

Attached herewith is GIAA's Operating Results Report for the month ending March 31, 2013. This report summarizes the Budgeted versus Actual Revenues and Expenses for the month and year-to-date results ended March 31, 2013.

The key operating results for 6 month(s) of FY 2013 ending March 31, 2013 - (in $000's) are:

CATEGORY	YEAR-TO-DATE				FORECAST FOR FULL YEAR-FY13	
	Budget FY 13 Y-T-D	Actual FY 13 Y-T-D	% Variance Budget vs. Actual		Actual Y-T-D + Remaining FY 13 Budget	% Variance Budget vs. Estimate for Full Year
			Y-T-D Current Month	Y-T-D Last Month		
Total Signatory Revenues	$13,825.0	$15,117.7	9.4%	8.6%	$28,615.0	4.7%
Total Concession Revenues	$5,554.7	$5,460.9	-1.7%	-1.3%	$10,764.3	-0.9%
Total PFC's	$3,044.6	$3,404.1	11.8%	10.9%	$6,334.9	6.0%
Total Other Revenues	$7,806.8	$7,895.0	1.1%	.2%	$15,221.3	.6%
Total Operating Revenues	$30,231.0	$31,877.7	5.4%	4.8%	$60,935.5	2.8%
Total Operating Expenses	$21,590.6	$17,127.5	-20.7%	-22.5%	$35,979.3	-11.0%
Net Revenues from Operations	$8,640.4	$14,750.2	70.7%	80.8%	$24,956.2	32.4%
Non-Operating Expenses	$500.0	$195.4	-60.9%	-21.8%	$195.4	-60.9%
Other Available Moneys/other sources of funds	$2,403.3	$2,164.2	-9.9%	-10.0%	$4,544.2	-5.0%
Net Debt Service Coverage	**1.28**	**1.99**	**56.0%**	**59.2%**	**1.75**	**25.6%**

Year-to-date Total Signatory Revenues for the month ending March 31, 2013 are above Budgeted revenues by **9.4%.** Signatory revenue estimates are based on projections submitted by Signatory airlines and adopted in the annual budget.

Year-to-date Total Concession Revenues are below budget estimate by **-1.7%** and Passenger Facility Charges are above budget estimates by **11.8%.**

Year-to date Total Other Revenues, inclusive of non-signatory and non-airline revenues, are above the budget estimate by **1.1%.**

Year-to-date Total Operating Revenues Actual of **$31.9M** is **5.4%** above the budget estimate of **$30.2M.**

Year-to-date Total Operating Expenses are below budget by **-20.7%** from budget. Components of this line item include a **-10.0%** decrease in Personnel Service, a **-25.2%** decrease in Contractual Services, a **-47.5%** decrease in Materials & Supplies and a **-100%** decrease in Equipment/Furnishings from budgeted amounts for these respective categories.

The actual year-to-date Net Revenues from Operations of **$14.8M** reflects an increase of **70.7%** over the year-to-date budgeted amount of **$8.6M.**

Finally, our year-to-date results for Debt Service Coverage is at **1.75** versus the requirement of **1.25.**

MINUTES OF THE BOARD OF DIRECTORS REGULAR MEETING
3:00 p.m., Thursday, May 30, 2013
GIAA TERMINAL CONFERENCE ROOM #3

1. CALL TO ORDER AND ATTENDANCE

Chairman Francisco G. Santos called the A.B. Won Pat International Airport Authority, Guam (GIAA) regular meeting to order at 3:10 p.m. The presence of Directors is noted as follows: Jesus Q. Torres, Vice Chairman, Rosalinda A. Tolan; Martin J. Gerber; Edward G. Untalan; and Pedro P. Ada III. Also present were Charles H. Ada II, Executive Manager, Peter Roy Martinez, Deputy Executive Manager, Carlos P. Bordallo, Acting Comptroller, Frank R. Santos, Business and Financial Consultant, and Michael A. Pangelinan Esq., Legal Counsel. The Chairman welcomed the presence of Airport Tenants, stakeholders, and members of the public who are noted in a sheet made as an attachment to the minutes.

2. APPROVAL OF AGENDA

Vice Chair Torres made motion to approve the agenda as presented, seconded by Director Tolan; motion carried.

3. APPROVAL OF MINUTES

A. April 25, 2013 Board Regular Meeting

Director Ada made motion to approve the minutes, subject to correction, seconded by Vice Chair Torres; motion carried.

Before moving on with Correspondence the Executive Manager introduced to the Board representatives from Supreme, Darril Dela Paz, General Manager and Karlo Terz, Director of Operations.

4. CORRESPONDENCE

The Executive Manager informed the Board that a letter was received from the Oversight Chairman, Senator San Nicolas relative to Public Law 32-031, which mandates that Boards and Commissions have an educational curriculum established for Board members within 90 days of the Public Law. The Manager stated that GIAA is in the

process of developing such a curriculum which will be completed within the compliance time line set forth.

5. MATTERS FOR BOARD RATIFICATION/APPROVAL

A. Ratification of Disbursements

Director Ada made a motion to ratify payments above the $50,000.00 threshold made to vendors for the period of April 24, 2013 – May 24, 2013, seconded by Director Gerber; motion carried.

6. OLD BUSINESS

A. Executive Manager's Report

The Executive Manager presented brief reports on various issues and announcements relating to Airline issues, to include Starflyer, a Kitakyushu Airport based air operator, operating thirteen (13) charter flights between Kitakyushu and Guam in August, 2013; first of which is scheduled for August 1, 2013 and will continue through August 26, 2013.

May 20, 2013 Management met with the Signatory Airline partners to discuss items such as, FY2013 budget, new operator of the fuel system, Tiyan Parkway and Central Avenue closure, various legislative issues, and the bond refunding and capital improvement projects.

Regarding Regulatory issues, U.S. Customs and Border Protection (USCBP) announced the implantation of the paperless I-94. USCBP has developed an electronic version of the Arrival/Departure Record and will be in effect on Guam and the Commonwealth of the Northern Mariana Islands on May 14, 2013. Some traveler's will still need to complete a paper CBP Form I-94, including those applying for admission under the Guam-CNMI Visa Waiver Program or those entering the United States under a paroled status without a valid U.S. visa. Congresswoman, Madeleine Bordallo announced that in the Fiscal 2014 Homeland Security Appropriations Bill, language on expanding the Guam-CNMI Visa Waiver Program was inserted instructing the Department of Homeland Security (DHS) to finalize deliberations on the expansion of the program on Guam.
Not currently on Guam, the TSA pre-screening program, TSA Precheck is in place for eligible United Airlines passengers. Customers who are eligible will begin to see the TSA Precheck indicator on mobile boarding passes or those they have printed at home or a kiosk at some airports. This will allow customers to route themselves effectively to available TSA Precheck lanes. The program is available at all eight (8) United's domestic hubs and a total of twenty-nine (29) airports.

The Executive Manager reported that the Fiscal Year 2014 Budget preparation is in progress; with Division heads working within timelines to meet budget deadlines and goals.

In regard to the Specialty Retail Concession, the Manager reported that after the GIAA Board of Directors approved Management's recommendation to award the contract to Lotte Duty Free Guam, LLC; the successful negotiation of the contract concluded, and on May 18, 2013 the contract was awarded as authorized by the Board. The new Agreement increases the Airport's specialty retail concession guaranteed rental revenues from $4.5 million under the prior contract, to $15.4 million in minimum annual guaranteed rent to be paid by Lotte. The Airport was also able to negotiate additional revenue of 1% of all non-Airport sales made by Lotte on Guam. Under the new Agreement, no less than $23 million will be invested by Lotte in capital improvements towards enhancing the Airport's duty free shopping experience with a unique concept which includes substantial renovations to the Airport food court and restroom facilities at no additional cost to the Airport. A Press Conference for all media was held today, showcasing Lotte Duty Free Guam's winning concept "Gateway Guam".

Reporting on Personnel issues, the Executive Manager announced that through Public Law 29-94, authorization was granted to the Authority to establish pay scales for CTP positions. GIAA employed an independent study in 2008 to develop the pay scale for CTP positions. On November 23, 2010 the GIAA Board of Directors approved the migration to the 5th Market percentile, effective October 1st of that year. This is the first of a planned number of adjustments eventually achieving the 50th Market percentile or market average within the United States. Pursuant to GIAA CTP Rules and Regulations, internal equity should be reviewed annually and external competiveness at least every three (3) years. A review conducted in 2011, assessing a series of benchmark positions with data being obtained from market research against the U.S. Airport Industry and the U.S. Bureau of Labor Statistics (BLS). Research indicated an average market movement of 8.7% for the U.S. Airport Industry over the period of 2008 – 2012. The total estimated cost to migrate to the 15th Market Percentile is $602,640.00 with the total estimated cost to migrate to the 20th Market Percentile being $830,000.00.

The Executive Manager informed the Board that Bill 69-32 was passed in the legislative session May 28, 2013; requiring legislative approval for lease agreements that span more than five years. Bill 125-32 was introduced in the legislative session May 23, 2013, appropriating $500,000.00 to Department of Public Works to fund the acquisition property for the Tiyan Parkway Project.

The Manager reported that during the annual Airport Certification Inspection by the Federal Aviation Administration (FAA) on May 3, 2013, GIAA received excellent inspection results. Airport Certification Inspector, Juan S. Reyes of the FAA Airport

District office out of Honolulu commented on the great conditions at GIAA, and had only one recommendation to update the Airport's Wildlife Management Program.

Before ending the report, the Executive Manager introduced representatives from Citigroup, and the new General Manager of DFS Guam, June Guzman. Director Untalan at this time reminded the Board of the Bond Refinancing and commended the Executive Manager and staff for successful negotiations of the Specialty Retail Concession contract. He stated that with the new contract there will be a significant increase in annual revenue that the Airport will receive with the Concession itself, and that it's a very appropriate time as GIAA are going before rating agencies to show the improvements that are being made to the Airport.
At this time Director Ada thanked the Executive Manager for the recent tour of the facility. Director Ada stated that he had a number of requests for Management, including a report on the efforts being made to remove old debris on Airport property, and, what effort is being made to reduce the cost of power. The Executive Manager responded, informing Director Ada and the Board that GIAA has undertaken an eleven (11) million dollar energy performance project a little over a year ago which is expected to be completed this summer, and a two (2) million dollar energy savings per year is to be expected, which is quite significant. Chairman Santos stated that he has noticed a significant decrease in power cost in the past year.

Vice Chair Torres inquired on the $830,000 to get to the 20th Market Percentile, and asked if GIAA has that amount available. Director Untalan replied that the item was going to be brought to the Board for consideration next Board meeting. Director Untalan informed the Board that $830,000 is the maximum amount on an annual basis; the team has done an excellent job in controlling costs and revenues have increased. Chairman Santos inquired on when the Bond negotiations are going to start. The Executive Manager responded, informing the Board that a GIAA team is scheduled to be in San Francisco June 18 to 19 to engage Standard & Poor's. Chairman Santos made a recommendation for Director Untalan to join the team traveling to San Francisco. Chairman Santos called for any other comments. Mr. Frank Santos replied with a response regarding the 20th Percentile, stating that since a feasibility analysis is being done for the Bond, if the Board can authorize Management to utilize the higher amount for the compensation as part of our going forth planning in terms of what the debt service ratios would be and use the higher number, that way it could go down, but at least we planned for it; stating it's just a planning document. Director Tolan asked how high. Vice Chair Torres replied, to the 20th Percentile. Vice Chair Torres made motion to authorize Management to move to the 20th Market Percentile, seconded by Director Tolan; motion carried.

B. Financial Report

For the Board's information, Carlos P. Bordallo, Acting Comptroller presented the financial report as of April 30, 2013. In finishing his report, Mr. Bordallo replied to Vice Chair Torres's question asked earlier relative to the 20th percentile, stating yes that GIAA would be able to absorb the 20th Percentile, at $830,000.

C. Legal Counsel's Report

Legal Counsel indicated that a report regarding pending and threatened litigation matters would be provided during Executive Session. The Board had no objection.

D. Status of Capital Improvement Programs

Mr. Frank Santos presented the UDO analysis and informed the Board that this is a continuation of the existing projects that we have and a summary showing ninety-seven (97) million dollars in federal funding, which GIAA has already spent seventy-six (76) million. Reporting on those projects that are pending or are in progress, Mr. Santos informed the Board that the Instrument Landing System (ILS) for Runway Left is essentially complete, but due to scheduling problems, FAA will not be able to bring their aircraft for a 'flight check' until August 2013, with the publication in December 2013. At which time that runway is available for arrivals, which also means that Central Avenue may have to close on those days. Mr. Santos reported on various other projects in progress and went on to say that next month is 'grant season' month, GIAA is expecting to receive seven hundred (700) million dollars from the FAA for work that will be announced at a later time once the Board of Directors approves the grants.

7. NEW BUSINESS

No New Business presented.

8. EXECUTIVE SESSION

The Chairman announced that upon the recommendation of legal counsel the Board will recess and convene Executive Session after the recess. Vice Chair Torres made motion to recess and convene Executive Session after the recess, seconded by Director Tolan; motion carried. The Board recessed at 3:42 p.m.

Chairman Santos called Executive Session to order at 3:52 p.m. *(At this time Chairman Santos and Director Tolan exit the conference room).* Executive Session adjourned at 5:06 p.m., at which time the Board reconvened the regular meeting.

Director Untalan suggested before moving to Public Comments that he would like to make a motion relating to legal fees on the Specialty Retail Concession matter. As a result of the potential litigation and ongoing protest which require Legal Counsel to

devote an extraordinary amount of resources and personnel of its law firm and which is not economically feasible for legal counsel under its current contract rates and monthly fee cap, Director Untalan moved to adjust the hourly rates of Legal Counsel specifically for the matters relating to the Specialty Retail Concession to $325.00 per hour for San Francisco-based litigation partners, $225.00 per hour for all other attorneys, and $75.00 per hour for legal assistants, and to remove the cap of $45,000 per month for services rendered in matters relating to the Specialty Retail Concession. Director Untalan stated that the existing contractual hourly rates and cap of $45,000 per month would still remain for all other matters; however this specific matter will require a lot more man power and expertise. Director Untalan made motion to adjust the compensation for Legal Counsel as indicated, and to lift the cap of $45,000 per month. Chairman Santos handed the item over to Vice Chairman Torres to chair as the issue pertains to the Specialty Retail Concession in which Chairman Santos has abstained from participating. Director Ada seconded the motion made by Director Untalan; and clarified for the Board, stating that the $45,000 cap and fee structure remains the same for any and all other matters, and that the new fee structure with no cap applies only to the Specialty Retail Concession matter. Director Untalan requested that the billings related to this issue be separated. Motion duly carried.

9. PUBLIC COMMENTS

The Chairman called upon any public member wishing to make comments. There was no response.

10. ADJOURNMENT

Vice Chair Torres made a motion to adjourn the meeting, seconded by Director Tolan; motion carried. The meeting adjourned at 5:10 p.m.

Respectfully submitted,

Amanda O'Brien-Rios
Board Secretary

Defense Department confirms deaths as Guam mourns

Two other Guam Guardsmen had minor injuries in same attack

By Frank Whitman
frank@mvguam.com
Variety News Staff

WITH Guam in a state of mourning since Saturday evening, the Department of Defense today confirmed the deaths of Guam Army National Guardsmen Sgt. Eugene M. Aguon, 23, of Mangilao, and Spc. Dwayne W. Flores, 22, of Sinajaña.

The Guam National Guard also issued a statement expressing its sadness over the loss and said two other Guam Guardsmen had received minor injuries in the same attack and had returned to their unit. They were Sgt. 1st Class Peter J. Crisostomo and Spc. John F. Chargualaf. All four soldiers belong to Echo Company, 1-294th Infantry Regiment.

As previously reported, the DOD announcement said Aguon and Flores died May 16 in Kabul, Afghanistan of wounds suffered when enemy forces attacked their convoy with a vehicle-borne improvised explosive device. They were assigned to the 1st Battalion, 294th Infantry Regiment, 29th Infantry Brigade Combat Team. The unit is supporting Operation Enduring Freedom.

Mass is being celebrated for Flores at 6 p.m. Monday through Friday in the Chapel of St. Theresa in the Dulce Nombre de Maria Cathedral-Basilica in Hagåtña. The 6 p.m. Mass on Saturday and the Sunday Mass at 7 p.m. will be in the main church. Rosary is being said nightly at 8 p.m. for Aguon at the family residence in Mangilao.

No specific information is yet available on when the remains of Aguon and Flores will return to Guam, said a National Guard spokesman.

Confirm

Maj. Gen. Benny M. Paulino, the adjutant general of the Guam National Guard, said, "We can now confirm that there was an incident involving two soldiers from the 1st Battalion, 294th Infantry Regiment in Afghanistan, assigned as Task Force Guam, working as part of the NATO Training Mission-Afghanistan, International Security Assistance Force, which supports the government of Afghanistan in developing and sustaining the Afghan National Security Forces."

Eugene Aguon

Dwayne Flores

DOD does not release the names of casualties until it confirms that family members have been notified.

"We are deeply saddened by the loss of our warriors," Paulino said. "They are members of our Guam Guard family, so it is a deep and heart-rending loss for all of us. Although both were very young, based on what I have heard from others who knew them personally, they were also very involved in their communities and in their parish. They will most certainly be missed, but I know their memories will be treasured by many for a long time.

"Rest assured that I have already committed all the resources necessary to take care of the immediate needs of the families of our fallen and injured soldiers, as they go through this difficult time. And we are assisting in the process to bring them back home to us as soon as possible," Paulino added.

Best support

Lt. Col. Michael Tougher, commander of the 1-294th Infantry Regiment, said, "Our thoughts and prayers are with the family and friends of our fallen Guam brothers. Our primary focus at this time is to provide the best possible support to the families and colleagues of Sgt. Aguon and Spc. Flores. They were serving in support of the NATO mission helping to ensure Afghan-led security and stability in Afghanistan for generations to come. Their sacrifices will never be forgotten."

Sen. Frank Aguon Jr., chairman of the 32nd Guam Legislature's Committee on Guam-U.S. Military Relocation, Homeland Security, Veterans Affairs, and Judiciary, and a major in the Guam Air National Guard who has been deployed to Afghanistan, said, "Thoughts, prayers and condolences go out to the families of Guam's newest champions of freedom, Guam's heroes, Sgt. Dwayne Flores and Spc. Eugene "Mikey" Aguon. Our island mourns their loss. To the families: Thank you for their courage and selfless service to keep our island and our nation safe – their unselfish act will always be remembered. As a community, we must be mindful of the approximately 600 Army Guard members who continue to serve our nation and our island in the War on Terror in Afghanistan, and extend our prayers for their safe return home."

The battalion of almost 600 soldiers became Task Force Guam when they took over the mission in Afghanistan almost a month ago. The unit expects to complete their mission and return to Guam sometime early next year.

Court denies tour company's motion for summary judgment on diving suit

By Mar-Vic Cagurangan
For Variety

THE District Court of Guam has denied a local tour company's motion for summary judgment seeking the dismissal of a Japanese couple's $10 million civil suit over a 2009 diving accident.

In Monday's decision, Chief Judge Frances Tydingco-Gatewood dismissed U.S. Explore & Study's motion against the lawsuit filed by Koichi Ogawa and his wife.

The lawsuit, filed in March 2011, alleged that the tour guide's negligence during a hiking tour in Nimitz Hill had caused the accident that rendered Koichi Ogawa quadriplegic.

"[T]here is a genuine issue of material fact as to causation, and summary judgment would be inappropriate," the court said.

"A fact is material if it might affect the outcome of the suit under the governing substantive law, and a factual dispute is 'genuine' where 'the evidence is such that a reasonable jury could return a verdict for the [plaintiffs],'" the court added.

Doc No. 366 on 5/06/2013 summary judgment filed last year, U.S. Explore acknowledged, "The accident was indeed tragic."

However, U.S. Explore argued it "had no legal duty to warn or protect Koichi Ogawa against the risks that were open and obvious."

Recounting details of the hiking tour, the Ogawas blamed the chief tour guide – Ken Haga – for his alleged failure to warn tour participants about the danger of diving head first into the pond.

The hiking tour on March 22, 2009 coursed from Nimitz Hill, back down to the Fonte reservoir and then along the riverbed that led to the accident site.

Legal briefs

According to Explore's legal briefs, Ogawa chose "to dive head first into the pond" even after assessing and recognizing the danger of diving in such a manner into the shallow water basin.

U.S. Explore said, "As a matter of law, it was his (Koichi Ogawa's) own fault."

Pointing out that the "primary assumption of risk doctrine" applies on Guam, the court agreed that U.S. Explore "had no duty to eliminate or protect Dr. Ogawa against risks inherent in diving, including the risk of hitting one's head on the bottom of the body of water into which one is diving."

However, the court added, U.S. Explore "did have the duty to not unreasonably increase the risk of Dr. Ogawa hitting his head on the bottom of the waterfall basin while diving."

U.S Explore cited previous rulings on similar cases in which the courts issued summary judgments in favor of the defendants.

Tydingco-Gatewood, however, said the rulings invoked by U.S. Explore were not applicable to the case at bar, as they involved plaintiffs who were intoxicated at the time of the accidents.

"The dispute is genuine because a reasonable tier of fact could determine that the distinctions between Dr. Ogawa's conduct and those of the plaintiffs in Butler and Johnson are sufficient to find Dr. Ogawa's actions did not break the causal chain," the court said.

"Dr. Ogawa had not consumed multiple alcoholic beverages prior to diving, which occurred during the day, and he inquired about the depth of the water prior to diving in," it added.

Feds investigating PAG overtime

By Joy White
joy@mvguam.com
Variety News Staff

AN INVESTIGATOR from the U.S. Department of Labor's wage and hour division met with Port Authority of Guam management early this month to look into unpaid overtime.

The investigator, Nicholas Bertino, had informed PAG management that his office received a complaint about a delay in payment for employee overtime.

During her report to the port's board of directors at a recent meeting, PAG General Manager Joanne Brown said she, along with the PAG deputy general manager for administration and finance, the deputy general manager for operations, the general accounting supervisor, and the head of human resources, met with the investigator on May 10.

Brown reported to the PAG board that she asked the general accounting supervisor which divisions were behind in providing overtime requests. It was discovered the Port Police and Stevedore Division had been late in submitting the paperwork to process overtime payments to meet the payroll deadline.

Bertino told the team overtime must be paid to employees in accordance with the pay period in which the overtime earned, no matter the amount owed.

This is a warning notice, he told the team, reminding them the port had faced a similar case in the 1990s and future violations could involve civil penalties and liquidated damages.

Brown reported that Bertino has requested PAG management to submit a compliance action plan to his office by May 31.

According to the March 2013 staffing patterns, PAG employs more than 300 personnel.

Currently there is no labor union for PAG employees. However, in November 2011, a collective bargaining agreement had been signed by the PAG board and the Guam Federation of Teachers.

As of April, GFT had been awaiting a final signature from the governor.

According to the Fair Labor Standards Act, unless exempt, employees covered by the law must receive overtime pay for hours worked over 40 in a workweek at a rate not less than time and one-half their regular rates of pay.

Sentencing in child porn case delayed

By Gina Tabonares-Reilly
gina@mvguam.com
Variety News Staff

THE June 14 sentencing hearing for Romeo Gonzalo has to be moved to August because of the defense counsel's unavailability.

Gonzalo, 42, was indicted last year with receipt of child pornography and forfeiture allegation.

His arrest was the result of an investigation conducted by Special Agent Brandon Kane on December 2010.

According to court records, Kane observed that a computer with a particular Internet Protocol Address possessed and was actively downloading child pornography.

Kane connected to the computer and viewed the list of files within the accused's shared folder. The agent compared the files with the Internet Crimes Against Children database and the comparison revealed that eight of the files observed on the computer contained child pornography and were downloaded in September 2010.

Kane downloaded one movie file from the computer and observed images of a prepubescent female child depicted in sexually explicit scenes.

Upon further investigation, Kane was able to trace the computer to 274 Mabolo Drive, Fern Terrace, Dededo.

Law enforcement officers subsequently obtained a warrant and seized a Toshiba Satellite laptop belonging to defendant Gonzalo.

A subsequent forensic examination of Gonzalo's computer revealed 65 movies containing child pornography had been downloaded into the computer's hard drive.

The movies containing child pornography involved children under the age of 12. There were at least 600 images recovered in the defendant's computer.

On July 8, 2011, Gonzalo admitted the computer was his and that he used the laptop to connect to his neighbor's wireless Internet service. He downloaded the movies between Sept. 10, 2010 and July 8, 2011.

Gonzalo is facing up to 10 years' imprisonment, a fine of $250,000, and – because he is not a U.S. citizen – will be subjected to immigration removal proceedings.

Upon his sentencing, he is required to register in the state sex offender registry.

He entered a plea agreement on Feb. 1.

Hospital ICU to be complete by yearend

By Joy White
joy@mvguam.com
Variety News Staff

IN A recent meeting with the Guam Memorial Hospital Authority board of trustees, GMHA Administrator Joseph Verga informed the trustees that the expansion and construction of the hospital's new emergency room and intensive care/critical care unit is about 65 percent complete.

The groundbreaking for the project was held Sept. 7, 2012.

According to Verga, there were some minor construction difficulties but contractors are expected to complete the ICU/CCU in late August.

After beds and equipment have been procured, the facilities are expected to be open by October or November with the emergency department to be opened shortly thereafter.

The emergency room and the ICU/CCU will be expanded to three times their current size. The enlarged facilities will alleviate overcrowding and ensure a safer and better environment for both staff and patients.

The project will cost about $7.5 million to complete.

In addition, the hospital is hoping to open up the physicians' parking area no later than the beginning of August. The parking area was closed during the duration of the facilities' construction. Opening the physicians' parking will make an additional 36 parking spots available for visitors and patients to the hospital.

The new emergency department will expand from its existing 5,400 square feet to approximately 15,000 sq. ft.

It will have two state-of-the-art trauma rooms; two multipurpose isolation and decontamination rooms; 12 state-of-the-art monitored examination stations; two non-monitored examination stations; one multipurpose exam room; one multipurpose suture/cast room; one satellite laboratory room; a large, external permanent decontamination system; and upgraded waiting, triage, registration, utility, storage, office and lounge rooms and areas.

The ICU/CCU will expand from its existing 2,539 sq. ft. to 7,870 sq. ft., going from an eight-bed unit to a 14-bed unit (to include two isolation rooms). The ICU/CCU will also have the space required to support clean and soiled utility rooms, a multipurpose conference room, a family waiting room, nourishment and medication rooms, medical director and charge nurse rooms, MD/RN lounge, and medical supplies and equipment storage rooms.

Dr. Joel Joseph, owner of Wise Owl Animal Hospital, contends that the Guam Board of Allied Health Examiners is biased against him and did not afford him due process in rejecting his application for the renewal of his license.

Testimony: No building permit for Wise Owl

By Frank Whitman
frank@mvguam.com
Variety News Staff

CARL Dominguez, director of the Department of Public Works, testified on Friday that the Wise Owl Animal Hospital does not have a building permit or an occupancy permit from the department. Dominguez was a witness in the proceedings concerning the Guam Board of Allied Health Examiners' decision not to renew the veterinary license of Dr. Joel Joseph, owner of Wise Owl Animal Hospital.

He also testified that he was unable to find such permits for other veterinary clinics.

Joseph had previously testified that he had been told by a DPW employee that a Public Works business license clearance was an occupancy permit. Dominguez was followed on the witness stand by Joseph Guevara, DPW building permit administrator, who said that if an employee had told Joseph the clearance was an occupancy permit, that "would be wrong."

The issue is one of several being discussed in the hearing before Superior Court Judge Vernon Perez. Earlier, Mamie Balajadia, a clinical psychologist and chairwoman of GBAHE, finished her testimony, during which she responded to assertions by Joseph that her doctorate in education did not qualify her to practice psychology. She said that at the time she attended Western Michigan University, the discipline of psychology – which she studied – was under the university's school of education. "My transcripts will show that my training is in psychology," she testified.

Balajadia also said she had discontinued a public forum section of GBAHE meetings because Joseph had been "disruptive" to the meetings. She said the date for the GBAHE December meeting was changed because a quorum of the members was not able to attend earlier in the month.

Joseph contends that the board is biased against him and did not afford him due process in rejecting his application for the renewal of his license. He said he was not notified about alleged deficiencies in his license application nor given a chance to respond to other issues leading to the board's decision.

Dr. Lisa Silk, owner of Isla Veterinary Clinic, also testified during Friday's session. She and Joseph have both acknowledged a longstanding dispute between them. She testified that Joseph's allegations – that she had not properly neutered two dogs – were inaccurate and lab test results that had been shown as evidence did not show that the dogs in question had not been neutered. "To me, this is just more slander," she said.

Among the reasons cited for not renewing Joseph's license are his questioning of the competence and qualifications of Silk and Balajadia.

The hearing will resume tomorrow afternoon.

The Honorable
EDDIE B. CALVO
Governor

A.B. WON PAT

The Honorable
RAY TENORIO
Lt. Governor

PUBLIC NOTICE

The Board of Directors of the A.B. Won Pat International Airport Authority, Guam (GIAA) will hold a Regular Board Meeting on Thursday, May 30, 2013 at 3:00 p.m. in GIAA Terminal Conference Room No. 3. In addition to regular matters, pursuant to 5 G.C.A §8111(c)(2), Executive Session will be held to discuss pending litigation to which GIAA is a party. Parking is available in the Public Parking Lot.

For special accommodations, please call the Board Office at 642-4717/18.

(This ad paid for by GIAA)

MINUTES OF THE BOARD OF DIRECTORS REGULAR MEETING
3:00 p.m., Thursday, April 25, 2013
GIAA TERMINAL CONFERENCE ROOM #3

1. CALL TO ORDER AND ATTENDANCE

Chairman Francisco G. Santos called the A.B. Won Pat International Airport Authority, Guam (GIAA) regular meeting to order at 3:08 p.m. The presence of Directors is noted as follows: Jesus Q. Torres, Vice Chairman, Rosalinda A. Tolan; Edward G. Untalan; Pedro P. Ada III, and Lucy M. Alcorn. Also present were Charles H. Ada II, Executive Manager, Carlos P. Bordallo, Acting Comptroller, Frank R. Santos, Business and Financial Consultant, Janalynn C. Damian Esq., and Michael A. Pangelinan Esq., Legal Counsel. The Chairman welcomed the presence of Airport Tenants, stakeholders, and members of the public who are noted in a sheet made as an attachment to the minutes.

At this time Chairman Santos acknowledged the presence of Director Ada. The Chairman welcomed the Director informing the Board that he was sworn-in at the Governor's Office this morning. Director Ada thanked the Chairman and stated that he looks forward to being an asset to the GIAA Board of Directors and that he appreciated the support shown to him by GIAA at the Legislative Hearing and the Swearing-In Ceremony this morning. The Board members welcomed the new Director.

2. APPROVAL OF AGENDA

Vice Chair Torres made motion to approve the agenda as presented, seconded by Director Alcorn; motion carried.

3. APPROVAL OF MINUTES

A. March 28, 2013 Board Regular Meeting
B. April 12, 2013 Board Special Meeting

Vice Chair Torres made motion to approve the minutes of both meetings, subject to correction, seconded by Director Alcorn; motion carried.

4. CORRESPONDENCE

The Executive Manager informed the Board that several correspondence were received relative to the Specialty Retail Concession that was recently awarded, and suggested that it be moved to Executive Session.

5. **MATTERS FOR BOARD RATIFICATION/APPROVAL**

A. Approval of Award for Custodial Services IFB No. GIAA-001-FY13

An Invitation For Bid was announced to solicit bids from professional firms to provide custodial services at the Guam International Air Terminal, inclusive of all labor, materials, supplies and equipment. The term of the contract is for a period of three (3) years with options for renewal, not to exceed a total term of five (5) years. Of the twenty-one (21) firms that received bid packages, seven (7) firms submitted bids before the submission deadline. In reviewing the bid prices submitted, the potential amount of the bid award for all of the Terminal Levels totaled $875,557.68. The Manager stated that additional custodial services were added to include: Administration third floor offices and balcony, Air Terminal Services offices, Properties and Facilities break room, Terminal Conference Rooms 1, 2, and 3, Ramp Control Center office, and Terminal Center. The Executive Manager requested that the Board authorize the contract award for the four (4) bid items as follows:

ITEM & DESCRIPTION	AWARD TO
Item 1: Basement Level	MTO Maintanance
Item 2: Apron Level	Guam Cleaning Masters
Item 3: Concourse Level	Guam Cleaning Masters
Item 4: Other Facilities	JJ Global

It has been determined that all three firms have met the standards of responsibility and responsiveness outlined in Guam Procurement Regulations. Director Tolan inquired on Item 4, and what area JJ Global will be servicing. The Executive Manager answered, informing the Board that Item 4 consists of the additional custodial services that were added, to include Administration Offices third floor and balcony. Director Ada asked that if the contract is awarded to the lowest bidder, how Management upholds the standard. Executive Manager responded, stating that there are provisions within the contract allowing Management to monitor their work and even withhold payment if the standards outlined in the scope of work are not met. Vice Chair Torres made motion to approve Managements recommendation, seconded by Director Ada; motion carried.

B. 2013 Bond Legislation

The Executive Manager informed the Board the Bond Legislation consists of three (3) components and handed over the presentation to Mr. Frank Santos, Business and Financial Consultant. Mr. Santos informed the Board members that the handouts given

out include the proposed legislation in draft form and presentation material regarding an overview and background of the 2003 Bonds.

The first of the three (3) components is the refunding of the 2003 Bonds. The 2003 Bonds were issued to refund the 1993 GIAA Bonds which financed the construction of the new Airport. The estimated amount outstanding is $145,415,000. Refunding it precludes GIAA from paying the Bond Insurer, MBIA. In October of this year, GIAA will be required to pay approximately $795,000 to MBIA if the 2003 Bonds are outstanding, including $25,000 annual Surveillance Fee. Mr. Santos stated that GIAA is looking at a lower interest rate and avoiding charges that do not make sense at this point. The current Bonds are approximately 5.95%. As of today, GIAA is looking at a potential rate of 3.5%, which justifies the refunding of the Bonds. Mr. Santos informed the Board that the Legislation in itself is calling for a maximum interest rate of 6.5%. Once GIAA requests for a lower rate than the one stated by law, GIAA cannot pursue the refinancing, the maximum rate of 6.5% would be capped but likely wouldn't be lowered to make the refunding feasible.

Mr. Santos stated that the second component is to refinance the subordinate loan, the Energy Management Program taken out last year of 11.9 million. The loan would have been paid over five (5) years with the bulk of the principal interest paid in the last four (4) years, committing to 3.2% per year. To extend the loan out over a ten (10) year term would mean a lower annual payment.

The third component is New Money. Mr. Santos informed the Board that the master plan identified nine (9) projects estimating $77,300,000. Mr. Santos handed out a three (3) year draft list of projects which showed a $41,960,000 in Bond proceeds. Based on the savings from the refunding, if GIAA were to take 10% of the GIAA Debt Service of eighteen (18) million, 10% savings is 1.8 million. That 1.8 million can translate into 45-65 million dollars worth of projects, without increasing the current Debt Services. Therefore, the new money is from the savings of the Debt Service because of the lower interest rate.

After a brief presentation of the three financial components, Refunding, Refinancing the Energy Management loan and New Money, Mr. Santos stated that there is no projected increase in Debt Service therefore, no increases in airline rates and charges at this time that GIAA is contemplating. There are administrative components to the Legislation, to include increasing any subordinate loans from five (5) years to ten (10) years. It also includes increasing the terms for exclusive service agreements from five (5) years to ten (10) years. Mr. Santos went on to say that once Board approves the authorization, Management will introduce the draft Legislation to be revised, to include additional projects and any other modifications that the finance team should make. The finance team consists of GEDA, the Airport, and the Governor's Office from the Government Sector. The private sector is the Underwriter's: Citigroup, Wells Fargo, the Bond Council,

and the Underwriter's Council. Mr. Santos stated that a finance team was set up to process all of the official statements, the offer, preparing for the two (2) formal presentations to Standard & Poor's and Moody's.

The presentation to the rating agencies is expected in June, the Bond pricing in July, and the Bond closing in August 2013. Mr. Santos informed the Board that at this time Management is asking for Board authorization to proceed with the introduction of the. Legislation to the Governor's Office and Oversight Senator. Vice Chair Torres stated that the Oversight Chairman should always be kept informed in regard to this item B, the Executive Manager responded, informing the Board that the Senator was in attendance at the presentation with Citigroup. Director Ada inquired if the forty (40) million toward improvements was a set priority. Mr. Santos replied, informing the Director and the Board that the list is based on what the market conditions are in June. The amount of savings results in 45-65 million dollars worth of projects. When the projects are put together, there will be a list Priority One projects, which will include most of the projects listed on the handout; Priority Two projects, consisting of projects that will support the Airport in terms of first and last impressions, and improve the passenger experience. Mr. Santos answered yes; most of these projects are priority. Eventually we will have a list of Priority One and Priority Two projects which will include additional projects.

Director Ada inquired on the refinance money, if it would be extending out the terms as well. Mr. Santos responded that the refunding won't, but the refinancing of the Energy Loan, yes. Director Ada added that it would be stretching out the payment terms. Mr. Santos replied, yes.
Chairman Santos called for a motion to authorize the Executive Manager to draft and proceed, Director Untalan made motion to authorize Management to introduce the draft legislation, seconded by Director Tolan; motion carried.

C. Ratification of Quarterly Travel

Vice Chair Torres made motion to ratify the quarterly travel from January - March 2013. With the majority of the employees travelling being ARFF personnel travelling to Saipan for their Live Fire Certification, The Vice Chair stated that the travel was critical to enhance the skills of GIAA Fire Fighters and inquired if the facility in Saipan is still up to par. The Executive Manager responded stating yes, that GIAA along with other airports in the region are utilizing the facility. Director Ada inquired as to why the travel is ratified after the travel has already occurred. Mr. Bordallo responded informing Director Ada that the budget is prepared every year with a travel calendar, and every year a portion of the budget is allocated for travel. Ms. Arriola also added that the travel policy requires the Board to approve any travel. Once the Chairman approves, the employee travels, the Board then ratifies the approval that the Chairman has made. As there were no further discussion, the motion was seconded by Director Tolan; motion carried.

D. Ratification of Disbursements

Vice Chair Torres made a motion to ratify payments above the $50,000.00 threshold made to vendors for the period of March 27, 2013 – April 22, 2013, seconded by Director Untalan; motion carried.

6. OLD BUSINESS

A. Executive Manager's Report

The Executive Manager presented updates on various matters concerning airlines and charter operations, to include China Airlines announcing eight (8) new charter flights for the month of May. Four (4) flights arrive Friday, May 3rd from Fukuoka, Kansai, and Taipai; and four (4) flights will depart Monday, May 6th.

The Manager reported that terminal improvements continue in the West Ticket Lobby, with the construction of new ticket counters almost complete.

The FAA Airport District Office (ADO) Manager, Mr. Ron Simpson was here on island to meet with Management, Division Heads and also met with some of the Board Members on April 15 and 16, 2013. The visit was to discuss AIP projects and general compliance issues. The Executive Manager went on to add that before Mr. Simpson departed, he expressed his gratitude and satisfaction with the efforts made by GIAA. FAA's annual certification inspection of Guam Airport Facilities is scheduled for Monday, April 29, 2013. Last year's inspections yielded minimal discrepancies, which GIAA has worked hard to address. The Manager noted for the Board's information that last year's discrepancies were the fewest in the region.
The Executive Manager informed the Board that GIAA has been advised that the FAA is implementing traffic management initiatives at airports and facilities around the country as a result of employee furloughs due to sequestration. Travelers are expected to see a wide range of delays that will change daily depending on staffing and weather related issues. GIAA Management does not foresee any impacts locally in the near future.

TSA Federal Security Director (FSD) Brian Cahill has notified GIAA that there have been delays in implementing changes to TSA's Prohibited Items List. The changes were supposed to take effect April 25, 2013 but were delayed to accommodate further input from the Aviation Security Advisory Committee (ASAC). FSD Cahill has expressed his commitment to sharing the updated information with GIAA as soon as it becomes available.

The Executive Manager announced to the Board that on April 24, 2013 a positive rating update from Moody's Investors Service was received indicating that GIAA's 2003 Revenue Bonds Baa2 Rating was reaffirmed with a 'stable' outlook. Guam has the

potential for greater growth with the possible increased military presence on Guam and more tourism opportunities from the mainland, China and Russia.

In regard to the Annual Budget the Manager reported that GIAA has begun the annual budget review and preparations for fiscal year 2014. GIAA is required to submit a preliminary budget to the carriers by July 1st of every year, as stated in the signatory airline agreement.

At this time the Executive Manager welcomed the newly appointed Board Member, Director Ada.

Announcing procurement issues, GIAA officially received a protest from DFS on Tuesday, April 23, 2013 in response to the Specialty Retail Concession RFP being awarded to Lotte Duty Free at the last Special Board Meeting held April 12, 2013.

GIAA sent a delegation of four (4) members to the 8th Airports Council International (ACI) Asia-Pacific Regional Assembly, Conference and Exhibition held in Phuket, Thailand from April 22 – 25, 2013. The delegation consisted of Deputy Executive Manager, Peter Roy Martinez, and Board Director, Martin Gerber; staffed by GIAA Marketing Administrator, Rolenda Faasuamalie, and Marketing Program Coordinator, Marcia Taitano. The team is also there as an exhibitor to market and push attendance for the upcoming ACI Asia-Pacific 2013 Small and Emerging Markets Seminar scheduled for October 8 – 11, 2013, which will be hosted by Guam. The Manager announced that the Deputy Executive Manager is attending the conference as the First Vice Chair of the Small and Emerging Airports Committee and will be installed as a Regional Board Member of ACI Asia Pacific. Following the ACI Conference, Deputy Executive Manager Martinez and Director Gerber will travel on to Bangkok, Thailand to attend the Pacific Asia Travel Association (PATA) Annual Summit from April 25 – 28, 2013. Deputy Executive Manager will represent the Executive Manager, Charles H. Ada II who was nominated and accepted the nomination to the PATA Board.

Director Ada inquired on the furloughs and or delays, and if Guam will be affected. Mr. Santos responded stating there may be a trickle-down effect, but does not anticipate an impact locally.

B. Financial Report

For the Board's information, Carlos P. Bordallo, Acting Comptroller presented the financial report as of March 31, 2013. Director Untalan suggested for the Boards information that the Comptroller explain the 70% variance over budget. The Comptroller responded informing the Board that some operating expenses were transferred from the operating budget to the capital budget, primarily for the Energy

Efficient Loan. The Comptroller went on to say that GIAA is $52,000.00 in payments above budget, and that operational expenses are down and revenue is up.

C. Legal Counsel's Report

Legal Counsel recommended that discussions regarding litigation matters be reported during Executive Session. The Board had no objection.

D. Tenant Matters

No Tenant Matters reported.

E. Status on Capital Improvement Programs

Mr. Frank Santos presented the UDO analysis and informed the Board that all projects are moving forward with Phase 2A of the Noise Mitigation Sound Solution project beginning shortly, sound proofing twenty-eight (28) homes on both sides of the runway. Director Ada inquired if the grants listed on the report were multi-year grants or single grants spanned throughout multiple years. Mr. Santos responded informing the Board that normally the performance rate is over a period of four (4) years.

7. NEW BUSINESS

No New Business presented.

The Chairman announced that the Board will recess and convene Executive Session after the recess. Vice Chair Torres made motion to recess and convene Executive Session after the recess, seconded by Director Alcorn; motion carried. The Board recessed at 3:48 p.m.

8. EXECUTIVE SESSION

Chairman Santos called Executive Session to order at 4:00 p.m. *(At this time Chairman Santos and Director Tolan exit the conference room).* Executive Session adjourned at 4:58 p.m., at which time the Board reconvened the regular meeting.

9. PUBLIC COMMENTS

The Chairman called upon any public member wishing to make comments. There was no response.

10. ADJOURNMENT

The Chairman announced that the next regular meeting is scheduled for Thursday, May 30, 2013. Vice Chair Torres made a motion to adjourn the meeting, seconded by Director Tolan; motion carried. The meeting adjourned at 5:00 p.m.

Respectfully submitted,

Amanda O'Brien-Rios
Board Secretary

Starflyer, an air operator headquartered at the Kitakyushu Airport, will operate 13 charter flights between Kitakyushu and Guam in August. The first charter flight is scheduled for August 1 and will continue through August 26, 2013. They will be operating and A320 Airbus with a capacity of 150 pax. The Starflyer package averages $883 per person for a two night/three day package.

Signatory Airlines

Management met with the Signatory Airlines on May 20, 2013. Discussion items included FY2014 budget, new operator of the fuel system, peak period operations, common-use check-in study, energy management program, passenger loading bridges, airfield projects, Tiyan Parkway/Central Ave. closure, legislative issues, bond refunding and capital improvement projects.

REGULATORY ISSUES

USCBP announced the implementation of the paperless I-94. U.S. Customs and Border Protection ports of entry in Guam and the Commonwealth of the Northern Mariana Islands will begin automation of the I-94 on May 14. In an effort to increase efficiency and minimize the use of paper forms, CBP has developed an electronic version of the Arrival/Departure Record commonly referred to as the CBP Form I-94. Certain passengers arriving into Guam and the CNMI onboard commercial airlines will no longer need to fill out the paper form. Once travelers are processed through CBP, an electronic version of the arrival record is created with a unique admission number. Individuals can go to www.cbp.gov/I94 to view or print a copy of an I-94 based on the electronically submitted data, including the I-94 number from the form, to provide as necessary to benefits providers or as evidence of lawful admission. Travelers applying for admission under the Guam-CNMI Visa Waiver Program will still be required to complete a paper CBP Form I-94 as well as the CBP Form I-736. Travelers entering the United States under a paroled status without a valid U.S. visa will also require the paper form.

Expanded Visa Waiver Program

Congresswoman Madeleine Bordallo announced that language on expanding the Guam-CNMI Visa Waiver Program was inserted in the Fiscal 2014 Homeland Security Appropriations bill. It "instructs the Department of Homeland Security [DHS] to finalize deliberations on the expansion of the program on Guam... and meet Congressional intent by establishing a common set of regulations for all visitors to the region."

TSA pre-screening program, **TSA Precheck,** is in place for eligible United Airlines passengers, who may be selected for the program. Eligible United customers will start to see the TSA Precheck indicator on mobile boarding passes, boarding passes printed at home or from the kiosks at some airports, allowing customers to effectively route themselves to available TSA Precheck lanes. The program is available at all eight of United's domestic hubs and at a total of 29 airports (does not currently include Guam). The TSA Precheck indicator will appear on boarding passes throughout a customer's itinerary whether or not the airport has TSA Precheck, so customers are encouraged to check that the airport is a participating location on united.com/tsaprescreening or tsa.gov/tsaprecheck.

Executive Manager's Report
GIAA Board of Directors Meeting
May 30, 2013

FINANCIAL

Fiscal Year 2014 Budget preparation is in progress. Division heads have been working within timelines and cost containment procedures to meet budget deadlines and goals.

Retail Concession

On April 12, 2013, the GIAA Board of Directors approved Management's recommendation to award the Specialty Retail Merchandise Concession contract to Lotte Duty Free Guam, LLC subject to the successful negotiation of the contract. I am very pleased to report that successful negotiation of the contract was concluded and on May 18, 2013, a contract was awarded to Lotte Duty Free Guam, LLC as authorized by the Board. The new Agreement is for an exclusive term of five years with an additional five-year term on a non-exclusive basis. The new Agreement increases the Airport's specialty retail concession guaranteed rental revenues from $4.5 million under the prior contract to $15.4 million in minimum annual guaranteed rent to be paid by Lotte. The Agreement with Lotte represents a 242% increase in minimum annual guaranteed rent with the potential for further increased revenues based on percentage rent, which the Airport expects to be substantial. Moreover, the Airport was able to negotiate additional revenue of 1% of all non-Airport sales made by Lotte on Guam.

Under the new Agreement, Lotte will invest no less than $23 million in capital improvements towards enhancing the Airport's duty free shopping experience with a unique concept. Included in this unique shopping experience concept are substantial renovations to the Airport food court and restroom facilities at no additional cost to the Airport.

A Press Conference for all media was held today, unveiling Lotte Duty Free Guam's winning concept "Gateway Guam".

PERSONNEL

Compensation/Competitive Positioning

As provided through Public Law 29-24, authorization was granted to the Authority to promulgate Personnel Rules and Regulations to provide I authority to establish pay scales for CTP positions. In 2008, GIAA employed an independent study to develop the pay schedule for the CTP positions. GIAA Board of Directors approved in November 23, 2010 the migration to the 5th Market Percentile effective October 1, 2010. This is the first of a planned number of adjustments aimed at eventually achieving (as a competitive target) the 50th market percentile or market average within the United States. As provided pursuant to GIAA CTP Rules and Regulations, Section 4.102, Compensation Policy, C. Internal equity should be reviewed annually and external competitiveness at least every three (3) years.

To review of the extent of the compensation has moved over the period 2008 - 2012, the results of a market review conducted in 2011 were initially used. This review assessed a series of benchmark positions with data being obtained from market research against the U.S. Airport Industry including data from the U.S. Bureau of Labor Statistics (BLS). In summary, the research indicated an average market movement of 8.7% for the U.S.

Airport Industry over the period of 2008 - 2012. Total estimated cost to migrate to the 15th Market Percentile is $602.640.00. Total estimated cost to migrate to the 20th Market Percentile is $830,000.00.

LEGISLATIVE ISSUES

Bill 69-32 which would require legislative approval for lease agreements that span more than five years passed in the May 28, 2013 legislative session and will be transmitted to the Governor's office.

Bill No. 125-32 appropriating $500,000 to the Department of Public Works to fund the acquisition property for the Tiyan Parkway Project was introduced in the May 23, 2013 legislative session.

FAA Visit

The A.B. Won Pat International Airport Authority, Guam (GIAA) received excellent inspection results during this week's annual Airport Certification Inspection by the Federal Aviation Administration (FAA) on May 3, 2013. This yearly inspection is a requirement for FAA certification and Guam's only civilian airport received very high marks by Airport Certification Inspector, Juan S. Reyes of the FAA Airport District office out of Honolulu. Mr. Reyes commented on the great conditions at GIAA, with only one recommendation to update the Airport's Wildlife Management Program.

PROCUREMENT

IFB Rehabilitate RWY 6L-24R Phase II

Announced:	May 3, 2013
Pre Bid Conference	May 16, 2013, 10:00 am
Submission Deadline:	June 3, 2013, 2:00 pm

ANNOUNCEMENTS

- Airport Police Protocol supported the arrival visit of Japan Minister of Defense Itsunori Onedera who arrived on May 28, 2013. A press conference was held with the Japanese media in the Board conference room at 4pm May 29, 2013 prior to the Minister's departure.
- The China Outbound travel Market symposium was held May 22, 2013 at the Hyatt. GIAA supported this event as a silver sponsor. The symposium offered valuable information on the China market and imparted information on the desires and trends of the targeted cross section of visa holders and catchment area.
- The GIAA Employee Organization is hosting a "Get to Know your EO" Friday, May 31, 2013 at 5pm at the GIAA Integrated Air Cargo Building. New Officers will be introduced to the membership, and a must be present to win raffle fundraiser will be held. All members are invited to attend.
- Jose C. Sanchez, Painter Leader, with 17 years of Government Service, retired May 16, 2013, with a ceremony acknowledging his valuable service to the agency. A retirement party was hosted by P&F on May 17, 2013 to wish him well in his retirement.

Executive Manager's Report
GIAA Board of Directors Meeting
May 30, 2013

- The Airport Authority participated in the Relay for Life on May 17 through the 18th, along with other GovGuam agencies and private organizations raising money for the American Cancer Society. Thank you to the Accounting and Property Management Divisions for undertaking the planning and coordination of the Airport's involvement in this worthwhile event.

MEMORANDUM

To: Mr. Francisco G. Santos
Chairman
GIAA Board of Directors

From: Carlos Bordallo
Acting Comptroller

Subject: **Operating Results - Revenues and Expenses as of April 30, 2013**

Attached herewith is GIAA's Operating Results Report for the month ending April 30, 2013. This report summarizes the Budgeted versus Actual Revenues and Expenses for the month and year-to-date results ended April 30, 2013.

The key operating results for 7 month(s) of FY 2013 ending April 30, 2013 - (in $000's) are:

CATEGORY	YEAR-TO-DATE				FORECAST FOR FULL YEAR-FY13	
	Budget FY 13 Y-T-D	Actual FY 13 Y-T-D	% Variance Budget vs. Actual		Actual Y-T-D + Remaining FY 13 Budget	% Variance Budget vs. Estimate for Full Year
			Y-T-D Current Month	Y-T-D Last Month		
Total Signatory Revenues	$15,894.1	$17,295.1	8.8%	9.4%	$28,723.2	5.1%
Total Concession Revenues	$6,321.4	$6,198.6	-1.9%	-1.7%	$10,735.4	-1.1%
Total PFC's	$3,480.9	$3,883.2	11.6%	11.8%	$6,377.7	6.7%
Total Other Revenues	$9,027.3	$9,246.8	2.4%	1.1%	$15,363.8	1.4%
Total Operating Revenues	$34,723.7	$36,623.7	5.5%	5.4%	$61,200.0	3.2%
Total Operating Expenses	$24,811.1	$20,134.8	-18.8%	-20.7%	$36,064.5	-10.8%
Net Revenues from Operations	$9,912.6	$16,488.9	66.3%	70.7%	$25,135.5	33.3%
Non-Operating Expenses	$500.0	$195.4	-60.9%	-60.9%	$195.4	-60.9%
Other Available Moneys/other sources of funds	$2,790.3	$2,525.0	-9.5 %	-9.9%	$4,518.0	-5.5%
Net Debt Service Coverage	**1.27**	**1.92**	**51.8%**	**56.0%**	**1.76**	**26.2%**

Year-to-date Total Signatory Revenues for the month ending April 30, 2013 are above Budgeted revenues by **8.8%.** Signatory revenue estimates are based on projections submitted by Signatory airlines and adopted in the annual budget.

Year-to-date Total Concession Revenues are below budget estimate by **-1.9%** and Passenger Facility Charges are above budget estimates by **11.6%.**

Year-to date Total Other Revenues, inclusive of non-signatory and non-airline revenues, are above the budget estimate by **2.4%.**

Year-to-date Total Operating Revenues Actual of **$36.6M** is **5.5%** above the budget estimate of **$34.7M.**

Year-to-date Total Operating Expenses are below budget by **-18.8%** from budget. Components of this line item include a **-9.2%** decrease in Personnel Service, a **-23.1%** decrease in Contractual Services, a **-40.3%** decrease in Materials & Supplies and a **-100%** decrease in Equipment/Furnishings from budgeted amounts for these respective categories.

The actual year-to-date Net Revenues from Operations of **$16.5M** reflects an increase of **66.3%** over the year-to-date budgeted amount of **$9.9M.**

Finally, our year-to-date results for Debt Service Coverage is at **1.76** versus the requirement of **1.25.**

MINUTES OF THE BOARD OF DIRECTORS SPECIAL MEETING
3:00 p.m., Tuesday, June 11, 2013
GIAA TERMINAL CONFERENCE ROOM #3

1. CALL TO ORDER AND ATTENDANCE

Acting Chairman Jesus Q. Torres called the A.B. Won Pat International Airport Authority, Guam (GIAA) special meeting to order at 3:10 p.m. The presence of Directors is noted as follows: Martin J. Gerber; Edward G. Untalan, and Pedro P. Ada III. Also present were Charles H. Ada II, Executive Manager, Peter Roy Martinez, Deputy Executive Manager, Carlos P. Bordallo, Acting Comptroller, Frank R. Santos, Business and Financial Consultant, and Michael A. Pangelinan Esq., Legal Counsel. The Chairman welcomed the presence of Airport Tenants, stakeholders, and members of the public who are noted in a sheet made as an attachment to the minutes.

2. APPROVAL OF AGENDA

Director Ada made motion to approve the agenda as presented, seconded by Director Gerber; motion carried.

3. SPECIALTY RETAIL CONSESSION AGREEMENT, CLAIMS, PROTESTS, LITIGATION, AND RELATED MATTERS

The Executive Manager announced that due to ongoing litigation, he would like to recommend that Item 3 be discussed in Executive Session and requested for the Airport Services Manager, Ms. Jean Arriola to be invited into the session. Acting Chairman Torres called for any comments. Legal Counsel Michael Pangelinan responded, stating that is also recommendation of Legal Counsel.

4. EXECUTIVE SESSION

Acting Chairman Torres announced that the Board will recess and convene Executive Session after the recess. Director Ada made motion to recess and convene Executive Session after the recess, seconded by Director Untalan; motion carried. The Board recessed at 3:15 p.m.

Acting Chairman Torres called Executive Session to order at 3:25 p.m. Executive Session adjourned at 4:54 p.m., at which time the Board reconvened the special meeting.

Director Untalan made motion to approve the recommendation and report of Legal Counsel presented during Executive Session and to approve and confirm all prior actions taken by Management pertaining to the Specialty Retail Concession Agreement, seconded by Director Ada. The Acting Chairman called for votes on the motion, and was unanimously carried.

Director Untalan made motion to approve the Legal Counsel's expenses exceeding the fee cap for April as it relates to the Specialty Retail Concession Agreement and litigation, seconded by Director Ada; motion carried.

Director Untalan made motion to authorize Management to proceed with handling all of the matters related to the litigation involving the Specialty Retail Concession Agreement. Director Ada seconded the motion and stated that the Board is basically reaffirming what they had instructed Management to do; motion duly carried.

5. ADJOURNMENT

Director Ada made a motion to adjourn the meeting, seconded by Director Gerber; motion carried. The meeting adjourned at 4:57 p.m.

Respectfully submitted,

Amanda O'Brien-Rios
Board Secretary

APPROVED:

FRANCISCO G. SANTOS
Chairman of the Board

Guma' Mami eyes sibling support project

By Louella Losinio
louella@mvguam.com
Variety News Staff

RECOGNIZING the familial and personal connection of siblings with a brother or sister with disabilities, Guma' Mami is looking at the possibility of launching a program this year which aims to strengthen this bond.

Bernadita Grajek, Guma' Mami executive director, said her exposure to the Sibshop program during the summer inspired her to bring the successful initiative to Guam.

The Sibling Support Project runs the Sibshop program. According to their website, the Seattle-based initiative focuses on the brothers and sisters of people with special health, mental health, and developmental needs.

The Sibshop curriculum is used throughout the United States, Canada, England, Ireland, Iceland, Japan, New Zealand, Guatemala, Turkey, and Argentina.

"We know that siblings are going to be eventually the ones to take care of their brother or sister who has a disability. Those siblings are eventually going to be a part of this person's life for the long haul," Grajek said.

> *"We know that siblings are going to be eventually the ones to take care of their brother or sister who has a disability."*
> – Bernadita Grajek, Guma' Mami executive director

She added Sibshops not only include games and learning activities, but also facilitates discussion among teens and kids about their experience growing up with a sibling with a disability.

To get the program running, Guma' Mami requires a start-up fund of at least $6,000 for books and materials. The amount also covers the stipend for facilitators.

Providing a comfortable and conducive environment for the kids who will be part of the program is another important aspect, Grajek said.

Study

The Sibling Support Project website noted that in spring 2005, University of Washington colleagues Amanda Johnson and Susan Sandall conducted an online survey of Sibshop grads, and one of the significant findings is that "over 90 percent of the respondents said the program had a positive effect on the feelings they had for their siblings."

In addition, the program "taught coping strategies to over two-thirds of respondents," and "three-fourths reported that Sibshops affected their adult lives." The study also concluded that "the positive effects of the Sibshop program are not only apparent, but enduring."

"If we took the siblings and started working with them to help them understand their brother or their sister's disability, we'll help them understand what they can do to help their sibling and support that kid. We feel that in the future, there may not be a need for a Guma Mami," Grajek said.

EDUCATION

Learn CPR for free – The Guam Memorial Hospital Authority International Training Center and the Life Support Training Center will be offering free CPR training from 9 a.m. to 1 p.m. June 1 at the GMH education classroom. Open to ages 12 and up. Free childcare to be provided, space is limited so please register in advance at 483-6600 or email guamcpr@gmail.com

Man'amko' Computer Training Sessions – 9 to 11 a.m. June 03 and June 17. Held every other Monday @ Hagåtña Library. Info: Francine Uncangco 475-4751/2.

Children Computer Training – "Mousing Around" computer training classes at the Guam Public Library returns for the summer. Registration open until May 31. One week classes start June 10 from 9 to 11 a.m. for children 7 to 11. space is limited. Children must be accompanied by a parent or guardian. Call for more info: 475-4753.

UOG Adventure Sports Camp – Open to ages 4 to 15. $200 per session plus $25 registration fee. Sessions run June 3 to 14, June 17 to 28, July 1 to 12, July 15-26 and July 29 to Aug. 2. Info: 735-2863 or www.uog.edu.

Veterans' Early Intervention & Transition Assistance Program (EITAP) outreach – 6:00 p.m. Thursday, June 13th @ the Chalan Pago Community Center. ALL VETERANS and their family members are encouraged to attend this event which we hope will help you determine and understand the types of Veteran Services and Programs that are available on Guam.

Guam Council on the Arts and Humanities – accepting applications for the FY 2014 Grant Cycle in the following disciplines: Arts-In-Education, Performing Arts, Visual Arts, Folk Arts, Humanities, Literature, Underserved and Media Arts. Military commissaries subject to federal furlough closures

By Frank Whitman
frank@mvguam.com
Variety News Staff

U.S. Navy photo
Mandatory federal budget constraints known as sequestration will affect most of the 247 commissaries across the nation

FROM July 8 through Sept 30, the commissaries on Naval Base Guam and Andersen Air Force Base will be closed on Mondays The closure is due to the mandatory federal budget constraints known as sequestration, according to the Joint Region Marianas Public Affairs Office

The weekly closure coincides with the implementation of furloughs throughout the Department of Defense and will include most of the 247 commissaries with more than 16,000 employees operating in 13 countries and two U.S territories Furloughs will impact all of the Defense Commissary Agency's more than 14,000 U S civilian employees, according to a DOD release on May 24.

The commissary agency employed 170 civilians on Guam as of September 2012, according to government of Guam statistical data.

The closures will be up to 11 days. The Monday closures will be in addition to any day stores are routinely closed. The 148 stores that routinely close on Mondays would also close the next normal day of operation. Other than the furlough day, there are no other changes planned for store operation hours, according to the release.

"We know that any disruption in commissary operations will impact our patrons," said Joseph H Jeu, director and CEO of the commissary agency "Also, we understand the tremendous burden this places on our employees, who, when furloughed, will lose 20 percent of their pay "

The announcement comes as the agency prepares to follow DOD furlough procedures as announced by Defense Secretary Chuck Hagel on May 14 Like most of DOD, the commissary agency is mandated to furlough its civil service employees and furlough notices are scheduled to be delivered to affected employees between May 28 and June 5

Commissary customers are advised that they can find out about any changes to their local store's schedule online at www commissaries com and clicking on the "Locations" tab, then "Alphabetical Listing," finding their store and clicking on "local store information "

The release also advised that because sequestration is fluid, the agency's plans are subject to change

Overseas store staffs include a mix of U S and local national employees Because they are not U S government employees, local national employees are not subject to furlough actions Select locations overseas will open if they have an adequate local national staff If an overseas store is closed, its local national staff will report to work and perform other store-related duties, according to the release

The Defense Commissary Agency operates a worldwide chain of commissaries providing groceries to military personnel, retirees and their families. Authorized patrons purchase items at cost plus a 5 percent surcharge, which covers the costs of building new commissaries and modernizing existing ones Patrons save an average of 30 percent or more on their purchases compared to commercial prices, according to the release

Mother fears for her life, turns in son

By Gina Tabonares-Reilly
gina@mvguam.com
Variety News Staff

AN ELDERLY woman recently walked into the Hagåtña Police Precinct to file a complaint against her son, saying she is scared because her son has threatened to kill her

Escorted by Guam Renal Clinic caseworker Christina Sablan, the victim requested police assistance in getting a police report and restraining order on her son Romil Pervez Juaneza

According to the victim, on May 28, the defendant was transporting the victim to her dialysis treatment when her son suddenly got angry and turned the car around

The defendant allegedly yelled that he did not want to take the victim to her dialysis appointment anymore When the victim asked her son why he had turned the car around, the defendant shouted angrily that he was tired of taking care of his mother.

According to the victim, the defendant threatened that he will no longer take her to dialysis appointments and told her: "I can kill you anytime. Have mercy on my soul!" He then screamed and allegedly threw items around the house.

The victim told police she is scared to go back to her house because she fears the defendant will kill her She added that the defendant occasionally yells at her and breaks items within the house

The victim also told police that the defendant had admitted to using illegal drugs which she believes to be the cause of his outbursts

She said she cannot return home until the defendant is removed and a restraining order is in place

The defendant resides with the victim and the victim's daughter with special needs

Juaneza was charged with abuse of an incompetent, and family abuse – both as misdemeanors

Man charged with raping teenager

By Gina Tabonares-Reilly
gina@mvguam.com
Variety News Staff

A 25-year-old man is now facing two counts of third-degree criminal sexual conduct as a second-degree felony after he allegedly raped a teenager he got to know through Facebook

Shawn Perry Sablan Cabrera was identified by the victim as the man she met on April 28 after they met on the social networking site

The victim told police officers that she and the defendant went to a residence where the defendant removed her clothes and sexually assaulted her.

She said she cried and told the defendant she was scared and wanted to go home but the defendant told the victim that he wasn't done and wanted to do it again The defendant allegedly sexually abused her again

Another rape case

Meanwhile, another rape victim has gone to the police and filed a complaint of criminal sexual conduct after the minor discovered she was pregnant

The victim told the police she had sexual intercourse with Alex Joe Castro whom she met at the Micronesia Mall sometime in October 2012

According to the victim, the defendant told her he was 17 years old and they had sex a day before Valentines Day 2013 at their residence while her mother was not home

When the victim spoke with the defendant a few days later, he admitted he was actually 23

MINUTES OF THE BOARD OF DIRECTORS REGULAR MEETING
3:00 p.m., Thursday, June 27, 2013
GIAA TERMINAL CONFERENCE ROOM #3

1. CALL TO ORDER AND ATTENDANCE

Chairman Francisco G. Santos called the A.B. Won Pat International Airport Authority, Guam (GIAA) regular meeting to order at 3:07 p.m. The presence of Directors is noted as follows: Jesus Q. Torres, Vice Chairman, Rosalinda A. Tolan; Edward G. Untalan; and Lucy M. Alcorn. Also present were Charles H. Ada II, Executive Manager, Peter Roy Martinez, Deputy Executive Manager, Carlos P. Bordallo, Acting Comptroller, Frank R. Santos, Business and Financial Consultant, Michael A. Pangelinan Esq., and Janalynn C. Damian Esq., Legal Counsel. The Chairman welcomed the presence of Airport Tenants, stakeholders, and members of the public who are noted in a sheet made as an attachment to the minutes.

2. APPROVAL OF AGENDA

Vice Chair Torres made motion to approve the agenda as presented, seconded by Director Tolan; motion carried.

3. APPROVAL OF MINUTES

A. May 30, 2013 Board Regular Meeting
B. June 11, 2013 Board Special Meeting

Before proceeding with the approval of the minutes, the Executive Manager announced that he would like to make a clarification in reference to the minutes. Regarding the unified pay scale, the 20th Percentile on page four (4), he stated that it was approved by the Board for the purposes of analysis, and to develop a performer report to present to the Board, which will be given later on today.

Director Tolan made motion to approve the minutes of the May 30, 2013 Regular Board Meeting and the June 11, 2013 Special Board Meeting subject to correction, seconded by Vice Chair Torres; motion carried.

4. CORRESPONDENCE

The Executive Manager informed the Board there is one item that was received today and apologized for the item not being in the Boards' packets. The correspondence is from Vladivostok Air, announcing that the airline will be operating scheduled Charter flights on direct route from Vladivostok, Russia to Guam from November 2013 to March 2014. Although they are only looking at flights every two (2) weeks, they are hoping with our partnership to have flights year round. Vice Chair Torres inquired on the type of aircraft they would be using. The Executive Manager replied that it will be a 737 aircraft, 142 – 155 passenger count.

5. MATTERS FOR BOARD RATIFICATION/APPROVAL

A. Approval of Award for Custodial Services for TSA Offices and Facilities – IFB No. GIAA-003-FY13

The Executive Manager reported that an Invitation for Bid was published to solicit bids from professional firms to provide custodial services at the TSA offices and facilities, inclusive of all labor, materials, supplies and equipment to the main terminal building. The term of the contract is for a period of three (3) years and may be renewed annually at GIAA's sole option for additional one-year periods, not to exceed the total contract term of five (5) years. Of the thirteen (13) firms that received bid packages, eight (8) submitted bids before the submission deadline. All eight (8) firms were evaluated; with only seven (7) determined to be acceptable. Management recommends that the contract be awarded to JJ Global with the bid amount of $47,400.00. It has been determined that JJ Global has met the standards of responsibility and responsiveness outlined in the Guam Procurement Regulations. Discussion followed relative to bid amounts. At this time Chairman Santos welcomed the presence of Director Alcorn. Director Untalan made motion to approve Management's recommendation, seconded by Director Tolan; motion carried.

B. Approval of Award for Rehabilitate Runway 6L-24R, Phase II – IFB No. GIAA-C01-FY13

The Executive Manager stated that Board action is requested to approve the bid award of the above mentioned project. The project is to provide construction and renovation work to rehabilitate runway 6L-24R (Phase 2) inclusive of all labor, materials, supplies and equipment. Six (6) firms received bid packages, and only two (2) submitted bids before the submission deadline. Management recommends that the Board authorize the contract award of $6,896,871.09 to Nippo USA, Inc. who has been determined to have met the standards of responsibility and responsiveness outlined in the Guam Procurement Regulations. Director Tolan inquired if Nippo USA, Inc. was a new company on Guam and if they have been doing business on Guam. The Executive Manager responded stating the firm has done work previously for the Airport. Vice Chair Torres

made motion to approve Management's recommendation, seconded by Director Untalan; motion carried.

C. Ratification of Disbursements

The Executive Manager presented the summary of Disbursements to the Board. Vice Chair Torres inquired on the payment made to AECOM Technical Services Inc. in the amount of $419,652.00. Business and Financial Consultant, Frank Santos replied, informing the Board that Guam Airport is one of the few designated for a 'Pilot Program', a testing program for a Geographical Information System (GIS) with the purpose of creating an electronic airport layout plan which includes both aerial and ground surveys, the GIS will be stored in the FAA servers. Mr. Santos went on to say that this will save the Airport money in the future with anything that has to do with the airfield because everything is now under GIS format, GPS (Global Positioning System) based. The payment amount of $419,652.00 is for several invoices.

Vice Chair Torres made motion to ratify payments above the $50,000.00 threshold made to vendors for the period of May 29, 2013 – June 21, 2013, seconded by Director Alcorn; motion carried.

6. OLD BUSINESS

A. Executive Manager's Report

The Executive Manager presented brief reports on various issues and announcements relating to Airlines, regulatory and financial issues, including the refinancing of the 2003 Revenue Bonds. The Manager reported that a GIAA team travelled to San Francisco to present an Airport review to Standard & Poor's and Moody's Investors during the week of June 17, 2013 to refinance approximately $125M in bonds, and new money financing structures.

Relating to the Specialty Retail Merchandise Concession, Lotte Duty Free Guam, LLC continues to transition and work toward the July 21, 2013 occupancy and operational date of the new retail concession awarded to Lotte. A job fair was held by Lotte on Friday, June 21, 2013 to hire managerial, supervisory and support staff. Lotte plans to phase in more personnel to an estimated 200 employees for the Airport retail concession and their off Airport location.

The Executive Manager reported on Legislative issues such as Bill 69-32, which would require legislative approval for lease agreements that span more than five (5) years. The Bill passed in the Legislative Session on May 28, 2013. The Manager stated that the new law will affect the way that the Airport does business. Vice Chair Torres inquired if any of the Management staff had met with the Airport's Oversight Chairman, Senator San

Nicolas regarding the new law. The Executive Manager replied, stating that Management had met with Senator San Nicolas, and he acknowledged the concerns. Vice Chair Torres stated this should be something that the Airport revisit, the Airport does not get a dollar from the general fund and he does not remember a time that the Airport had to go to the Legislature to ask that they appropriate for Airport operations. Vice Chair Torres went on to say that the Airport is run like a business, some of the commitments we have just cannot be constricted within the five (5) years. The Vice Chairman suggested that Management meet with Senator San Nicolas and ask that the Airport be exempt from the five (5) years. Vice Chair stated that from his understanding even though the law has been passed, it is possible for a law to be amended. Discussion followed relative to the new law. The Chairman requested that Management schedule a meeting with Senator San Nicolas regarding this issue.

Continuing with Legislative Issues, the Executive Manager reported that Bill 125-32 was passed in the June 4, 2013 Legislative session. The Bill appropriates $500,000 to the Department of Public Works to fund the acquisition property for the Tiyan Parkway Project. The Manager informed the Board that Management has been in discussion with the FAA to come up with creative ways to augment this effort to resolve the Tiyan Parkway issue and have a couple of proposals, which will be packaged and presented to the Board at the next Board meeting. Discussion followed with the Executive Manager informing the Board that the FAA was very assistive with the matter for the Government of Guam to resolve this particular long standing issue we have. The Manager stated that with the conversation he had with the FAA, he believes he will be the last Executive Manager of the Airport that will have to deal with the issue, for the people of Guam, all stakeholders, and entire Government, he is confident it is close to being resolved.

On another Legislative issue, the Executive Manager informed the Board of an oversight hearing today of Bill 137-32, which provides low cost space to the Guam Customs and Quarantine Agency at the Guam International Airport Authority in a manner consistent with Federal law. By the introduction of the Bill, USCBP not only Guam but throughout the country does not pay rent to any airport operator. The Vice Speaker Benjamin J. Cruz had introduced this legislation. Vice Chairman Torres reiterated for confirmation, the Guam Customs and Quarantine be a non-paying tenant at here at the Airport. The Executive Manager responded, stating correct. He then went on to inform Chairman Santos that the hearing was today, the Airport provided written testimony and that it is their intention to be making office calls to senators in reference to this matter, hopefully before it leaves committee. The Chairman requested that there be a scheduled meeting with the Oversight Chairman to explain and provide more knowledge regarding the Airport. Vice Chair Torres inquired on how much is the Guam Customs and Quarantine earning, how much was approved for the inspections that they conduct downstairs. The Executive Manager replied based on the current Customs charge, it is approximately 10M annually. Vice Chair Torres stated, we have a Government agency coming in and siphoning off revenue from the Airport when our enabling legislation mandates that we

have to be self-sustaining financially and otherwise. Vice Chair Torres stated that we're all obligated here as Board members to insure that we maintain the financial integrity number one, so that we can run a first class facility.

The Executive Manager announced that the Pohnpei Ports Authority has committed to join GIAA as a partner in hosting the ACI Asia Pacific Small & Emerging Airports Conference to be held in October 2013.

Before closing the report the Manager informed the Board that the Airport completed Phase I of 4 Phases in part of the 'Modernization of Electronics' here in the Airport and invited the Board members to take a look at the completions.

B. Financial Report

For the Board's information, Carlos P. Bordallo, Acting Comptroller presented the financial report as of May 31, 2013, stating that the Net Debt Service Coverage is at 1.84. Vice Chair Torres stated that the report was the best he heard so far. The Acting Comptroller also added that the power costs have been declining.

Before proceeding to Legal Counsel's report, Director Untalan presented a brief report relative to the adjustment in salaries up to the 20th percentile approved at the last Board meeting. The Director presented a forecast that confirmed that the Airport would be able to absorb the $830,000 for the salary increases and still have a good cash position at the end of the year. Discussion followed on the effective date of the salary adjustments, with the Acting Comptroller adding that the effective date would be from October 1st, 2012. Vice Chair Torres expressed the importance in giving back to the employees.

C. Legal Counsel's Report

Legal Counsel recommended that discussions regarding litigation matters be reported during Executive Session. The Board had no objection.

D. Status of Capital Improvement Programs

Business and Financial Consultant, Frank Santos presented a brief report for the Board's information stating that by the regular Board meeting in July that the FAA will be providing the Airport with grants for four (4) projects. One 2M dollar grant to repay the Airport for money previously spent, which adds to our cash position, strictly a reimbursement. He went on to add that the Airport will be getting one new ARFF truck. Vice Chair Torres inquired if the old truck will be given to Rota. Frank Santos replied, no that the intention is to keep the trucks so they can be rotated, eventually they will be given to somebody. Mr. Santos reported that the last grant that the Airport will receive

for FY13 will be an additional $800,000 for the Airport Geographical Information System mentioned earlier in the meeting.

7. NEW BUSINESS

No New Business presented.

The Executive Manager informed the Board that he had items to report to the Board under Tenant Matters the first being that the Airport sent a letter of intent to the Guam Army National Guard for a Hanger Project. The Manager stated that the Guam Army National Guard received funding for a proposed project to provide helicopter capabilities within the Guard Unit to service our area, and the background is that they requested for approximately two (2) acres of land located on Airport property specifically the south side of the AOA for the purpose of constructing a helicopter hanger facility. The purposes would be for Medivac helicopters and to maintain emergency units for our island. We actually found a template for other National Guard Units that operate within local airports and used the same format. After comprehensive discussions between the two organizations, the Guam Army National Guard will pay the Airport approximately $5,242.04 per month for the use of the facilities including the runways, taxi's, light systems, navigational waves and other areas open to the public and used by the National Guard as well. The Manager informed the Board that the reason why we had to move quickly prior to the Board meeting is that there is a deadline to the Guam Army National Guard Bureau to access additional funds to extend the lease out to 45 years and expand their footprint. The Manager stated that we wanted to insure we did our part to insure that Guam receives more funding and support, to respond to not only to our Guards needs but our islands needs. Chairman Santos inquired on the lease term and if it would need to go to the Legislature. The Executive Manager replied informing the Board it is for a 20 year term and yes it would need to go to the Legislature as the law is enacted already. The Manager stated it would be a huge asset to the island.

The second item the Manager announced to the Board was correspondence from one of the Airports tenants. Pac Air walked a letter late Friday requesting for the approval of a new lease agreement. The Executive Manager reported that they are looking at bringing on the U.S. Citizenship and Immigration Services, leasing about 17,000 square feet of space at the Pac Air Cargo facility, bringing them to 80% of warehouse space that's dedicated to cargo, again, aeronautical. This is a similar to the concern that the former Chairman, Mr. Michael Ysrael had which elevated all the way to the Hawaii Area District Office and returned without merit. I just want to insure our tenant that it will be bought to the Board. They are going to be expanding their capacities to pay us next summer. As you know, the initial agreement with Pac Air was the deferred payment, which comes into effect July 2014. The Manager added that he is in full support of new lease agreement, and wanted to bring it to the Board. If there are concerns from constituents

within the community about the Airport engaging in non-aeronautical activity, that discussion will be made if it needs to be had with the appropriate stakeholders. The Executive Manager stated that it is the intent of Management right now to aggressively seek aeronautical and non-aeronautical revenue for the Airport, the more we can provide revenue to this Airport the better off we are to engage partners, more importantly signatory airlines, to reduce rates and possibly lower airfares, not just for the traveling tourists in the region but our people as well. Discussion followed relative to the changes of Airports over time and what Airports are emerging to be. Chairman Santos requested that Management keep the Oversight Chairman, Senator San Nicolas up to date with what is going on with Airport.

8. EXECUTIVE SESSION

The Chairman announced that the Board will recess and convene Executive Session after the recess. Vice Chair Torres made motion to recess and convene Executive Session after the recess, seconded by Director Alcorn; motion carried. The Board recessed at 4:09 p.m.

Chairman Santos called the Executive Session to order at 4:18 p.m. Executive Session adjourned at 5:13p.m., at which time the regular meeting reconvened.

Based on discussions during Executive Session, Director Untalan announced that he would like to make a motion authorizing Management to proceed as directed by the Board in Executive Session regarding Freedom Air, seconded by Vice Chair Torres; motion duly carried.

9. PUBLIC COMMENTS

The Chairman called upon any public member wishing to make comments. There was no response.

Vice Chair Torres announced that he would like to share some concerns with the Board regarding two (2) key Management positions. Both Comptroller and Chief Engineer positions have been vacant for a number of years. He stated that right now is an indication that we are prepping for the new fiscal year. Historically they are key positions and the right approach is to appropriately fill those positions.
The Executive Manager informed the Board that he did speak with Mr. Victor Cruz in reference to the Chief Engineer position, which he currently oversees the responsibility. The Manager stated that out of courtesy to Mr. Cruz, who is a long time employee and very well liked, he had given him up to December 2013 to obtain the credentials needed to qualify for the position of Chief Engineer. If he was unable to, the position would be filled. He was informed there are ways to gain the credentials, and asked the Board to allow Mr. Cruz that time to gain them. The Chairman agreed with the Executive

Manager and requested that Mr. Cruz be given a chance and opportunity to gain the requirements. The Executive Manager added however, Mr. Cruz would have to compete for the position. Vice Chair Torres responded, of course, that's the 'Merit System', the problem is that the Chief Engineer position is a classified position with the Government of Guam, and answers to the Executive Manager, whereas the Comptroller position is unclassified and answers to the Board. Airport Services Manager, Ms. Jean Arriola added that the Chief Engineer requires a PE, and the Comptroller requires a CPA. Discussion followed relative to the requirements of the position of Comptroller. Vice Chair Torres expressed the need to fill both key positions. Director Tolan made motion to allow Legal Counsel to obtain clarification whether Carlos Bordallo may be appointed to the Comptroller position by the Board without requiring a CPA, seconded by Director Untalan; motion carried.

10. ADJOURNMENT

Mr. Frank Santos announced for the Board's information that the first Executive Manager of the Airport had passed away in Hawaii yesterday. The body will be brought back to Guam over the weekend and rosaries will begin.

There being no further discussion, the Chairman announced that the next regular meeting is scheduled for Thursday, July 25, 2013. Director Alcorn made a motion to adjourn the meeting, seconded by Director Untalan; motion carried. The meeting adjourned at 5:10 p.m.

Respectfully submitted,

Amanda O'Brien-Rios
Board Secretary

Legislation establishing 'castle doctrine' introduced

By Louella Lostnio
louella@mvguam.com
Variety News Staff

Sen. Tony Ada said he is sponsoring Bill 146 because "all residents of Guam have the constitutional right to protect their homes and their families." Variety file photo

SEN. Tony Ada has introduced legislation that would establish a "castle doctrine" law on Guam.

Ada said he is sponsoring Bill 146 because "all residents of Guam have the constitutional right to protect their homes and their families."

Based on the long-held premise that a person's home is their castle and that they're entitled to protect their home, family and property from intruders, Bill No.146 would allow the use of defensive force when there is reasonable fear of death or great bodily harm upon an occupant of a home or vehicle by an intruder.

The bill would provide certain protections such as freedom from legal responsibility and prosecution for those who use such defensive force, typical of castle doctrine laws in other jurisdictions.

If Bill 146 becomes law, Guam will join 45 states that have adopted either the castle doctrine or "Stand Your Ground" laws.

The legislation is being co-sponsored by Sens. Brandt McCreadie, Frank Aguon Jr. and Rory Respicio, who all agree that the bill would provide an added deterrent to burglaries and home invasions on Guam.

"During a June 13, 2013 public hearing, a prominent defense attorney told the Legislature that people don't commit crimes because they are afraid of the law, they commit crimes because they think they can get away with it. If this bill becomes law, then many crooks will know that it won't be easy to get away with it anymore," McCreadie said.

For his part, Aguon said home safety is paramount and the people must be able to protect their homes.

"Our people must no longer be hesitant to protect themselves and their families for fear that they will be prosecuted for doing so, and criminals must no longer believe that they can break into someone's home with impunity," Respicio added.

Conditions

Typical conditions that apply to some castle doctrine laws include:

▶An intruder must be making (or have made) an attempt to unlawfully or forcibly enter an occupied residence or vehicle.

▶The intruder must be acting unlawfully (the castle doctrine does not allow a right to use force against officers of the law, acting in the course of their legal duties).

▶The occupant(s) of the home must reasonably believe the intruder intends to inflict serious bodily harm or death upon an occupant of the home. Some states apply the castle doctrine if the occupant(s) of the home reasonably believe the intruder intends to commit a lesser felony such as arson or burglary.

▶The occupant(s) of the home must not have provoked or instigated an intrusion; or, provoked/instigated an intruder's threat or use of deadly force.

Legally

In all cases, the occupants of the home must: be there legally; not be fugitives from the law themselves, or aiding/abetting other fugitives; and not use force upon an officer of the law performing a legal duty.

The castle doctrine (aka a Castle Law or Defense of Habitation Law) is an American legal doctrine that designates a person's abode as a place in which that person has certain protections and immunities permitting them to, in certain circumstances, use force to defend against an intruder — free from legal responsibility and prosecution for the consequences of the force used.

Navy investigating death of sailor

By Gina Tabonares-Reilly
gina@mvguam.com
Variety News Staff

THE Navy has launched an investigation into the death of a sailor who may have drowned yesterday morning while swimming in the inner harbor of Naval Base Guam close to the vicinity of Alpha Wharf.

Joint Region Marianas spokesperson Lt. Matt Knight confirmed a service member was pronounced dead by medical personnel who transported the sailor to Naval Hospital Guam.

"The incident is currently under investigation by the Naval Criminal Investigative Service. The cause of death is pending the results of an autopsy," Knight told Variety.

Knight was not able to provide specific information regarding the incident, pending the notification of the sailor's next of kin.

"At this time, I am not releasing any more specific information until the next of kin are notified. Department of Defense regulations authorize me to release specific information on the individual 24 hours after the next of kin have been notified. This allows the military to do our solemn duty of informing the next of kin in a respectful manner. I will provide more information once that is complete," Knight said.

Motorist critical after Dededo accident

By Manny Cruz
For Variety

THE 18-year-old driver of a red sedan that hit a concrete power pole yesterday morning is still in the Intensive Care Unit of the Guam Memorial Hospital, according to GMH Nursing Supervisor Bill Toves.

The accident occurred on Route 3, Dededo, across from the construction site of the Guam Regional Medical City at about 8 a.m.

Emergency responders arrived on the scene minutes later to extract the man from the vehicle using the Jaws of Life.

The driver sustained multiple traumas throughout his body and is on life support.

Nursing staff will be monitoring his condition over the next two days for signs of recovery.

Judge: License plate is non-transferable

By Gina Tabonares-Reilly
gina@mvguam.com
Variety News Staff

SUPERIOR Court Judge Anita Sukola has reiterated that it is unlawful to transfer a vehicle license plate from one vehicle to another without authorization from the Department of Revenue and Taxation.

The court restated this ruling as it denied a motion to dismiss filed by Jason Michael Diaz Quinata, who said his fraudulent vehicle identification – a misdemeanor charge – was too trivial to warrant conviction.

Quinata, through Assistant Public Defender Pablo M. Aglubat wants to dismiss his misdemeanor charges on "de minimis" grounds.

Quinata, 23, allegedly operated a vehicle without a front license plate when he was stopped by a police officer on Nov. 2, 2012.

During the traffic stop, it was discovered the license plate attached to Quinata's vehicle was not the one assigned to the automobile's vehicle identification number, or VIN.

The defendant admitted he took the license plate and engine from his own car, which was wrecked in an accident, and attached it to the car of his mother-in-law with her full knowledge and consent. The car of the defendant's mother-in-law was exactly the same make and model of the defendant's but was not operational.

Quinata told the court he did not know it was illegal to do so and argued that his alleged conduct did "not cause or threaten any harm or evil sought to be prevented by the law defining the offense."

Inappropriate

Assistant Attorney General Brian Gallagher, however, argued that Quinata's conduct was not "de minimis," and dismissal of the case is inappropriate under Guam law.

Gallagher told the court that Quinata's behavior was not within the customary license or tolerance that society should have to tolerate, adding the defendant did actually cause or threaten the harm sought to be prevented by law.

"To allow defendant to dismiss the case based on the claim that he was unaware of the illegality of his actions would open the door for every other defendant in a similar situation to get away with removing, defacing, covering, altering or destroying identification marks on their vehicles," Gallagher added.

Judge Sukola agreed with the government attorney and said that while the defendant's mother-in-law renewed the car registration days after Quinata's arrest to reflect her name and the defendant's name, it does not negate the fact that an offense was committed at the time the Guam Police Department discovered that the license plate attached was not the one assigned to the original VIN.

"The removal of a vehicle license plate from one vehicle to another without authorization from the Department of Revenue and Taxation is clearly unlawful under 9 GCA Section 9101," Judge Sukola ruled.

The court added that the complaint is not too trivial and is determined to continue the case against Quinata.

Further proceedings is set for July 3 at 10 a.m.

Health and Human Services Secretary Kathleen Sebelius announced Friday that nationwide, 77.8 million consumers saved $3.4 billion upfront on their premiums as insurance companies operated more efficiently. AP

Guam residents to benefit from $2 million in insurance rebates

(HHS) – A total of 49,160 Guam residents stand to receive an average of $2,615 per family from the $2 million in rebates that insurance companies are required to distribute under the Affordable Care Act, Health and Human Services Secretary Kathleen Sebelius announced Friday.

Nationwide, 77.8 million consumers saved $3.4 billion upfront on their premiums as insurance companies operated more efficiently.

Additionally, consumers nationwide will save $500 million in rebates, with 8.5 million enrollees due to receive an average rebate of around $100 per family.

Created under the Affordable Care Act, the Medical Loss Ratio standard (aka the "80/20 rule") requires insurers to spend at least 80 cents of every premium dollar on patient care and quality improvement. If they spend an excessive amount on profits and red tape, they owe rebates back for the difference no later than Aug. 1.

"This new standard is increasing transparency and accountability, promoting better business practices and competition among insurance companies, and ensuring consumers receive value for their premium dollars," Sebelius said. "Today's announcement shows that more Guamanians are benefiting from the tools created under the Affordable Care Act to keep consumer costs down."

The law has motivated many plans to lower prices or improve their coverage to meet the standard. Other Guamanians will see their value reflected through rebates later this summer.

Guamanians who are owed a rebate will see their value reflected in one of the following: rebate check in the mail, a lump sum reimbursement to the same account that they used to pay the premium if by credit card or debit card, a reduction in their premiums, and their employer using rebates to improve their health coverage.

Insurance companies that do not meet the standard will send consumers a notice informing them of the rule. The notice will also let consumers know how much the insurer did or did not spend on patient care or quality improvement, and how much of that difference will be returned as a rebate.

The '80/20 rule' works, along with the required review of proposed double-digit premium increases, to stabilize and moderate premium rates.

In addition, with new market reforms including the guaranteed availability protections and prohibition of the use of factors such as health status, medical history, gender and industry of employment to set premiums rates, this policy helps ensure every American has access to quality, affordable health insurance.

Administrator of the Court

MINUTES OF THE BOARD OF DIRECTORS REGULAR MEETING
3:00 p.m., Thursday, May 30, 2013
GIAA TERMINAL CONFERENCE ROOM #3

1. CALL TO ORDER AND ATTENDANCE

Chairman Francisco G. Santos called the A.B. Won Pat International Airport Authority, Guam (GIAA) regular meeting to order at 3:10 p.m. The presence of Directors is noted as follows: Jesus Q. Torres, Vice Chairman, Rosalinda A. Tolan; Martin J. Gerber; Edward G. Untalan; and Pedro P. Ada III. Also present were Charles H. Ada II, Executive Manager, Peter Roy Martinez, Deputy Executive Manager, Carlos P. Bordallo, Acting Comptroller, Frank R. Santos, Business and Financial Consultant, and Michael A. Pangelinan Esq., Legal Counsel. The Chairman welcomed the presence of Airport Tenants, stakeholders, and members of the public who are noted in a sheet made as an attachment to the minutes.

2. APPROVAL OF AGENDA

Vice Chair Torres made motion to approve the agenda as presented, seconded by Director Tolan; motion carried.

3. APPROVAL OF MINUTES

A. April 25, 2013 Board Regular Meeting

Director Ada made motion to approve the minutes, subject to correction, seconded by Vice Chair Torres; motion carried.

Before moving on with Correspondence the Executive Manager introduced to the Board representatives from Supreme, Darril Dela Paz, General Manager and Karlo Terz, Director of Operations.

4. CORRESPONDENCE

The Executive Manager informed the Board that a letter was received from the Oversight Chairman, Senator San Nicolas relative to Public Law 32-031, which mandates that Boards and Commissions have an educational curriculum established for Board members within 90 days of the Public Law. The Manager stated that GIAA is in the

process of developing such a curriculum which will be completed within the compliance time line set forth.

5. MATTERS FOR BOARD RATIFICATION/APPROVAL

A. Ratification of Disbursements

Director Ada made a motion to ratify payments above the $50,000.00 threshold made to vendors for the period of April 24, 2013 – May 24, 2013, seconded by Director Gerber; motion carried.

6. OLD BUSINESS

A. Executive Manager's Report

The Executive Manager presented brief reports on various issues and announcements relating to Airline issues, to include Starflyer, a Kitakyushu Airport based air operator, operating thirteen (13) charter flights between Kitakyushu and Guam in August, 2013; first of which is scheduled for August 1, 2013 and will continue through August 26, 2013.

May 20, 2013 Management met with the Signatory Airline partners to discuss items such as, FY2013 budget, new operator of the fuel system, Tiyan Parkway and Central Avenue closure, various legislative issues, and the bond refunding and capital improvement projects.

Regarding Regulatory issues, U.S. Customs and Border Protection (USCBP) announced the implantation of the paperless I-94. USCBP has developed an electronic version of the Arrival/Departure Record and will be in effect on Guam and the Commonwealth of the Northern Mariana Islands on May 14, 2013. Some traveler's will still need to complete a paper CBP Form I-94, including those applying for admission under the Guam-CNMI Visa Waiver Program or those entering the United States under a paroled status without a valid U.S. visa. Congresswoman, Madeleine Bordallo announced that in the Fiscal 2014 Homeland Security Appropriations Bill, language on expanding the Guam-CNMI Visa Waiver Program was inserted instructing the Department of Homeland Security (DHS) to finalize deliberations on the expansion of the program on Guam.
Not currently on Guam, the TSA pre-screening program, TSA Precheck is in place for eligible United Airlines passengers. Customers who are eligible will begin to see the TSA Precheck indicator on mobile boarding passes or those they have printed at home or a kiosk at some airports. This will allow customers to route themselves effectively to available TSA Precheck lanes. The program is available at all eight (8) United's domestic hubs and a total of twenty-nine (29) airports.

The Executive Manager reported that the Fiscal Year 2014 Budget preparation is in progress; with Division heads working within timelines to meet budget deadlines and goals.

In regard to the Specialty Retail Concession, the Manager reported that after the GIAA Board of Directors approved Management's recommendation to award the contract to Lotte Duty Free Guam, LLC; the successful negotiation of the contract concluded, and on May 18, 2013 the contract was awarded as authorized by the Board. The new Agreement increases the Airport's specialty retail concession guaranteed rental revenues from $4.5 million under the prior contract, to $15.4 million in minimum annual guaranteed rent to be paid by Lotte. The Airport was also able to negotiate additional revenue of 1% of all non-Airport sales made by Lotte on Guam. Under the new Agreement, no less than $23 million will be invested by Lotte in capital improvements towards enhancing the Airport's duty free shopping experience with a unique concept which includes substantial renovations to the Airport food court and restroom facilities at no additional cost to the Airport. A Press Conference for all media was held today, showcasing Lotte Duty Free Guam's winning concept "Gateway Guam".

Reporting on Personnel issues, the executive Manager announced that through Public Law 29-94, authorization was granted to the Authority to establish pay scales for CTP positions. GIAA employed an independent study in 2008 to develop the pay scale for CTP positions. On November 23, 2010 the GIAA Board of Directors approved the migration to the 5th Market percentile, effective October 1st of that year. This is the first of a planned number of adjustments eventually achieving the 50th Market percentile or market average within the United States. Pursuant to GIAA CTP Rules and Regulations, internal equity should be reviewed annually and external competiveness at least every three (3) years. A review conducted in 2011, assessing a series of benchmark positions with data being obtained from market research against the U.S. Airport Industry and the U.S. Bureau of Labor Statistics (BLS). Research indicated an average market movement of 8.7% for the U.S. Airport Industry over the period of 2008 – 2012. The total estimated cost to migrate to the 15th Market Percentile is $602,640.00 with the total estimated cost to migrate to the 20th Market Percentile being $830,000.00.

The Executive Manager informed the Board that Bill 69-32 was passed in the legislative session May 28, 2013; requiring legislative approval for lease agreements that span more than five years. Bill 125-32 was introduced in the legislative session May 23, 2013, appropriating $500,000.00 to Department of Public Works to fund the acquisition property for the Tiyan Parkway Project.

The Manager reported that during the annual Airport Certification Inspection by the Federal Aviation Administration (FAA) on May 3, 2013, GIAA received excellent inspection results. Airport Certification Inspector, Juan S. Reyes of the FAA Airport

District office out of Honolulu commented on the great conditions at GIAA, and had only one recommendation to update the Airport's Wildlife Management Program.

Before ending the report, the Executive Manager introduced representatives from Citigroup, and the new General Manager of DFS Guam, June Guzman. Director Untalan at this time reminded the Board of the Bond Refinancing and commended the Executive Manager and staff for successful negotiations of the Specialty Retail Concession contract. He stated that with the new contract there will be a significant increase in annual revenue that the Airport will receive with the Concession itself, and that it's a very appropriate time as GIAA are going before rating agencies to show the improvements that are being made to the Airport.
At this time Director Ada thanked the Executive Manager for the recent tour of the facility. Director Ada stated that he had a number of requests for Management, including a report on the efforts being made to remove old debris on Airport property, and, what effort is being made to reduce the cost of power. The Executive Manager responded, informing Director Ada and the Board that GIAA has undertaken an eleven (11) million dollar energy performance project a little over a year ago which is expected to be completed this summer, and a two (2) million dollar energy savings per year is to be expected, which is quite significant. Chairman Santos stated that he has noticed a significant decrease in power cost in the past year.

Vice Chair Torres inquired on the $830,000 to get to the 20th Market Percentile, and asked if GIAA has that amount available. Director Untalan replied that the item was going to be brought to the Board for consideration next Board meeting. Director Untalan informed the Board that $830,000 is the maximum amount on an annual basis; the team has done an excellent job in controlling costs and revenues have increased. Chairman Santos inquired on when the Bond negotiations are going to start. The Executive Manager responded, informing the Board that a GIAA team is scheduled to be in San Francisco June 18 to 19 to engage Standard & Poor's. Chairman Santos made a recommendation for Director Untalan to join the team traveling to San Francisco. Chairman Santos called for any other comments. Mr. Frank Santos replied with a response regarding the 20th Percentile, stating that since a feasibility analysis is being done for the Bond, if the Board can authorize Management to utilize the higher amount for the compensation as part of our going forth planning in terms of what the debt service ratios would be and use the higher number, that way it could go down, but at least we planned for it; stating it's just a planning document. Director Tolan asked how high. Vice Chair Torres replied, to the 20th Percentile. Vice Chair Torres made motion to authorize Management to move to the 20th Market Percentile, seconded by Director Tolan; motion carried.

B. Financial Report

For the Board's information, Carlos P. Bordallo, Acting Comptroller presented the financial report as of April 30, 2013. In finishing his report, Mr. Bordallo replied to Vice Chair Torres's question asked earlier relative to the 20th percentile, stating yes that GIAA would be able to absorb the 20th Percentile, at $830,000.

C. Legal Counsel's Report

Legal Counsel indicated that a report regarding pending and threatened litigation matters would be provided during Executive Session. The Board had no objection.

D. Status of Capital Improvement Programs

Mr. Frank Santos presented the UDO analysis and informed the Board that this is a continuation of the existing projects that we have and a summary showing ninety-seven (97) million dollars in federal funding, which GIAA has already spent seventy-six (76) million. Reporting on those projects that are pending or are in progress, Mr. Santos informed the Board that the Instrument Landing System (ILS) for Runway Left is essentially complete, but due to scheduling problems, FAA will not be able to bring their aircraft for a 'flight check' until August 2013, with the publication in December 2013. At which time that runway is available for arrivals, which also means that Central Avenue may have to close on those days. Mr. Santos reported on various other projects in progress and went on to say that next month is 'grant season' month, GIAA is expecting to receive seven hundred (700) million dollars from the FAA for work that will be announced at a later time once the Board of Directors approves the grants.

7. NEW BUSINESS

No New Business presented.

8. NEW BUSINESS

The Chairman announced that upon the recommendation of legal counsel the Board will recess and convene Executive Session after the recess. Vice Chair Torres made motion to recess and convene Executive Session after the recess, seconded by Director Tolan; motion carried. The Board recessed at 3:42 p.m.

Chairman Santos called Executive Session to order at 3:52 p.m. *(At this time Chairman Santos and Director Tolan exit the conference room).* Executive Session adjourned at 5:06 p.m., at which time the Board reconvened the regular meeting.

Director Untalan suggested before moving to Public Comments that he would like to make a motion relating to legal fees on the Specialty Retail Concession matter. As a result of the potential litigation and ongoing protest which require Legal Counsel to

devote an extraordinary amount of resources and personnel of its law firm and which is not economically feasible for legal counsel under its current contract rates and monthly fee cap, Director Untalan moved to adjust the hourly rates of Legal Counsel specifically for the matters relating to the Specialty Retail Concession to $325.00 per hour for San Francisco-based litigation partners, $225.00 per hour for all other attorneys, and $75.00 per hour for legal assistants, and to remove the cap of $45,000 per month for services rendered in matters relating to the Specialty Retail Concession. Director Untalan stated that the existing contractual hourly rates and cap of $45,000 per month would still remain for all other matters; however this specific matter will require a lot more man power and expertise. Director Untalan made motion to adjust the compensation for Legal Counsel as indicated, and to lift the cap of $45,000 per month. Chairman Santos handed the item over to Vice Chairman Torres to chair as the issue pertains to the Specialty Retail Concession in which Chairman Santos has abstained from participating. Director Ada seconded the motion made by Director Untalan; and clarified for the Board, stating that the $45,000 cap and fee structure remains the same for any and all other matters, and that the new fee structure with no cap applies only to the Specialty Retail Concession matter. Director Untalan requested that the billings related to this issue be separated. Motion duly carried.

9. PUBLIC COMMENTS

The Chairman called upon any public member wishing to make comments. There was no response.

10. ADJOURNMENT

Vice Chair Torres made a motion to adjourn the meeting, seconded by Director Tolan; motion carried. The meeting adjourned at 5:10 p.m.

Respectfully submitted,

Amanda O'Brien-Rios
Board Secretary

GIAA TERMINAL CONFERENCE ROOM #3

1. CALL TO ORDER AND ATTENDANCE

Acting Chairman Jesus Q. Torres called the A.B. Won Pat International Airport Authority, Guam (GIAA) special meeting to order at 3:10 p.m. The presence of Directors is noted as follows: Martin J. Gerber; Edward G. Untalan, and Pedro P. Ada III. Also present were Charles H. Ada II, Executive Manager, Peter Roy Martinez, Deputy Executive Manager, Carlos P. Bordallo, Acting Comptroller, Frank R. Santos, Business and Financial Consultant, and Michael A. Pangelinan Esq., Legal Counsel. The Chairman welcomed the presence of Airport Tenants, stakeholders, and members of the public who are noted in a sheet made as an attachment to the minutes.

2. APPROVAL OF AGENDA

Director Ada made motion to approve the agenda as presented, seconded by Director Gerber; motion carried.

3. SPECIALTY RETAIL CONSESSION AGREEMENT, CLAIMS, PROTESTS, LITIGATION, AND RELATED MATTERS

The Executive Manager announced that due to ongoing litigation, he would like to recommend that Item 3 be discussed in Executive Session and requested for the Airport Services Manager, Ms. Jean Arriola to be invited into the session. Acting Chairman Torres called for any comments. Legal Counsel Michael Pangelinan responded, stating that is also recommendation of Legal Counsel.

4. EXECUTIVE SESSION

Acting Chairman Torres announced that the Board will recess and convene Executive Session after the recess. Director Ada made motion to recess and convene Executive Session after the recess, seconded by Director Untalan; motion carried. The Board recessed at 3:15 p.m.

Acting Chairman Torres called Executive Session to order at 3:25 p.m. Executive Session adjourned at 4:54 p.m., at which time the Board reconvened the special meeting.

Director Untalan made motion to approve the recommendation and report of Legal Counsel presented during Executive Session and to approve and confirm all prior actions taken by Management pertaining to the Specialty Retail Concession Agreement, seconded by Director Ada. The Acting Chairman called for votes on the motion, and was unanimously carried.

Director Untalan made motion to approve the Legal Counsel's expenses exceeding the fee cap for April as it relates to the Specialty Retail Concession Agreement and litigation, seconded by Director Ada; motion carried.

Director Untalan made motion to authorize Management to proceed with handling all of the matters related to the litigation involving the Specialty Retail Concession Agreement. Director Ada seconded the motion and stated that the Board is basically reaffirming what they had instructed Management to do; motion duly carried.

5. ADJOURNMENT

Director Ada made a motion to adjourn the meeting, seconded by Director Gerber; motion carried. The meeting adjourned at 4:57 p.m.

Respectfully submitted,

Amanda O'Brien-Rios
Board Secretary

ANTONIO B. WON PAT
INTERNATIONAL AIRPORT AUTHORITY, GUAM
BOARD OF DIRECTORS
EXECUTIVE SUMMARY

INVITATION FOR BID
CUSTODIAL SERVICES FOR
TSA OFFICES AND FACILITIES
IFB NO. GIAA-003-FY13

June 27, 2013

Purpose

Board action is requested to approve the bid award of the above project under the Invitation For Bid No. GIAA-003-FY13.

Background

The project is to provide custodial services at the TSA offices and facilities inclusive of all labor, materials, supplies and equipment to main terminal building.

The bid award provides a contract term of three (3) years. The contract may be renewed annually at GIAA's sole option for additional one-year period(s), not to exceed the total contract term of five (5) years.

Procurement Background

The solicitation announcement was advertised through the local newspapers during the month of May 2013. The bid submission deadline and bid opening took place on May 23, 2013.

Thirteen (13) firms/individuals purchased bid package and eight (8) firms submitted bid proposal before the submission deadline. All eight (8) firms were evaluated and determined that seven (7) firms to be acceptable. As required by the Procurement Rules and Regulations, the bids were publicly opened and read aloud in the presence of the bidders.

The submitted bids are presented below:

Bidder/Firm's Name	Item 1 Total Price
GUAM CLEANING MASTERS	$62,266.56
UNLIMITED SERVICE GROUP LLC	$60,576.00
SERVICE MASTER GUAM INC.	$119,400.00

K CLEANING SERVICES	$57,688.00
ADVANCE MANAGEMENT INC.	$181,371.24
ABLE INDUSTRIES OF THE PACIFIC	$43,117.68
MTO MAINTANACE	$54,000.00
JJ GLOBAL	$47,400.00

Legal Review

Upon approval of award, the contract will be processed through issuance of a Purchase Order in conformance with the Government of Guam Procurement Regulations.

Financial Review

The total contract award for this bid is $47,400.00. Funding for this bid is available under the FY2013 O&M budget.

Recommendation

Management recommends the contract award of **$47,400.00** to **JJ Global,** who has been determined to have met the standards of responsibility and responsiveness outlined in Guam Procurement Regulation.

MEMORANDUM

TO: Charles H. Ada II, Executive Manager

FROM: Franklin P. Taitano, Supply Management Administrator

SUBJECT: Bid Evaluation and Recommendation "Invitation For Bid"
Custodial Services for TSA Offices and Facilities
IFB No. GIAA-003-FY13

Procurement Background:
The above referenced Invitation For Bid was publicly announced through the local newspaper on the month of May 2013. The bid submission deadline and bid opening took place on May 23, 2013 at 2:00 p.m.

Thirteen (13) firms/individuals purchased the bid package and eight (8) firms submitted bids before the bid submission deadline. The bid submittal was opened in the presence of the bidders, members of the public and several GIAA representatives. The bid offer was read aloud by the Supply Management Administrator and tabulated by a Procurement staff.

The results of the bid price submittals are as follows in the order they were received and opened:

Bidder/Firm's Name	Item 1 Total Price
GUAM CLEANING MASTERS	$62,266.56
UNLIMITED SERVICE GROUP LLC	$60,576.00
SERVICE MASTER GUAM INC.	$119,400.00
K CLEANING SERVICES	$57,688.00
ADVANCE MANAGEMENT INC.	$181,371.24
ABLE INDUSTRIES OF THE PACIFIC	$43,117.68
MTO MAINTANACE	$54,000.00
JJ GLOBAL	$47,400.00

AMERICAN ASSOCIATION OF AIRPORT EXECUTIVES
AIRPORTS COUNCIL INTERNATIONAL
NASAO National Association of State Aviation Officials
IACA THE INTERNATIONAL AIR CARGO ASSOCIATION

Pursuant to Section 8 of the Instructions to Bidders, the contract is to be awarded to the lowest responsible, responsive bidder, provided his bid is reasonable and it is in the best interest of the GIAA to accept it. To determine the responsibility of bidders, the bid package specified the required documents that bidders must submit with their bid packages. The attached abstract illustrates the inventory of required documents and bidders' submittal.

Guam Cleaning Masters: The firm submitted a bid for Item 1 in the amount of $62,266.56 respectively. All other documents were complete and in conformance with the Invitation For Bid.

Unlimited Service Group LLC: The firm submitted a bid for Item 1 in the amount of $60,576.00 respectively. All other documents were complete and in conformance with the Invitation For Bid.

Service Master Guam Inc.: The firm submitted a bid for Item 1 in the amount of $119,400.00 respectively. All other documents were complete and in conformance with the Invitation For Bid.

K Cleaning Services: The firm submitted a bid for Item 1 in the amount of $57,688.00 respectively. All other documents were complete and in conformance with the Invitation For Bid.

Advance Management Inc.: The firm submitted a bid for Item 1 in the amount of $181,371.24 respectively. All other documents were complete and in conformance with the Invitation For Bid.

Able Industries of the Pacific: The firm submitted a bid for Item 1 in the amount of $43,117.68 respectively. The firm did not submit Required Bid Forms, Bid Security, and Bonding Capability as required. As a result, the firm has been determined to be non-responsive and responsible, therefore the firms bid is rejected.

MTO Maintenance: The firm submitted a bid for Item 1 in the amount of $54,000.00 respectively. All other documents were complete and in conformance with the Invitation For Bid.

JJ Global: The firm submitted a bid for Item 1 in the amount of $47,400.00 respectively. All other documents were complete and in conformance with the Invitation For Bid.

Recommendation:
Pursuant to the guidelines in Item 8 of the Instruction to Bidders, the award of contract will be made to the lowest responsible, responsive bidder, provided his bid is reasonable and in the best interest of GIAA.

JJ Global has been determined to have met the standards of responsibility and responsiveness outlined in the Guam Procurement Regulation. Therefore, it is recommended that the contract award be made according to JJ Global for the amount of $47,400.00 per year.

Should you have any questions or concerns, I am available at your request.

Franklin P. Taitano

EXECUTIVE SUMMARY

INVITATION FOR BID
REHABILITATE RUNWAY 6L-24R, PHASE 1I
IFB NO. GIAA-C01-FY13
PROJECT NO. GIAA-FY10-04-2; AIP NO. 3-66-0001-84

June 27, 2013

Purpose

Board action is requested to approve the bid award of the above project under the Invitation For Bid No. GIAA-C01-FY13.

Background

The project is to provide construction and renovation work inclusive of all labor, materials, supplies and equipment to rehabilitate runway 6L-24R, Phase 1I.

Procurement Background

The solicitation announcement was advertised through the local newspapers during the month of May 2013. The bid submission deadline and bid opening took place on June 17, 2013.

Six (6) firms/individuals purchased bid package and two (2) firms submitted bid proposal before the submission deadline. The firms were evaluated and determined to be acceptable. As required by the Procurement Rules and Regulations, the bids were publicly opened and read aloud in the presence of the bidders.

The submitted bids are presented below:

BIDDER'S NAME	AMOUNT
Nippo USA, Inc.	$6,896,871.09
Hawaiian Rock Products Corp.	$8,136,599.82

Legal Review

Upon receipt of the required Performance and Payment Bonds, contract documents will be forwarded to legal counsel for review prior to execution and issuance of Notice to Proceed.

Financial Review

The lowest responsive, responsible total bid amount received is $6,896,871.09 or 50% below government estimate of $13,000,000.00. Funding for this project is available under the AIP grant no. 3-66-0001-84.

Recommendation

Management recommends the contract award of **$6,896,871.09** to **Nippo USA, Inc.,** who has been determined to have met the standards of responsibility and responsiveness outlined in Guam Procurement Regulation.

SUBJECT: Bid Evaluation and Recommendation "Invitation For Bid"
For Rehabilitate Runway 6L-24R, Phase 1I
IFB No. GIAA-C01-FY13
Project No. GIAA-FY10-04-2 AIP No. 3-66-0001-84

Procurement Background:
The above referenced Invitation For Bid was publicly announced through the local newspaper during the month of May 2013. A pre-bid conference was held on May 16, 2013 at the Terminal Conference Room. The bid submission deadline and bid opening took place on June 17, 2013.

Six (6) firms/individuals purchased the bid package and two (2) firms submitted proposal before the bid submission deadline. The bid submittals were opened in the presence of the bidders, members of the public and several GIAA representatives. The bid offer was read aloud by the Buyer Supervisor I and tabulated by a Procurement staff.

The results of the bid price submittals are as follows in the order they were received and opened:

BIDDER'S NAME	AMOUNT
Nippo USA, Inc.	$6,896,871.09
Hawaiian Rock Products Corp.	$8,136,599.82

Bid Analysis and Evaluation:
Pursuant to Section 8.1 of the Instructions to Bidders, the contract is to be awarded, if it is to be awarded, as soon as possible to the lowest responsible, responsive bidder. To determine the responsibility of bidders, the bid package specified the required documents that bidders must submit with their bid packages. The attached abstract illustrates the inventory of required documents and bidders submittal.

Nippo USA, Inc.: The firm has submitted a total bid price of **$6,896,871.09.** The submitted Statement of Bidders Experience form included lists of projects from 2003-2012 with resumes. The bidder submitted a copy of their current Guam Contractors License **#0263, #0733.** All other required documents are complete and in conformance with the Invitation For Bid.

Hawaiian Rock Products Corp.: The firm has submitted a total bid price of **$8,136,599.82.** The submitted Statement of Bidders Experience form included lists of projects from 2003-2013 with resumes. The bidder submitted a copy of their current Guam Contractors License **#1092, #1522, #7547, #1146.** All other required documents are complete and in conformance with the Invitation For Bid.

Recommendation:
Pursuant to the guidelines in Item 8.1 of the Instruction to Bidders, the award of contract will be made to the **lowest responsible, responsive bidder.** Nippo USA, Inc. has been determined to have met the standards of responsibility and responsiveness outlined in the Guam Procurement Regulations and has deemed to be the lowest responsible, responsive bidder.

Therefore, it is recommended that **Nippo USA, Inc.** be awarded the contract in the amount of **$6,896,871.09** for this project.

Should you have any questions or concerns, please call our office at your convenience.

AIRLINE ISSUES

The following airlines have scheduled extra sections and/or charters during Summer 2013.

- Delta Airlines is adding 60 extra sections, or one flight daily between Kansai and Guam between July 27 and September 23, 2013.
- United Airlines announced 78 extra sections between Narita and Guam daily, beginning July 14 through September 29, 2013.
- Korean Airlines has also planned 50 extra sections, daily, serving Narita/Guam from July 26 through September 13, 2013.
- EVA Air, China Air and Korean air adds to the summer peak travel with 32 charters from Japan between July and September, 2013.
- Starflyer, opens a new Japanese market with 13 scheduled charters between Kitakyushu Japan and Guam in August 2013.
- China Airlines will be operating eight extra sections between Taipei and Guam from July 3 through July 31, 2013
- Japan Airlines (JAL) have been finalizing plans for JAL flight crew training to occur on Guam. JAL pilots will be conducting touch and go and full stop landing operations utilizing B737 and B767 aircraft. Pilot training will commence in October 2013 with approximately 6 cadets on island for training. Training is expected to continue through the term ending June of 2015.

REGULATORY ISSUES

GIAA has been working with **USCBP** in implementing an enhanced signage program in the USCBP hall. The new signage includes installation of digital signs that can customize inspection booths to identify categories (ex: US Citizens, Non US, ESTA, Guam Visa Waiver, etc.). Lights indicating "green" for open and "red" for hold or closed will also be re-installed to eye level for customer convenience.

The new system was discussed with the Japan Guam Travel Association members, who services 70% of our arriving passenger base.

GVB has solicited comments on new **Guam Customs** arrivals forms that are less comprehensive than the 2 page Customs Arrivals form that are currently in place. The forms are still within committee, and are being worked on to resolve issues and acquire necessary information for all agencies who garner important information from the Customs forms.

Executive Manager's Report
GIAA Board of Directors Meeting
June 27, 2013

FINANCIAL

Fiscal Year 2014 Budget preparation is progressing. It is anticipated that the budget will be presented to airlines in first part of July 2013.

Refinancing of 2003 Revenue Bonds. A GIAA team presented an airport review to Standard & Poors and Moodys Investors the week of June 17, 2013 to refinance approximately $125M in bonds, and new money financing structures.

Specialty Retail Merchandise Concession. Lotte Duty Free Guam continues to transition and work towards the July 21, 2013 occupancy and operational date of the new retail concession awarded to Lotte. Lotte held a job fair on Friday, July 21, 2013 to hire managerial, supervisory and support staff positions. They plan to phase in more personnel to an estimated 200 employees for the Airport retail concession and their off airport location.

LEGISLATIVE ISSUES

Bill 69-32 which would require legislative approval for lease agreements that span more than five years passed in the May 28, 2013 legislative session, transmitted to the Governor's office, and enacted into Public Law without signature of the Governor.

Bill No. 125-32 appropriating $500,000 to the Department of Public Works to fund the acquisition property for the Tiyan Parkway Project passed in June 4, 2013 legislative session, transmitted to the Governor's office. This was signed into Public Law.

PROCUREMENT

IFB Demolition and Remediation of Various Airport Facilities Phase I

Announced: June 19, 2013
Pre Bid Mtg: Tuesday, July 2, 2013 10am
Closing: Friday, July 19, 2013 2pm

ANNOUNCEMENTS

- Terminal improvements are complete in the West Ticket Lobby with the construction of new ticket counters for eventual occupancy.
- The Pohnpei Ports Authority has committed to join GIAA as a partner in hosting the ACI Asia Pacific Small & Emerging Airports Conference. Additionally, Lyon & Associates and ARINC committed to sponsorship. An organizing committee has already convened to ensure all aspects of planning to actual supporting of conference activities are fully covered.
- The GIAA Employee Organization is hosting a fundraiser on June 28, 2013 from 6- 10pm at Gud Tayms Lounge at the underground Hafa Adai Exchange. Tickets are $10, which includes a free drink and pupus. A raffle will also be conducted. All members, those interested in becoming members, and supporters are encouraged to attend.

MEMORANDUM

To: Mr. Francisco G. Santos
Chairman
GIAA Board of Directors

From: Carlos Bordallo
Acting Comptroller

Subject: **Operating Results - Revenues and Expenses as of May 31, 2013**

Attached herewith is GIAA's Operating Results Report for the month ending May 31, 2013. This report summarizes the Budgeted versus Actual Revenues and Expenses for the month and year-to-date results ended May 31, 2013.

The key operating results for 8 month(s) of FY 2013 ending May 31, 2013 - (in $000's) are:

CATEGORY	YEAR-TO-DATE				FORECAST FOR FULL YEAR-FY13	
	Budget FY 13 Y-T-D	Actual FY 13 Y-T-D	% Variance Budget vs. Actual		Actual Y-T-D + Remaining FY 13 Budget	% Variance Budget vs. Estimate for Full Year
			Y-T-D Current Month	Y-T-D Last Month		
Total Signatory Revenues	$18,061.5	$19,518.7	8.1%	8.8%	$28,779.4	5.3%
Total Concession Revenues	$7,128.1	$4,657.7	-1.9%	-4.9%	$10,693.2	-1.5 %
Total PFC's	$3,943.5	$4,338.0	10.0%	11.6%	$6,369.8	6.7%
Total Other Revenues	$10,347.4	$10,479.5	1.3%	2.4%	$15,276.8	.9%
Total Operating Revenues	$39,480.6	$41,299.9	4.6%	5.5%	$61,119.3	3.1%
Total Operating Expenses	$28,527.0	$23,060.3	-19.2%	-18.8%	$34,975.7	-13.5%
Net Revenues from Operations	$10,953.6	$18,239.6	66.5%	66.3%	$26,143.6	38.6%
Non-Operating Expenses	$500.0	$226.1	-54.8%	-60.9%	$226.1	-54.8%
Other Available Moneys/other sources of funds	$3,113.0	$3,212.6	3.2 %	-9.5 %	$4,882.9	2.1%
Net Debt Service Coverage	**1.23**	**1.90**	**53.9%**	**51.8%**	**1.84**	**31.8%**

Year-to-date Total Signatory Revenues for the month ending May 31, 2013 are above Budgeted revenues by **8.1%.** Signatory revenue estimates are based on projections submitted by Signatory airlines and adopted in the annual budget.

Year-to-date Total Concession Revenues are below budget estimate by **-4.9%** and Passenger Facility Charges are above budget estimates by **10.0%.**

Year-to date Total Other Revenues, inclusive of non-signatory and non-airline revenues, are above the budget estimate by **1.3%.**

Year-to-date Total Operating Revenues Actual of **$41.3M** is **4.6%** above the budget estimate of **$39.5M.**

Year-to-date Total Operating Expenses are below budget by **-19.2%.** Components of this line item include a **-13.2%** decrease in Personnel Service, a **-21.8%** decrease in Contractual Services, a **-35.5%** decrease in Materials & Supplies and a **-100%** decrease in Equipment/Furnishings from budgeted amounts for these respective categories.

The actual year-to-date Net Revenues from Operations of **$18.3M** reflects an increase of **66.5%** over the year-to-date budgeted amount of **$11.0M.**

Finally, our year-to-date results for Debt Service Coverage is at **1.84** versus the requirement of **1.25.**

MINUTES OF THE BOARD OF DIRECTORS REGULAR MEETING
3:00 p.m., Thursday, July 25, 2013
GIAA TERMINAL CONFERENCE ROOM #3

1. CALL TO ORDER AND ATTENDANCE

Chairman Francisco G. Santos called the A.B. Won Pat International Airport Authority, Guam (GIAA) regular meeting to order at 3:06 p.m. The presence of Directors is noted as follows: Martin J. Gerber; Lucy M. Alcorn, and Rosalinda A. Tolan. Also present were Peter Roy Martinez, Deputy Executive Manager, Carlos P. Bordallo, Acting Comptroller, Frank R. Santos, Business and Financial Consultant, and Janalynn C. Damian Esq., Legal Counsel. The Chairman welcomed the presence of Airport Tenants, stakeholders, and members of the public who are noted in a sheet made as an attachment to the minutes.

2. APPROVAL OF AGENDA

Director Gerber made motion to approve the agenda as presented, seconded by Director Alcorn; motion carried.

3. APPROVAL OF MINUTES

A. June 27, 2013 Regular Meeting

Director Alcorn made motion to approve the regular meeting minutes, subject to correction, seconded by Director Gerber; motion carried.

4. CORRESPONDENCE

No Correspondence presented.

5. MATTERS FOR BOARD RATIFICATION/APPROVAL

A. Ratification of Disbursements

The Deputy Executive Manager at this time apologized to Chairman Santos for the absence of the Executive Manager. Director Tolan inquired on the $234,000 payment made to Calvo Fisher & Jacob for the month of May. Mr. Bordallo informed Director Tolan it was relative to the Specialty Retail Concession. Director Tolan made motion to

ratify payments above the $50,000.00 threshold made to vendors for the period of June 24, 2013 – July 24, 2013, seconded by Director Alcorn; motion carried.

6. OLD BUSINESS

A. Executive Manager's Report

The Deputy Executive Manager presented updates on various matters concerning airlines and charter operations to include StarFlyer finalizing their plans with GIAA officials on July 11, 2013 for direct service to Guam from Kitakyushu, Japan. The inaugural flight will arrive on Guam August 2, 2013 at 12:30 a.m. and will be greeted as VIP's.

Reporting on Legislative issues, the Deputy Executive Manager informed the Board that for the past three (3) weeks Airport Management has been meeting with Senators to discuss legislation relative to Airport operations. Among items discussed was Bill No. 129-32 which was introduced May 31, 2013, and would authorize A.B. Won Pat International Airport Authority to issue Revenue Bonds for the purpose of refunding the General Revenue Bonds, 2003 Series A, B, C, and D, refinance the Energy Efficiency Loan, and finance new projects. The Public Hearing is pending. Also discussed, was Bill 137-32, introduced on June 5, 2013 which would provide space to the Guam Customs and Quarantine Agency at no cost in a manner consistent with federal law. A Public Hearing was held June 27, 2013 with the Airport submitting written testimony opposing the Bill.

The Deputy Executive Manager went on to report on Finance Issues such as the Refinance of 2003 Bonds and New Revenue Bonds Sales, stating that in the first week of August, a team comprised of GEDA, GIAA, Bond Counsel, Bond Underwriters and other consultants will be working toward the engagement of rating agencies, with the price and sale of the Bonds anticipated to be scheduled in late August.
Lotte Duty Free launched operations on July 21, 2013 with GIAA staff working diligently and cooperatively with both Lotte and DFS on their logistics and transition plans. The Manager reported that more activity is anticipated as Lotte enhances its retail space and works to augment areas such as the restroom, food courts, smoking areas and play area.

The Deputy Executive Manager announced that the Airport Authority was successful in taking home the award of 1st place float winner for GovGuam agencies at the 69th Liberation Day Parade held on July 21, 2013. The GIAA employees and volunteers who worked on the float are given kudos for a great job in bringing home the 1st place prize in 2011, 2012 and 2013, three (3) consecutive years in a row. Director Tolan asked Management if she may see the trophy. The Deputy Executive Manager replied that he would have it for the Board to view at the next Board meeting. Chairman Santos announced that he sent a letter to Management and to all GIAA employees congratulating them, especially those that worked on the float and design. The

Chairman stated that the Board is very proud of the GIAA employees for all of their effort and hard work, and maybe next year GIAA will try for a fourth win.

Chairman Santos at this time referred back to the transition period of Lotte Duty Free, and inquired if GIAA employees such as Airport Police are being utilized around the clock and if so, are they being paid overtime. Ms. Arriola replied that it is the transition plan, it allows for an entire team to be there to allow items to be moved in and out in the short window of opportunity that they had. The Chairman queried if a Service Request is required to be able to utilize Airport employees in turn the Airport maybe reimbursed. Mr. Gerard Bautista informed the Board stating that the team that came in that night was from Property Management who had a requirement to do a post inspection for Duty Free, and that his team had to do a pre inspection, so they were handling their business and what was needed to be done based on their procedures during the transition. However, they did not assist in removing anything, equipment or anything like that. The Chairman inquired if Airport Police were there for security. Mr. Bautista responded yes, that they had planned for that because of the amount of people that were moving between DFS and Lotte and the incoming traffic, the officers were there to make sure that the customers did not enter, or that the contractors did not interfere with the movements of the passengers, that is what the their role was. Chairman Santos stated that in the future if a company would like to utilize Airport's employees that a Service Request needs to be submitted, and to charge them or bill them for utilizing Airport employees. Director Tolan asked if that was part of the contract, that Airport security and manpower will be used during the transition. Ms. Arriola replied informing the Board that like any other tenant, if there's a requirement to assist, we do provide those. The Deputy Executive Manager added that Airport Police has 24 hour shifts and that is also part of their responsibilities. The Chairman explained stating that the only reason he bought up the issue was that it is not our employees' job that is a special assignment. Legal Counsel, Janalynn Damian informed Chairman Santos that she would look into it.

B. Financial Report

For the Board's information, Mr. Carlos P. Bordallo, Acting Comptroller presented the financial report as of June 30, 2013. Chairman stated that there are only two (2) more months until the end of the fiscal year. Director Tolan inquired on the FY2014 Budget. Mr. Bordallo replied, informing the Board that the first meeting with Signatory Airlines was on July 23, 2013. He went on to add that GIAA has been in correspondence with the Signatory Airlines and a cost per enplanement of $16.00 was presented, which is a reduction from the current cost per enplanement of $17.20. Mr. Bordallo stated that he was committed to lower the number. Director Tolan asked if it would be lowered from $17.24. Mr. Frank Santos, Business and Financial Consultant informed the Board that right now the proposed Budget for FY2014 is at $16.00, but possibly $15.99. Mr. Bordallo added that the Airlines were very receptive to the reduction in cost per

enplanement so the Budget will be revised to incorporate some of their comments. A revised Budget will be submitted which will run through the Finance Chair, Director Untalan before it's finalized.

C. Legal Counsel's Report

No Legal Counsel Report.

D. Status of Capital Improvement Programs

Business and Financial Consultant, Frank Santos presented brief reports on three items; the first of which was the Energy Efficiency Program. He stated the one remaining large piece is the fire alarm system, which needs to be replaced. The Airport has been on fire watch for a considerable time. What was negotiated with Johnson Control (JCI) on the fire alarm system was a light per light replacement. After further assessment and discussions with Guam Fire Department, the fire alarm system has to be replaced. So the plan of action that Management has put forth is essentially removing the fire alarm system out of the JCI contract, they will still provide the assessment, and if there is going to be a full replacement then the fire alarm system will be put out for competitive bid; that is an update to the one remaining large piece of the JCI Performance Contract.

Mr. Frank Santos reported on a second item, the In-Line Baggage System. Mr. Santos stated that the Board approved the TSA Other Transaction Agreement. At this point in time GIAA is working to a 70% submission through TSA, about August 8, 2013. Shortly thereafter, TSA will provide GIAA a proposal as to what they will be funding. Right now the Airport has 21 million dollars set aside from the bonds if TSA is unable to fund it, but it looks favorable that TSA will be funding a significant part of the program. GIAA should know maybe two (2) weeks after August 8, 2013. The draft Other Transaction Agreement will be circulated to Legal Counsel for review. Mr. Santos stated that it's a good sign. What the project entails is the relocating of all the baggage screening areas and inspections done in front of the counters, and moving it to the back. Mr. Gerard Bautista, Airport Terminal Manager added stating that TSA has promised to get the offer to the Airport by August 16, 2013 for it to be review and hopefully present it to the Board if it meets the dollar amount the Airport has estimated. The Chairman stated good it will create more space in front. Mr. Santos added that it will provide additional capacity for passengers

The third item for the Boards information was the pre conditioned air units and ground power units for the loading bridge. Mr. Santos informed the Board that the FAA has essentially given verbal approval this morning on utilizing an existing grant that has about 2.5 million dollars worth of funding. Mr. Santos stated that the only problem and the reason he was bringing it up at this time is that there is only a little over a month's time to use it. If the unencumbered amount of the grant is not utilized it goes back to

the FAA and there is no guarantee it will come back to Guam. Director Alcorn inquired on the amount. Mr. Santos replied stating about 2.5 million. He asked the Board to look at their spreadsheets under 2009, grant number 65, there is approximately 4.2 million dollars left. Mr. Santos informed the Board the reason why we have the unencumbered money, or money that is not going to be used is because GIAA had great bids on the projects that were put out, the low bids resulted in extra funding, rather than return it to the FAA, GIAA worked out a process with the FAA to fund a part of the thirty-four (34) units; 17 pre conditioned airs, 17 ground power units. The total for all items is approximately 4.6 million dollars. GIAA anticipates that 2 million dollars can be used before the end of August. Relative to the other two (2) million, the Congresswoman's office had a press release yesterday regarding the FAA. The FAA provided the Airport a grant which is now called AIP85, for the amount of $2,005,650.00 pure reimbursement, that money has already been spent, and it will flow directly into the Airport's CIF. That will provide additional funding to make this a non-competitive proposal because only JBT AeroTech is the manufacturer for all of the equipment out there. In order to make this occur, the Board's approval would be requested to authorize Management to enter an agreement with JBT AeroTech for those units, up to 4.6 million, of which 2.5 million will be under FAA grant number 65. What makes this also time sensitive is that there are issues right now with the PC air units, including the portable units that were bought in. The suggestion is to remove the portable units, which will save from $300,000 to $350,000. Director Gerber asked if it will be a 'Sole Source' of Procurement. Mr. Santos replied yes, that the FAA calls it 'Non-Competitive Proposal'. We have submitted it through federal procurement regulations and through their own guidelines; their regulations are more stringent than the local procurement regulations. JBT AeroTech is the manufacturer; we are not replacing any of the bridges, the point of use units have to be compatible with the bridge, especially the computerized system. Director Gerber inquired on the maintenance relative to Untied Airlines. Mr. Santos replied that there is a contract with United to maintain it, which they have also sub-contracted. Director Gerber asked if those items were the biggest cost items that GIAA has on a recurring basis, and if approved, when are they going to charge GIAA, monthly or quarterly. Mr. Santos responded, informing the Board that it will be a monthly charge. He went on to state that the need for the six (6) portable units, which are also washing down, would be returned back to the company that is renting them out to the Airport. Mr. Santos introduced to the Board Mr. Chuck Sova, from United Airlines and asked if he had anything to add in terms of the condition of the current units, the portables and the point of use units for the bridge. Mr. Sova informed the Board that for the portables, they pay approximately $40,000 a month, including fuel because they are diesel units. Director Alcorn inquired on how many units. Mr. Sova replied, stating that there are six (6) units, three (3) ground power units and three (3) portable air conditioners. They were rented to supplement the need for the bridge mounting units. So if the Airport can move forward with the bridge mounting units that would go away. Mr. Santos stated that is the request, to authorize Management to proceed with the ordering of the equipment, strictly purchase of the units, there is no need for maintenance or anything,

with a limitation of 2.5 million dollars, with a federal grant offering of 2 to 2.5 million before the end of the fiscal year or August. Director Alcorn inquired on federal grants and the process. Mr. Santos answered, stating that federal grants usually go through a congressional review; they give the senators and congress in Washington an opportunity to review it than able to make a press release in advance of the local government. If the press release has gone out already, that means the money is committed already. We are expecting the grant shortly, by the time of the August meeting; that grant and other grants will be presented to the Board for approval. The process in order to accelerate this procurement, the Airport needs to provide a commitment letter to United Airlines; United Airlines in turn submits the letter to JBT AeroTech, when the Airport processes the purchase order with all of the necessary contract provisions than that will resolve the commitment letter. Director Tolan inquired on the estimated time of completion if all goes well. Mr. Santos replied approximately six (6) months. The plan is, as they become manufactured, they'll be sending them to Guam for installation, rather than wait for a certain amount of units to be manufactured. Director Alcorn inquired on the payment process. Mr. Santos answered stating that GIAA will be receiving weekly invoices from the manufacturer, by that time the purchase order process should be completed. Once the invoice is received, Accounting submits a reimbursement request, than the Airport pays the manufacturer. Director Gerber asked if it's required for GIAA to pay the total, and if the Airport just pays a share, what would be the worst case scenario. Mr. Santos replied stating that 2.6 million would be the worst case scenario. Director Alcorn inquired what if the second part does not come back to the Airport. The Airport does have funds available in the current CIF to support that, in addition the Airport has the total amount factored into the Airport's Bond issued. If the money is not utilized in the federal grant it is lost completely. Mr. Santos reassured the Board on the return of the 2 million reimbursement to the Airport. Management is requesting approval based on the request to the FAA to maximize the use of the grant number 65, and to authorize Management to proceed based on a non-competitive proposal which the FAA approved and to proceed with the purchase of the pre conditioned air units and the ground power units from the manufacturer JBT AeroTech, the total amount being $4,634,028.00, and the amount of the grant that GIAA is expected to utilize is 2 to 2.5 million. Director Gerber made motion to authorize Management to proceed with purchasing the units from the manufacturer JBT AeroTech, subject to Legal Counsel's review, seconded by Director Alcorn; motion carried.

7. NEW BUSINESS

No New Business presented.

8. EXECUTIVE SESSION

The Chairman announced that the Board will recess and convene Executive Session after the recess. Director Gerber made motion to recess and convene Executive Session after the recess, seconded by Director Alcorn; motion carried. The Board recessed at 3:46 p.m.

Director Gerber made motion to return to regular session, seconded by Director Alcorn; motion carried. The regular meeting reconvened at 3:52 p.m.

Janalynn Damian Esq., Legal Counsel announced for the record that the Board did not hold Executive Session due to there not being a court recorder.

At this time Deputy Executive Manager inquired with Legal Counsel if Executive Session would need to be called to discuss a personnel issue. Ms. Janalynn Damian replied that if it relates to a specific employee with personnel matters, no; Court recorders are not needed for personnel matters only litigation matters, however if the personnel matters are limited to a specific employee and charges against the employee, yes. But, to discuss salary, position description, hiring, that is done in regular session. Director Tolan announced that she had inquired with Legal Counsel, Michael Pangelinan at the previous Board meeting as to the status of the Comptroller's position and if the Board may appoint the Comptroller without violating the hiring process. Ms. Janalynn Damian responded stating that the questions Legal Counsel looked at were the Boards Authority to hire the Comptroller and specifically, whether the Comptroller needed to be a CPA. After doing some research, the Authority's Enabling Statute gives the Board directly the authority to hire the Comptroller, to set his or her duties and to establish his or her salary. What's not specifically stated in there is whether the Board has the authority to set the qualifications of that position, for example, what type of degree the Comptroller has to have, number of years of experience, any special certifications such as a CPA. Ms. Damian went on to state that her interpretation was that it's an inflicted responsibility of the Board to set that when they are setting the duties and salary. So the authority to hire would include the authority to set the qualifications of the employee they are hiring, the Comptroller.
Ms. Damian informed the Board that before finalizing her opinion, it had come to her attention that the Civil Service Commission (CSC) has established a position description for the Comptroller position and she has been trying to gain a copy. Ms. Damian stated that is where she is at right now; if it is possible to work within what has already been established by the Board which is really entirely at the Boards discretion or if it is required to follow what the CSC has in place. Ms. Damian went on to say that she was informed by the CSC that they cannot find the Comptrollers position description, Ms. Damian was given the descriptions for both the Executive Manager and Deputy Executive Manager from CSC. She informed the members of the Board that she was provided with position descriptions from other agencies such as GWA, and GTA. She went on to add they do have job announcements; job announcements for the Comptroller position were issued in 1995, 2003, 2005 and most recently in 2011, she also added that she did not know if these announcements were based on the CSC

position description or if it was the Boards standards. Ms. Damian explained that she was researching the previous year's minutes but they did not give any indication of a position description. That is the last item she is waiting for, Ms. Damian stated that she believes that the CSC would not have jurisdiction over this position, it's basically what is called an unclassified position, but the fact that there was a position description, she would at least like to present it to the Board for consideration. Chairman Santos stated that he is very surprised. Ms. Damian added that she feels that it is up to the Board to set the duties, qualifications and salary and that she wanted to give the Board the samples that the Airport used in the past so that if the Board decides to set the qualifications that they have all of the background. Chairman Santos asked that Legal Counsel give a recommendation. Ms. Damian stated that it will be sent out separately before the next Board meeting. Director Tolan informed Ms. Damian that at the next Board meeting they would like to put closure to the Comptroller position. Chairman Santos reiterated that the positions that the board appoints are the Executive Manager, Deputy Executive Manager, Comptroller and the Board Secretary. Ms. Damian added that the Board also appoints Legal Counsel.
The Deputy Executive Manager stated that Mr. Carlos Bordallo is also interested in the Comptroller position being that he is the Acting Comptroller. Director Tolan added that as long as the Board is doing the right thing and that she would like clarification. Chairman Santos stated that there is no need to announce the position because the Board is appointing it. Ms. Damian stated she would just like to clear everything.

Mr. Frank Santos stated that he would like to add something related to what was discussed earlier and let the Board know that also under the JCI review; an assessment is being done on the loading bridge, on all three (3) systems for energy management. There's an opportunity to see more money if the three systems are connected to the building automation system. There's an opportunity for more savings.

At this time Chairman Santos inquired on some sort of recognition for the employees for winning first place in the Liberation Day Float competition and expressed the need to support the employee's. The Deputy Executive Manager replied yes. The Chairman also requested that the Oversight Chairman and the Governor be invited.

9. PUBLIC COMMENTS

The Chairman called upon any public member wishing to make comments. There was no response.

10. ADJOURNMENT

There being no further discussion, Director Tolan made a motion to adjourn the meeting, seconded by Director Alcorn; motion carried. The meeting adjourned at 4:03 p.m.

Respectfully submitted,

Amanda O'Brien-Rios
Board Secretary

APPROVED:

Local company tapped to build Saipan zip line facility

By Aldwin R. Fajardo
aldwin@mvguam.com
Variety News Staff

Zip Guam president and general manager Trevor Takasu says a hotel operator on Saipan has approached his company to build a canopy tour facility in the Northern Marianas. Mar-Vic Cagurangan / Variety

A HOTEL company on Saipan is tapping the expertise of Guam-based canopy tour operator Zip Guam to build a zip line facility in the Northern Marianas as part of efforts to lure more visitors to the island.

Zip Guam President and General Manager Trevor Takasu said discussions are underway between his company and a hotel operator in Saipan but was quick to add that they are in the early stages of planning.

Although he refused to name the Saipan hotel operator, Takasu confirmed that the company has started looking into possible locations for the zip line facility, which will probably offer a bird's-eye view of the Garapan hotel district.

He explained that the Saipan company is in the initial stages of looking into the CNMI government's permitting requirements.

Under the proposed partnership, the Saipan hotel company will commission Zip Guam to build and manage the canopy tour facility similar to the one in Tumon.

On Guam, customers zip through six courses on suspended cable panning 220 to 550 feet at an average height of 28 feet. Zip Guam offers customers views of pristine ocean and mountain areas.

"[Our facility] was designed to promote and operate outdoor adventure sports and travel. By offering nothing motorized, we celebrate human power and natural environment. Zip Guam has designed a range of zip courses throughout the property giving the customer the thrill of soaring through the air within a safe and comfortable environment," Takasu said.

He said the facility attracts not only tourists but also Guam residents, adding that a sizeable number of Zip Guam customers are from around the island.

Zip lining has become a popular vacation activity, veering away from its origin as a mode of transportation in some mountainous countries for many years, particularly in some remote areas in China where zip lines were once used as bridges.

Referred to as "an inclined strong," a zip line appeared in "The Invisible Man" by H.G. Wells published in 1897 as part of a Whit-Monday fair, according to Wikipedia.

Marriott, United integrate loyalty rewards program

BETHESDA (United/Marriott) – Marriott Rewards and United MileagePlus, two of the biggest names in travel, have joined forces to provide their most loyal members with unprecedented travel benefits.

RewardsPlus now offers MarriottRewardsPlatinumElite members MileagePlus Premier Silver status, featuring some of United's most popular Premier perks, and gives United Global Services, Premier 1K, Premier Platinum and Premier Gold members Marriott Rewards Gold Elite status, and all of the benefits that come with it. Status offerings will be effective until Jan. 31, 2014.

RewardsPlus will soon include other features as well. Beginning in August, Marriott Rewards and United MileagePlus members will receive added value when transferring points into miles and will get additional miles for travel packages. Also, for the first time, MileagePlus Premier members will be able to convert their miles into Marriott Rewards points.

"We share United's belief that a high level of customer service and recognition are among the most important elements of our members' travel," said Ed French, Marriott Rewards senior vice president. "We are bringing together the world's leading hotel and airline loyalty programs to enhance the customer experience from beginning to end."

"United and Marriott are advancing our partnership to provide unmatched recognition and benefits for our mutual customers," said Tom O'Toole, United's senior vice president of marketing and loyalty and president of MileagePlus. "The combination of United's global network, Marriott's brand scale and our top-rated loyalty programs enables our best customers to enjoy a heightened level of service wherever they travel."

Legal action looms for Boeing over Asiana crash

CHICAGO (AP) – A Chicago law firm has taken steps to sue Boeing Co. on behalf of 83 people who were aboard the Asiana Airlines flight that crash-landed in San Francisco earlier this month, alleging that a malfunction of the plane's auto throttle may have caused the crash.

Ribbeck Law Chartered on Monday filed a petition for discovery, which is meant to preserve evidence, in Cook County Circuit Court in Chicago, where the aircraft manufacturer is headquartered. The firm said in a news release that additional pleadings will be filed against Asiana Airlines and several component parts manufacturers in coming days.

In addition to potential problems with the Boeing 777's auto throttle, some emergency slides reportedly opened inside the plane, injuring passengers and blocking their exit, and some passengers had to be cut out of their seatbelts with a knife, the firm contends.

Three people were killed when the airplane, carrying 307 passengers and crew on a flight from South Korea to San Francisco International Airport on July 6, approached the runway too low and slow. It clipped a seawall at the end of a runway, tearing off the tail and sending the plane spinning down the runway. The impact caused the plane to catch fire.

"We must find the causes of the crash and demand that the problems with the airline and the aircraft are immediately resolved to avoid future tragedies," attorney Monica R. Kelly, head of Ribbeck's aviation department, said in a statement.

Japanese stocks lose steam as yen bounces

SYDNEY (Reuters) – Japanese stocks struggled to extend gains on Monday as an initial rally sparked by Prime Minister Shinzo Abe's big election win over the weekend fizzled with profit taking emerging after the yen bounced off lows.

Most other Asian share markets showed slight advances, although Hong Kong's Hang Seng was a touch lower.

Tokyo's Nikkei was flat, having earlier climbed as much as 1.2 percent. Exporters such as Toyota Motor Corp underperformed as the dollar slid below 100 yen.

Abe's victory in the election for the upper house of parliament, which was widely expected, should make it easier for him to push through painful economic reform, the "Third Arrow" of his "Abenomics" prescription to end deflation. The other two arrows are ultra-easy monetary policy and spending.

"The results of Sunday's election are pretty much fully priced in and we're seeing more sell on the fact type moves," said a trader in Tokyo, adding overall flows were light.

Another dealer said markets were now turning to earnings results due in major financial centers over next few weeks for fresh trading cues.

MSCI's broadest index of Asia-Pacific shares outside Japan advanced 0.4 percent. South Korea's KOSPI rose 0.7 percent and Australia's S&P/ASX 200 index gained 0.6 percent. Hong Kong's Hang Seng index was a little softer.

Abe's win should be negative for the yen, which initially plumbed a week and a half low against the dollar and a two-month trough on the euro.

When will your credit score go up?

ALLEN (Creditscore.com) – So you've had some negative items on your credit reports – maybe you had late payments, or you defaulted on a credit card, mortgage or other kind of debt.

But now you've resolved the problems with your creditors. Or you might have found errors on your credit reports, or discovered fraudulent accounts because of identity theft – and you succeeded in getting the issues straightened out and the items removed from your credit reports. So now you're wondering: Will your credit score go up?

The answer is: Your credit score will probably improve. However, it may not improve as you expect. Here are some examples where you might not see the bump you hope for:

▶Closing negative credit card accounts: Closing credit card accounts will not improve your score. Closing the account also won't remove the record and any associated negative payment history from your credit report. The negative information will continue to show and will continue to be used in the score calculation.

▶When negative records expire: Removing negative information from your credit reports may not immediately increase your score as you expect. There could be additional, heavier weighted negative information remaining that will prevent an immediate increase in your score. For example: If you remove a collection record from seven years ago but have a charge-off from a year ago, the charge-off has more of an impact and is hurting your score more than the collection from seven years ago. You probably won't see a large impact in this case.

It's important to check your credit reports regularly. You can catch mistakes or fraud, or review it for any problems with your debts that you may (or may not) be aware of – and then take action to correct them. You can pull your own credit reports from each of the three major credit reporting agencies once a year using AnnualCreditReport.com, and check your credit score once a month for free using Credit.com's Credit Report Card.

GPS device promises fuel-saving solutions

By Aldwin Fajardo
aldwin@mvguam.com
Variety News Staff

Aldwin Fajardo / Variety

TrackMe! Guam owner Yosi Veksler, left, shows how a GPS device helps control vehicles wirelessly, effectively cutting fuel consumption in the process.

A LOCAL company has just the solution to the rising cost of fuel: a tracking device that allows business and government organizations that own a fleet of vehicles to effectively manage the activities and driving habits of their employees.

There have been five 10-cent pump price adjustments for regular unleaded on Guam this year – three price drops and two price increases. Last week's price hike, the third this year, was the highest at 15 cents a gallon.

TrackMe! Guam provides vehicle management solutions and products that allow fleet managers to efficiently control their vehicles from one central location, effectively cutting fuel consumption in the process, according to company owner Yosi Veksler.

Veksler said fleet managers that use the company's fleet management solutions have succeeded in reducing costs by 12 to 30 percent. It detects vehicle location and idling time, thereby significantly reducing, if not completely eliminating, the number of times engines are left running but not moving.

The Guam Power Authority, which piloted the program through TrackMe! Guam in November, disclosed that it has generated substantial fuel savings. Each of GPA's 272 vehicles is equipped with a GPS device connected to the ignition.

The device – which allows time, distance and velocity monitoring – transmits data wirelessly and provides statistical reports that include fuel tank capacity, refuels and fuel theft, and fuel consumption. It also provides comprehensive reports regarding driver performance and vehicle diagnostics.

"Aside from the obvious benefits of a fleet management system, TrackMe! Guam's fleet management solutions, with real time on-board feedback, actively promote drivers' environmentally friendly driving practices for reduced vehicle wear-and-tear, and reduced fuel consumption," Veksler said.

TrackMe! Guam provides an automatic, fully wireless, radio frequency-based fuel pump control system that records the operators and fuel pump activities while preventing unauthorized use. The company also installs a sensor that monitors refueling, how often the vehicle refuels, and the tank level, with an additional sensor that tells whether fuel has been siphoned out of the tank.

According to Veksler, the device also has the capability to help make Guam thoroughfares safer because it sends signals when the driver is speeding. "We could potentially prevent accidents by making the drivers aware that their driving habits are being monitored," he added.

Started in 2005, he said the company is committed to providing local businesses and public organizations a variety of vehicle management solutions and products that are low cost, state-of-the-art, and effective in monitoring workforce efficiency and productivity.

The Honorable
EDDIE B. CALVO
Governor

The Honorable
RAY TENORIO
Lt. Governor

A.B. WON PAT
INTERNATIONAL AIRPORT AUTHORITY, GUAM

PUBLIC NOTICE

The Board of Directors of the A.B. Won Pat International Airport Authority, Guam (GIAA) will convene its Regular Board meeting on Thursday, July 25, 2013 at 3:00 p.m. in Terminal Conference Room No. 3. In addition to regular matters, pursuant to 5 G.C.A. §8111(c)(2), Executive Session will be held to discuss pending litigation to which GIAA is a party. Parking is available in the Public Parking Lot.

For special accommodations or agenda items, please call the Board Office at 642-4717/18.

Proposed Issuance of Underground Injection Control System
Operating Permits for Guam Power Authority
Public Review and Comment Period: July 25 - August 23, 2013

The Guam Environmental Protection Agency (Guam EPA) runs the Underground Injection Control (UIC) Program, as mandated by the Safe Drinking Water Act, and approved by U.S. E.P.A.

The Agency regulates all applicable activities as set forth in the Guam's UIC Regulations. The UIC Program requires operating permits for all existing injection wells/ systems. This includes wells built prior to the approval of the regulations are still in operation, and wells/system constructed after the effective date of the regulations.

Guam EPA has received renewal applications from Guam Power Authority for injection wells located at Tanguisson Power Plant. Dededo. Tanguisson Power Plant has an oil recovery system which includes an oil water separator that discharges the treated /filtered water into the injection.

On the basis of a preliminary UIC requirement review. the administrator has proposed issuing UIC permits to allow discharge of treated/filtered water into the injection wells.

The discharges contain treated/filtered water from the oil water separator. No industrial discharge or any discharges are allowed in to the wells.

The permit for this application will require:
1. Only treated /filtered water to be discharge into the injection wells
2. Monthly monitoring of oil and grease and annual monitoring of water quality for the following MBAS, Oil and Grease, N03-N, Endrin, Lidane, Toxaphene, 2, 4-D, 2,4, - S-TP Silvex, Heptachlor, Methoxychlor, Lead, Benzene, Ethylbenzene, Xylene, Toluene, MTBE, Boron, COD, and pH:
3. Assurance regarding repairs, replacement, or abandonment of the well in the event of failure.
4. A laboratory analysis report of the water taken from the designated sampling.
5. Compliance with other UIC requirements.

A copy of the Draft Permits and Permit Applications for the above applicant and all other supporting documents are available for public inspection from 8 a.m. until 5 p.m. Monday through Friday at the Water Resources Management Program Section of the Water Division, Guam Environmental Protection Agency, located at 15-6101 Mariner Ave., Tiyan, Barrigada 96913.

For more information, contact Ms. Susan Marquez at (671) 300-4778 or (671) 300-4751.

Written comments on the draft permits may be hand delivered to the address above or mailed to the address below. Comments must be received by Guam EPA no later than 5 p.m., Friday, August 23, 2013. No fax submittals will be accepted.

Administrator
Guam Environmental Protection Agency
P.O. Box 22439 GMF
Barrigada, Guam 96921

If there are no appeals, the Draft Permits becomes final. Operation of the injection well/system, identified by the applicant may proceed subject to the conditions of the permit and other applicable legal requirements.

The final decision to set conditions and issue the final permits or deny application for the permits will be decided after all comments have been considered. If no comments are received within the 30-day waiting period, the final permits shall be issued immediately after the commenting period closes.

Please bring this information to the attention of all persons who may be interested in this matter.

/s/ ERIC M. PALACIOS-Administrator

MINUTES OF THE BOARD OF DIRECTORS REGULAR MEETING
3:00 p.m., Thursday, June 27, 2013
GIAA TERMINAL CONFERENCE ROOM #3

1. CALL TO ORDER AND ATTENDANCE

Chairman Francisco G. Santos called the A.B. Won Pat International Airport Authority, Guam (GIAA) regular meeting to order at 3:07 p.m. The presence of Directors is noted as follows: Jesus Q. Torres, Vice Chairman, Rosalinda A. Tolan; Edward G. Untalan; and Lucy M. Alcorn. Also present were Charles H. Ada II, Executive Manager, Peter Roy Martinez, Deputy Executive Manager, Carlos P. Bordallo, Acting Comptroller, Frank R. Santos, Business and Financial Consultant, Michael A. Pangelinan Esq., and Janalynn C. Damian Esq., Legal Counsel. The Chairman welcomed the presence of Airport Tenants, stakeholders, and members of the public who are noted in a sheet made as an attachment to the minutes.

2. APPROVAL OF AGENDA

Vice Chair Torres made motion to approve the agenda as presented, seconded by Director Tolan; motion carried.

3. APPROVAL OF MINUTES

A. May 30, 2013 Board Regular Meeting
B. June 11, 2013 Board Special Meeting

Before proceeding with the approval of the minutes, the Executive Manager announced that he would like to make a clarification in reference to the minutes. Regarding the unified pay scale, the 20th Percentile on page four (4), he stated that it was approved by the Board for the purposes of analysis, and to develop a performer report to present to the Board, which will be given later on today.

Director Tolan made motion to approve the minutes of the May 30, 2013 Regular Board Meeting and the June 11, 2013 Special Board Meeting subject to correction, seconded by Vice Chair Torres; motion carried.

4. CORRESPONDENCE

The Executive Manager informed the Board there is one item that was received today and apologized for the item not being in the Boards' packets. The correspondence is from Vladivostok Air, announcing that the airline will be operating scheduled Charter flights on direct route from Vladivostok, Russia to Guam from November 2013 to March 2014. Although they are only looking at flights every two (2) weeks, they are hoping with our partnership to have flights year round. Vice Chair Torres inquired on the type of aircraft they would be using. The Executive Manager replied that it will be a 737 aircraft, 142 – 155 passenger count.

5. MATTERS FOR BOARD RATIFICATION/APPROVAL

A. Approval of Award for Custodial Services for TSA Offices and Facilities – IFB No. GIAA-003-FY13

The Executive Manager reported that an Invitation for Bid was published to solicit bids from professional firms to provide custodial services at the TSA offices and facilities, inclusive of all labor, materials, supplies and equipment to the main terminal building. The term of the contract is for a period of three (3) years and may be renewed annually at GIAA's sole option for additional one-year periods, not to exceed the total contract term of five (5) years. Of the thirteen (13) firms that received bid packages, eight (8) submitted bids before the submission deadline. All eight (8) firms were evaluated; with only seven (7) determined to be acceptable. Management recommends that the contract be awarded to JJ Global with the bid amount of $47,400.00. It has been determined that JJ Global has met the standards of responsibility and responsiveness outlined in the Guam Procurement Regulations. Discussion followed relative to bid amounts. At this time Chairman Santos welcomed the presence of Director Alcorn. Director Untalan made motion to approve Management's recommendation, seconded by Director Tolan; motion carried.

B. Approval of Award for Rehabilitate Runway 6L-24R, Phase II – IFB No. GIAA-C01-FY13

The Executive Manager stated that Board action is requested to approve the bid award of the above mentioned project. The project is to provide construction and renovation work to rehabilitate runway 6L-24R (Phase 2) inclusive of all labor, materials, supplies and equipment. Six (6) firms received bid packages, and only two (2) submitted bids before the submission deadline. Management recommends that the Board authorize the contract award of $6,896,871.09 to Nippo USA, Inc. who has been determined to have met the standards of responsibility and responsiveness outlined in the Guam Procurement Regulations. Director Tolan inquired if Nippo USA, Inc. was a new company on Guam and if they have been doing business on Guam. The Executive Manager responded stating the firm has done work previously for the Airport. Vice Chair Torres

made motion to approve Management's recommendation, seconded by Director Untalan; motion carried.

C. Ratification of Disbursements

The Executive Manager presented the summary of Disbursements to the Board. Vice Chair Torres inquired on the payment made to AECOM Technical Services Inc. in the amount of $419,652.00. Business and Financial Consultant, Frank Santos replied, informing the Board that Guam Airport is one of the few designated for a 'Pilot Program', a testing program for a Geographical Information System (GIS) with the purpose of creating an electronic airport layout plan which includes both aerial and ground surveys, the GIS will be stored in the FAA servers. Mr. Santos went on to say that this will save the Airport money in the future with anything that has to do with the airfield because everything is now under GIS format, GPS (Global Positioning System) based. The payment amount of $419,652.00 is for several invoices.

Vice Chair Torres made motion to ratify payments above the $50,000.00 threshold made to vendors for the period of May 29, 2013 – June 21, 2013, seconded by Director Alcorn; motion carried.

6. OLD BUSINESS

A. Executive Manager's Report

The Executive Manager presented brief reports on various issues and announcements relating to Airlines, regulatory and financial issues, including the refinancing of the 2003 Revenue Bonds. The Manager reported that a GIAA team travelled to San Francisco to present an Airport review to Standard & Poor's and Moody's Investors during the week of June 17, 2013 to refinance approximately $125M in bonds, and new money financing structures.

Relating to the Specialty Retail Merchandise Concession, Lotte Duty Free Guam, LLC continues to transition and work toward the July 21, 2013 occupancy and operational date of the new retail concession awarded to Lotte. A job fair was held by Lotte on Friday, June 21, 2013 to hire managerial, supervisory and support staff. Lotte plans to phase in more personnel to an estimated 200 employees for the Airport retail concession and their off Airport location.

The Executive Manager reported on Legislative issues such as Bill 69-32, which would require legislative approval for lease agreements that span more than five (5) years. The Bill passed in the Legislative Session on May 28, 2013. The Manager stated that the new law will affect the way that the Airport does business. Vice Chair Torres inquired if any of the Management staff had met with the Airport's Oversight Chairman, Senator San

Nicolas regarding the new law. The Executive Manager replied, stating that Management had met with Senator San Nicolas, and he acknowledged the concerns. Vice Chair Torres stated this should be something that the Airport revisit, the Airport does not get a dollar from the general fund and he does not remember a time that the Airport had to go to the Legislature to ask that they appropriate for Airport operations. Vice Chair Torres went on to say that the Airport is run like a business, some of the commitments we have just cannot be constricted within the five (5) years. The Vice Chairman suggested that Management meet with Senator San Nicolas and ask that the Airport be exempt from the five (5) years. Vice Chair stated that from his understanding even though the law has been passed, it is possible for a law to be amended. Discussion followed relative to the new law. The Chairman requested that Management schedule a meeting with Senator San Nicolas regarding this issue.

Continuing with Legislative Issues, the Executive Manager reported that Bill 125-32 was passed in the June 4, 2013 Legislative session. The Bill appropriates $500,000 to the Department of Public Works to fund the acquisition property for the Tiyan Parkway Project. The Manager informed the Board that Management has been in discussion with the FAA to come up with creative ways to augment this effort to resolve the Tiyan Parkway issue and have a couple of proposals, which will be packaged and presented to the Board at the next Board meeting. Discussion followed with the Executive Manager informing the Board that the FAA was very assistive with the matter for the Government of Guam to resolve this particular long standing issue we have. The Manager stated that with the conversation he had with the FAA, he believes he will be the last Executive Manager of the Airport that will have to deal with the issue, for the people of Guam, all stakeholders, and entire Government, he is confident it is close to being resolved.

On another Legislative issue, the Executive Manager informed the Board of an oversight hearing today of Bill 137-32, which provides low cost space to the Guam Customs and Quarantine Agency at the Guam International Airport Authority in a manner consistent with Federal law. By the introduction of the Bill, USCBP not only Guam but throughout the country does not pay rent to any airport operator. The Vice Speaker Benjamin J. Cruz had introduced this legislation. Vice Chairman Torres reiterated for confirmation, the Guam Customs and Quarantine be a non-paying tenant at here at the Airport. The Executive Manager responded, stating correct. He then went on to inform Chairman Santos that the hearing was today, the Airport provided written testimony and that it is their intention to be making office calls to senators in reference to this matter, hopefully before it leaves committee. The Chairman requested that there be a scheduled meeting with the Oversight Chairman to explain and provide more knowledge regarding the Airport. Vice Chair Torres inquired on how much is the Guam Customs and Quarantine earning, how much was approved for the inspections that they conduct downstairs. The Executive Manager replied based on the current Customs charge, it is approximately 10M annually. Vice Chair Torres stated, we have a Government agency coming in and siphoning off revenue from the Airport when our enabling legislation mandates that we

have to be self-sustaining financially and otherwise. Vice Chair Torres stated that we're all obligated here as Board members to insure that we maintain the financial integrity number one, so that we can run a first class facility.

The Executive Manager announced that the Pohnpei Ports Authority has committed to join GIAA as a partner in hosting the ACI Asia Pacific Small & Emerging Airports Conference to be held in October 2013.

Before closing the report the Manager informed the Board that the Airport completed Phase I of 4 Phases in part of the 'Modernization of Electronics' here in the Airport and invited the Board members to take a look at the completions.

B. Financial Report

For the Board's information, Carlos P. Bordallo, Acting Comptroller presented the financial report as of May 31, 2013, stating that the Net Debt Service Coverage is at 1.84. Vice Chair Torres stated that the report was the best he heard so far. The Acting Comptroller also added that the power costs have been declining.

Before proceeding to Legal Counsel's report, Director Untalan presented a brief report relative to the adjustment in salaries up to the 20th percentile approved at the last Board meeting. The Director presented a forecast that confirmed that the Airport would be able to absorb the $830,000 for the salary increases and still have a good cash position at the end of the year. Discussion followed on the effective date of the salary adjustments, with the Acting Comptroller adding that the effective date would be from October 1st, 2012. Vice Chair Torres expressed the importance in giving back to the employees.

C. Legal Counsel's Report

Legal Counsel recommended that discussions regarding litigation matters be reported during Executive Session. The Board had no objection.

D. Status of Capital Improvement Programs

Business and Financial Consultant, Frank Santos presented a brief report for the Board's information stating that by the regular Board meeting in July that the FAA will be providing the Airport with grants for four (4) projects. One 2M dollar grant to repay the Airport for money previously spent, which adds to our cash position, strictly a reimbursement. He went on to add that the Airport will be getting one new ARFF truck. Vice Chair Torres inquired if the old truck will be given to Rota. Frank Santos replied, no that the intention is to keep the trucks so they can be rotated, eventually they will be given to somebody. Mr. Santos reported that the last grant that the Airport will receive

for FY13 will be an additional $800,000 for the Airport Geographical Information System mentioned earlier in the meeting.

7. NEW BUSINESS

No New Business presented.

The Executive Manager informed the Board that he had items to report to the Board under Tenant Matters the first being that the Airport sent a letter of intent to the Guam Army National Guard for a Hanger Project. The Manager stated that the Guam Army National Guard received funding for a proposed project to provide helicopter capabilities within the Guard Unit to service our area, and the background is that they requested for approximately two (2) acres of land located on Airport property specifically the south side of the AOA for the purpose of constructing a helicopter hanger facility. The purposes would be for Medivac helicopters and to maintain emergency units for our island. We actually found a template for other National Guard Units that operate within local airports and used the same format. After comprehensive discussions between the two organizations, the Guam Army National Guard will pay the Airport approximately $5,242.04 per month for the use of the facilities including the runways, taxi's, light systems, navigational waves and other areas open to the public and used by the National Guard as well. The Manager informed the Board that the reason why we had to move quickly prior to the Board meeting is that there is a deadline to the Guam Army National Guard Bureau to access additional funds to extend the lease out to 45 years and expand their footprint. The Manager stated that we wanted to insure we did our part to insure that Guam receives more funding and support, to respond to not only to our Guards needs but our islands needs. Chairman Santos inquired on the lease term and if it would need to go to the Legislature. The Executive Manager replied informing the Board it is for a 20 year term and yes it would need to go to the Legislature as the law is enacted already. The Manager stated it would be a huge asset to the island.

The second item the Manager announced to the Board was correspondence from one of the Airports tenants. Pac Air walked a letter late Friday requesting for the approval of a new lease agreement. The Executive Manager reported that they are looking at bringing on the U.S. Citizenship and Immigration Services, leasing about 17,000 square feet of space at the Pac Air Cargo facility, bringing them to 80% of warehouse space that's dedicated to cargo, again, aeronautical. This is a similar to the concern that the former Chairman, Mr. Michael Ysrael had which elevated all the way to the Hawaii Area District Office and returned without merit. I just want to insure our tenant that it will be bought to the Board. They are going to be expanding their capacities to pay us next summer. As you know, the initial agreement with Pac Air was the deferred payment, which comes into effect July 2014. The Manager added that he is in full support of new lease agreement, and wanted to bring it to the Board. If there are concerns from constituents

within the community about the Airport engaging in non-aeronautical activity, that discussion will be made if it needs to be had with the appropriate stakeholders. The Executive Manager stated that it is the intent of Management right now to aggressively seek aeronautical and non-aeronautical revenue for the Airport, the more we can provide revenue to this Airport the better off we are to engage partners, more importantly signatory airlines, to reduce rates and possibly lower airfares, not just for the traveling tourists in the region but our people as well. Discussion followed relative to the changes of Airports over time and what Airports are emerging to be. Chairman Santos requested that Management keep the Oversight Chairman, Senator San Nicolas up to date with what is going on with Airport.

8. EXECUTIVE SESSION

The Chairman announced that the Board will recess and convene Executive Session after the recess. Vice Chair Torres made motion to recess and convene Executive Session after the recess, seconded by Director Alcorn; motion carried. The Board recessed at 4:09 p.m.

Chairman Santos called the Executive Session to order at 4:18 p.m. Executive Session adjourned at 5:13p.m., at which time the regular meeting reconvened.

Based on discussions during Executive Session, Director Untalan announced that he would like to make a motion authorizing Management to proceed as directed by the Board in Executive Session regarding Freedom Air, seconded by Vice Chair Torres; motion duly carried.

9. PUBLIC COMMENTS

The Chairman called upon any public member wishing to make comments. There was no response.

Vice Chair Torres announced that he would like to share some concerns with the Board regarding two (2) key Management positions. Both Comptroller and Chief Engineer positions have been vacant for a number of years. He stated that right now is an indication that we are prepping for the new fiscal year. Historically they are key positions and the right approach is to appropriately fill those positions.
The Executive Manager informed the Board that he did speak with Mr. Victor Cruz in reference to the Chief Engineer position, which he currently oversees the responsibility. The Manager stated that out of courtesy to Mr. Cruz, who is a long time employee and very well liked, he had given him up to December 2013 to obtain the credentials needed to qualify for the position of Chief Engineer. If he was unable to, the position would be filled. He was informed there are ways to gain the credentials, and asked the Board to allow Mr. Cruz that time to gain them. The Chairman agreed with the Executive

Manager and requested that Mr. Cruz be given a chance and opportunity to gain the requirements. The Executive Manager added however, Mr. Cruz would have to compete for the position. Vice Chair Torres responded, of course, that's the 'Merit System', the problem is that the Chief Engineer position is a classified position with the Government of Guam, and answers to the Executive Manager, whereas the Comptroller position is unclassified and answers to the Board. Airport Services Manager, Ms. Jean Arriola added that the Chief Engineer requires a PE, and the Comptroller requires a CPA. Discussion followed relative to the requirements of the position of Comptroller. Vice Chair Torres expressed the need to fill both key positions. Director Tolan made motion to allow Legal Counsel to obtain clarification whether Carlos Bordallo may be appointed to the Comptroller position by the Board without requiring a CPA, seconded by Director Untalan; motion carried.

10. ADJOURNMENT

Mr. Frank Santos announced for the Board's information that the first Executive Manager of the Airport had passed away in Hawaii yesterday. The body will be brought back to Guam over the weekend and rosaries will begin.

There being no further discussion, the Chairman announced that the next regular meeting is scheduled for Thursday, July 25, 2013. Director Alcorn made a motion to adjourn the meeting, seconded by Director Untalan; motion carried. The meeting adjourned at 5:10 p.m.

Respectfully submitted,

Amanda O'Brien-Rios
Board Secretary

INTERNATIONAL AIRPORT AUTHORITY, GUAM

Executive Manager's Report
GIAA Board of Directors Meeting
July 25, 2013

AIRLINE ISSUES

StarFlyer officials met with GIAA officials on July 11, 2013 to finalize their plans for direct service to Guam from Kitakyushu, Japan. Kitakyushu is approximately 1 ½ hours from Fukuoka, with a catchment area of 2 million. The inaugural flight will arrive August 2, 2013 at 12:30am and will be greeted as VIPs. 13 charters will be operated in August, operating an A320 with 150 seat capacity. StarFlyer is a hybrid model operation, not an LCC, offering in-flight passenger services at a lower cost.

China Airlines has added an extra section to its TPE/GUM/TPE operation in the first week of August. 11 charters from Narita, and 5 charters from Kansai will be operated in August, in addition to their twice operations. All charters will utilize an A330 aircraft with 307-passenger capacity.

Delta Airlines is adding 60 extra sections, or one flight daily between Kansai and Guam between July 27 and September 23, 2013.

United Airlines announced 78 extra sections between Narita and Guam daily, beginning July 14 through September 29, 2013. They also celebrated the 15th anniversary of direct service between Guam and Cairns, Australia, launched in 1998. The route is serviced twice weekly by B737, and offers a vital link between Cairns and Japan, Hawaii and beyond.

Korean Airlines has also planned 50 extra sections, daily, serving Narita/Guam from July 26 through September 2013.

Vladivostok Air announced plans to operate direct, scheduled charter flights from 2 locations in Russia's far east, which are Vladivostok, and Khabarovsk. The flights will operate from November through March 2014, on a bi-weekly basis, serviced by a Tupolov aircraft and an A320, both with a seat capacity of 150 passengers.

LEGISLATIVE ISSUES

For the past 3 weeks, airport management has been meeting with legislators to discuss legislation relative to airport operations. Among them are:

Bill No. 129-32 introduced on May 31, 2013, which would authorize the A.B. Won Pat Guam International Airport Authority to issue Revenue Bonds for the purpose of refunding the General Revenue Bonds, 2003 Series A, B, C and D, refinance the Energy Efficiency Loan, and finance new projects. Schedule for the public hearing is pending.

Bill No. 137-32 introduced on June 5, 2013 would provide space to the Guam Customs and Quarantine Agency at no cost in a manner consistent with federal law. A Public Hearing was held 06/27/13 at 10am, with the Airport submitting written testimony opposing the bill.

Executive Manager's Report
GIAA Board of Directors Meeting
July 25, 2013

FINANCIAL ISSUES

Refinance of 2003 Bonds and New Revenue Bonds Sales. A team comprised of GEDA, GIAA, bond counsel, bond underwriters and other consultants will be working towards the engagement of rating agencies in the first week of August. The price and sales of bonds is anticipated to be scheduled in late August. Bond refinance and sales would equate to significant money for capital improvement projects as well as possible savings in debt service.

Lotte Duty Free launched operations on July 21, 2013 at 12:01am. GIAA staff has worked diligently and cooperatively with both Lotte and DFS on their logistics and transition plans. More activity is anticipated as Lotte enhances its retail space and works on augmenting areas such as the restroom, food courts, smoking areas and play area.

PROCUREMENT

IFB Demolition and Remediation of Various Airport Facilities Phase I

Announced:	June 19, 2013
Pre Bid:	Tuesday, July 2, 2013 10am
Closing:	Friday, August 2, 2013, 2pm

ANNOUNCEMENTS

- The Airport Authority was successful in attaining a "THREE-PEAT", taking home the award of 1st place float winner for GovGuam agencies in the 69th Liberation Day Parade held this past Sunday. The GIAA employees and volunteers who worked on the float are given kudos for a great job in bringing home the prize in 2011, 2012, and 2013 – three consecutive years in a row. Biba GIAA!

MEMORANDUM

To: Mr. Francisco G. Santos
Chairman
GIAA Board of Directors

From: Carlos Bordallo
Acting Comptroller

Subject: **Operating Results - Revenues and Expenses as of June 30, 2013**

Attached herewith is GIAA's Operating Results Report for the month ending June 30, 2013. This report summarizes the Budgeted versus Actual Revenues and Expenses for the month and year-to-date results ended June 30, 2013.

The key operating results for 9 month(s) of FY 2013 ending June 30, 2013 - (in $000's) are:

CATEGORY	YEAR-TO-DATE				FORECAST FOR FULL YEAR-FY13	
	Budget FY 13 Y-T-D	Actual FY 13 Y-T-D	% Variance Budget vs. Actual		Actual Y-T-D + Remaining FY 13 Budget	% Variance Budget vs. Estimate for Full Year
			Y-T-D Current Month	Y-T-D Last Month		
Total Signatory Revenues	$20,309.6	$21,653.9	6.6%	8.1%	$28,666.5	4.9%
Total Concession Revenues	$7,935.2	$7,731.2	-2.6%	-1.9%	$10,653.7	-1.9 %
Total PFC's	$4,414.3	$4,827.1	9.4%	10.0%	$6,388.2	6.9%
Total Other Revenues	$11,191.5	$11,579.3	3.5%	1.3%	$15,532.6	2.6%
Total Operating Revenues	$43,850.6	$45,791.5	4.4%	4.6%	$61,240.9	3.3%
Total Operating Expenses	$31,628.8	$26,095.0	-17.5%	-19.2%	$34,908.6	-13.7%
Net Revenues from Operations	$12,221.8	$19,696.5	61.2%	66.5%	$26,332.4	39.6%
Non-Operating Expenses	$500.0	$195.4	-60.9%	-54.8%	$195.4	-60.9%
Other Available Moneys/other sources of funds	$3,587.5	$3,682.2	2.6 %	3.2 %	$4,878.0	2.0%
Net Debt Service Coverage	**1.24**	**1.85**	**49.5%**	**51.8%**	**1.85**	**32.9%**

AMERICAN ASSOCIATION OF AIRPORT EXECUTIVES
AIRPORTS COUNCIL INTERNATIONAL
NASAO National Association of State Aviation Officials
TIACA THE INTERNATIONAL AIR CARGO ASSOCIATION

Year-to-date Total Signatory Revenues for the month ending June 30, 2013 are above Budgeted revenues by **6.6%.** Signatory revenue estimates are based on projections submitted by Signatory airlines and adopted in the annual budget.

Year-to-date Total Concession Revenues are below budget estimate by **-2.6%** and Passenger Facility Charges are above budget estimates by **9.4%.**

Year-to date Total Other Revenues, inclusive of non-signatory and non-airline revenues, are above the budget estimate by **3.5%.**

Year-to-date Total Operating Revenues Actual of **$45.8M** is **4.4%** above the budget estimate of **$43.8M.**

Year-to-date Total Operating Expenses are below budget by **-17.5%.** Components of this line item include a **-12.7%** decrease in Personnel Service, a **-19.2%** decrease in Contractual Services, a **-35.8%** decrease in Materials & Supplies and a **-100%** decrease in Equipment/Furnishings from budgeted amounts for these respective categories.

The actual year-to-date Net Revenues from Operations of **$19.7M** reflects an increase of **61.2%** over the year-to-date budgeted amount of **$12.2M.**

Finally, our year-to-date results for Debt Service Coverage is at **1.85** versus the requirement of **1.25.**

MINUTES OF THE BOARD OF DIRECTORS SPECIAL MEETING
3:00 p.m., Friday, August 9, 2013
GIAA TERMINAL CONFERENCE ROOM #3

1. CALL TO ORDER AND ATTENDANCE

Chairman Francisco G. Santos called the A.B. Won Pat International Airport Authority, Guam (GIAA) special meeting to order at 3:04 p.m. The presence of Directors is noted as follows: Martin J. Gerber; Lucy M. Alcorn; Rosalinda A. Tolan; Edward G. Untalan, and Pedro P. Ada III. Also present were Charles H. Ada II, Executive Manager, Peter Roy Martinez, Deputy Executive Manager, Carlos P. Bordallo, Acting Comptroller, Frank R. Santos, Business and Financial Consultant, Michael A. Pangelinan Esq., and Janalynn C. Damian Esq., Legal Counsel. The Chairman welcomed the presence of Airport Tenants, stakeholders, and members of the public who are noted in a sheet made as an attachment to the minutes.

2. APPROVAL OF AGENDA

Director Tolan made motion to approve the agenda as presented, seconded by Director Ada; motion carried.

3. MATTERS FOR BOARD RATIFICATION/APPROVAL

A. Approval of FAA Grant Agreement to Extend Runway 06L/24R – Phase XI

The Executive Manager announced the above mentioned project has actually been completed, and this item would be a reimbursement to the Guam International Airport, of a little over two (2) million dollars. The Manager informed the Board for their information that all FAA grants are reimbursement grants and reiterated that the project was completed. Director Ada inquired if the project was on time and on budget. Mr. Frank Santos, Business and Financial Consultant replied yes, on time, this project was completed two (2) years ago, now on budget. Director Ada made motion to approve the FAA Grant Agreement, seconded by Director Alcorn; motion carried.

Director Ada inquired if the Airport would suffer any penalties being that it was completed two (2) years ago. Mr. Frank Santos responded this was a negotiated Agreement with the FAA as to when they would have monies available; a year ago they actually reimbursed the Airport another two (2) million dollars, so this would be the final wave of reimbursements.

B. Aproval of Award for Demolition and Remediation of Various Airport Facilities, Phase I - IFB No. GIAA-C02-FY13

The Executive Manager announced that Board action is requested to approve the bid award for the above mentioned project. The project is to provide construction work inclusive of all labor, materials, supplies and equipment to demolish buildings in Tiyan. The project also includes remediation of lead and asbestos materials prior to the demolition work, with the scope of the work comprised mainly of demolition and remediation work. Twenty-five (25) firms/individuals purchased bid packages with ten (10) firms submitting bid proposals before the submission deadline. After all firms were evaluated, only nine (9) were determined to be acceptable. The Manager added that the government estimate for the project is $1,684,456.00. The lowest responsive, responsible bidder is Ian Corporation with a bid amount of $1,062,268.57 which represents 37% less than the government estimate. Management is therefore requesting Board approval of its recommendation to award Ian Corporation in the amount of $1,062,268.57 for the project. The Manager also added that this project is in line with efforts for the Tiyan Parkway. Director Untalan inquired on the background of Ian Corporation, and if they are familiar with the scope of work, including hazard remediation. Director Tolan also asked if they have done work for the Airport. Mr. Frank Santos answered yes, they have done small jobs, he also answered Director Untalan's question stating that they have the licenses to do so. Director Untalan stated that he was concerned as it is a large amount of money on the table, and queried with such a low bid, if they might have problems completing the project. The Chairman inquired if Ian Corporation has met all the requirements. The Executive Manager replied yes, it was outlined not only in the Invitation to Bid but also as Mr. Frank Santos mentioned with Gov Guam Procurement Regulations. Director Tolan also asked if they had posted a bond. Mr. Santos replied when the bids have a large variance from the estimates they are usually requested to confirm their bid; he stated the last thing anyone wants is for a bidder to start losing money, that has been done, and they have confirmed their bid. So, before Notice To Proceed (NTP), GIAA usually has the bond in the contract, then that will be approved by the FAA. Director Untalan asked, so you cannot put minimum requirements. Mr. Santos replied, well you put the licenses that are required. Director Untalan stated anyone can get a license. Chairman Santos inquired with Mr. Santos if OSHA and Guam EPA will monitor this project, any citations they will be responsible. Mr. Santos stated Guam EPA will be observing them in terms of the environmental mitigation, and what they utilize as safety gear, and secondly where they are going to be disposing of the materials. In some cases the materials are containerized into fifty-five (55) gallon drums and shipped off island. Director Untalan asked if they can control that cost. Mr. Santos replied that this particular Phase I work includes the GPD building. Director Untalan asked confirming if that needs to be demolished, and when is that scheduled. Mr. Santos stated yes, as soon as GIAA clears the award or contract hurdles, issues the NTP, the contract will get a schedule of when the work will be done. Chairman Santos called for a motion regarding item B. Director Tolan made motion to

approve Managements recommendation to award the project to Ian Corporation in the amount of $1,062,268.57, seconded by Director Ada; motion carried.

C. Approval of Award for GIAA TSA Expansion CCO and Offices/Conference Rooms – IFB No. GIAA-C04-FY13

An Invitation For Bid was announced to solicit bids from professional firms to provide construction and renovation work inclusive of all labor, materials, supplies, and equipment to TSA expansion CCO and offices/conference rooms. Of the nine (9) firms/individuals that purchased bid packages, five(5) submitted bid proposals before the submission deadline. The Executive Manager added that the government estimate for the project is $274,424.00. The lowest responsive, responsible bidder is BME & Sons Inc. with a bid amount of $252,482.00 which represents 8% less than the government estimate. Management recommends that the contract be awarded to BME Sons Inc. in the amount of $252,482.00 who has been determined to have met the standards of responsibility and responsiveness outlined in Guam Procurement Regulations. Director Ada inquired on the government estimate, on this and all projects, if it is in-house. Ms. Jean Arriola responded no. Director Ada inquired with Management stating, with this item and the last and maybe others, do you get nervous when the amount is below the government estimate, and asked if Management was just sticking with the Procurement Regulations. The Executive Manager responded yes, that with the all the speculation with the military buildup, a lot of projects that Management has seen since have been a lot lower, it is obviously the assumption that a lot of folks were positioning themselves for the bigger fish, now everyone is just trying to put food on the table and it has become very competitive. Director Ada apologized to the Chairman, and asked Management if there was something that the Board can do to look at value versus lowest bid. Director Tolan added that some of the companies listed have done business with the Airport, so that is the position of Mr. Santos and Management that they are confident that these companies can produce. Mr. Santos added that the estimate for this project was $274,424.00. Director Tolan added that it is not that much difference. Director Ada referred to his business, they do buildings, they don't look at the lowest, he has been taught that cheapest is not always the best you end up going back and paying more at the end of the day. He stated that he understands that Management is restricted somewhat, and was curious if there was a policy or procedure that the Board could implement to get around that, to see that there is more value structured into the bids versus low bid. The Executive Manager stated that he agreed and that he appreciated the comment, but again the procurement delegation comes from TSA which GIAA strictly has to follow, the procurement rules and regulations. Legal Counsel, Janalynn Damian added that they have to be a responsible bidder, so the bid packages include project listing, maybe even some financial documents showing they are financially capable performing, so that they meet the responsibility component to be the lowest responsible bidder, once they meet that than you have to go with the lowest bidder. The Executive Manager expressed his opinion stating that because the

delegation comes from TSA, the Chief Procurement Officer, he thinks that the Board could just make the process a little more stringent opposed to more flexible, as far as the Airports procurement process goes. Director Ada asked that if Management has any suggestions on how the Board can help to make the procurement process easier to please let the Board know. Director Untalan made motion to approve Managements recommendation, seconded by Director Tolan; motion carried.

D. 2013 Bond Authorization

The Executive Manager announced that the next item requiring Board ratification or approval is the 2013 Bond Authorization. Earlier this year GIAA worked with numerous Senators from the 32nd Legislature for the draft Bond Legislation. Back in May of this year Senator Tina Rose Muna Barnes introduced Bill for a bond legislation, a month later we submitted a letter of concern to Senator Muna Barnes office about the public hearing date for the bond legislation and followed up with office calls to close to 80% of Senatorial offices of the 32nd Legislature. Items discussed were the Bill contents of two (2) other items that we would like to see have floor amendments, one of them was the exemption of PL32-052, which basically limits the Airport from entering into leases longer than five (5) years. Another provision discussed, was a law that prohibits the Airport from entering into loans more than ten (10) years. We were advised by every single Senator that we met to ask the Governor to intervene and to call for a special session, which we did. Last week on Wednesday the Governor called a session, we engaged that process along with GEDA and were successful getting the Bond Legislation passed, short of the two (2) that were just mentioned.
As you may be aware, this past week we have had meetings with Moody's rating agency and than a teleconference with Standard & Poor's. It was great that we were able to provide them a report out that we were successful in getting the Bond Legislation passed. Obviously, this is a good sign to the community where the Government of Guam is committed for the Airport to go to the Bond Market.
The Manager informed the Board that the documents provided is a draft Resolution from the Board followed by a draft Indenture. He went on to state that the Authority is scheduled to depart on August 19, 2013 to engage a four city, four day Investment Road Show, followed by the pricing in New York. By September 12, 2013 GIAA should have 110 million dollars loaded into its bank accounts for the nineteen (19) projects that were listed in the Bond Bill, which are the same projects identified in GIAA's Master Plan.
Director Ada inquired on the definition of Road Show. The Executive Manager replied stating the party will be going to four (4) cities, San Francisco, Chicago, Boston and New York. By next week an electronic presentation should be developed outlining in detail our financial conditions here at the Airport and what our intentions are to do with the money. Director Untalan informed the Board and Management that he was curious as to why GIAA is doing a special Road Show, with the age of technology today, everything can be done via video; stating that he remembered his days at GEDA, they would have one (1) investor pre-pricing conference and all the investors called in. The Executive

Manager informed the Board that the Road Show will not be fun or easy on the body either, and reiterated that by next week the electronic presentation will be developed and posted on GIAA's website. Director Untalan stated well we have an electronic presentation, yet you have to go visit four cities, if investors are interested in the bonds, and that he thought Guam Bonds were very attractive, he did not see the need to go on a four city Road Show. The Director went on to add that in the late 1990's, early 2000's there were no Road Shows, there were investor conference calls, and that he did not understand the reason, and asked that he inquire what was the reason for the Road Show. Mr. Frank Santos responded informing the Board that the two (2) major reasons for the marketing of the GIAA Bonds is because the bulk of GIAA's Bonds are antique, subject to alternative minimum tax and are not as marketable as the live DMT Bonds, which is most of Guam Bonds. The issues with the rating agencies they're saying, is that these investors are also performing their own internal rating, thus the purpose for the marketing of the bonds on a face to face basis or as a group in each city, that's what is being told to us. We could do away with the Road Show but as of earlier this week the invitations were sent out. Director Untalan stated that he still was not convinced that a Road Show was necessary in this age of technology, and stated it is too late now with the invitations sent out. Director Tolan inquired on who is attending the Road Show. The Executive Manager informed the Board that attending would be himself, Carlos Bordallo, the Acting Comptroller, Frank Santos, Business and Financial Consultant, Ms. Jean Arriola, Airport Services Manager and Director Martin Gerber, along with Senator Tina Rose Muna Barnes who introduced the Bill. Director Untalan inquired if the Senator would attend the full ten (10) days. The Manager stated no, just the pricing in New York. Director Untalan inquired on what other parties will attend. The Executive Manager informed the Board Lestor Carlson, Henry Taitano, and possibly a third person from GEDA. Director Untalan questioned the amount of people attending, he stated that he understood the Airport representatives as this is the Airport's show, but did not understand the amount of people from GEDA as their speaking part is minimal. The Executive Manager added that the Airport is not paying for GEDA's TA's. Director Untalan stated that eventually it was going to come out of the Airport's pocket and went on to say that it needed to be controlled, this is not an open invitation for everybody to travel, and that it would come out of Airport's pocket one way or another. He stated that the two (2) representatives from GEDA were fine, but he did not think that a third party was necessary. The Executive Manager informed the Board that he was not sure, he might be wrong, but that is what he was informed, that there was going to be a third person from GEDA.

Chairman Santos asked the Executive Manager if an invitation was extended to the Oversight Chairman, Senator Michael San Nicolas to attend. The Manager replied yes, but the Senator was concerned in regard to FY14 Budget that the Legislature is engaged in at present, however the Senator did ask if he could send a staff representative. The Manager informed the Board that his response to the Oversight Chairman was that it would be best and more feasible for the Board to approve if it were him who was attending and not a staff representative, and informed the Senator that he would

present it to the Board for consideration. Director Untalan inquired if GEDA had informed the Airport of their fees. Mr. Frank Santos responded no, and went on to inform the Board stating that the issuance fees allocated the last time in 2003 was approximately $600,000.00, and the total Bond issued was 240 million. The Chairman encouraged the Executive Manager, and stated just make sure you bring the bid back to Guam. The Executive Manager stated that was the game plan and that it is an exciting time for the Airport.
Director Ada added relative to Director Untalan's point, if a Senator cannot attend, no staff should be sent as a substitute, not on the Airports dime and cautioned Management on their spending; stating I don't think the Airport should be subject to criticism, this is big business, keep it contained. Director Untalan added that he thought it was prudent that the Airport look at the expenses very carefully and try to minimize it, especially being that it is a ten (10) day trip. Director Ada inquired if anyone from the Governor's Office was attending. The Executive Manager replied no. Director Alcorn inquired for confirmation if it was just Airport and GEDA attending; Executive Manager replied yes. Chairman Santos called for a motion on Item D. Director Ada made motion to approve the Draft Resolution and the Draft Indenture presented, seconded by Director Alcorn; motion carried.

The Executive Manager announced that before moving to the next subject item he would like to point out in reference to one of the amendments he had mentioned earlier, one of the items in the Bill 32-62. Legal Counsel, Michael Pangelinan announced that if this is a different item that is not on the special meeting agenda, it is prohibited to discuss. The Executive Manager stated technically it does relate to the Bonds. Mr. Michael Pangelinan stated that Item D was 2013 Bond Authorization. The Executive Manager stated that it was an item in the Bond Legislation that was removed that he wanted to discuss. Mr. Pangelinan stated that if it does not pertain to the Bonds he suggested not discussing. The Manager informed the Board that it would be put on the agenda for the next meeting.

E. Approval of FY2014 O&M Budget

The Executive Manager announced that Carlos Bordallo, the Acting Comptroller unfortunately had to step away due to an emergency, and that Mr. Frank Santos would present the FY2014 O&M Budget. The Manager informed the Board that the Airport's airline partners were very happy, and that the Airport only received minimal comments before airlines seeing the cost in enplanement cost reduced. Director Untalan announced that he spent time with the Acting Comptroller and Mr. Santos going over the Budget, and to expedite the budget review he suggested the three exhibits to focus on are the Revenues, which is Tab 6, Exhibit E; the Operating Budget, which is the expenses, Tab 11; and more importantly, the Airlines, Tab 7, which is a calculation of rates and fees which shows particularly for GIAA's Signatory Airline partners the reduction in the enplanement passenger cost which is something significant.

Mr. Frank Santos presented the O&M Budget, relative to Revenue he informed the Board that with the rates and charges as well as the enplaned passenger, Signatory Airline cost for passengers is now at $15.61 as compared to the current year FY2013 of $17.20. Relative to concession revenues he informed the Board they will notice a major increase on the duty free side as GIAA has incorporated the minimum annual guarantee from Lotte. He went on to add that the important thing to note is that those revenues were between the Airlines, and Duty Free was all of the other non-aeronautical concessions, it actually reduced the percentage of revenues on non-aeronautical to 51%, now Airline revenues are at 37%, stating it is a great feather in the Airports cap. The Airport is not fully depending on the Airlines for revenue; so those are the highlights on the revenue side. Director Ada inquired if that is the basic formula for airports throughout the nation, that the more non-aeronautical revenue you get, then there's a decrease in what you would charge a Signatory Airline. Mr. Santos replied yes, stating if the Airport incurs a 10 million dollar hit on some other revenue source, the Airlines under the agreement would have to make up for that, they would therefore increase their rate, that is the purpose of the Signatory Airline Agreement; they are essentially guarantors of the Airports financial bottom line. Also, if the Airport does benefit from other sources, then of course on a protected basis airline rates would go down. Director Ada asked if that would translate into lower ticket fares. Mr. Santos replied no. Director Ada inquired on the enplanement number, and if it was a negotiated number. Mr. Santos replied that it is part of the agreement, as appropriation, the Airlines provide us their forecast, if they don't meet the forecast we have the flexibility to charge them. Application of Revenues, Debt Service would increase from 17.3 million to 24 million and that is to account for the new monies in our Bond issuance. The bulk of the debt service will expire in 2023, that's the refunding Bonds so there's only a ten (10) year life remaining in the refunding Bonds, so the 2023 the debt service would be reduced to half. Then the new monies will continue for another 20 years after that. What it shows in terms of the forecast for FY14, if you look at capital improvement fund it shows 1.6 million dollars in the Capital Improvement Subaccount and the Other Available Subaccount is 1.6 million dollars also, what that represents is that 50% of profits goes to GIAA's Capital Improvements fund to any projects we deem worthy and secondly 15% could act as a credit to the airlines; Although GIAA has not exercised that for the last three (3) fiscal years.

Our usual airline agreements are normally for just five (5) years, so there is three (3) years left, we will renegotiate all terms and conditions, and they have provisions there that they could actually stop us from implementing any project 10 million dollars and over. Likewise, there are also provisions if they object projects that are below 10 million they can only do that for one year, the following year the Airport can proceed. TI's what we call a Negative MAI (Majority and Interest), if they are going to disapprove, they actually have to send us a letter disapproving it, and it has to represent 60% of the total airline revenue. So when we knew the Bond Schedule, that is why we are requesting approval of the FY14 Budget at a Special meeting because we will be unable to meet

later in the month, and we need to provide the airlines a 30 day notice of changes in the airport tariff schedule. When we sent the airlines the revised Budget Friday last week giving them another opportunity to submit comments, they were fine. The evolution of the Budget when they first received our draft was at $16.00 per passenger, even at that time they did not object, so after tweaking the numbers and reducing that contribution, it is now at $15.61. Because we are a resort destination, the margin or the yield for the carriers, this helps in their yield. Director Ada asked does Guam compare with other resort destinations in the area. Mr. Santos replied with the larger airports we're lower. But the rating agencies actually compare us to U.S. airports; we are high, higher than the norm. But because we are multi international, international passengers require more facilities, more services, which means higher the cost per passenger. A lot of the mainland airports, most of them are domestic; they don't need to go through those facilities, and that's why in terms of international arrivals Guam ranked 8 out of the total U.S. airports, top 10.
Therefore the total Budget requested under FY14 is $40,270,473.00 and that doesn't include debt service that's just operations. Director Untalan inquired on the amount for debt service. Ms. Santos replied that is 1.40, the minimum coverage is 1.25. The current year's Budget is 1.29, but because of the increase in traffic also for this year it's at 1.68. Director Untalan stated the amount of cash on hand typically being 90 days if something were to happen to keep the Airport afloat, but after reviewing the Budget, the Airport has over 200 days of cash on hand, with there being over 20 million in available cash. Director Ada asked if that is required reserve that the Airport has to have on hand. Director Untalan replied no, but from a rating stand point, they want to see over 200 days of cash available. So we do have that cash available, just in different categories. Mr. Santos listed the categories; the bottom line is all those monies are available in the unlikely event the Airport needs it. Discussion followed relative to the management of the available funds. Director Untalan mad e motion to approve the FY2014 O&M Budget presented, seconded by Director Tolan; motion carried.

Director Ada thanked Management for preparing the FY2014 O&M Budget.

F. Personnel Matters/Appointment of Comptroller

The Executive Manager announced that the above mentioned item stemmed from a motion that was made two (2) meetings ago. There were some concerns with regard to the requirements or qualifications listed in the position for the Comptroller, and informed the Board that a packet was sent out to the Board listing the salaries for the Comptrollers throughout the Government of Guam. The Chairman announced to Management that he would like to make a recommendation for Management to look into salaries at other departments, as the listing only showed the salaries of Comptrollers for two (2) agencies. The Chairman stated that there are two (2) types of Comptroller's, a Comptroller and Fiscal Comptroller. The Executive Manager informed the Chairman yes, that he would reach out to all other autonomous agencies to see

what the pay ranges are and provide that information to the Board. Director Tolan inquired on the salary amount that Mr. Carlos Bordallo was receiving as Comptroller, if he was receiving $109,000.00 per annum. The Executive Manager clarified that Mr. Bordallo is Acting Comptroller at this point in time. Legal Counsel, Michael Pangelinan announced that at the June Board meeting Director Tolan requested that Legal Counsel look into specifically whether the Airports Comptroller is required to have a CPA. He explained that they have spent some time researching it with all of the legislation applicable to Airport and all of the regulations that they could find within the law, they found no legal requirement that the Comptroller be a CPA, what they do have is the enabling legislation that authorizes the Board to appoint a Comptroller, it doesn't specify the qualifications of the Comptroller, but their interpretation is the Board may determine the qualifications. He announced that a memorandum was submitted and handed out to the Board, it highlights the specific enabling legislation, it does give some background and job announcements that the Airport has issued in the past. In the past the Airport has included a CPA as a requirement, but in their view it is not because it's a legal requirement but that it is what the Board had chosen to do. Also attached are job descriptions for eight to nine other agencies of Gov Guam, it also lists out their criteria for the position, just a little more than half of those require a CPA, but there's three agencies in the group that don't require a CPA as part of their qualifications. Mr. Pangelinan stated that the conclusion is that a CPA is not required; it is up to the Board to decide what ever qualifications the Board deems appropriate. Director Untalan inquired on the length of time Mr. Bordallo has been the Acting Comptroller. Director Tolan stated approximately three years. Director Untalan asked if the position gets an annual review. The Executive Manager stated yes, because the position is Board appointed along with the Executive Manager and Deputy Executive Manager. Director Unatalan inquired if Mr. Bordallo's position had received an increment from the salary increments that were approved recently. The Executive Manager responded stating that the position slot was not part of the study, however the Executive Manager, and Deputy Executive Manager was. Director Untalan inquired why, and asked if the Board determines both the Executive Manager and Deputy Executive Managers salaries. The Executive Manager stated that when the study was implemented, the Comptroller position was not included. Director Untalan inquired for confirmation stating so it was the Board that didn't include the Comptroller. Ms. Jean Arriola added for the Boards information that at the time of the Airport migrating to the 10% market percentile based on the Board's decision the salary of the Comptroller which was determined by the prior Board was inactive, so in the Boards capacity exempted that position. Director Untalan asked if the Airport was at the 20th market percentile, and where does that leave the Comptroller position, is it less. Ms. Arriola stated that is not to say that the Board cannot determine that. Director Tolan stated that it is up to the Board. Director Untalan expressed the need for consistency. The Executive Manager informed the Board that as the Chairman requested, Management will finish gathering all of the information to present to the Board to figure out how to place the Comptroller. Director Untalan stated that the Comptroller position should not be placed above everybody else in

terms of the market percentile. Director Ada made motion for Management to inquire on the salaries of other Gov Guam agencies, seconded by Director Tolan; motion carried.

Discussion followed relative to the Comptroller position requiring a CPA in regard to the pros and cons. Mr. Pangelinan informed the Board that it is not necessary for the Board to do a job announcement; the Board may just appoint a Comptroller.

4. ADJOURNMENT

Director Gerber made a motion to adjourn the meeting, seconded by Director Tolan; motion carried. The meeting adjourned at 4:11 p.m.

Respectfully submitted,

Amanda O'Brien-Rios
Board Secretary

Egypt's rulers want to break up Brotherhood vigils

Supporters of deposed Egyptian President Mohamed Mursi shout slogans and hold symbolic coffins during a march from the Al-Fath Mosque to the defence ministry, in Cairo, July 30. Reuters

CAIRO (Reuters) – Egypt faced the prospect of fresh bloodshed on Thursday after the country's army-backed rulers signaled they would move soon to disperse thousands of supporters of deposed Islamist President Mohamed Mursi.

With no sign of a negotiated end to weeks of violent confrontation, Egypt's interim government said two Cairo vigils by Mursi supporters posed a threat to national security, citing "terrorism" and traffic disruption.

It ordered the Interior Ministry to take steps to "address these dangers and put an end to them," but gave no time frame.

The announcement set up a showdown with the Muslim Brotherhood, which refuses to leave the streets until Egypt's first freely elected president is reinstated. Deposed by the army on July 3, Mursi remains in military detention at a secret location.

A move against his supporters could bring a new round of bloodletting after security forces shot dead 80 Brotherhood followers at dawn on Saturday and plunged the Arab world's most populous nation deeper into turmoil.

The crackdown, coupled with criminal probes against Mursi and other Brotherhood leaders, has fuelled global concern that the military plans to crush the Islamist movement, which spent decades in the shadows before winning power in repeated elections after a 2011 uprising toppled autocrat Hosni Mubarak.

The fate of the Egyptian Brotherhood could shape that of Islamists across the Middle East at a time of transformation after a wave of popular revolts since 2011.

Almost 300 people have been killed in weeks of violence since the army deposed Mursi, inspiring fears in the West of a wider conflagration in Egypt, which straddles the Suez Canal and whose 1979 peace treaty with Israel makes it a vital factor in Middle East stability.

Rights group Amnesty International called the cabinet decision to clear the camps "a recipe for further bloodshed."

Israel wins time with peace talks

Israel's Prime Minister Benjamin Netanyahu attends the weekly cabinet meeting in Jerusalem, July 29. Reuters

JERUSALEM (Reuters) – Pressured by Washington, worried about its international standing and perturbed by Middle East turmoil, Israel had many reasons to return to peace talks with the Palestinians this week after a three year hiatus.

On the surface, Israelis saw little reason to jump back into negotiations. The status quo in the occupied Palestinian territories was holding and the question of the so-called peace process had largely fallen off the domestic political agenda.

But Prime Minister Benjamin Netanyahu may have realized he could not take the rap for cold shouldering U.S. efforts to revive the talks, and recognized that turbulent regional dynamics made it worthwhile to engage with the Palestinians once more.

"Resuming the diplomatic process at this time is important for the state of Israel, both in order to try to end the conflict and given the complex reality in our region, especially the security challenges from Syria and Iran," Netanyahu told his cabinet on Sunday before it sanctioned the resumption of talks.

UN experts to probe alleged chemical attacks

UNITED NATIONS (AP) – U.N. experts will travel to Syria as soon as possible to investigate three alleged incidents of chemical weapons attacks, the United Nations announced Wednesday.

U.N. spokesman Martin Nesirky said the green light for the investigation followed "the understanding reached with the government of Syria" during last week's visit to Damascus by U.N. disarmament chief Angela Kane and the head of the chemical weapons investigation team, Ake Sellstrom.

The announcement caps more than four months of behind-the-scenes talks aimed at getting chemical experts on the ground to investigate more than one alleged incident. Whether any signs of chemical weapons use remain at the three sites months after their alleged use remains to be seen.

The mandate of the investigation team is to report on whether chemical weapons were used, and if so which, chemical weapon, but not to determine the responsibility for an attack.

When Secretary-General Ban Ki-moon agreed to a U.N. investigation in March, he said the announcement "should serve as an unequivocal reminder that the use of chemical weapons is a crime against humanity."

Nesirky said Sellstrom's team will visit Khan al-Assal, a village on the southwestern outskirts of the embattled city of Aleppo, which was captured by the rebels last week and was under attack by government forces Wednesday. The government and rebels blame each other for a purported chemical weapons attack on the village on March 19 that killed at least 30 people.

Russia's U.N. Ambassador Vitaly Churkin said earlier this month that experts from Russia, Syria's closest ally, determined that Syrian rebels made sarin and used it in the March 19 attack on Khan al-Assal.

As US draws down, Afghan casualty toll is up

KABUL (AP) – Afghanistan's civilian casualty toll has jumped this year as insurgents fight to recapture territory from the departing American-led coalition, a U.N. report showed on Wednesday.

The number of dead rose 14 percent, and wounded 28 percent, compared with January-June last year, UNAMA, the United Nations Assistance Mission for Afghanistan, said backed government.

Civilian casualties had dropped following U.S. President Barack Obama's 30,000-troop surge. But UNAMA's latest report cited an intensifying Taliban campaign to recapture lost ground as the coalition, which is preparing to complete its withdrawal by the end of 2014, hands over security responsibilities to a rebuilt Afghan military and police

homemade bombs and mines on or near roads. Nine percent were attributed to the Afghan security forces and U.S.-led international military coalition, and 12 percent to ground engagements between pro-government forces and insurgents. The rest were either unattributed or caused by old explosive charges.

Many died in ground engage-

Woman sentenced after making false 911 calls

By Gina Tabonares-Reilly
gina@mvguam.com
Variety News Staff

A 26-year-old mother of five yesterday admitted in court that she repeatedly made 911 calls for non-life-threatening reasons. She also expressed regrets for assaulting a police officer last Sept. 20.

Melinda Torres Taijeron, of Merizo, was sentenced to two years' probation and was ordered by Judge Maria T. Cenzon to write a letter of apology to Guam Police Department Chief Fred Bordallo and Officer J. Castro, the police officer she is accused of kicking.

Taijeron was charged with assault against a peace officer as a third-degree felony, and false alarm as a misdemeanor with a special allegation of obstructing governmental functions.

She called 911 as well as the Southern Precinct Command numerous times on the evening of Sept. 20, asking that they arrest her ex-boyfriend for reasons "just because," Superior Court of Guam documents stated.

Taijeron allegedly told the dispatch officer she had already previously filed a complaint. When the officer asked what the case number was, Taijeron allegedly told the officer: "So I guess you don't care about your job, (expletive)."

Just a joke

After calling about five more times and then hanging up, police officers proceeded to Taijeron's residence where they noted two females at the front. "Both females started laughing, saying 'We're sorry, it was just a joke' before officers asked any questions," court documents stated.

The police officers confirmed Taijeron's identity and arrested her. During the arrest, Taijeron allegedly stated, "I (expletive) told you I was just joking. I wanted to see how fast it would take you guys to get down here."

She then allegedly kicked an officer twice in the leg then communicated threats that the officer's life and job would be over, stating, "I am going to get you when I get out of jail ... you don't know who I am connected with. I am going to tell them to get you."

Insular areas excluded from survey

U.S. Virgin Islands Delegate to Congress Donna Christensen, center, has raised concerns about the exclusion of offshore territories "in all important census surveys." Variety file photo

By Mar-Vic Cagurangan
marvic@mvguam.com
Variety News Staff

GUAM, the U.S. Virgin Islands and American Samoa are excluded from the American Community Survey (ACS), an ongoing survey that helps determine the distribution plan for $400 billion in federal and state funds allocated each year.

According to the U.S. Census Bureau's website, the survey provides U.S. communities with the current information they need to plan investments and services.

"Puerto Rico is the only U.S. territory where the ACS is conducted," the bureau said. "The 2010 census had a long form for U.S. territories such as Guam and the U.S. Virgin Islands (while) the census had some short-form questions as the ACS."

U.S. Virgin Islands Delegate to Congress Donna Christensen recently met with Thomas Mesenburg, the acting director of the U.S. Census Bureau, to follow up on her earlier letters, which raised concerns about the exclusion of offshore territories "in all important census surveys and data collection, including the American Community Survey."

"The two discussed ways that the decennial enumeration provides fair and equitable representation for the territories," according to a press release posted in Christensen's website.

Christensen noted that in 2010, the U.S. Department of Commerce said the lack of directed federal funding prevents the Bureau from performing the American Community Survey in U.S. territories, causing a 10-year wait between enumerations to get the most accurate data for federal funding formulas.

Christensen cited, for example, the closure of the Hovensa petroleum refinery in the Virgin Islands in 2012, whose impact was not factored into the calculation of funding for the territory. The closure of the St. Croix refinery had caused an increase in unemployment in the community.

Vitol withdraws GPA fuel protest

By Mar-Vic Cagurangan
marvic@mvguam.com
Variety News Staff

WITH the Guam Power Authority expected to sign its new fuel supply agreement with Hyundai Corp. anytime soon, Vitol Asia Pte. Ltd. has abandoned its protest and attempt to take over the remainder of Petrobas Singapore's contract, which expires this month.

Public Auditor Doris Flores Brooks said Vitol withdrew its protest last Friday, during the scheduled hearing of its case at the Office of Public Accountability.

"We were surprised that they withdrew their appeal but they have that prerogative," she said.

John Terlaje and Graham Botha, attorneys for Vitol and GPA, respectively, on Friday signed a stipulation for the dismissal of the Singapore company's appeal.

Terlaje declined to comment when asked why Vitol agreed to dismiss the appeal.

Vitol previously asked OPA to nullify Petrobas' extended contract, maintaining that its bid was 25 cents lower than Petrobas' negotiated rate with GPA when it agreed to a six-month contract extension following the expiration of its agreement in February.

In its June filing with OPA, Vitol said it was ready to commence fuel deliveries on "a six-week mobilization notice" if the remainder of the contract was turned over to the company.

The Consolidated Commission on Utilities has approved GPA's selection of Hyundai for a new two-year fuel supply contract, which is anticipated to be executed on Sept. 1.

OPA dismisses Able Industries appeal

By Mar-Vic Cagurangan
marvic@mvguam.com
Variety News Staff

THE Office of Public Accountability has dismissed Able Industries of the Pacific's appeal on the Guam International Airport Authority's rejection of its bid proposal for a custodial services contract.

In dismissing the group's appeal, OPA hearing officer Peter C. Perez said Able Industries failed to file a timely protest and missed the 15-day window to file an appeal from the day a bidder learned "the facts giving rise to any protest."

Ken Leon Guerrero, chief executive officer of Able Industries of the Pacific, filed a notice of appeal with the OPA on June 10, arguing GIAA did not provide legal justification for disqualifying his group from the bidding process.

The appeal was based on GIAA's bid status notification on May 3, advising Able Industries that the airport was rejecting its bid due to lack of bid security or insufficient bid security amount.

AIP is a non-profit corporation under the Community Rehabilitation Program, which provides employment for people with disabilities.

Prior to the issuance of the solicitation, Leon Guerrero said he requested GIAA General Manager Charles Ada to award the custodial service contract to Able Industries based on rules and policy that afford considerations to non-profit organizations.

INTERNATIONAL AIRPORT AUTHORITY, GUAM

JUL 30 2013
TIME: 4:15PM.
REC'D BY:

July 24, 2013

Mr. Charles H. Ada II
Executive Manager
A. B. Won Pat Guam International
Airport Authority
P. O. Box 8770
Tamuning, Guam 96931

Dear Mr. Ada:

We are enclosing two copies of the Grant Offer for Airport Improvement Program (AIP) Project No. 3-66-0001-085-2013 at Guam International Airport in Agana, Guam. This letter outlines expectations for success. Please read the conditions and assurances carefully.

To properly enter into this agreement, you must do the following:

- The governing body or board of directors must approve the grant, along with your attorney's certification, in order for the grant to be valid.
- We ask that you return one copy of the Grant Offer to us by regular mail and maintain the other copy for your records.

Subject to the requirements in 49 CFR 18.21, each payment request for reimbursement under this grant must be made electronically via the Delphi eInvoicing System. Please see the attached Grant Agreement for more information regarding the use of this System.

Please note Grant Condition No. 4 requires you to complete the project without undue delay. We will be paying close attention to your progress to ensure proper stewardship of these Federal funds. **You are required to submit a payment request for reimbursement for allowable incurred project expenses every 30 days.** Should you fail to make draws on a regular basis, your grant may be placed in "inactive" status which will impact future grant offers.

Until the grant is completed and closed, you are responsible for submitting formal reports as follows:

- A signed/dated SF-270 (non-construction projects) or SF-271 or equivalent (construction projects) and SF-425 annually, due 90 days after the end of each federal fiscal year in which this grant is open (due December 31 of each year this grant is open); and
- Quarterly Progress Reports due every quarter.

Once the project(s) is completed and all costs are determined, we ask that you close the project without delay and submit, as a minimum, the following:

- Sponsor Certification for Project Final Acceptance; and
- Summary of all change orders and summary of all testing; and
- Final SF-270 or SF-271 (or equivalent) and SF-425.

Steven Wong, (808) 541-1225, is the assigned program manager for this grant and is readily available to assist you and your designated representative with the requirements stated herein. We sincerely value your cooperation in these efforts and look forward to working with you to complete this important project.

Sincerely,

Ronnie V. Simpson
Manager, Airports District Office

GRANT AGREEMENT

PART I – OFFER

July 24, 2013
Date of Offer
Guam International
(herein called the "Airport")
3-66-0001-085-2013
Grant No
855035531
DUNS No

TO: **The A. B. Won Pat Guam International Airport Authority**
(herein called the "Sponsor")
FROM: **The United States of America** (acting through the Federal Aviation Administration, herein called the "FAA")

WHEREAS, the Sponsor has submitted to the FAA a Project Application dated February 12, 2009, for a grant of Federal funds for a project at or associated with the Guam International Airport, which Project Application, as approved by the FAA, is hereby incorporated herein and made a part hereof; and

WHEREAS, the FAA has approved a project for the Airport (or Planning Area) (herein called the "Project") consisting of the following:

Extend Runway 06L/24R – Phase XI

all as more particularly described in the Project Application.

NOW THEREFORE, pursuant to and for the purpose of carrying out the provisions of Title 49, United States Code, as amended, herein called "the Act," and in consideration of (a) the Sponsor's adoption and ratification of the representations and assurances contained in said Project Application and its acceptance of this Offer as hereinafter provided, and (b) the benefits to accrue to the United States and the public from the accomplishment of the Project and compliance with the assurances and conditions as herein provided, **THE FEDERAL AVIATION ADMINISTRATION, FOR AND ON BEHALF OF THE UNITED STATES, HEREBY OFFERS AND AGREES** to pay, as the United States' share of the allowable costs incurred in accomplishing the Project, ninety (90) per centum thereof.

This Offer is made on and **SUBJECT TO THE FOLLOWING TERMS AND CONDITIONS:**

CONDITIONS

1. The maximum obligation of the United States payable under this Offer shall be $2,005,605.00. For the purposes of any future grant amendments which may increase the foregoing maximum obligation of the United States under the provisions of Section 47108(b) of the Act, the following amounts are being specified for this purpose:

   $ 0 for planning

   $ 2,005,605.00 for airport development or noise program implementation

2. The allowable costs of the project shall not include any costs determined by the FAA to be ineligible for consideration as to allowability under the Act.

3. Payment of the United States' share of the allowable project costs will be made pursuant to and in accordance with the provisions of such regulations and procedures as the Secretary shall prescribe. Final determination of the United States' share will be based upon the final audit of the total amount of allowable project costs and settlement will be made for any upward or downward adjustments to the Federal share of costs.

4. The Sponsor shall carry out and complete the Project without undue delays and in accordance with the terms hereof, and such regulations and procedures as the Secretary shall prescribe, and agrees to comply with the assurances which were made part of the project application.

5. The FAA reserves the right to amend or withdraw this offer at any time prior to its acceptance by the Sponsor.

6. This offer shall expire and the United States shall not be obligated to pay any part of the costs of the project unless this offer has been accepted by the Sponsor on or before August 30, 2013, or such subsequent date as may be prescribed in writing by the FAA.

7. The Sponsor shall take all steps, including litigation if necessary, to recover Federal funds spent fraudulently, wastefully, or in violation of Federal antitrust statutes, or misused in any other manner in any project upon which Federal funds have been expended. For the purposes of this grant agreement, the term "Federal funds" means funds however used or dispersed by the Sponsor that were originally paid pursuant to this or any other Federal grant agreement. It shall obtain the approval of the Secretary as to any determination of the amount of the Federal share of such funds. It shall return the recovered Federal share, including funds recovered by settlement, order, or judgment, to the Secretary. It shall furnish to the Secretary, upon request, all documents and records pertaining to the determination of the amount of the Federal share or to any settlement, litigation, negotiation, or other efforts taken to recover such funds. All settlements or other final positions of the Sponsor, in court or otherwise, involving the recovery of such Federal share shall be approved in advance by the Secretary.

8. The United States shall not be responsible or liable for damage to property or injury to persons which may arise from, or be incident to, compliance with this grant agreement.

9. **CENTRAL CONTRACTOR REGISTRATION AND UNIVERSAL IDENTIFIER REQUIREMENTS**

   A. Requirement for Central Contractor Registration (CCR)

   Unless you are exempted from this requirement under 2 CFR 25.110, you as the recipient must maintain the currency of your information in the CCR until you submit the final financial report required under this award or receive the final payment, whichever is later. This requires that you review and update the information at least annually after the initial registration and more frequently if required by changes in your information or another award term.

   B. Requirement for Data Universal Numbering System (DUNS) Numbers

   If you are authorized to make subawards under this award, you:

   1. Must notify potential subrecipients that no entity (see definition in paragraph C of this award term) may receive a subaward from you unless the entity has provided its DUNS number to you.

   2. May not make a subaward to an entity unless the entity has provided its DUNS number to you.

C. Definitions

For purposes of this award term:

1. Central Contractor Registration (CCR) means the Federal repository into which an entity must provide information required for the conduct of business as a recipient. Additional information about registration procedures may be found at the CCR Internet site (currently at https://www.sam.gov/portal/public/SAM/).

2. Data Universal Numbering System

DUNS number means the nine-digit number established and assigned by Dun and Bradstreet, Inc. (D & B) to uniquely identify business entities. A DUNS number may be obtained from D & B by telephone (currently 866–705–5711) or the Internet (currently at http://fedgov.dnb.com/webform).

3. Entity, as it is used in this award term, means all of the following, as defined at 2 CFR Part 25, Subpart C:

a. A Governmental organization, which is a State, local government, or Indian Tribe;

b. A foreign public entity;

c. A domestic or foreign nonprofit organization;

d. A domestic or foreign for-profit organization; and

e. A Federal agency, but only as a subrecipient under an award or subaward to a non-Federal entity.

4. Subaward:

a. This term means a legal instrument to provide support for the performance of any portion of the substantive project or program for which you received this award and that you as the recipient award to an eligible subrecipient.

b. The term does not include your procurement of property and services needed to carry out the project or program (for further explanation, see Sec. 210 of the attachment to OMB Circular A–133, "Audits of States, Local Governments, and Non-Profit Organizations"). A subaward may be provided through any legal agreement, including an agreement that you consider a contract.

5. Subrecipient means an entity that:

a. Receives a subaward from you under this award; and

b. Is accountable to you for the use of the Federal funds provided by the subaward.

c. A subaward may be provided through any legal agreement, including an agreement that you consider a contract.

10. **ELECTRONIC GRANT PAYMENT(S):** The requirements set forth in these terms and conditions supersede previous financial invoicing requirements for FAA grantees. Each payment request under this grant agreement must be made electronically via the Delphi eInvoicing System for Department of Transportation (DOT) Financial Assistance Awardees. The following are the procedures for accessing and utilizing the Delphi eInvoicing System.

A. Grant Recipient Requirements.
   (1) Grantees must have Internet access to register and submit payment requests through the Delphi eInvoicing system unless, under limited circumstances, a waiver is granted by the FAA and DOT under section (c) below.
   (2) Grantees must submit payment requests electronically and the FAA will process payment requests electronically.

B. System User Access.
   (1) Grantees must contact the FAA Airports District/Regional Office and officially submit a written request to sign up for the system. The FAA Office of Airports will provide the grantee's name, email address and telephone number to the DOT Financial Management Office. The DOT will then invite the grantee via email to sign up for the system and require the grantee to complete two forms. The grantee will complete a web based DOT registration form and download the Proof of Identification form to verify the grantee's identity.

(2) The grantee must complete the Proof of Identification form, and present it to a Notary Public for verification. The grantee will return the notarized form to:

DOT Enterprise Services Center

FAA Accounts Payable, AMZ-100

PO Box 25710

Oklahoma City, OK 73125

(3) The DOT will validate the both forms and email a user ID and password to the grantee. Grantees should contact the FAA Airports District/Regional Office with any changes to their system information.

Note: Additional information, including access forms and training materials, can be found on the DOT eInvoicing website (http://www.dot.gov/cfo/delphi-einvoicing-system.html).

C. Waivers. DOT Financial Management officials may, on a case by case basis, waive the requirement to register and use the electronic grant payment system based on user requests and concurrence of the FAA. Waiver request forms can be obtained on the DOT eInvoicing website (http://www.dot.gov/cfo/delphi-einvoicing-system.html) or by contacting the FAA Airports District/Regional Office. Recipients must explain why they are unable to use or access the Internet to register and enter payment requests.

(1) All waiver requests should be sent to the FAA Airports District/Regional Office for concurrence, prior to sending to the Director of the Office of Financial Management, US Department of Transportation, Office of Financial Management, B-30, room W93-431, 1200 New Jersey Avenue SE, Washington DC 20590-0001, DOTElectronicInvoicing@dot.gov. The Director of the DOT Office of Financial Management will confirm or deny the request within approximately 30 days.

(2) If a grantee is granted a waiver, the grantee should submit all hard-copy invoices directly to:

DOT/FAA

PO Box 25082

AMZ-110

Oklahoma City, OK 73125

11. **INFORMAL LETTER AMENDMENT OF AIP PROJECTS:** It is mutually understood and agreed that if, during the life of the project, the FAA determines that the maximum grant obligation of the United States exceeds the expected needs of the Sponsor by $25,000.00 or five percent (5%), whichever is greater, the maximum obligation of the United States can be unilaterally reduced by letter from the FAA advising of the budget change. Conversely, if there is an overrun in the total actual eligible and allowable project costs, FAA may increase the maximum grant obligation of the United States to cover the amount of the overrun not to exceed the statutory percent limitation and will advise the Sponsor by letter of the increase. It is further understood and agreed that if, during the life of the project, the FAA determines that a change in the grant description is advantageous and in the best interests of the United States, the change in grant description will be unilaterally amended by letter from the FAA. Upon issuance of the aforementioned letter, either the grant obligation of the United States is adjusted to the amount specified or the grant description is amended to the description specified.

12. **AIR AND WATER QUALITY:** Approval of the project included in this agreement is conditioned on the Sponsor's compliance with applicable air and water quality standards in accomplishing project construction. Failure to comply with this requirement may result in suspension, cancellation, or termination of Federal assistance under this agreement.

13. **PAVEMENT MAINTENANCE MANAGEMENT PROGRAM:** For a project to replace or reconstruct pavement at the airport, the Sponsor shall implement an effective airport pavement maintenance management program as is required by Airport Sponsor Assurance Number C-11. The Sponsor shall use such program for the useful life of any pavement constructed, reconstructed, or repaired with federal financial assistance at the airport. As a minimum, the program must conform with the provisions outlined below

Pavement Maintenance Management Program

An effective pavement maintenance management program is one that details the procedures to be followed to assure that proper pavement maintenance, both preventive and repair, is performed. An airport sponsor may

use any form of inspection program it deems appropriate. The program must, as a minimum, include the following:

a. **Pavement Inventory.** The following must be depicted in an appropriate form and level of detail:

(1) location of all runways, taxiways, and aprons;
(2) dimensions;
(3) type of pavement, and;
(4) year of construction or most recent major rehabilitation.

For compliance with the Airport Improvement Program (AIP) assurances, pavements that have been constructed, reconstructed, or repaired with federal financial assistance shall be so depicted.

b. Inspection Schedule.

(1) Detailed Inspection. A detailed inspection must be performed at least once a year. If a history of recorded pavement deterioration is available, i.e., Pavement Condition Index (PCI) survey as set forth in Advisory Circular 150/5380-6, "Guidelines and Procedures for Maintenance of Airport Pavements," the frequency of inspections may be extended to three years.

(2) Drive-By Inspection. A drive-by inspection must be performed a minimum of once per month to detect unexpected changes in the pavement condition.

c. **Record Keeping.** Complete information on the findings of all detailed inspections and on the maintenance performed must be recorded and kept on file for a minimum of five years. The types of distress, their locations, and remedial action, scheduled or performed, must be documented. The minimum information to be recorded is listed below:

(1) inspection date,
(2) location,
(3) distress types, and
(4) maintenance scheduled or performed.

For drive-by inspections, the date of inspection and any maintenance performed must be recorded.

d. **Information Retrieval.** An airport sponsor may use any form of record keeping it deems appropriate, so long as the information and records produced by the pavement survey can be retrieved to provide a report to the FAA as may be required.

e. **Reference.** Refer to Advisory Circular 150/5380-6, "Guidelines and Procedures for Maintenance of Airport Pavements," for specific guidelines and procedures for maintaining airport pavements and establishing an effective maintenance program. Specific types of distress, their probable causes, inspection guidelines, and recommended methods of repair are presented.

14. **PROJECTS WHICH CONTAIN PAVING WORK IN EXCESS OF $250,000**: The Sponsor agrees to perform the following:

a. Furnish a construction management program to FAA prior to the start of construction which shall detail the measures and procedures to be used to comply with the quality control provisions of the construction contract, including, but not limited to, all quality control provisions and tests required by the Federal specifications. The program shall include as a minimum:

(1) The name of the person representing the Sponsor who has overall responsibility for contract administration for the project and the authority to take necessary actions to comply with the contract.
(2) Names of testing laboratories and consulting engineer firms with quality control responsibilities on the project, together with a description of the services to be provided.
(3) Procedures for determining that testing laboratories meet the requirements of the American Society of Testing and Materials standards on laboratory evaluation, referenced in the contract specifications (D 3666, C 1077).
(4) Qualifications of engineering supervision and construction inspection personnel.
(5) A listing of all tests required by the contract specifications, including the type and frequency of tests to be taken, the method of sampling, the applicable test standard, and the acceptance criteria or tolerances permitted for each type of test.
(6) Procedures for ensuring that the tests are taken in accordance with the program, that they are documented daily, and that the proper corrective actions, where necessary, are undertaken.

b. Submit at completion of the project, a final test and quality control report documenting the results of all tests performed, highlighting those tests that failed or that did not meet the applicable test standard. The report shall include the pay reductions applied and the reasons for accepting any out-of-tolerance material. An interim test and quality control report shall be submitted, if requested by the FAA.
c. Failure to provide a complete report as described in paragraph b, or failure to perform such tests, shall, absent any compelling justification, result in a reduction in Federal participation for costs incurred in connection with construction of the applicable pavement. Such reduction shall be at the discretion of the FAA and will be based on the type or types of required tests not performed or not documented and will be commensurate with the proportion of applicable pavement with respect to the total pavement constructed under the grant agreement.
d. The FAA, at its discretion, reserves the right to conduct independent tests and to reduce grant payments accordingly if such independent tests determine that sponsor test results are inaccurate.

15. **BUY AMERICAN REQUIREMENT:** Unless otherwise approved by the FAA, the Sponsor will not acquire or permit any contractor or subcontractor to acquire any steel or manufactured products produced outside the United States to be used for any project for airport development or noise compatibility for which funds are provided under this grant. The Sponsor will include in every contract a provision implementing this special condition.

16. **MAXIMUM OBLIGATION INCREASE FOR PRIMARY AIRPORTS:** In accordance with Section 47108(b) of the Act, as amended, the maximum obligation of the United States, as stated in Condition No. 1 of this Grant Offer

    a. may not be increased for a planning project;

    b. may be increased by not more than 15 percent for development projects;

    c. may be increased by not more than 15 percent or by an amount not to exceed 25 percent of the total increase in allowable costs attributable to the acquisition of land or interests in land, whichever is greater, based on current credible appraisals or a court award in a condemnation proceeding.

17. The Sponsor agrees to take the following actions to maintain and/or acquire a property interest, satisfactory to the FAA, in the Runway Protection Zones:

    a. Existing Fee Title Interest in the Runway Protection Zone: The Sponsor agrees to prevent the erection or creation of any structure or place of public assembly in the Runway Protection Zone, except for NAVAIDS that are fixed by their functional purposes or any other structure approved by the FAA. Any existing structures or uses within the Runway Protection Zone will be cleared or discontinued unless approved by the FAA.

    b. Existing Easement Interest in the Runway Protection Zone: The Sponsor agrees to take any and all steps necessary to ensure that the owner of the land within the designated Runway Protection Zone will not build any structure in the Runway Protection Zone that is a hazard to air navigation or which might create glare or misleading lights or lead to the construction of residences, fuel handling and storage facilities, smoke generating activities, or places of public assembly, such as churches, schools, office buildings, shopping centers, and stadiums.

    c. Future Interest in the Runway Protection Zone: The Sponsor agrees that it will acquire fee title or less-than-fee interest in the Runway Protection Zones for runways that presently are not under its control within ten years of this Grant Agreement. Said interest shall provide the protection noted in the above Subparagraphs a and b.

The Sponsor's acceptance of this Offer and ratification and adoption of the Project Application incorporated herein shall be evidenced by execution of this instrument by the Sponsor, as hereinafter provided, and this Offer and Acceptance shall comprise a Grant Agreement, as provided by the Act, constituting the contractual obligations and rights of the United States and the Sponsor with respect to the accomplishment of the Project and compliance with the assurances and conditions as provided herein. Such Grant Agreement shall become effective upon the Sponsor's acceptance of this Offer.

PART II - ACCEPTANCE

The Sponsor does hereby ratify and adopt all assurances, statements, representations, warranties, covenants, and agreements contained in the Project Application and incorporated materials referred to in the foregoing Offer and does hereby accept this Offer and by such acceptance agrees to comply with all of the terms and conditions in this Offer and in the Project Application. I declare under penalty of perjury that the foregoing is true and correct. [1]

CERTIFICATE OF SPONSOR'S ATTORNEY

I, _____, acting as Attorney for the Sponsor do hereby certify:

That in my opinion the Sponsor is empowered to enter into the foregoing Grant Agreement under the laws of the Territory of Guam. Further, I have examined the foregoing Grant Agreement and the actions taken by said Sponsor and Sponsor's official representative has been duly authorized and that the execution thereof is in all respects due and proper and in accordance with the laws of the said State and the Act. In addition, for grants involving projects to be carried out on property not owned by the Sponsor, there are no legal impediments that will prevent full performance by the Sponsor. Further, it is my opinion that the said Grant Agreement constitutes a legal and binding obligation of the Sponsor in accordance with the terms thereof.

[1] Knowingly and willfully providing false information to the Federal government is a violation of 18 U.S.C. Section 1001 (False Statements) and could subject you to fines, imprisonment, or both.

A. General.

1. These assurances shall be complied with in the performance of grant agreements for airport development, airport planning, and noise compatibility program grants for airport sponsors.

2. These assurances are required to be submitted as part of the project application by sponsors requesting funds under the provisions of Title 49, U.S.C., subtitle VII, as amended. As used herein, the term "public agency sponsor" means a public agency with control of a public-use airport; the term "private sponsor" means a private owner of a public-use airport; and the term "sponsor" includes both public agency sponsors and private sponsors.

3. Upon acceptance of this grant offer by the sponsor, these assurances are incorporated in and become part of this grant agreement.

B. Duration and Applicability.

1. **Airport development or Noise Compatibility Program Projects Undertaken by a Public Agency Sponsor.** The terms, conditions and assurances of this grant agreement shall remain in full force and effect throughout the useful life of the facilities developed or equipment acquired for an airport development or noise compatibility program project, or throughout the useful life of the project items installed within a facility under a noise compatibility program project, but in any event not to exceed twenty (20) years from the date of acceptance of a grant offer of Federal funds for the project. However, there shall be no limit on the duration of the assurances regarding Exclusive Rights and Airport Revenue so long as the airport is used as an airport. There shall be no limit on the duration of the terms, conditions, and assurances with respect to real property acquired with federal funds. Furthermore, the duration of the Civil Rights assurance shall be specified in the assurances.

2. **Airport Development or Noise Compatibility Projects Undertaken by a Private Sponsor.** The preceding paragraph 1 also applies to a private sponsor except that the useful life of project items installed within a facility or the useful life of the facilities developed or equipment acquired under an airport development or noise compatibility program project shall be no less than ten (10) years from the date of acceptance of Federal aid for the project.

3. **Airport Planning Undertaken by a Sponsor.** Unless otherwise specified in this grant agreement, only Assurances 1, 2, 3, 5, 6, 13, 18, 30, 32, 33, and 34 in section C apply to planning projects. The terms, conditions, and assurances of this grant agreement shall remain in full force and effect during the life of the project.

C. **Sponsor Certification.** The sponsor hereby assures and certifies, with respect to this grant that:

1. **General Federal Requirements.** It will comply with all applicable Federal laws, regulations, executive orders, policies, guidelines, and requirements as they relate to the application, acceptance and use of Federal funds for this project including but not limited to the following:

Federal Legislation

a. Title 49, U.S.C., subtitle VII, as amended.
b. Davis-Bacon Act - 40 U.S.C. 276(a), et seq.[1]
c. Federal Fair Labor Standards Act - 29 U.S.C. 201, et seq.

m. 49 CFR Part 26 – Participation By Disadvantaged Business Enterprises in Department of Transportation Programs.
n. 49 CFR Part 27 - Nondiscrimination on the basis of handicap in programs and activities receiving or benefiting from Federal financial assistance.[1]
o. 49 CFR Part 29 – Government wide debarment and suspension (nonprocurement) and government wide requirements for drug-free workplace (grants).
p. 49 CFR Part 30 - Denial of public works contracts to suppliers of goods and services of countries that deny procurement market access to U.S. contractors.
q. 49 CFR Part 41 - Seismic safety of Federal and federally assisted or regulated new building construction.[1]

Office of Management and Budget Circulars

a. A-87 - Cost Principles Applicable to Grants and Contracts with State and Local Governments.
b. A-133 - Audits of States, Local Governments, and Non-Profit Organizations

[1] These laws do not apply to airport planning sponsors.

[2] These laws do not apply to private sponsors.

[3] 49 CFR Part 18 and OMB Circular A-87 contain requirements for State and Local Governments receiving Federal assistance. Any requirement levied upon State and Local Governments by this regulation and circular shall also be applicable to private sponsors receiving Federal assistance under Title 49, United States Code.

Specific assurances required to be included in grant agreements by any of the above laws, regulations or circulars are incorporated by reference in this grant agreement.

2. **Responsibility and Authority of the Sponsor.**

   a. **Public Agency Sponsor:** It has legal authority to apply for this grant, and to finance and carry out the proposed project; that a resolution, motion or similar action has been duly adopted or passed as an official act of the applicant's governing body authorizing the filing of the application, including all understandings and assurances contained therein, and directing and authorizing the person identified as the official representative of the applicant to act in connection with the application and to provide such additional information as may be required.

   b. **Private Sponsor:** It has legal authority to apply for this grant and to finance and carry out the proposed project and comply with all terms, conditions, and assurances of this grant agreement. It shall designate an official representative and shall in writing direct and authorize that person to file this application, including all understandings and assurances contained therein; to act in connection with this application; and to provide such additional information as may be required.

3. **Sponsor Fund Availability.** It has sufficient funds available for that portion of the project costs which are not to be paid by the United States. It has sufficient funds available to assure operation and maintenance of items funded under this grant agreement which it will own or control.

4. **Good Title.**

   a. It, a public agency or the Federal government, holds good title, satisfactory to the Secretary, to the landing area of the airport or site thereof, or will give assurance satisfactory to the Secretary that good title will be acquired.

   b. For noise compatibility program projects to be carried out on the property of the sponsor, it holds good title satisfactory to the Secretary to that portion of the property upon which Federal funds will be expended or will give assurance to the Secretary that good title will be obtained.

5. **Preserving Rights and Powers.**

   a. It will not take or permit any action which would operate to deprive it of any of the rights and powers necessary to perform any or all of the terms, conditions, and assurances in this grant agreement without the written approval of the Secretary, and will act promptly to acquire, extinguish or

modify any outstanding rights or claims of right of others which would interfere with such performance by the sponsor. This shall be done in a manner acceptable to the Secretary.

b. It will not sell, lease, encumber, or otherwise transfer or dispose of any part of its title or other interests in the property shown on Exhibit A to this application or, for a noise compatibility program project, that portion of the property upon which Federal funds have been expended, for the duration of the terms, conditions, and assurances in this grant agreement without approval by the Secretary. If the transferee is found by the Secretary to be eligible under Title 49, United States Code, to assume the obligations of this grant agreement and to have the power, authority, and financial resources to carry out all such obligations, the sponsor shall insert in the contract or document transferring or disposing of the sponsor's interest, and make binding upon the transferee all of the terms, conditions, and assurances contained in this grant agreement.

c. For all noise compatibility program projects which are to be carried out by another unit of local government or are on property owned by a unit of local government other than the sponsor, it will enter into an agreement with that government. Except as otherwise specified by the Secretary, that agreement shall obligate that government to the same terms, conditions, and assurances that would be applicable to it if it applied directly to the FAA for a grant to undertake the noise compatibility program project. That agreement and changes thereto must be satisfactory to the Secretary. It will take steps to enforce this agreement against the local government if there is substantial non-compliance with the terms of the agreement.

d. For noise compatibility program projects to be carried out on privately owned property, it will enter into an agreement with the owner of that property which includes provisions specified by the Secretary. It will take steps to enforce this agreement against the property owner whenever there is substantial non-compliance with the terms of the agreement.

e. If the sponsor is a private sponsor, it will take steps satisfactory to the Secretary to ensure that the airport will continue to function as a public-use airport in accordance with these assurances for the duration of these assurances.

f. If an arrangement is made for management and operation of the airport by any agency or person other than the sponsor or an employee of the sponsor, the sponsor will reserve sufficient rights and authority to insure that the airport will be operated and maintained in accordance Title 49, United States Code, the regulations and the terms, conditions and assurances in this grant agreement and shall insure that such arrangement also requires compliance therewith.

g. Sponsors of commercial service airports will not permit or enter into any arrangement that results in permission for the owner or tenant of a property used as a residence, or zoned for residential use, to taxi an aircraft between that property and any location on airport. Sponsors of general aviation airports entering into any arrangement that results in

permission for the owner of residential real property adjacent to or near the airport must comply with the requirements of Sec. 136 of Public Law 112-95 and the sponsor assurances.

6. **Consistency with Local Plans.** The project is reasonably consistent with plans (existing at the time of submission of this application) of public agencies that are authorized by the State in which the project is located to plan for the development of the area surrounding the airport.

7. **Consideration of Local Interest.** It has given fair consideration to the interest of communities in or near where the project may be located.

8. **Consultation with Users.** In making a decision to undertake any airport development project under Title 49, United States Code, it has undertaken reasonable consultations with affected parties using the airport at which project is proposed.

9. **Public Hearings.** In projects involving the location of an airport, an airport runway, or a major runway extension, it has afforded the opportunity for public hearings for the purpose of considering the economic, social, and environmental effects of the airport or runway location and its consistency with goals and objectives of such planning as has been carried out by the community and it shall, when requested by the Secretary, submit a copy of the transcript of such hearings to the Secretary. Further, for such projects, it has on its management board either voting representation from the communities where the project is located or has advised the communities that they have the right to petition the Secretary concerning a proposed project.

10. **Air and Water Quality Standards.** In projects involving airport location, a major runway extension, or runway location it will provide for the Governor of the state in which the project is located to certify in writing to the Secretary that the project will be located, designed, constructed, and operated so as to comply with applicable air and water quality standards. In any case where such standards have not been approved and where applicable air and water quality standards have been promulgated by the Administrator of the Environmental Protection Agency, certification shall be obtained from such Administrator. Notice of certification or refusal to certify shall be provided within sixty days after the project application has been received by the Secretary.

11. **Pavement Preventive Maintenance.** With respect to a project approved after January 1, 1995, for the replacement or reconstruction of pavement at the airport, it assures or certifies that it has implemented an effective airport pavement maintenance-management program and it assures that it will use such program for the useful life of any pavement constructed, reconstructed or repaired with Federal financial assistance at the airport. It will provide such reports on pavement condition and pavement management programs as the Secretary determines may be useful.

12. **Terminal Development Prerequisites.** For projects which include terminal development at a public use airport, as defined in Title 49, it has, on the date of

submittal of the project grant application, all the safety equipment required for certification of such airport under section 44706 of Title 49, United States Code, and all the security equipment required by rule or regulation, and has provided for access to the passenger enplaning and deplaning area of such airport to passengers enplaning and deplaning from aircraft other than air carrier aircraft.

13. **Accounting System, Audit, and Record Keeping Requirements.**

a. It shall keep all project accounts and records which fully disclose the amount and disposition by the recipient of the proceeds of this grant, the total cost of the project in connection with which this grant is given or used, and the amount or nature of that portion of the cost of the project supplied by other sources, and such other financial records pertinent to the project. The accounts and records shall be kept in accordance with an accounting system that will facilitate an effective audit in accordance with the Single Audit Act of 1984.

b. It shall make available to the Secretary and the Comptroller General of the United States, or any of their duly authorized representatives, for the purpose of audit and examination, any books, documents, papers, and records of the recipient that are pertinent to this grant. The Secretary may require that an appropriate audit be conducted by a recipient. In any case in which an independent audit is made of the accounts of a sponsor relating to the disposition of the proceeds of a grant or relating to the project in connection with which this grant was given or used, it shall file a certified copy of such audit with the Comptroller General of the United States not later than six (6) months following the close of the fiscal year for which the audit was made.

14. **Minimum Wage Rates.** It shall include, in all contracts in excess of $2,000 for work on any projects funded under this grant agreement which involve labor, provisions establishing minimum rates of wages, to be predetermined by the Secretary of Labor, in accordance with the Davis-Bacon Act, as amended (40 U.S.C. 276a-276a-5), which contractors shall pay to skilled and unskilled labor, and such minimum rates shall be stated in the invitation for bids and shall be included in proposals or bids for the work.

15. **Veteran's Preference.** It shall include in all contracts for work on any project funded under this grant agreement which involve labor, such provisions as are necessary to insure that, in the employment of labor (except in executive, administrative, and supervisory positions), preference shall be given to Vietnam era veterans, Persian Gulf veterans, Afghanistan-Iraq war veterans, disabled veterans, and small business concerns owned and controlled by disabled veterans as defined in Section 47112 of Title 49, United States Code. However, this preference shall apply only where the individuals are available and qualified to perform the work to which the employment relates.

16. **Conformity to Plans and Specifications.** It will execute the project subject to plans, specifications, and schedules approved by the Secretary. Such plans, specifications, and schedules shall be submitted to the Secretary prior to

commencement of site preparation, construction, or other performance under this grant agreement, and, upon approval of the Secretary, shall be incorporated into this grant agreement. Any modification to the approved plans, specifications, and schedules shall also be subject to approval of the Secretary, and incorporated into this grant agreement.

17. **Construction Inspection and Approval.** It will provide and maintain competent technical supervision at the construction site throughout the project to assure that the work conforms to the plans, specifications, and schedules approved by the Secretary for the project. It shall subject the construction work on any project contained in an approved project application to inspection and approval by the Secretary and such work shall be in accordance with regulations and procedures prescribed by the Secretary. Such regulations and procedures shall require such cost and progress reporting by the sponsor or sponsors of such project as the Secretary shall deem necessary.

18. **Planning Projects.** In carrying out planning projects:

    a. It will execute the project in accordance with the approved program narrative contained in the project application or with the modifications similarly approved.
    b. It will furnish the Secretary with such periodic reports as required pertaining to the planning project and planning work activities.
    c. It will include in all published material prepared in connection with the planning project a notice that the material was prepared under a grant provided by the United States.
    d. It will make such material available for examination by the public, and agrees that no material prepared with funds under this project shall be subject to copyright in the United States or any other country.
    e. It will give the Secretary unrestricted authority to publish, disclose, distribute, and otherwise use any of the material prepared in connection with this grant.
    f. It will grant the Secretary the right to disapprove the sponsor's employment of specific consultants and their subcontractors to do all or any part of this project as well as the right to disapprove the proposed scope and cost of professional services.
    g. It will grant the Secretary the right to disapprove the use of the sponsor's employees to do all or any part of the project.
    h. It understands and agrees that the Secretary's approval of this project grant or the Secretary's approval of any planning material developed as part of this grant does not constitute or imply any assurance or commitment on the part of the Secretary to approve any pending or future application for a Federal airport grant.

19. **Operation and Maintenance.**

    a. The airport and all facilities which are necessary to serve the aeronautical users of the airport, other than facilities owned or controlled by the United States, shall be operated at all times in a safe and serviceable condition

and in accordance with the minimum standards as may be required or prescribed by applicable Federal, state and local agencies for maintenance and operation. It will not cause or permit any activity or action thereon which would interfere with its use for airport purposes. It will suitably operate and maintain the airport and all facilities thereon or connected therewith, with due regard to climatic and flood conditions. Any proposal to temporarily close the airport for non-aeronautical purposes must first be approved by the Secretary. In furtherance of this assurance, the sponsor will have in effect arrangements for-

1) Operating the airport's aeronautical facilities whenever required;
2) Promptly marking and lighting hazards resulting from airport conditions, including temporary conditions; and
3) Promptly notifying airmen of any condition affecting aeronautical use of the airport. Nothing contained herein shall be construed to require that the airport be operated for aeronautical use during temporary periods when snow, flood or other climatic conditions interfere with such operation and maintenance. Further, nothing herein shall be construed as requiring the maintenance, repair, restoration, or replacement of any structure or facility which is substantially damaged or destroyed due to an act of God or other condition or circumstance beyond the control of the sponsor.

b. It will suitably operate and maintain noise compatibility program items that it owns or controls upon which Federal funds have been expended.

20. **Hazard Removal and Mitigation.** It will take appropriate action to assure that such terminal airspace as is required to protect instrument and visual operations to the airport (including established minimum flight altitudes) will be adequately cleared and protected by removing, lowering, relocating, marking, or lighting or otherwise mitigating existing airport hazards and by preventing the establishment or creation of future airport hazards.

21. **Compatible Land Use.** It will take appropriate action, to the extent reasonable, including the adoption of zoning laws, to restrict the use of land adjacent to or in the immediate vicinity of the airport to activities and purposes compatible with normal airport operations, including landing and takeoff of aircraft. In addition, if the project is for noise compatibility program implementation, it will not cause or permit any change in land use, within its jurisdiction, that will reduce its compatibility, with respect to the airport, of the noise compatibility program measures upon which Federal funds have been expended.

22. **Economic Nondiscrimination.**

a. It will make the airport available as an airport for public use on reasonable terms and without unjust discrimination to all types, kinds and classes of aeronautical activities, including commercial aeronautical activities offering services to the public at the airport.

b. In any agreement, contract, lease, or other arrangement under which a right or privilege at the airport is granted to any person, firm, or corporation to conduct or to engage in any aeronautical activity for

furnishing services to the public at the airport, the sponsor will insert and enforce provisions requiring the contractor to-

1) furnish said services on a reasonable, and not unjustly discriminatory, basis to all users thereof, and
2) charge reasonable, and not unjustly discriminatory, prices for each unit or service, provided that the contractor may be allowed to make reasonable and nondiscriminatory discounts, rebates, or other similar types of price reductions to volume purchasers.

c. Each fixed-based operator at the airport shall be subject to the same rates, fees, rentals, and other charges as are uniformly applicable to all other fixed-based operators making the same or similar uses of such airport and utilizing the same or similar facilities.

d. Each air carrier using such airport shall have the right to service itself or to use any fixed-based operator that is authorized or permitted by the airport to serve any air carrier at such airport.

e. Each air carrier using such airport (whether as a tenant, non tenant, or subtenant of another air carrier tenant) shall be subject to such nondiscriminatory and substantially comparable rules, regulations, conditions, rates, fees, rentals, and other charges with respect to facilities directly and substantially related to providing air transportation as are applicable to all such air carriers which make similar use of such airport and utilize similar facilities, subject to reasonable classifications such as tenants or non tenants and signatory carriers and non signatory carriers. Classification or status as tenant or signatory shall not be unreasonably withheld by any airport provided an air carrier assumes obligations substantially similar to those already imposed on air carriers in such classification or status.

f. It will not exercise or grant any right or privilege which operates to prevent any person, firm, or corporation operating aircraft on the airport from performing any services on its own aircraft with its own employees [including, but not limited to maintenance, repair, and fueling] that it may choose to perform.

g. In the event the sponsor itself exercises any of the rights and privileges referred to in this assurance, the services involved will be provided on the same conditions as would apply to the furnishing of such services by commercial aeronautical service providers authorized by the sponsor under these provisions.

h. The sponsor may establish such reasonable, and not unjustly discriminatory, conditions to be met by all users of the airport as may be necessary for the safe and efficient operation of the airport.

i. The sponsor may prohibit or limit any given type, kind or class of aeronautical use of the airport if such action is necessary for the safe operation of the airport or necessary to serve the civil aviation needs of the public.

23. **Exclusive Rights.** It will permit no exclusive right for the use of the airport by any person providing, or intending to provide, aeronautical services to the public.

For purposes of this paragraph, the providing of the services at an airport by a single fixed-based operator shall not be construed as an exclusive right if both of the following apply:

a. It would be unreasonably costly, burdensome, or impractical for more than one fixed-based operator to provide such services, and

b. If allowing more than one fixed-based operator to provide such services would require the reduction of space leased pursuant to an existing agreement between such single fixed-based operator and such airport. It further agrees that it will not, either directly or indirectly, grant or permit any person, firm, or corporation, the exclusive right at the airport to conduct any aeronautical activities, including, but not limited to charter flights, pilot training, aircraft rental and sightseeing, aerial photography, crop dusting, aerial advertising and surveying, air carrier operations, aircraft sales and services, sale of aviation petroleum products whether or not conducted in conjunction with other aeronautical activity, repair and maintenance of aircraft, sale of aircraft parts, and any other activities which because of their direct relationship to the operation of aircraft can be regarded as an aeronautical activity, and that it will terminate any exclusive right to conduct an aeronautical activity now existing at such an airport before the grant of any assistance under Title 49, United States Code.

24. **Fee and Rental Structure.** It will maintain a fee and rental structure for the facilities and services at the airport which will make the airport as self-sustaining as possible under the circumstances existing at the particular airport, taking into account such factors as the volume of traffic and economy of collection. No part of the Federal share of an airport development, airport planning or noise compatibility project for which a grant is made under Title 49, United States Code, the Airport and Airway Improvement Act of 1982, the Federal Airport Act or the Airport and Airway Development Act of 1970 shall be included in the rate basis in establishing fees, rates, and charges for users of that airport.

25. **Airport Revenues.**

a. All revenues generated by the airport and any local taxes on aviation fuel established after December 30, 1987, will be expended by it for the capital or operating costs of the airport; the local airport system; or other local facilities which are owned or operated by the owner or operator of the airport and which are directly and substantially related to the actual air transportation of passengers or property; or for noise mitigation purposes on or off the airport. The following exceptions apply to this paragraph:

1) If covenants or assurances in debt obligations issued before September 3, 1982, by the owner or operator of the airport, or provisions enacted before September 3, 1982, in governing statutes controlling the owner or operator's financing, provide for the use of the revenues from any of the airport owner or operator's facilities, including the airport, to support not only the airport but also the

airport owner or operator's general debt obligations or other facilities, then this limitation on the use of all revenues generated by the airport (and, in the case of a public airport, local taxes on aviation fuel) shall not apply.

2) If the Secretary approves the sale of a privately owned airport to a public sponsor and provides funding for any portion of the public sponsor's acquisition of land, this limitation on the use of all revenues generated by the sale shall not apply to certain proceeds from the sale. This is conditioned on repayment to the Secretary by the private owner of an amount equal to the remaining unamortized portion (amortized over a 20-year period) of any airport improvement grant made to the private owner for any purpose other than land acquisition on or after October 1, 1996, plus an amount equal to the federal share of the current fair market value of any land acquired with an airport improvement grant made to that airport on or after October 1, 1996.

3) Certain revenue derived from or generated by mineral extraction, production, lease, or other means at a general aviation airport (as defined at Section 47102 of title 49 United States Code), if the FAA determines the airport sponsor meets the requirements set forth in Sec. 813 of Public Law 112-95.

b. As part of the annual audit required under the Single Audit Act of 1984, the sponsor will direct that the audit will review, and the resulting audit report will provide an opinion concerning, the use of airport revenue and taxes in paragraph (a), and indicating whether funds paid or transferred to the owner or operator are paid or transferred in a manner consistent with Title 49, United States Code and any other applicable provision of law, including any regulation promulgated by the Secretary or Administrator.

c. Any civil penalties or other sanctions will be imposed for violation of this assurance in accordance with the provisions of Section 47107 of Title 49, United States Code.

26. Reports and Inspections. It will:

a. submit to the Secretary such annual or special financial and operations reports as the Secretary may reasonably request and make such reports available to the public; make available to the public at reasonable times and places a report of the airport budget in a format prescribed by the Secretary;

b. for airport development projects, make the airport and all airport records and documents affecting the airport, including deeds, leases, operation and use agreements, regulations and other instruments, available for inspection by any duly authorized agent of the Secretary upon reasonable request;

c. for noise compatibility program projects, make records and documents relating to the project and continued compliance with the terms,

conditions, and assurances of this grant agreement including deeds, leases, agreements, regulations, and other instruments, available for inspection by any duly authorized agent of the Secretary upon reasonable request; and

d. in a format and time prescribed by the Secretary, provide to the Secretary and make available to the public following each of its fiscal years, an annual report listing in detail:
   1) all amounts paid by the airport to any other unit of government and the purposes for which each such payment was made; and
   2) all services and property provided by the airport to other units of government and the amount of compensation received for provision of each such service and property.

27. Use by Government Aircraft. It will make available all of the facilities of the airport developed with Federal financial assistance and all those usable for landing and takeoff of aircraft to the United States for use by Government aircraft in common with other aircraft at all times without charge, except, if the use by Government aircraft is substantial, charge may be made for a reasonable share, proportional to such use, for the cost of operating and maintaining the facilities used. Unless otherwise determined by the Secretary, or otherwise agreed to by the sponsor and the using agency, substantial use of an airport by Government aircraft will be considered to exist when operations of such aircraft are in excess of those which, in the opinion of the Secretary, would unduly interfere with use of the landing areas by other authorized aircraft, or during any calendar month that –

a. Five (5) or more Government aircraft are regularly based at the airport or on land adjacent thereto; or

b. The total number of movements (counting each landing as a movement) of Government aircraft is 300 or more, or the gross accumulative weight of Government aircraft using the airport (the total movement of Government aircraft multiplied by gross weights of such aircraft) is in excess of five million pounds.

28. Land for Federal Facilities. It will furnish without cost to the Federal Government for use in connection with any air traffic control or air navigation activities, or weather-reporting and communication activities related to air traffic control, any areas of land or water, or estate therein, or rights in buildings of the sponsor as the Secretary considers necessary or desirable for construction, operation, and maintenance at Federal expense of space or facilities for such purposes. Such areas or any portion thereof will be made available as provided herein within four months after receipt of a written request from the Secretary.

29. Airport Layout Plan.

a. It will keep up to date at all times an airport layout plan of the airport showing (1) boundaries of the airport and all proposed additions thereto, together with the boundaries of all offsite areas owned or controlled by the sponsor for airport purposes and proposed additions thereto; (2) the location and nature of all existing and proposed airport facilities and structures (such as runways, taxiways, aprons, terminal buildings, hangars

and roads), including all proposed extensions and reductions of existing airport facilities; (3) the location of all existing and proposed nonaviation areas and of all existing improvements thereon; and (4) all proposed and existing access points used to taxi aircraft across the airport's property boundary. Such airport layout plans and each amendment, revision, or modification thereof, shall be subject to the approval of the Secretary which approval shall be evidenced by the signature of a duly authorized representative of the Secretary on the face of the airport layout plan. The sponsor will not make or permit any changes or alterations in the airport or any of its facilities which are not in conformity with the airport layout plan as approved by the Secretary and which might, in the opinion of the Secretary, adversely affect the safety, utility or efficiency of the airport.

b. If a change or alteration in the airport or the facilities is made which the Secretary determines adversely affects the safety, utility, or efficiency of any federally owned, leased, or funded property on or off the airport and which is not in conformity with the airport layout plan as approved by the Secretary, the owner or operator will, if requested, by the Secretary (1) eliminate such adverse effect in a manner approved by the Secretary; or (2) bear all costs of relocating such property (or replacement thereof) to a site acceptable to the Secretary and all costs of restoring such property (or replacement thereof) to the level of safety, utility, efficiency, and cost of operation existing before the unapproved change in the airport or its facilities except in the case of a relocation or replacement of an existing airport facility due to a change in the Secretary's design standards beyond the control of the airport sponsor.

30. Civil Rights. It will comply with such rules as are promulgated to assure that no person shall, on the grounds of race, creed, color, national origin, sex, age, or handicap be excluded from participating in any activity conducted with or benefiting from funds received from this grant. This assurance obligates the sponsor for the period during which Federal financial assistance is extended to the program, except where Federal financial assistance is to provide, or is in the form of personal property or real property or interest therein or structures or improvements thereon in which case the assurance obligates the sponsor or any transferee for the longer of the following periods: (a) the period during which the property is used for a purpose for which Federal financial assistance is extended, or for another purpose involving the provision of similar services or benefits, or (b) the period during which the sponsor retains ownership or possession of the property.

31. Disposal of Land.

a. For land purchased under a grant for airport noise compatibility purposes, including land serving as a noise buffer, it will dispose of the land, when the land is no longer needed for such purposes, at fair market value, at the earliest practicable time. That portion of the proceeds of such disposition which is proportionate to the United States' share of acquisition of such land will be, at the discretion of the Secretary, (1) reinvested in another

project at the airport, or (2) transferred to another eligible airport as prescribed by the Secretary. The Secretary shall give preference to the following, in descending order, (1) reinvestment in an approved noise compatibility project, (2) reinvestment in an approved project that is eligible for grant funding under Section 47117(e) of title 49 United States Code, (3) reinvestment in an approved airport development project that is eligible for grant funding under Sections 47114, 47115, or 47117 of title 49 United States Code, (4) transferred to an eligible sponsor of another public airport to be reinvested in an approved noise compatibility project at that airport, and (5) paid to the Secretary for deposit in the Airport and Airway Trust Fund. If land acquired under a grant for noise compatibility purposes is leased at fair market value and consistent with noise buffering purposes, the lease will not be considered a disposal of the land. Revenues derived from such a lease may be used for an approved airport development project that would otherwise be eligible for grant funding or any permitted use of airport revenue.

b. For land purchased under a grant for airport development purposes (other than noise compatibility), it will, when the land is no longer needed for airport purposes, dispose of such land at fair market value or make available to the Secretary an amount equal to the United States' proportionate share of the fair market value of the land. That portion of the proceeds of such disposition which is proportionate to the United States' share of the cost of acquisition of such land will, (1) upon application to the Secretary, be reinvested or transferred to another eligible airport as prescribed by the Secretary. The Secretary shall give preference to the following, in descending order: (1) reinvestment in an approved noise compatibility project, (2) reinvestment in an approved project that is eligible for grant funding under Section 47117(e) of title 49 United States Code, (3) reinvestment in an approved airport development project that is eligible for grant funding under Sections 47114, 47115, or 47117 of title 49 United States Code, (4) transferred to an eligible sponsor of another public airport to be reinvested in an approved noise compatibility project at that airport, and (5) paid to the Secretary for deposit in the Airport and Airway Trust Fund.

c. Land shall be considered to be needed for airport purposes under this assurance if (1) it may be needed for aeronautical purposes (including runway protection zones) or serve as noise buffer land, and (2) the revenue from interim uses of such land contributes to the financial self-sufficiency of the airport. Further, land purchased with a grant received by an airport operator or owner before December 31, 1987, will be considered to be needed for airport purposes if the Secretary or Federal agency making such grant before December 31, 1987, was notified by the operator or owner of the uses of such land, did not object to such use, and the land continues to be used for that purpose, such use having commenced no later than December 15, 1989.

d. Disposition of such land under (a) (b) or (c) will be subject to the retention or reservation of any interest or right therein necessary to ensure that such land will only be used for purposes which are compatible with noise levels associated with operation of the airport.

32. **Engineering and Design Services.** It will award each contract, or sub-contract for program management, construction management, planning studies, feasibility studies, architectural services, preliminary engineering, design, engineering, surveying, mapping or related services with respect to the project in the same manner as a contract for architectural and engineering services is negotiated under Title IX of the Federal Property and Administrative Services Act of 1949 or an equivalent qualifications-based requirement **prescribed** for or by the sponsor of the airport.

33. **Foreign Market Restrictions.** It will not allow funds provided under this grant to be used to fund any project which uses any product or service of a foreign country during the period in which such foreign country is listed by the United States Trade Representative as denying fair and equitable market opportunities for products and suppliers of the United States in procurement and construction.

34. **Policies, Standards, and Specifications.** It will carry out the project in accordance with policies, standards, and specifications approved by the Secretary including but not limited to the advisory circulars listed in the Current FAA Advisory Circulars for AIP projects, dated 01/12/2012 and included in this grant, and in accordance with applicable state policies, standards, and specifications approved by the Secretary.

35. **Relocation and Real Property Acquisition.** (1) It will be guided in acquiring real property, to the greatest extent practicable under State law, by the land acquisition policies in Subpart B of 49 CFR Part 24 and will pay or reimburse property owners for necessary expenses as specified in Subpart B. (2) It will provide a relocation assistance program offering the services described in Subpart C and fair and reasonable relocation payments and assistance to displaced persons as required in Subpart D and E of 49 CFR Part 24. (3) It will make available within a reasonable period of time prior to displacement, comparable replacement dwellings to displaced persons in accordance with Subpart E of 49 CFR Part 24.

36. **Access By Intercity Buses.** The airport owner or operator will permit, to the maximum extent practicable, intercity buses or other modes of transportation to have access to the airport; however, it has no obligation to fund special facilities for intercity buses or for other modes of transportation.

37. **Disadvantaged Business Enterprises.** The recipient shall not discriminate on the basis of race, color, national origin or sex in the award and performance of any DOT-assisted contract or in the administration of its DBE program or the requirements of 49 CFR Part 26. The Recipient shall take all necessary and reasonable steps under 49 CFR Part 26 to ensure non discrimination in the award and administration of DOT-assisted contracts. The recipient's DBE program, as required by 49 CFR Part 26, and as approved by DOT, is incorporated by reference in this agreement. Implementation of this program is a legal obligation

and failure to carry out its terms shall be treated as a violation of this agreement. Upon notification to the recipient of its failure to carry out its approved program, the Department may impose sanctions as provided for under Part 26 and may, in appropriate cases, refer the matter for enforcement under 18 U.S.C. 1001 and/or the Program Fraud Civil Remedies Act of 1986 (31 U.S.C. 3801).

38. **Hangar Construction.** If the airport owner or operator and a person who owns an aircraft agree that a hangar is to be constructed at the airport for the aircraft at the aircraft owner's expense, the airport owner or operator will grant to the aircraft owner for the hangar a long term lease that is subject to such terms and conditions on the hangar as the airport owner or operator may impose.

39. **Competitive Access.**

a. If the airport owner or operator of a medium or large hub airport (as defined in section 47102 of title 49, U.S.C.) has been unable to accommodate one or more requests by an air carrier for access to gates or other facilities at that airport in order to allow the air carrier to provide service to the airport or to expand service at the airport, the airport owner or operator shall transmit a report to the Secretary that-

1) Describes the requests;
2) Provides an explanation as to why the requests could not be accommodated; and
3) Provides a time frame within which, if any, the airport will be able to accommodate the requests.

b. Such report shall be due on either February 1 or August 1 of each year if the airport has been unable to accommodate the request(s) in the six month period prior to the applicable due date.

BOARD OF DIRECTORS
EXECUTIVE SUMMARY

INVITATION FOR BID
DEMOLITION AND REMEDIATION OF VARIOUS AIRPORT FACILITIES
PHASE I
IFB NO. GIAA-C02-FY13
PROJECT NO. GIAA-FY12-01-5; AIP NO. 3-66-0001-81 & 82

August 9, 2013

Purpose

Board action is requested to approve the bid award of the above project under the Invitation For Bid No. GIAA-C02-FY13.

Background

The project is to provide construction work inclusive of all labor, materials, supplies and equipment to demolish Buildings in Tiyan. The project also includes remediation of lead and asbestos materials prior to the demolition work. The scope of work of the project is comprised mainly of demolition and remediation work.

Procurement Background

The solicitation announcement was advertised through the local newspapers during the months of June & July 2013. The bid submission deadline and bid opening took place on August 2, 2013.

Twenty Five (25) firms/individuals purchased bid package and ten (10) firms submitted bid proposal before the submission deadline. The firms were evaluated and nine (9) were determined to be acceptable. As required by the Procurement Rules and Regulations, the bids were publicly opened and read aloud in the presence of the bidders.

The submitted bids are presented below:

BIDDER'S NAME	AMOUNT
Korando Corporation	$1,333,000.00
P&S Construction Inc.	$2,327,000.00
Smithbridge Guam Inc. *	$2,113,268.00
Maeda Pacific Corp.	$1,817,000.00
Chi Construction Inc.	$3,400,000.00
Camacho/Dirt Doctor	$1,493,000.00
Ian Corporation	$1,062,268.57

BME & Sons Inc.	$2,348,724.00
Base Corporation	$2,435,000.00
Chugach World Service Inc.	$2,220,582.30

*rejected for non compliance

Legal Review

Upon receipt of the required Performance and Payment Bonds, contract documents will be forwarded to legal counsel for review prior to execution and issuance of Notice to Proceed.

Financial Review

The lowest responsive, responsible total bid amount received is $1,062,268.57 or 37% below government estimate of $1,684,456.00. Funding for this project is available under the AIP grant no. 3-66-0001-81 & 82.

Recommendation

Management recommends the contract award of **$1,062,268.57** to **Ian Corporation,** who has been determined to have met the standards of responsibility and responsiveness outlined in Guam Procurement Regulation.

MEMORANDUM

TO: Charles H. Ada II, Executive Manager

FROM: Franklin P. Taitano, Supply Management Administrator
Victor J. Cruz, Chief Engineer

**SUBJECT: Bid Evaluation and Recommendation "Invitation For Bid"
For Demolition and Remediation of Various Airport Facilities-Phase I
IFB No. GIAA-C02-FY13
Project No. GIAA-FY12-01-5; AIP No. 3-66-0001-81 & 82**

Procurement Background:
The above referenced Invitation For Bid was publicly announced through the local newspaper during the months of June & July 2013. A pre-bid conference was held on July 2, 2013 at the Terminal Conference Room. The bid submission deadline and bid opening took place on August 2, 2013.

Twenty Five (25) firms/individuals purchased the bid package and ten (10) firms submitted proposal before the bid submission deadline. The bid submittals were opened in the presence of the bidders, members of the public and several GIAA representatives. The bid offer was read aloud by the Supply Management Administrator and tabulated by a Procurement staff.

The results of the bid price submittals are as follows in the order they were received and opened:

BIDDER'S NAME	AMOUNT
Korando Corporation	$1,333,000.00
P&S Construction Inc.	$2,327,000.00
Smithbridge Guam Inc. *	$2,113,268.00
Maeda Pacific Corp.	$1,817,000.00
Chi Construction Inc.	$3,400,000.00
Camacho/Dirt Doctor	$1,493,000.00
Ian Corporation	$1,062,268.57
BME & Sons Inc.	$2,348,724.00
Base Corporation	$2,435,000.00
Chugach World Service Inc.	$2,220,582.30

*rejected for non compliance

Bid Analysis and Evaluation:
Pursuant to Section 9 of the Instructions to Bidders, the contract is to be awarded, if it is to be awarded, as soon as possible to the lowest responsible, responsive bidder. To determine the responsibility of bidders, the bid package specified the required documents that bidders must submit with their bid packages. The attached abstract illustrates the inventory of required documents and bidders submittal.

Korando Corporation: The firm has submitted a total bid price of **$1,333,000.00.** The submitted Statement of Bidders Experience form included lists of projects from 2008-2011 with resumes. The bidder submitted a copy of their current Guam Contractors License **#5172, #7940.** All other required documents are complete and in conformance with the Invitation For Bid.

P&S Construction Inc.: The firm has submitted a total bid price of **$2,327,000.00.** The submitted Statement of Bidders Experience form included lists of projects from 2007-2012 with resumes. The bidder submitted a copy of their current Guam Contractors License **#CLB13-0952.** All other required documents are complete and in conformance with the Invitation For Bid.

Smithbridge Guam Inc.: The firm has submitted a total bid price of **$2,113,268.00.** The submitted Statement of Bidders Experience form included lists of projects from 2004-2013 with resumes. The bidder submitted a copy of their current Guam Contractors License **#6163.** The bidder did not submit required forms (1.Certificate Concerning Foreign Interest, 2.CFR 49 Part 29 Required for Solicitations, 3.Certificate for Contracts, Grants, Loans and Cooperative Agreement, 4.Buy American Certificate, 5.Standard Clause for DBE.

As a result of the bidder's non-submittal of the required documents. **Smithbridge Guam Inc. is deemed to be non-responsive and non- responsible bidder. Therefore, the bid is rejected.**

Maeda Pacific Corp.: The firm has submitted a total bid price of **$1,817,000.00.** The submitted Statement of Bidders Experience form included lists of projects from 2004-2013 with resumes. The bidder submitted a copy of their current Guam Contractors License **#1009, #7940.** All other required documents are complete and in conformance with the Invitation For Bid.

Chi Construction Inc.: The firm has submitted a total bid price of **$3,400,000.00.** The submitted Statement of Bidders Experience form included lists of projects from 1991-2013 with no resumes. The bidder submitted a copy of their current Guam Contractors License **#2019, #7940.** All other required documents are complete and in conformance with the Invitation For Bid.

Camacho/Dirt Doctor: The firm has submitted a total bid price of **$1,493,000.00.** The submitted Statement of Bidders Experience form included lists of projects from 2006-2011 with resumes. The bidder submitted a copy of their current Guam Contractors License **#7094, 7940.** All other required documents are complete and in conformance with the Invitation For Bid

Ian Corporation: The firm has submitted a total bid price of **$1,062,268.57.** The submitted Statement of Bidders Experience form included lists of projects from 2009-2012 with resumes. The bidder submitted a copy of their current Guam Contractors License **#8524, #3061, #8137, #7940.** All other required documents are complete and in conformance with the Invitation For Bid

BME & Sons Inc.: The firm has submitted a total bid price of **$2,348,724.00.** The submitted Statement of Bidders Experience form included lists of projects from 2002-2013 with resumes.

The bidder submitted a copy of their current Guam Contractors License **#3028, #7940**. All other required documents are complete and in conformance with the Invitation For Bid

Base Corporation: The firm has submitted a total bid price of **$2,435,000.00.** The submitted Statement of Bidders Experience form included lists of projects from 2002-2012 with resumes. The bidder submitted a copy of their current Guam Contractors License **#8035.** All other required documents are complete and in conformance with the Invitation For Bid

Chugach World Service Inc.: The firm has submitted a total bid price of **$2,220,582.30.** The submitted Statement of Bidders Experience form included lists of projects from 2003-2013 with resumes. The bidder submitted a copy of their current Guam Contractors License **#3061, #7940.** All other required documents are complete and in conformance with the Invitation For Bid.

Recommendation:
Pursuant to the guidelines in Item 9 of the Instruction to Bidders, the award of contract will be made to the **lowest responsible, responsive bidder.** Ian Corporation has been determined to have met the standards of responsibility and responsiveness outlined in the Guam Procurement Regulations and has deemed to be the lowest responsible, responsive bidder.

Therefore, it is recommended that **Ian Corporation** be awarded the contract in the amount of **$1,062,268.57** for this project.

Should you have any questions or concerns, please call our office at your convenience.

EXECUTIVE SUMMARY

INVITATION FOR BID
GIAA TSA EXPANSION CCO & OFFICES/CONFERENCE ROOMS
IFB NO. GIAA-C04-FY13
PROJECT NO. GIAA-FY13-06-01

August 9, 2013

Purpose

Board action is requested to approve the bid award of the above project under the Invitation For Bid No. GIAA-C04-FY13.

Background

The project is to provide construction and renovation work inclusive of all labor, materials, supplies and equipment to TSA expansion CCO & offices/conference rooms.

Procurement Background

The solicitation announcement was advertised through the local newspapers during the months of June & July 2013. The bid submission deadline and bid opening took place on August 1, 2013.

Nine (9) firms/individuals purchased bid package and five (5) firms submitted bid proposal before the submission deadline. The firms were evaluated and determined to be acceptable. As required by the Procurement Rules and Regulations, the bids were publicly opened and read aloud in the presence of the bidders.

The submitted bids are presented below:

BIDDER'S NAME	AMOUNT
AIC International Inc.	$441,345.00
IAN Corporation	$266,248.16
Allied Pacific Builders Inc.	$298,000.00
Rex International Inc.	$483,200.00
BME & Sons Inc.	$252,482.00

Legal Review

Upon receipt of the required Performance and Payment Bonds, contract documents will be forwarded to legal counsel for review prior to execution and issuance of Notice to Proceed.

Financial Review

The lowest responsive, responsible total bid amount received is $252,482.00 or 8% below government estimate of $274,424.00. Funding for this project is available under the CIF.

Recommendation

Management recommends the contract award of **$252,482.00** to **BME & Sons Inc.,** who has been determined to have met the standards of responsibility and responsiveness outlined in Guam Procurement Regulation.

MEMORANDUM

TO: Charles H. Ada II, Executive Manager

FROM: Franklin P. Taitano, Supply Management Administrator
Victor J. Cruz, Chief Engineer

**SUBJECT: Bid Evaluation and Recommendation "Invitation For Bid"
For GIAA TSA Expansion CCO & Offices/Conference Rooms
IFB No. GIAA-C04-FY13
Project No. GIAA-FY13-06-01**

Procurement Background:
The above referenced Invitation For Bid was publicly announced through the local newspaper during the months of June & July 2013. A pre-bid conference was held on July 5, 2013 at the Terminal Conference Room. The bid submission deadline and bid opening took place on August 1, 2013.

Nine (9) firms/individuals purchased the bid package and five (5) firms submitted proposal before the bid submission deadline. The bid submittals were opened in the presence of the bidders, members of the public and several GIAA representatives. The bid offer was read aloud by the Supply Management Administrator and tabulated by a Procurement staff.

The results of the bid price submittals are as follows in the order they were received and opened:

BIDDER'S NAME	AMOUNT
AIC International Inc.	$441,345.00
IAN Corporation	$266,248.16
Allied Pacific Builders Inc.	$298,000.00
Rex International Inc.	$483,200.00
BME & Sons Inc.	$252,482.00

Bid Analysis and Evaluation:
Pursuant to Section 9 of the Instructions to Bidders, the contract is to be awarded, if it is to be awarded, as soon as possible to the lowest responsible, responsive bidder. To determine the responsibility of bidders, the bid package specified the required documents that bidders must submit with their bid packages. The attached abstract illustrates the inventory of required documents and bidders submittal.

AIC International Inc.: The firm has submitted a total bid price of **$441,345.00.** The submitted Statement of Bidders Experience form included lists of projects current and past with resumes. The bidder submitted a copy of their current Guam Contractors License **#1572, #CLB06-0108.** All other required documents are complete and in conformance with the Invitation For Bid.

IAN Corporation: The firm has submitted a total bid price of **$266,248.16.** The submitted Statement of Bidders Experience form included lists of projects from 2009-2013 with resumes. The bidder submitted a copy of their current Guam Contractors License **#CLB06-0005, #CLB06-0068, #5721.** All other required documents are complete and in conformance with the Invitation For Bid.

Allied Pacific Builders Inc.: The firm has submitted a total bid price of **$298,000.00.** The submitted Statement of Bidders Experience form included lists of projects from 2007-2012 with resumes. The bidder submitted a copy of their current Guam Contractors License **#CLB06-0010, #7547, #CLB10-0575.** All other required documents are complete and in conformance with the Invitation For Bid.

Rex International Inc.: The firm has submitted a total bid price of **$483,200.00.** The submitted Statement of Bidders Experience form included lists of projects from 1994-2011 with resumes. The bidder submitted a copy of their current Guam Contractors License **#1347, #CLB07-0193.** All other required documents are complete and in conformance with the Invitation For Bid.

BME & Sons Inc.: The firm has submitted a total bid price of **$252,482.00.** The submitted Statement of Bidders Experience form included lists of projects from 2006-2013 with resumes. The bidder submitted a copy of their current Guam Contractors License **#3028.** All other required documents are complete and in conformance with the Invitation For Bid.

Recommendation:
Pursuant to the guidelines in Item 9 of the Instruction to Bidders, the award of contract will be made to the **lowest responsible, responsive bidder.** BME & Sons Inc. has been determined to have met the standards of responsibility and responsiveness outlined in the Guam Procurement Regulations and has deemed to be the lowest responsible, responsive bidder.

Therefore, it is recommended that **BME & Sons Inc.** be awarded the contract in the amount of **$252,482.00** for this project.

Should you have any questions or concerns, please call our office at your convenience.

BOARD OF DIRECTORS OF THE
A.B. WON PAT INTERNATIONAL AIRPORT AUTHORITY, GUAM

RESOLUTION NO. __

RESOLUTION DETERMINING TO ISSUE AND SELL GENERAL REVENUE BONDS IN AN AGGREGATE PRINCIPAL AMOUNT NOT TO EXCEED $265,000,000, AND APPROVING AND AUTHORIZING RELATED DOCUMENTS, AGREEMENTS AND ACTIONS

WHEREAS, pursuant to Chapter 1 of Title 12 of the Guam Code Annotated, as amended (the "Act"), the A.B. Won Pat International Airport Authority, Guam (the "Authority"), is authorized (subject to the approval of the Legislature of Guam pursuant to Section 1208 of the Act and the approval of the Legislature and the Guam Economic Development Authority ("GEDA") pursuant to Section 50103(k) of Division 2 of Title 12 of the Guam Code Annotated, such approval by the Legislature being referred to herein as the "Bond Act") to issue and sell revenue bonds for the purpose of providing money to be used for the cost of the acquisition, purchase, construction, reconstruction, improvement, betterment or extension of the Antonio B. Won Pat Guam International Air Terminal, together with related facilities or other airports and related facilities (as more particularly described in the Act, the "Airport"), and for the purpose of refunding any bonds then outstanding under the Act, subject to the requirements and limitations set forth in the Act; and

WHEREAS, the Authority previously entered into an indenture, dated as of September 1, 2003, as supplemented and amended (the "Indenture"), providing for the issuance of A.B. Won Pat Guam International Airport Authority General Revenue Bonds, 2003 Series A, 2003 Series B, 2003 Series C and 2003 Series D (collectively, the "2003 Bonds"); and

WHEREAS, the Authority proposes to issue and sell one or more additional series of general revenue bonds under the Indenture (the "2013 Bonds") for the purposes of financing and refinancing the acquisition, construction, reconstruction, improvement, betterment and extension of the Airport, refunding the outstanding 2003 Bonds and paying related costs of issuance and funding a debt service reserve fund for the 2013 Bonds (collectively, the "Project"); and

WHEREAS, this Board of Directors (the "Board") has determined that it is in the best interests of the Authority to redeem or otherwise retire the outstanding 2003 Bonds, and that it is in the best interests of the Authority to issue the 2013 Bonds pursuant to the Act for the purposes described in this resolution; and

WHEREAS, this Board desires to authorize the appropriate officers and employees of the Authority to determine the terms of the 2013 Bonds to be issued and to proceed with arrangements for the sale of the 2013 Bonds; and

WHEREAS, pursuant to Section 50103(k) of Division 2 of Title 12 of the Guam Code Annotated, agencies and instrumentalities of the Government of Guam, including the Authority shall issue bonds and other obligations only by means of and through the agency of GEDA; and

WHEREAS, the Authority has paid or may pay certain expenditures (the "Reimbursement Expenditures") in connection with the Project within 60 days prior to the adoption of this Resolution, and prior to the issuance of the 2013 Bonds, for the purpose of financing costs associated with the Project on a long-term basis; and

WHEREAS, Section 1.103-8(a)(5) and Section 1.150-2 of the Treasury Regulations require the Authority to declare its reasonable official intent to reimburse prior expenditures for the Project with proceeds of a subsequent tax-exempt borrowing; and

WHEREAS, the Authority wishes to declare its intention to authorize the issuance of 2013 Bonds for the purpose of financing costs of the Project (including reimbursement of the Reimbursement Expenditures) in an aggregate principal amount not to exceed the maximum principal amount authorized to be issued by the Legislature of Guam and GEDA; and

WHEREAS, as required by Section 1208 of the Act and said Section 50103(k), the authorization provided by this resolution to sell and issue the 2013 Bonds is subject to the approval by the Legislature of Guam and GEDA of the terms and conditions of the 2013 Bonds and their issuance;

NOW, THEREFORE, BE IT RESOLVED, by the Board of Directors of the A.B. Won Pat International Airport Authority, Guam, as follows:

Section 1. The form of Supplemental Indenture (the "Supplemental Indenture"), among the Authority, Bank of Guam, as Trustee (the "Trustee") and U.S. Bank National Association, as Co-Trustee (the "Co-Trustee"), supplementing and amending the Indenture and providing for the issuance of the 2013 Bonds, presented to this meeting in substantially final form, is hereby approved, with such additions, changes and modifications as the Chairman of this Board, the Executive Manager of the Authority or members of the Authority staff designated in writing by said Chairman or Executive Manager (said Chairman, Executive Manager and designated staff, whether acting individually or collectively, are referred to herein as "Authorized Officers") may approve upon consultation with legal counsel, such approval to be conclusively evidenced by the form of such Supplemental Indenture executed by the Authorized Officers, who are hereby authorized and directed to execute the same. The final Supplemental Indenture shall specify the denomination or denominations and series designations in which the 2013 Bonds shall be issued.

Section 2. The form of Continuing Disclosure Agreement (the "Continuing Disclosure Agreement"), between the Authority and an initial dissemination agent to be named therein (the "Dissemination Agent"), presented to this meeting in substantially final form, is hereby approved, with such additions, changes and modifications as the Authorized Officers may approve upon consultation with legal counsel, such approval to be conclusively evidenced by the form of such Continuing Disclosure Agreement executed by the Authorized Officers, who are hereby authorized and directed to execute the same.

Section 3. The form of Bond Purchase Agreement (the "Bond Purchase Agreement"), between the Authority and Citigroup Global Markets Inc., as representative of the underwriters of the 2013 Bonds named therein (the "Underwriters"), presented to this meeting in

substantially final form, is hereby approved, with such additions, changes and modifications as the Authorized Officers may approve upon consultation with legal counsel, such approval to be conclusively evidenced by the form of such Bond Purchase Agreement executed by the Authorized Officers, who are hereby authorized and directed to execute the same.

Section 4. The form of Escrow Agreement (the "Escrow Agreement"), between the Authority and the escrow agent named therein, presented to this meeting in substantially final form, is hereby approved, with such additions, changes and modifications as the Authorized Officers may approve upon consultation with legal counsel, such approval to be conclusively evidenced by the form of such Escrow Agreement executed by the Authorized Officers, who are hereby authorized and directed to execute the same.

Section 5. The form of preliminary official statement ("Preliminary Official Statement") presented to this meeting in substantially final form is hereby approved, with such additions, changes and modifications as the Authorized Officers may approve upon consultation with legal counsel, such approval to be conclusively evidenced by the execution of a certificate deeming final the Preliminary Official Statement for purposes of Rule 15c2-12 of the U.S. Securities and Exchange Commission by the Authorized Officers. Each of the Authorized Officers is hereby authorized to execute and deliver such certificate, to authorize the Underwriters to distribute such Preliminary Official Statement to potential purchasers of the 2013 Bonds and other interested parties, and to execute and cause to be delivered a final official statement (the "Official Statement") to purchasers of the 2013 Bonds and other interested parties, with such additions, changes and modifications from the Preliminary Official Statement as the Authorized Officers may approve upon consultation with staff and legal counsel, such approval to be conclusively evidenced by the execution and delivery of such final Official Statement by one or more of the Authorized Officers. The Underwriters are hereby authorized to cause the Official Statement to be delivered to the purchasers of the 2013 Bonds and to be distributed in preliminary form in connection with the marketing and sale of the 2013 Bonds.

Section 6. The sale, issuance and delivery of the 2013 Bonds, pursuant to the Act and the Indenture as supplemented by the Supplemental Indenture, in one or more series and in an aggregate principal amount not to exceed $265,000,000, is hereby approved, subject to the approval of the Legislature of Guam and GEDA as described above.

The Bond Purchase Agreement shall specify the aggregate principal amount of 2013 Bonds to be issued (not to exceed $265,000,000), the number of series of such 2013 Bonds, the maturity or maturities (not later than October 1, 2044), and the fixed interest rate or rates of the 2013 Bonds (established in accordance with the Act and the Bond Act) and the price or prices at which the 2013 Bonds are sold (established in accordance with the Act and the Bond Act).

Notwithstanding any other provision of this resolution, the 2013 Bonds and all obligations of the Authority under the Indenture as supplemented shall be limited obligations payable solely from the revenues and other assets of the Authority available for such purpose and shall not be a debt or liability of the Government of Guam.

Said Authorized Officers are hereby also expressly authorized to arrange for such bond insurance, reserve fund surety bond or other supplemental security arrangements for all or such portion of the 2013 Bonds as they may deem in the public interest, and to enter into any other agreements or amendments deemed by them to be necessary or appropriate in connection therewith.

Section 7. The Authorized Officers of the Authority are hereby authorized and directed to do any and all things and to execute and deliver any and all certificates, agreements and documents which they may deem necessary or advisable in order to effectuate the purposes of this resolution. Such actions may include, but are not limited to, the distribution of information and material relating to the 2013 Bonds and the execution and delivery of a letter of representations regarding book-entry provisions to The Depository Trust Company, the publication of any notices and consummation of any proceedings necessary to comply with the Act and the Internal Revenue Code of 1986 (the "Code"), including requirements of the Tax Equity and Fiscal Responsibility Act of 1982, execution of any agreements, amendments, terminations, notices, consents or directions in connection with the refunding of the 2003 Bonds or the investment of any funds on deposit under the Indenture, execution and delivery of any tax certificate or other closing certificates or amendments to be delivered in connection with the issuance, sale and delivery of the 2013 Bonds and the refunding of the 2003 Bonds.

Section 8. This resolution is being adopted by the Authority for purposes of establishing compliance with the requirements of Section 1.103-8(a)(5) and Section 1.150-2 of the Treasury Regulations. In such regard, the Authority hereby declares its official intent to use proceeds of indebtedness to reimburse the Reimbursement Expenditures.

Section 9. All actions heretofore taken by the officers, representatives or agents of the Authority in connection with the issuance and sale of the 2013 Bonds are hereby ratified, confirmed and approved.

Section 10. This resolution shall take effect from and after its adoption.

SECRETARY'S CERTIFICATE

I, Amanda O'Brien-Rios, Secretary of the Board of Directors of the A.B. Won Pat International Airport Authority, Guam, hereby certify as follows:

The foregoing is a full, true and correct copy of a resolution duly adopted at a special meeting of the members of the Board of Directors of said Authority duly and legally held at the regular meeting place thereof on August 9, 2013, of which meeting all of said members had due notice and at which at least a majority thereof were present;

At said meeting said resolution was adopted by the following vote:

Ayes:

Noes:

Absent:

Said original resolution has not been amended, modified or rescinded since the date of its adoption, and the same is now in full force and effect.

Dated:

THIS THIRD SUPPLEMENTAL INDENTURE, made and entered into and dated as of [_____] 1, 2013, by and among the A.B. WON PAT INTERNATIONAL AIRPORT AUTHORITY, GUAM, (formerly known as the A.B. Won Pat Guam International Airport Authority), a duly organized public corporation and autonomous instrumentality of the government of Guam (the "Authority"), BANK OF GUAM, a domestic banking corporation organized under the laws of Guam, authorized to do business within Guam and qualified to accept and administer the trusts hereby created, as trustee (the "Trustee") and depositary (the "Depositary"), and U.S. BANK NATIONAL ASSOCIATION, a national banking association organized under the laws of the United States of America and qualified to accept and administer the trusts hereby created, as co-trustee (the "Co-Trustee"), paying agent (the "Paying Agent") and registrar (the "Registrar"),

W I T N E S S E T H:

WHEREAS, pursuant to Chapter 1 of Title 12 of the Guam Code Annotated, as amended (as more fully described in the Indenture referred to herein, the "Act"), the Authority is authorized to issue and sell revenue bonds for the purpose of providing money to be used for the cost of the acquisition, purchase, construction, reconstruction, improvement, betterment or extension of the Airport (as defined in the Indenture hereinafter identified), and for the purpose of refunding any bonds then outstanding under the Act;

WHEREAS, the Authority has determined to issue revenue bonds for such purposes and to that end has duly authorized the execution and delivery of that certain Indenture, dated as of September 1, 2003, by and between the Authority and Bank of Hawaii (the "Original Trustee"), as predecessor trustee, as supplemented by that certain Supplemental Indenture, dated as of September 1, 2003, by and between the Authority and the Original Trustee (the "First Supplemental Indenture"), authorizing the issuance of the 2003 Bonds (as defined herein), and as further supplemented by that certain Supplemental Indenture, dated as of October 1, 2006, among the Authority, the Trustee and the Co-Trustee (the "Second Supplemental Indenture"), pursuant to which the Trustee and the Co-Trustee were appointed in replacement of the Original Trustee (as amended and supplemented, collectively, the "Indenture") to secure the payment of the principal thereof and the interest and premium, if any, thereon, and the observance of the covenants and conditions therein contained;

WHEREAS, revenue bonds may be issued pursuant to the Indenture and one or more indentures supplemental thereto (each, a "Supplemental Indenture"), from time to time, in an aggregate principal amount not limited except as therein provided, and said revenue bonds are to be designated as the "A.B. Won Pat Guam International Airport Authority General Revenue Bonds" (the "Bonds");

WHEREAS, it is now desirable and necessary and in the best interests of the Authority to authorize the issuance of $[Series A Par] principal amount of Bonds further designated as "2013 Series A Bonds", $[Series B Par] principal amount of Bonds further designated as "2013 Series B Bonds", and $[Series C Par] principal amount of Bonds further designated as "2013 Series C Bonds" (collectively, the "2013 Bonds") for the purposes set forth herein, including to refund all or a portion of the remaining outstanding 2003 Bonds;

WHEREAS, pursuant to and subject to the terms and conditions set forth in Public Law No. 32-62 (the "Refunding Bond Act"), the Legislature of Guam (as required by Section 50103(k) of Title 12, Guam Code Annotated (the "GEDA Law") and the Act) approved the terms and conditions of the issuance of said 2013 Bonds, so long as the 2013 Bonds meet the requirements set forth in the Refunding Bond Act;

WHEREAS, pursuant to the GEDA Law, the Guam Economic Development Authority has approved the sale of the 2013 Bonds pursuant to its Resolution No. 13-[___], adopted on _____, 2013;

WHEREAS, the 2013 Bonds shall be additional Bonds issued under the Indenture as supplemented hereby, in particular Section 3.04 thereof; and

WHEREAS, Section 9.01(A) of the Indenture provides that the Indenture may be modified or amended at any time by a Supplemental Indenture which shall become binding with the consents of the Owners of at least sixty percent (60%) in Accreted Value of the Bonds then Outstanding (calculated as set forth in the Indenture), provided that if such modification or amendment will, by its terms, not take effect so long as any bonds of any particular maturity or Series remain Outstanding, the consent of the Owners of Bonds of such maturity or Series shall not be required and such Bonds shall not be deemed to be Outstanding for the purpose of any such calculation of Outstanding Bonds;

WHEREAS, a matter has arisen under the Indenture regarding the establishment and application of the Bond Reserve Account Requirement in respect of Additional Bonds;

WHEREAS, the Authority has deemed it necessary and desirable to make provision in regard to such matter, and to clarify and supplement certain other provisions by making certain amendments to the Indenture, all as set forth in this Supplemental Indenture;

WHEREAS, the amendments effected by this Supplemental Indenture shall become effective upon the delivery of the 2013 Bonds and the concurrent defeasance of all of the Outstanding 2003 Bonds, and the Owners of the 2013 Bonds, by their purchase thereof, shall be deemed to have agreed and consented to such amendments;

WHEREAS, all acts, conditions and things required by the laws of the United States of America and the Government of Guam to exist, to have happened and to have been performed precedent to and in connection with the issuance of said 2013 Bonds exist, have happened, and have been performed in regular and due time, form and manner as required by law, and the Authority is now duly authorized and empowered, pursuant to each and every requirement of law, to issue said Bonds for the purpose, in the manner and upon the terms herein provided;

NOW, THEREFORE, THIS THIRD SUPPLEMENTAL INDENTURE WITNESSETH, in consideration of the premises and of the mutual covenants herein contained and of the purchase and acceptance of the 2013 Bonds by the owners thereof, and for other valuable considerations, the receipt whereof is hereby acknowledged, the Authority does hereby covenant and agree with the Trustee as follows:

ARTICLE XX

DEFINITIONS

Section 20.01 Definitions. Unless the context otherwise requires, the terms defined in the Indenture shall, for all purposes of this Supplemental Indenture and of any certificate, opinion or other document herein mentioned, have the meanings specified in the Indenture.

In addition, unless the context otherwise requires, the terms defined in this Section shall for all purposes of the Indenture and this Supplemental Indenture and of any certificate, opinion or other document herein mentioned, have the meanings herein specified.

Bond Year

"Bond Year" means, with respect to the 2013 Bonds, the period of twelve consecutive months ending on [October 1] of each year if 2013 Bonds are or will be Outstanding in such twelve-month period; provided that the first Bond Year shall commence on the date of delivery of the 2013 Bonds and end on [October 1], 2014.

DTC

"DTC" means The Depository Trust Company, New York, New York, and its successors and assigns.

Escrow Agent

"Escrow Agent" means U.S. Bank National Association, as Paying Agent for the Refunded Bonds and escrow agent appointed pursuant to the Escrow Agreement.

"2013 Series B Bonds" means the $[Series B Par] principal amount of A.B. Won Pat International Airport Authority, Guam General Revenue Bonds, 2013 Series B.

"2013 Series C Bonds" means the $[Series C Par] principal amount of A.B. Won Pat International Airport Authority, Guam General Revenue Bonds, 2013 Series C.

2013 Series [A/B/C] Projects

"2013 Series [A/B/C] Projects" means [to come].

ARTICLE XXI

AUTHORIZATION AND TERMS OF THE 2013 BONDS

Section 21.01 Authorization of 2013 Bonds. The following Series of Bonds are hereby authorized and created under the Act for the purpose[(s)] of (i) [financing and refinancing the 2013 Series [A/B/C] Projects (ii)] refunding the Refunded Bonds and (iii) paying related Costs of Issuance. Such Series of Bonds are hereby designated as, respectively, "A.B. Won Pat International Airport Authority, Guam General Revenue Bonds, 2013 Series A," "A.B. Won Pat International Airport Authority, Guam General Revenue Bonds, 2013 Series B", and "A.B. Won Pat International Airport Authority, Guam General Revenue Bonds, 2013 Series C." The aggregate principal amount of 2013 Bonds authorized to be issued and outstanding hereunder is expressly limited to the 2013 Authorized Amount.

The 2013 Series A Bonds, the 2013 Series B Bonds and the 2013 Series C Bonds shall collectively be treated as a single Series under the Indenture.

Section 21.02 Terms of 2013 Bonds; Appointments; Designations.

The 2013 Bonds shall be issued as fully registered Bonds without coupons in the denominations of $5,000 or any integral multiple thereof. The 2013 Bonds shall be dated their date of delivery, and interest thereon (based on a 360-day year of twelve thirty-day months) shall

be payable on [April 1 and October 1] of each year, commencing [October 1, 2013], (each, an "Interest Payment Date" for the 2013 Bonds).

The 2013 Series A Bonds shall mature on the dates and in the amounts and shall bear interest at the rates per annum specified in the following table:

Maturity Date ([October 1])	Principal Amount	Interest Rate
	$	%

The Principal Payment Period for the 2013 Series A Bonds shall be the twelve calendar months next preceding each maturity date for such Bonds. [The 2013 Series A Bonds are Serial Bonds/ Term Bonds.]

The 2013 Series B Bonds shall mature on the dates and in the amounts and shall bear interest at the rates per annum specified in the following table:

Maturity Date ([October 1])	Principal Amount	Interest Rate
	$	%

The Principal Payment Period for the 2013 Series B Bonds shall be the twelve calendar months next preceding each maturity date for such Bonds. [The 2013 Series B Bonds are Serial Bonds/ Term Bonds.]

The 2013 Series C Bonds shall mature on the dates and in the amounts and shall bear interest at the rates per annum specified in the following table:

Maturity Date ([October 1])	Principal Amount	Interest Rate
	$	%

The Principal Payment Period for the 2013 Series C Bonds shall be the twelve calendar months next preceding each maturity date for such Bonds. [The 2013 Series C Bonds are Serial Bonds/ Term Bonds.]

The Record Date for all scheduled payments of principal of and interest on the 2013 Bonds shall be the 15th day of the calendar month next preceding the date each such payment is due, whether or not such 15th day is a Business Day.

The Co-Trustee is hereby appointed Depositary for the 2013 Bond Reserve Account, and Paying Agent and Registrar for the 2013 Bonds, and the Co-Trustee's corporate trust office in Los Angeles, California, is hereby confirmed as being designated the Principal Office of the Co-Trustee; provided, however, that, with respect to the transfer, registration, exchange and cancellation of the 2013 Bonds, the office of the Paying Agent in St. Paul, Minnesota shall be the Principal Office of the Co-Trustee.

The Trustee is hereby appointed Depositary for the Series 2013 Costs of Issuance Account and the Series 2013 Rebate Account.

The principal of and premium, if any, on each 2013 Bond shall be payable in lawful money of the United States of America to the Owner of such Bond, upon the surrender of such Bond at the Principal Office of any Paying Agent for such Bond. The interest on each 2013 Bond shall be payable in like lawful money to the person whose name appears on the bond registration books of the Registrar for such Bond as the Owner of such Bond as of the close of business on the Record Date for such Bond preceding the Interest Payment Date, whether or not such Record Date is a Business Day, such interest to be paid by check or mailed by first class mail to such Owner at such address as appears on such registration books or at such address as such Owner may have filed with the Registrar for that purpose. Upon the written request of a registered owner of one million dollars ($1,000,000) or more in aggregate principal amount of 2013 Bonds, payment of interest on and principal (including Redemption Price) of such Bonds shall be made by wire transfer from the Paying Agent to the registered owner of such Bonds. Any such principal payment by wire transfer shall nevertheless be subject to prior surrender of the 2013 Bonds with respect to which such payment is made. Each payment of interest or principal on 2013 Bonds, whether by check, draft or wire transfer, shall be accompanied by information specifying for each maturity of such Bonds with respect to which such payment is being made, the amount and the CUSIP number (if available).

Each 2013 Bond shall bear interest from the Interest Payment Date next preceding the date of authentication thereof unless it is authenticated as of a day during the period from the Record Date preceding any Interest Payment Date to the Interest Payment Date, inclusive, in which event it shall bear interest from such Interest Payment Date, or unless it is authenticated on or before [September 15, 2013], in which event it shall bear interest from its date of delivery; provided, however, that if, at the time of authentication of any 2013 Bond, interest is in default on Outstanding Bonds of such Series, such Bond shall bear interest from the Interest Payment Date to which interest has previously been paid or made available for payment on the Outstanding Bonds of such Series.

The Registrar for the 2013 Bonds shall assign each 2013 Bond authenticated and registered by it a distinctive letter, or number, or letter and number, and shall maintain a record thereof which shall be available to the Authority for inspection.

The 2013 Bonds, the Registrar's certificate of authentication and registration and the form of assignment to appear thereon shall be in substantially the forms set forth in Exhibit A hereto, respectively, with necessary or appropriate variations, omissions and insertions as permitted or required by the Indenture.

Section 21.03 Terms of Redemption of the 2013 Bonds. (A) The Authority shall have the right to redeem 2013 Bonds on any date prior to their respective stated maturities, as a whole, or in part by lot within each maturity so that the reduction in Annual Debt Service for the 2013 Bonds for each Bond Year after such redemption date shall be as nearly proportional as practicable, from and to the extent of proceeds received by the Authority due to a governmental taking of the Airport or portions thereof by eminent domain proceedings, if such amounts are not used for additions, improvements or extensions to the Airport, under the circumstances and upon the conditions and terms set forth in the Indenture, at the principal amount thereof plus interest accrued thereon, without premium.

(B) The 2013 Bonds maturing after [October 1], 2013 [(other than the 2013 Series __ Bonds maturing [October 1], 20__ and [October 1], 20__, as set forth below)] are subject to redemption prior to their respective stated maturities, at the option of the Authority, from any source of available moneys, on any date on or after [October 1], 20__, as a whole, or in part by such maturity or maturities or portions thereof as may be determined by the Authority (or by lot within a maturity in the absence of such a determination), at a Redemption Price equal to the principal amount thereof to be redeemed plus accrued interest thereon to the date fixed for redemption.

(C) The 2013 Bonds maturing on October 1, 20__ (the "Series __ 20__ Term Bonds") are also subject to redemption prior to their stated maturity in part, by lot, from Mandatory Sinking Account Payments established for such maturity in this subsection, upon payment of the principal amount thereof and accrued interest thereon to the date fixed for redemption, without premium. Subject to the terms and conditions set forth in this Section and in the Indenture, such Series __ 20__ Term Bonds shall be redeemed (or paid at maturity, as the case may be) by application of Mandatory Sinking Account Payments for such Series __ 20__ Term Bonds, in the amounts (after giving effect to the credits provided for in Section 5.05 of the Indenture) and on October 1 in the years hereinafter set forth:

Mandatory Sinking Account Payments for
Bonds Due October 1, 20__

Section 21.04 Special Covenants as to Book-Entry Only System for 2013 Bonds. (a) Except as otherwise provided in subsections (b) and (c) of this Section 21.04, all of the 2013 Bonds initially issued shall be registered in the name of Cede & Co., as nominee for The Depository Trust Company, New York, New York ("DTC"), or such other nominee as DTC shall request pursuant to the Representation Letter. Payment of the interest on any 2013 Bond registered in the name of Cede & Co. shall be made on each interest payment date for such 2013 Bonds to the account, in the manner and at the address indicated in or pursuant to the Representation Letter.

(b) The 2013 Bonds initially shall be issued in the form of a single authenticated fully registered bond for each stated maturity of each portion of such 2013 Bonds, representing the aggregate principal amount of the 2013 Bonds of such portion and maturity. Upon initial issuance, the ownership of all such 2013 Bonds shall be registered in the registration records maintained by the Registrar pursuant to Section 2.05 of the Indenture in the name of Cede & Co., as nominee of DTC, or such other nominee as DTC shall request pursuant to the Representation Letter. The Trustee, the Co-Trustee, the Registrar, the Authority and any paying agent may treat DTC (or its nominee) as the sole and exclusive owner of the 2013 Bonds registered in its name for the purposes of payment of the principal or redemption price of and interest on such 2013 Bonds, selecting the 2013 Bonds or portions thereof to be redeemed, giving any notice permitted or required to be given to Bondowners hereunder, registering the transfer of 2013 Bonds, obtaining any consent or other action to be taken by Bondowners of the 2013 Bonds and for all other purposes whatsoever; and the Trustee, the Co-Trustee, the Registrar, the Authority and any paying agent shall not be affected by any notice to the contrary. Neither the Trustee, the Co-Trustee, the Authority nor any paying agent shall have any responsibility or obligation to any Participant (which shall mean, for purposes of this Section 21.04, securities brokers and dealers, banks, trust companies, clearing corporations and other entities, some of whom directly or indirectly own DTC), any person claiming a beneficial ownership interest in the 2013 Bonds under or through DTC or any Participant, or any other person which is not shown on the registration records as being a Bondowner, with respect to (i) the accuracy of any records maintained by DTC or any Participant, (ii) the payment by DTC or any Participant of any amount in respect of the principal or redemption price of or interest on the 2013 Bonds, (iii) any notice which is permitted or required to be given to Holders of the 2013 Bonds hereunder, (iv) the selection by DTC or any Participant of any person to receive payment in the event of a partial redemption of the 2013 Bonds, or (v) any consent given or other action taken by DTC as Holder of the 2013 Bonds. The Paying Agent shall pay all principal of

and premium, if any, and interest on the 2013 Bonds only at the times, to the accounts, at the addresses and otherwise in accordance with the Representation Letter, and all such payments shall be valid and effective to satisfy fully and discharge the Authority's obligations with respect to the principal of and premium, if any, and interest on the 2013 Bonds to the extent of the sum or sums so paid. Upon delivery by DTC to the Trustee of written notice to the effect that DTC has determined to substitute a new nominee in place of its then existing nominee, the 2013 Bonds will be transferable to such new nominee in accordance with subsection (f) of this Section 21.04.

(c) In the event that the Authority elects to discontinue the book-entry system for any 2013 Bonds, the Trustee shall, upon the written instruction of the Authority, so notify DTC, whereupon DTC shall notify the Participants of the availability through DTC of bond certificates. In such event, such 2013 Bonds will be transferable in accordance with subsection (f) of this Section 21.04. DTC may determine to discontinue providing its services with respect to the 2013 Bonds at any time by giving written notice of such discontinuance to the Authority or the Trustee and discharging its responsibilities with respect thereto under applicable law. In such event, the 2013 Bonds will be transferable in accordance with subsection (f) of this Section 21.04. Whenever DTC requests the Authority and the Trustee to do so, the Trustee and the Authority will cooperate with DTC in taking appropriate action after reasonable notice to arrange for another securities depository to maintain custody of all certificates evidencing the 2013 Bonds then Outstanding. In such event, the 2013 Bonds will be transferable to such securities depository in accordance with subsection (f) of this Section 21.04, and thereafter, all references in this Supplemental Indenture to DTC or its nominee shall be deemed to refer to such successor securities depository and its nominee, as appropriate.

(d) Notwithstanding any other provision of this Supplemental Indenture to the contrary, so long as all 2013 Bonds Outstanding are registered in the name of any nominee of DTC, all payments with respect to the principal of and premium, if any, and interest on each such 2013 Bond and all notices with respect to each such 2013 Bond shall be made and given, respectively, to DTC as provided in the Representation Letter.

(e) The Trustee is hereby authorized and requested to execute and deliver the Representation Letter and, in connection with any successor nominee for DTC or any successor depository, enter into comparable arrangements, and shall have the same rights with respect to its actions thereunder as it has with respect to its actions under this Supplemental Indenture.

(f) In the event that any transfer or exchange of 2013 Bonds is authorized under subsection (b) or (c) of this Section 21.04, such transfer or exchange shall be accomplished upon receipt by the Registrar from the registered owner thereof of the 2013 Bonds to be transferred or exchanged and appropriate instruments of transfer to the permitted transferee, all in accordance with the applicable provisions of Sections 2.03 and 2.04 of the Indenture. In the event 2013 Bond certificates are issued to Holders other than Cede & Co., its successor as nominee for DTC as holder of all the 2013 Bonds, another securities depository as holder of all the 2013 Bonds, or the nominee of such successor securities depository, the provisions of Sections 2.03 and 2.04 of the Indenture shall also apply to, among other things, the registration, exchange and transfer of the 2013 Bonds and the method of payment of principal of, premium, if any, and interest on the 2013 Bonds.

ARTICLE XXII

ISSUANCE OF 2013 BONDS; CREATION OF ACCOUNTS; APPLICATION OF PROCEEDS

Section 22.01 Issuance of 2013 Bonds. At any time after the execution and delivery of this Supplemental Indenture, the Authority may sell and execute and the Registrar for the 2013 Bonds shall authenticate and, upon the Order of the Authority, deliver 2013 Series A Bonds in an aggregate principal amount not to exceed $[Series A Par], 2013 Series B Bonds in an aggregate principal amount not to exceed $[Series B Par], and 2013 Series C Bonds in an aggregate principal amount not to exceed $[Series C Par].

Section 22.02 Application of Proceeds of 2013 Bonds and Other Moneys; Defeasance of Refunded Bonds. (A) The net proceeds received by the Authority from the sale of the 2013 Bonds shall be deposited with the Co-Trustee, who shall forthwith transfer or apply, as applicable, such proceeds in the following manner, as directed by a Request of the Authority:

(1) The proceeds received from the sale of the 2013 Series A Bonds shall be applied by the Co-Trustee in the following manner, as directed by a Request of the Authority:

(a) [the Co-Trustee shall transfer to the Escrow Agent, for deposit in the Escrow Fund, an amount equal to $_____;]

(b) [the Co-Trustee shall deposit in the 2013 Bond Reserve Account an amount equal to $_____;]

(c) [the Co-Trustee shall transfer $_____ to the Trustee for deposit in the 2013 Series A Construction Account of the Construction Fund;] and

(d) the Co-Trustee shall transfer to the 2013 Costs of Issuance Account Depositary, for deposit in the 2013 Costs of Issuance Account, the balance of such proceeds.

(2) The proceeds received from the sale of the 2013 Series B Bonds shall be applied by the Co-Trustee in the following manner, as directed by a Request of the Authority:

(a) [the Co-Trustee shall transfer to the Escrow Agent, for deposit in the Escrow Fund, an amount equal to $_____;]

(b) [the Co-Trustee shall deposit in the 2013 Bond Reserve Account an amount equal to $_____;]

(c) [the Co-Trustee shall transfer $_____ to the Trustee for deposit in the 2013 Series B Construction Account of the Construction Fund;] and

(d) the Co-Trustee shall transfer to the 2013 Costs of Issuance Account Depositary, for deposit in the 2013 Costs of Issuance Account, the balance of such proceeds.

(3) The proceeds received from the sale of the 2013 Series C Bonds shall be applied by the Co-Trustee in the following manner, as directed by a Request of the Authority:

(a) [the Co-Trustee shall transfer to the Escrow Agent, for deposit in the Escrow Fund, an amount equal to $_____;]

(b) [the Co-Trustee shall deposit in the 2013 Bond Reserve Account an amount equal to $_____;]

(c) [the Co-Trustee shall transfer $_____ to the Trustee for deposit in the 2013 Series C Construction Account of the Construction Fund;] and

(d) the Co-Trustee shall transfer to the 2013 Costs of Issuance Account Depositary, for deposit in the 2013 Costs of Issuance Account, the balance of such proceeds.

(B) [*other transfers or deposits or release of amounts relating to Refunded Bonds, if any – to come*].

Section 22.03 Establishment and Application of the 2013 Costs of Issuance Account. (A) The Trustee, as 2013 Costs of Issuance Account Depositary, shall establish within the A.B. Won Pat Guam International Airport Authority construction fund (created by Section 1205 of the Act) and maintain and hold in trust under the Indenture a separate account designated as the "2013 Costs of Issuance Account". Amounts in the 2013 Costs of Issuance Account shall be used and withdrawn, as provided in the Indenture, solely for the payment of Costs of Issuance of the 2013 Bonds.

(B) Upon the earlier to occur of (i) receipt by the Trustee of a Certificate of the Authority to the effect that all Costs of Issuance for the 2013 Bonds have been paid and (ii) 180 days after the Date of Issuance, any moneys remaining on deposit in the 2013 Costs of Issuance Account shall be transferred to the Revenue Fund.

Section 22.04 Establishment and Application of Accounts Within Construction Fund. [The Trustee, as Construction Fund Depositary, shall establish within the A.B. Won Pat Guam International Airport Authority construction fund (created by Section 1205 of the Act) a separate account (the "2013 Series [A/B/C] Construction Account") which shall be applied in accordance with Section 3.03 for the purpose of paying, or reimbursing the Authority for the payment of, costs of the 2013 Series [A/ B/C/D] Projects. No transfers shall be made after the Interest Payment Date next succeeding the date of receipt by the Trustee and the Co-Trustee of a Certificate of the Authority to the effect that the 2013 Series [A/ B/C/D] Projects have been completed.]

Section 22.05 Designation of Bond Reserve Account Requirement for 2013 Bonds; Credit Facility. [The Bond Reserve Account Requirement in respect of the 2013 Bonds (the "2013 Bond Reserve Account Requirement") is hereby established as a pooled Bond Reserve Account Requirement to secure repayment of each Series of the 2013 Bonds and any one or more subsequently issued Series of Bonds designated in a Supplemental Indenture as having the same pooled Bond Reserve Account Requirement (collectively, the "2013 Bond Reserve Account Bonds") and shall be an amount equal to (a) the lesser of (i) Maximum Annual Debt Service on all Outstanding 2013 Bond Reserve Account Bonds, or (ii) one hundred and twenty-five percent (125%) of average Annual Debt Service on all Outstanding 2013 Bond Reserve Account Bonds or (b) the amount described in the next sentence. If at the time of issuance of a Series of 2013 Bond Reserve Account Bonds, the amount required to be added to the 2013 Bond Reserve Account to make the balance in the 2013 Bond Reserve Account equal to the lesser of Maximum Annual Debt Service on all Outstanding 2013 Bond Reserve Account Bonds or one hundred and twenty-five percent (125%) of average Annual Debt Service on all Outstanding 2013 Bond Reserve Account Bonds exceeds the Tax Maximum calculated with respect to such Series of 2013 Bond Reserve Account Bonds, then the 2013 Bond Reserve Account Requirement shall mean the 2013 Bond Reserve Account Requirement in effect immediately prior to the issuance of that Series of 2013 Bond Reserve Account Bonds, plus the Tax Maximum calculated with respect to that Series of 2013 Reserve Account Bonds. Moneys in the 2013 Bond Reserve Account shall be invested in Investment Securities paying interest and maturing, or subject to liquidation at the option of the Authority at a price equal to the par amount thereof plus accrued interest, not later than five (5) years from the date of such investment. The amount on deposit in the 2013 Bond Reserve Account (including any investments held therein) shall be determined by the Trustee, not less frequently than annually and upon Request of the Authority, as the fair market value thereof as of the date of such determination.]

ARTICLE XXIII

TAX COVENANTS

Section 23.01 2013 Rebate Account.

(A) The Trustee, as 2013 Rebate Account Depositary, shall establish and maintain within the Rebate Fund a separate subaccount designated as the "2013 Rebate Account." There shall be deposited in the 2013 Rebate Account from amounts in the Operation and Maintenance Fund or other lawfully available moneys such amounts as are required to be deposited therein pursuant to the Tax Certificate delivered by the Authority in connection with the issuance of the 2013 Tax-Exempt Bonds. All money at any time deposited in the 2013 Rebate Account shall be held by the Trustee in trust, to the extent required to satisfy the Rebate Requirement for the 2013 Tax-Exempt Bonds, for payment to the United States of America, and the United States of America is hereby granted a first lien on such money until such payment. All amounts required to be deposited into or on deposit in the 2013 Rebate Account shall be governed exclusively by this Section and by such Tax Certificate (which is incorporated herein by reference).

In the event that the amount in the 2013 Rebate Account exceeds the Rebate Requirement for the 2013 Tax-Exempt Bonds, upon the Request of the Authority, the Trustee shall transfer the excess from the 2013 Rebate Account to the Revenue Fund.

(B) Notwithstanding any provisions of this Section, if the Authority shall provide to the Trustee an opinion of Bond Counsel that any specified action required under this Section is no longer required or that some further or different action is required to maintain the exclusion from federal income tax of interest on any Series of Bonds, the Trustee and the Authority may conclusively rely on such opinion in complying with the requirements of this Section, and, notwithstanding Article IX of the Indenture, the covenants hereunder shall be deemed to be modified to that extent.

Section 23.02 Tax Covenants for 2013 Bonds. (A) The Authority intends that interest on the 2013 Tax-Exempt Bonds be excluded from gross income for federal income tax purposes, that the 2013 Bonds and the interest thereon be exempt from taxation by any state or political subdivision or the District of Columbia and that interest on the [2013 Series A and B Bonds] not be treated as a specific preference item for purposes of the federal individual and corporate alternative minimum taxes. The Authority reserves the right to determine the desired tax status of any additional Series of Bonds.

(A) The Authority shall not use or permit the use of any proceeds of the 2013 Tax-Exempt Bonds or any other funds of the Authority, directly or indirectly, to acquire any securities or obligations, and shall not use or permit the use of any amounts received by the Authority in any manner, and shall not take or permit to be taken any other action or actions, which would cause any such Bond to be an "arbitrage bond" within the meaning of Section 148 of the Code or to be "federally guaranteed" within the meaning of Section 149(b) of the Code.

(B) The Authority shall at all times do and perform all acts and things permitted by law and this Indenture which are necessary or desirable in order to assure that interest paid on the 2013 Tax-Exempt Bonds (or on any of them) shall be excluded from gross income for federal income tax purposes and that interest paid on the [2013 Series A and B] Bonds shall not be treated as a specific preference item for purposes of the federal individual and corporate alternative minimum taxes.

ARTICLE XXIV

AMENDMENTS TO INDENTURE AND MISCELLANEOUS

Section 24.01 Amendment to Section 1.01. The following definition is hereby amended and restated in its entirety (solely for convenience of the reader, insertions appear as **bold underlined** text and deletions appear as ~~*strikethrough italicized*~~ text):

> "Bond Reserve Account Requirement" means, as of any particular date of calculation, with respect to any Series of Bonds **for which a Bond Reserve Account Requirement is established**, an amount equal to the amount calculated for such date as specified by the Supplemental Indenture providing for the issuance of such Series of Bonds~~, *but not less than the least as of such date for such Series of (i) Maximum Annual Debt Service on all such Bonds, (ii) one hundred twenty five percent (125%) of average Annual Debt Service on all such Bonds, or (ii) ten percent (10%) of the original principal amount of such Series*~~.

Section 24.02 Amendments to Section 3.05; Designation of 2013 Bonds as "Initial Bonds."

(A) Section 3.05(A)(3) of the Indenture is hereby amended and restated as follows (solely for convenience of the reader, insertions appear as **bold underlined** text and deletions appear as ~~*strikethrough italicized*~~ text):

> "the amount of the Bond Reserve Account Requirement for such Series, **if any, and if so established, whether the Bond Reserve Account Requirement shall apply solely for such Series or on a pooled basis and, if on a pooled basis, the Series of Bonds which shall be secured by the related pooled Bond Reserve Account to which such Bond Reserve Account Requirement applies;**"

(B) Section 3.05(B)(1)(c)(i)(B) of the Indenture is hereby amended and restated as follows (solely for convenience of the reader, insertions appear as **bold underlined** text and deletions appear as ~~*strikethrough italicized*~~ text):

> A certificate of ~~*a Consulting Engineer*~~ **the Authority** setting forth (I) the projected Date of Beneficial Occupancy for the Project or Projects for which such Series of Bonds is being issued and for any other uncompleted Projects, and (II) an estimate of the cost of construction of such Projects;

(C) Section 3.05 of the Indenture is hereby amended to add the following subsection (C), as follows:

> (C) Notwithstanding the foregoing, the requirements of Section 3.05(B) shall not apply to the issuance of one or more series of Additional Bonds if, not later than the date of issuance and delivery of such Additional Bonds (which shall be the same date for all such Bonds), the Authority delivers a certificate to the Trustee stating that (i) on and as of such date, such Bonds are the only Bonds Outstanding under the Indenture, and (ii) no Parity Payment Agreements are then in effect. Such Additional Bonds shall be designated as "initial Bonds" in the related Supplemental Indenture.

(D) The 2013 Bonds are hereby designated "initial Bonds" for purposes of Section 3.05(C) of the Indenture, as amended by Section 24.01(C) hereof.

Section 24.03 Amendment and Restatement of Section 5.06. Section 5.06 of the Indenture is hereby amended and restated as follows (solely for convenience of the reader, insertions appear as **bold underlined** text and deletions appear as ~~strikethrough~~ text):

> All amounts in each Bond Reserve Account shall be used and withdrawn by the Trustee solely for the purpose of paying debt service on the Series of Bonds (including Payment Agreement Payments to the extent provided in any Supplemental Indenture) for which such Account was established in the event of a deficiency in the Debt Service Fund, in the manner and to the extent set forth in Section 5.11. **The Supplemental Indenture for any Series of Bonds may establish a pooled Bond Reserve Account Requirement for the Series of Bonds to be issued under such Supplemental Indenture and any one or more subsequently issued Series of Bonds with the same pooled Bond Reserve Account Requirement, in which case the Bond Reserve Account Requirement for the initial such Series of Bonds shall be deposited in the applicable Bond Reserve Account in an account solely for the benefit of those Bonds and any Additional Bonds designated in a related Supplemental Indenture as having the same pooled Bond Reserve Account Requirement, and on the date of issuance of any such Additional Bonds, there shall be deposited in the aforementioned account the amount necessary to increase the balance in such account to an amount equal to the Bond Reserve Account Requirement for all Bonds secured by that account.** So long as the Authority is not in default hereunder, any amount in any Bond Reserve Account in excess of its Bond Reserve Account Requirement shall be transferred to the Revenue Fund. A Supplemental Indenture providing for the issuance of a Series of Bonds may provide that income derived from the investment of the proceeds of such Series in the Bond Reserve Account for such Series prior to the completion of each Project for which such Bonds were issued

shall be deposited in the Construction Account for such Project. Otherwise, such income shall be deposited in the Revenue Fund.

If and to the extent provided by a Supplemental Indenture authorizing the issuance of a Series of Bonds, the Bond Reserve Account Requirement for ~~*such Series*~~ **the Bond Reserve Account, if any, securing such Series** may be wholly or partially satisfied by a Credit Facility. Notwithstanding anything to the contrary contained hereinbefore in this Section or in Article IV, such Supplemental Indenture may also provide that if a drawing or other claim on such Credit Facility is honored, amounts available under Section 5.02(C) for deposit in the applicable Bond Reserve Account shall be applied by the Trustee to reimburse, as soon as practicable, the amount of each payment honoring such drawing or other claim, and the Trustee shall give any notice of such reimbursement required by the applicable Credit Agreement.

Section 24.04 Qualification of Depositary. Notwithstanding the requirements of Section 8.03(F)(3) of the Indenture, U.S. Bank National Association is hereby designated, ratified and confirmed as a Fiduciary pursuant to the Indenture, and duly appointed to act as a Depositary hereunder.

IN WITNESS WHEREOF, the A.B. WON PAT INTERNATIONAL AIRPORT AUTHORITY, GUAM has caused this Third Supplemental Indenture to be signed in its name by its duly authorized officers under its seal; and BANK OF GUAM and U.S. BANK NATIONAL ASSOCIATION have caused this THIRD SUPPLEMENTAL INDENTURE to be signed in their respective corporate names by one of their authorized officers, all as of the day and year first above written.

A.B. WON PAT INTERNATIONAL AIRPORT AUTHORITY, GUAM
GENERAL REVENUE BOND,
2013 SERIES __

INTEREST RATE	MATURITY DATE	DATED DATE	CUSIP
		_____, 2013	

Registered Owner:

Principal Sum: Dollars

The A.B. WON PAT INTERNATIONAL AIRPORT AUTHORITY, GUAM, a duly organized public corporation and autonomous instrumentality of the government of Guam (herein called the "Authority"), for value received, hereby promises to pay (but only out of the Revenues and other assets pledged therefor as hereinafter mentioned) to the registered owner identified above or registered assigns, on the maturity date specified above (subject to any right of prior redemption hereinafter mentioned), the principal sum specified above in lawful money of the United States of America; and to pay interest thereon, in like lawful money and solely from said Revenues and assets, from the Interest Payment Date next preceding the date of authentication of this Bond unless this Bond is authenticated as of a day during the period from the Record Date preceding any Interest Payment Date to the Interest Payment Date, inclusive, in which event it shall bear interest from such Interest Payment Date, or unless this Bond is authenticated on or before September 15, 2013, in which event it shall bear interest from its date of delivery, until payment of such principal sum shall be discharged as provided in the indenture hereinafter mentioned, at the interest rate specified above per annum, payable on [April 1 and October 1] in each year, commencing [October 1, 2013]; provided, however, that if, at the time of authentication of this Bond, interest is in default hereon, this Bond shall bear interest from the Interest Payment Date to which interest has previously been paid or made available for payment. The principal (or redemption price) hereof is payable upon surrender hereof at the Principal Office of U.S. Bank National Association (herein called the "Paying Agent") in Los Angeles, California, and the interest hereon is payable by check or draft mailed by first class mail to the person in whose name this Bond is registered at the close of business on the fifteenth day of the month immediately preceding an interest payment date, at such person's address as it appears on the bond registration books of U.S. Bank National Association (herein called the "Registrar"). Upon the written request of a registered owner of $1,000,000 or more in aggregate principal amount of 2013 Bonds, payment of interest on and principal (including redemption price) of such Bonds will be made by wire transfer as provided in the Indenture; provided that any such principal payment shall nevertheless be subject to prior surrender of the 2013 Bonds with respect to which such payment is made.

This Bond is one of a duly authorized issue of bonds of the Authority designated as the "A.B. Won Pat Guam International Airport Authority General Revenue Bonds" (herein called the "Bonds"), unlimited in aggregate principal amount, except as otherwise provided in the laws of the United States of America and the government of Guam and in the Indenture hereinafter mentioned, which issue of Bonds consists or may consist of one or more Series of varying dates, maturities, interest rates, and redemption and other provisions, all issued or to be issued pursuant to Chapter 1 of Title 12 of the Guam Code Annotated, as amended, and that certain Indenture, dated as of September 1, 2003, as amended and supplemented (herein called the "Indenture"), by and between the Authority and the Trustee. This Bond is additionally designated "2013 Series __" (together with the other Bonds so designated, herein called the "2013 Series __ Bonds"), and is also one of a duly authorized Series of Bonds (the "2013 Bonds") in the aggregate principal amount of $_____, comprised of the 2013 Series __ Bonds and the Authority's A.B. Won Pat International Airport Authority, Guam General Revenue Bonds, 2013 Series __, its A.B. Won Pat International Airport Authority, Guam General Revenue Bonds, 2013 Series __, and its A.B. Won Pat International Airport Authority, Guam General Revenue Bonds, 2013 Series __, all issued under the provisions of the Indenture. The 2013 Bonds are issued for the purpose, among others, of refunding the Authority's General Revenue Bonds, 2003 Series ___. Reference is hereby made to the Indenture (a copy of which is on file at said office of the Trustee) and all indentures supplemental thereto for a description of the rights thereunder of the registered owners of the Bonds, of the nature and extent of the security and provisions for payment of the Bonds, of the rights, duties and immunities of the Trustee and other fiduciaries and of the rights and obligations of the Authority thereunder, to all the provisions of which Indenture the registered owner of this Bond, by acceptance hereof, assents and agrees.

The Bonds and the interest thereon (to the extent set forth in the Indenture) are payable solely from Revenues (as that term is defined in the Indenture) and other assets pledged as provided in the Indenture. Subject only to the provisions of the Indenture permitting the application thereof for or to the purposes and on the terms and conditions set forth therein, said Revenues are pledged under the Indenture to secure the payment of the principal of, premium, if any, and interest on the Bonds in accordance with their terms and the provisions of the Indenture and the payment of Credit Agreement Payments and Parity Payment Agreement Payments in accordance with their terms.

The 2013 Bonds are subject to redemption on any date prior to their respective stated maturities, as a whole, or in part by lot within each maturity so that the reduction in Annual Debt Service (as that term is defined in the Indenture) for the 2013 Bonds for each Bond Year (as that term is defined in the Indenture) after such redemption date shall be as nearly proportional as practicable, from and to the extent of proceeds received by the Authority due to a governmental taking of the Airport or portions thereof by eminent domain proceedings, if such amounts are not used for additions, improvements or extensions to the Airport, under the circumstances and upon the conditions and terms set forth in the Indenture, at the principal amount thereof plus interest accrued thereon, without premium.

The 2013 Bonds maturing after [October 1], 20__ [(other than the 2013 Series __ Bonds maturing [October 1], 20__ and [October 1], 20__, as described below)] are subject to redemption prior to their respective stated maturities, at the option of the Authority, from any

source of available moneys, on any date on or after [October 1], 20__, as a whole, or in part by such maturity or maturities or portions thereof as may be determined by the Authority (or by lot within a maturity in the absence of such a determination), at a Redemption Price equal to the principal amount thereof to be redeemed plus accrued interest thereon to the date fixed for redemption.

Notice of any redemption, identifying the Bonds or portions thereof to be redeemed, shall be given by the Registrar not less than 30 nor more than 60 days before the date fixed for redemption by first class mail to each of the registered owners of Bonds designated for redemption at their addresses appearing on the bond registration books of the Registrar on the date the Bonds to be redeemed are selected. Receipt of such notice by such registered owners shall not be a condition precedent to such redemption.

If this Bond is called for redemption and payment is duly provided herefor as specified in the Indenture, interest shall cease to accrue hereon from and after the date fixed for redemption.

The 2013 Bonds are issuable only in fully registered form in denominations of $5,000 or any integral multiple thereof. Subject to the limitations and upon payment of the charges, if any, provided in the Indenture, this Bond may be exchanged, at the Principal Office of the Registrar, in Los Angeles, California, for a new fully registered Bond or Bonds, of the same Series, maturity and tenor and of any authorized denomination or denominations and for the aggregate principal amount of this Bond then remaining outstanding.

This Bond is transferable by the registered owner hereof, in person or by its attorney duly authorized in writing, at said office of the Registrar, but only in the manner, subject to the limitations and upon payment of the charges, if any, provided in the Indenture, and upon surrender and cancellation of this Bond. Upon such transfer a new registered Bond or Bonds, of the same Series, maturity and tenor and of any authorized denomination or denominations and for the same aggregate principal amount of this Bond then remaining outstanding, will be issued to the transferee in exchange herefor. The Registrar shall not be required to register the transfer of this Bond during the period established by the Trustee for the selection of Bonds for redemption or at any time after selection of this Bond for redemption.

The Authority, the Trustee, the Paying Agent and the Registrar may treat the registered owner hereof as the absolute owner hereof for all purposes, and neither the Authority, the Paying Agent nor the Registrar shall be affected by any notice to the contrary.

The Indenture and the rights and obligations of the Authority, the registered owners of the Bonds, the Trustee, the Registrar and other fiduciaries may be modified or amended at any time in the manner, to the extent, and upon the terms provided in the Indenture, provided that no such modification or amendment shall (i) extend the fixed maturity of this Bond, or reduce the amount of principal hereof, or extend the time of payment or reduce the amount of any Mandatory Sinking Account Payment provided in the Indenture for the payment of this Bond, or extend the time of payment of any interest on this Bond or reduce the rate of interest hereon, without the consent of the registered owner hereof, or (ii) reduce the percentage of the principal amount of Bonds the consent of the registered owners of which is required to

effect any such modification or amendment, permit the creation of any lien on the Revenues and other assets pledged as security for the Bonds (including additional Bonds hereafter issued) prior to or on a parity with the lien created by the Indenture or deprive the registered owners of the Bonds of the lien of the Indenture (except as expressly provided in the Indenture), without the consent of the registered owners of all Bonds then outstanding, all as more fully set forth in the Indenture. There is no provision in the Indenture for the acceleration of amounts due on the Bonds upon the occurrence of an event of default thereunder.

The Bonds are limited obligations of the Authority and are not a lien or charge upon the funds or property of the Authority, except to the extent of the pledge and assignment herein described. Neither the faith and credit of the government of Guam nor the faith and credit of the United States of America or any political subdivision thereof is pledged to the payment of the principal of or interest on the Bonds.

This Bond shall not be entitled to any benefit under the Indenture, or become valid or obligatory for any purpose, until the certificate of authentication and registration hereon endorsed shall have been dated and signed by the Registrar.

It is hereby certified and recited that any and all conditions, things and acts required to exist, to have happened and to have been performed precedent to and in the issuance of this Bond exist, have happened and have been performed in due time, form and manner as required by the laws of the United States of America and the government of Guam, and that the amount of this Bond, together with all other indebtedness of the Authority, does not exceed any limit prescribed by such laws, and is not in excess of the amount of Bonds permitted to be issued under the Indenture.

IN WITNESS WHEREOF, the A.B. WON PAT INTERNATIONAL AIRPORT AUTHORITY, GUAM has caused this Bond to be executed in its name and on its behalf by the facsimile signature of the Chairman of its Board of Directors and the Secretary of the Authority and its seal to be reproduced hereon by facsimile, all as of the date first referenced above.

INTERNATIONAL AIRPORT AUTHORITY, GUAM

$_____	$_____	$_____
General Revenue Bonds	**General Revenue Bonds**	**General Revenue Bonds**
2013 Series A (Non-AMT)	**2013 Series B (Non-AMT)**	**2013 Series C (AMT)**

This Continuing Disclosure Agreement, dated as of _____, 2013 (the "Disclosure Agreement"), is executed and delivered by the A.B. Won Pat International Airport Authority, Guam (the "Authority"), and _____, as dissemination agent (the "Dissemination Agent"), in connection with the issuance by the Authority of the above-captioned bonds (the "Bonds"). The Bonds are being issued pursuant to the Indenture, dated as of September 1, 2003 (the "General Indenture"), as amended and supplemented, including by a Supplemental Indenture, dated as of _____ 1, 2013 (the "2013 Supplemental Indenture"), by and between the Authority and Bank of Guam, as trustee as the successor in interest to the Bank of Hawaii (the "Trustee"), and U.S. Bank National Association (the "Co-Trustee"). The General Indenture, as amended and restated, including by the 2013 Supplemental Indenture, is referred to herein as the "Indenture." The Authority and the Dissemination Agent covenant and agree as follows:

SECTION 1. Purpose of the Disclosure Agreement. This Disclosure Agreement is being executed and delivered by the Authority for the benefit of the Holders and Beneficial Owners of the Bonds and in order to assist the Participating Underwriter in complying with Securities and Exchange Commission ("S.E.C.") Rule 15c2-12(b)(5).

SECTION 2. Definitions. In addition to the definitions set forth in the Indenture, which apply to any capitalized term used in this Disclosure Agreement unless otherwise defined in this Section, the following capitalized terms shall have the following meanings:

"Annual Report" shall mean any Annual Report provided by the Authority pursuant to, and as described in, Sections 3 and 4 of this Disclosure Agreement.

"Beneficial Owner" shall mean any person that has or shares the power, directly or indirectly, to make investment decisions concerning ownership of any Bonds (including persons holding Bonds through nominees, depositories or other intermediaries).

"Dissemination Agent" initially shall mean [_____], or any successor Dissemination Agent designated in writing by the Authority (which may be the Authority) and which has filed with the Authority a written acceptance of such designation.

"Holder" shall mean the person in whose name any Bond shall be registered.

"Listed Events" shall mean any of the events listed in Section 5(a) or (b) of this Disclosure Agreement.

"MSRB" shall mean the Municipal Securities Rulemaking Board or any other entity designated or authorized by the Securities and Exchange Commission to receive reports pursuant to the Rule. Until otherwise designated by the MSRB or the Securities and Exchange Commission, filings with the MSRB are to be made through the Electronic Municipal Market Access (EMMA) website of the MSRB, currently located at http://emma.msrb.org.

"Official Statement" means the official statement of the Authority, dated as of _____, 2013, relating to the Bonds.

"Participating Underwriter" shall mean, collectively, the original underwriters of the Bonds required to comply with the Rule in connection with offering of the Bonds.

"Rule" shall mean Rule 15c2-12(b)(5) adopted by the Securities and Exchange Commission under the Securities Exchange Act of 1934, as the same may be amended from time to time.

SECTION 3. Provision of Annual Reports.

(a) The Authority shall, or shall cause the Dissemination Agent to, not later than 180 days after the end of the Authority 's fiscal year (presently September 30), commencing with the report for the fiscal year ended September 30, 2012, provide to the MSRB an Annual Report which is consistent with the requirements of Section 4 of this Disclosure Agreement. The Annual Report may cross-reference other information as provided in Section 4 of this Disclosure Agreement; provided, that the audited financial statements of the Authority may be submitted separately from the balance of the Annual Report and later than the date required above for the filing of the Annual Report if they are not available by that date. If the Authority's fiscal year changes, it shall give notice of such change in a filing with the MSRB. The Annual Report shall be submitted on a standard form in use by industry participants or other appropriate form and shall identify the Bonds by name and CUSIP number.

(b) Not later than 15 business days prior to said date, the Authority shall provide the Annual Report to the Dissemination Agent (if other than the Authority). If the Authority is unable to provide to the MSRB an Annual Report by the date required in subsection (a), the Authority shall, in a timely manner, send or cause to be sent to the MSRB a notice in substantially the form attached as Exhibit A.

(c) If the Annual Report is delivered to the Dissemination Agent for filing, the Dissemination Agent shall (if the Dissemination Agent is other than the Authority) file a report with the Authority certifying that the Annual Report has been provided pursuant to this Disclosure Agreement, stating the date it was provided to the MSRB.

SECTION 4. Content of Annual Reports. (a) The Authority's Annual Report shall contain or include by reference the following:

(a) the audited financial statements of the Authority for the prior fiscal year, prepared in accordance with generally accepted accounting principles as promulgated to apply to governmental entities from time to time by the Governmental Accounting Standards Board; provided that if the Authority's audited financial statements are not available by the time the Annual Report is required to be filed pursuant to Section 3(a), the Annual Report shall contain unaudited financial statements for such entity in a format similar to the financial statements contained in the Official Statement relating to the Bonds, and the audited financial statements shall be filed in the same manner as the Annual Report when they become available; and

(b) information regarding the level of passenger traffic at the Airport (to the extent not included in the financial statements referred to in (a) above), to the extent that such information is historical and not projected and that similar information is included in the Official Statement; and

(c) information regarding passenger airline departures (to the extent not included in the financial statements referred to in (a) above), to the extent that such information is historical and not projected and that similar information is included in the Official Statement.

Any or all of the items listed above may be set forth in one or a set of documents or may be included by specific reference to other documents, including official statements of debt issues of the Authority or related public entities, which have been made available to the public on the MSRB's website. The Authority shall clearly identify each such other document so included by reference.

SECTION 5. Reporting of Significant Events.

(a) The Authority shall give, or cause to be given, notice of the occurrence of any of the following events with respect to the Bonds in a timely manner not later than ten business days after the occurrence of the event:

1. Principal and interest payment delinquencies;

2. Unscheduled draws on debt service reserves reflecting financial difficulties;

3. Unscheduled draws on credit enhancements reflecting financial difficulties;

4. Substitution of credit or liquidity providers, or their failure to perform;

5. Adverse tax opinions or issuance by the Internal Revenue Service of proposed or final determination of taxability or of a Notice of Proposed Issue (IRS Form 5701 TEB);

6. Tender offers;

7. Defeasances;

8. Rating changes; or

9. Bankruptcy, insolvency, receivership or similar event of the obligated person.

Note: for the purposes of the event identified in subparagraph (9), the event is considered to occur when any of the following occur: the appointment of a receiver, fiscal agent or similar officer for an obligated person in a proceeding under the U.S. Bankruptcy Code or in any other proceeding under state or federal law in which a court or governmental authority has assumed jurisdiction over substantially all of the assets or business of the obligated person, or if such jurisdiction has been assumed by leaving the existing governmental body and officials or officers in possession but subject to the supervision and orders of a court or governmental authority, or the entry of an order confirming a plan of reorganization, arrangement or liquidation by a court or governmental authority having supervision or jurisdiction over substantially all of the assets or business of the obligated person.

(b) The Authority shall give, or cause to be given, notice of the occurrence of any of the following events with respect to the Bonds, if material, in a timely manner not later than ten business days after the occurrence of the event:

1. Unless described in paragraph 5(a)(5), material notices or determinations by the Internal Revenue Service with respect to the tax status of the Bonds or other material events affecting the tax status of the Bonds;

2. Modifications to rights of Bond holders;

3. Optional, unscheduled or contingent Bond calls;

4. Release, substitution, or sale of property securing repayment of the Bonds;

5. Non-payment related defaults;

6. The consummation of a merger, consolidation, or acquisition involving an obligated person or the sale of all or substantially all of the assets of the obligated person, other than in the ordinary course of business, the entry into a definitive agreement to undertake such an action or the termination of a definitive agreement relating to any such actions, other than pursuant to its terms; or

7. Appointment of a successor or additional trustee or co-trustee, or the change of name of a trustee or co-trustee.

(c) Whenever the Authority obtains knowledge of the occurrence of a Listed Event described in Section 5(b), the Authority shall determine if such event would be material under applicable federal securities laws.

(d) If the Authority learns of the occurrence of a Listed Event described in Section 5(a), or determines that knowledge of a Listed Event described in Section 5(b) would be material under applicable federal securities laws, the Authority shall within ten business days of occurrence file a notice of such occurrence with the MSRB. Notwithstanding the foregoing, notice of the Listed Event described in subsections (a)(7) or (b)(3) need not be given under this subsection any earlier than the notice (if any) of the underlying event is given to Holders of affected Bonds pursuant to the Indenture.

SECTION 6. Format for Filings with MSRB. Any report or filing with the MSRB pursuant to this Disclosure Agreement must be submitted in electronic format, accompanied by such identifying information as is prescribed by the MSRB.

SECTION 7. Termination of Reporting Obligation. The obligations of the Authority and the Dissemination Agent under this Disclosure Agreement shall terminate upon the legal defeasance, prior redemption or payment in full of all of the Bonds. If such termination occurs prior to the final maturity of the Bonds, the Authority shall give notice of such termination in a filing with the MSRB.

SECTION 8. Dissemination Agent. The Authority may, from time to time, appoint or engage a Dissemination Agent to assist it in carrying out its obligations under this Disclosure Agreement, and may discharge any such Dissemination Agent, with or without appointing a successor Dissemination Agent. The Dissemination Agent shall not be responsible in any manner for the content of any notice or report prepared by the Authority pursuant to this Disclosure Agreement. If at any time there is not any other designated Dissemination Agent, the Authority shall be the Dissemination Agent. The initial Dissemination Agent shall be [_____].

SECTION 9. Amendment; Waiver. Notwithstanding any other provision of this Disclosure Agreement, the Authority and the Dissemination Agent may amend this Disclosure Agreement (and the Dissemination Agent shall agree to any amendment so requested by the Authority), and any provision of this Disclosure Agreement may be waived, provided that the following conditions are satisfied:

(a) If the amendment or waiver relates to the provisions of Sections 3(a), 4, or 5(a) or (b), it may only be made in connection with a change in circumstances that arises from a change in legal requirements, change in law, or change in the identity, nature or status of an obligated person with respect to the Bonds, or the type of business conducted;

(b) The undertaking, as amended or taking into account such waiver, would, in the opinion of nationally recognized bond counsel, have complied with the requirements of the Rule at the time of the original issuance of the Bonds, after taking into account any amendments or interpretations of the Rule, as well as any change in circumstances; and

(c) The amendment or waiver does not, in the opinion of nationally recognized bond counsel, materially impair the interests of the Holders or Beneficial Owners of the Bonds.

In the event of any amendment or waiver of a provision of this Disclosure Agreement, the Authority shall describe such amendment in the next Annual Report, and shall include, as applicable, a narrative explanation of the reason for the amendment or waiver and its impact on the type (or in the case of a change of accounting principles, on the presentation) of financial information or operating data being presented by the Authority. In addition, if the amendment relates to the accounting principles to be followed in preparing financial statements, (i) notice of such change shall be given in a filing with the MSRB, and (ii) the Annual Report for the year in which the change is made should present a comparison (in narrative form and also, if feasible, in quantitative form) between the financial statements as prepared on the basis of the new accounting principles and those prepared on the basis of the former accounting principles.

SECTION 10. Additional Information. Nothing in this Disclosure Agreement shall be deemed to prevent the Authority from disseminating any other information, using the means of dissemination set forth in this Disclosure Agreement or any other means of communication, or including any other information in any Annual Report or notice required to be filed pursuant to this Disclosure Agreement, in addition to that which is required by this Disclosure Agreement. If the Authority chooses to include any information in any Annual Report or notice in addition to that which is specifically required by this Disclosure Agreement, the Authority shall have no obligation under this Disclosure Agreement to update such information or include it in any future Annual Report or notice of occurrence of a Listed Event or any other event required to be reported.

SECTION 11. Default. In the event of a failure of the Authority or the Dissemination Agent to comply with any provision of this Disclosure Agreement, any Holder or Beneficial Owner of the Bonds may take such actions as may be necessary and appropriate, including seeking mandate or specific performance by court order, to cause the Authority or the Dissemination Agent to comply with its obligations under this Disclosure Agreement. A default under this Disclosure Agreement shall not be deemed to be an Event of Default under the Indenture, and the sole remedy under this Disclosure Agreement in the event of any failure of the Authority or the Dissemination Agent to comply with this Disclosure Agreement shall be an action to compel performance.

SECTION 12. Beneficiaries. This Disclosure Agreement shall inure solely to the benefit of the Authority, the Dissemination Agent, the Participating Underwriter and Holders and Beneficial Owners from time to time of the Bonds, and shall create no rights in any other person or entity.

SECTION 13. Duties, Immunities and Liabilities of Dissemination Agent. The Dissemination Agent shall have only such duties as are specifically set forth in this Disclosure Agreement, and the Authority agrees to indemnify and save the Dissemination Agent and its officers, directors, employees and agents, harmless against any loss, expense and liabilities which it may incur arising out of or in the exercise or performance of its powers and duties hereunder, including the costs and expenses (including attorneys fees) of defending against any claim of liability, but excluding liabilities due to the Dissemination Agent's negligence or willful misconduct. The obligations of the Authority under this Section shall survive resignation or removal of the Co-Trustee or the Dissemination Agent and payment of the Bonds.

SECTION 14. Counterparts. This Disclosure Agreement may be executed in several counterparts, each of which shall be an original and all of which shall constitute but one and the same instrument.

SECTION 15. Governing Law. This Disclosure Agreement shall be governed by the laws of Guam.

IN WITNESS WHEREOF, this Disclosure Agreement has been executed on behalf of the Authority and the Dissemination Agent by their duly authorized representatives as of the date first written above.

_____, 2013

Board of Directors
A.B. Won Pat International Airport Authority, Guam
P.O. Box 8770
Tamuning, Guam 96931

Guam Economic Development Authority
ITC Building
590 South Marine Corps Drive, Suite 511
Tamuning, Guam 96931Ladies and Gentlemen:

Citigroup Global Markets Inc. (the "Representative"), acting on behalf of itself and Wells Fargo Securities (collectively, the "Underwriters"), hereby offers to enter into this Bond Purchase Agreement with the A.B. Won Pat International Airport Authority, Guam (the "Authority") for the purchase by the Underwriters and the sale by the Authority of its General Revenue Bonds specified below. This offer is made subject to acceptance thereof by the Authority prior to 11:59 p.m., prevailing time in New York, New York, on the date hereof, and, upon such acceptance, evidenced by the signature of a duly authorized officer of the Authority in the space provided below, this Bond Purchase Agreement shall be in full force and effect in accordance with its terms and shall be binding upon the Authority and the Underwriters. Capitalized terms used herein and not otherwise defined shall have the meanings assigned to them in the Official Statement (as defined herein).

A. Purchase of the Bonds; Authorization.

1. Upon the terms and conditions and upon the basis of the representations and warranties herein set forth, the Underwriters hereby agree to purchase from the Authority, and the Authority hereby agrees to sell to the Underwriters, all (but not less than all) of the Authority's General Revenue Bonds, 2013 Series A (Non-AMT) (the "2013 Series A Bonds"), 2013 Series B (Non-AMT) (the "2013 Series B Bonds"), 2013 Series C (AMT) (the "2013 Series C Bonds"), 2013 Series D (Taxable) (the "2013 Series D Bonds"), and 2013 Series E ([AMT]) (the "2013 Series E Bonds" and together with the 2013 Series A Bonds, 2013 Series B Bonds, the 2013 Series C Bonds, and 2013 Series D Bonds, collectively, the "2013 Bonds"), in the original aggregate principal amount of

$_____, at an aggregate purchase price of $_____ (the "Purchase Price"), representing the principal amount of the 2013 Bonds, [plus a net original issue premium/less a net original issue discount] of $_____ and less an underwriters' discount of $_____). The 2013 Bonds shall be dated the date of original issuance thereof (the "Dated Date"), shall mature on the dates (subject to prior redemption as described in the Official Statement hereinafter mentioned) and shall bear interest (from the Dated Date) at the rates set forth in the Official Statement, and shall be payable at the times and in the manner, and shall otherwise have the terms and provisions, set forth in the Official Statement.

2. The issuance, sale and delivery of the 2013 Bonds has been approved by Resolution No. _____ of the Authority adopted on _____, 2013 (the "GIAA Resolution"). The issuance and sale of the 2013 Bonds has been approved by the Guam Economic Development Authority ("GEDA") pursuant to Resolution No. _____ adopted on _____, 2013 (the "GEDA Resolution"). The 2013 Bonds shall be issued pursuant to Chapter 1 of Title 12 of the Guam Code Annotated (the "Act"). The 2013 Bonds shall be as described in and shall be issued and secured under and pursuant to an Indenture, dated as of September 1, 2003 (the "Master Indenture"), as supplemented and amended, including by a Third Supplemental Indenture, dated as of _____, 2013 (the "Third Supplemental Indenture" and, together with the Master Indenture, the "Indenture"), each by and among the Authority, Bank of Guam, as trustee (the "Trustee") and U.S. Bank National Association, as co-trustee and paying agent and registrar (the "Co-Trustee").

B. The Closing. The "Closing" shall take place at 11:45 p.m., Guam time on _____, 2013 (8:45 a.m., New York time, on _____, 2013), or on such other date or at such other time as shall have been mutually agreed upon by the Authority and the Representative as the date on or place at which the Closing shall occur (the "Closing Date"). At 8:45 a.m., New York time (or as soon thereafter as The Depository Trust Company ("DTC") permits), on the Closing Date, the Authority will cause the 2013 Bonds in definitive form, duly executed and authenticated, to be delivered to the principal office of DTC in New York, New York. Simultaneously with such delivery, and provided that all conditions to the obligations of the Underwriters set forth in Section K hereof have been satisfied and the documents referred to therein are in form and substance satisfactory to the Representative, the Underwriters will cause the Purchase Price of the 2013 Bonds to be paid in immediately available funds to the order of the Authority. The 2013 Bonds, bearing CUSIP numbers, will be in definitive form and registered in the name of "Cede & Co." as nominee of DTC. There shall be one original 2013C Bond for each maturity of the 2013 Bonds and the 2013 Bonds will be delivered to the Co-Trustee, as FAST agent on behalf of DTC pursuant to DTC's Fast Automated Securities Transfer program, at or before the date and time of the Closing. The failure of the 2013 Bonds to bear correct CUSIP numbers shall not be a basis for failure of the Underwriters to accept delivery of the 2013 Bonds.

C. Official Statement.

1. The Authority hereby consents to and confirms the prior use by the Underwriters of the Preliminary Official Statement (in printed or electronic form) dated _____. 2013, and any amendments or supplements thereto that shall be approved by the Authority, (the

"Preliminary Official Statement"), in connection with the public offering of the 2013 Bonds by the Underwriters, and further confirms the authority of the Underwriters to use, and consents to the use of, a final Official Statement (in printed or electronic form) with respect to the 2013 Bonds, to be dated the date hereof (or such other date as may be mutually agreed by the Authority and the Representative), and any amendments or supplements thereto that shall be approved by the Authority, in connection with the public offering and sale of the 2013 Bonds, to be dated the date hereof (or such other date as may be mutually agreed by the Authority and the Underwriter), and any amendments or supplements thereto that shall be approved by the Authority (the "Official Statement"), in connection with the public offering and sale of the 2013 Bonds. The Authority hereby represents and warrants that the Preliminary Official Statement previously furnished to the Representative was "deemed final" by the Authority as of its date with respect to the 2013 Bonds for purposes of Rule 15c2-12 ("Rule 15c2-12"), promulgated by the Securities and Exchange Commission (the "SEC") under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), except for the omission of such information as is specified in Rule 15c2-12(b)(1).

2. The Authority shall provide or cause to be provided to the Representative within seven (7) business days after the date of this Bond Purchase Agreement, or three (3) business days prior to the Closing, whichever comes first, ten (10) executed counterparts of the Official Statement and conformed copies of a final Official Statement in sufficient quantity to permit the Underwriters to comply with Rule 15c2-12 and other applicable rules of the SEC and the Municipal Securities Rulemaking Board (the "MSRB").

3. The Authority hereby authorizes the Representative to file, and the Representative hereby agrees to file, the Official Statement with the MSRB through its EMMA system.

D. Amendments to Official Statement. The Authority covenants with the Underwriters to notify promptly the Representative if, during the period from the date of this Bond Purchase Agreement to and including the date which is twenty-five (25) days following the End of the Underwriting Period (as hereinafter defined), any event shall occur, or information comes to the attention of the Authority that would cause the Official Statement (whether or not previously supplemented or amended) to contain any untrue statement of a material fact or to omit to state a material fact necessary in order to make the statements therein, in the light of the circumstances under which they were made, not misleading, and if in the opinion of the Representative such event or information requires the preparation and distribution of a supplement or amendment to the Official Statement, to prepare and furnish to the Representative, at the Authority's expense, such number of copies of the supplement or amendment to the Official Statement, in form and substance mutually agreed upon by the Authority and approved by the Representative, as the Representative may reasonably request and if such notification shall be given subsequent to the Closing Date, such additional legal opinions, certificates, instruments, and other documents as the Representative may reasonably deem necessary to evidence the truth and accuracy of any such supplement or amendment to the Official Statement.

E. Public Offering. The Underwriters intend to make an initial public offering of all the 2013 Bonds at prices not in excess of the initial offering price or prices set forth in the Official

Statement; provided, however, that the Underwriters may change such initial offering price or prices as they deem necessary, in their sole discretion, in connection with the offering of the 2013 Bonds without any requirement of prior notice, and may offer and sell the 2013 Bonds to certain institutions at prices lower than those stated in the Official Statement.

F. End of Underwriting Period. For purposes of this Bond Purchase Agreement, the "End of the Underwriting Period" shall mean the earlier of the Closing Date or the date on which the Underwriters do not retain an unsold balance of the 2013 Bonds for sale to the public. The Representative will provide the Authority, upon request, such information as the Authority reasonably requires to determine whether the "end of the underwriting period" for the 2013 Bonds has occurred.

G. Plan of Financing.

1. The 2013 Bonds shall be issued and secured as described in Section A hereof, substantially in the form delivered to the Representative, with only such changes therein as shall be mutually agreed upon between the Authority and the Representative prior to Closing.

2. The 2013 Bonds are being issued by the Authority for the following purposes: (a) to refund the Authority's outstanding General Revenue Bonds, 2003 Series A, 2003 Series B, 2003 Series C, and 2003 Series D (the "Refunded 2003 Bonds"), (b) to finance additions, extensions and improvements to the A.B. Won Pat Guam International Airport (the "Airport"), and (c) to pay certain expenses incurred in connection with the issuance of the 2013 Bonds.

H. Secondary Market Disclosure. The Authority agrees to comply with any and all rules and regulations currently in effect and which hereafter may be adopted by the SEC or the MSRB which are applicable to the 2013 Bonds relating to secondary market disclosure for the 2013 Bonds, including, but not limited to, Rule 15c2-12. To that end, the Authority will undertake, when required by such rules and regulations, pursuant to the Indenture and the Continuing Disclosure Certificate dated as of the Closing Date (the "Continuing Disclosure Certificate"), by and among the Authority, the Trustee and the Co-Trustee, to provide annual reports and notices of certain events as required therein. A description of this undertaking is set forth in the Preliminary Official Statement and will also be set forth in the Official Statement. Other than as described in the Preliminary Official Statement or the Official Statement, the Authority has never failed to comply with any previous undertakings to provide financial information or notices of material events in accordance with the Rule 15c2-12.

I. Representations, Warranties and Covenants of the Authority. The Authority represents and warrants to, and agrees with, each of the Underwriters that:

1. The Authority is duly organized and validly existing as a public corporation and autonomous instrumentality of the Government of Guam with full legal, right, power and authority to issue the 2013 Bonds pursuant to the Act.

2. The Authority has full legal right, power and authority to: (a) execute and deliver this Bond Purchase Agreement, (b) execute and deliver the Third Supplemental Indenture and

the Continuing Disclosure Certificate (collectively, the "Legal Documents") on the Closing Date, (c) deliver the Preliminary Official Statement and execute and deliver the Official Statement, (d) issue, sell and deliver the 2013 Bonds to the Underwriters pursuant to the Indenture, as provided herein; (e) perform its obligations under the 2013 Bonds, the Master Indenture, the Legal Documents, and the Airline Operating Agreements, concession agreements, and other agreements described in the Official Statement under "AGREEMENTS FOR USE OF AIRPORT FACILITIES" (collectively, the "Airport Use Agreements"), and (f) to carry out and consummate all other transactions contemplated thereby and hereby.

3. By all necessary official action, the Authority has duly authorized and approved the preparation and distribution of the Preliminary Official Statement, the preparation, execution and delivery of the Official Statement, the execution and delivery of, and the performance of its obligations under the Master Indenture, the 2013 Bonds, this Bond Purchase Agreement, the Legal Documents, the Airport Use Agreements and the consummation by it of all other transactions contemplated by this Bond Purchase Agreement, the Master Indenture, the Legal Documents and the Airport Use Agreements. Upon execution and delivery by the Authority (assuming due authorization, execution and delivery by and enforceability against the other parties thereto), the Master Indenture, the Legal Documents, this Bond Purchase Agreement and the Airport Use Agreements will be in full force and effect and each will constitute the legal, valid and binding agreement or obligation of the Authority, enforceable in accordance with its terms, except as enforcement thereof may be limited by bankruptcy, insolvency, reorganization, moratorium or similar laws or equitable principles relating to or limiting creditors' rights generally, the application of equitable principles, the exercise of judicial discretion and the limitations on legal remedies against the Authority.

4. The 2013 Bonds, when issued, authenticated and delivered in accordance with the Indenture, and sold to the Underwriters as provided herein, will constitute legal, valid and binding obligations of the Authority in conformity with and entitled to the benefit and security of the Indenture, and enforceable in accordance with their respective terms, except as enforcement thereof may be limited by bankruptcy, insolvency, reorganization, moratorium or similar laws or equitable principles relating to or limiting creditors' rights generally, the application of equitable principles, the exercise of judicial discretion and the limitations on legal remedies against the Authority.

5. The execution and delivery of the 2013 Bonds and the Legal Documents, and compliance with the provisions on the Authority's part contained in the Master Indenture, the 2013 Bonds, the Legal Documents and the Airport Use Agreements, will not conflict with or constitute a breach of or default under any applicable law (including any provision of the Organic Act of Guam), administrative regulation, court order or consent decree of the Government of Guam or any department, division, agency or instrumentality thereof or of the United States or any applicable judgment or decree or any loan agreement, note, resolution, indenture, agreement or other instrument to which the Authority is a party or may be otherwise subject.

6. The Authority is not in any material respect in breach of or default under any applicable law, administrative regulation, court order or consent decree of the Government of Guam or of the United States, or any agency or instrumentality of either of them, or any applicable judgment or decree, or any loan agreement, indenture, bond, note, resolution, agreement (including, without limitation, the Indenture or this Bond Purchase Agreement) or other instrument to which the Authority is a party which breach or default has or may have a material adverse effect on the ability of the Authority to perform its obligations under the Master Indenture, the Legal Documents, this Bond Purchase Agreement or the Airport Use Agreements, and aside from those disclosed in the Preliminary Official Statement, no event has occurred and is continuing which with the passage of time or the giving of notice, or both, would constitute such a default or event of default under any such instrument.

7. All opinions, certifications, approvals, consents or orders of any governmental authority, legislative body, board, agency or commission having jurisdiction which are required for the due authorization of, or the obtaining of which would constitute a condition precedent to, or the absence of which would materially adversely affect the approval or adoption, as applicable, of the GIAA Resolution, the GEDA Resolution, the Legal Documents, the Airport Use Agreements or this Bond Purchase Agreement, the issuance of the 2013 Bonds or due performance by the Authority of its obligations thereunder, under the Master Indenture or hereunder, at this time have been duly obtained.

8. The 2013 Bonds, when issued, will conform to the descriptions thereof contained in the Preliminary Official Statement (except for the exclusion of pricing information) and in the Official Statement under the captions "THE 2013 BONDS" and Appendix E – "SUMMARY OF CERTAIN PROVISIONS OF THE INDENTURE"; the proceeds of the 2013 Bonds will be applied generally as described in the Preliminary Official Statement (except for the exclusion of pricing information) and the Official Statement under the captions "INTRODUCTION" and "PLAN OF FINANCE"; and the Master Indenture and the Legal Documents conform in all material respects to the descriptions thereof contained in the Preliminary Official Statement and the Official Statement.

9. The Preliminary Official Statement, as of its date and as of the date hereof (excluding any information permitted to be omitted pursuant to Rule 15c2-12), did not and does not contain any untrue or misleading statement of a material fact or omit to state a material fact necessary in order to make the statements therein, in the light of the circumstances under which they were made, not misleading.

10. At the time of the Authority's acceptance hereof and (unless an event occurs of the nature described in Section D hereof) during the period from the date of this Bond Purchase Agreement to and including the date which is twenty-five (25) days following the End of the Underwriting Period for the 2013 Bonds, the Official Statement does not and will not contain any untrue or misleading statement of a material fact or omit to state a material fact required to be stated therein or necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading.

11. If the Official Statement is supplemented or amended pursuant to Section D hereof, at the time of each supplement or amendment thereto and (unless subsequently again supplemented or amended pursuant to such paragraph) at all times during the period from the date of this Bond Purchase Agreement to and including the date which is twenty-five (25) days following the End of the Underwriting Period for the 2013 Bonds (the "Update Period"), the Official Statement, as so supplemented or amended, will not contain any untrue or misleading statement of a material fact or omit to state a material fact required to be stated therein or necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading.

12. To the best knowledge of the Authority, after due investigation and except to the extent disclosed in the Preliminary Official Statement and the Official Statement, no action, suit, proceeding, inquiry or investigation, at law or in equity, before or by any court, governmental agency, public board or body is pending or, to the knowledge of the Authority, threatened in any way (a) affecting the existence of the Authority or the title of any official of the Authority to such person's office, (b) seeking to restrain or enjoin the issuance, sale or delivery of the 2013 Bonds or the collection of revenues or assets of the Authority pledged or to be pledged to pay the principal of and interest or premium, if any, on the 2013 Bonds or the pledge thereof, (c) contesting or affecting the validity or enforceability of the Act, the GIAA Resolution, the GEDA Resolution, the Master Indenture, the Legal Documents, this Bond Purchase Agreement, the Airport Use Agreements, or the 2013 Bonds, or (d) contesting the completeness or accuracy of the Preliminary Official Statement, the Official Statement or any supplement or amendment thereto, the power or authority of the Authority with respect to the 2013 Bonds, the Master Indenture, the Legal Documents, the Airport Use Agreements or this Bond Purchase Agreement, or the exclusion of interest on the 2013 Series A Bonds, the 2013 Series B Bonds, the 2013 Series C Bonds, and the 2013 Series E Bonds (collectively, the "2013 Tax-Exempt Bonds") from gross income for federal income tax purposes, nor is there any basis for any such action, suit, proceeding, inquiry or investigation, wherein an unfavorable decision, ruling or finding would materially adversely affect the validity of the Act, the GIAA Resolution, the GEDA Resolution, or the authorization, execution, delivery or performance by the Authority of the 2013 Bonds, the Master Indenture, the Legal Documents, the Airport Use Agreements, or this Bond Purchase Agreement.

13. The Authority will furnish such information, execute such instruments and take such other action in cooperation with the Underwriters as the Underwriters may reasonably request: (a) to qualify the 2013 Bonds for offer and sale under the Blue Sky or other securities laws and regulations of such states and other jurisdictions as the Representative may designate and (b) to determine the eligibility of the 2013 Bonds for investment under the laws of such states and other jurisdictions, and the Authority agrees to make its best efforts to continue such qualifications in effect so long as required for the distribution of the 2013 Bonds (provided that the Authority shall not be obligated to execute a general or special consent to service of process or qualify to do business in connection with any such qualification or determination in any jurisdiction), and will advise the Representative immediately upon receipt by the Authority of any written notification with respect to the

suspension of the qualification of the 2013 Bonds for sale in any jurisdiction or the initiation or threat of any proceeding for that purpose.

14. The Authority will comply with the requirements of the Tax Certificate executed by the Authority in connection with the delivery of the 2013 Tax-Exempt Bonds.

15. The Authority has the legal authority to apply and will apply, or will cause to be applied, the proceeds from the sale of the 2013 Bonds in accordance with and subject to all of the terms and provisions of the Act, and the Indenture, and will not take or omit to take any action which action or omission will materially adversely affect the exclusion from gross income for federal income tax purposes of the interest on the 2013 Tax-Exempt Bonds.

16. Any certificate signed by any officer of the Authority and delivered to the Underwriters pursuant to the Indenture or this Bond Purchase Agreement or any document contemplated thereby or hereby shall be deemed a representation and warranty by the Authority to the Underwriters as to the statements made therein and that such officer shall have been duly authorized to execute the same.

17. To the best knowledge of the Authority, there is no public vote or referendum pending or proposed, the results of which could in any way adversely affect the transactions contemplated by this Bond Purchase Agreement, the Act, the GIAA Resolution, the GEDA Resolution, the 2013 Bonds, or the Indenture or the validity or enforceability of the 2013 Bonds.

18. The Indenture creates a valid pledge of and grant of a security interest in the Revenues (as defined in the Indenture) purported to be pledged thereby.

19. Between the date of this Bond Purchase Agreement and the Closing, the Authority will not, without the prior written consent of the Underwriters, issue any bonds, notes or other obligations for borrowed money payable from the Revenues prior to or on a parity with the 2013 Bonds.

20. Between the date of this Bond Purchase Agreement and the Closing, the Authority will not take any action within or under its control that will cause any adverse change of a material nature in the enforcement or collection of the Revenues.

21. Prior to the Closing, the Authority will not take any action within or under its control that will cause any adverse change of a material nature in the enforcement or collection of the Revenues.

22. The Authority has complied with its obligations under Section 5.01 Capital Improvements under the Airline Operating Agreements in connection with additions, extensions and improvements to the Airport financed with the 2013 Bonds.

23. The financial statements of the Authority contained in the Preliminary Official Statement and the Official Statement fairly present the financial positions and results of operation of the Authority and the Airport as of the dates and for the periods therein set forth, and the

Authority has no reason to believe that such financial statements have not been prepared in accordance with generally accepted accounting principles.

J. Conditions to Closing. The Representative has entered into this Bond Purchase Agreement on behalf of itself and the other Underwriters in reliance upon the representations and warranties of the Authority contained herein and to be contained in the documents and instruments to be delivered at the Closing and upon the performance by the Authority of its obligations hereunder at or prior to the Closing Date. Accordingly, the Underwriters' obligations under this Bond Purchase Agreement to purchase, to accept delivery of and to pay for the 2013 Bonds are subject to the performance by the Authority of its obligations to be performed hereunder and under such aforesaid documents and instruments at or prior to the Closing, and are also subject to the following conditions:

1. The representations and warranties of the Authority contained herein will be true and correct on the date hereof, and on and as of the Closing Date with the same effect as if made on the Closing Date.

2. At the time of the Closing, the Act, the GEDA Resolution, the GIAA Resolution, the Master Indenture and the Legal Documents will be in full force and effect and will not have been amended, modified or supplemented, and the Official Statement will not have been amended, modified or supplemented, except as may have been agreed to by the Authority and the Underwriters.

3. At the time of the Closing, all necessary action of the Authority relating to the issuance of the 2013 Bonds will have been taken and will be in full force and effect and will not have been amended, modified or supplemented.

4. At or prior to the Closing, the Representative will have received each of the following documents:

   (a) The Official Statement executed by an authorized official of the Authority.

   (b) The Third Supplemental Indenture duly authorized, executed and delivered by the Authority, the Trustee and the Co-Trustee, together with a true and correct copy of the Master Indenture.

   (c) The Continuing Disclosure Certificate duly authorized, executed and delivered by the Authority.

   (d) The approving opinion, dated the Closing Date and addressed to the Authority, of Orrick, Herrington & Sutcliffe LLP, Bond Counsel to the Authority, in substantially the form attached to the Official Statement as Appendix C, and a reliance letter of such Counsel, dated the Closing Date and addressed to the Underwriters, to the effect that such opinion addressed to the Authority may be relied upon by the Underwriters to the same extent as if such opinion were addressed to them.

(e) An opinion, dated the Closing Date and addressed to the Underwriters, of Orrick, Herrington & Sutcliffe LLP, Bond Counsel to the Authority, to the effect that: (i) this Bond Purchase Agreement has been duly executed and delivered by the Authority and, assuming due execution and delivery by and validity against the Underwriters, is a valid and binding agreement of the Authority, except that the rights and obligations thereunder may be subject to bankruptcy, insolvency, reorganization, arrangement, fraudulent conveyance, moratorium and other laws relating to or affecting creditors' rights, to the application of equitable principles, and to the exercise of judicial discretion in appropriate cases, and except that no opinion need be expressed with respect to any indemnification, contribution, penalty, choice of law, choice of forum, choice of venue, waiver or severability provisions contained in the Bond Purchase Agreement; (ii) the 2013 Bonds are not subject to the registration requirements of the Securities Act of 1933, as amended (the "Securities Act"), and the Indenture is exempt from qualification pursuant to the Trust Indenture Act of 1939, as amended (the "Trust Indenture Act"); and (c) the statements contained in the Official Statement under the captions "THE 2013C BONDS," "SECURITY AND SOURCES OF PAYMENT FOR THE 2013C BONDS," "TAX MATTERS" and Appendices B and C thereto, excluding any material that may be treated as included under such captions by cross-reference, insofar as the statements contained under such captions expressly summarize provisions of the Indenture and the form and content of the final opinion of such Counsel with respect to such 2013 Bonds, are accurate in all material respects.

(f) The opinion of counsel to the Trustee, dated the Closing Date and addressed to the Underwriters and the Authority, to the effect that: (i) the Trustee has been duly organized and is validly existing and in good standing under the laws of Guam with full corporate power to undertake the trusts of the Indenture; (ii) the Trustee has duly authorized, executed and delivered the Indenture and by all proper corporate action has authorized the acceptance of the trusts of the Indenture; (iii) assuming the corporate power and, legal authority of, and the due authorization, execution and delivery of the Third Supplemental Indenture by, the Authority and the Co-Trustee, the Indenture constitutes a valid and binding agreement of the Trustee enforceable against the Trustee in accordance with its terms, except as enforcement may be limited by bankruptcy, insolvency, moratorium or other similar laws or equitable principles relating to or limiting creditors' rights generally; (iv) no authorization, approval, consent or other order of any governmental agency or, to such counsel's knowledge after due investigation, any other person or corporation is required for the valid authorization, execution and delivery of the Third Supplemental Indenture by the Trustee (except that such counsel need express no view as to federal or state securities laws); and (v) there is no action, suit, proceeding or investigation at law or in equity before or by any court, public board or body known to counsel to the Trustee to be pending or threatened against or affecting the Trustee to restrain or enjoin the Trustee's participation in, or in any way contesting the powers of the Trustee with respect to, the transactions contemplated by the 2013 Bonds, the Indenture or any other agreement, document, or certificate related to such transactions.

(g) The opinion of counsel to the Co-Trustee, dated the Closing Date and addressed to the Underwriters and the Authority, to the effect that: (i) the Co-Trustee has been duly organized as a national banking association and is validly existing and in good standing under the laws of the United States of America with all requisite corporate power to undertake the trusts of the Indenture; (ii) the Co-Trustee has duly authorized, executed and delivered the Third Supplemental Indenture and has taken all necessary corporate action to authorize the execution and delivery of the Master Indenture and the Third Supplemental Indenture and the performance of its obligations thereunder; (iii) assuming the corporate power and legal authority of, and the due authorization, execution and delivery of the Indenture by, the Authority and the Trustee, the Indenture constitutes a valid and binding agreement of the Co-Trustee enforceable against the Co-Trustee in accordance with its terms, except as enforcement may be limited by bankruptcy, insolvency, moratorium or other similar laws or equitable principles relating to or limiting creditors' rights generally; (iv) the 2013 Bonds have been validly authenticated by the Co-Trustee in its capacity as Registrar under the Indenture; (v) to the best knowledge of such counsel, no authorization, approval, consent or other order of any governmental agency or any other person or corporation is required for the valid authorization, execution and delivery of the Third Supplemental Indenture by the Co-Trustee or the authentication of the 2013 Bonds (except that such counsel need express no view as to federal or state securities laws); and (vi) to the best knowledge of such counsel, there is no litigation pending against the Co-Trustee to be pending or threatened against or affecting the Co-Trustee to restrain or enjoin the Co-Trustee's participation in, or in any way contesting the powers of the Co-Trustee with respect to, the transactions contemplated by the 2013 Bonds, the Indenture or any other agreement, document, or certificate related to such transactions.

(h) An opinion of counsel to the Authority, dated the Closing Date and addressed to the Underwriters singularly or together, to the effect that: (i) the Authority is on the Closing Date a public corporation and an autonomous instrumentality of the Government of Guam and has full legal right, power and authority to enter into the Bond Purchase Agreement and the Continuing Disclosure Certificate, and perform its obligations under the Bond Purchase Agreement, the Master Indenture and the Legal Documents, to authorize, issue and sell the 2013 Bonds, to collect and enforce the collection of Revenues and to carry out and consummate all transactions required of it as contemplated by this Bond Purchase Agreement, the Master Indenture and the Legal Documents; (ii) the GIAA Resolution was duly adopted on _____ 2013, at a regular or special meeting of the Board of GIAA duly called for such purpose and has not been amended or repealed; (iii) the Bond Purchase Agreement and the Legal Documents have been duly approved and authorized by the Authority and each has been duly executed and delivered and the Bond Purchase Agreement, the Master Indenture and the Continuing Disclosure Certificate are each in full force and effect as of the Closing Date; (iv) this Bond Purchase Agreement has been duly authorized, executed and delivered by and constitutes a valid and binding obligation of the Authority enforceable in accordance with its terms (but such opinion as to enforceability may be qualified

with respect to bankruptcy, insolvency and other laws affecting creditors' rights or remedies); (v) the execution and delivery of the Legal Documents and the Bond Purchase Agreement, and the consummation of the transactions contemplated thereby, by the Master Indenture and hereby, and the compliance with the provisions thereof and hereof, will not conflict with or constitute on the part of the Authority a breach of or a default under any existing law, administrative regulation, court order or consent decree of the Government of Guam or any department, division, agency or instrumentality of the United States to which the Authority is subject, or any agreement, resolution or instrument to which the Authority is a party or may otherwise be subject; (vi) the pledge of Revenues pursuant to the Act, and the Indenture creates a valid first priority lien in favor of the Trustee for the benefit of the Bondholders; (vii) all approvals, consents or orders of any governmental authority, board, agency or commission having jurisdiction the obtaining of which would constitute a condition precedent to the performance by the Authority of its obligations under this Bond Purchase Agreement, the Master Indenture, the Legal Documents or the 2013 Bonds and which can reasonably be obtained by the time of Closing have been obtained; (viii) other than as disclosed in the Preliminary Official Statement and the Official Statement, there is no litigation or proceeding, pending (with service of process having been received by the Authority or otherwise known to such counsel) or, to the knowledge of such counsel, threatened (either in Guam, state or federal courts), (a) to restrain or enjoin the execution or delivery of the 2013 Bonds or the general collection of Revenues, (b) in any way contesting or affecting the existence of the Authority or the title of any official of the Authority to such person's office, (c) seeking to restrain or to enjoin the issuance, sale or delivery of the 2013 Bonds, or the collection of Revenues of the Authority pledged or to be pledged to pay the principal of and interest or premium, if any, on the 2013 Bonds, or the pledge thereof, or (d) in any way contesting or affecting the validity or enforceability of the 2013 Bonds, the Master Indenture, the Legal Documents or this Bond Purchase Agreement, or contesting in any way the completeness or accuracy of the Preliminary Official Statement or the Official Statement, or contesting the power of the Authority or its authority with respect to the 2013 Bonds, the Master Indenture, the Legal Documents or this Bond Purchase Agreement; (ix) as of the date of the Official Statement and as of the Closing Date, the statements contained in the Official Statement under the captions "INTRODUCTION," "THE AUTHORITY," "AGREEMENTS FOR USE OF AIRPORT FACILITIES - Passenger Terminal Building Concessions and Revenue Arrangements - Duty Free Concessions," "LITIGATION" and "CONTINUING DISCLOSURE" are accurate in all material respects; and (x) counsel to the Authority has no reason to believe that either the Preliminary Official Statement, as of its date and as of the date hereof, or the Official Statement, as of its date and as of the Closing Date, contained or contains any untrue statement of a material fact or omitted or omits to state a material fact required to be stated therein or necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading (except for the financial statements and other financial and

statistical data included in the Preliminary Official Statement and the Official Statement and the Appendices thereto, as to which no view need be expressed).

(i) An opinion of counsel to GEDA, dated the Closing Date and addressed to the Underwriters and the Authority, to the effect that: (i) the GEDA Resolution was duly adopted on _____ 2013, at a regular or special meeting of GEDA duly called for such purpose and has not been amended or repealed; and (ii) there is no litigation or proceeding pending (with service of process having been received by GEDA or otherwise known to such counsel) or, to the knowledge of such counsel, threatened against GEDA in any way affecting the existence of GEDA, the title of any official of GEDA to such person's office, or seeking to restrain or to enjoin the issuance, sale or delivery of the 2013 Bonds or in any way contesting or affecting the validity or enforceability of the 2013 Bonds or contesting in any way the completeness or accuracy of the Preliminary Official Statement or the Official Statement, or contesting the power of GEDA or its authority with respect to the 2013 Bonds.

(j) A certification by the Guam Compiler of Laws to the effect that [Bill No. 1 (2-S)/Public Law No. __)] was duly passed by the Guam Legislature on July 31, 2013 and signed by the Governor on _____, 2013, and that such public law has not been further amended or repealed and is now in full force and effect.

(k) The opinion of Hawkins Delafield & Wood LLP, counsel to the Underwriters, dated the Closing Date, to the effect that: (i) the 2013 Bonds are exempt from registration under the Securities Act and the Indenture is exempt from qualification under the Trust Indenture Act; (ii) without having undertaken to determine independently or to assume responsibility for the accuracy, completeness or fairness thereof, and based solely on such counsel's participation in telephone conferences at which representatives of the Authority, GEDA, Bond Counsel, the Airport Consultant, and the Representative were at various times present, nothing has come to such counsel's attention that would lead it to believe that the information and statements (except for (A) any information relating to CUSIP numbers, any financial, accounting, statistical economic or demographic data or forecasts, projections, estimates, assumptions or expressions of opinion, the financial statements and the information relating to DTC and its book-entry system included in the Preliminary Official Statement and the Official Statement and (B) the Appendices to each, as to which no view need be expressed) in the Preliminary Official Statement, as of its date and as of the date hereof (excluding any information permitted to be omitted pursuant to Rule 15c2-12), or the Official Statement, as of its date and as of the Closing Date, contained or contain any untrue statement of a material fact or omitted or omit to state a material fact necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading; and (iii) the form of Continuing Disclosure Certificate meets the requirements of Rule 15c2-12 as to form.

(l) A certificate of the Trustee dated the Closing Date and signed by a duly authorized officer of the Trustee, in form and substance satisfactory to the Underwriters, to the

effect that: (i) to the best of such officer's knowledge, no litigation is pending or threatened (in territorial, state or federal courts) to restrain or enjoin the authentication or delivery of the 2013 Bonds or to restrain or enjoin the Trustee from performing its obligations under the Master Indenture and the Legal Documents; and (ii) to the best of such officer's knowledge, after due investigation, no event affecting the Trustee has occurred since the date of the Official Statement which either makes untrue or incorrect in any material respect as of the date of such certificate the statements or information contained in the Official Statement or which should be reflected therein in order to make the statements and information therein not misleading in any material respect.

(m) A certificate of the Co-Trustee dated the Closing Date and signed by a duly authorized officer of the Co-Trustee, in form and substance satisfactory to the Underwriters, to the effect that: (i) to the best of such officer's knowledge, no litigation is pending or threatened (in territorial, state or federal courts) to restrain or enjoin the authentication or delivery of the 2013 Bonds or to restrain or enjoin the Co-Trustee from performing its obligations under the Master Indenture or the Legal Documents; and (ii) to the best of such officer's knowledge, after due investigation, no event affecting the Co-Trustee has occurred since the date of the Official Statement which either makes untrue or incorrect in any material respect as of the date of such certificate the statements or information contained in the Official Statement or which should be reflected therein in order to make the statements and information therein not misleading in any material respect.

(n) A certificate dated the Closing Date and signed by an authorized official of the Authority to the effect that: (i) the representations, warranties and covenants of the Authority contained herein are true and correct on and as of the Closing Date with the same effect as if made on the Closing Date; (ii) no event materially adversely affecting the Authority has occurred since the date of the Official Statement; (iii) the Preliminary Official Statement, as of its date and as of the date hereof (excluding any information permitted to be omitted pursuant to Rule 15c2-12), and the Official Statement, as of its date and as of the Closing Date, did not and does not contain any untrue statement of a material fact or omitted or omits to state a material fact required to be stated therein or necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading; (iv) the Authority has complied with this Bond Purchase Agreement and has satisfied all the conditions on its part herein to be performed or satisfied at or prior to the Closing; and (v) there is no litigation or proceeding pending or, to the knowledge of the Authority, threatened and having merit (either in Guam, state or federal courts) (A) to restrain or enjoin the execution or delivery of the 2013 Bonds or the general collection of Revenues, or (B) in any way contesting or affecting the existence of the Authority or the title of any official of the Authority to such person's office, or seeking to restrain or to enjoin the issuance, sale or delivery of the 2013 Bonds, or the pledge of Revenues, or in any way contesting or affecting the validity or enforceability of the 2013 Bonds, the Legal Documents or this Bond Purchase Agreement, or contesting in any way the completeness or

accuracy of the Preliminary Official Statement or the Official Statement, or contesting the power of the Authority or its authority with respect to the 2013 Bonds, the Master Indenture, the Legal Documents or this Bond Purchase Agreement.

(o) Three counterpart originals of a transcript of all proceedings relating to the authorization and issuance of the 2013 Bonds.

(p) Certified copies of the GIAA Resolution and the GEDA Resolution.

(q) A Tax Certificate in form satisfactory to Bond Counsel.

(r) Evidence that the 2013 Bonds have been assigned ratings of at least __ and ___ by Standard & Poor's Ratings Services and Moody's, respectively.

(s) [Such documents necessary for the issuance of the 2013 Bonds pursuant to 3.05(B)(1) of the Master Indenture, as amended by the Third Supplemental Indenture].

(t) A certificate dated the Closing Date and signed by an authorized official of the Authority to the effect that upon the issuance of the 2013 Bonds there will not be issued and outstanding indebtedness of the Authority that would result in a violation of the debt limit provision of Section 11 of the Organic Act of Guam.

(u) Such additional legal opinions, certificates, instruments and other documents as the Underwriters may reasonably request to evidence the truth and accuracy, as of the date hereof and as of the Closing Date, of the representations, warranties and covenants of the Authority contained herein and of the statements and information contained in the Official Statement and the due performance or satisfaction by the Authority at or prior to the Closing of all agreements then to be performed and all conditions then to be satisfied by the Authority.

(v) A letter addressed to the Authority from Leigh Fisher Associates, dated the date of the Closing, to the effect that the Airport Consultant consents to (i) the use and inclusion of the Report of the Airport Consultants dated _____ included as Appendix ___ to the Preliminary Official Statement and the Official Statement; and (ii) the references to such firm in the Preliminary Official Statement and the Official Statement.

(w) [A letter addressed to the Underwriters from _____, independent certified public accountants, in form and substance satisfactory to the Underwriters and their counsel and dated the date on or before the Closing to the effect that, as of the date of such letter, (i) they are independent certificate public accountants within the meaning of the Code of Professional Ethics of the American Institute of Certified Public Accountants; and (ii) they consent to the inclusion of their report to the Authority dated _____ (the "Financial Statements") as Appendix ___ to the Preliminary Official Statement and the Official Statement for the 2013 Bonds and

to all references to such firm and such Financial Statements in the Preliminary Official Statement and the Official Statement.]

All of the opinions, letters, certificates, instruments and other documents mentioned above or elsewhere in this Bond Purchase Agreement will be deemed to be in compliance with the provisions hereof if, but only if, they are in form and substance satisfactory to the Underwriters. The opinion of Orrick, Herrington & Sutcliffe LLP that is first referred to in Section K.4(d) shall be deemed satisfactory if it is substantially in the form of Appendix C to the Official Statement.

If the Authority is unable to satisfy the conditions to the obligations of the Underwriters to purchase, to accept delivery of and to pay for the 2013 Bonds contained in this Bond Purchase Agreement, or if the obligations of the Underwriters to purchase, to accept delivery of and to pay for the 2013 Bonds are terminated for any reason permitted by this Bond Purchase Agreement, this Bond Purchase Agreement will terminate and neither the Underwriters nor the Authority will be under further obligation hereunder, except that the respective obligations of the Authority and the Underwriters set forth in Section M and the representations, warranties and covenants of the Authority contained in Section I shall continue in full force and effect, provided that such representations and warranties shall be understood to have been made as of the date of this Bond Purchase Agreement.

K. Termination. The Underwriters shall have the right to cancel their obligation to purchase the 2013 Bonds if between the date hereof and the Closing:

1. legislation shall have been newly enacted or introduced by the Congress of the United States or the legislature of the Government of Guam or shall have been reported out of committee of either body or be newly pending in committee of either body, or a decision shall have been rendered by a court of the United States or the Government of Guam or the Tax Court of the United States, or a ruling, resolution, regulation, or temporary regulation, release, or announcement shall have been made or shall have been proposed to be made by the Treasury Department of the United States or the Internal Revenue Service, or other federal or state authority, with respect to federal or state taxation upon revenues or other income of the general character of that to be derived by the Authority from its operations, or upon interest received on obligations of the general character of the 2013 Bonds that, in the Representative's reasonable judgment, materially adversely affects the market for the 2013 Bonds, or the market price generally of obligations of the general character of the 2013 Bonds, or the ability of the Underwriters to enforce contracts for sale of the 2013 Bonds; or

2. there shall exist any event or circumstance that in the Representative's reasonable judgment makes either untrue or incorrect in any material respect any statement or information in the Official Statement or is not reflected in the Official Statement but should be reflected therein in order to make any statement of material fact therein not misleading in any material respect; or

3. there shall have occurred: (A) any new material outbreak or escalation of hostilities (including, without limitation, an act of terrorism) involving the United States or the

declaration by the United States of a national emergency or war occurs; or (B) the occurrence of any other calamity or crisis or any change in the financial, political or economic conditions in the United States or elsewhere (including, but not limited to, an escalation of hostilities that existed prior to the date hereof), if the effect of any such event specified in clause (A) or (B), in the reasonable judgment of the Representative, makes it impracticable or inadvisable to proceed with the offering or the delivery of the 2013 Bonds on the terms and in the manner contemplated in the Preliminary Official Statement or the Official Statement; or

4. there shall be in force a general suspension of trading on the New York Stock Exchange, or minimum or maximum prices for trading shall have been fixed and be in force, or maximum ranges for prices for securities shall have been required and be in force on the New York Stock Exchange, whether by virtue of determination by that Exchange or by order of the SEC or any other governmental authority having jurisdiction that, in the Representative's reasonable judgment, makes it impracticable for the Underwriters to market the 2013 Bonds or enforce contracts for the sale of the 2013 Bonds; or

5. a general banking moratorium shall have been declared by federal or state authorities having jurisdiction and be in force that, in the Representative's reasonable judgment, makes it impracticable for the Underwriters to market the 2013 Bonds or enforce contracts for the sale of the 2013 Bonds; or

6. legislation shall be enacted or actively considered for enactment, or a decision by a court of the United States shall be rendered, or a ruling, regulation, proposed regulation, or statement by or on behalf of the SEC or other governmental agency having jurisdiction of the subject matter shall be made, to the effect that the 2013 Bonds or any comparable securities of the Authority, any obligations of the general character of the 2013 Bonds, or the Legal Documents are not exempt from the registration, qualification or other requirements of the Securities Act or the Trust Indenture Act or would be in violation of any provision of the federal securities laws; or

7. there shall have been since the date hereof any material adverse change in the affairs or financial condition (except for changes that the Official Statement discloses are expected to occur) of the Authority that in the Representative's reasonable judgment will materially adversely affect the market for the 2013 Bonds or the ability of the Underwriters to enforce contracts for the sale of the 2013 Bonds; or

8. there shall be established any new restriction on transactions in securities materially affecting the free market for securities (including the imposition of any limitation on interest rates) or the extension of credit by, or a change to the net capital requirements of, underwriters established by the New York Stock Exchange, the SEC, any other federal or Government of Guam agency or the Congress of the United States, or by Executive Order; or

9. a stop order, release, regulation, or no-action letter by or on behalf of the SEC or any other governmental agency having jurisdiction of the subject matter shall have been issued or made to the effect that the issuance, offering, or sale of the 2013 Bonds, including all the

underlying obligations as contemplated hereby or by the Official Statement, or any document relating to the issuance, offering or sale of the 2013 Bonds, is or would be in violation of any provision of the federal securities laws at the Closing Date, including the Securities Act, the Exchange Act and the Trust Indenture Act; or

10. there shall have occurred after the signing hereof either a financial crisis or a default with respect to the debt obligations of the Authority or any political subdivision of the Government of Guam thereof or proceedings under the bankruptcy laws of the United States or of the Authority shall have been instituted by the Authority or any agency or political subdivision of the Government of Guam, in either case the effect of which, in the reasonable judgment of the Representative, is such as to materially and adversely affect the market price or the marketability of the 2013 Bonds or the ability of the Underwriters to enforce contracts for the sale of the 2013 Bonds; or

11. there shall have occurred any downgrading or published negative credit watch or similar published information from a rating agency that at the date of this Bond Purchase Agreement has published a rating (or has been asked to furnish a rating) on the 2013 Bonds, which action reflects a change or possible change, in the ratings accorded such 2013 Bonds; or

12. a material disruption in securities settlement, payment or clearance services shall have occurred and be continuing; or

13. any material change other than the inclusion of information permitted to be excluded by Rule 15c2-12 shall have been made between the Preliminary Official Statement and the Official Statement, except any change that has been accepted by the Representative.

L. Payment of Expenses.

1. The Underwriters shall be under no obligation to pay, and the Authority shall pay from available funds or direct the Trustee under the Indenture to pay from the proceeds of the 2013 Bonds (to the extent permitted under applicable law) or from other funds of the Authority, certain expenses set forth in this Section that are incidental to the performance of the Authority's obligations hereunder, including but not limited to, all expenses in connection with the printing of the Preliminary Official Statement, the Official Statement, and any amendment or supplement to either thereof; all expenses in connection with the printing, issuance, and delivery of the 2013 Bonds; the fees and disbursement of Bond Counsel, GIAA Counsel, GEDA Counsel and any auditors and accountants; the fees and disbursements of the Trustee and the Co-Trustee and their respective counsel; all expenses in connection with obtaining a rating or ratings for the 2013 Bonds; all expenses of the Authority in connection with the preparation, printing, execution, and delivery, and any recording or filing required by Bond Counsel, of the Legal Documents, this Bond Purchase Agreement, and any Financing Statement or notice with respect thereto; the Authority's administrative fees; GEDA's fees established by Guam law or rule; fees for preparation of a blue sky memorandum relating to the 2013 Bonds; and all other expenses and costs of the Authority incident to its obligations in connection with the authorization, issuance, sale, and distribution of the 2013 Bonds. The Authority acknowledges that a portion of the

Underwriters' discount represents reimbursement of the Underwriters for reasonable expenses incurred by the Underwriters on behalf of the Authority's employees which are incidental to implementing this Bond Purchase Agreement, including but not limited to, meals, transportation, lodging, entertainment, closing dinner and related events for such employees.

2. The Representative shall pay the costs of qualifying the 2013 Bonds for sale in various states chosen by the Representative, all advertising expenses in connection with the public offering of the 2013 Bonds, and all other expenses incurred by it or the other Underwriters in connection with the public offering and distribution of the 2013 Bonds, including the fees and disbursements of their counsel.

M. Indemnification.

1. The Authority agrees to indemnify and hold harmless the Underwriters and each person, if any, who controls (within the meaning of Section 15 of the Securities Act or Section 20 of the Exchange Act) the Underwriters and their directors, officers, agents, and employees against any and all losses, claims, damages, liabilities, and expenses arising out of a breach of any of the Authority's material representations included in this Bond Purchase Agreement (including a breach the result of which would require in connection with a public offering of the 2013 Bonds any security to be registered under the Securities Act or any indenture to be qualified under the Trust Indenture Act), or a breach of the Continuing Disclosure Certificate, or any statement or information in the Preliminary Official Statement or in the Official Statement (excluding therefrom the information under the caption "UNDERWRITING" and the information about DTC and its book-entry system) that is or is alleged to be untrue or incorrect in any material respect, or any material omission or alleged material omission of any statement or information under the foregoing headings in the Preliminary Official Statement or the Official Statement which is required to be stated therein or is necessary to make the statements therein, in the light of the circumstances in which they were made, not misleading. The foregoing indemnity agreement shall be in addition to any liability that the Authority may otherwise have.

   The Underwriters will indemnify and hold harmless the Authority, each of its members, directors, officers, and employees, and each person who controls the Authority within the meaning of Section 15 of the Securities Act or Section 20 of the Exchange Act, to the same extent as the foregoing indemnity from the Authority to the Underwriters, but only with reference to written information relating to the Underwriters furnished by them specifically for use in the preparation of the Preliminary Official Statement or the Official Statement. This indemnity agreement will be in addition to any liability which the Underwriters may otherwise have. The Authority acknowledges that the statements under the caption "UNDERWRITING" in the Preliminary Official Statement and the Official Statement constitute the only information furnished in writing by or on behalf of the Underwriters for inclusion in the Preliminary Official Statement and the Official Statement.

2. In case any claim shall be made or action brought against an indemnified party for which indemnity may be sought against any indemnifying party, as provided above, the indemnified party shall promptly notify the indemnifying party in writing setting forth the

particulars of such claim or action and the indemnifying party shall assume the defense thereof, including the retaining of counsel acceptable to such indemnified party and the payment of all expenses and shall have the right to negotiate and consent to settlement. An indemnified party shall have the right to retain separate counsel in any such action and to participate in the defense thereof but the fees and expenses of such counsel shall be at the expense of such indemnified party unless the employment of such counsel has been specifically authorized by the indemnifying party or the indemnifying party shall not have employed counsel reasonably acceptable to the indemnified party to have charge of the defense of such action or proceeding or the indemnified party shall have reasonably concluded that there may be defenses available to it which are different from or additional to those available to the indemnifying party (in which case the indemnifying party shall not have the right to direct the defense of such action or proceeding on behalf of the indemnified party), in any of which events, such legal or other expenses shall be borne by the indemnifying party. No party shall be liable for any settlement of any action effected without its consent, but if settled with the consent of the indemnifying party or if there is a final judgment for the plaintiff in any action with or without written consent of the indemnifying party, the indemnifying party agrees to indemnify and hold harmless the indemnified parties to the extent of the indemnities set forth above from and against any loss or liability by reason of such settlement or judgment.

If the indemnification provided for in Section N.1 is unenforceable or is unavailable to an indemnifying party in respect of any losses, claims, damages or liabilities (or actions in respect thereof) of the type subject to indemnification herein, then the indemnifying party shall, in lieu of indemnifying such person, contribute to the amount paid or payable by such person as a result of such losses, claims, damages or liabilities (or actions in respect thereof). In the case of the Authority and the Underwriters, contribution shall be in such proportion as is appropriate to reflect the relative benefits received by the Authority, on the one hand, and the Underwriters, on the other, from the sale of the 2013 Bonds. If, however, the allocation provided by the immediately preceding sentence is not permitted by applicable law then the indemnifying party shall contribute to such amount paid or payable by such indemnified party in such proportion as is appropriate to reflect not only such relative benefits but also the relative fault of the Authority, on the one hand, and the Underwriters, on the other, in connection with the statements or omissions which resulted in such losses, claims, damages or liabilities (or action in respect thereof), as well as any other relevant equitable considerations. The relative benefits received by the Authority, on the one hand, and the Underwriters, on the other, shall be deemed to be in the same proportion as the total proceeds of the sale of the 2013 Bonds paid to the Authority pursuant to Section A.1 hereof (before deducting expenses) bear to the underwriting discount received by the Underwriters (the difference between the initial public offering price for the 2013 Bonds appearing on the cover page of the Official Statement and the price to be paid therefor by the Underwriters as set forth therein under the caption "UNDERWRITING"). The relative fault shall be determined by reference to, among other things, whether the untrue or alleged untrue statement of a material fact or the omission or alleged omission to state a material fact relates to information supplied by the Authority or the Underwriters and the parties' relative intent, knowledge, access to information, and opportunity to correct or prevent such untrue statement or omission. The

Authority and the Underwriters agree that it would not be just and equitable if contribution pursuant to this subsection were determined by pro rata allocation or by any other method of allocation which does not take account of the equitable considerations referred to above in this subsection. The amount paid or payable by any person as a result of the losses, claims, damages or liabilities (or actions in respect thereof) referred to above shall be deemed to include any legal or other expenses reasonably incurred by such person in connection with investigating or defending any such action or claim. Notwithstanding the provisions of this paragraph, however, the Underwriters shall not be required to contribute an amount in excess of the amount by which such initial public offering price exceeds the Underwriter's discount of purchase of the 2013 Bonds pursuant to this Bond Purchase Agreement. No person guilty of fraudulent misrepresentation (within the meaning of Section 10(b) of the Securities Act) shall be entitled to contribution from any person who was not guilty of such fraudulent misrepresentation.

N. No Advisory or Fiduciary Role. The Authority acknowledges and agrees that: (i) the purchase and sale of the 2013 Bonds pursuant to this Bond Purchase Agreement is an arm's-length commercial transaction between the Authority and the Underwriters, (ii) in connection with such transaction and with the discussions, undertakings and procedures leading up to the consummation thereof, each Underwriter is and has been acting solely as a principal and not as an agent or fiduciary of the Authority, (iii) the Underwriters have not assumed (individually or collectively) an advisory or fiduciary responsibility in favor of the Authority with respect to the offering contemplated hereby or the discussions, undertakings and procedures leading up to the consummation thereof (irrespective of whether an Underwriter or any affiliate of an Underwriter has provided other services or is currently providing other services to the Authority on other matters), (iv) the Authority has consulted its own legal, financial and other advisors to the extent it has deemed appropriate in connection with the offering of the 2013 Bonds and (v) this Bond Purchase Agreement expresses the entire relationship between the parties hereto with respect to the issuance and sale of the 2013 Bonds.

O. Notices. All notices provided for in this Bond Purchase Agreement shall be made in writing either by actual delivery of the notice into the hands of the parties entitled thereto, by confirmed facsimile transmission, or by sending the notice by air courier or mailing by certified or registered mail, return receipt requested, in the United States mail to the address as stated below (or at such other address as may have been designated by written notice) of the party entitled thereto. The notice shall be deemed to be received in case of actual delivery on the date of its actual receipt by the party entitled thereto, in case of delivery by facsimile, on the date receipt is confirmed, in case of delivery by air courier on the date of delivery, and in case of mailing, on the date of receipt by United States mail, postage prepaid.

All communications hereunder, except as herein otherwise specifically provided, shall be in writing and mailed or delivered to the Authority at the address set forth above and to the Underwriters at the following addresses:

Citigroup Global Markets Inc.
601 Union Street, Suite 5130
Seattle, WA 98101

Attention: Neal Atterman

P. Governing Law. This Bond Purchase Agreement shall be governed by and construed in accordance with the laws of the state of New York.

Q. Miscellaneous. This Bond Purchase Agreement is made solely for the benefit of the signatories hereto (including the successors or assigns of the Underwriters) and no other person shall acquire or have any right hereunder or by virtue hereof. The term "successor" shall not include any holder of any 2013 Bonds merely by virtue of such holding. All representations, warranties, agreements; and indemnities contained in this Bond Purchase Agreement shall remain operative and in full force and effect, regardless of delivery of and payment for the 2013 Bonds, and any termination of this Bond Purchase Agreement.

[Signature Page Follows]

R. Counterparts. This Bond Purchase Agreement may be executed in counterparts with the same force and effect as if all signatures appeared on a single instrument.

Very truly yours,

CITIGROUP GLOBAL MARKETS INC,
as Representative, on behalf of itself
and Wells Fargo Securities.

ESCROW AGREEMENT

THIS ESCROW AGREEMENT, dated as of [_____] 1, 2013 (the "Escrow Agreement"), is by and between the A.B. WON PAT INTERNATIONAL AIRPORT AUTHORITY, GUAM (the "Authority"), a duly organized public corporation and autonomous instrumentality of the government of Guam, and U.S. BANK NATIONAL ASSOCIATION, a national banking association organized and existing under the laws of the United States of America and qualified to accept and administer the duties of the Escrow Agent (as defined herein) hereby created, as Co-Trustee under the Indenture hereinafter identified (the "Co-Trustee"), acting as escrow agent hereunder (in such capacity, the "Escrow Agent").

WITNESSETH:

WHEREAS, the Authority has heretofore issued its Guam International Airport Authority General Revenue Bonds, 2003 Series A, 2003 Series B and 2003 Series C (collectively, the "Series 2003 Bonds") pursuant to an indenture, dated as of September 1, 2003, by and among the Authority, Bank of Guam, as successor trustee (the "Trustee"), and the Co-Trustee (as supplemented and amended, the "Indenture"); and

WHEREAS, the A.B. Won Pat International Airport Authority, Guam, General Revenue Bonds, 2013 Series A (the "2013 Series A Bonds"), 2013 Series B (the "2013 Series B Bonds"), 2013 Series C (the "2013 Series C Bonds" and, together with the [2013 Series A Bonds and 2013 Series B Bonds,] the "Refunding Bonds") are being issued pursuant to the Indenture, including as supplemented by a third supplemental indenture, dated as of [August] 1, 2013, by and among the Authority, the Trustee and the Co-Trustee, for the purpose, among others, of providing moneys to refund and redeem or pay upon the maturity thereof the Series 2003 Bonds which are currently outstanding in the aggregate principal amount of $[_____] (the "Refunded Bonds"); and

WHEREAS, in order to accomplish the defeasance of the Refunded Bonds in accordance with Article X of the Indenture, the Authority will deposit, or cause to be deposited, a portion of the proceeds of the Refunding Bonds and certain moneys on deposit in the funds and accounts established pursuant to the Indenture with the Escrow Agent in accordance with this Escrow Agreement; and

WHEREAS, the Authority has approved the issuance, sale and delivery of the Refunding Bonds and the deposit of the proceeds thereof and such other moneys in accordance with this Escrow Agreement;

NOW, THEREFORE, in consideration of the foregoing and of the mutual covenants hereinafter set forth, the parties hereto agree as follows:

SECTION 1. ***Creation of Escrow Fund.*** There is hereby created and established with the Escrow Agent a special and irrevocable escrow fund designated as the "Guam International Airport Authority General Revenue Bonds, 2003 Escrow Fund" (the "Escrow Fund") to be held in the custody of the Escrow Agent in trust under this Escrow Agreement for the benefit of the owners of the Refunded Bonds. All securities, investments and moneys in the Escrow Fund are hereby irrevocably pledged to meet the payment requirements

set forth in Schedule I attached hereto and made a part hereof, subject to the provisions of Sections 5 and 7 hereof.

SECTION 2. ***Deposit to the Escrow Fund.*** Concurrently with the execution and delivery of this Escrow Agreement, the Authority shall deposit, or cause to be deposited, with the Escrow Agent the sum of $[_____] ($[_____] to be derived from the proceeds of the Refunding Bonds, and $[_____] to be derived from the moneys on deposit with the Co-Trustee in the funds established under the Indenture). The Escrow Agent shall, on the same date, apply a portion of such amount to purchase certain noncallable securities and investments, all as set forth in Schedule II attached hereto and made a part hereof (the "Escrowed Securities"), which securities the Authority represents are Federal Securities permitted under the Indenture for purposes of defeasing the Refunded Bonds, maturing on the dates and in the amounts necessary, together with other amounts on deposit in the Escrow Fund, to make the payments described in Section 5. Any amount in the Escrow Fund not so applied to purchase such Escrowed Securities shall be held in the Escrow Fund as uninvested cash.

SECTION 3. ***Investment of Escrow Fund.*** The Escrow Agent will purchase the Escrowed Securities in the name of the Escrow Agent as provided in Section 2 above and will hold such Escrowed Securities and any earnings received thereon in the Escrow Fund and disburse such amounts as provided herein. The Escrow Agent shall collect amounts due and shall apply such amounts as needed to make the payments and transfers required by this Escrow Agreement, but otherwise shall have no power or duty to sell, transfer or otherwise dispose of the Escrowed Securities or cash held under the terms of this Escrow Agreement.

In the event that at any time the Authority is of the opinion that for purposes of Section 13 it is necessary to restrict or limit the yield on the investment of any moneys held by the Escrow Agent pursuant to this Escrow Agreement, the Authority shall instruct the Escrow Agent in writing, and the Escrow Agent shall take such action as it may be directed in accordance with such instructions; provided, however, that no such action shall impair the ability of the Escrow Agent to apply necessary amounts in the Escrow Fund for the purposes set forth in Section 5 below.

SECTION 4. ***Creation of Lien on Escrow Fund.*** The Escrow Fund created hereby shall be irrevocable, and the Escrow Agent is hereby appointed to act for the benefit of the holders of the Refunded Bonds, which holders are hereby granted an exclusive lien on the Escrow Fund and all moneys and investments from time to time held therein for the payment of amounts described in Section 5 below. The Escrow Agent shall hold such moneys and investments for the sole benefit of the holders of the Refunded Bonds separate and apart from, and not commingled with, any other moneys or investments.

SECTION 5. ***Use of Escrow Fund.*** The Escrow Agent shall apply amounts in the Escrow Fund at such times and in such amounts as is necessary to transfer to the paying agent for the Refunded Bonds amounts to pay for maturing Refunded Bonds and Refunded Bonds called for redemption as well as interest due according to Schedule I attached hereto.

SECTION 6. ***Notice of Redemption.*** The Authority hereby irrevocably instructs the Escrow Agent to give notice of redemption on August [29], 2013 of the Refunded Bonds

maturing after October 1, 2013. Such notice of redemption shall be given not less than thirty (30) nor more than sixty (60) days before October 31, 2013 in the manner required by Section 4.03 of the Indenture, shall be substantially in the form set forth in Appendix A attached hereto and made a part hereof and shall otherwise be in conformity with any applicable requirements of the Indenture.

SECTION 7. ***Transfer of Excess Funds.***

(a) Interest income and other amounts received by the Escrow Agent as payments on the Escrowed Securities shall be held as part of the Escrow Fund to be used for the purposes set forth in Section 5 of this Escrow Agreement and shall be held uninvested.

(b) If the Escrow Agent receives a report of a certified public accountant or firm of certified public accountants acceptable to the Authority to the effect that the money and investments in the Escrow Fund, including earnings thereon, will be in excess of the amount necessary to pay all of the Refunded Bonds when due by reason of maturity or optional redemption, and an opinion of nationally recognized bond counsel that the transfer described in this sentence is permitted by law and will not affect the exclusion from gross income of interest on such Refunded Bonds or the Refunding Bonds for federal income tax purposes, the Escrow Agent shall, upon written direction of the Authority, transfer the amount of such excess to the Authority.

SECTION 8. ***Liability of Escrow Agent.***

(a) The Escrow Agent shall not be liable for any loss resulting from any investment made pursuant to this Escrow Agreement in compliance with the provisions hereof. The Escrow Agent shall have no lien whatsoever on the Escrow Fund or moneys on deposit in the Escrow Fund for the payment of fees and expenses for services rendered by the Escrow Agent under this Escrow Agreement or otherwise.

(b) The Escrow Agent shall not be liable for the accuracy of the calculations as to the sufficiency of any moneys deposited into the Escrow Fund or Escrowed Securities purchased at the direction of the Authority to pay the principal of and premium, if any, and interest on the Refunded Bonds.

(c) In the event of the Escrow Agent's failure to account for any of the Escrow Fund or moneys received by it, said Escrow Fund or moneys shall, nevertheless, be and remain in trust for the holders of the Refunded Bonds or portions thereof, as herein provided.

(d) The Escrow Agent undertakes to perform only such duties as are expressly set forth in this Escrow Agreement and no implied duties or obligations shall be read into this Escrow Agreement against the Escrow Agent.

(e) The Escrow Agent may conclusively rely, as to the truth of the statements and the correctness of the opinions expressed therein, and shall be protected as stated in this Escrow Agreement, in acting, or refraining from acting, upon written notice, instruction, request, certificate, document, report or opinion furnished to the Escrow Agent and reasonably believed by the Escrow Agent to have been signed or presented by the proper party, and it need not

investigate any fact or matter stated in such notice, instruction, request, certificate, document, report or opinion.

(f) The Escrow Agent shall not have any liability hereunder except to the extent of its own negligence or willful misconduct. The Escrow Agent is not required to resolve conflicting demands to money or property in its possession under this Escrow Agreement.

(g) The Escrow Agent may consult with counsel of its own choice (which may be counsel to the Authority) and the opinion of such counsel shall be full and complete authorization to take or suffer in good faith any action in accordance with such opinion of counsel.

(h) The Escrow Agent shall not be responsible for any of the recitals or representations contained herein, in the Indenture or in the Refunding Bonds.

(i) The Escrow Agent may become the owner of, or acquire any interest in, any of the Refunding Bonds with the same rights that it would have if it were not the Escrow Agent and may engage or be interested in any financial or other transaction with the Authority.

(j) The Escrow Agent shall be afforded the same rights and protections afforded the Co-Trustee under the Indenture, including, without limitation, those set forth in Article VIII thereof.

(k) The Escrow Agent shall not be liable for any action or omission of the Authority under this Agreement, the Indenture or otherwise.

(l) No provision of this Escrow Agreement shall require the Escrow Agent to expend or risk its own funds or otherwise incur any financial liability in the performance or exercise of any of its duties hereunder or in the exercise of its rights or powers.

SECTION 9. ***Sufficiency of Escrow.*** The Authority agrees that if for any reason the investments and moneys and other funds in the Escrow Fund are insufficient or otherwise unavailable to pay timely principal of, premium, if any, and interest on, the Refunded Bonds, the Authority shall continue to be liable therefor in accordance with the terms of the Refunded Bonds and the Indenture. The Escrow Agent shall in no manner be responsible for the Authority's failure to make any deposit to cure any deficiency.

SECTION 10. ***Records and Reports.*** The Escrow Agent will keep books of record and account in which correct entries shall be made of all transactions made by it relating to the receipts, disbursements, allocations and application of the money and Escrow Securities deposited to the Escrow Fund and all proceeds thereof. Such books shall be available for inspection at reasonable hours and under reasonable conditions upon reasonable prior notice by the Authority and the owners of the Refunded Bonds.

SECTION 11. ***Successor Escrow Agent.*** Any corporation or association into which the Escrow Agent may be merged or converted or with which it may be consolidated, or any corporation or association resulting from any merger, conversion, consolidation or reorganization to which the Escrow Agent shall be a party or any company to which the Escrow

Agent may sell or transfer all or substantially all of its corporate trust business (so long as such company meets the requirements set forth below), shall be the successor Escrow Agent under this Escrow Agreement without the execution or filing of any paper or any other act on the part of the parties hereto, anything herein to the contrary notwithstanding.

The Escrow Agent may resign by notifying the Authority in writing at least 30 days before the effective date of such resignation. The Authority may remove the Escrow Agent and appoint a successor Escrow Agent by notifying the Escrow Agent in writing. No such resignation or removal shall be effective until a successor Escrow Agent meeting the requirements set forth in the next paragraph has delivered an acceptance to the Authority and the Escrow Agent of (a) its appointment and (b) the cash and securities held under the terms of this Escrow Agreement. If the Authority does not appoint a successor Escrow Agent, the Escrow Agent may petition any court of competent jurisdiction for the appointment of a successor Escrow Agent, which court may thereupon, after such notice, if any, as it may deem proper and prescribe and as may be required by law, appoint a successor Escrow Agent.

Any Escrow Agent appointed under the provisions of this Section in succession to the Escrow Agent shall be a trust company or bank having the powers of a trust company doing business which has a combined capital and surplus of at least seventy-five million dollars ($75,000,000), and is subject to supervision or examination by federal or state authority. If such bank or trust company publishes a report of condition at least annually, pursuant to law or to the requirements of any supervising or examining authority above referred to, then for the purpose of this paragraph the combined capital and surplus of such bank or trust company shall be deemed to be its combined capital and surplus as set forth in its most recent report of condition so published. In case at any time the Escrow Agent shall cease to be eligible in accordance with the provisions of this paragraph, the Escrow Agent shall resign immediately in the manner and with the effect specified in this Section.

SECTION 12. ***Termination.*** This Escrow Agreement shall terminate when all payments required to be made by the Escrow Agent under the provisions of Section 5 hereof shall have been made and any moneys and investments remaining in the Escrow Fund at the time of such termination shall have been transferred to the Authority and the Escrow Agent has provided a final account statement to the Authority.

SECTION 13. ***Tax Status of Interest on Bonds.*** The Authority covenants and agrees for the benefit of the holders of the Refunded Bonds that it will not perform or permit to be performed anything or any act in such manner as would cause interest on the Refunded Bonds or the Refunding Bonds to be included in the gross income of the recipients thereof for federal income tax purposes under the Internal Revenue Code of 1986 (the "Code"), and, in particular, it will not use any of the proceeds received from the sale of the Refunding Bonds, directly or indirectly, in any manner which would result in such Refunding Bonds being classified as "arbitrage bonds" within the meaning of Section 148(a) of the Code.

SECTION 14. ***Severability.*** If any section, paragraph, sentence, clause or provision of this Escrow Agreement shall for any reason be held to be invalid or unenforceable, the invalidity or unenforceability of such section, paragraph, sentence, clause or provision shall not affect any of the remaining provisions of this Escrow Agreement.

SECTION 15. ***Successors and Assigns.*** All of the covenants and agreements in this Escrow Agreement contained to be performed by or on behalf of the Authority or the Escrow Agent shall bind and inure to the benefit of their respective successors and assigns, whether so expressed or not.

SECTION 16. ***Compensation of Escrow Agent.*** For acting under the Escrow Agreement, the Escrow Agent shall be entitled to payment of fees for its services and reimbursement of reasonable disbursements and advances, counsel fees and other expenses reasonably and necessarily made or incurred by the Escrow Agent in connection with its services under this Escrow Agreement in accordance with the Escrow Agent's fee schedule as agreed to with the Authority; provided, however, that such amount shall never be deducted or payable from, or constitute a lien or charge against or upon the Escrow Fund.

SECTION 17. ***Governing Law.*** This Escrow Agreement shall be governed by the applicable laws of Guam; provided, however, that the administration of the trusts duties imposed upon the Escrow Agent by the Escrow Agreement and the rights, duties and obligations of the Escrow Agent hereunder shall be governed by, and construed in accordance with the laws of the jurisdiction in which the Escrow Agent has its corporate trust office.

SECTION 18. ***Business Day.*** Whenever under the terms of this Escrow Agreement the performance date of any act to be done hereunder shall fall on a day which is a Sunday or a legal holiday or a day upon which banking institutions are authorized by law to close, the performance thereof on the next succeeding day which is not a Sunday or a legal holiday or a day upon which banking institutions are authorized by law to close shall be deemed to be in full compliance with this Escrow Agreement.

SECTION 19. ***Headings.*** Any headings preceding the text of the several Sections hereof, and any table of contents appended to copies hereof, are for convenience of reference only and shall not constitute a part of this Escrow Agreement, nor shall they affect its meaning, construction or effect.

SECTION 20. ***Counterparts.*** This Escrow Agreement may be executed in any number of counterparts, each of which for all purposes shall be deemed to be one original and all of which shall together constitute but one and the same instrument.

SECTION 21. ***Amendment.*** The parties hereto may, without the consent of or notice to the holders of the Refunded Bonds, enter into such amendments to this Escrow Agreement that shall not adversely affect the rights of such holders hereunder and shall not be inconsistent with the terms and provisions of this Escrow Agreement, for any one or more of the following purposes:

(a) to cure any ambiguity or formal defect or omission in this Escrow Agreement;

(b) to grant to, or confer upon the Escrow Agent, for the benefit of the holders of the Refunded Bonds, any additional rights, remedies, powers or authority that may lawfully be granted to, or conferred upon the Escrow Agent;

(c) to subject to this Escrow Agreement additional funds, revenues, securities or properties;

(d) to conform this Escrow Agreement to the provisions of any law or regulation governing the exclusion from gross income of interest on the Refunded Bonds or the Refunding Bonds for federal income tax purposes in order to maintain their such exclusion; and

(e) to make any other change determined by the Authority to be not materially adverse to the holders of the unpaid Refunded Bonds. In making such determination, the Authority and the Escrow Agent may rely on the opinion of legal counsel.

IN WITNESS WHEREOF, the A.B. WON PAT INTERNATIONAL AIRPORT AUTHORITY, GUAM and U.S. BANK NATIONAL ASSOCIATION have caused this Escrow Agreement to be executed by their duly authorized officers as of the date first above written.

SCHEDULE I—Required Payments

(See Attached)

SCHEDULE II—Investments and Securities

(See Attached)

APPENDIX A

Form of Notice of Redemption

RESCINDABLE NOTICE OF REDEMPTION OF
A.B. WON PAT INTERNATIONAL AIRPORT AUTHORITY, GUAM
General Revenue Bonds,
2003 Series A, 2003 Series B and 2003 Series C

NOTICE is hereby given to the owners of the Guam International Airport Authority General Revenue Bonds, 2003 Series A, 2003 Series B and 2003 Series C (collectively, the "Bonds") that the A.B. Won Pat International Airport Authority, Guam (the "Authority") has duly called for redemption all of the outstanding Bonds maturing on or after October 1, 2013 and will redeem such Bonds on [_____], 2013 (the "Redemption Date"), prior to the stated maturity. From and after the Redemption Date, interest on the Bonds will cease to accrue.

The Bonds shall become due and payable on the Redemption Date, at a redemption price equal to 100% of the principal amount thereof, plus accrued and unpaid interest to the Redemption Date, upon presentation and surrender, with a written instrument of transfer duly executed by the registered owner thereof or by such registered owner's attorney duly authorized in writing, at the following address:

[U.S. BANK TO CONFIRM ADDRESS INFORMATION]

If by Mail: (Registered Bonds)	If by Mail: (Bearer Bonds)	If by Hand or Overnight Mail:
U. S. Bank Trust National Association Corporate Trust Services P. O. Box 64111 St. Paul, MN 55164-0111	U. S. Bank Trust National Association Corporate Trust Services P. O. Box 64452 St. Paul, MN 55164-0452	U. S. Bank Trust National Association 180 East Fifth Street 4th Floor - Bond Drop Window St. Paul, MN 55101

The Bonds to be redeemed mature on the dates, are in the principal amounts, and bear the CUSIP numbers, as set forth below: [TO COME]

2003 Series A

Maturity Dates (October 1)	Date of Issue	Principal Amount	Interest Rate	CUSIP Number
		$_____		

2003 Series B

Maturity Dates (October 1)	Date of Issue	Principal Amount	Interest Rate	CUSIP Number
		$_____		

2003 Series C

Maturity Dates (October 1)	Date of Issue	Principal Amount	Interest Rate	CUSIP Number
		$_____		

The Authority may, at its option, at any time prior to the Redemption Date, rescind and cancel this notice of redemption.

Dated this [___] day of [August] 2013.

MINUTES OF THE REGULAR MEETING OF THE BOARD OF DIRECTORS OF A.B. WON PAT INTERNATIONAL AIRPORT AUTHORITY, GUAM
Thursday, September 19, 2013, 3:00 p.m.
GIAA TERMINAL CONFERENCE ROOM #3

1. CALL TO ORDER AND ATTENDANCE

The September 19, 2013, regular meeting of the Board of Directors of the A.B. Won Pat International Airport Authority, Guam ("GIAA") was called to order by Chairman Santos at 3:08 p.m. at the GIAA Terminal Conference Room #3, 355 Chalan Pasaheru, Tamuning, Guam 96913.

Directors present:	**Offices or Positions:**
Francisco G. Santos	Chairman
Lucy M. Alcorn	
Edward G. Untalan	
P. Sonny Ada	
Directors absent:	
Jess Q. Torres (Excused)	Vice Chairman
Linda Tolan (Excused)	
Martin Gerber (Excused)	
GIAA Officials:	
Charles H. Ada II	Executive Manager
Peter Roy Martinez	Deputy Executive Manager
Carlos P. Bordallo	Acting Comptroller
Frank R. Santos	Business and Financial Consultant
Jean M. Arriola	Air Services Manager
Gerard Bautista	Air Terminal Manager
Michael A. Pangelinan Esq.	Legal Counsel
Janalynn Cruz Damian Esq.	Legal Counsel

The Chairman welcomed the presence of Airport tenants, stakeholders, and members of the public who are noted in the sign-in sheet made an as attachment to these minutes.

2. APPROVAL OF AGENDA

The Chairman asked if there were any changes to the agenda. No changes were requested. On motion duly made by Director Ada, and seconded by Director Alcorn, the agenda was unanimously approved.

3. APPROVAL OF MINUTES

The next item on the agenda was approval of the minutes of the July 25, 2013 Regular Meeting and the August 9, 2013 Special Meeting.

On motion duly made by Director Ada, seconded by Director Alcorn, the minutes of the July 25, 2013 Regular Meeting and the August 9, 2013 Special Meeting was unanimously approved, subject to corrections.

4. CORRESPONDENCE

The Executive Manager informed the Board that GIAA had received two (2) correspondences. The first correspondence pertained to the Specialty Retail Concession, which the Executive Manager requested to be discussed during Executive Session because of the pending litigation.

The second correspondence was from the Guam Lions Club in reference to a request to donate a welcome to Guam sign. The Executive Manager recommended that instead of a static sign (as proposed by the Club), that the Board possibly consider an electronic or digital board. This would allow more information to be displayed, such as flight information, road closures throughout the Airport or emergency alerts, etc. This format could also possibly offer the opportunity to current or outside vendors to advertise, which could generate additional revenue for the Airport.

The Executive Manager requested additional time for Management to review the proposal from the Guam Lions Club. The Chairman requested Management present its recommendation to the Board at the next Board meeting. Director Ada requested that Management develop a signage policy for the Board's consideration, if none existed.

5. MATTERS FOR BOARD RATIFICATION/APPROVAL

A. Approval of TSA Other Transaction Agreement

Mr. Frank Santos, Business and Financial Consultant, presented the request to approve the TSA other Transaction Agreement. Mr. Santos stated that this was a grant from TSA for the Checked Baggage Recapitalization Screening Construction Services Project (the "Project"). The Project is to relocate all of the checked baggage screening, currently located in front of the ticket counters, to the back and to integrate the system into the in-line baggage system.

Mr. Santos noted that there were two parts to the Project. The first part of the Project, called Recapitalization, will change out the security equipment that TSA uses, including the entire infrastructure that supports the equipment. The second, called Optimization is the work needed to bring in the equipment and make changes to the baggage handling system that supports the operation. Mr. Santos was happy to inform the Board that TSA will be funding 100% of the $2,670,602 cost of the Recapitalization phase and 95% of the $23,398,661 cost of the Optimization phase. GIAA's share of the total project cost of $26,069,263 will be $1,169,933.

Mr. Santos informed the Board that the GIAA had initially planned to finance the bulk of the cost of this Project through the 2013 bond financing. Now that TSA will be financing approximately 96% of the total cost, GIAA will now redirect the funds allocated to the project to other capital improvement projects on the Bond Project List. Mr. Santos stated that GIAA has been waiting for a number of years to begin this project. Its completion will provide more space in the check-in lobby for passengers to use, the queuing space for the airlines to use and ultimately improve the passenger experience. Mr. Santos, on behalf of Management, requested that the Board approve the TSA Other Transaction Agreement.

Chairman Santos called for any questions from the Board. Director Ada inquired on the location and if it included sorting equipment. Mr. Santos replied there will be changes made to the sorting equipment and there will also be a little room built above the loading dock area so that more room can be provided for the conveyer belt.

After further discussion, on motion duly made by Director Ada, and seconded by Director Alcorn, the following resolution was unanimously approved:

Resolution

The Board hereby approves the Transportation Security Administration Other Transaction Agreement for the Checked Baggage Recapitalization Screening Construction Services Project.

B. Approval of Award for Money Exchange Concession Multi-Step IFB No. GIAA-02A-FY13

The Executive Manager stated that GIAA issued the Money Exchange Concession through a multi-step bid process. The process consisted of two phases. Phase I is qualified based submission, and those deemed qualified are invited to participate in Phase II, which requires the qualified bidders to submit bids of annual percentage fees for the term of the contract. Mr. Ada reported that three (3) companies acknowledged receipt of the bid package, however, only two (2) companies submitted bid proposals before the submission deadline: Lenlyn Ltd., dba ICE Currency Services and Travelex Currency Services.

Both bidders were deemed qualified and responsible bidders and submitted bids under Phase II. Based upon review of the bids submitted, Travelex Currency Services, Inc. submitted the best annual percentage fees for the term of the contract. Accordingly, Management recommends awarding the Money Exchange Concession Agreement to Travelex Currency Services, Inc. for a period of five (5) years, effective November 1, 2013, subject to legal review of the contract.

Director Ada inquired if the current concession term was up. The Executive Manager responded yes and that the current company has been operating on a month to month basis. The Manager also stated that after the five (5) year contract the concession would be put out for competitive bid once again.

On motion duly made by Director Ada, and seconded by Director Untalan the following resolution was unanimous approved:

Resolution

The Board hereby approves Management's recommendation to award the Money Exchange Concession Agreement, procured under Multi-Step IFB No. GIAA-02A-FY13, to Travelex Currency Services, Inc., based upon the annual percentage fees submitted by Travelex Currency Services, Inc., for a period of five (5) years, effective November 1, 2013, subject to legal review of the Money Exchange Concession Agreement.

C. Approval of GIAA FY2014 Insurance Program Renewal

The Executive Manager introduced to the Board the Airport's Insurance Broker, Ms. Annmarie Muna of AM Insurance, who presented a summary of the various insurance carriers who responded to the insurance specifications for the Airport. Ms. Muna informed the Board that the renewal process was successful this year as a result of more participation from the different carriers, which means more competitive premiums. Ms. Muna went on to explain the process of renewal and referred the Board to the chart titled "FY2014 Markets & Underwriters" setting forth the quotes submitted by the various carriers for the various policies as well as the September 18, 2013 Memorandum from Iris, Ltd, GIAA's insurance consultant, recommending which quotes to accept. Based upon the quotes submitted, Management recommended that the Board approve accepting the quotes as follows:

Property Insurance – Accept Calvo's bid.
Airport Liability – Accept Moylan's bid.
Workers Compensation – Accept Calvo's bid.
Directors & Officers Liability – Accept Moylan's bid.
Commercial Auto – Accept Moylan's bid.
Crime – Accept Moylan's bid.

Based upon the quotes submitted, Ms. Muna explained that GIAA would see a savings for FY2014 compared to FY2013 of $217,581.00.

Director Ada inquired if the policies were single year or multiyear policies, and if this process is completed annually. Ms. Muna replied single year. Director Untalan asked if this was a better option. Director Ada explained that in some cases you will get better rates for multiyear policies. Ms. Muna responded stating that if the insurance specifications ask for multiyear policies than yes. There was a carrier that offered a three year option on their workman's compensation, but it was not considered because it was not asked for in the specifications and the carrier's workman's compensation three year option quote was subject to an annual audit at the end of the year, which resulted in an open ended quote.

Brief discussion followed relative to multiyear policies with Director Ada inquiring as to why internally GIAA does not request for multiyear policies on the specifications. Mr. Mike Moody of Iris, Ltd. responded informing the Board that GIAA certainly can request for multiyear polices however, workman's compensation policies customarily are never done on a multiyear basis without audit provisions, which results in an open ended price and a firm figure is required.

Mr. Moody went on to add that now they do request for multiyear quotes on policies such as auto, crime. Director Untalan inquired aside from the workman's compensation, did GIAA request for a multiyear policy. Director Alcorn inquired as to whether it would be more cost effective to go multiyear. Ms. Jean Arriola replied that GIAA can definitely explore that as an option next time.

Ms. Muna informed the Board that the specification can be revised next year to request that carriers provide quotes for a one (1) year and a three (3) year term and GIAA could then make a decision whether to go with one (1) year or three (3) year term.

Director Ada inquired on the Property Insurance coverage, if GIAA is following an airport standard and if FAA requires more coverage. Mr. Moody informed the board that the Bond Indenture does require GIAA to maintain insurance similar to other airports.

The Executive Manager requested that the Board accept Management's recommendation to approve the FY 2014 Insurance Program as presented.

On motion duly made by Director Alcorn, and seconded by Director Untalan, the following resolution was unanimously approved:

Resolution

The Board approves and accepts the following quotes for GIAA's FY2014 Insurance Program:

Property Insurance –Calvo's
Airport Liability –Moylan's
Workers Compensation – Calvo's
Directors & Officers Liability – Moylan
Commercial Auto – Moylan's
Crime – Moylan's

D. Ratification of Quarterly Travel

Management presented the Travel Report for FY2013 Third Quarter (April – June 2013) for ratification by the Board.

On motion duly made by Director Untalan, and seconded by Director Alcorn, the following resolution was unanimously approved:

Resolution

The Board hereby ratifies and approves the expenditures for travel set forth in the Travel Report for FY2013 Third Quarter (April-June 2013) as presented to the Board.

E. Ratification of Disbursements

The Executive Manager presented the listing of disbursements over $50,000 made by GIAA to various vendors during the period of July 25, 2013 – September 13, 2013. The Executive Manager noted that there was a high level of activity at the Airport during the relevant time period. Mr. Frank Santos added that the vast majority of the disbursements were for Capital Improvement Projects.

On motion duly made by Director Untalan, and seconded by Director Ada, the following resolution was unanimously approved:

Resolution

The Board hereby ratifies and approves the disbursements over the $50,000.00 threshold made by GIAA to various vendors during the period of July 25 – September 13, 2013.

6. OLD BUSINESS

A. Executive Manager's Report

Before proceeding with his report, the Executive Manager informed the Board that at this time due to current weather conditions approximately nine (9) flights were diverted from Guam to the CNMI. The Executive Manager explained that more than likely the passengers will just wait it out in Saipan on the tarmac.

The Executive Manager provided updates on various matters concerning airlines and charter operations, to include Vladivostok Air announcing plans to operate direct scheduled charter flights from two (2) locations in Russia's far east, Vladivostok and Khaborvsk. Flights will operate on a bi-weekly basis from November through March 2014, serviced by a Tupolov aircraft and an A320, with both having a seat capacity of 150 per flight. The Manager stated he was very excited to welcome the Airport's new partners.

In addition to their regularly scheduled flights from Narita, Japan Airlines has announced it will be operating charters in winter from Tokushima and Takamatsu, Japan. China Airlines will operate two (2) additional flights from Kansai to Guam in October, in addition to their nine (9) roundtrip flights. Director Ada inquired if those flights would be Japanese tourists or routing Taiwan tourists. Mr. Frank Santos responded it would be a combination.

Reporting on FAA and regulatory issues, the Executive Manager stated that the FAA conducted a visual inspection of the 6L/24R ILS on Friday, August 16, 2013. Flight checks for runway 6L/24R ILS originally scheduled for August 29, 2013 were postponed until December 2013 or January 2014.

United States Customs and Border Protection (USCBP) informed airlines operating at GIAA via Memorandum on August 8, 2013 that landing rights must be made seventy-five (75) days in advance in writing to the USCBP Port Director. USCBP's response to the requesting carrier would be issued thirty (30) days prior to the effective date.

The Executive Manager informed the Board that according to an announcement last week from TSA, Guam is among the sixty (60) U.S. airports included in the expansion of TSA's expedited screening program. The program allows pre-approved airline travelers to leave on their shoes, belt and lighter outerwear, as well as keep their laptops in their cases and their regulation liquids/gels bag in their carry-on in select screening lanes. Certain passengers who are eligible for the program include U.S. citizens of frequent flyer programs who are invited by participating airlines, or who are members of USCBP Trusted Traveler program. The Executive Manager informed the Board that TSA hosted a meeting two (2) days ago in reference to the program and the process as far as specific timelines and GIAA is very excited to engage that process. Mr. Ada stated it will definitely alleviate congestion at the security check points. Brief discussion followed on the types of programs passengers would need to be registered with to be eligible.

Reporting on the financial matters to include the refinance of 2003 bonds and new revenue bonds sale, the Executive Manager informed the Board of a comment made by Citigroup that this particular bond was the most successful bond financing endeavor that Guam has ever engaged. Mr. Ada stated that the success stems from the support of GIAA's Board of Directors and the support that they offered throughout the whole

endeavor and thanked the Board for its continued support. The Executive Manager went on to add that GIAA held an employee meeting that morning, and that recognition was given to the employees. Director Alcorn also offered congratulations to Management for their efforts.

Staying with financial issues, the Executive Manager announced that Management would like the Board to consider obligating this fiscal year the meritorious bonus that were supposed to be paid to qualified employees. Mr. Ada stated that he would like to suggest to the Board that GIAA consider encumbering the funds, and that he knew there were some concerns from some of the Board members regarding the legal aspect of it, which could be addressed at a later time. The Executive Manager stated he would like the Board to at least obligate the funds necessary to pay the Merit Bonus.

Mr. Carlos Bordallo informed the Board that the Office of Public Accountability ("OPA") had asked if GIAA recognized the Merit Bonus as a liability on the books, and at the time GIAA did not have the analysis prepared, but that OPA recommended that GIAA indeed recognize the liability. In discussions with Management, he stated, if we are going to recognize the liability than he would recommend GIAA do it this year, simply because of the fact that we have the new Concession Agreement and the numbers as shown in the Comptrollers Report, the debt service ratio would be minimally effected in the recognition of this liability. Also that it is a non-recurring cost as Merit Bonuses are a onetime pay out and will not add to the salary level of the employees. Director Ada requested for clarification that Management's request is to obligate the monies now at the recommendation of the Comptroller and the Public Auditor, subject to legal review. Director Untalan stated that he does not like to use the word obligate, that reserve would be a better word, as it would need to go through legal review.

After further discussion, on motion duly made by Director Untalan, and seconded by Director Alcorn, the following resolution was unanimously approved:

Resolution

The Board hereby approves the reservation of funds for the Merit Bonus program and requests that legal counsel address the legal issues on GIAA's liability to pay the Merit Bonus.

The Executive Manager next informed the Board that General Services Agency has granted full delegation of procurement authority to GIAA to serve as a purchasing agency for fiscal year 2014, beginning October 1, 2013 and expiring September 30, 2014. Under the delegation, GIAA must fully comply with all provisions of the Guam Procurement Act, and agree to the periodic review of procurement activities to ascertain compliance. Director Ada inquired on the full delegation of procurement. The executive Manager responded stating yes; however GIAA is subjected to audits from GSA, the Chief Procurement Officer, and last year GIAA underwent a GSA audit. The

Executive Manager informed the Board for the benefit of the new Directors, that GIAA has its' own Procurement Department and Mr. Frank Taitano is the Procurement Administrator. Discussion followed relative to procurement audits. Director Untalan stated that the Procurement Department was very key during the Concession Agreement in insuring that nothing was violated procurement wise.

B. Financial Report

For the Board's information, Mr. Carlos P. Bordallo, Acting Comptroller presented the financial report as of July 31, 2013.

C. Legal Counsel's Report

Legal Counsel requested that a report will be made during Executive Session relative to pending litigation. Mr. Michael Pangelinan requested that the Board approve payment of their fees above the monthly $45,000 cap for work done relating to the Bond financing. Mr. Pangelinan explained that the monthly cap for legal fees is $45,000, and if the fees exceed that cap then the Board would need to approve payment of the excess, with the only exception being for fees relating to the Specialty Retail Litigation.

Mr. Pangelinan explained that in the month of August there was quite a bit of extra work that was required, in particular regarding the Bond financing. He went on to state that they had committed one of their attorney's, Janalynn C. Damian pretty much full time on the Bond financing especially during the trip, attending the investor meetings in a few different cities, she was requested to attend meetings with the rating agencies, weekly conference calls that lasted hours per call throughout the month, resulting in fees in excess of the monthly cap. Mr. Pangelinan added that the $45,000 covers all matters, including the Bond financing.

Director Untalan inquired on the amount of legal fees for just the Bonds alone. Legal Counsel, Michael Pangelinan informed the Board that legal fees for the Bond matter were $52,482.00, and the cap was exceeded by $28,290.50. Mr. Pangelinan explained that most of the time legal fees are well below half of the cap but this month was an exceptional month that required a lot more commitment from the firm. The Comptroller suggested just absorbing the cost. Chairman Santos requested for justification. Director Untalan stated that the majority of the monthly fee is for bond related work and if the fees for the Bonds were not included, the amount would be well below the cap.

On motion duly made by Director Untalan, and seconded by Director Alcorn, the following resolution was unanimously approved:

Resolution

The Board hereby authorizes the payment of legal fees for legal services provided by Calvo Fisher & Jacob LLP for August 2013 in excess of the monthly cap of $45,000.

D. Status of Capital Improvement Programs

Mr. Frank Santos, Business and Financial Consultant, informed the Board that there would be no report this month and the report for the next Board meeting will include all of the Bond Projects.

7. NEW BUSINESS

No New Business presented.

At this time Director Untalan requested that the Board address the appointment of a permanent Comptroller, which was briefly discussed at the last board meeting. Director Untalan stated that Mr. Carlos Bordallo has been in the acting position for some time now, and because of his tenure with the Government of Guam and Bureau of Budget & Management Research (BBMR) specifically, he would like to recommend that the Board appoint Mr. Bordallo as the Comptroller of the Airport. Director Untalan stated that he understands that Mr. Bordallo is set to retire, however, after speaking with Mr. Bordallo, he has committed to staying with the Authority for another two (2) years.

Discussion followed relative to legal aspects of contracting Mr. Bordallo to work for two years. Legal counsel noted that if Mr. Bordallo is to be hired as an employee of GIAA, then GIAA would not be able proceed under an employment contract. Director Untalan requested that the board discuss the Comptroller's salary and the migration under the Uniform Pay Scale that employees received earlier in the year, as well as the retroactive pay. Director Alcorn inquired if the salary amount would have to come back to the Board for approval. Ms. Janalynn Damian, Legal Counsel responded no, not if a resolution directs authorizes the Executive Manager negotiate the salary, with the Board setting any limits, if desired. Director Untalan informed the Board that he could work with the Executive Manager and negotiate with Mr. Bordallo, and noted that it is best to finalize this issue for fiscal accounting purposes before the end of the calendar year.

On motion duly made by Director Untalan, and seconded by Director Alcorn, the following resolution was unanimously approved:

Resolution

The Board hereby appoints Mr. Carlos Bordallo as the Comptroller for the A.B. Won Pat International Airport Authority, Guam, subject to negotiation of his salary, retroactive to October 2012. The Board authorizes the Executive Manager and Director Untalan to negotiate the Comptroller's salary with Mr. Bordallo.

The Board and Management congratulated Mr. Bordallo.

Before moving into Executive Session, Director Ada informed the Board that he would like to bring up a few issues, with the first being the Baggage Claim sign. Director Ada expressed that the sign is quite unsightly as a first impression. The second issue was the cart locations when collecting your baggage. Director Ada stated that the carts are stored far from the actual baggage claim carousels and he's witnessed passengers looking for carts. Director Ada expressed that he would like to see the carts placed closer to the carousels. The third issue was the moving sidewalks. The Executive Manager responded informing the Board that the moving sidewalks have been quite problematical; however, the moving sidewalks are part of the Bond Project List.

Chairman Santos announced to the Board and Management, that this would be his last Board meeting as he was resigning effective 5:00 p.m. on Friday. Chairman Santos expressed his gratitude to Management and GIAA employees. The Chairman called for a motion to elect a new Chairman of the Board to replace him.

On motion duly made by Director Alcorn, and seconded by Director Ada, the following resolution was unanimously approved:

Resolution

Director Edward Untalan is nominated and elected as Chairman of the Board, effective upon resignation of Chairman Santos.

Director Untalan, so nominated and elected, accepted his appointment.

Chairman Santos, the members, Management, staff and all who were present congratulated the new Chairman.

8. EXECUTIVE SESSION

Upon written recommendation of counsel, on motion duly made by Director Alcorn and seconded by Director, unanimously approved, at 4:12 p.m. the Board recessed regular session and convened executive session to discuss pending litigation.

Executive session adjourned at 4:47 p.m., at which time the Board reconvened the regular meeting.

9. PUBLIC COMMENTS

The Chairman called upon any public member wishing to make comments. There was no response.

The Board members expressed their appreciation and thanks to Chairman Santos.

10. ADJOURNMENT

There being no further discussion, on motion duly made by Director Ada and seconded by Director Untalan, unanimously approved, the meeting was adjourned at 4:50 p.m.

Dated this 17th, day of December, 2013.

India gang rapists could face death penalty

Indian youths protest outside the Saket Court complex in New Delhi on Sept. 10.

NEW DELHI (AFP) – An Indian judge will Wednesday consider the sentences for four men found guilty of the brutal gang rape and murder of an Indian student on a bus, as the victim's family leads calls for them to be hanged.

A day after he handed down his verdicts over a crime that sickened India, Judge Yogesh Khanna will consider arguments from the prosecution and defense counsels over the severity of the punishment.

The 23-year-old victim's parents have insisted the four must be executed for what the judge branded the "cold-blooded murder" last December of their daughter, who was left with grievous internal injuries.

"The manner (in which) they committed this crime and destroyed a life, they should not get anything less than the death sentence," the mother of the victim, who cannot be named for legal reasons, told NDTV television late Tuesday.

Khanna is also under immense public and political pressure to order the death sentence, which can be handed down for "the rarest of rare" crimes but is seldom carried out in practice.

The case brought simmering public anger over rape and harassment to the boil, sparking unprecedented protests, tougher new laws to tackle sex crime and a bout of introspection about India's treatment of women.

Defense lawyers, who have announced plans to appeal Tuesday's verdicts, are set to argue that death sentences are not warranted for their clients, who were migrants to New Delhi living around a southern slum.

UN survey reveals Asia-Pacific rape crisis

BANGKOK (AFP) – Nearly a quarter of men surveyed in six Asia-Pacific countries admit to committing rape, often against their own partners, according to a UN report published Tuesday that exposes widespread violence against women.

Based on anonymous interviews with more than 10,000 men aged between 18 and 49 years old in Bangladesh, China, Cambodia, Indonesia, Sri Lanka and Papua New Guinea, the study is the first of its scale in the region.

"Violence against women is a harsh reality for many," Roberta Clarke, regional director of UN Women, said at the launch of the report in Bangkok.

"We must change the culture that enables men to enact power and control over women."

The prevalence of rape varied widely between locations, the UN said, explaining that its sample areas were not representative of whole countries.

Using a definition of non-consensual, penetrative sex as a benchmark, the study said 11 percent of respondents reported having raped a woman who was not their partner.

This rose to nearly a quarter – 24 percent – when their partner was included in the question.

Of those men who said they had committed rape, just under half (45 percent) said they had raped more than one woman.

Alarmingly, of those who admitted rape, half were teenagers and 12 percent were younger than 15 years old, while the majority of men surveyed said they had not faced any legal consequences for their actions.

The probe is not intended to be an authoritative statistical overview of rape in these six countries or of the Asia-Pacific region, say the authors.

"Violence is pervasive but it is also preventable," according to report researcher Emma Fulu of Partners for Prevention.

To break the pattern young people should be engaged with issues "around what consent means ... understanding sexuality and masculinity" within relationships, Fulu added.

The study was released on the same day that a court in India found four men guilty of gang-raping and murdering a student on a bus last December.

Filipino rebels call for international mediation

Residents, believed to be hostages, wave white cloth as they shout at troops to stop their operation in the continuing standoff with Muslim rebels on Sept. 11, in Zamboanga city, southern Philippines. AP

ZAMBOANGA (AP) – Muslim rebels holding scores of hostages in the southern Philippines are demanding international mediation, an official said Wednesday, as fresh rounds of gunfire broke out between government troops and the guerrillas on the third day of the standoff.

The rebels, enraged by a broken peace deal with the government, are holding the civilian hostages as human shields near the port city of Zamboanga. Troops have surrounded the Moro National Liberation Front guerrillas and their hostages in four coastal villages.

At least nine people have been killed since the standoff began Monday.

On Tuesday, the rebels fired two mortar rounds near the main port, prompting authorities to order vessels to dock elsewhere. The government rushed more troops and police to the city, and there were sporadic exchanges of gunfire. Some houses went up in flames in rebel-held villages, forcing more residents to flee.

Zamboanga City Mayor Maria Isabelle Climaco said the rebels were demanding international mediation. She said a former governor from the rebels' stronghold of Sulu province tried to talk to the gunmen Tuesday, but "they refuse to listen to anybody locally."

The MNLF rebel group signed a peace accord brokered by a committee of the Organization of the Islamic Conference with the government in 1996, but hundreds of its fighters held on to their arms and have recently accused officials of reneging on a promise to develop an autonomous region for minority Muslims in the southern Mindanao region. They also felt left out after a breakaway faction engaged in successful peace talks with the government brokered by Malaysia.

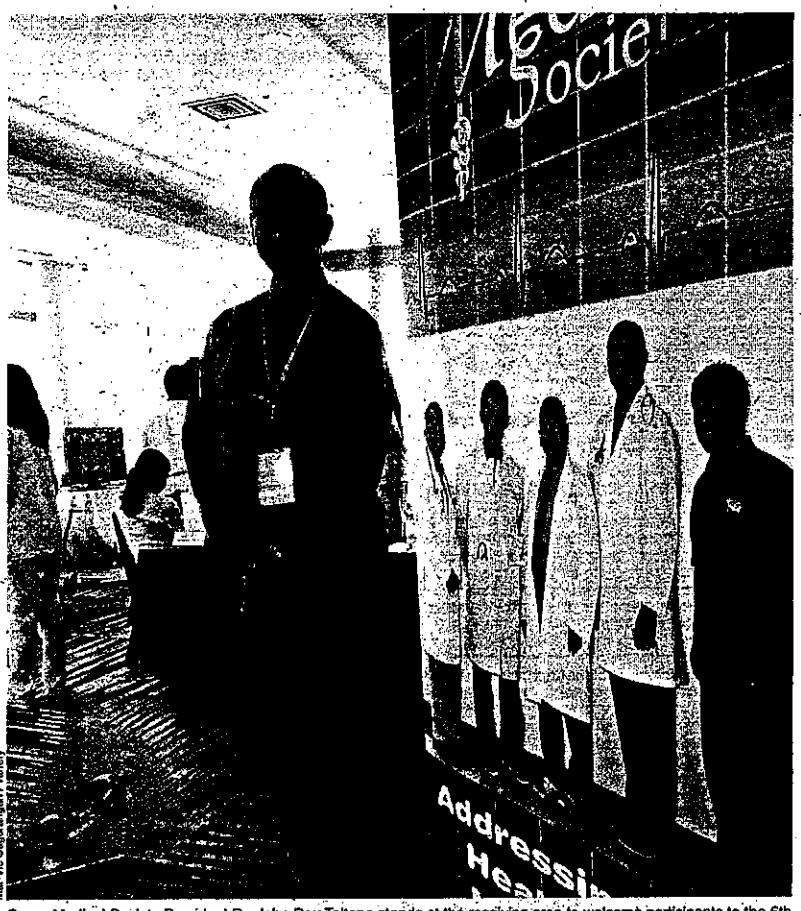
Home-based hospice care can reduce healthcare cost

By Mar-Vic Cagurangan
marvic@mvguam.com
Variety News Staff

FOR the terminally ill patient, there is a practical aspect to getting hospice care at home besides emotional comfort, according to healthcare professionals.



Home-based hospice care – as opposed to a prolonged treatment at the hospital setting – can contain the cost of the patient's medical care and ease the burden on the healthcare system, said Dr. John Ray Taitano, president of the Guam Medical Society.

"A lot of older patients in the end stage of their illnesses choose to die at home. They have already lived a full life and they want to be around their family. They don't want to burden their family with medical expenses," Taitano said. "People should have that option."

The medical society is urging the Legislature to enact a law that would compel local insurance providers to allow terminally ill patients to choose the home-based hospice care option.

"Hospice care means less cost for the insurance company, less cost for the caregivers and for the community. So the insurance companies save money as well. It is a win-win situation," Taitano said.

FHP Health Care Center and the Health Services of the Pacific are currently the only facilities that provide palliative and hospice care on Guam.

Mar-Vic Cagurangan / Variety

Guam Medical Society President Dr. John Ray Taitano stands at the receiving area to welcome participants to the 6th Micronesian Medical Symposium, which was held from Friday to Sunday at the Sheraton Laguna Resort.

The number of hospice care programs in the United States has grown to 4,700 since this treatment option was first introduced in New Haven, Conn. in 1974.

"Guam is far removed from that," Taitano said. "For a population like ours, we should have more than two."

Symposium

Healthcare providers gathered over the weekend at the Sheraton Laguna Resort for the 6th Micronesian Medical Symposium, featuring a host of experts who discussed hospice and palliative care services available on Guam.

The Guam Medical Society-sponsored event tackled all aspects of end-of-life care including its challenges.

"In this symposium, we are trying to educate the community and care providers, and hopefully to start a movement to get the Legislature to pass more laws so that individuals can have that option to go to hospice care or palliative care," Taitano said.

Such an option, however, is not meant to preclude medical care for patients who choose to pursue aggressive treatment.

Dying with dignity

"Hospice care is what we give patients in the last six months of life. These are individuals who are very sick, with end-stage cancer, end-stage kidney diseases, end-stage lung diseases and heart failures and are already difficult to manage with medication," Taitano said.

Hospice care substitutes inpatient hospital services with home-based medical services, emotional and psychological support, as well as spiritual resources for the terminally ill patient, who is surrounded by a team of palliative care providers including family members.

"In palliative care, we intensify our efforts to make sure the patient is relieved of pain, sufferings and depression," Taitano said.

"As a team, we concentrate on what we can do to make the life of the individual better, more comfortable, and to allow them to die with dignity," he added.

Fake job ads for GMH abound online

By Mar-Vic Cagurangan
marvic@mvguam.com
Variety News Staff

FAKE job listings for Guam Memorial Hospital are posted on suspicious websites that advertise openings for a pathologist, three pediatric hospitalists, and specialty physicians.

"This ad was not authorized or placed by GMH. [The hospital's administration] has nothing to do with this ad. Our pathologist position remains filled," GMH Administrator Joseph Verga said yesterday.

The identical job listings, posted on www.Mdsearch.com and www.LocumTenens.com, state, "We have decided that we need our new pathologist to be board-certified in both anatomic and clinical pathology prior to coming to Guam."

According to the ads, the new pathologist will eventually be considered for the "lab director position."

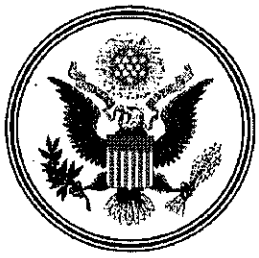
Both websites, which listed a certain "Rose Trench" as the contact person, have a separate entry for pediatric hospitalists.

"This is the first I have ever heard about it. I know nothing else. I do not know a Rose Trench," Verga said in an email to Variety, commenting on the website links sent to him.

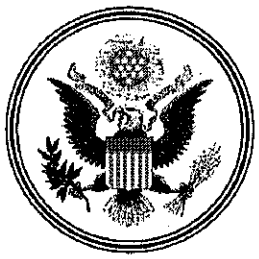
The text on the ads further state that the hospital's administration "entered into a new era in the area of cardiology this past year. New services include thallium stress imaging, and transesophageal echocardiography."

Verga said GMH has not done thallium tests in a while.

A subsequent Google search led to a link for another suspicious website, www.physicianjobsguam.com, which has job listings for specialty physicians.



The dubious websites describe GMH "as a public corporation" operating as a "governmental, non-profit institution serving the people."



"With the investment and upgrading of the equipment and technology at GMH, there are numerous opportunities to attract and provide additional specialty services. Such areas include gastroenterology, urology, neurology, advance cardiology, orthopedic and geriontology services," reads the entry on physicianjobsguam.com, which provides the email address rosetrench@cox.net for the supposed contact person.

The Guam Memorial Hospital's official website advertises job openings for 78 various positions for different support divisions, including administration and operations, professional, nursing, and medical services.

OTHER TRANSACTION AGREEMENT

BETWEEN

DEPARTMENT OF HOMELAND SECURITY
TRANSPORTATION SECURITY ADMINISTRATION

AND

A.B. WON PAT INTERNATIONAL AIRPORT AUTHORITY

RELATING TO

A.B. WON PAT INTERNATIONAL AIPORT
Checked Baggage Recapitalization Screening Construction Services Project

---

Negotiated by the TSA pursuant to
Aviation and Transportation Security Act, Pub. L. 107-71, 115 Stat. 597
49 U.S.C. §114(m)(1) and 106(l)(6).

HSTS04-13-H-CT1145

ARTICLE I – PARTIES

The parties to this Other Transaction Agreement (OTA are the U.S. Department of Homeland Security, Transportation Security Administration (TSA) and the **A.B. Won Pat International Airport Authority AIRPORT AUTHORITY** (**AIRPORT AUTHORITY**) as owner and operator of **A.B. Won Pat International Airport, Guam** (**GUM** or Airport). The TSA and **AIRPORT AUTHORITY** agree to cooperate in good faith and to perform their respective obligations in executing the purpose of this Construction Agreement.

ARTICLE II – LEGAL AUTHORITY

This Construction Agreement is entered into under the authority of the Aviation and Transportation Security Act, Pub. L. 107-71, 115 Stat. 597, specifically 49 U.S.C. § 114(m)(1) and 106(l)(6), which authorizes other transaction agreements.

ARTICLE III – SCOPE

The purpose of this Agreement is to set forth the terms and conditions, as well as establish the respective cost-sharing obligations of the TSA and the **AIRPORT AUTHORITY** with respect to the design, engineering and construction-related services necessary to implement the construction of the TSA recapitalization project design submitted by the **AIRPORT AUTHORITY** and reviewed by TSA pursuant to the TSA Planning Guidelines and Design Standards (PGDS) Version 4.1 found at:
http://www.tsa.gov/research-center/airport-checked-baggage-guidance-materials

This Project undertaken by the **AIRPORT AUTHORITY** involves the modification to or construction of the Airport terminal building infrastructure to recapitalize the TSA EDS systems located within the Checked Baggage Inspection System. Terminal modifications include required changes to baggage conveyor components, mechanical, plumbing, electrical, structural, and telecommunications infrastructure to provide for the installation of Explosive Detection Equipment (EDS) within the baggage screening area, Explosive Trace Detection (ETD) equipment in the Checked Baggage Resolution areas, and the installation of applicable CBIS hardware and software for use with a checked baggage in-line baggage screening system. The objective of the Project is to enhance Airport security and baggage screening capabilities and throughput.

ARTICLE IV – COST SHARING AND OTHER RESPONSIBILITIES

1. Capital Costs: The estimated cost of the Project (Total Project Cost) relates to the activities to modify the airport terminal building infrastructure and the baggage handling system (BHS) to support the installation and operation of the EDS and ETD equipment. It does not include the costs of acquisition, delivery or installation of the EDS and ETD equipment itself. TSA will be solely responsible for the acquisition, delivery, installation, and testing of the EDS and ETD equipment at the designated Project location(s). All work performed by the **AIRPORT**

AUTHORITY pursuant to this Agreement shall be accomplished in accordance with the TSA PGDS v. 4.1.

2. The cost of the Project has been determined to be **$26,069,263** (Project Costs). TSA agrees to reimburse the **AIRPORT AUTHORITY** for 100% of the allowable, allocable and reasonable Project Costs, related to the **Recapitalization** scope of effort that is estimated at **$2,670,602**. TSA agrees to reimburse the **AIRPORT AUTHORITY** for 95% of the allowable, allocable and reasonable Project Costs related to the **Optimization** scope of effort that is estimated at $23,398,661. With the cost share ratio of 95/5 the total is **$22,228,728**. The Project Costs include design and construction management in addition to construction costs but not to exceed a total reimbursement of **$24,899,330** (TSA Reimbursement Limit).

3. TSA will determine allowable and allocable costs in accordance with the OMB Circular A-87 "Cost Principles for State, Local and Indian Tribal Governments" codified at 2 C.F.R. Part 225 (together with Appendices A – D) and Appendix F of the TSA PGDS. TSA will reimburse the **AIRPORT AUTHORITY** on an actual expense basis supported by one or more invoices submitted by the **AIRPORT AUTHORITY** in accordance with Article X "Payment." The parties understand and agree that all Project costs in excess of the TSA Reimbursement Limit of **$24,899,330**, as well as any costs that are inconsistent with OMB A-87 and the guidance set forth in the TSA PGDS, shall be borne solely by the **AIRPORT AUTHORITY** unless otherwise agreed by the TSA in a written modification in accordance with this Article IV and Article XIII "Changes and/or Modifications." Should the TSA reimbursements of **$24,899,330**, as adjusted pursuant to Article XIII, represent more than 95 percent of the final allowable and allocable, and reasonable CBIS Project Costs, the **AIRPORT AUTHORITY** will refund TSA sufficient funds such that TSA's total reimbursement will equal no more than **95%** of the final allowable, allocable and reasonable CBIS Project Costs.

4. All costs requested for reimbursement must satisfy the requirements of both TSA's PDGS v. 4.1 and OMB Circular A-87. In general, the costs for which TSA will provide reimbursement under this Agreement are limited to those costs associated with the CBIS area, the Checked Baggage Resolution Area (CBRA), and EDS network equipment room (if applicable to the CBIS Project) as defined in TSA's PDGS. Appendix F of the TSA's PDGS provides guidance regarding the reimbursable costs for TSA CBIS Projects.

A. Examples of costs commonly considered reimbursable under this Agreement include:
   - Soft cost allowances consisting of Design Fees, Project Management, Construction Management, Escalation, Design Contingency and Construction Contingency
   - Construction Costs:
     - Demolition (airport building or BHS components related to the CBIS area.)
     - BHS infrastructure upgrades, platforms, catwalks located within the CBIS screening area.
     - BHS: The BHS portion located within the CBIS screening area, including redesign and upgrading of conveyors to support the integration of the EDS screening system.
     - Conveyor redesign and upgrade within the CBIS screening area.
     - Build out of the EDS network equipment room
     - Acoustical treatment in the CBRA area.

- Heating, Ventilation, Air Conditioning (HVAC) to maintain equipment and employee environmental requirements for CBIS, CBRA and EDS network equipment room.
- Electrical and communications infrastructure (cabling, control panels) and basic lighting fixtures for the CBIS and CBRA.
- Telephone systems/pager systems for TSA CBIS screening area.
- Basic architectural finishes.

Identification of cost classifications herein does not create any obligation on TSA's part beyond the requirements found in OMB Circular A-87 and TSA's PDGS v. 4.1.

B. Examples of costs not considered reimbursable include, but are not limited to:
   - Exterior Building Shell.
   - Baggage make-up carrousels or outbound sortation systems.
   - Maintenance, repair parts or spare parts (other than spare parts which are initially provided by the Original Equipment Manufacturer during the installation of new equipment) for airport terminal improvements including the baggage handling conveyor components installed under this Project.
   - Manual encoding consoles or stations.
   - Employee break rooms, administrative office space and restrooms not intended for the sole use of TSA staff.
   - Architecturally pleasing enhancements.
   - Extended warranties beyond one (1) year.

5. Change Orders shall not be considered authorization to exceed the TSA Reimbursement Limit unless the **AIRPORT AUTHORITY** submits to TSA prior written notification of the expected impact to the CBIS Project Cost and the corresponding impact to the TSA Reimbursement Limit, and the TSA agrees in writing to the proposed Change Order, including the proposed increase to the CBIS Project Cost and the TSA Reimbursement Limit. The **AIRPORT AUTHORITY** may not use the TSA contingency funds provided for the Project, as identified by TSA as part of this Agreement, without prior TSA written approval.

ARTICLE V: PROJECT RESPONSIBILITIES

The primary Project responsibilities of the TSA and the **AIRPORT AUTHORITY** are outlined below. In addition to primary Project Responsibilities, specific technical responsibilities for the two parties are contained in Appendix C, "Project and Acceptance Testing Requirements", attached hereto and incorporated by reference into this Agreement. The Project will be overseen by the **AIRPORT AUTHORITY**, except for those portions of the Project that are TSA's sole responsibility as set forth in this Agreement.

A. TSA Responsibilities

1. Provide the TSA's PGDS, as well as the EDS equipment specification upon request from the Airport.

2. Advise as to the type of EDS equipment to be provided at each Project design phase submission.
3. Furnish, deliver, install and test the EDS and ETD equipment.
4. Provide EDS Original Equipment Manufacturer Technical Support Advisory Services to the Airport regarding installation, integration and networking of the EDS units into the BHS.
5. Provide the CBIS System Specific Test Plan (SSTP) to the Airport for the commissioning, coordination and testing of the CBIS. See Appendix D for testing details. See Appendix B for further specifics relating to the TSA testing portion of the Project.
6. Establish and conduct the Integrated Site Acceptance Testing (ISAT) for the in-line CBIS performance capabilities with joint support from the Airport.
7. Review and approve ISAT results before the in-line CBIS is certified as ready for operational use.
8. Provide training for Transportation Security Officer personnel on the EDS equipment.
9. Evaluate the in-line CBIS in operation for 30 days after substantial use begins.
10. Review and consider requested changes submitted by the Airport to the CBIS design. Any changes in scope or associated costs must be approved in accordance with Article XIII "Changes and/or Modifications".
11. Provide maintenance, repair, and refurbishment to all TSA EDS and ETD equipment throughout its life cycle at no cost to the **AIRPORT AUTHORITY**.

B. AIRPORT AUTHORITY/GUM Responsibilities

1. Except for the responsibilities of the TSA, as outlined above, the CBIS Project will be managed and overseen by the **AIRPORT AUTHORITY**. The **AIRPORT AUTHORITY**, acting through such contractors as it may engage, will provide the engineering and design services, as well as the associated construction and baggage handling system contractors, necessary for successful completion of the Project. The **AIRPORT AUTHORITY** will provide oversight of such contractor(s) to ensure the Project conforms to the TSA endorsed design, PGDS criteria and is completed within the prescribed costs and schedule identified and incorporated herein as Appendix B.
2. CBIS designs should be OSHA compliant; adhere to the applicable EDS and ETD installation and integration guide specifications; and should comply with all applicable Federal, State, and local building regulations. Provisions will be made in the CBIS design that will allow TSA and its contractors full ingress to and egress from the CBIS area for the installation, operation, testing, maintenance, and repair of the EDS and ETD equipment.
3. Obtain all necessary construction licenses, insurance permits and approvals.
4. The **AIRPORT AUTHORITY** shall deliver a firm EDS delivery schedule requirement date to TSA no later than 60 days after construction contract award. This schedule will be reviewed and approved by TSA based on OEM EDS delivery schedules. If project cannot meet the acceptance date, the **AIRPORT AUTHORITY** will be responsible for the safekeeping of the EDS in a secure and climate controlled environment until such time the system(s) can be installed at the agreed upon site. The **AIRPORT AUTHORITY** will be solely responsible for any damages and or extra startup costs associated with or that occur during this delay.

5. Ensure the Project site will be ready to accommodate the installation of the EDS units when delivered. Project site preparation includes, but is not limited to, BHS modifications, mechanical, heating, electrical site preparation, including infrastructure to protect electrical or fiber optic cables, environmental controls, and any other airport terminal infrastructure work required to support the operational environment of the EDS and ETD units.
6. Facilitate the installation of the EDS units by providing a clear path during rigging and EDS installation, and provide sufficient space to allow for initial deployment activities (such as uncrating the device).
7. Provide three (3) feet of maintenance access space around the equipment so that spare parts may be removed and replaced.
8. Once installed, provide reasonable measures to protect the EDS and ETD equipment from harm, theft, and water intrusion in the screening area.
9. Prior to TSA ISAT Testing, it shall be the **AIRPORT AUTHORITY /GUM** responsibility to exercise due diligence to protect and insure the EDS equipment from damage due to ongoing construction or weather.
10. The **AIRPORT AUTHORITY** shall provide for personnel, assistance, equipment and support services to jointly execute the Test Readiness Review (TRR) and ISAT leading to the commissioning and acceptance of the CBIS. Support will include but not be limited to:
    a. Test bag laydown and storage areas secure and protected from the elements.
    b. Baggage handlers for test bag staging, induction and retrieval during testing and commissioning including personnel and equipment necessary to move test bags between staging and ISAT areas.
    c. Ensure representatives of the Baggage Handling System Contractor (BHSC), and System Programmer(s) are on site to run the CBIS during ISAT and resolve deficiencies found during testing.
    d. Airport badging required for TSA contractor ISAT team members shall be executed in a timely manner such that no greater than two (2) trips to the airport are necessary to complete all badging requirements to be issued and receive an airport badge. Should this requirement not be met, the Airport/ILDT shall provide all escorts necessary to allow the TSA ISAT Team to conduct the ISAT and follow-on live operations run-in observation.
    e. Provide TSA and their Contractors full and complete most recent documentation of the project to include "approved for Construction" sets of the mechanical, electrical and controls drawings and control descriptions, see Appendix B for details.
11. Perform and bear all cost of the operation, maintenance and repairs for the airport terminal installed property such as the baggage handling conveyor system, including the conveyors in the baggage screening matrix, heating, air conditioning, electrical and mechanical infrastructure in support of this Project.
12. Submit monthly milestone and project progress status reports by the 10th of each month to the TSA Regional Deployment Coordinator (RDC), TSA Site Lead Contractor and TSA Contracting Officer. Specific requirements for the content of the monthly project status report are identified in Appendix D.
13. CBIS designs and construction shall meet all requirements of the TSA Security Technology Integrated Program (STIP) Data Requirements for Checked Baggage

Systems as shown in Appendix E. The Airport shall provide all deliverables required in the STIP Data Requirements to the TSA RDC.

For additional clarification regarding roles and responsibilities see Appendix B.

C. Operation and Maintenance Costs

It is understood and agreed that the EDS and ETD security screening equipment are and will at all times remain the property of the TSA. TSA will maintain, repair, and refurbish the EDS and ETD units at no cost to **the AIRPORT AUTHORITY**.

Except for the EDS and ETD security screening equipment owned by the TSA and separately provided for use at the Airport, the **AIRPORT AUTHORITY** shall own and have title to all airport terminal building improvements made in accordance with this Agreement such as heating, ventilation, air conditioning, electrical and mechanical infrastructure, baggage handling conveyor systems and controls, or other assets which are acquired and installed under this Agreement in support of this Project. It will remain the responsibility of the **AIRPORT AUTHORITY**, its contractors or lessees acting through such agents as it may use, to maintain, repair and or replace such airport property to sustain the operational environment of the EDS and ETD security screening equipment. Title to all airport terminal building improvements that were purchased or reimbursed using Federal funds for this Project, shall become the property of the **AIRPORT AUTHORITY**, whether purchased with TSA, or the **AIRPORT AUTHORITY** funds.

D. Deliverables

Appendix E identifies other required deliverables to be submitted by the **AIRPORT AUTHORITY** and/or **GUM**.

ARTICLE VI - EFFECTIVE DATE AND TERM

A. CONSTRUCTION

Project completion is currently estimated to be on or about **September 30, 2016**. The term of this Agreement shall be from the date of execution of the Agreement until **September 30, 2016**, unless earlier terminated by the parties pursuant to Article XV "Termination" as provided herein or extended by mutual agreement pursuant to Article XIII "Changes and/or Modifications", in order to allow the **AIRPORT AUTHORITY** time to submit a final invoice, close out the Project, and address any other issues. The **AIRPORT AUTHORITY** agrees to work with TSA to close this OTA within six (6) months of completion of the Project including successful ISAT acceptance testing and operational run-in of the in-line CBIS.

The **AIRPORT AUTHORITY** will establish and provide same to the TSA Regional Deployment Coordinator (RDC) and TSA CO within 30 days of execution of this Agreement, Project Milestones that allow objective measurement of progress toward completion. TSA maintains the right to identify any additional Project Milestones to be tracked by the **AIRPORT AUTHORITY**.

ARTICLE VII - ACCEPTANCE AND TESTING

TSA will deem the Design Project complete upon review and concurrency of the 100% design submittal package for **GUM**. The 100% design submittal package must conform to the TSA PGDS Version 4.1, where feasible.

TSA will deem the CBIS-related portion of the Project complete upon successful results of the TSA ISAT (Integrated Site Acceptance Test) as conducted by the TSA independent Acceptance Test Contractor and successful completion of the 30-day Operational Run-In period. TSA ISAT will evaluate the CBIS against the TSA PGDS version stated in this Agreement as well as assess and comment on functional and performance differences to the most current version of the PGDS version published at the time of ISAT.

Successful completion of Project requires the correction of CBIS deficiencies identified during the TSA ISAT as documented in the Quick Look Report (QLR) and as followed up at the end of the Operational Run-In period in the Test Summary Report (TSR). TSA will release the funds retained pursuant to Article X only after the CBIS has passed the ISAT test and Operational Run-In period and the deficiencies have been corrected. Additional details are contained in Appendix C, "Project and Acceptance Testing Requirements"

ARTICLE VIII - AUTHORIZED REPRESENTATIVES

The authorized representative for each party shall act on behalf of that party for all matters related to this Construction Agreement. Each party's authorized representative may appoint one or more personnel to act as an authorized representative for any administrative purpose related to this Construction Agreement, provided written notice of such appointment is made to the other party to this Construction Agreement. The authorized representatives for the parties are as follows:

A. TSA Points of Contact:
Regional Deployment Coordinator/Contracting Officer's Representative:
Shahzan Akber
Mail Stop TSIF #32
Transportation Security Administration
1 Post Office Road
Washington, DC 20528-6032
Phone: 571-227-5645
E-Mail: shahzan.akber@dhs.gov

Contracting Officer:
William Melanson
701 South 12th Street
Arlington, Va. 20598
Phone: 571-227-3266
E-Mail: william.melanson@dhs.gov

Only the TSA Contracting Officer (CO) shall have the authority to bind the Federal government with respect to scope of work, funding and liability. The TSA Regional Deployment

Coordinator (RDC) is also the TSA Contracting Officer Representative (COR) and is responsible for the technical administration of this Construction Agreement and technical liaison with the **AIRPORT AUTHORITY**. The TSA COR is not authorized to change the scope of work, to make any commitment or otherwise obligate the TSA, or authorize any changes which affect the liability of the TSA such as amount or level of funding.

The **AIRPORT AUTHORITY** must notify the TSA CO and COR in the event that any TSA employee or TSA contracted agent takes any action that may be interpreted by the **AIRPORT AUTHORITY** as direction which could increase the Construction Project costs and could cause the **AIRPORT AUTHORITY** to seek reimbursement from TSA in excess of the TSA's total reimbursement liability as defined in Articles IV and IX of this Construction Agreement.

B. **Airport Authority's** Points of Contact:

The A.B. Won Pat International Airport Authority Point of Contact for all correspondence is:

Charles H. Ada II
P.O. Box 8770
Tamuning, Guam 96931

ARTICLE IX - FUNDING AND LIMITATIONS

TSA will provide funding to the **AIRPORT AUTHORITY** in an amount not to exceed **$24,899,330** (TSA Reimbursement Limit). Funds in the amount of **$24,899,330** are hereby obligated and made available for payment for performance of this Agreement. Expenses incurred in executing the work identified herein are chargeable to:

PR: **2113203CT1145**
Accounting Line: 5CF10XB010D2013SWE044GE013723006200622CTO-5903001505010000-251B-TSA DIRECT-DEF. TASK-D

Amount: **$24,899,330**

In the event of termination or expiration of this Agreement, any TSA funds that have not been spent or incurred for allowable expenses prior to the date of termination and are not reasonably necessary to cover allowable and allocable costs as of the date of termination will be returned and/or de-obligated from this Agreement. TSA's liability to make payments to the **AIRPORT AUTHORITY** is limited to the funds obligated and available for payment hereunder, including written modifications to this Agreement.

Under no circumstances will TSA be responsible to reimburse the **AIRPORT AUTHORITY** for profit or the general costs of government. The **AIRPORT AUTHORITY** may recover the allowable direct costs of the **AIRPORT AUTHORITY** personnel performing work necessary under this Agreement, as well as the allowable and allocable costs of the contractors hired by the **AIRPORT AUTHORITY** to perform the necessary work under this Agreement. Profit and overhead costs for the **AIRPORT AUTHORITY** contractors performing work on the Project are allowable costs. Submission of a cost allocation plan is required to address any indirect

costs, to include the **AIRPORT AUTHORITY** employees, who work on multiple activities that will result in a request for reimbursement under this Agreement. TSA will not be responsible for costs incurred by the **AIRPORT AUTHORITY**, its contractors or agents to perform work not in compliance with the TSA requirements in this Agreement. The TSA CO has the right to recoup any payments made to the **AIRPORT AUTHORITY** if the TSA CO determines that the invoices exceed the actual costs incurred, or if the work substantially deviates from the TSA approved CBIS design requirements for the Project pursuant to this Agreement.

TSA will reimburse only for allowable, allocable and reasonable costs in accordance with the OMB Circular No. A-87 in effect on the Effective Date of the Agreement (codified at 2 C.F.R. Part 225) and the allowable/not-allowable costs identified in Appendix F of TSA's PGDS v 4.1.

ARTICLE X – PAYMENT

The United States Coast Guard Finance Center performs the payment function on behalf of the TSA. For purposes of submission to the Coast Guard Finance Center, the **AIRPORT AUTHORITY** must submit a completed Summary Invoice. Registration in the System for Award Management (SAM) is mandatory for invoice payment. To obtain information regarding SAM, please refer to https://www.sam.gov/portal/public/SAM/.

Invoices for expenses may be submitted every thirty (30) days, as expenses are incurred. For periods in which the **AIRPORT AUTHORITY** has not incurred a reimbursable expense, an invoice is not required. Expenses are considered to accrue on the date that the **AIRPORT AUTHORITY** is invoiced from a contractor, sub-contractor, supplier, or provider of services. Reimbursement by TSA is conditioned upon submission to TSA of an invoice identifying the Project costs that have been incurred and paid. In limited situations, costs incurred but not yet paid may be reimbursed only with prior Contracting Officer authorization provided the **AIRPORT AUTHORITY** can demonstrate that it is in the best interest of the government. The TSA intends to make payment to the **AIRPORT AUTHORITY** within 30 days from receipt of each properly prepared invoice for reimbursement of incurred Project costs.

Ten percent (10%) of all submitted costs identified by TSA as allowable, allocable and reasonable shall be retained by TSA until completion of the Project, and shall only be reimbursed to the **AIRPORT AUTHORITY** upon successful completion of all of its obligations under this Agreement, including, completed system documentation submitted to TSAand successful completion of all testing as required in Article VII of this Agreement.

In the event that an invoice for reimbursable expenses is not received by the TSA within a twelve (12) month period, the TSA reserves the right to terminate the Construction Agreement per Article XV "Termination."

The TSA reimbursement process consists of two steps.

Step 1 – Summary Invoice Submittal to the U.S. Coast Guard Finance Center for Payment, and at a minimum should contain the following information:

(1) Construction Agreement Number: **HSTS04-13-H-CT1145**
(2) Invoice Number and Invoice Date

(3) Complete Business Name and Remittance Address
(4) Point of Contact with address, telephone, fax and e-mail address
(5) Tax Identification Number and DUN's Number
(6) Dollar Amount of Reimbursement requested
(7) Signature of the **AIRPORT AUTHORITY** authorized representative and the following certification language: *"This is to certify that the services set forth herein were performed during the period stated and that the incurred costs billed were actually expended for the Project."*

The Summary Invoice may be submitted by standard mail or by electronic transmission to the following address(s):

Mailing Address: TSA Commercial Invoices
USCG Finance Center
P.O. Box 4111
Chesapeake, VA 23327

Email: FIN-SMB-TSAINVOICES@uscg.mil

Step 2 – Submission of Summary Invoice and Supporting Documentation Submittal to TSA for Approval of Payment:

The TSA CO and the COR are required to review and the TSA CO will approve all invoices prior to payment. To aid in this review, the **AIRPORT AUTHORITY** shall provide a copy of the Summary Invoice along with all receipts, contractor pay requests and other supporting information which specify the vendor, services provided, and products delivered as well as the appropriate documentation that the **AIRPORT AUTHORITY** has paid these obligations. The **AIRPORT AUTHORITY** should provide this supporting information simultaneously with Step 1 to expedite the payment process.

The Support Documentation should contain the following items:

- Summary Invoice from Step 1
- An executive summary project overview with the first invoice
- A summary spreadsheet providing a categorized breakdown of the amount invoiced
- Signed, approved and legible copies of each individual contractor's invoice to include schedules of values scope of work
  - Copies of contracts and change orders that provide support for the actual work being invoiced
  - Vendor and subcontractor invoices with specific details about services provided
  - Rationale for all allocations or unusual calculations or assumptions

- Copies of subcontractor's invoices if listed on a prime contractor's invoice as a single amount (copies of timesheets and detailed backup not required if descriptions are clear and specific)
- Proof of payment by the **AIRPORT AUTHORITY** for each invoice in the form of copies of check/warrants, bank wire transfers, or accounting systems transactions

The Summary Invoice and supporting documentation may be submitted by email or mail via CD or paper documents to the below addresses. The final closeout invoice should include proof that all required deliverables have been provided.

Shahzan Akber
Mail Stop TSA TSIF - #32
Transportation Security Administration
1 Post Office Way
Washington, D.C. 20528-6032
Email: OSTCBD @tsa.dhs.gov

William Melanson, TSA Contracting Officer
C/O Mr. Henry Edquist
Faithful+Gould
2318 Mill Road, Suite 1410
Alexandria, VA 22314
Phone: 571-403-8773
Email: Henry.Edquist@fgould.com

Upon completion of the review of the supporting documentation for the Summary Invoice, the TSA CO and the TSA RDC/COR will advise the Coast Guard Finance Center regarding payment of the Summary Invoice.

TSA may pay any charges due under this Agreement by electronic funds transfer, check, or other means. Any charges due under this Agreement shall be due in arrears and, to the extent appropriated funds are available, shall be paid within 120 days of TSA's receipt of a proper invoice from the **AIRPORT AUTHORITY**. The Prompt Payment Act, 31 U.S.C. §§ 3901-06, as implemented at 5 CFR 1315, applies to payments made under this Agreement. The Government will compute the interest penalty in accordance the Office of Management and Budget prompt payment regulations at 5 CFR Part 1315.

ARTICLE XI - AUDITS

The Federal Government, including the Comptroller General of the United States, has the right to examine or audit relevant financial records for a period not to exceed three (3) years after expiration of the terms of this Construction Agreement. The **AIRPORT AUTHORITY** and its contractors must maintain an established accounting system that complies with generally accepted accounting principles. Records related to disputes arising out of this Construction Agreement shall be maintained and made available until such disputes have been resolved. As used in this paragraph, "records" includes books, documents, accounting procedures and practices, and other data, regardless of type and regardless of whether such items are in written form, in the form of computer data, or in any other form related to this Construction Agreement.

The **AIRPORT AUTHORITY** shall maintain all records and other evidence sufficient to reflect costs claimed to have been incurred or anticipated to be incurred directly or indirectly in performance of this Construction Agreement. The TSA CO or the authorized representative of

the TSA CO shall have the right to examine and audit those records at any time, or from time to time. The right of examination shall include inspection at all reasonable times at the offices of the **AIRPORT AUTHORITY** or at the offices of the **AIRPORT AUTHORITY**'s contractor(s) responsible for the Construction Project. The **AIRPORT AUTHORITY** will be required to submit cost or pricing data and supporting information in connection with any invoice relating to this Construction Agreement if requested by the TSA CO.

This Article XI shall not be construed to require the **AIRPORT AUTHORITY** or its contractors or subcontractors to create or maintain any record that they do not maintain in the ordinary course of business pursuant to a provision of law, provided that those entities maintain records which conform to generally accepted accounting practices.

The **AIRPORT AUTHORITY** shall insert a clause containing the terms of Article XI – Audits in all of its contracts and subcontracts under this Construction Agreement that exceed $100,000.00 (One Hundred Thousand Dollars).

ARTICLE XII – REQUIRED FEDERAL PROCUREMENT PROVISIONS

Competition in the award of contracts or procurements resulting from this Construction Project is strongly encouraged and the **AIRPORT AUTHORITY** should promote competition to the maximum extent practicable. The **AIRPORT AUTHORITY** may follow its local procurement requirements for this Construction Agreement. The **AIRPORT AUTHORITY** agrees to include in its contract(s) a provision that **GUM**'s designs for this Construction Project are required to comply with the TSA's PGDS Version 4.1, where feasible.

ARTICLE XIII – CHANGES AND/OR MODIFICATIONS

Changes and modifications to this Construction Agreement shall be in writing and signed by the TSA CO and duly executed by the authorized representative of **AIRPORT AUTHORITY**. Any modification shall cite to this Construction Agreement and shall state the exact nature of the change and/or modification. No oral statement by any person shall be interpreted as modifying or otherwise affecting the terms of this Construction Agreement. The properly signed written modification shall be attached to this Construction Agreement and thereby becomes a part of this Construction Agreement.

ARTICLE XIV – DISPUTES

When possible, disputes will be resolved by informal discussion between the parties. All disputes arising under or related to this Construction Agreement shall be resolved under this Article. Disputes, as used in this Construction Agreement, mean a written demand or written assertion by one of the parties seeking, as a matter of right, the adjustment or interpretation of Construction Agreement terms, or other relief arising under this Construction Agreement. The dispute shall be made in writing and signed by a duly authorized representative of **AIRPORT AUTHORITY** or the TSA. At a minimum, a dispute under this Construction Agreement shall include a statement of facts, adequate supporting data and a request for relief. In the event that the parties are unable to resolve any disagreement through good faith negotiations, the dispute will be reviewed and adjudicated by the TSA Assistant Secretary or his or her designee. If a party disagrees with the decision of the TSA Assistant Secretary or his or her designee, they may

pursue other available legal remedies.

ARTICLE XV – TERMINATION

In addition to any other termination rights provided by this Construction Agreement, either party may terminate this Construction Agreement at any time prior to its expiration date, with or without cause, and without incurring any liability or obligation to the terminated party (other than payment of amounts due and performance of obligations accrued, in each case on or prior to the termination date) by giving the other party at least thirty (30) days prior written notice of termination. Upon receipt of a notice of termination, the receiving party shall take immediate steps to stop the accrual of any additional obligations that might require payment.

In the event of termination or expiration of this Construction Agreement, any TSA funds that have not been spent or incurred for allowable expenses prior to the date of termination and are not reasonably necessary to cover termination expenses will be returned and/or de-obligated from this Construction Agreement.

ARTICLE XVI – CONSTRUCTION OF THE AGREEMENT

This Construction Agreement is an "other transaction" issued under 49 U.S.C. § 106(l) and 114(m)(1) and is not a procurement contract, grant or cooperative agreement. Nothing in this Construction Agreement shall be construed as incorporating by reference or implication any provision of Federal acquisition law or regulation. It is not intended to be, nor shall it be construed as creation of a partnership, corporation, or other business entity between the parties.

Each party acknowledges that all parties hereto participated equally in the negotiation and drafting of this Construction Agreement and any amendments thereto, and that, accordingly, this Design/Construction Agreement shall not be construed more stringently against one party than against the other.

This Construction Agreement constitutes the entire agreement between the parties with respect to the subject matter hereof and supersedes all prior agreements, understandings, negotiations and discussions, whether oral or written, of the parties.

In the event that any Article and/or parts of this Construction Agreement are determined to be void or otherwise invalid or unenforceable, such Article or portions thereof shall lapse. No such lapse will affect the rights, responsibilities, and obligations of the parties under this Construction Agreement, except as provided therein. If either party determines that such lapse has or may have a material effect on the performance of the Construction Agreement, such party shall promptly notify the other party, and shall negotiate in good faith a mutually acceptable amendment to the Construction Agreement if appropriate to address the effect of the lapse.

ARTICLE XVII - PROTECTION OF INFORMATION

The parties agree that they shall take appropriate measures to protect all proprietary, privileged, confidential, or otherwise Sensitive Security Information (SSI) that may come into their possession as a result of this Construction Agreement.

A. RELEASE OF TECHNICAL DATA

No Sensitive Security Information (SSI), as defined in 49 CFR Parts 15 and 1520, concerning the scope of this Construction Agreement, shall be published or released to the public without prior written approval of the TSA Assistant Secretary or his or her designee. Guidance regarding SSI may be found in Appendix G, Checked Baggage Screening Equipment Sensitive Security Information Identification Guide", of the TSA PGDS.

B. RECORDS AND RELEASE OF INFORMATION

All Sensitive Security Information (SSI), as defined in 49 CFR Part 1520, shall be handled in accordance with TSA policies and regulations. All employees, contractors, and subcontractors assigned to work under this Construction Agreement are subject to the provisions of 49 CFR Part 1520, Protection of Sensitive Security Information, because they act for, or carry out duties for, or on behalf of the TSA. SSI may not be disclosed except in accordance with the provisions of that rule or where TSA otherwise approves.

C. MEDIA

Neither the **AIRPORT AUTHORITY** nor its contractors shall include in its publicity or public affairs activities related to the subject matter of this Construction Agreement any SSI unless written approval has been received from the TSA Office of Security Capabilities or the TSA Office of Strategic Communication and Public Affairs. The purpose of this provision is to preclude the inadvertent release of SSI to the general public.

ARTICLE XVIII - SURVIVAL OF PROVISIONS

The following provision of this Construction Agreement shall survive the termination of this Construction Agreement: Article IV – Cost Sharing and Other Responsibilities; Article IX – Funding and Limitations; Article XI – Audits; Article XII – Required Federal Procurement Provisions; Article XIV – Disputes, Article XVII – Protection of Information and Article XVIII – Survival of Provisions.

IN WITNESS WHEREOF, the Parties have entered into this Construction Agreement by their duly authorized officers this _____ day of _____, 2013.

U. S. Department of Homeland Security **Transportation Security Administration**	**A.B. Won Pat International** **Airport Authority, Guam**

Appendix B
Project and Acceptance Testing Requirements

Scope: TSA support for the in-line Checked Baggage Inspection System (CBIS) solution at the **A.B. Won Pat International Airport, Guam** will encompass design, construction and commissioning to support the in-line CBIS.

A. TSA responsibilities with regard to the Project are listed below in sections 1.1 to 1.7 . Many responsibilities are delegated to TSA contractors such as the EDS Original Equipment (OEM) Manufacturer, TSA Site Lead Contractor, and TSA Acceptance Test Contractor but ultimate responsibility resides with TSA.

1.1 EDS PLACEMENT

If applicable, TSA will ship, rig and install EDS machines and associated EDS screening equipment, to include any necessary ETD screening equipment, in their respective operational locations within the CBIS Project location. TSA, through the EDS OEM or other TSA contractors, shall be responsible for coordinating and integrating activities regarding placement of EDS equipment with the local TSA Point of Contact and Airport Point of Contact.

1.2 INSTALLATION SUPPORT

1.2.1 Project Management

As applicable, the TSA Site Lead Contractor and the EDS OEM shall be responsible for providing technical support throughout the entire period of performance during the installation Project. The OEM shall be responsible for all labor, materials, equipment, and support services required for planning, managing, and supervising all items related to the installation of the EDS units and associated ancillary equipment.

1.2.2 Technical Support

TSA will provide technical support to the Project through existing TSA contracts with the EDS OEM, TSA Site Lead Contractor, and TSA Acceptance Testing Contractor.

- The identified TSA Site Lead Contractor should be included in all relevant CBIS planning/project meetings relevant to TSA contributions to the Project. Project schedules and updates should be provided to the TSA Site Lead Contractor to ensure TSA has timely and sufficient notice of deliverable dates. The TSA Site Lead Contractor will assess the project progress against the project schedule and approved design to advise TSA of issues related to cost, schedule and/or performance impacts to the in-line project.

- The EDS OEM shall provide technical consultations to the TSA Regional Deployment Coordinator (RDC), TSA Site Lead Contractor, TSA Acceptance Test Lead, TSA Acceptance Testing Contractor and Airport regarding Project efforts that may include, but are not limited to: teleconferences; reviews of drawings and specifications; and exchanges of technical documentation such as specifications, manuals, and guides.

- TSA Acceptance Testing Contractor shall support ISAT of the CBIS (the EDS units, BHS and the integration between them) and will develop relevant CBIS test plans and reports that will be shared with the Airport.

- Support for the development and execution of the TSA Other Transaction Agreement in place between TSA and the **AIRPORT AUTHORITY** will be provided by TSA Office of Acquisition.

- Oversight and coordination of technical aspects of the Project will be provided by the TSA Regional Deployment Coordinator.

- Local TSA personnel shall support coordination of issues between TSA Regional Deployment Coordinator (RDC) and the Airport as directed by the Federal Security Director (FSD).

Title	Name	Contact Information
TSA Regional Deployment Coordinator	**Shahzan Akber**	**Shahzan.akber@dhs.gov** **571-227-1465**

1.2.3 Commissioning Services

TSA, through the EDS OEM and its other TSA contractors, shall be responsible for all labor, materials, equipment, and support services needed to assemble, power up, configure, and install the EDS machines into the required operational condition. The EDS OEM shall provide technical support, documentation, and installation of the EDS units and the associated local Baggage Viewing Stations (BVS) after confirmation that all pre-installation requirements have been met. The EDS OEM shall coordinate with the TSA RDC, TSA Site Lead Contractor, TSA Acceptance Test Lead, and the Airport to perform system testing.

1.3 Acceptance Testing

Mandatory testing for this system includes Site Acceptance Testing (SAT) for the EDS units following installation; pre-Integrated Site Acceptance Testing following the integration of the EDS units with the BHS is affirmed through a Test Readiness Review (TRR) and Test Readiness Notice (TRN); and Integrated Site Acceptance Testing (ISAT) is conducted prior to TSA acceptance of the CBIS system for operational use. TSA may elect to oversee BHS pre-ISAT conduct to confirm readiness of the system and conduct the TRR within the timeline of the ISAT to reduce the overall testing timeline. See the following table for minimum lead time requirements for testing activities.

Table 1. ISAT Timeline

Lead Times for ISAT (Days Prior to projected test date)	Activity	Responsible Parties
Site Initiation or ≥180 days from ISAT	Site Survey Data Collection Checklist provided to the ILDT to complete to support the ISAT Site Specific Test Plan (SSTP) development.	TSA RDC, TSA Site Lead Contractor
≥120 days	Completed Site Survey Data Collection Checklist and supporting site documentation received by TSA Acceptance Test Contractor from TSA Site Lead Contractor, to include: • Any and All Approved Request for Variance (RFV) • Basis of Design Report • Sample BHS & CBIS Reports for all PGDS required Reports • BHS & EDS Network Diagrams and Server Architecture • Local Procedures for Fail-Safe, E-Stop, Jam Clearing and IQ Test Conduct • Airport/Airline Bag Induction/Hygiene Procedures • BHS Specifications • Controls Description and/or Description of Operation (if both exist then provide both) • Fail-safe and/or E-Stop Zone Drawings • BHS Mechanical Plan and Elevation Drawings from Natural Induction Locations to & through the CBIS, CBRA and Make-up Locations with Conveyors labeled, Plan View Drawings and Electrical Drawings of the BHS/CBIS with Control Station & Photoeye Locations and labeling. All drawings will be "Approved for Construction" by the Airport and not Pre-Bid or Bid Use Only versions. • At least 1 Plan/OverView Drawing that shows the entire CBIS in a single view	ILDT, TSA Site Lead Contractor

	• Conveyor Motor Manifest to include not less than (Conveyor Name, Phase, Conveyor Type, Degree of Turn, Degree of Incline/Decline, Length, Speed in FPM, Motor HP, Control Type (VFD yes/no), Brake Type, Motor Type, drive Type, FLA Rating). • Installation & Commissioning Phasing Plan Narrative and Phasing Plan Drawings • Construction and Testing Schedule(s)	
≥90 days	On-site Site Survey Meeting held. to conduct initial test coordination and review the draft SSTP. This visit will allow the TSA Acceptance Test Contractor to tour the site, review the draft SSTP with the ILDT, coordinate logistics and manpower and initiate the SIDA badge application process, if required. TSA Site Lead Contractor coordinates schedule with the ILDT and TSA's Acceptance Test Contractor.	ILDT, TSA RDC, TSA Site Lead Contractor, TSA Acceptance Test Contractor
≥45 days	Final SSTP Review Meeting between the TSA Acceptance Test Contractor and the ILDT to review the final SSTP, include any other approved RFV, verify logistics & manpower, and review specific tests to be performed. Any requests for variance from the SSTP testing requirements must be delivered in writing to the TSA RDC prior to this meeting for review and response. This is the last chance for the ILDT to disclose any test standards that cannot be met in writing and formally justify exemption from test criteria. Any final revisions to the SSTP will be made and distributed to the ILDT and RDC prior to test execution.	ILDT, TSA Site Lead Contractor, TSA Acceptance Test Contractor, TSA RDC
Typically 14 days to 1 day	TSA Acceptance Test Contractor will ship test articles to the ILDT. The ILDT receives the test articles and stores in a secure and weather protected laydown area as agreed to by the ILDT and TSA Acceptance Testing Contractor in the Final SSTP Review Meeting.	ILDT, TSA Acceptance Test Contractor
≥11 business days	CBIS pre-testing - The ILDT conducts pre-testing. The TSA Site Lead contractor will	ILDT, TSA Site Lead Contractor

	provide oversight of CBIS pre-testing to validate the Test Readiness Notification (TRN) to the TSA RDC and Acceptance Test Team. The ILDT delivers internal pre-ISAT test results to the TSA Site Lead Contractor and the Site and TRR readiness confirmation letter to the TSA RDC and Acceptance Test Team. Upon successful review, the TSA Site Lead Contractor is deployed to the site within 7 days. Note: TSA may combine TRN with CBIS pre-testing and/or conduct TRR as a subset of ISAT	
≥7 business days	TSA Acceptance Testing Contractor or Site Lead Contractor initiates & performs the TRR. Note: TRR Performance by Acceptance Testing Contractor will be a subset of overall ISAT duration and permit passed tests to be credited toward ISAT completion. TRR failure will result in 2 week moratorium.	ILDT, TSA Site Lead Contractor
≥3 business days	When notice of successful TRR is completed and delivered to the TSA Acceptance Testing Contractor via a TRN no later than COB Wednesday (5:00 p.m. EST), ISAT deployment will occur the following Monday. If delivered any time Thursday through Sunday, the TSA Test Team deployment will occur on the second Monday.	TSA Site Lead Contractor, TSA Acceptance Test Contractor
1 business days	TSA Acceptance Test Contractor travel day (normally Monday)	TSA Acceptance Test Contractor
Test start	TSA Acceptance Test Contractor travel day (normally Monday) with mobilization activities and an in-brief meeting with ILDT on the next business day. Prior to start of testing, TSA Acceptance Test Contractor will accept PLC code from TSA Site Lead Contractor or ILDT prior to the start of testing. TSA Acceptance Test Contractor and ILDT will work together to perform ISAT and collect BHS and EDS performance documentation. Prior to departing the site, an Out-brief meeting will be held for all site stakeholders.	ILDT, TSA Acceptance Test Contractor, TSA Site Lead Contractor

≤2 business days after ISAT complete	QLR is submitted by the TSA Test Acceptance Contractor to the TSA Acceptance Test Lead and RDC for review and approval	TSA Acceptance Test Contractor, TSA Acceptance Test Lead, TSA RDC
X business days after QLR receipt	TSA conducts ISAT review board based on QLR results to determine readiness of CBIS to enter Live Operations and Bag Screening or whether to return CBIS to ILDT for correction of deficiencies prior to Live Operations	TSA RDC, TSA Acceptance Test Lead,
5 business days after ISAT review board decision	QLR is distributed by the TSA Deployment RDC	TSA RDC
For 30+ days from start of substantial use	The TSA Acceptance Test Contractor remotely monitors system performance during live operations run-in period and observes system on-site for 3+ days	ILDT, TSA Acceptance Test Contractor, TSA Test Lead
5 business days following completion of data collection and onsite observation for run-in	The TSA Acceptance Test Contractor provides a Test Summary Report (TSR) to the TSA Acceptance Test Lead and RDC for review and approval.	TSA Acceptance Test Contractor, TSA RDC, TSA Acceptance Test Lead
5 business days	RDC distributes TSA approved TSR to ILDT	ILDT, TSA RDC

1.3.1. Site Acceptance Testing (SAT)

The EDS OEM shall coordinate and conduct SAT testing on the EDS machines in the presence of a TSA designated government witness. The EDS OEM shall implement and coordinate testing by issuing a Test Readiness Notification (TRN) at least 7 days prior to the scheduled Acceptance testing. Passing SAT results are required prior to final integration of EDS to the BHS and to certify equipment readiness for operational use in screening baggage. In the event that the TSA supplied EDS units cannot meet SAT test requirements, TSA will ensure that any EDS machine defects are corrected or that the EDS unit is replaced.

1.3.2. Site Specific Test Plan Development (SSTP)

TSA has arranged for its Acceptance Test Contractor to develop a SSTP based on testing criteria outlined in the TSA PGDS Appendix D. The Draft SSTP will be based on the Airport's responses to a Site Planning Checklist to be completed ≥120 days in advance of ISAT. The Final SSTP shall be delivered to the Airport between 60 and 30 days in advance of projected ISAT start-up. The ILDT and TSA Acceptance Testing Contractor will conduct review meetings of the Draft SSTP and Final SSTP per schedule in Table 1, Section 1.3 of this OTA prior to ISAT. Any requests for deviation from the SSTP testing requirements must be delivered in writing through a RFV to the TSA RDC and Acceptance Test Lead prior to this Final SSTP meeting for review and response.

The TSA RDC and TSA Acceptance Test Lead will review/evaluate any requests for phased testing (e.g. non-consecutive testing activities requiring multiple TSA Test Team trips). Such requests must be supported by compelling justification and submitted in writing through a RFV to the TSA RDC and TSA Acceptance Test Lead during the design process and well in advance of SSTP development. Programming or mechanical changes made before ISAT (typically during Contractor pre-testing) must be documented and provided to the TSA RDC and TSA Acceptance Testing Contractor. Once a system enters TRR, no variances will be permitted to the testing criteria.

1.3.3. Integrated Site Acceptance Testing (ISAT)

Scheduling and Coordination: Construction schedule including the ISAT start date(s) and duration(s) shall be shared with the TSA Site Lead Contractor, TSA RDC, TSA Acceptance Test Lead and TSA Acceptance Test Contractor through weekly and monthly meetings and reports upon submission of the SSTP checklist to ensure all stakeholders maintain schedule awareness. This schedule shall be distributed each time changes are made to the ISAT start date and/or duration. Changes made to the schedule within two weeks of the planned ISAT start date may relieve the TSA of the obligation to begin testing within three business days of the TRR. In this situation, the ISAT start date could depend on TSA's testing workload and resource allocation.

Test Results and Reports:

Testing results will be shared in hard copy format with the Airport from the RDC through the local TSA Point of Contact. Test results will identify security, efficiency and safety concerns. There are four (4) possible test outcomes:

- **Meets PGDS Criteria** – The system under test meets CBIS design and PGDS criteria.
- **Minor Defects Found** – The system under test had no security failures and performance deficiencies would not impede system performance and staffing levels.
- **Major Defects Found** – The system under test had no security failures but performance deficiencies would be detrimental to system performance and/or staffing levels.
- **Fail** – The system under test produced security failures and/or deficiencies that would be excessively detrimental to system performance and staffing levels.

In the event of a failed ISAT result, TSA reserves the right to defer any subsequent re-tests for a period of at least 30 days.

1.4 INTEGRATION SERVICES

1.4.1. BHS Support

The EDS OEM shall assist the **AIRPORT AUTHORITY's** contractor to establish digital and serial communication for the EDS units. Once communication between devices has been established, the EDS OEM shall provide the following support and integration services.

- Assist the BHS contractor to obtain efficient EDS operation.
- Provide on-site Integration Engineer Support Services to facilitate the entire integration effort with the BHS.
- Be available to support system testing and validation conducted by internal or external organizations including the Integrated Site Acceptance Test (ISAT) and pre-ISAT Project

testing and throughout the planning phases including the issuance of the ISAT TRN and TRR.

- During initial Live Operations Run-In , provide system performance documentation and technical assistance as requested by TSA, TSA Acceptance Testing Contractor and/or the ILDT.

1.4.2. Software and Hardware

Following SAT and throughout the integration effort, the EDS OEM shall install and test the required software and hardware to allow for digital and serial communication between the EDS and the BHS PLC if required. Functionality of the EDS BHS interface hardware and software shall be verified by the EDS OEM at the interface box prior to working with the Airport BHS contractor to ensure a proper operating PLC interface and to avoid delays.

1.5 SYSTEM NETWORKING

1.5.1 Network Infrastructure

The EDS OEM shall provide required patch cables and miscellaneous hardware to interface between network patch panel and EDS OEM supplied networking components.

1.5.2 Network Services

The EDS OEM shall provide: training for TSA staff; coordination and support for TSA and testing certification; and resources to conduct installation, testing, and initial operational support for networking. No other network may interface with the networked airport screening solution. The implemented assigned network for operation shall be an isolated, stand-alone network.

1.6. TRAINING

TSA will provide training for TSA screening staff on the operation of the EDS and ETD equipment.

1.7. MAINTENANCE

Upon successful completion of SAT testing for each unit, TSA will maintain and repair the EDS and ETD units throughout their lifecycles.

B. The **AIRPORT AUTHORITY's RESPONSIBILITIES with regard to the Project are listed below in sections 2.1 to 2.5 listed below.**

2.0 DESIGN

The **AIRPORT AUTHORITY** will undertake design of a baggage screening system in accordance with the TSA PGDS to meet the needs of the Airport and TSA FSD. The **AIRPORT AUTHORITY** shall submit all applicable design requirements to the TSA RDC for review and as further defined in Chapter 2 of PGDS Version 4.1. The **AIRPORT AUTHORITY** shall respond to TSA design review comments promptly and in writing prior to the start of the next design phase for the CBIS Project.

2.1 EDS PLACEMENT

If applicable, the **AIRPORT AUTHORITY** shall ensure that the Project site will be ready to accommodate the installation of the EDS and associated equipment. The **AIRPORT AUTHORITY** shall provide adequate protection to the EDS machines and to the airport infrastructure during any and all EDS movements. The **AIRPORT AUTHORITY** shall coordinate with the EM to integrate all activities regarding placement of EDS equipment. The **AIRPORT AUTHORITY** shall provide reasonable measures to protect the EDS and ETD equipment from damage in the screening area.

2.1.1 Site Readiness and Storage

The **AIRPORT AUTHORITY** shall confirm site readiness to receive EDS units to the TSA Site Lead Contractor no later than 10 business days prior to requested delivery date. Site readiness shall address availability of temporary or permanent power; removal of obstacles to the rigging path; and adequacy of physical environmental conditions within the delivery area that meet EDS OEM standards for protecting the EDS units. The **AIRPORT AUTHORITY** shall provide secure storage for the EDS units and any ancillary screening equipment if site conditions at the time of delivery do not provide adequate protection. The **AIRPORT AUTHORITY** shall provide secure storage space for hardware associated with EDS integration and multiplexing until it can be installed by EDS OEM Integration Support Staff. Failure to meet these minimum requirements may result in reallocation of equipment to other sites, thus affecting the airport's overall project schedule.

2.1.2 Rigging Services

The **AIRPORT AUTHORITY** will be responsible for providing rigging path verification, ingress path, and/or structural analysis. If required, the Airport will remove and replace any walls, windows, glass, doors, or other physical barriers in support of rigging activities.

2.2 INSTALLATION SUPPORT

2.2.1 Power Requirements

The **AIRPORT AUTHORITY** will provide terminations to the EDS for electrical power. The **AIRPORT AUTHORITY** will be responsible for providing all infrastructure power requirements including separate metering. If applicable, the **AIRPORT AUTHORITY** will design and install all power requirements to terminal locations within the Checked Baggage Resolution Areas and at EDS locations. The **AIRPORT AUTHORITY** will provide cabling from terminations to EDS equipment. The **AIRPORT AUTHORITY** shall attest to the availability of power supply to adequately support the EDS and associated equipment in accordance with OEM specifications and be liable for damage to this equipment resulting from intentional deviations to accepted power supply conditions.

2.2.2 Commissioning Services

The **AIRPORT AUTHORITY** will be responsible for obtaining all other infrastructures not mentioned in Section 2.2.1 to support EDS operations and maintenance.

2.3 INTEGRATION SERVICES

The **AIRPORT AUTHORITY** shall ensure that the BHS Contractor coordinates with EDS OEM in support of integration activities (e.g. installation and testing the required software and hardware to allow for digital and serial communication between the EDS and the BHS PLC) as needed. Terminations to the EDS for BHS PLC communication shall be performed by the **AIRPORT AUTHORITY**.

2.4 NETWORKING

2.4.1. Network Infrastructure

The **AIRPORT AUTHORITY** will design and install all communication conduit, fiber, etc. as required by the EDS OEM's design criteria for the EDS and EDS networking system, including but not limited to connectivity of Checked Baggage Resolution Areas, TSA network control room, and BHS Control Room as required. Exact parameters will be reviewed at Project start-up by TSA.

The **AIRPORT AUTHORITY** will provide cabling and network patch panels in TSA control rooms, ETD search areas, and the TSA network room as determined by the network design conducted in conjunction with the **AIRPORT AUTHORITY**. The EDS OEM shall provide required patch cables and miscellaneous hardware to interface between network patch panel and EDS OEM-supplied networking components. The **AIRPORT AUTHORITY** will provide all electrical outlets to support installation and operation of a fully multiplexed explosive detection system.

2.4.2. Network Services

No other network may interface with the networked airport screening solution. The implemented assigned network for operation shall be an isolated, stand-alone network.

2.5. ACCEPTANCE - TESTING SUPPORT

The Project schedule shall allow for sufficient time to conduct mandatory testing of the EDS units after installation and integration. The Project schedule shall also factor in minimum lead times for notification of readiness for testing (7 days for SAT; 3 days for TRR; and at least 3 business days for ISAT). The **AIRPORT AUTHORITY** shall identify operational windows in time in which testing activities can be accomplished. Testing activities will be scheduled for normal 8-hour business days (Monday-Friday) and should not include holidays.

Testing activities shall also be scheduled such that test articles shall not be comingled either physically with Live Passenger Bags on existing or new screening systems or their electronic screening images shall not appear on consoles being used for Live Passenger Bag screening. Use of temporary networks or phased testing to accommodate the separation of Live Bags and Test Articles must be approved in writing through a RFV in advance of TRR/ISAT by the TSA RDC and TSA Acceptance Test Lead.

Requests for overtime or multiple shifts are discouraged and will only be considered based on compelling justification. The TSA RDC and TSA Acceptance Test Lead will review/evaluate any requests for phased testing (e.g. non-consecutive testing activities requiring multiple test team trips). Such requests must be in writing supported by compelling justification and submitted to the TSA RDC well in advance of SSTP development. Programming or mechanical changes made before ISAT (typically during Contractor pre-testing or TRR) must be documented and provided to the TSA RDC and Acceptance Test Contractor.

2.5.1 Site Specific Test Plan (SSTP)

The **AIRPORT AUTHORITY** shall ensure that information needed to develop an accurate SSTP is provided to TSA Test Acceptance Lead at the earliest opportunity, but no later than 120 days prior to the requested testing date. Required documentation includes:

- Completed Site Survey Data Collection Checklist
- Any and All Approved Request for Variance (RFV)
- Basis of Design Report
- Sample BHS & CBIS Reports for all PGDS required Reports
- BHS & EDS Network Diagrams and Server Architecture
- Local Procedures for Fail-Safe, E-Stop, Jam Clearing and IQ Test Conduct
- Airport/Airline Bag Induction/Hygiene Procedures
- BHS Specifications
- Controls Description and/or Description of Operation (if both exist then provide both)
- Fail-safe and/or E-Stop Zone Drawings
- BHS Mechanical Plan and Elevation Drawings from Natural Induction Locations to & through the CBIS, CBRA and Make-up Locations with Conveyors labeledPlan View Drawings and Electrical Drawings of the BHS/CBIS with Control Station & Photoeye Locations and labeling. All drawings will be "Approved for Construction" by the Airport and not Pre-Bid or Bid Use Only versions.
- At least 1 Plan/Overview Drawing that shows the entire CBIS in a single view
    - Conveyor Motor Manifest to include not less than (Conveyor Name, Phase, Conveyor Type, Degree of Turn, Degree of Incline/Decline, Length, Speed in FPM, Motor HP, Control Type (VFD yes/no), Brake Type, Motor Type, drive Type, FLA Rating).
    - Installation & Commissioning Phasing Plan Narrative and Phasing Plan Drawings
- Construction and Testing Schedules provided through weekly and monthly meetings and reportsprior to ISAT.

All drawings shall be clearly visible and readable when plotted on Arch D Size Stock. All documents shall be submitted electronically (e.g. text documents in MS Word or PDF and drawings in AutoCAD [.dwg] or PDF.)

Any system constraints that will prevent compliance with TSA testing and performance criteria must be disclosed in writing to TSA as far in advance as possible to allow for evaluation of applicable waivers. Any restrictions on system availability and accessibility for testing shall be disclosed. Cutover plans including any phasing plans that will affect the TSA Acceptance Test Contractor's ability to test the full system from ticket counters and curbside inductions (if applicable) through the outbound/sortation system shall also be disclosed to allow for the development of an accurate SSTP. Cutover plans that will result in multiple testing phases shall

also be presented to the TSA RDC in writing for review and approval prior to the Test Coordination Meeting and no later than 30 days prior to ISAT.

The **AIRPORT AUTHORITY** will have the opportunity to review and comment on SSTP in advance of testing. Comments and/or questions should be directed to the TSA RDC and the TSA Site Lead Contractor.

2.5.2. Test Readiness Report (TRR)

This pre-ISAT activity is conducted by TSA Site Lead Contractor in coordination with the **AIRPORT AUTHORITY** (typically the BHS Contractor.) The purpose of this testing activity is to assure TSA of site readiness for ISAT and is a precursor for TSA authorization for TSA Acceptance Test Contractor to deploy. The **AIRPORT AUTHORITY** will be provided TRR data sheets by the TSA Site Lead Contractor. BHS/CBIS configuration and operation shall be in final form intended for bag screening operations. Unless mutually agreed to, changes/improvements to BHS/CBIS between TRR and ISAT are not authorized. The **AIRPORT AUTHORITY** must address security and efficiency defects found during TRR and be prepared to implement mutually agreed upon corrective actions prior to ISAT.

Required input from the Project Team will include:

Functional Testing Documentation: Testing authentication must be clearly reported and show every test with bag ID and declared status on printed EDS FDRS (Field Data Reports) and on the printed Critical Tracking PEC Report (as required in PGDS Section 7.2.14) resulting bag destination. Ledger forms should show test date, type of test, identification of bag destination location, and ID number of the bags arriving at that location. These reports should be organized and indexed in an electronic media/file or loose-leaf binder(s)

- Each test shall conclude with an indication of successfully passing the required criteria of BHS specification and testing criteria and if conflict or failure exists, then so indicate with an explanation.
- Presentation of completed testing and TRR required documentation to TSA Site Lead not less than 7 business days prior to anticipated Pre-ISAT date is required.

System Mixed Bag Test and System Throughput Test Observation: Sufficient numbers of test bags (no less than 100 test bags per EDS) will be utilized to "stress" the BHS/CBIS as would occur during peak operating times. Test bag set profile should be similar to the TSA Acceptance Test Contractor's test bag profile.

- A real-time observation by TSA Site Lead Contractor of a global BHS/CBIS System Mixed Bag Test and System Throughput Test using clear and suspect bags is required.
- All EDS equipment must be operational.
- All baggage entry points must be utilized.

The TSA Site Lead Contractor or Acceptance Testing Contractor performs the TRR. If successful, a Test Readiness Notice is issued to the TSA RDC and the TSA Acceptance Test Contractor for ISAT deployment. If delivered by COB Monday through Wednesday (5:00 p.m. EST), ISAT deployment will occur the following Monday. If delivered any time Thursday through Sunday, ISAT deployment will occur on the second Monday. If changes are made to the

system following TRR without prior coordination with TSA, ISAT testing shall be postponed pending submission of documentation for review and evaluation by TSA and its Acceptance Test Contractor (see paragraph 2.5.7)

2.5.3. Logistical Support Needs: The **AIRPORT AUTHORITY** shall identify and provide any logistical or support needs that will impact TRR and ISAT testing, to include:

- any process needed to obtain sufficient baggage tags should the system use IATA baggage tracking mechanisms, pier tags should the system use pier tags, or blank bag tags if the system does not use IATA baggage tracking mechanisms; Quantities of tags needed will be coordinated during the Site Survey Meeting and the SSTP review Meetings
- any process needed to obtain sufficient baggage tubs/totes (typically 20 per installed EDS)
- any process needed to obtain sufficient bag transportation devices (tugs, totes, carts, etc.) needed to move test articles in and around the CBIS, CBRA, laydown area and sort/claim devices
- any process needed to obtain safety training and/or General Contractor access for TSA Acceptance Test Contractor, as required"
- any process needed to obtain airport badges/access for TSA Acceptance Test Contractor personnel; and/or personnel escorts. Airport SIDA Badging Process shall not require more than 2 trips of test team personnel to the site, 1 work week maximum duration each, to obtain SIDA badges including fingerprinting, SIDA Training, testing, issuing and pickup.
- availability of BHSC and BHS Programmer to operate BHS during ISAT and provide support for ISAT Testing and diagnostic activities (BHS reports, investigations, and explanations to questions from the TSA Acceptance Test Contractor)
- provide baggage handling support for testing activities including bag loading, unloading, transport, fault recovery, during ISAT and TRR including movement between test and laydown/storage areas; and
- availability of support for delivery and secure and weather protected storage of TSA Acceptance Contractor test bags for ISAT (100 bags per EDS contained in 2 LD3s per 100 bags.)

2.5.4. ISAT Testing: The TSA Acceptance Test Contractor will meet with the **AIRPORT AUTHORITY** between 30 and 45 days prior to testing to coordinate the conduct of ISAT testing. The TSA Acceptance Test Lead and the **AIRPORT AUTHORITY** will finalize details relating to the scheduling and duration of the testing. (Generally allow one day of travel for ISAT Testing Team in and out; one day for Site Mobilization; one day per EDS Spur Line; one day per System Level Test (Dieback, Mixed Bag Sortation and Throughput; one day for demobilization and cleanup). It is recommended to schedule one to two additional days for unforeseen testing delays or contingences.

2.5.5. Test Results and Reports

The Airport shall report corrective actions to be applied and the timeline associated with deficiency corrections. Corrective actions shall address all defects identified in the TRR/TRN (pre-ISAT) or QLR (ISAT). TSA is not obligated to accept or operate a baggage screening system that does not meet the minimum test standards.

2.5.6. Operational Run-In

The Run-In period will extend for a minimum of 30 days from the start of substantial operations with cutover of substantial input and output lines. This period of time shall be discussed and agreed to by all parties during the SSTP development process, and reconfirmed at the completion of the ISAT. Substantial Operations shall normally be defined as when the CBIS is processing 85% or greater of its normal (not peak) operational daily load of "checked bags or luggage" for the time period at hand (i.e. not based on future dates of operation). This period shall also be dependent on resolution of deficiencies found during testing and Run-In. Once a week during the Run-In period, the Airport or their authorized representatives shall forward electronic versions of all CBIS Reports required by PGDS Chapter 7, Section 7.2.14. to the TSA Acceptance Testing Contractor. After receipt, review and analysis of at least 21 days of performance data, TSA and their Acceptance Test Contractor will deploy to the site in either the 4th or 5th week of Substantial Live Operations to physically verify closure of open deficiencies, and assess observe system operation against the data reported. The ILDT or their Contractors will also pull and provide the PLC Code for the same PLCs as provided at ISAT start. Based on the data analysis and physical observations, a recommendation will be made to TSA via a Test Summary Report (TSR) to end the Run-In period, extend the Run-In period, and/or change the operational status of the CBIS.

2.5.7. Post Commissioning Activities:

The TSA Site Lead Contractor will conduct 30-day operational run-in observations of the system following successful ISAT testing.

The Airport shall provide the TSA RDC a written response outlining corrective actions that will be taken due to outstanding deficiencies, issues, and action items identified in the Quick Look Report (QLR) and Test Summary Report within two (2) weeks of receipt of the QLR or TSR.

For the continued and secure operation of the CBIS, all changes to the BHS system that impact the CBIS operation during and after its initial commissioning must be reviewed, evaluated, and endorsed by TSA before they are implemented by the Airport. The Post-ISAT changes procedure must be provided in accordance with PGDS Appendix D. The procedure is to be followed for all changes to CBIS systems other than those required for normal routine and periodic maintenance/repairs to the BHS system. The Airport responsible for the BHS system shall assemble an information package for submittal to TSA RDC which includes the fallowing minimum information.

- Written description of all proposed physical and programming changes to the BHS and CBIS system(s)
- Reason for proposed change(s)
- Anticipated impact to system operation (e.g. increased throughput, lowered tracking losses, elimination of bag jams)
- Drawings showing affected areas
- Any potential security, tracking or efficiency impacts, including impacts on TSA manpower or operations
- Testing procedures
- Proposed date of changes

A CBIS Configuration Change Request Form will be provided by TSA. This package shall be delivered to the local TSA FSD who shall review the package. The local TSA FSD shall add any comments he/she may have and forward the form to the following email address: OSTCBD@dhs.gov.

The TSA will review and analyze the efficacy and impact of these changes to determine if it may be necessary for TSA to re-certify the CBIS system(s). Once the review has been completed, TSA shall notify the local TSA FSD and the Airport with the TSA recommendation and testing requirements for the system changes.

APPENDIX C

Construction Milestone Schedule

Design & Construction Services Milestones	**[Dates to be included]**
Project Validated / Notice to Proceed (NTP)	
Design OTA Awarded	
Facility Modification OTA Awarded	
Pre-Design Deliverables Submitted	
Pre-Design Deliverables Approved	
Schematic Design Deliverables Submitted	

Schematic Design Deliverables Approved	
30% TSA Design Deliverables Submitted	
30% TSA Design Deliverables Approved	
70% TSA Design Deliverables Submitted	
70% TSA Design Deliverables Approved	
100% TSA Design Deliverables Submitted	
Final Construction Drawings Approved	
Facility Modification NTP (if applicable)	
Facility Modification Progress Meetings (reoccurring)	
Facility Modification Substantially Complete (if applicable)	
Site Assessment and Survey Report Submitted	
Site Installation Plan (SIP) Submitted	
SIP Approved	
EDS Delivered and Placed	
Site Acceptance Test (SAT) Passed	
Integrated Site Acceptance Test (iSAT) Test Readiness Review Complete (if applicable)	
iSAT Passed (if applicable)	
EDS Installation/Networking Start	
EDS Installation/Networking Finish	
EDS Decommissioned (if applicable)	
EDS Removal Start (if applicable)	
EDS Removal Finish (if applicable)	
Live Bag Screening (LBS) Start	
Record Dwgs / CAD As-Built Submitted	
TSA Final Sign-off of Project	
Final Invoice Submitted	
Project Completion Notification Submitted	
Project Finish / Contract Closeout	

APPENDIX D, SCHEDULE OF CONSTRUCTION DELIVERABLES

The following deliverables are required to be submitted by the **AIRPORT AUTHORITY**:

Item	Submitted To:	Frequency or Due Date
Design: pre-design, schematic, 30%, 100% to include detailed construction cost estimate	TSA Regional Deployment Coordinator	In accordance with the TSA PGDS, version.4.1
EDS Delivery Schedule	TSA Regional Deployment Coordinator	NLT 30 Days after Construction Contract Award
Schedule of Values (Design, Construction, Baggage Handling Contracts)	TSA Regional Deployment Coordinator TSA Contracting Officer	Within 30 days after execution of the TSA Agreement or upon issuing Notice to Proceed to Contractor. To be updated on a monthly basis and submitted with the monthly report.
Copies of the Design and related Construction Contracts and Change Orders	TSA Regional Deployment Coordinator TSA Contracting Officer	Upon contract award. Change Orders affecting the CBIS Project require advance TSA approval.
Monthly Milestone and Project Status Report	TSA Regional Deployment Coordinator TSA Contracting Officer TSA Site Lead Contractor	By the 10th of each month. Electronic submission is requested if feasible.
Quarterly Project Financial Statement	TSA Regional Deployment Coordinator TSA Contracting Officer FinanceConfirm@tsa.dhs.gov	Quarterly upon execution of the OTA.
Summary report of Small Business/Disadvantage Business Enterprises utilization Report	TSA Contracting Officer	By September 30th each year and upon completion of the Project via email
CONSTRUCTION PHASE		
Mechanical and Electrical Shop Drawings	TSA Regional Deployment Coordinator TSA Site Lead Contractor	Upon completion by the **AIRPORT AUTHORITY**.
Close Out Process		
Close Out Process – Correction of testing deficiencies	Close Out Report submitted to TSA Regional Deployment Coordinator and TSA Site Lead Contractor	Airport responses within (2) weeks of receipt of QLR and TSR to address noted CBIS
Final Copy of PLC program and software disaster recovery	TSA Regional Deployment Coordinator	No later than 30 days after commissioning of system(s)

procedure in electronic format.		
As Built Drawings in electronic format, .dwg (AutoCAD) or comparable format to include final description of operations; mechanical layouts, including belt speeds in CAD and PDF file format.	TSA Regional Deployment Coordinator	No later than 30 days after 30-day operational run-in period
Overview of drawings of the Matrix/Node, Resolution Room, OSR Room as applicable. dwg (AutoCAD) or comparable format	TSA Regional Deployment Coordinator	30 days after 30-day operational run-in period
Final Invoice	TSA Regional Deployment Coordinator TSA CO	No later than 90 days after final sign-off of system by TSA Deployment Manager, following successful operational run-in period and start of live bag screening
POST COMMISSIONING CHANGES		
CBIS Changes after Commissioning	OSTCBD@dhs.gov	See Post Commissioning Requirements, Appendix A, paragraph 2.5.7

The Monthly Milestone and Project Report are to be submitted by the 10th of each month. A draft Monthly report template will be submitted via separate correspondence. The Monthly Milestone and Project Report shall address the following:

a. Actual start and/or finish dates for updated/completed activities.
b. Remaining duration, required to complete each activity started, or scheduled to start, but not completed
c. The Project's progress to include Project Percent Completion; cost incurred and invoiced to date; a forecast the Project completion date and final costs; as well as monthly schedule and budget variances throughout the Project.
d. Percentage for completed and partially completed activities.
e. Any CO approved changes including but not limited to new activities, deleted activities, activity duration changes, and change in logic relationships between activities.
f. Status date for the schedule update.
g. A statement that identifies and describes any current or anticipated delays that includes the following information: identification of the delayed activity by description and activity code; type of delay; cause of the delay; effect of the delay on other activities, milestones, and completion dates; identification of actions needed to avoid or mitigate the delay.
h. Summary of cost incurred and invoiced to date.

i. Description of lessons learned
j. Construction Schedule in both PDF and "live"/usable format to depict the critical path, baseline and actual date information; predecessors/successors and shall be broken down to a minimum of three (3) WBS levels where applicable.

The construction schedule will be used for all planned TSA activities (delivery of equipment, scheduling of testing, etc).

APPENDIX E
STIP DATA REQUIREMENTS FOR CHECKED BAGGAGE SYSTEMS

The TSA HQ Office of Information Technology (OIT) and Security Technology Integrated Program (STIP) require STIP-enabled transportation security equipment (TSE) to have specific connections to securely and reliably network the equipment. Multiple parties play a role in this portion of Checked Baggage Inspection System (CBIS) specification and execution.

Roles and Responsibilities for Implementing STIP

As CBISs are recapitalized or optimized, the project owner's contractor will provide new telecommunications outlets and cables as needed to support new technology. If a CBIS reconfiguration is initiated as part of a recapitalization/optimization, safety effort, new technology deployment or any other CBIS redesign initiative, the CBIS contractor will be responsible for restoring the previous state of connectivity ("make whole"), including development of the scope of work (SOW). Implementation in the field will occur via the CBIS contractor. A working group, or Integrated Local Design Team (ILDT) must be formed consisting of representatives from the Airport Authority, FSD staff, OSC, OIT and STIP. The group should meet immediately via conference call once it has been determined that a CBIS is going to be recapitalized or optimized. This action will ensure that ALL aspects of the CBIS redesign have been identified and assigned to a specific group for action and funding. The ILDT will organize the working group members, develop, review and approve the SOW. The OIT Field Regional Manager (FRM) shall always be consulted when a CBIS redesign is initiated and will provide the necessary routing information to ensure the checked baggage systems are appropriately cabled to a networked TSA IT cabinet.

The IMAC Process

The IMAC Process is the mechanism by which TSA OIT will procure and install IT hardware (e.g. network switch) following the IT infrastructure build-out of a CBIS contractor. The OSC Regional Deployment Manager (RDM) shall be responsible for engaging OIT at project initiation and including the respective regional Field Relations Manager (FRM) throughout the construction process.

The IMAC process takes between 30 and 45 days and needs to be initiated to complete the following tasks:

- Procurement, configuration and shipment of IT hardware
- Installation of IT hardware
- Patch cabling of checked baggage equipment
- Validation of network connectivity for checked baggage equipment
- Validations of STIP EM sever registration for checked baggage equipment.

It is imperative to engage each team member as early as possible in order to avoid any gaps in IT services.

Specific Design Standards and Requirements

Two modular jacks consisting of a flush-mounted telecommunications outlet box plus/minus 10 feet from the equipment are required. Even though one is redundant, both terminations should be connected using Cat5e or Cat6 4-pair 100 ohm unshielded twisted pair (UTP) or screened twisted pair (ScTP) cable and terminated on the patch panel in the closest TSA IT cabinet. The data cable type should be based on the existing conditions at the Checked Baggage Inspection System (CBIS). The purpose of this connectivity is so that TSA HQ can review statistical data over the network from screening equipment for a particular airport and time period without having to go to the site.

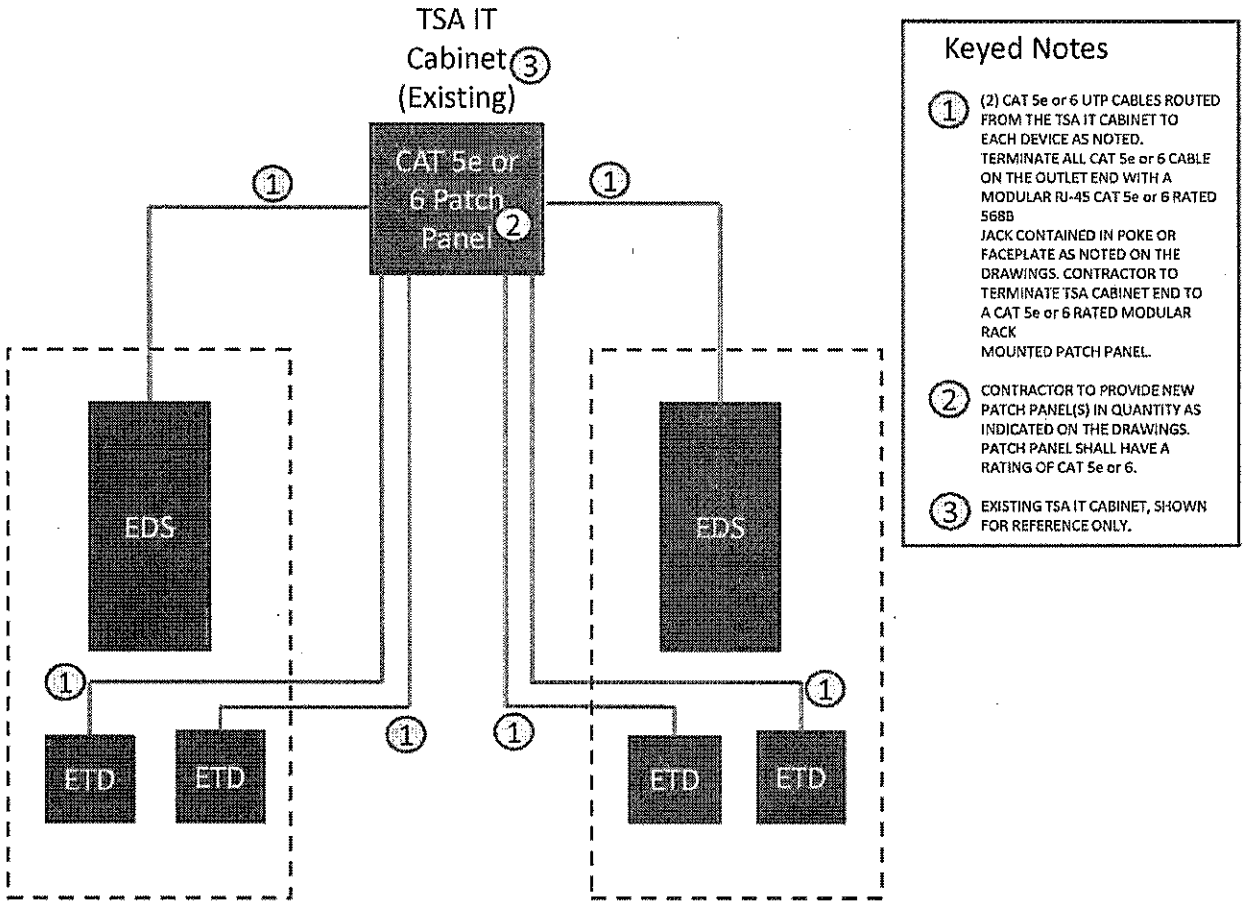
Installation and/or relocation of Cat5e/Cat6 data cabling will meet or exceed the specifications listed in the TSA Structured Cabling System Guidelines dated July 2012 [Attached]. This document will be provided by the TSA to the ILDT.

In addition, the following requirements should be met:

- All ETDs and stand-alone EDSs will have 1 "dual telecommunications outlet".
- It is assumed that when a multiplex server is present, connectivity to TSANet will terminate at the multiplex server cabinet, therefore connectivity to TSANet for each EDS is not required.
- All core drilling will support a minimum of 4 "modular jacks".
- All new fiber installations will be multimode fibers, either multimode fiber, either 50/125 or 62.5/125 micron fibers r 50/125 or 62.5/125 micron fibers, six-strand bundles enclosed in inner duct.
- All cabinet installations require 2 110v 20A service.
- All cabinet installations will meet the local seismic rating requirements and can be floor/bracket mounted.
- All cabling outside of TSA controlled space must be in Rigid Metal Tubing (RMT) conduit. Any deviance will must be approved through existing RFV procedures.
- All newly installed and existing data jacks and associated patch panels must comply with TSA's approved scheme [see provided TSA Structured Cabling System Guidelines dated July 2012].
- Provide TSA completed Data Capture Sheet [Attached] and cable certification paperwork prior to established I-Sat date.

Figure 1 illustrates all of the equipment that must be connected to the Main Distribution Frame (MDF)/Intermediate Distribution Frame (IDF) IT cabinet for a stand-alone CBIS configuration. When the EDS are in a stand-alone configuration, each EDS must be connected to the patch panel.

Figure 1
STAND-ALONE CBIS CONFIGURATION



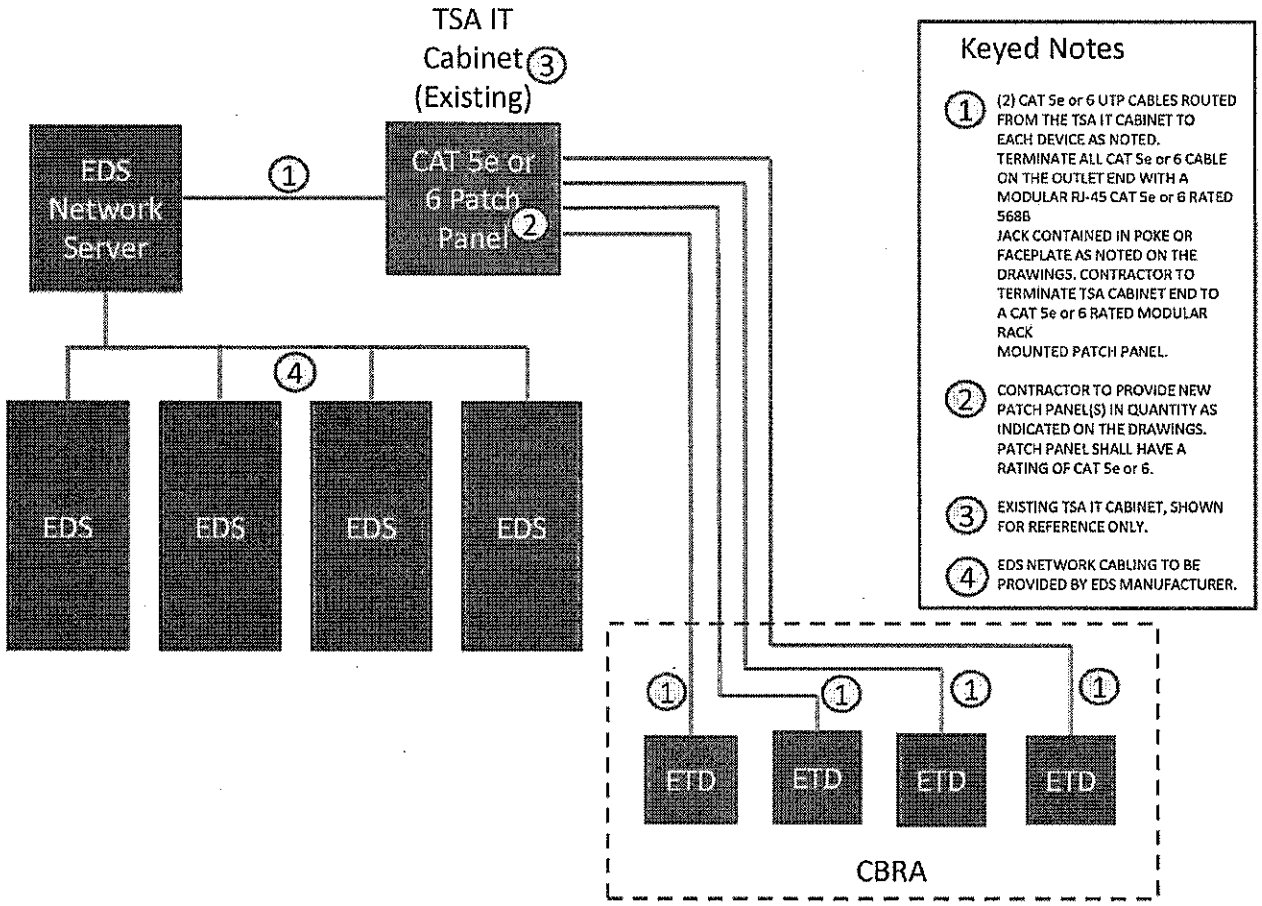


Figure 2 illustrates all of the equipment that must be connected to the IDF IT cabinet for a CBIS where the EDS machines are already networked together. When the EDS machines are networked together (i.e., MUX, NEDS, etc.), the connection only needs to be made to the EDS Network Server(s).

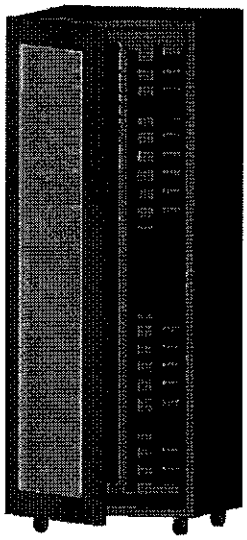
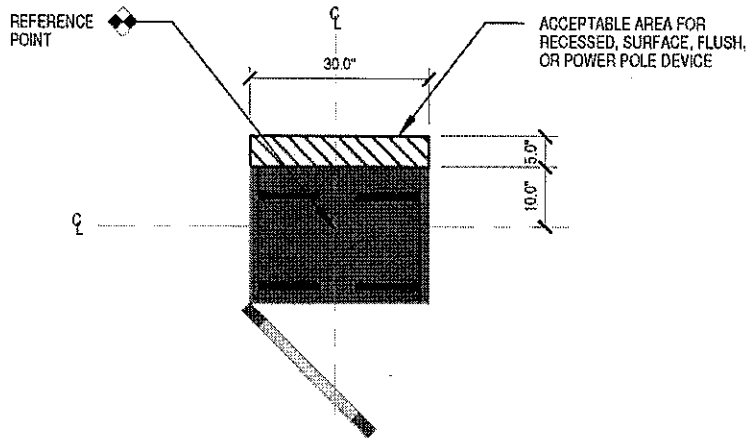
Figure 2
NETWORKED CBIS CONFIGURATION



At a minimum, the following guidelines should be considered when designing a new CBIS or reconfiguring an existing CBIS.

- If an existing TSA IT cabinet is within 295 feet of the CBIS:
    - Verify that the existing switches have sufficient open ports to accommodate the required number of drops
    - Notify TSA OIT FRM if the existing switch capacity will not accommodate the required number of drops so that additional equipment can be procured.
    - Punch down cabling from the individual CBIS devices in the patch panel of the IT cabinet



- If there is no IT cabinet within 295 feet of the CBIS:
  - Install an appropriate IT cabinet. Refer to **Figure 3** for the IT cabinet specifications
  - Run fiber optic cable from the IT cabinet to an existing TSA IT cabinet
  - Notify TSA OIT FRM so that additional equipment can be procured.
  - Punch down cabling from the individual CBIS devices in the patch panel of the IT cabinet
  - Initiate IMAC group to install jumper cables from the patch panel to the switch and activate port

Figure 3
IT CABINET

Equipment	Size	Quantity	Power Requirements	Interconnectivity	Physical Modifications
IT Cabinet	Size 24H 24.0"H x 27.3"W x 30.0"D Weight: 97 lbs	1 or more per checkpoint depending on size	For 24H, 36H and 48H: • Dedicated • 30A, 125V, 3KVA/Cabinet • 2-Pole, 3-Wire Grounding • NEMA L5-30R Receptacle • 3KVA UPS • 6' power cord from the IT cabinet to the receptacle	• Size patch panels to accommodate all TSA data outlets at the checkpoint plus 100% spares, minimum. • Size giga bit network switch to accommodate all data outlets in checkpoint plus 10%. • Provide a minimum of four pair single mode fiber optic cable from IT cabinet to the TSA main distribution frame.	• 30" front and rear access is required. • These cabinets will receive all data communication lines from the SSCP, so the cabinet should be located as close to the SSCP as possible, but in a secure location. Careful consideration needs to be given to the IT cabinet location because the exhaust fan for cooling can be loud when located in a confined space with TSA or airport personnel. • Equipment racks can be loaded into the cabinet from the front or the back at the location where the cabinet is installed. Although not required, side access would improve rack accessibility and TSA personnel mobility around the cabinet. • Refer to Program of Requirements dated July 2005, Section III-D for labeling, cable management and administration of IT cabinet. • Refer to Program of Requirements dated July 2005, Section III-D for acceptance testing of IT circuits. • Wall-mounted cabinets are an option in some instances, but must adhere to all applicable local codes and standards. Recommend consultation with the Field Regional Manager (FRM) when considering a wall-mounted alternative.
	Size 36H 36.0"H x 27.3"W x 30.0"D Weight: 124 lbs				
	Size 48H 48.0"H x 27.3"W x 30.0"D Weight: 151 lbs				
	Size 60H 60.0"H x 27.3"W x 30.00"D Weight: 246 lbs		For 60H and 72H: • Dedicated • 30A, 208V, 6KVA/Cabinet • 2-Pole, 3-Wire Grounding • NEMA L6-30R Receptacle • 6KVA UPS • 8' power cord from the IT cabinet to the receptacle		
	Size 72H 72.0"H x 27.3"W x 30.0"D Weight: 274 lbs

A.B. Won Pat International Airport Authority
Board of Directors Regular Meeting - September 19, 2013

EXECUTIVE SUMMARY

Money Exchange Concession
(Multi-Step Sealed Bid No. GIAA-02A-FY13)

PURPOSE

Board action is requested to award the exclusive Money Exchange Concession Bid to Travelex Currency Services, Inc. for a period of five (5) years.

BACKGROUND

As a service to the traveling public, GIAA desires to contract a concession for the exclusive management and operation of the money exchange services for the convenience of the passengers and enhance GIAA revenues.

The Foreign Exchange Concession at A.B. Won Pat International Airport Terminal is currently operated by Lenlyn Ltd., dba ICE Currency Services at three locations (two in the concourse and one in the arrivals lobby). The current concession fees are Minimum Annual Guarantee (MAG) of $180,000.00 for the 1st year; or a percentage rent of 5.58% of gross turnover, whichever is greater. MAG payments for the subsequent years changed to an amount equal to 85% of the total rent paid for the previous year, but shall not be less than the 1st year MAG. In Fiscal Year 2012, ICE has generated $6.7M in gross turnover. In this same period, GIAA generated $379,211.31 in minimum annual guaranteed rent which represents 5.58% of gross turnover, plus space rent based on the Airport Tariff Schedule, subject to change annually.

PROCUREMENT BACKGROUND

GIAA issued the Money Exchange Concession thru a Multi-Step Sealed Bid No. GIAA-02A-FY13 on August 12, 2013. The bid closing date was September 17, 2013. The bid process is comprised of two phases. Phase I is a qualifications based submission, and those who are deemed qualified based on the results of the evaluations, are invited to participate on the second phase of the bid process. Phase II requires the bidders to submit bids of annual percentage fees for the term of the contract.

A total of three companies acknowledged receipt of the bid package, however only two (2) companies, Lenlyn Ltd., dba ICE Currency Services and Travelex Currency Services submitted bid proposals, and both were deemed qualified to submit priced bids under Phase II of this bid solicitation.

LEGAL REVIEW

A draft Money Exchange Concession Agreement was provided to Legal Counsel for review and approval.

FINANCIAL REVIEW

The bids submitted by Lenlyn Ltd., dba ICE Currency Services and Travelex Currency Services, Inc. consists of the following:

- MAG rent of $250,000.00 per year; or percentage of gross turnover; whichever is greater;
- Main Terminal Space Rent for 361 square feet or $22,974.04 per annum, subject to change annually.

BIDDER'S NAME	1st Year	2ndYear	3rd Year	4th Year	5th Year
Lenlyn Ltd., dba ICE	6.58%	7.08%	7.58%	8.08%	8.58%
Travelex Currency Services	8.76%	8.76%	8.76%	8.76%	8.76%

As reflected on the attached and based on turnover sales projections, GIAA expects to generate over the term of the contract approximately $3M in concession rent.

RECOMMENDATION

It is recommended that the GIAA Board of Directors award the Money Exchange Concession Contract to **Travelex Currency Services, Inc.** for a period of five (5) years that may take effect on November 1, 2013, to allow for transition.

MEMORANDUM

TO: Charles H. Ada II, Executive Manager

FROM: Franklin P. Taitano, Supply Management Administrator

SUBJECT: Evaluation and Recommendation - Invitation For Bid
Money Exchange Concession, Multi-Step Bid, IFB No. GIAA-02A-FY13

Background:
The referenced Invitation For Bid refers to the solicitation of an exclusive contract to manage and operate the Money Exchange Concession at the Main Terminal Building. The bid is a multi-step process that consists of two phases. Phase I is the evaluation of the bidders' technical qualifications and those who are deem qualified based on results of the evaluations are invited to participate on the second phase of the bid process. Phase II requires the bidders to submit bids of annual percentage fees for the term of the contract.

The contract award is based on the highest bid. The Minimum Annual Guarantee (MAG) was set at $250,000.00 per annum or $20,833.33 per month or the proposed percentage fee of Gross Turn-over; whichever is greater.

Procurement Background:
The bid announcement was advertised in the local newspaper during the month of August 2013. To ensure that the bidders are familiarized with the bid process and their responsibilities, a mandatory pre-bid conference was held on August 21 & 29, 2013.

Three (3) firms acknowledged receipt of the bid package and two (2) firms submitted the qualification proposal under Phase I before the established deadline of September 5, 2013. A committee was established for the purpose of evaluating the qualification proposals. Evaluation scores were collected and tabulated by Procurement Office. As a result of the tabulation of scores, the following bidders were invited to submit bids under the Phase II:

1. Lenlyn Ltd., dba: ICE International Currency Exchange
2. Travelex Currency Services Inc.

The Phase II submission deadline was established on September 17, 2013 at 2:00 p.m. and was publicly opened and read aloud by the Supply Management Administrator and recorded by Procurement staff.

Bid Analysis and Evaluation:
As stipulated on the bid package, the bidders are required to submit necessary documents as evidence of bidder's competency and responsiveness under the Phase I process. The attached checklist highlights the complete inventory of the bidder's submittal are provided for your reference.

The results of the bid price submittals are as follows in the order they were received and opened:

A. MAG Rent of $250,000.00 per year; or whichever is greater of:
B. Percentage of Gross Turn-Over

BIDDER'S NAME	1st Year	2nd Year	3rd Year	4th Year	5th Year
Lenlyn Ltd.; dba: ICE	6.58%	7.08%	7.58%	8.08%	8.58%
Travelex Currency Services	8.76%	8.76%	8.76%	8.76%	8.76%

Lenlyn Ltd.;dba: ICE: The bidder complied with the required submission of a proposal guaranty in the amount of $5,000.00, reference check no. 0185401561. Under Phase II, the bidder submitted all other required documents and were complete and in conformance with the Invitation For Bid.

Travelex Currency Services: The bidder complied with the required submission of a proposal guaranty in the amount of $5,000.00, reference check no. 9430717561. Under Phase II, the bidder submitted all other required documents and were complete and in conformance with the Invitation For Bid.

Recommendation:
Pursuant to the guidelines in Section 11 of the Instruction to Bidders, the contract award will be awarded, if it is to be awarded, as soon as possible to the highest responsible, qualified bidder. Therefore, it is recommended that **Travelex Currency Services Inc.** be awarded the exclusive Money Exchange Concession based on the proposed bid identified above.

Should you have any questions or concerns, please call our office at your convenience.

GIAA BOARD OF DIRECTORS
Executive Summary
Regular Board Meeting
September 19, 2013

GENERAL AIRPORT INSURANCE – RENEWAL FOR FISCAL YEAR 2014

INTRODUCTION

The A.B. Won Pat International Airport Authority, Guam as required by the GIAA Bond Indenture is required to carry on adequate amount of insurance coverage to protect the Authority, its officers and bondholders. The Airport Insurance Program, which consists of Conventional Insurance covers general airport operations and was developed by GIAA with the assistance of its Insurance Consultant. The Insurance Program includes six (6) policies, Property Insurance with Catastrophe; Airport Operators Liability, Directors & Officers Liability, Workman's Compensation, Automobile Insurance, and Crime Insurance, all of which are described in detail below.

CONVENTIONAL INSURANCE COVERAGE

The General Airport Insurance is provided to protect GIAA from potential losses resulting from its operations. Listed below are the types of insurance and coverage provided and described in the Premium Comparison analysis and Markets & Underwriters indications attached:

Property Insurance Including Catastrophe	Blanket coverage for All risks of direct and physical loss or damage to all Real and Personal Property. Renewal of coverage includes limit of $200M with $500,000 deductible and B&M sub-limit of $5M. Catastrophe insurance; Windstorm, Typhoon & Earthquake. Renewal of coverages includes sub-limit of $5M with $5M deductible.
Airport Operators Liability	Legal Liability Coverage against claims from members of the general public (third parties) arising from operations at the Airport or elsewhere in the course of the Airports business. Renewal of coverage includes limit of $500M with Personal Injury limit of $25M and $100,000 deductible for Property Damage.

Directors & Officers Liab.	Coverage for GIAA's Directors & Officers for loss in which the parties become legally obligate to pay for a Wrongful Act. Includes Employment Practices Liability (EPL) that provides coverage for loss in which the GIAA becomes legally obligated to pay for employee's or former employee's claim for Wrongful Termination, Unfair Dismissal, Harassment, Discrimination, Emotional Distress, Invasion of Privacy, Failure to Employ or Promote, Wrongful discipline, etc. Renewal of coverage includes limit of $4M with EPL sub-limit of $1M and no deductible.
Workman's Compensation	Coverage for costs and benefits for job related injuries sustained by GIAA employees. Provides Employer's Liability in the event the Authority is sued by the employee. Renewal of coverage includes P.L. 80 Statutory Benefits, Employers Liability limit of $1M with no deductible.
Automobile Insurance	Coverage provides for bodily injury and property damage to third parties arising from the use of owned, non-owned or hired vehicles. Coverage has no Aviation Risk Exclusion clause. Coverage on comprehensive, collision & typhoon on all vehicles with a current market value of $10,000 or more. Renewal of coverage includes combined single limit of $2M for bodily injury and property damage liability. Comprehensive & Collision on all vehicles covers actual cash value with deductible of $1,000.
Crime Insurance	Employee Dishonesty - Coverage provides indemnity to the Authority for the loss of money or other property through the fraudulent or dishonest acts committed by employees. Renewal of coverage includes limit of $1M with $50,000 deductible. Money & Securities - Coverage provides indemnity for loss or destruction of money, securities or negotiable instruments inside the premises and off premises. Coverage sustained from accepting counterfeit money orders or currency. Renewal of coverage includes limit of $100,000 for Loss inside of premises, $100,000 for Loss outside premises and $100,000 for Counterfeit Paper Currency. Deductible is $10,000 for each occurrence for Premises, Transit, and Offices & $50,000 for Counterfeit paper. Depositors Forgery – Coverage provides indemnity for loss of money as a result of forgery or alteration of or in any check,

draft, promissory note, bill of exchange or similar written promise made or drawn from the account.
Renewal of coverage includes limit of $100,000 with $50,000 deductible.

Computer Fraud – Coverage provides loss resulting directly from fraudulent acts involving electronic data or computer systems.
Renewal of coverage includes limit of $100,000 with $50,000 deductible.

RECOMMENDATION

The appended schedule illustrates the recommended program for FY2014. Management recommends the Board adopt and ratify the FY2014 insurance program as appended.

The total premium costs for all coverage including Catastrophic perils for FY2014 is **$1,137,958** net of the broker's commissions. This represents a total savings of **$217,581** per annum compared to FY2013 premium cost of **$1,355,539**.

MEMORANDUM **IRIS, Ltd.**

From: Mike Moody

Re: FY 2014 Insurance Bids
Purchase Recommendations

This is to confirm the purchase recommendations of the Insurance Committee following a review of the bids presented by our broker AM Insurance. I concur with these recommendations.

Property Insurance

Accept Calvo's bid.

- Although Cassidy's was about $700 lower, the carrier they used did not meet the Authority's financial strength ratings.

Airport Liability

Accept Moylan's bid.

Three bids were lower, but not acceptable.

- Calvo's bid contained a clause that would increase the premium to an undefined level in the event GIAA had a claim in excess of $200,000.
- Great National did not disclose which carrier's figures it was presenting, nor did they provide specimen policies as required by the Bid Specifications.
- Cassidy's carrier did not meet the Authority's financial strength ratings.

Workers Compensation

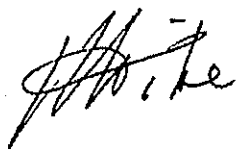
Accept Calvo's bid.

- Their bid was $680 lower and was for a fixed price. Moylan's bid contained an annual audit clause that would have significantly increased the annual premium.

Directors & Officers Liability

Accept Moylan's bid.

Commercial Auto



Accept Moylan's bid.

Two bids were lower but not acceptable.

- Cassidy's carrier did not meet the Authority's financial strength ratings.
- Great National did not disclose which carrier's figures it was presenting, nor did they provide specimen policies as required by the Bid Specifications.

Crime

Accept Moylan's bid.

INTERNATIONAL AIRPORT AUTHORITY, GUAM

Executive Manager's Report
GIAA Board of Directors Meeting
September 19, 2013

AIRLINE ISSUES

Vladivostok Air

Vladivostok announced plans to operate direct, scheduled charter flights from 2 locations in Russia's far east, which are Vladivostok, and Khaborvsk. The flights will operate from November through March 2014, on a bi-weekly basis, serviced by a Tupolov aircraft and an A320, both with a seat capacity of 150 per flight.

Japan Airlines

Japan Airlines has announced it will be operating charters in Winter from Tokushima and Takamatsu, Japan, in addition to their regularly scheduled flights from Narita.

China Airlines

China Airlines will operate 2 additional flights from Kansai to Guam in October, in addition to their 9 roundtrip flights serving the TPE/GUM/TPE route. The Kansai flights will be serviced by an A330 with a capacity of 313 passengers.

FAA and REGULATORY ISSUES

Runway 6L-24R Instrument Landing System Checks

FAA conducted a visual inspection of the 6L/24R ILS on Friday, August 16, 2013. Flight checks for RWY 6L/24R ILS originally scheduled for August 29, 2013 was postponed until December 2013 or January 2014.

USCBP issued a Memorandum on August 8, 2013 to airlines operating at GIAA informing them that landing rights must be made seventy five (75) days in advance in writing to the CBP Port Director. CBPs response to requesting carrier would be issued 30 days prior to the effective date.

TSA Pre-Check

GUAM is among the 60 U.S. airports included in the expansion of the Transportation Security Administration's expedited screening program, according to an announcement last week from TSA. The program allows pre-approved airline travellers to leave on their shoes and light outerwear and belt as well as keep their laptops in their cases and their regulation liquids/gels bag in a carry-on in select screening lanes. Passengers who are eligible for the program include U.S. citizens of frequent traveller programs invited by participating airlines, or who are members of a U.S. Customs and Border Protection (CBP) Trusted Traveller program, and Canadian citizens who are members of CBP's NEXUS program. Airports frequently used by Guam passengers that currently offer pre-check lanes include Honolulu International Airport, Los Angeles International Airport, San Francisco International Airport, Seattle-Tacoma International Airport, Portland International Airport, George Bush Intercontinental Airport (Houston), Chicago O'Hare International Airport and Newark Liberty International Airport.

Executive Manager's Report
GIAA Board of Directors Meeting
September 19, 2013

FINANCIAL ISSUES

Refinance of 2003 Bonds and New Revenue Bonds Sale

The Bonds were successfully sold on August 28, 2013, EST, through an investor outreach conducted by GIAA and the Guam Economic Development Authority (GEDA). The Guam team met with over 20 institutional investors to promote the strength of the GIAA credit, and resulted in nearly $1.7 billion in institutional orders from over 40 accounts. The response allowed the underwriting syndicate, led by Citigroup, to lower interest rates by almost 20 basis points (0.20%) throughout the 30 year debt structure.

Bonds were successfully closed and transferred on September 12, 2013 at 11:30pm. Bond counsel for the Airport, Orrick, Herrington & Sutcliffe confirmed as valid the Bond Issuance to Investors, backed by the Bond Indenture(s) for A.B. Won Pat International Airport Authority, Guam General Revenue Bonds 2013 Series A ($14,620,000.00) , 2013 Series B (33,675,000.00), and 2013 Series C (199,040,000.00).

PROCUREMENT

The **General Services Agency** has granted full delegation of procurement authority to GIAA to serve as a purchasing agency for Fiscal Year 2014, beginning October 1, 2013 and expiring September 30, 2014. Under the delegation, GIAA must fully comply with all provisions of the Guam Procurement Act, and agree to the periodic review of procurement activities to ascertain compliance.

MEMORANDUM

To: Mr. Francisco G. Santos
Chairman
GIAA Board of Directors

From: Carlos Bordallo
Acting Comptroller

Subject: **Operating Results - Revenues and Expenses as of July 31, 2013**

Attached herewith is GIAA's Operating Results Report for the month ending July 31, 2013. This report summarizes the Budgeted versus Actual Revenues and Expenses for the month and year-to-date results ended July 31, 2013.

The key operating results for 10 month(s) of FY 2013 ending July 31, 2013 - (in $000's) are:

CATEGORY	YEAR-TO-DATE				FORECAST FOR FULL YEAR-FY13	
	Budget FY 13 Y-T-D	Actual FY 13 Y-T-D	% Variance Budget vs. Actual		Actual Y-T-D + Remaining FY 13 Budget	% Variance Budget vs. Estimate for Full Year
			Y-T-D Current Month	Y-T-D Last Month		
Total Signatory Revenues	$22,617.9	$24,086.7	6.5%	6.6%	$28,791.0	5.4%
Total Concession Revenues	$8,809.5	$8,481.3	-3.7%	-2.6%	$10,529.4	-3.0 %
Total PFC's	$4,930.3	$5,388.3	9.3%	9.4%	$6,433.4	7.7%
Total Other Revenues	$12,496.5	$14,478.9	18.0%	3.5%	$17,397.2	14.9%
Total Operating Revenues	$48,854.2	$52,705.2	7.9%	4.4%	$63,151.0	6.5%
Total Operating Expenses	$34,725.7	$30,182.2	-13.1%	-17.5%	$35,898.9	-11.2%
Net Revenues from Operations	$14,128.5	$22,523.0	59.4%	61.2%	$27,252.1	44.5%
Non-Operating Expenses	$500.0	$367.9	-26.4%	-60.9%	$367.9	-26.4%
Other Available Moneys/other sources of funds	$3,986.1	$4,111.9	3.2%	2.6 %	$4,909.1	2.6%
Net Debt Service Coverage	**1.28**	**1.88**	**47.2%**	**49.5%**	**1.90**	**36.1%**

AMERICAN ASSOCIATION OF AIRPORT EXECUTIVES
AIRPORTS COUNCIL INTERNATIONAL
NASAO National Association of State Aviation Officials
TIACA THE INTERNATIONAL AIR CARGO ASSOCIATION

Year-to-date Total Signatory Revenues for the month ending July 31, 2013 are above Budgeted revenues by **6.5%.** Signatory revenue estimates are based on projections submitted by Signatory airlines and adopted in the annual budget.

Year-to-date Total Concession Revenues are below budget estimate by **-3.76%** and Passenger Facility Charges are above budget estimates by **9.3%.**

Year-to date Total Other Revenues, inclusive of non-signatory and non-airline revenues, are above the budget estimate by **18.0%.**

Year-to-date Total Operating Revenues Actual of **$52.7M** is **7.9%** above the budget estimate of **$48.9M.**

Year-to-date Total Operating Expenses are below budget by **-13.1%.** Components of this line item include a **-12.7%** decrease in Personnel Service, a **-15.7%** decrease in Contractual Services, a **-32.1%** decrease in Materials & Supplies and a **-100%** decrease in Equipment/Furnishings from budgeted amounts for these respective categories.

The actual year-to-date Net Revenues from Operations of **$22.5M** reflects an increase of **59.4%** over the year-to-date budgeted amount of **$14.1M.**

Finally, our year-to-date results for Debt Service Coverage is at **1.90** versus the requirement of **1.25.**

MINUTES OF THE REGULAR MEETING OF THE BOARD OF DIRECTORS OF THE A.B. WON PAT INTERNATIONAL AIRPORT AUTHORITY, GUAM
Thursday, October 31, 2013, 3:00 p.m.
GIAA TERMINAL CONFERENCE ROOM #3

1. CALL TO ORDER AND ATTENDANCE

The October 31, 2013, regular meeting of the Board of Directors of the A.B. Won Pat International Airport Authority, Guam ("GIAA" or the "Authority") was called to order by Chairman Untalan at 3:02 p.m. at the GIAA Terminal Conference Room #3, 355 Chalan Pasaheru, Tamuning, Guam, 96913.

Directors Present:	**Offices or positions:**
Edward G. Untalan	Chairman
Jesus Q. Torres	Vice Chairman
Lucy M. Alcorn	
Rosalinda A. Tolan	
Pedro P. Ada III	

Directors Absent:
Martin J. Gerber (Excused)

GIAA Officials:	
Charles H. Ada II	Executive Manager
Peter Roy Martinez	Deputy Executive Manager
Carlos P. Bordallo	Comptroller
Frank R. Santos	Business and Financial Consultant
Jean M. Arriola	Air Services Manager
Gerard Bautista	Air Terminal Manager
Janalynn Cruz Damian, Esq.	GIAA Legal Counsel

The Chairman welcomed the presence of Airport tenants, stakeholders, and members of the public who are noted in a sign-in sheet made as an attachment to these minutes.

2. APPROVAL OF AGENDA

On motion duly made by Director Tolan, seconded by Director Ada, unanimously approved, the agenda was approved as amended as follows: Add presentation under

Correspondence from members of the Guam Harmony Lions Club, and two (2) items under Old Business: GIAA By-Laws and Board Standing Committees.

3. APPROVAL OF MINUTES

The next item on the agenda was approval of the minutes of the September 19, 2013 regular meeting. Chairman Untalan requested that the Board table the regular meeting minutes; he would like to see the minutes in a new summarized format. The Board had no objection.

4. CORRESPONDENCE

The next item on the agenda was Correspondence. The Board welcomed Mr. Sonny Tolentino, Mr. Rey Acierto, and Mr. Art Salomes of the Guam Harmony Lions Club who were present to formally present their request to donate a Welcome to Guam sign to the Authority. They thanked the Board and proceeded with their presentation. After the presentation, Chairman Untalan announced that the request was submitted at the last Board meeting and was referred to Management to come up with a marketing plan to insure that the request fits in with the Airports overall marketing vision. Discussion followed relative to signage policy and the Airport's marketing plan. Chairman Untalan requested that Management work on a Signage Policy and submit it to the Board at the next meeting before the Board considers any request.

Still with Correspondence, the Executive Manager informed the Board of an email from Senator Tom Ada's office to the Comptroller in reference to Bill 157 and specific language in GIAA's Bond Indenture. The Chairman informed the Board that he was proposing a Board Standing Committee to oversee Legal/Legislative/Regulatory matters, which would assist with these types of concerns.

5. MATTERS FOR BOARD RATIFICATION/APPROVAL

A. Ratification of FAA Grant Agreement AIP Project No. 3-66-0001-086 – Rehabilitate Runway 06L/24R – Phase III

Mr. Frank Santos, GIAA Business and Financial Consultant, briefly outlined the project. Discussion followed and the Chairman inquired about the Airport's share, to which Mr. Santos reported that the sponsor's share is $99,332.00 and is budgeted under Capital Improvement Funds. After further discussion, on motion duly made by Director Ada, seconded by Vice Chairman Torres, the following resolution was unanimously approved:

Resolution No. 14-02

The Board hereby approves FAA Grant Agreement AIP Project No. 3-66-0001-086 – Rehabilitate Runway 06L/24R – Phase III.

B. Ratification of FAA Grant Agreement AIP Project No. 3-66-0001-087 – Acquire One Aircraft Rescue and Fire Fighting (ARFF) Vehicle

C. Ratification of FAA Grant Agreement AIP Project No. 3-66-0001-088 – Update Airport Master Plan Study

The Executive Manager reported that item (B) is an FAA Grant Agreement in the amount of $1,017,000.00 at 100%, there is no sponsor share.

The Manager went on to present a brief summary of item (C). Mr. Santos reported that the amount is $500,000.00 with the Airports share being $55,055,50.00.

After further discussion, on motion duly made by Director Ada, seconded by Director Tolan, the following resolution was unanimously approved:

Resolution No. 14-03

The Board hereby approves FAA Grant Agreement AIP Project No. 3-66-0001-087 – Acquire one Aircraft Rescue (ARFF) Vehicle and FAA Grant Agreement AIP Project No. 3-66-0001-088 – Update Airport Master Plan Study.

D. Approval of Optimization of Existing Outbound Baggage System Contract

Mr. Frank Santos presented a summary of item D, adding that the Other Transaction Agreement for funding of this project was approved at the last Board meeting, therefore the above mentioned item is relative to the purchase of equipment. Utilizing sole source procurement GIAA seeks to procure Baggage Handling System (BHS) equipment from Siemens Industry, Inc. (Siemens), the original manufacturer, in the amount of $17,995,424.00. Mr. Santos informed the Board that Siemens is the original manufacturer of GIAA BHS and GIAA needs to go with Siemens because of compatibility of equipment and TSA will not fund a whole new system. Based on the determination of sole source procurement, Management is recommending that the Board approve the Siemens proposal as presented. Discussion followed relative to the Authority's share and sole source procurement, with Director Ada expressing his concern with procuring equipment from a sole source provider and inquired why the Authority is in a situation where it is 'married' to a single provider. Director Alcorn responded stating that TSA will not fund a complete replacement of the equipment, only a partial replacement. The only way to proceed is to go with the same original manufacturer. After further discussion, on motion duly made by Director Ada, seconded by Director Alcorn, the following resolution was unanimously approved:

Resolution No. 14-04

The Board hereby approves Management's recommendation of sole source procurement for the Baggage Handling System from the original manufacturer, Siemens Industry Inc. (Siemens).

E. Approval of Board Resolution No. 14-01: Agreement for Legal Services with Fisher & Associates

The Executive Manager stated that item (E) is a proposed Board Resolution relative to the extension of the Agreement for Legal Services (Conflict Counsel) with Fisher & Associates for an additional one (1) year period. Discussion followed relative to the firm's workload and fees for the past year, with the Executive Manager responding that the firm has had minimal workload and the fees paid to the firm has been approximately $54,000.00.

After further discussion, on motion duly made by Director Tolan, seconded by Director Alcorn, the following resolution was unanimously approved:

Resolution No. 14-01

WHEREAS, an Agreement for Legal Services – Conflicts Counsel (the "Conflicts Counsel Agreement") was entered into in December 2011, by and between the ANTONIO B. WON PAT INTERNATIONAL AIRPORT AUTHORITY, GUAM ("GIAA") and Fisher & Associates; and

WHEREAS, the Conflicts Counsel Agreement provides for a term of one year with four options to extend for a period of one year each, not to exceed a total contract period of five years with GIAA approval; and

WHEREAS, the Board of Directors has determined that GIAA continues to require the services of conflicts legal counsel and that it is in the best interests of GIAA to extend the term of the Conflicts Counsel Agreement for an additional one year period commencing on December 1, 2013, under the same terms and conditions as set forth in the Conflicts Counsel Agreement.

NOW, THEREFORE, BE IT RESOLVED, that the Board of Directors of GIAA hereby extends the term of the Conflicts Counsel Agreement for an additional one year period commencing on December 1, 2013, under the same terms and conditions as set forth in the Conflicts Counsel Agreement.

F. Ratification of Quarterly Travel
G. Ratification of Disbursements

The next items on the agenda were the Ratification of Quarterly Travel, and Ratification of Disbursements. Chairman Untalan inquired with Management if it possible to get a travel calendar for the year and if the travel requests may be brought before the Board prior to the traveler travelling that way instead of ratifying after travel. Chairman stated that a travel calendar and budget is approved at the beginning of the year, so no further Board approval is necessary. The Chairman noted that the exceptions would be for unbudgeted travel or travel by Board members or non-GIAA employees.

Director Ada inquired on who reviews the travel reports submitted post travel. The Executive Manager responded that the reports are reviewed first by the Airports Human Resource department and finally through his office, giving him the authority to request for a more in depth trip report if required. Director Ada stated that not all trips and conferences are worth the travel, and asked who makes that judgment call. The Executive Manager replied it would be himself to review that.

Ms. Jean Arriola added that Management follows the existing travel policy, so all travel is approved by the Executive Manager except non-Airport employees and Board members; those have to go before the Board. She also added that she understood the Chairman wanted to change the ratification of disbursements also, stating that it is very similar to the ratification of travel.

Chairman Untalan stated that travel authorizations should be submitted by Ms. Arriola's division, certified by the Comptroller that the funds are available, and finally approved by the Executive Manager.

The Chairman than went on to discuss the ratification of disbursements. He informed the Board that there are an overwhelming amount of disbursement requests to be signed, sometimes daily. He stated that he looked into prior Board resolutions as to the history behind the policy, and there are already controls and procedures in place, such that if a request for disbursement comes in, the Comptroller will need to certify that it is budgeted, then it would go to the Executive Manager for final approval. If the check is over $100,000.00, then dual signatures are required. The Chairman stated that he would like to review the policy to see if Board approval is required for disbursements for contracts already approved by the Board. The Chairman added that these items, travel and expenditure report would be reported in the Comptroller's Financial Report.

Director Ada inquired if it is the Board or the Chairman that approves the travel for non-airport employees such as senators. Ms. Janalynn Damian responded that the Board would have to give the Chairman the authority to make that decision. Director Ada stated that he would like to take the next step and authorize the Chairman to approve both Board members and non-airport employee travel. Chairman Untalan added that as long as it is within the budget.

Going back to the disbursement requests, Chairman stated that he would like to minimize the amount of items that he is signing off on, and informed the Board that at the moment he is signing off on items such as retirement, power and water, that these are day-to-day operations expenses. Director Ada announced that there are good points brought up relative to the ratifications and requested that there be a resolution drawn up that is adopted by the Board that says what is required of the Chairman and what can be handled by the Executive Manager.

The Comptroller added that the current Board policy refers to Board approval of contracts, it doesn't actually require Board approval of disbursements. It was a prior controller that went further to apply that to disbursements, that is why the Chairman is signing all of the disbursements and they're being ratified, it wouldn't really require a resolution to get rid of the ratification of disbursements policy, because GIAA is not following the policy, it has been embellished with additional requirements. Director Alcorn inquired as to what are the actual requirements. The Comptroller replied that contracts over $50,000.00 require Board approval. Director Alcorn inquired anything and everything over $50,000.00. Ms. Janalynn Damian responded that the Board already approves those contracts anyway when approving procurement items, so there should be no need for further Board approval for disbursement made under contracts that are already Board-approved. The Chairman requested that Legal Counsel look at existing resolutions and if there is a need to pass a new resolution. The Comptroller added for clarification that he felt that a motion wasn't needed as he didn't see anything in prior Board minutes that the ratification of disbursements was even an adopted policy; from his understanding it was an agreement between a former Chairman and former Controller that was implemented as an added control measure and not a Board policy.

After further discussion, on motion duly made by Vice Chair Torres, seconded by Director Tolan, the following resolution was unanimously approved:

Resolution No. 14-05

The Board hereby ratifies and approves the expenditures for travel set forth in the Travel Report for FY2013 Fourth Quarter (July – September 2013), and the disbursements over the $50,000.00 threshold made by GIAA to various vendors during the period of September 13 – October 25, 2013, as presented to the Board.

6. OLD BUSINESS

A. Executive Manager's Report

The next item on the agenda was the report of the Executive Manager. The Executive Manager reported on various matters concerning airlines and charter operations to include Avia Charters and HIS Tour officials meeting with Airport officials on October 22,

2013 to discuss the commencement of once weekly charter services by Oren Air from Khabarovsk and Vladivostok, Russia. The Inaugural flight for Khabarovsk/Guam is scheduled for November 7, 2013 with an arrival time of 1:40 p.m. and scheduled every Thursdays through March 2014. The inaugural flight for Vladivostok/Guam is scheduled for November 8, 2013 with an arrival time of 12:45 p.m., operating on Fridays through March 2014.

Reporting on financial issues, the Manager informed the Board that the Entrance Audit with Ernest & Young is tentatively scheduled for mid-November, 2013. The Manager also noted that local legislators were invited via the media to hopefully address some of the concerns relative to the Airports financial matters.

Relative to Legislative issues, the Manager reported that a roundtable discussion was held October 23, 2013 at the Legislative Session Hall on the Customs Users Fees which recently increased from $6.36 to $8.29 per passenger. The User Fees offsets the rent Customs pay for space in the Terminal and the Integrated Air Cargo Facility.
The Executive Manager made announcements to the Board such as the Veterans Day Event planned for November 8, 2013, where the Families of Guam's Fallen Heroes will be presented the banners now on display in the East Ticket Lobby. A digital presentation on a flat screen will honor Guam's Fallen Brave thereafter.

Lastly, the Manager announced that the Authority hosted the 9th Airports Council International Asia-Pacific Small and Immerging Airports Seminar from October 6 – 8, 2013 and ended on a very successful note with delegates rating Guam as a very favorable conference location. The Manager thanked all Board members who attended the Developing Nations training on Airport Finance and to all Board, Management and staff who participated in the conference as part of the committee or attending participants. Director Ada announced that the conference was very educational and the fact that the GIAA is a member of ACI is very good.

At this time Director Tolan presented two (2) certificates of appreciation to the A.B. Won Pat International Airport Authority, Guam:

- For Outstanding Support in Hosting the CIFAL Atlanta – Unitar ACI DNA Seminar October 6 – 8, 2013
- In recognition of Outstanding Support Shown in Organization of the 5th ACI Developing Nations Assistance Seminar, "Economics for Small and Regional Airports"

Chairman Untalan announced that he had a few matters for the Board to consider. First regarding the legislative issues, does GIAA still have Senator BJ Cruz pursuing the Legal Counsel fees. The Executive Manager responded that there are two (2) items that GIAA

is responding to, the first being the Attorneys fees, the second being the Customs rent issue. Chairman Untalan inquired if all of the Board is aware of the legal billing issues, and went on to explain that the Airport has spent approximately 1.3 million in legal fees, which the Senator has been looking at. Of the 1.3 million approximately $900,000.00 is related to the Specialty Retail Concession, which GIAA seeks reimbursement from Lotte Duty Free. The Comptroller confirmed that the Airport was reimbursed approximately $900,000.00. The Chairman asked that the Executive Manager report on the Customs rent. The Manager replied that the Senator is requesting for lease agreements, and the Authority had to look at any security concerns prior to releasing the requested leases since they are with TSA. The Executive Manager stated that the Airport is working with the attorneys regarding this.

The Chairman asked that the Manager also update the Board regarding the Transit Door otherwise known as Door 202. As customers exit Immigration, rather than going out through Guam Customs, there is a door to the left which is opened up for Transit customers, once opened, it's open to the public. The Executive Manager informed the Board that there are security concerns from law enforcement such as US Customs, TSA, Airport Police and even US Department of Agriculture as customers are not clearing Guam Customs. Discussion followed relative to the concerns of the Transit Door and possible solutions.

The Chairman at this time went back to the ACI Seminar, stating that the brief time that he did attend the conference he thought it was very well conducted, and went on to inquire on the Authority's marketing plan, budget and revenue measures. Discussion followed relative to digital, modern marketing. Director Ada thanked the Airport Management and staff who organized the Conference.

B. Financial Report

The next item on the agenda was the report of the Comptroller. The Comptroller provided a report to the Board on the Revenues and Expenses of the Authority as of September 30, 2013. Mr. Bordallo reported that year-to-date Total Signatory Revenues are above budgeted revenues by 6.9% and year-to-date Total Concession Revenues and Passenger Facility Charges are above budget estimates by 10.6% and 9.8%, respectively. Further, year-to-date Total Other Revenues, inclusive of non-signatory and non-airline revenues, are above the budget estimate by 14.2%. Year-to-date Total Operating Revenues Actual of $65.1M is 9.7% above the budget estimate of $59.3M. Year-to-date Total Operating Expenses are below budget by -9.8%. The actual year-to-date Net Revenues from Operations of $28.6M reflects an increase of 51.6% over the year-to-date budgeted amount of $18.9M. The Authority's year-to-date results for Debt Service Coverage is at 2.06 versus the requirement of 1.25.

C. Legal Counsel's Report

No report presented.

D. Status of Capital Improvement Programs

Mr. Frank Santos, Business and Financial Consultant presented the UDO analysis and a list of Bond Projects, stating that since the Board approved the Bond project list there have been some changes to account for constructability and grants that the Airport has received. Three projects, namely the International Arrivals Corridor, Phase III seismic upgrades, and Phase IV seismic upgrades, have been combined into one, namely the International Arrival corridor with Building Seismic Upgrades, with the total cost at $53.9M. Of that amount, $40.7M will be paid using Bond proceeds. Mr. Santos also reported on the next significant change, to Project number two (2), the Hold Bag Screening Relocation. Twenty Million Dollars in the Bond proceeds were allocated for this project, however because of the $24M received from TSA, only $1M will be paid using Bond proceeds. Project number five (5), Integrated Passenger Loading Bridges Replacement, also has a change with $2M worth of Federal Grants was added, so instead of $8.2M in Bond proceeds it will now be $6.2M.

Mr. Santos informed the Board that a line item was added for the costs associated with complying with the Percent for the Arts Law, in the amount of $639,000.00. The last issue Mr. Santos reported was unencumbered proceeds as a result of the federal grants that were incorporated in the amount of $16.2M, also called a contingency, so $5.9M of Airport funds were moved to Bond proceeds.

Discussion followed relative to current and future projects needed, including the painting of the terminal, with Mr. Santos informing the Board that it has not been painted since 2004. Mr. Santos informed the Board that Management requests Board's concurrence with regard to the changes made to the Bond Project List, including combining the Arrivals Corridor with two phases of Seismic Upgrades; Transferring GIAA funds to Bond Proceeds; Providing for the allowance for the Percent for the Arts Law; and lastly to create a line item for the unencumbered proceeds.

On motion duly made by Director Ada, and seconded by Director Tolan, the following resolution was unanimously approved:

Resolution No. 14-06

The Board hereby approves the changes made to the Capital Improvement Projects Bond Projects List as presented:

- Combining the International Arrivals Corridor project with the Phase III Seismic Upgrades project and the Phase IV Seismic Upgrades Project;
- Reducing the Bond Proceeds allocation for the Hold Bag Screening Project from $20M to $1.169M as a result of $24.899 in Federal Funding;
- Reducing the Bond Proceeds allocation for the Integrated Passenger Loading Bridges Replacement Project from $8.2M to $6.2M because of $2M in Federal Funding;
- Adding an allowance of $639,000 for compliance with the Percent for the Arts Law; and
- Creating a line item for Unencumbered Proceeds, which is now at $16.271M.

Mr. Santos then updated the Board on open AIP Grant projects. With regard to the Instrument Landing System (ILS) Runway 6L, Phase I and II, AIP Project number's 3-66-0001-74 and 3-66-0001-78, Mr. Santos informed the Board that the total project cost is $9.4M, and the Airport's share is at $7.3M, thus the funding shortfall is slightly above $2M. The plan is to recover the shortfall through grant amendments and other FAA grants for FY2014, which also amounts to $2,092,000.00. Management is requesting that the Board allow the use of the Airport's own funds to fund the shortfall. In the summer of 2014, which is grant season, the FAA will be providing the Airport the amendments to the additional grants. He informed the Board that this is similar to AIP 85 where the Airport was reimbursed the $2M; that $2M will the source of funding for this shortfall.

The second project, Rehabilitate Runway 6L/24R, Phase II and III, AIP Project number's 3-66-0001-84 and 3-66-0001-86, these projects are just starting, there's two (2) phases. The total cost is projected at $13.2M, current funding sources are slightly above $8M, and thus the funding shortfall is $5.2 M. The FAA will equalize that shortfall with a FY2014 grant in the amount of $4.7M plus the Airport's share. Mr. Santos stated that this is to reserve the funds for certification of funds that are available. The source of these funds is the $5.9M that was transferred from GIAA funds to Bond proceeds, again he informed the Board it will be reimbursed by the FAA. Management is requesting Board authorization to pre-fund or reserve the money for both projects.

Discussion followed relative to FAA reimbursement timeline. Chairman Untalan reminded the Comptroller of GIAA's cash flow or cash on hand. The Comptroller responded informing the Chairman that the preliminary number for cash on hand based on what he previously provided went from 274 up to 290. Chairman stated that this is a big credit rating issue, how much cash the Airport has on hand to be able to handle operation should a disaster occur.

After further discussion, on motion duly made by Director Tolan, and seconded by Vice Chair Torres, the following resolution was unanimously approved:

Resolution No. 14-07

The Board hereby approves the request to fund the shortfall for the Instrument Landing System (ILS) Runway 6L, Phase I and II, AIP Project numbers 3-66-0001-74 and 3-66-0001-78 in the amount of $2M; and Rehabilitate Runway 6L/24R, Phase II and III, AIP Project number's 3-66-0001-84 and 3-66-0001-86 in the amount of $5.2M, both to be fully reimbursed mid-2014.

E. GIAA By-Laws

Chairman Untalan presented a redraft of GIAA Board By-Laws, and asked that the Board review the draft, which will be presented for Board action at the next regular meeting.

F. Board Standing Committees

The Chairman presented a draft of the Board Standing Committees for the Board's review and will be presented for approval at the next regular meeting. He informed the members that a lot of issues have come up recently and he feels that it is very appropriate that the Board start to get involved.

7. NEW BUSINESS

No New Business presented.

8. EXECUTIVE SESSION

Legal Counsel announced that there will be no Executive Session.

9. PUBLIC COMMENTS

The next item on the agenda was Public Comments. Chairman Untalan called upon any public member wishing to make comments. There were none.

10. ADJOURNMENT

There being no further business to address before the Board, on motion duly made by Director Ada, seconded by Director Alcorn, unanimously approved, at 5:13 p.m., the meeting was adjourned.

Dated this 17th, day of December, 2013.

Edward G. Untalan

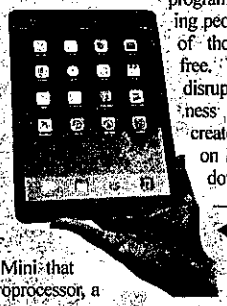
Apple unveils iPad Air

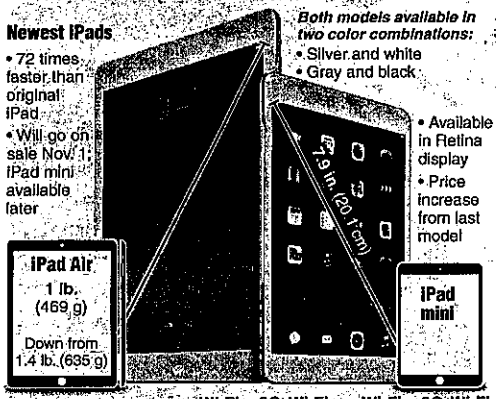


SAN FRANCISCO (AP) – Apple Inc. is refreshing its iPad lineup in hopes of reclaiming lost ground in the tablet market and slashing the prices of its Mac computers to intensify the pressure on the beleaguered makers of PCs running Microsoft's Windows.

Tuesday's unveiling of Apple's latest products primes the company for a holiday shopping season onslaught aimed at a list of rivals that includes Google Inc., Samsung Electronics, Amazon.com Inc. and Microsoft Corp.

A thinner, lighter and faster-running tablet computer called the iPad Air highlighted the event in San Francisco. Apple Inc. also showed off a souped-up iPad Mini that boasts a faster microprocessor, a high-definition display screen and a higher price than its predecessor.

In a surprise, Apple is introducing slightly revamped MacBook Pros at prices 9 percent to 13 percent below the previous versions. What's more, Apple is giving away its latest Mac operating system – Mavericks – for free, as well as several pieces of software.



Ovum analyst Jan Dawson thinks Apple's giveaway of the operating system and software programs "is now teaching people to expect both of those things to be free. While this won't disrupt Microsoft's business overnight, it will create further pressure on Microsoft to bring down prices."

An Apple employee holds up the new iPad Air on Oct. 22 in San Francisco. AP

Light as air

A look at Apple's two new iPads, updates to its MacBook Pro and the new cylindrical desktop Mac Pro:

Newest iPads

- 72 times faster than original iPad
- Will go on sale Nov. 1; iPad mini available later

Both models available in two color combinations:

- Silver and white
- Gray and black
- Available in Retina display
- Price increase from last model

- 20 percent thinner
- 28 percent lighter

	Wi-Fi	3G, Wi-Fi	Wi-Fi	3G, Wi-Fi
16 GB	$499	$629	$399	$529
32 GB	$599	$729	$499	$629
64 GB	$699	$829	$599	$729
128 GB	$799	$929	$699	$829

Other updates

MacBook Pro

- 13-inch, 15-inch upgraded with new Intel chips
- Prices starting at $1,299 and $1,999

Mac Pro

- New generation of Intel Xeon processor
- Will sell for $2,999 and up
- 9.9 in. (25 cm)
- 11 lb. (5 kg)

Tepid job growth backs Fed's stance

WASHINGTON (Reuters) – U.S. employers added far fewer workers than expected in September, suggesting a loss of momentum in the economy that will likely add to the Federal Reserve's caution in deciding when to trim its monthly bond purchases.

Nonfarm payrolls increased by 148,000 workers last month, the Labor Department said on Tuesday. While the job count for August was raised, the employment gain in July was revised lower and was the weakest since June 2012.

The closely watched report suggested the economy lost steam even before an acrimonious budget fight that led to a damaging 16-day partial shutdown of the federal government.

"The numbers indicate that the economy is growing at a modest pace at best," said Sung Won Sohn, an economics professor at California State University Channel Islands in Camarillo, Calif. "Considering the uncertainties from the government shutdown, tapering (of the Fed's bond purchases) has been postponed until further notice."

But there was a silver lining in the report. The unemployment rate fell a tenth of a percentage point to 7.2 percent, the lowest level since November 2008.

A measure of underemployment that includes people who want a job but who have given up searching and those working part time because they cannot find full-time jobs also fell a tenth of point, to 13.6 percent, the lowest since December 2008.

Economists had expected the economy to add 180,000 jobs in September and the unemployment rate to hold at 7.3 percent.

Stocks ended higher as investors welcomed the prospect of continued monetary stimulus from the U.S. central bank. The Standard & Poor's 500 index hit yet another record high.

U.S. Treasury debt prices also advanced and the yield on the benchmark 10-year note touched a three-month low. The dollar dropped to an eight-month low against a basket of currencies.

The employment report was released more than two weeks later than originally scheduled because of the government shutdown that ended last Wednesday.

With the extent of the economic damage from the fiscal standoff unclear, the Fed will likely hold off any decision on scaling back its economic stimulus.

Fed officials will meet next Tuesday and Wednesday to discuss monetary policy. They surprised markets last month by sticking to their $85 billion per month bond-buying pace, saying they wanted to see more evidence of a strong recovery.

"We don't look for any material changes to monetary policy at next week's meeting and most likely in December either," said Sam Bullard, a senior economist at Wells Fargo Securities in Charlotte, N.C. "We are now looking at March."

A Reuters poll of big bond dealers conducted after the jobs figures were released found that most expect the central bank to wait until March to begin dialing back its purchases.

While the economy was already struggling before the government shutdown, the brinkmanship in Washington has dampened expectations of a sharp acceleration in fourth-quarter growth.

Session starts today; GPA, GWA bonds to be tackled

By Louella Losinio
louella@mvguam.com
Variety News Staff

Sen. Tom Ada has introduced Bill 207, which authorizes GPA to raise $100 million worth of revenue bonds to finance capital improvements to the islandwide power system. Variety file photo

THE Guam Legislature has announced the beginning of its October and November session today, unveiling an agenda that includes 40 bills and resolutions, and 10 board and commission confirmations.

Two measures authorizing the terms and conditions for the issuance of bonds for the island's two public utilities – the Guam Power Authority and the Guam Waterworks Authority – are included in the list of items that will be tackled in the coming days.

Sen. Tom Ada has introduced Bill 207, which authorizes GPA to raise $100 million worth of revenue bonds to finance capital improvements to the islandwide power system. The bill is co-sponsored by Sen. Rory Respicio. The borrowing, as outlined by Bill 207, will have two phases including a "short-term interim bond" for $35 million, and a second "long-term bond" for $100 million, which will be issued in 2015.

Meanwhile, the Legislature will tackle another Ada measure, Bill 181. The bill authorizes the waterworks authority to borrow up to $495 million in bonds to meet GWA's regulatory requirements, including those specified in the 2011 court order and in the U.S. Environmental Protection Agency's significant finding reports for water and wastewater.

Other bills

Bill 153, or the Nana Yan Patgon Act (the "Mother and Child Act"), a measure introduced by Sens. Aline Yamashita and Dennis Rodriguez, will also be discussed during session today.

The measure, which seeks to protect the rights of breastfeeding mothers and infants and to promote breastfeeding, falls in line with federal law that requires employers to provide reasonable break times for an employee "to express (pump) milk for her nursing child" and to provide a place other than a bathroom for her to do so. Lawmakers will also tackle Bill 74, sponsored by Speaker Judith Won Pat and Sens. Yamashita and Tina Muña-Barnes. The measure allows the Guam Department of Education to enter into a renewable-energy purchase agreement for a term of up to 25 years. As proposed by the bill, the selected renewable energy provider shall be responsible for all costs required to install and maintain such renewable energy technology at GDOE schools and facilities.

Sen. Respicio, majority leader and rules chairman, announced the session agenda late yesterday afternoon. Session is scheduled to begin today at 9 a.m. at the Speaker Antonio R. Unpingco Session Hall.

Mall abductor Camacho found guilty on all counts

Faces 90 years in prison

By Gina Tabonares-Reilly
gina@mvguam.com
Variety News Staff

AFTER deliberating for a day and a half, a Superior Court of Guam jury yesterday found Kyle Indalecio Camacho guilty of kidnapping, robbery, terrorizing and two counts of special allegations of use of a weapon in the commission of a felony.

The 20-year-old convicted sex offender is facing 90 years of imprisonment after abducting a 19-year-old woman from the Micronesia Mall parking lot on Jan. 5.

Assistant Attorney General Gerald Henderson, who prosecuted the case, said he will seek the maximum sentence for Camacho.

Kyle Camacho

The trial lasted four days, during which the victim and her sister testified about how Camacho brought handcuffs and a knife and forced himself into the car of the victim who had come from the Micronesia Mall movie theater.

The victim said Camacho drove off with her car, assaulted her and threatened to kill her while she was handcuffed.

The Guam Police Department executed a manhunt and eventually located the victim about 90 minutes later at the Marbo Cave parking lot.

"The apprehension and conviction of the defendant would not be possible without the bravery of the victim and hard work of the Guam Police Department, who quickly responded to the emergency call," Henderson said.

The Office of the Attorney General also thanked the victim for her continued courage in facing her abductor during the trial and for re-living her terrifying ordeal.

Attorney General Leonardo Rapadas also commended the victim's sister for alerting GPD immediately and for providing the information that led to the victim's rescue.

Camacho was on parole when he committed the abduction. He was on supervised release after serving time for a 2012 conviction for sexually molesting an 11-year-old female.

Judge Anita Sukola will sentence Camacho on Dec. 15 at 10 a.m.

The pre-sentencing investigation report deadline is Dec. 9.

DRT: Same-sex couples may file joint tax returns

By Mar-Vic Cagurangan
marvic@mvguam.com
Variety News Staff

JOHN Camacho, director of the Department of Revenue and Taxation, confirmed yesterday that the department will accept joint tax returns filed by married same-sex couples living on Guam.

"It's true: The joint filing now applies to same-sex couples who are married in other states where same-sex marriage is legal and have relocated to Guam," Camacho said.

Following a landmark U.S. Supreme Court ruling in June, the Internal Revenue Service announced its recognition of all legally married same-sex couples even if they live in a jurisdiction that does not recognize their union.

Since Guam mirrors the IRS code, all federal tax rules apply locally. Camacho said married same-sex couples who have been living on Guam and filing individual tax returns may amend their 2012 tax returns accordingly.

"As long as the law is in place, the department will recognize joint filings by married same-sex couples," the tax chief said.

During a breakfast briefing hosted last week by the Society for Human Resource Management Guam Chapter at the Outrigger Guam Resort, lawyer Todd Thompson said married same-sex couples living on Guam are entitled to the same benefits afforded to heterosexual spouses.

Don Clark, executive vice president and director of compliance for ASC Trust Corp., agreed with Thompson that federal rules on benefits prevail on Guam in the absence of any contradictory local law.

Prompted by the high court's decision in the Windsor case that struck down the 1996 Defense of Marriage Act, the federal government has been moving quickly to change federal rules toward treating gay couples the same way it treats heterosexual couples.

Last month, the Department of Defense began providing marriage benefits to same-sex couples for the first time, in a move that Defense Secretary Chuck Hagel said reflected the military's commitment to "ensuring that all men and women who serve in the U.S. military and their families are treated fairly and equally."

A.B. WON PAT
INTERNATIONAL AIRPORT AUTHORITY, GUAM
OCT 01 2013
TIME: 3pm
REC'D BY:

Mr. Charles H. Ada II
Executive Manager
A. B. Won Pat Guam International
Airport Authority
P. O. Box 8770
Tamuning, GU 96931

Dear Mr. Ada:

We are enclosing two copies of the Grant Offer for Airport Improvement Program (AIP) Project No. 3-66-0001-086-2013 at Guam International Airport in Agana, Guam. This letter outlines expectations for success. Please read the conditions and assurances carefully.

To properly enter into this agreement, you must do the following:

- The official of the Sponsor authorized to accept the enclosed Grant Offer shall accept by signing said offer and inserting the date in the space provided under the "Acceptance" section. The Sponsor's attorney shall certify that the acceptance complies with all applicable laws and constitutes a legal and binding obligation of the Sponsor by executing the "Certificate of Sponsor's Attorney" section. The date of said certificate shall be the same as, or later than the date of acceptance. The grant execution, along with your attorney's certification, must be completed by September 24, 2013, in order for the grant to be valid.
- When the document is fully executed, certified, attested and appropriate seals are impressed, please return one (1) originally signed and dated copy of the executed Grant Agreement to this office. Retain the remaining copy for your files.

Subject to the requirements in 49 CFR 18.21, each payment request for reimbursement under this grant must be made electronically via the Delphi eInvoicing System. Please see the attached Grant Agreement for more information regarding the use of this System.

Please note Grant Condition No. 4 requires you to complete the project without undue delay. We will be paying close attention to your progress to ensure proper stewardship of these Federal funds. **You are required to submit a payment request for reimbursement for allowable incurred project expenses every 30 days.**

Should you fail to make draws on a regular basis, your grant may be placed in "inactive" status which will impact future grant offers.

Until the grant is completed and closed, you are responsible for submitting formal reports as follows:

- A signed/dated SF-270 (non-construction projects) or SF-271 or equivalent (construction projects) and SF-425 annually, due 90 days after the end of each federal fiscal year in which this grant is open (due December 31 of each year this grant is open); and
- Quarterly Progress Reports due every quarter.

Once the project(s) is completed and all costs are determined, we ask that you close the project without delay and submit, as a minimum, the following:

- Sponsor Certification for Project Final Acceptance; and
- Summary of all change orders and summary of all testing; and
- Final SF-270 or SF-271 (or equivalent) and SF-425.

Steve Wong, (808) 541-1225, is the assigned program manager for this grant and is readily available to assist you and your designated representative with the requirements stated herein. We sincerely value your cooperation in these efforts and look forward to working with you to complete this important project.

Sincerely,

Ronnie V. Simpson
Manager, Airports District Office

GRANT AGREEMENT

PART I – OFFER

September 20, 2013
Date of Offer
Guam International
(herein called the "Airport")
3-66-0001-086-2013
Grant No
855035531
DUNS No

TO: **The A. B. Won Pat Guam International Airport Authority**
(herein called the "Sponsor")
FROM: **The United States of America** (acting through the Federal Aviation Administration, herein called the "FAA")

WHEREAS, the Sponsor has submitted to the FAA a Project Application dated February 12, 2009, for a grant of Federal funds for a project at or associated with the Guam International Airport, which Project Application, as approved by the FAA, is hereby incorporated herein and made a part hereof; and

WHEREAS, the FAA has approved a project for the Airport (or Planning Area) (herein called the "Project") consisting of the following:

Rehabilitate Runway 06L/24R – Phase III

all as more particularly described in the Project Application.

NOW THEREFORE, pursuant to and for the purpose of carrying out the provisions of Title 49, United States Code, as amended, herein called "the Act," and in consideration of (a) the Sponsor's adoption and ratification of the representations and assurances contained in said Project Application and its acceptance of this Offer as hereinafter provided, and (b) the benefits to accrue to the United States and the public from the accomplishment of the Project and compliance with the assurances and conditions as herein provided, **THE FEDERAL AVIATION ADMINISTRATION, FOR AND ON BEHALF OF THE UNITED STATES, HEREBY OFFERS AND AGREES** to pay, as the United States' share of the allowable costs incurred in accomplishing the Project, one hundred (100) of the first $983,000.00 of allowable project costs and ninety (90) per centum of allowable cost thereafter.

This Offer is made on and **SUBJECT TO THE FOLLOWING TERMS AND CONDITIONS:**

CONDITIONS

1. The maximum obligation of the United States payable under this Offer shall be $1,876,981.00. For the purposes of any future grant amendments which may increase the foregoing maximum obligation of the United States under the provisions of Section 47108(b) of the Act, the following amounts are being specified for this purpose:

   $ 0 for planning

   $ 1,876,981.00 for airport development or noise program implementation

2. The allowable costs of the project shall not include any costs determined by the FAA to be ineligible for consideration as to allowability under the Act.

3. Payment of the United States' share of the allowable project costs will be made pursuant to and in accordance with the provisions of such regulations and procedures as the Secretary shall prescribe. Final determination of the United States' share will be based upon the final audit of the total amount of allowable project costs and settlement will be made for any upward or downward adjustments to the Federal share of costs.

4. The Sponsor shall carry out and complete the Project without undue delays and in accordance with the terms hereof, and such regulations and procedures as the Secretary shall prescribe, and agrees to comply with the assurances which were made part of the project application.

5. The FAA reserves the right to amend or withdraw this offer at any time prior to its acceptance by the Sponsor.

6. This offer shall expire and the United States shall not be obligated to pay any part of the costs of the project unless this offer has been accepted by the Sponsor on or before September 24, 2013, or such subsequent date as may be prescribed in writing by the FAA.

7. The Sponsor shall take all steps, including litigation if necessary, to recover Federal funds spent fraudulently, wastefully, or in violation of Federal antitrust statutes, or misused in any other manner in any project upon which Federal funds have been expended. For the purposes of this grant agreement, the term "Federal funds" means funds however used or dispersed by the Sponsor that were originally paid pursuant to this or any other Federal grant agreement. It shall obtain the approval of the Secretary as to any determination of the amount of the Federal share of such funds. It shall return the recovered Federal share, including funds recovered by settlement, order, or judgment, to the Secretary. It shall furnish to the Secretary, upon request, all documents and records pertaining to the determination of the amount of the Federal share or to any settlement, litigation, negotiation, or other efforts taken to recover such funds. All settlements or other final positions of the Sponsor, in court or otherwise, involving the recovery of such Federal share shall be approved in advance by the Secretary.

8. The United States shall not be responsible or liable for damage to property or injury to persons which may arise from, or be incident to, compliance with this grant agreement.

9. **CENTRAL CONTRACTOR REGISTRATION AND UNIVERSAL IDENTIFIER REQUIREMENTS**

   A. Requirement for Central Contractor Registration (CCR)

   Unless you are exempted from this requirement under 2 CFR 25.110, you as the recipient must maintain the currency of your information in the CCR until you submit the final financial report required under this award or receive the final payment, whichever is later. This requires that you review and update the information at least annually after the initial registration and more frequently if required by changes in your information or another award term.

   B. Requirement for Data Universal Numbering System (DUNS) Numbers

   If you are authorized to make subawards under this award, you:

   1. Must notify potential subrecipients that no entity (see definition in paragraph C of this award term) may receive a subaward from you unless the entity has provided its DUNS number to you.

   2. May not make a subaward to an entity unless the entity has provided its DUNS number to you.

C. Definitions

For purposes of this award term:

1. Central Contractor Registration (CCR) means the Federal repository into which an entity must provide information required for the conduct of business as a recipient. Additional information about registration procedures may be found at the CCR Internet site (currently at https://www.sam.gov/portal/public/SAM/).

2. Data Universal Numbering System

DUNS number means the nine-digit number established and assigned by Dun and Bradstreet, Inc. (D & B) to uniquely identify business entities. A DUNS number may be obtained from D & B by telephone (currently 866–705–5711) or the Internet (currently at http://fedgov.dnb.com/webform).

3. Entity, as it is used in this award term, means all of the following, as defined at 2 CFR Part 25, Subpart C:

a. A Governmental organization, which is a State, local government, or Indian Tribe;

b. A foreign public entity;

c. A domestic or foreign nonprofit organization;

d. A domestic or foreign for-profit organization; and

e. A Federal agency, but only as a subrecipient under an award or subaward to a non-Federal entity.

4. Subaward:

a. This term means a legal instrument to provide support for the performance of any portion of the substantive project or program for which you received this award and that you as the recipient award to an eligible subrecipient.

b. The term does not include your procurement of property and services needed to carry out the project or program (for further explanation, see Sec. 210 of the attachment to OMB Circular A–133, "Audits of States, Local Governments, and Non-Profit Organizations"). A subaward may be provided through any legal agreement, including an agreement that you consider a contract.

5. Subrecipient means an entity that:

a. Receives a subaward from you under this award; and

b. Is accountable to you for the use of the Federal funds provided by the subaward.

c. A subaward may be provided through any legal agreement, including an agreement that you consider a contract.

10. **ELECTRONIC GRANT PAYMENT(S):** The requirements set forth in these terms and conditions supersede previous financial invoicing requirements for FAA grantees. Each payment request under this grant agreement must be made electronically via the Delphi eInvoicing System for Department of Transportation (DOT) Financial Assistance Awardees. The following are the procedures for accessing and utilizing the Delphi eInvoicing System.

A. Grant Recipient Requirements.
   (1) Grantees must have Internet access to register and submit payment requests through the Delphi eInvoicing system unless, under limited circumstances, a waiver is granted by the FAA and DOT under section (c) below.
   (2) Grantees must submit payment requests electronically and the FAA will process payment requests electronically.

B. System User Access.
   (1) Grantees must contact the FAA Airports District/Regional Office and officially submit a written request to sign up for the system. The FAA Office of Airports will provide the grantee's name, email address and telephone number to the DOT Financial Management Office. The DOT will then invite the grantee via email to sign up for the system and require the grantee to complete two forms. The grantee will complete a web based DOT registration form and download the Proof of Identification form to verify the grantee's identity.

(2) The grantee must complete the Proof of Identification form, and present it to a Notary Public for verification. The grantee will return the notarized form to:

DOT Enterprise Services Center

FAA Accounts Payable, AMZ-100

PO Box 25710

Oklahoma City, OK 73125

(3) The DOT will validate the both forms and email a user ID and password to the grantee. Grantees should contact the FAA Airports District/Regional Office with any changes to their system information.

Note: Additional information, including access forms and training materials, can be found on the DOT eInvoicing website (http://www.dot.gov/cfo/delphi-einvoicing-system.html).

C. Waivers. DOT Financial Management officials may, on a case by case basis, waive the requirement to register and use the electronic grant payment system based on user requests and concurrence of the FAA. Waiver request forms can be obtained on the DOT eInvoicing website (http://www.dot.gov/cfo/delphi-einvoicing-system.html) or by contacting the FAA Airports District/Regional Office. Recipients must explain why they are unable to use or access the Internet to register and enter payment requests.

(1) All waiver requests should be sent to the FAA Airports District/Regional Office for concurrence, prior to sending to the Director of the Office of Financial Management, US Department of Transportation, Office of Financial Management, B-30, room W93-431, 1200 New Jersey Avenue SE, Washington DC 20590-0001, DOTElectronicInvoicing@dot.gov. The Director of the DOT Office of Financial Management will confirm or deny the request within approximately 30 days.

(2) If a grantee is granted a waiver, the grantee should submit all hard-copy invoices directly to:
DOT/FAA

PO Box 25082

AMZ-110

Oklahoma City, OK 73125

11. **INFORMAL LETTER AMENDMENT OF AIP PROJECTS:** It is mutually understood and agreed that if, during the life of the project, the FAA determines that the maximum grant obligation of the United States exceeds the expected needs of the Sponsor by $25,000.00 or five percent (5%), whichever is greater, the maximum obligation of the United States can be unilaterally reduced by letter from the FAA advising of the budget change. Conversely, if there is an overrun in the total actual eligible and allowable project costs, FAA may increase the maximum grant obligation of the United States to cover the amount of the overrun not to exceed the statutory percent limitation and will advise the Sponsor by letter of the increase. It is further understood and agreed that if, during the life of the project, the FAA determines that a change in the grant description is advantageous and in the best interests of the United States, the change in grant description will be unilaterally amended by letter from the FAA. Upon issuance of the aforementioned letter, either the grant obligation of the United States is adjusted to the amount specified or the grant description is amended to the description specified.

12. **AIR AND WATER QUALITY:** Approval of the project included in this agreement is conditioned on the Sponsor's compliance with applicable air and water quality standards in accomplishing project construction. Failure to comply with this requirement may result in suspension, cancellation, or termination of Federal assistance under this agreement.

13. **PAVEMENT MAINTENANCE MANAGEMENT PROGRAM:** For a project to replace or reconstruct pavement at the airport, the Sponsor shall implement an effective airport pavement maintenance management program as is required by Airport Sponsor Assurance Number C-11. The Sponsor shall use such program for the useful life of any pavement constructed, reconstructed, or repaired with federal financial assistance at the airport. As a minimum, the program must conform with the provisions outlined below

Pavement Maintenance Management Program

An effective pavement maintenance management program is one that details the procedures to be followed to assure that proper pavement maintenance, both preventive and repair, is performed. An airport sponsor may

use any form of inspection program it deems appropriate. The program must, as a minimum, include the following:

a. **Pavement Inventory.** The following must be depicted in an appropriate form and level of detail:

   (1) location of all runways, taxiways, and aprons;
   (2) dimensions;
   (3) type of pavement, and;
   (4) year of construction or most recent major rehabilitation.

   For compliance with the Airport Improvement Program (AIP) assurances, pavements that have been constructed, reconstructed, or repaired with federal financial assistance shall be so depicted.

b. Inspection Schedule.

   (1) Detailed Inspection. A detailed inspection must be performed at least once a year. If a history of recorded pavement deterioration is available, i.e., Pavement Condition Index (PCI) survey as set forth in Advisory Circular 150/5380-6, "Guidelines and Procedures for Maintenance of Airport Pavements," the frequency of inspections may be extended to three years.
   (2) Drive-By Inspection. A drive-by inspection must be performed a minimum of once per month to detect unexpected changes in the pavement condition.

c. **Record Keeping.** Complete information on the findings of all detailed inspections and on the maintenance performed must be recorded and kept on file for a minimum of five years. The types of distress, their locations, and remedial action, scheduled or performed, must be documented. The minimum information to be recorded is listed below:

   (1) inspection date,
   (2) location,
   (3) distress types, and
   (4) maintenance scheduled or performed.

   For drive-by inspections, the date of inspection and any maintenance performed must be recorded.

d. **Information Retrieval.** An airport sponsor may use any form of record keeping it deems appropriate, so long as the information and records produced by the pavement survey can be retrieved to provide a report to the FAA as may be required.
e. **Reference.** Refer to Advisory Circular 150/5380-6, "Guidelines and Procedures for Maintenance of Airport Pavements," for specific guidelines and procedures for maintaining airport pavements and establishing an effective maintenance program. Specific types of distress, their probable causes, inspection guidelines, and recommended methods of repair are presented.

14. **PROJECTS WHICH CONTAIN PAVING WORK IN EXCESS OF $250,000**: The Sponsor agrees to perform the following:

   a. Furnish a construction management program to FAA prior to the start of construction which shall detail the measures and procedures to be used to comply with the quality control provisions of the construction contract, including, but not limited to, all quality control provisions and tests required by the Federal specifications. The program shall include as a minimum:

      (1) The name of the person representing the Sponsor who has overall responsibility for contract administration for the project and the authority to take necessary actions to comply with the contract.
      (2) Names of testing laboratories and consulting engineer firms with quality control responsibilities on the project, together with a description of the services to be provided.
      (3) Procedures for determining that testing laboratories meet the requirements of the American Society of Testing and Materials standards on laboratory evaluation, referenced in the contract specifications (D 3666, C 1077).
      (4) Qualifications of engineering supervision and construction inspection personnel.
      (5) A listing of all tests required by the contract specifications, including the type and frequency of tests to be taken, the method of sampling, the applicable test standard, and the acceptance criteria or tolerances permitted for each type of test.
      (6) Procedures for ensuring that the tests are taken in accordance with the program, that they are documented daily, and that the proper corrective actions, where necessary, are undertaken.

b. Submit at completion of the project, a final test and quality control report documenting the results of all tests performed, highlighting those tests that failed or that did not meet the applicable test standard. The report shall include the pay reductions applied and the reasons for accepting any out-of-tolerance material. An interim test and quality control report shall be submitted, if requested by the FAA.
c. Failure to provide a complete report as described in paragraph b, or failure to perform such tests, shall, absent any compelling justification, result in a reduction in Federal participation for costs incurred in connection with construction of the applicable pavement. Such reduction shall be at the discretion of the FAA and will be based on the type or types of required tests not performed or not documented and will be commensurate with the proportion of applicable pavement with respect to the total pavement constructed under the grant agreement.
d. The FAA, at its discretion, reserves the right to conduct independent tests and to reduce grant payments accordingly if such independent tests determine that sponsor test results are inaccurate.

15. **BUY AMERICAN REQUIREMENT:** Unless otherwise approved by the FAA, the Sponsor will not acquire or permit any contractor or subcontractor to acquire any steel or manufactured products produced outside the United States to be used for any project for airport development or noise compatibility for which funds are provided under this grant. The Sponsor will include in every contract a provision implementing this special condition.

16. **MAXIMUM OBLIGATION INCREASE FOR PRIMARY AIRPORTS:** In accordance with Section 47108(b) of the Act, as amended, the maximum obligation of the United States, as stated in Condition No. 1 of this Grant Offer

    a. may not be increased for a planning project;

    b. may be increased by not more than 15 percent for development projects;

    c. may be increased by not more than 15 percent or by an amount not to exceed 25 percent of the total increase in allowable costs attributable to the acquisition of land or interests in land, whichever is greater, based on current credible appraisals or a court award in a condemnation proceeding.

17. The Sponsor agrees to take the following actions to maintain and/or acquire a property interest, satisfactory to the FAA, in the Runway Protection Zones:

    a. Existing Fee Title Interest in the Runway Protection Zone: The Sponsor agrees to prevent the erection or creation of any structure or place of public assembly in the Runway Protection Zone, except for NAVAIDS that are fixed by their functional purposes or any other structure approved by the FAA. Any existing structures or uses within the Runway Protection Zone will be cleared or discontinued unless approved by the FAA.

    b. Existing Easement Interest in the Runway Protection Zone: The Sponsor agrees to take any and all steps necessary to ensure that the owner of the land within the designated Runway Protection Zone will not build any structure in the Runway Protection Zone that is a hazard to air navigation or which might create glare or misleading lights or lead to the construction of residences, fuel handling and storage facilities, smoke generating activities, or places of public assembly, such as churches, schools, office buildings, shopping centers, and stadiums.

    c. Future Interest in the Runway Protection Zone: The Sponsor agrees that it will acquire fee title or less-than-fee interest in the Runway Protection Zones for runways that presently are not under its control within ten years of this Grant Agreement. Said interest shall provide the protection noted in the above Subparagraphs a and b.

The Sponsor's acceptance of this Offer and ratification and adoption of the Project Application incorporated herein shall be evidenced by execution of this instrument by the Sponsor, as hereinafter provided, and this Offer and Acceptance shall comprise a Grant Agreement, as provided by the Act, constituting the contractual obligations and rights of the United States and the Sponsor with respect to the accomplishment of the Project and compliance with the assurances and conditions as provided herein. Such Grant Agreement shall become effective upon the Sponsor's acceptance of this Offer.

(Title)

PART II - ACCEPTANCE

The Sponsor does hereby ratify and adopt all assurances, statements, representations, warranties, covenants, and agreements contained in the Project Application and incorporated materials referred to in the foregoing Offer and does hereby accept this Offer and by such acceptance agrees to comply with all of the terms and conditions in this Offer and in the Project Application. I declare under penalty of perjury that the foregoing is true and correct. [1]

Executed this 23rd day of September, 2013.

Administrative Officer

CERTIFICATE OF SPONSOR'S ATTORNEY

I, Jamalynn Cruz Damian, acting as Attorney for the Sponsor do hereby certify:

That in my opinion the Sponsor is empowered to enter into the foregoing Grant Agreement under the laws of the Territory of Guam. Further, I have examined the foregoing Grant Agreement and the actions taken by said Sponsor and Sponsor's official representative has been duly authorized and that the execution thereof is in all respects due and proper and in accordance with the laws of the said State and the Act. In addition, for grants involving projects to be carried out on property not owned by the Sponsor, there are no legal impediments that will prevent full performance by the Sponsor. Further, it is my opinion that the said Grant Agreement constitutes a legal and binding obligation of the Sponsor in accordance with the terms thereof.

Dated at HAGATNA, GUAM this 23rd day of September, 2013.

By _____
(Signature of Sponsor's Attorney)

[1] Knowingly and willfully providing false information to the Federal government is a violation of 18 U.S.C. Section 1001 (False Statements) and could subject you to fines, imprisonment, or both.

ASSURANCES
Airport Sponsors

A. General.

1. These assurances shall be complied with in the performance of grant agreements for airport development, airport planning, and noise compatibility program grants for airport sponsors.

2. These assurances are required to be submitted as part of the project application by sponsors requesting funds under the provisions of Title 49, U.S.C., subtitle VII, as amended. As used herein, the term "public agency sponsor" means a public agency with control of a public-use airport; the term "private sponsor" means a private owner of a public-use airport; and the term "sponsor" includes both public agency sponsors and private sponsors.

3. Upon acceptance of this grant offer by the sponsor, these assurances are incorporated in and become part of this grant agreement.

B. Duration and Applicability.

1. **Airport development or Noise Compatibility Program Projects Undertaken by a Public Agency Sponsor.** The terms, conditions and assurances of this grant agreement shall remain in full force and effect throughout the useful life of the facilities developed or equipment acquired for an airport development or noise compatibility program project, or throughout the useful life of the project items installed within a facility under a noise compatibility program project, but in any event not to exceed twenty (20) years from the date of acceptance of a grant offer of Federal funds for the project. However, there shall be no limit on the duration of the assurances regarding Exclusive Rights and Airport Revenue so long as the airport is used as an airport. There shall be no limit on the duration of the terms, conditions, and assurances with respect to real property acquired with federal funds. Furthermore, the duration of the Civil Rights assurance shall be specified in the assurances.

2. **Airport Development or Noise Compatibility Projects Undertaken by a Private Sponsor.** The preceding paragraph 1 also applies to a private sponsor except that the useful life of project items installed within a facility or the useful life of the facilities developed or equipment acquired under an airport development or noise compatibility program project shall be no less than ten (10) years from the date of acceptance of Federal aid for the project.

3. **Airport Planning Undertaken by a Sponsor.** Unless otherwise specified in this grant agreement, only Assurances 1, 2, 3, 5, 6, 13, 18, 30, 32, 33, and 34 in section C apply to planning projects. The terms, conditions, and assurances of this grant agreement shall remain in full force and effect during the life of the project.

C. **Sponsor Certification.** The sponsor hereby assures and certifies, with respect to this grant that:

1. **General Federal Requirements.** It will comply with all applicable Federal laws, regulations, executive orders, policies, guidelines, and requirements as they relate to the application, acceptance and use of Federal funds for this project including but not limited to the following:

Federal Legislation

a. Title 49, U.S.C., subtitle VII, as amended.
b. Davis-Bacon Act - 40 U.S.C. 276(a), et seq.[1]
c. Federal Fair Labor Standards Act - 29 U.S.C. 201, et seq.
d. Hatch Act – 5 U.S.C. 1501, et seq.[2]
e. Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 Title 42 U.S.C. 4601, et seq.[1 2]
f. National Historic Preservation Act of 1966 - Section 106 - 16 U.S.C. 470(f).[1]
g. Archeological and Historic Preservation Act of 1974 - 16 U.S.C. 469 through 469c.[1]
h. Native Americans Grave Repatriation Act - 25 U.S.C. Section 3001, et seq.
i. Clean Air Act, P.L. 90-148, as amended.
j. Coastal Zone Management Act, P.L. 93-205, as amended.
k. Flood Disaster Protection Act of 1973 - Section 102(a) - 42 U.S.C. 4012a.[1]
l. Title 49, U.S.C., Section 303, (formerly known as Section 4(f))
m. Rehabilitation Act of 1973 - 29 U.S.C. 794.
n. Civil Rights Act of 1964 - Title VI - 42 U.S.C. 2000d through d-4.
o. Age Discrimination Act of 1975 - 42 U.S.C. 6101, et seq.
p. American Indian Religious Freedom Act, P.L. 95-341, as amended.
q. Architectural Barriers Act of 1968 -42 U.S.C. 4151, et seq.[1]
r. Power plant and Industrial Fuel Use Act of 1978 - Section 403- 2 U.S.C. 8373.[1]
s. Contract Work Hours and Safety Standards Act - 40 U.S.C. 327, et seq.[1]
t. Copeland Anti kickback Act - 18 U.S.C. 874.1
u. National Environmental Policy Act of 1969 - 42 U.S.C. 4321, et seq.[1]
v. Wild and Scenic Rivers Act, P.L. 90-542, as amended.
w. Single Audit Act of 1984 - 31 U.S.C. 7501, et seq.[2]

Executive Order 11246 - Equal Employment Opportunity[1]
Executive Order 11990 - Protection of Wetlands
Executive Order 11998 – Flood Plain Management
Executive Order 12372 - Intergovernmental Review of Federal Programs
Executive Order 12699 - Seismic Safety of Federal and Federally Assisted New Building Construction[1]
Executive Order 12898 - Environmental Justice

Federal Regulations

a. 14 CFR Part 13 - Investigative and Enforcement Procedures.
b. 14 CFR Part 16 - Rules of Practice For Federally Assisted Airport Enforcement Proceedings.
c. 14 CFR Part 150 - Airport noise compatibility planning.
d. 29 CFR Part 1 - Procedures for predetermination of wage rates.[1]
e. 29 CFR Part 3 - Contractors and subcontractors on public building or public work financed in whole or part by loans or grants from the United States.[1]
f. 29 CFR Part 5 - Labor standards provisions applicable to contracts covering federally financed and assisted construction (also labor standards provisions applicable to non-construction contracts subject to the Contract Work Hours and Safety Standards Act).[1]
g. 41 CFR Part 60 - Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor (Federal and federally assisted contracting requirements).[1]
h. 49 CFR Part 18 - Uniform administrative requirements for grants and cooperative agreements to state and local governments.[3]
i. 49 CFR Part 20 - New restrictions on lobbying.
j. 49 CFR Part 21 - Nondiscrimination in federally-assisted programs of the Department of Transportation - effectuation of Title VI of the Civil Rights Act of 1964.
k. 49 CFR Part 23 - Participation by Disadvantage Business Enterprise in Airport Concessions.
l. 49 CFR Part 24 - Uniform relocation assistance and real property acquisition for Federal and federally assisted programs.[1] [2]
m. 49 CFR Part 26 – Participation By Disadvantaged Business Enterprises in Department of Transportation Programs.
n. 49 CFR Part 27 - Nondiscrimination on the basis of handicap in programs and activities receiving or benefiting from Federal financial assistance.[1]
o. 49 CFR Part 29 – Government wide debarment and suspension (nonprocurement) and government wide requirements for drug-free workplace (grants).
p. 49 CFR Part 30 - Denial of public works contracts to suppliers of goods and services of countries that deny procurement market access to U.S. contractors.
q. 49 CFR Part 41 - Seismic safety of Federal and federally assisted or regulated new building construction.[1]

Office of Management and Budget Circulars

a. A-87 - Cost Principles Applicable to Grants and Contracts with State and Local Governments.
b. A-133 - Audits of States, Local Governments, and Non-Profit Organizations

[1] These laws do not apply to airport planning sponsors.

[2] These laws do not apply to private sponsors.

[3] 49 CFR Part 18 and OMB Circular A-87 contain requirements for State and Local Governments receiving Federal assistance. Any requirement levied upon State and Local Governments by this regulation and circular shall also be applicable to private sponsors receiving Federal assistance under Title 49, United States Code.

Specific assurances required to be included in grant agreements by any of the above laws, regulations or circulars are incorporated by reference in this grant agreement.

2. **Responsibility and Authority of the Sponsor.**

   a. **Public Agency Sponsor:** It has legal authority to apply for this grant, and to finance and carry out the proposed project; that a resolution, motion or similar action has been duly adopted or passed as an official act of the applicant's governing body authorizing the filing of the application, including all understandings and assurances contained therein, and directing and authorizing the person identified as the official representative of the applicant to act in connection with the application and to provide such additional information as may be required.

   b. **Private Sponsor:** It has legal authority to apply for this grant and to finance and carry out the proposed project and comply with all terms, conditions, and assurances of this grant agreement. It shall designate an official representative and shall in writing direct and authorize that person to file this application, including all understandings and assurances contained therein; to act in connection with this application; and to provide such additional information as may be required.

3. **Sponsor Fund Availability.** It has sufficient funds available for that portion of the project costs which are not to be paid by the United States. It has sufficient funds available to assure operation and maintenance of items funded under this grant agreement which it will own or control.

4. **Good Title.**

   a. It, a public agency or the Federal government, holds good title, satisfactory to the Secretary, to the landing area of the airport or site thereof, or will give assurance satisfactory to the Secretary that good title will be acquired.

   b. For noise compatibility program projects to be carried out on the property of the sponsor, it holds good title satisfactory to the Secretary to that portion of the property upon which Federal funds will be expended or will give assurance to the Secretary that good title will be obtained.

5. **Preserving Rights and Powers.**

   a. It will not take or permit any action which would operate to deprive it of any of the rights and powers necessary to perform any or all of the terms, conditions, and assurances in this grant agreement without the written approval of the Secretary, and will act promptly to acquire, extinguish or

modify any outstanding rights or claims of right of others which would interfere with such performance by the sponsor. This shall be done in a manner acceptable to the Secretary.

b. It will not sell, lease, encumber, or otherwise transfer or dispose of any part of its title or other interests in the property shown on Exhibit A to this application or, for a noise compatibility program project, that portion of the property upon which Federal funds have been expended, for the duration of the terms, conditions, and assurances in this grant agreement without approval by the Secretary. If the transferee is found by the Secretary to be eligible under Title 49, United States Code, to assume the obligations of this grant agreement and to have the power, authority, and financial resources to carry out all such obligations, the sponsor shall insert in the contract or document transferring or disposing of the sponsor's interest, and make binding upon the transferee all of the terms, conditions, and assurances contained in this grant agreement.

c. For all noise compatibility program projects which are to be carried out by another unit of local government or are on property owned by a unit of local government other than the sponsor, it will enter into an agreement with that government. Except as otherwise specified by the Secretary, that agreement shall obligate that government to the same terms, conditions, and assurances that would be applicable to it if it applied directly to the FAA for a grant to undertake the noise compatibility program project. That agreement and changes thereto must be satisfactory to the Secretary. It will take steps to enforce this agreement against the local government if there is substantial non-compliance with the terms of the agreement.

d. For noise compatibility program projects to be carried out on privately owned property, it will enter into an agreement with the owner of that property which includes provisions specified by the Secretary. It will take steps to enforce this agreement against the property owner whenever there is substantial non-compliance with the terms of the agreement.

e. If the sponsor is a private sponsor, it will take steps satisfactory to the Secretary to ensure that the airport will continue to function as a public-use airport in accordance with these assurances for the duration of these assurances.

f. If an arrangement is made for management and operation of the airport by any agency or person other than the sponsor or an employee of the sponsor, the sponsor will reserve sufficient rights and authority to insure that the airport will be operated and maintained in accordance Title 49, United States Code, the regulations and the terms, conditions and assurances in this grant agreement and shall insure that such arrangement also requires compliance therewith.

g. Sponsors of commercial service airports will not permit or enter into any arrangement that results in permission for the owner or tenant of a property used as a residence, or zoned for residential use, to taxi an aircraft between that property and any location on airport. Sponsors of general aviation airports entering into any arrangement that results in

permission for the owner of residential real property adjacent to or near the airport must comply with the requirements of Sec. 136 of Public Law 112-95 and the sponsor assurances.

6. **Consistency with Local Plans.** The project is reasonably consistent with plans (existing at the time of submission of this application) of public agencies that are authorized by the State in which the project is located to plan for the development of the area surrounding the airport.

7. **Consideration of Local Interest.** It has given fair consideration to the interest of communities in or near where the project may be located.

8. **Consultation with Users.** In making a decision to undertake any airport development project under Title 49, United States Code, it has undertaken reasonable consultations with affected parties using the airport at which project is proposed.

9. **Public Hearings.** In projects involving the location of an airport, an airport runway, or a major runway extension, it has afforded the opportunity for public hearings for the purpose of considering the economic, social, and environmental effects of the airport or runway location and its consistency with goals and objectives of such planning as has been carried out by the community and it shall, when requested by the Secretary, submit a copy of the transcript of such hearings to the Secretary. Further, for such projects, it has on its management board either voting representation from the communities where the project is located or has advised the communities that they have the right to petition the Secretary concerning a proposed project.

10. **Air and Water Quality Standards.** In projects involving airport location, a major runway extension, or runway location it will provide for the Governor of the state in which the project is located to certify in writing to the Secretary that the project will be located, designed, constructed, and operated so as to comply with applicable air and water quality standards. In any case where such standards have not been approved and where applicable air and water quality standards have been promulgated by the Administrator of the Environmental Protection Agency, certification shall be obtained from such Administrator. Notice of certification or refusal to certify shall be provided within sixty days after the project application has been received by the Secretary.

11. **Pavement Preventive Maintenance.** With respect to a project approved after January 1, 1995, for the replacement or reconstruction of pavement at the airport, it assures or certifies that it has implemented an effective airport pavement maintenance-management program and it assures that it will use such program for the useful life of any pavement constructed, reconstructed or repaired with Federal financial assistance at the airport. It will provide such reports on pavement condition and pavement management programs as the Secretary determines may be useful.

12. **Terminal Development Prerequisites.** For projects which include terminal development at a public use airport, as defined in Title 49, it has, on the date of

submittal of the project grant application, all the safety equipment required for certification of such airport under section 44706 of Title 49, United States Code, and all the security equipment required by rule or regulation, and has provided for access to the passenger enplaning and deplaning area of such airport to passengers enplaning and deplaning from aircraft other than air carrier aircraft.

13. **Accounting System, Audit, and Record Keeping Requirements.**

    a. It shall keep all project accounts and records which fully disclose the amount and disposition by the recipient of the proceeds of this grant, the total cost of the project in connection with which this grant is given or used, and the amount or nature of that portion of the cost of the project supplied by other sources, and such other financial records pertinent to the project. The accounts and records shall be kept in accordance with an accounting system that will facilitate an effective audit in accordance with the Single Audit Act of 1984.

    b. It shall make available to the Secretary and the Comptroller General of the United States, or any of their duly authorized representatives, for the purpose of audit and examination, any books, documents, papers, and records of the recipient that are pertinent to this grant. The Secretary may require that an appropriate audit be conducted by a recipient. In any case in which an independent audit is made of the accounts of a sponsor relating to the disposition of the proceeds of a grant or relating to the project in connection with which this grant was given or used, it shall file a certified copy of such audit with the Comptroller General of the United States not later than six (6) months following the close of the fiscal year for which the audit was made.

14. **Minimum Wage Rates.** It shall include, in all contracts in excess of $2,000 for work on any projects funded under this grant agreement which involve labor, provisions establishing minimum rates of wages, to be predetermined by the Secretary of Labor, in accordance with the Davis-Bacon Act, as amended (40 U.S.C. 276a-276a-5), which contractors shall pay to skilled and unskilled labor, and such minimum rates shall be stated in the invitation for bids and shall be included in proposals or bids for the work.

15. **Veteran's Preference.** It shall include in all contracts for work on any project funded under this grant agreement which involve labor, such provisions as are necessary to insure that, in the employment of labor (except in executive, administrative, and supervisory positions), preference shall be given to Vietnam era veterans, Persian Gulf veterans, Afghanistan-Iraq war veterans, disabled veterans, and small business concerns owned and controlled by disabled veterans as defined in Section 47112 of Title 49, United States Code. However, this preference shall apply only where the individuals are available and qualified to perform the work to which the employment relates.

16. **Conformity to Plans and Specifications.** It will execute the project subject to plans, specifications, and schedules approved by the Secretary. Such plans, specifications, and schedules shall be submitted to the Secretary prior to

commencement of site preparation, construction, or other performance under this grant agreement, and, upon approval of the Secretary, shall be incorporated into this grant agreement. Any modification to the approved plans, specifications, and schedules shall also be subject to approval of the Secretary, and incorporated into this grant agreement.

17. **Construction Inspection and Approval.** It will provide and maintain competent technical supervision at the construction site throughout the project to assure that the work conforms to the plans, specifications, and schedules approved by the Secretary for the project. It shall subject the construction work on any project contained in an approved project application to inspection and approval by the Secretary and such work shall be in accordance with regulations and procedures prescribed by the Secretary. Such regulations and procedures shall require such cost and progress reporting by the sponsor or sponsors of such project as the Secretary shall deem necessary.

18. **Planning Projects.** In carrying out planning projects:

    a. It will execute the project in accordance with the approved program narrative contained in the project application or with the modifications similarly approved.
    b. It will furnish the Secretary with such periodic reports as required pertaining to the planning project and planning work activities.
    c. It will include in all published material prepared in connection with the planning project a notice that the material was prepared under a grant provided by the United States.
    d. It will make such material available for examination by the public, and agrees that no material prepared with funds under this project shall be subject to copyright in the United States or any other country.
    e. It will give the Secretary unrestricted authority to publish, disclose, distribute, and otherwise use any of the material prepared in connection with this grant.
    f. It will grant the Secretary the right to disapprove the sponsor's employment of specific consultants and their subcontractors to do all or any part of this project as well as the right to disapprove the proposed scope and cost of professional services.
    g. It will grant the Secretary the right to disapprove the use of the sponsor's employees to do all or any part of the project.
    h. It understands and agrees that the Secretary's approval of this project grant or the Secretary's approval of any planning material developed as part of this grant does not constitute or imply any assurance or commitment on the part of the Secretary to approve any pending or future application for a Federal airport grant.

19. **Operation and Maintenance.**

    a. The airport and all facilities which are necessary to serve the aeronautical users of the airport, other than facilities owned or controlled by the United States, shall be operated at all times in a safe and serviceable condition

and in accordance with the minimum standards as may be required or prescribed by applicable Federal, state and local agencies for maintenance and operation. It will not cause or permit any activity or action thereon which would interfere with its use for airport purposes. It will suitably operate and maintain the airport and all facilities thereon or connected therewith, with due regard to climatic and flood conditions. Any proposal to temporarily close the airport for non-aeronautical purposes must first be approved by the Secretary. In furtherance of this assurance, the sponsor will have in effect arrangements for-

1) Operating the airport's aeronautical facilities whenever required;
2) Promptly marking and lighting hazards resulting from airport conditions, including temporary conditions; and
3) Promptly notifying airmen of any condition affecting aeronautical use of the airport. Nothing contained herein shall be construed to require that the airport be operated for aeronautical use during temporary periods when snow, flood or other climatic conditions interfere with such operation and maintenance. Further, nothing herein shall be construed as requiring the maintenance, repair, restoration, or replacement of any structure or facility which is substantially damaged or destroyed due to an act of God or other condition or circumstance beyond the control of the sponsor.

b. It will suitably operate and maintain noise compatibility program items that it owns or controls upon which Federal funds have been expended.

20. **Hazard Removal and Mitigation.** It will take appropriate action to assure that such terminal airspace as is required to protect instrument and visual operations to the airport (including established minimum flight altitudes) will be adequately cleared and protected by removing, lowering, relocating, marking, or lighting or otherwise mitigating existing airport hazards and by preventing the establishment or creation of future airport hazards.

21. **Compatible Land Use.** It will take appropriate action, to the extent reasonable, including the adoption of zoning laws, to restrict the use of land adjacent to or in the immediate vicinity of the airport to activities and purposes compatible with normal airport operations, including landing and takeoff of aircraft. In addition, if the project is for noise compatibility program implementation, it will not cause or permit any change in land use, within its jurisdiction, that will reduce its compatibility, with respect to the airport, of the noise compatibility program measures upon which Federal funds have been expended.

22. **Economic Nondiscrimination.**

a. It will make the airport available as an airport for public use on reasonable terms and without unjust discrimination to all types, kinds and classes of aeronautical activities, including commercial aeronautical activities offering services to the public at the airport.

b. In any agreement, contract, lease, or other arrangement under which a right or privilege at the airport is granted to any person, firm, or corporation to conduct or to engage in any aeronautical activity for

furnishing services to the public at the airport, the sponsor will insert and enforce provisions requiring the contractor to-

1) furnish said services on a reasonable, and not unjustly discriminatory, basis to all users thereof, and
2) charge reasonable, and not unjustly discriminatory, prices for each unit or service, provided that the contractor may be allowed to make reasonable and nondiscriminatory discounts, rebates, or other similar types of price reductions to volume purchasers.

c. Each fixed-based operator at the airport shall be subject to the same rates, fees, rentals, and other charges as are uniformly applicable to all other fixed-based operators making the same or similar uses of such airport and utilizing the same or similar facilities.

d. Each air carrier using such airport shall have the right to service itself or to use any fixed-based operator that is authorized or permitted by the airport to serve any air carrier at such airport.

e. Each air carrier using such airport (whether as a tenant, non tenant, or subtenant of another air carrier tenant) shall be subject to such nondiscriminatory and substantially comparable rules, regulations, conditions, rates, fees, rentals, and other charges with respect to facilities directly and substantially related to providing air transportation as are applicable to all such air carriers which make similar use of such airport and utilize similar facilities, subject to reasonable classifications such as tenants or non tenants and signatory carriers and non signatory carriers. Classification or status as tenant or signatory shall not be unreasonably withheld by any airport provided an air carrier assumes obligations substantially similar to those already imposed on air carriers in such classification or status.

f. It will not exercise or grant any right or privilege which operates to prevent any person, firm, or corporation operating aircraft on the airport from performing any services on its own aircraft with its own employees [including, but not limited to maintenance, repair, and fueling] that it may choose to perform.

g. In the event the sponsor itself exercises any of the rights and privileges referred to in this assurance, the services involved will be provided on the same conditions as would apply to the furnishing of such services by commercial aeronautical service providers authorized by the sponsor under these provisions.

h. The sponsor may establish such reasonable, and not unjustly discriminatory, conditions to be met by all users of the airport as may be necessary for the safe and efficient operation of the airport.

i. The sponsor may prohibit or limit any given type, kind or class of aeronautical use of the airport if such action is necessary for the safe operation of the airport or necessary to serve the civil aviation needs of the public.

23. **Exclusive Rights.** It will permit no exclusive right for the use of the airport by any person providing, or intending to provide, aeronautical services to the public.

For purposes of this paragraph, the providing of the services at an airport by a single fixed-based operator shall not be construed as an exclusive right if both of the following apply:

a. It would be unreasonably costly, burdensome, or impractical for more than one fixed-based operator to provide such services, and

b. If allowing more than one fixed-based operator to provide such services would require the reduction of space leased pursuant to an existing agreement between such single fixed-based operator and such airport. It further agrees that it will not, either directly or indirectly, grant or permit any person, firm, or corporation, the exclusive right at the airport to conduct any aeronautical activities, including, but not limited to charter flights, pilot training, aircraft rental and sightseeing, aerial photography, crop dusting, aerial advertising and surveying, air carrier operations, aircraft sales and services, sale of aviation petroleum products whether or not conducted in conjunction with other aeronautical activity, repair and maintenance of aircraft, sale of aircraft parts, and any other activities which because of their direct relationship to the operation of aircraft can be regarded as an aeronautical activity, and that it will terminate any exclusive right to conduct an aeronautical activity now existing at such an airport before the grant of any assistance under Title 49, United States Code.

24. **Fee and Rental Structure.** It will maintain a fee and rental structure for the facilities and services at the airport which will make the airport as self-sustaining as possible under the circumstances existing at the particular airport, taking into account such factors as the volume of traffic and economy of collection. No part of the Federal share of an airport development, airport planning or noise compatibility project for which a grant is made under Title 49, United States Code, the Airport and Airway Improvement Act of 1982, the Federal Airport Act or the Airport and Airway Development Act of 1970 shall be included in the rate basis in establishing fees, rates, and charges for users of that airport.

25. **Airport Revenues.**

a. All revenues generated by the airport and any local taxes on aviation fuel established after December 30, 1987, will be expended by it for the capital or operating costs of the airport; the local airport system; or other local facilities which are owned or operated by the owner or operator of the airport and which are directly and substantially related to the actual air transportation of passengers or property; or for noise mitigation purposes on or off the airport. The following exceptions apply to this paragraph:

1) If covenants or assurances in debt obligations issued before September 3, 1982, by the owner or operator of the airport, or provisions enacted before September 3, 1982, in governing statutes controlling the owner or operator's financing, provide for the use of the revenues from any of the airport owner or operator's facilities, including the airport, to support not only the airport but also the

airport owner or operator's general debt obligations or other facilities, then this limitation on the use of all revenues generated by the airport (and, in the case of a public airport, local taxes on aviation fuel) shall not apply.

2) If the Secretary approves the sale of a privately owned airport to a public sponsor and provides funding for any portion of the public sponsor's acquisition of land, this limitation on the use of all revenues generated by the sale shall not apply to certain proceeds from the sale. This is conditioned on repayment to the Secretary by the private owner of an amount equal to the remaining unamortized portion (amortized over a 20-year period) of any airport improvement grant made to the private owner for any purpose other than land acquisition on or after October 1, 1996, plus an amount equal to the federal share of the current fair market value of any land acquired with an airport improvement grant made to that airport on or after October 1, 1996.

3) Certain revenue derived from or generated by mineral extraction, production, lease, or other means at a general aviation airport (as defined at Section 47102 of title 49 United States Code), if the FAA determines the airport sponsor meets the requirements set forth in Sec. 813 of Public Law 112-95.

b. As part of the annual audit required under the Single Audit Act of 1984, the sponsor will direct that the audit will review, and the resulting audit report will provide an opinion concerning, the use of airport revenue and taxes in paragraph (a), and indicating whether funds paid or transferred to the owner or operator are paid or transferred in a manner consistent with Title 49, United States Code and any other applicable provision of law, including any regulation promulgated by the Secretary or Administrator.

c. Any civil penalties or other sanctions will be imposed for violation of this assurance in accordance with the provisions of Section 47107 of Title 49, United States Code.

26. Reports and Inspections. It will:

a. submit to the Secretary such annual or special financial and operations reports as the Secretary may reasonably request and make such reports available to the public; make available to the public at reasonable times and places a report of the airport budget in a format prescribed by the Secretary;

b. for airport development projects, make the airport and all airport records and documents affecting the airport, including deeds, leases, operation and use agreements, regulations and other instruments, available for inspection by any duly authorized agent of the Secretary upon reasonable request;

c. for noise compatibility program projects, make records and documents relating to the project and continued compliance with the terms,

conditions, and assurances of this grant agreement including deeds, leases, agreements, regulations, and other instruments, available for inspection by any duly authorized agent of the Secretary upon reasonable request; and

d. in a format and time prescribed by the Secretary, provide to the Secretary and make available to the public following each of its fiscal years, an annual report listing in detail:
   1) all amounts paid by the airport to any other unit of government and the purposes for which each such payment was made; and
   2) all services and property provided by the airport to other units of government and the amount of compensation received for provision of each such service and property.

27. **Use by Government Aircraft.** It will make available all of the facilities of the airport developed with Federal financial assistance and all those usable for landing and takeoff of aircraft to the United States for use by Government aircraft in common with other aircraft at all times without charge, except, if the use by Government aircraft is substantial, charge may be made for a reasonable share, proportional to such use, for the cost of operating and maintaining the facilities used. Unless otherwise determined by the Secretary, or otherwise agreed to by the sponsor and the using agency, substantial use of an airport by Government aircraft will be considered to exist when operations of such aircraft are in excess of those which, in the opinion of the Secretary, would unduly interfere with use of the landing areas by other authorized aircraft, or during any calendar month that –

   a. Five (5) or more Government aircraft are regularly based at the airport or on land adjacent thereto; or
   b. The total number of movements (counting each landing as a movement) of Government aircraft is 300 or more, or the gross accumulative weight of Government aircraft using the airport (the total movement of Government aircraft multiplied by gross weights of such aircraft) is in excess of five million pounds.

28. **Land for Federal Facilities.** It will furnish without cost to the Federal Government for use in connection with any air traffic control or air navigation activities, or weather-reporting and communication activities related to air traffic control, any areas of land or water, or estate therein, or rights in buildings of the sponsor as the Secretary considers necessary or desirable for construction, operation, and maintenance at Federal expense of space or facilities for such purposes. Such areas or any portion thereof will be made available as provided herein within four months after receipt of a written request from the Secretary.

29. **Airport Layout Plan.**

   a. It will keep up to date at all times an airport layout plan of the airport showing (1) boundaries of the airport and all proposed additions thereto, together with the boundaries of all offsite areas owned or controlled by the sponsor for airport purposes and proposed additions thereto; (2) the location and nature of all existing and proposed airport facilities and structures (such as runways, taxiways, aprons, terminal buildings, hangars

and roads), including all proposed extensions and reductions of existing airport facilities; (3) the location of all existing and proposed nonaviation areas and of all existing improvements thereon; and (4) all proposed and existing access points used to taxi aircraft across the airport's property boundary. Such airport layout plans and each amendment, revision, or modification thereof, shall be subject to the approval of the Secretary which approval shall be evidenced by the signature of a duly authorized representative of the Secretary on the face of the airport layout plan. The sponsor will not make or permit any changes or alterations in the airport or any of its facilities which are not in conformity with the airport layout plan as approved by the Secretary and which might, in the opinion of the Secretary, adversely affect the safety, utility or efficiency of the airport.

b. If a change or alteration in the airport or the facilities is made which the Secretary determines adversely affects the safety, utility, or efficiency of any federally owned, leased, or funded property on or off the airport and which is not in conformity with the airport layout plan as approved by the Secretary, the owner or operator will, if requested, by the Secretary (1) eliminate such adverse effect in a manner approved by the Secretary; or (2) bear all costs of relocating such property (or replacement thereof) to a site acceptable to the Secretary and all costs of restoring such property (or replacement thereof) to the level of safety, utility, efficiency, and cost of operation existing before the unapproved change in the airport or its facilities except in the case of a relocation or replacement of an existing airport facility due to a change in the Secretary's design standards beyond the control of the airport sponsor.

30. Civil Rights. It will comply with such rules as are promulgated to assure that no person shall, on the grounds of race, creed, color, national origin, sex, age, or handicap be excluded from participating in any activity conducted with or benefiting from funds received from this grant. This assurance obligates the sponsor for the period during which Federal financial assistance is extended to the program, except where Federal financial assistance is to provide, or is in the form of personal property or real property or interest therein or structures or improvements thereon in which case the assurance obligates the sponsor or any transferee for the longer of the following periods: (a) the period during which the property is used for a purpose for which Federal financial assistance is extended, or for another purpose involving the provision of similar services or benefits, or (b) the period during which the sponsor retains ownership or possession of the property.

31. Disposal of Land.

a. For land purchased under a grant for airport noise compatibility purposes, including land serving as a noise buffer, it will dispose of the land, when the land is no longer needed for such purposes, at fair market value, at the earliest practicable time. That portion of the proceeds of such disposition which is proportionate to the United States' share of acquisition of such land will be, at the discretion of the Secretary, (1) reinvested in another

project at the airport, or (2) transferred to another eligible airport as prescribed by the Secretary. The Secretary shall give preference to the following, in descending order, (1) reinvestment in an approved noise compatibility project, (2) reinvestment in an approved project that is eligible for grant funding under Section 47117(e) of title 49 United States Code, (3) reinvestment in an approved airport development project that is eligible for grant funding under Sections 47114, 47115, or 47117 of title 49 United States Code, (4) transferred to an eligible sponsor of another public airport to be reinvested in an approved noise compatibility project at that airport, and (5) paid to the Secretary for deposit in the Airport and Airway Trust Fund. If land acquired under a grant for noise compatibility purposes is leased at fair market value and consistent with noise buffering purposes, the lease will not be considered a disposal of the land. Revenues derived from such a lease may be used for an approved airport development project that would otherwise be eligible for grant funding or any permitted use of airport revenue.

b. For land purchased under a grant for airport development purposes (other than noise compatibility), it will, when the land is no longer needed for airport purposes, dispose of such land at fair market value or make available to the Secretary an amount equal to the United States' proportionate share of the fair market value of the land. That portion of the proceeds of such disposition which is proportionate to the United States' share of the cost of acquisition of such land will, (1) upon application to the Secretary, be reinvested or transferred to another eligible airport as prescribed by the Secretary. The Secretary shall give preference to the following, in descending order: (1) reinvestment in an approved noise compatibility project, (2) reinvestment in an approved project that is eligible for grant funding under Section 47117(e) of title 49 United States Code, (3) reinvestment in an approved airport development project that is eligible for grant funding under Sections 47114, 47115, or 47117 of title 49 United States Code, (4) transferred to an eligible sponsor of another public airport to be reinvested in an approved noise compatibility project at that airport, and (5) paid to the Secretary for deposit in the Airport and Airway Trust Fund.

c. Land shall be considered to be needed for airport purposes under this assurance if (1) it may be needed for aeronautical purposes (including runway protection zones) or serve as noise buffer land, and (2) the revenue from interim uses of such land contributes to the financial self-sufficiency of the airport. Further, land purchased with a grant received by an airport operator or owner before December 31, 1987, will be considered to be needed for airport purposes if the Secretary or Federal agency making such grant before December 31, 1987, was notified by the operator or owner of the uses of such land, did not object to such use, and the land continues to be used for that purpose, such use having commenced no later than December 15, 1989.

d. Disposition of such land under (a) (b) or (c) will be subject to the retention or reservation of any interest or right therein necessary to ensure that such land will only be used for purposes which are compatible with noise levels associated with operation of the airport.

32. **Engineering and Design Services.** It will award each contract, or sub-contract for program management, construction management, planning studies, feasibility studies, architectural services, preliminary engineering, design, engineering, surveying, mapping or related services with respect to the project in the same manner as a contract for architectural and engineering services is negotiated under Title IX of the Federal Property and Administrative Services Act of 1949 or an equivalent qualifications-based requirement **prescribed** for or by the sponsor of the airport.

33. **Foreign Market Restrictions.** It will not allow funds provided under this grant to be used to fund any project which uses any product or service of a foreign country during the period in which such foreign country is listed by the United States Trade Representative as denying fair and equitable market opportunities for products and suppliers of the United States in procurement and construction.

34. **Policies, Standards, and Specifications.** It will carry out the project in accordance with policies, standards, and specifications approved by the Secretary including but not limited to the advisory circulars listed in the Current FAA Advisory Circulars for AIP projects, dated 01/12/2012 and included in this grant, and in accordance with applicable state policies, standards, and specifications approved by the Secretary.

35. **Relocation and Real Property Acquisition.** (1) It will be guided in acquiring real property, to the greatest extent practicable under State law, by the land acquisition policies in Subpart B of 49 CFR Part 24 and will pay or reimburse property owners for necessary expenses as specified in Subpart B. (2) It will provide a relocation assistance program offering the services described in Subpart C and fair and reasonable relocation payments and assistance to displaced persons as required in Subpart D and E of 49 CFR Part 24. (3) It will make available within a reasonable period of time prior to displacement, comparable replacement dwellings to displaced persons in accordance with Subpart E of 49 CFR Part 24.

36. **Access By Intercity Buses.** The airport owner or operator will permit, to the maximum extent practicable, intercity buses or other modes of transportation to have access to the airport; however, it has no obligation to fund special facilities for intercity buses or for other modes of transportation.

37. **Disadvantaged Business Enterprises.** The recipient shall not discriminate on the basis of race, color, national origin or sex in the award and performance of any DOT-assisted contract or in the administration of its DBE program or the requirements of 49 CFR Part 26. The Recipient shall take all necessary and reasonable steps under 49 CFR Part 26 to ensure non discrimination in the award and administration of DOT-assisted contracts. The recipient's DBE program, as required by 49 CFR Part 26, and as approved by DOT, is incorporated by reference in this agreement. Implementation of this program is a legal obligation

and failure to carry out its terms shall be treated as a violation of this agreement. Upon notification to the recipient of its failure to carry out its approved program, the Department may impose sanctions as provided for under Part 26 and may, in appropriate cases, refer the matter for enforcement under 18 U.S.C. 1001 and/or the Program Fraud Civil Remedies Act of 1986 (31 U.S.C. 3801).

38. **Hangar Construction.** If the airport owner or operator and a person who owns an aircraft agree that a hangar is to be constructed at the airport for the aircraft at the aircraft owner's expense, the airport owner or operator will grant to the aircraft owner for the hangar a long term lease that is subject to such terms and conditions on the hangar as the airport owner or operator may impose.

39. **Competitive Access.**

a. If the airport owner or operator of a medium or large hub airport (as defined in section 47102 of title 49, U.S.C.) has been unable to accommodate one or more requests by an air carrier for access to gates or other facilities at that airport in order to allow the air carrier to provide service to the airport or to expand service at the airport, the airport owner or operator shall transmit a report to the Secretary that-

1) Describes the requests;
2) Provides an explanation as to why the requests could not be accommodated; and
3) Provides a time frame within which, if any, the airport will be able to accommodate the requests.

b. Such report shall be due on either February 1 or August 1 of each year if the airport has been unable to accommodate the request(s) in the six month period prior to the applicable due date.

A.B. WON PAT
INTERNATIONAL AIRPORT AUTHORITY, GUAM
OCT 01 2013
TIME: 3pm
REC'D BY:

Mr. Charles H. Ada II
Executive Manager
A. B. Won Pat Guam International
Airport Authority
P. O. Box 8770
Tamuning, GU 96931

Dear Mr. Ada:

We are enclosing two copies of the Grant Offer for Airport Improvement Program (AIP) Project No. 3-66-0001-087-2013 at Guam International Airport in Agana, Guam. This letter outlines expectations for success. Please read the conditions and assurances carefully.

To properly enter into this agreement, you must do the following:

- The official of the Sponsor authorized to accept the enclosed Grant Offer shall accept by signing said offer and inserting the date in the space provided under the "Acceptance" section. The Sponsor's attorney shall certify that the acceptance complies with all applicable laws and constitutes a legal and binding obligation of the Sponsor by executing the "Certificate of Sponsor's Attorney" section. The date of said certificate shall be the same as, or later than the date of acceptance. The grant execution, along with your attorney's certification, must be completed by September 20, 2013, in order for the grant to be valid.
- When the document is fully executed, certified, attested and appropriate seals are impressed, please return one (1) originally signed and dated copy of the executed Grant Agreement to this office. Retain the remaining copy for your files.

Subject to the requirements in 49 CFR 18.21, each payment request for reimbursement under this grant must be made electronically via the Delphi eInvoicing System. Please see the attached Grant Agreement for more information regarding the use of this System.

Please note Grant Condition No. 4 requires you to complete the project without undue delay. We will be paying close attention to your progress to ensure proper stewardship of these Federal funds. **You are required to submit a payment request for reimbursement for allowable incurred project expenses every 30 days.**

Should you fail to make draws on a regular basis, your grant may be placed in "inactive" status which will impact future grant offers.

Until the grant is completed and closed, you are responsible for submitting formal reports as follows:

- A signed/dated SF-270 (non-construction projects) or SF-271 or equivalent (construction projects) and SF-425 annually, due 90 days after the end of each federal fiscal year in which this grant is open (due December 31 of each year this grant is open); and
- Quarterly Progress Reports due every quarter.

Once the project(s) is completed and all costs are determined, we ask that you close the project without delay and submit, as a minimum, the following:

- Sponsor Certification for Project Final Acceptance; and
- Summary of all change orders and summary of all testing; and
- Final SF-270 or SF-271 (or equivalent) and SF-425.

Steve Wong, (808) 541-1225, is the assigned program manager for this grant and is readily available to assist you and your designated representative with the requirements stated herein. We sincerely value your cooperation in these efforts and look forward to working with you to complete this important project.

Sincerely,

Ronnie V. Simpson
Manager, Airports District Office

GRANT AGREEMENT

PART I – OFFER

September 16, 2013
Date of Offer
Guam International
(herein called the "Airport")
3-66-0001-087-2013
Grant No
855035531
DUNS No

TO: **The A. B. Won Pat Guam International Airport Authority**
(herein called the "Sponsor")

FROM: **The United States of America, acting through the Federal Aviation Administration**
(herein called the "FAA")

WHEREAS, the Sponsor has submitted to the FAA a Project Application dated April 25, 2013, for a grant of Federal funds for a project at or associated with the Guam International Airport, which Project Application, as approved by the FAA, is hereby incorporated herein and made a part hereof; and

WHEREAS, the FAA has approved a project for the Airport (or Planning Area) (herein called the "Project") consisting of the following:

Acquire one (1) 3,000-gallon Aircraft Rescue and Fire Fighting (ARFF) Vehicle

all as more particularly described in the Project Application.

NOW THEREFORE, pursuant to and for the purpose of carrying out the provisions of Title 49, United States Code, as amended, herein called "the Act," and in consideration of (a) the Sponsor's adoption and ratification of the representations and assurances contained in said Project Application and its acceptance of this Offer as hereinafter provided, and (b) the benefits to accrue to the United States and the public from the accomplishment of the Project and compliance with the assurances and conditions as herein provided, **THE FEDERAL AVIATION ADMINISTRATION, FOR AND ON BEHALF OF THE UNITED STATES, HEREBY OFFERS AND AGREES** to pay, as the United States' share of the allowable costs incurred in accomplishing the Project, one hundred (100) per centum thereof.

This Offer is made on and **SUBJECT TO THE FOLLOWING TERMS AND CONDITIONS:**

CONDITIONS

1. The maximum obligation of the United States payable under this Offer shall be $1,017,000.00. For the purposes of any future grant amendments which may increase the foregoing maximum obligation of the United States under the provisions of Section 47108(b) of the Act, the following amounts are being specified for this purpose:

   $ 0 for planning

   $ 1,017,000.00 for airport development or noise program implementation

2. The allowable costs of the project shall not include any costs determined by the FAA to be ineligible for consideration as to allowability under the Act.

3. Payment of the United States' share of the allowable project costs will be made pursuant to and in accordance with the provisions of such regulations and procedures as the Secretary shall prescribe. Final determination of the United States' share will be based upon the final audit of the total amount of allowable project costs and settlement will be made for any upward or downward adjustments to the Federal share of costs.

4. The Sponsor shall carry out and complete the Project without undue delays and in accordance with the terms hereof, and such regulations and procedures as the Secretary shall prescribe, and agrees to comply with the assurances which were made part of the project application.

5. The FAA reserves the right to amend or withdraw this offer at any time prior to its acceptance by the Sponsor.

6. This offer shall expire and the United States shall not be obligated to pay any part of the costs of the project unless this offer has been accepted by the Sponsor on or before September 20, 2013, or such subsequent date as may be prescribed in writing by the FAA.

7. The Sponsor shall take all steps, including litigation if necessary, to recover Federal funds spent fraudulently, wastefully, or in violation of Federal antitrust statutes, or misused in any other manner in any project upon which Federal funds have been expended. For the purposes of this grant agreement, the term "Federal funds" means funds however used or dispersed by the Sponsor that were originally paid pursuant to this or any other Federal grant agreement. It shall obtain the approval of the Secretary as to any determination of the amount of the Federal share of such funds. It shall return the recovered Federal share, including funds recovered by settlement, order, or judgment, to the Secretary. It shall furnish to the Secretary, upon request, all documents and records pertaining to the determination of the amount of the Federal share or to any settlement, litigation, negotiation, or other efforts taken to recover such funds. All settlements or other final positions of the Sponsor, in court or otherwise, involving the recovery of such Federal share shall be approved in advance by the Secretary.

8. The United States shall not be responsible or liable for damage to property or injury to persons which may arise from, or be incident to, compliance with this grant agreement.

9. **CENTRAL CONTRACTOR REGISTRATION AND UNIVERSAL IDENTIFIER REQUIREMENTS**

   A. Requirement for Central Contractor Registration (CCR)

   Unless you are exempted from this requirement under 2 CFR 25.110, you as the recipient must maintain the currency of your information in the CCR until you submit the final financial report required under this award or receive the final payment, whichever is later. This requires that you review and update the information at least annually after the initial registration and more frequently if required by changes in your information or another award term.

   B. Requirement for Data Universal Numbering System (DUNS) Numbers

   If you are authorized to make subawards under this award, you:

   1. Must notify potential subrecipients that no entity (see definition in paragraph C of this award term) may receive a subaward from you unless the entity has provided its DUNS number to you.

   2. May not make a subaward to an entity unless the entity has provided its DUNS number to you.

C. Definitions

For purposes of this award term:

1. Central Contractor Registration (CCR) means the Federal repository into which an entity must provide information required for the conduct of business as a recipient. Additional information about registration procedures may be found at the CCR Internet site (currently at https://www.sam.gov/portal/public/SAM/).

2. Data Universal Numbering System

DUNS number means the nine-digit number established and assigned by Dun and Bradstreet, Inc. (D & B) to uniquely identify business entities. A DUNS number may be obtained from D & B by telephone (currently 866–705–5711) or the Internet (currently at http://fedgov.dnb.com/webform).

3. Entity, as it is used in this award term, means all of the following, as defined at 2 CFR Part 25, Subpart C:

a. A Governmental organization, which is a State, local government, or Indian Tribe;

b. A foreign public entity;

c. A domestic or foreign nonprofit organization;

d. A domestic or foreign for-profit organization; and

e. A Federal agency, but only as a subrecipient under an award or subaward to a non-Federal entity.

4. Subaward:

a. This term means a legal instrument to provide support for the performance of any portion of the substantive project or program for which you received this award and that you as the recipient award to an eligible subrecipient.

b. The term does not include your procurement of property and services needed to carry out the project or program (for further explanation, see Sec. 210 of the attachment to OMB Circular A–133, "Audits of States, Local Governments, and Non-Profit Organizations"). A subaward may be provided through any legal agreement, including an agreement that you consider a contract.

5. Subrecipient means an entity that:

a. Receives a subaward from you under this award; and

b. Is accountable to you for the use of the Federal funds provided by the subaward.

c. A subaward may be provided through any legal agreement, including an agreement that you consider a contract.

10. **ELECTRONIC GRANT PAYMENT(S):** The requirements set forth in these terms and conditions supersede previous financial invoicing requirements for FAA grantees. Each payment request under this grant agreement must be made electronically via the Delphi eInvoicing System for Department of Transportation (DOT) Financial Assistance Awardees. The following are the procedures for accessing and utilizing the Delphi eInvoicing System.

A. Grant Recipient Requirements.
   (1) Grantees must have Internet access to register and submit payment requests through the Delphi eInvoicing system unless, under limited circumstances, a waiver is granted by the FAA and DOT under section (c) below.
   (2) Grantees must submit payment requests electronically and the FAA will process payment requests electronically.

B. System User Access.
   (1) Grantees must contact the FAA Airports District/Regional Office and officially submit a written request to sign up for the system. The FAA Office of Airports will provide the grantee's name, email address and telephone number to the DOT Financial Management Office. The DOT will then invite the grantee via email to sign up for the system and require the grantee to complete two forms. The grantee will complete a web based DOT registration form and download the Proof of Identification form to verify the grantee's identity.

(2) The grantee must complete the Proof of Identification form, and present it to a Notary Public for verification. The grantee will return the notarized form to:

DOT Enterprise Services Center

FAA Accounts Payable, AMZ-100

PO Box 25710

Oklahoma City, OK 73125

(3) The DOT will validate the both forms and email a user ID and password to the grantee. Grantees should contact the FAA Airports District/Regional Office with any changes to their system information.

Note: Additional information, including access forms and training materials, can be found on the DOT eInvoicing website (http://www.dot.gov/cfo/delphi-einvoicing-system.html).

C. Waivers. DOT Financial Management officials may, on a case by case basis, waive the requirement to register and use the electronic grant payment system based on user requests and concurrence of the FAA. Waiver request forms can be obtained on the DOT eInvoicing website (http://www.dot.gov/cfo/delphi-einvoicing-system.html) or by contacting the FAA Airports District/Regional Office. Recipients must explain why they are unable to use or access the Internet to register and enter payment requests.

(1) All waiver requests should be sent to the FAA Airports District/Regional Office for concurrence, prior to sending to the Director of the Office of Financial Management, US Department of Transportation, Office of Financial Management, B-30, room W93-431, 1200 New Jersey Avenue SE, Washington DC 20590-0001, DOTElectronicInvoicing@dot.gov. The Director of the DOT Office of Financial Management will confirm or deny the request within approximately 30 days.

(2) If a grantee is granted a waiver, the grantee should submit all hard-copy invoices directly to:

DOT/FAA

PO Box 25082

AMZ-110

Oklahoma City, OK 73125

11. **INFORMAL LETTER AMENDMENT OF AIP PROJECTS:** It is mutually understood and agreed that if, during the life of the project, the FAA determines that the maximum grant obligation of the United States exceeds the expected needs of the Sponsor by $25,000.00 or five percent (5%), whichever is greater, the maximum obligation of the United States can be unilaterally reduced by letter from the FAA advising of the budget change. Conversely, if there is an overrun in the total actual eligible and allowable project costs, FAA may increase the maximum grant obligation of the United States to cover the amount of the overrun not to exceed the statutory percent limitation and will advise the Sponsor by letter of the increase. It is further understood and agreed that if, during the life of the project, the FAA determines that a change in the grant description is advantageous and in the best interests of the United States, the change in grant description will be unilaterally amended by letter from the FAA. Upon issuance of the aforementioned letter, either the grant obligation of the United States is adjusted to the amount specified or the grant description is amended to the description specified.

12. **AIR AND WATER QUALITY:** Approval of the project included in this agreement is conditioned on the Sponsor's compliance with applicable air and water quality standards in accomplishing project construction. Failure to comply with this requirement may result in suspension, cancellation, or termination of Federal assistance under this agreement.

13. **BUY AMERICAN REQUIREMENT:** Unless otherwise approved by the FAA, the Sponsor will not acquire or permit any contractor or subcontractor to acquire any steel or manufactured products produced outside the United States to be used for any project for airport development or noise compatibility for which funds are provided under this grant. The Sponsor will include in every contract a provision implementing this special condition.

14. **MAXIMUM OBLIGATION INCREASE FOR PRIMARY AIRPORTS:** In accordance with Section 47108(b) of the Act, as amended, the maximum obligation of the United States, as stated in Condition No. 1 of this Grant Offer

    a. may not be increased for a planning project;

    b. may be increased by not more than 15 percent for development projects;

    c. may be increased by not more than 15 percent for land projects.

15. **AIRCRAFT RESCUE AND FIRE FIGHTING VEHICLE:** It is understood and agreed by and between the parties hereto that the aircraft rescue and fire fighting vehicle included in the Grant Agreement will be operated and maintained during its useful life so as to assure continued performance in accordance with its design capability and so as to comply with Sections 139.317 and 139.319 of the Federal Aviation Regulations. Further, it is understood and agreed that such equipment will be based on the airport or so as to meet regulatory minimum response times and will be utilized exclusively to serve airport purposes or emergency situations.

The Sponsor's acceptance of this Offer and ratification and adoption of the Project Application incorporated herein shall be evidenced by execution of this instrument by the Sponsor, as hereinafter provided, and this Offer and Acceptance shall comprise a Grant Agreement, as provided by the Act, constituting the contractual obligations and rights of the United States and the Sponsor with respect to the accomplishment of the Project and compliance with the assurances and conditions as provided herein. Such Grant Agreement shall become effective upon the Sponsor's acceptance of this Offer.

PART II - ACCEPTANCE

The Sponsor does hereby ratify and adopt all assurances, statements, representations, warranties, covenants, and agreements contained in the Project Application and incorporated materials referred to in the foregoing Offer and does hereby accept this Offer and by such acceptance agrees to comply with all of the terms and conditions in this Offer and in the Project Application. I declare under penalty of perjury that the foregoing is true and correct. [1]

CERTIFICATE OF SPONSOR'S ATTORNEY

I, Janalynn Cruz Damian, acting as Attorney for the Sponsor do hereby certify:

That in my opinion the Sponsor is empowered to enter into the foregoing Grant Agreement under the laws of the Territory of Guam. Further, I have examined the foregoing Grant Agreement and the actions taken by said Sponsor and Sponsor's official representative has been duly authorized and that the execution thereof is in all respects due and proper and in accordance with the laws of the said State and the Act. In addition, for grants involving projects to be carried out on property not owned by the Sponsor, there are no legal impediments that will prevent full performance by the Sponsor. Further, it is my opinion that the said Grant Agreement constitutes a legal and binding obligation of the Sponsor in accordance with the terms thereof.

Dated at HAGATNA, GUAM this 20th day of September, 2013.

ASSURANCES
Airport Sponsors

A. General.

1. These assurances shall be complied with in the performance of grant agreements for airport development, airport planning, and noise compatibility program grants for airport sponsors.

2. These assurances are required to be submitted as part of the project application by sponsors requesting funds under the provisions of Title 49, U.S.C., subtitle VII, as amended. As used herein, the term "public agency sponsor" means a public agency with control of a public-use airport; the term "private sponsor" means a private owner of a public-use airport; and the term "sponsor" includes both public agency sponsors and private sponsors.

3. Upon acceptance of this grant offer by the sponsor, these assurances are incorporated in and become part of this grant agreement.

B. Duration and Applicability.

1. **Airport development or Noise Compatibility Program Projects Undertaken by a Public Agency Sponsor.** The terms, conditions and assurances of this grant agreement shall remain in full force and effect throughout the useful life of the facilities developed or equipment acquired for an airport development or noise compatibility program project, or throughout the useful life of the project items installed within a facility under a noise compatibility program project, but in any event not to exceed twenty (20) years from the date of acceptance of a grant offer of Federal funds for the project. However, there shall be no limit on the duration of the assurances regarding Exclusive Rights and Airport Revenue so long as the airport is used as an airport. There shall be no limit on the duration of the terms, conditions, and assurances with respect to real property acquired with federal funds. Furthermore, the duration of the Civil Rights assurance shall be specified in the assurances.

2. **Airport Development or Noise Compatibility Projects Undertaken by a Private Sponsor.** The preceding paragraph 1 also applies to a private sponsor except that the useful life of project items installed within a facility or the useful life of the facilities developed or equipment acquired under an airport development or noise compatibility program project shall be no less than ten (10) years from the date of acceptance of Federal aid for the project.

3. **Airport Planning Undertaken by a Sponsor.** Unless otherwise specified in this grant agreement, only Assurances 1, 2, 3, 5, 6, 13, 18, 30, 32, 33, and 34 in section C apply to planning projects. The terms, conditions, and assurances of this grant agreement shall remain in full force and effect during the life of the project.

C. **Sponsor Certification.** The sponsor hereby assures and certifies, with respect to this grant that:

1. **General Federal Requirements.** It will comply with all applicable Federal laws, regulations, executive orders, policies, guidelines, and requirements as they relate to the application, acceptance and use of Federal funds for this project including but not limited to the following:

Federal Legislation

a. Title 49, U.S.C., subtitle VII, as amended.
b. Davis-Bacon Act - 40 U.S.C. 276(a), et seq.[1]

l. 49 CFR Part 24 - Uniform relocation assistance and real property acquisition for Federal and federally assisted programs.[1] [2]
m. 49 CFR Part 26 – Participation By Disadvantaged Business Enterprises in Department of Transportation Programs.
n. 49 CFR Part 27 - Nondiscrimination on the basis of handicap in programs and activities receiving or benefiting from Federal financial assistance.[1]
o. 49 CFR Part 29 – Government wide debarment and suspension (nonprocurement) and government wide requirements for drug-free workplace (grants).
p. 49 CFR Part 30 - Denial of public works contracts to suppliers of goods and services of countries that deny procurement market access to U.S. contractors.
q. 49 CFR Part 41 - Seismic safety of Federal and federally assisted or regulated new building construction.[1]

Office of Management and Budget Circulars

a. A-87 - Cost Principles Applicable to Grants and Contracts with State and Local Governments.
b. A-133 - Audits of States, Local Governments, and Non-Profit Organizations

[1] These laws do not apply to airport planning sponsors.

[2] These laws do not apply to private sponsors.

[3] 49 CFR Part 18 and OMB Circular A-87 contain requirements for State and Local Governments receiving Federal assistance. Any requirement levied upon State and Local Governments by this regulation and circular shall also be applicable to private sponsors receiving Federal assistance under Title 49, United States Code.

Specific assurances required to be included in grant agreements by any of the above laws, regulations or circulars are incorporated by reference in this grant agreement.

2. **Responsibility and Authority of the Sponsor.**

   a. **Public Agency Sponsor:** It has legal authority to apply for this grant, and to finance and carry out the proposed project; that a resolution, motion or similar action has been duly adopted or passed as an official act of the applicant's governing body authorizing the filing of the application, including all understandings and assurances contained therein, and directing and authorizing the person identified as the official representative of the applicant to act in connection with the application and to provide such additional information as may be required.

   b. **Private Sponsor:** It has legal authority to apply for this grant and to finance and carry out the proposed project and comply with all terms, conditions, and assurances of this grant agreement. It shall designate an official representative and shall in writing direct and authorize that person to file this application, including all understandings and assurances contained therein; to act in connection with this application; and to provide such additional information as may be required.

3. **Sponsor Fund Availability.** It has sufficient funds available for that portion of the project costs which are not to be paid by the United States. It has sufficient funds available to assure operation and maintenance of items funded under this grant agreement which it will own or control.

4. **Good Title.**

   a. It, a public agency or the Federal government, holds good title, satisfactory to the Secretary, to the landing area of the airport or site thereof, or will give assurance satisfactory to the Secretary that good title will be acquired.

   b. For noise compatibility program projects to be carried out on the property of the sponsor, it holds good title satisfactory to the Secretary to that portion of the property upon which Federal funds will be expended or will give assurance to the Secretary that good title will be obtained.

5. **Preserving Rights and Powers.**

   a. It will not take or permit any action which would operate to deprive it of any of the rights and powers necessary to perform any or all of the terms, conditions, and assurances in this grant agreement without the written approval of the Secretary, and will act promptly to acquire, extinguish or

modify any outstanding rights or claims of right of others which would interfere with such performance by the sponsor. This shall be done in a manner acceptable to the Secretary.

b. It will not sell, lease, encumber, or otherwise transfer or dispose of any part of its title or other interests in the property shown on Exhibit A to this application or, for a noise compatibility program project, that portion of the property upon which Federal funds have been expended, for the duration of the terms, conditions, and assurances in this grant agreement without approval by the Secretary. If the transferee is found by the Secretary to be eligible under Title 49, United States Code, to assume the obligations of this grant agreement and to have the power, authority, and financial resources to carry out all such obligations, the sponsor shall insert in the contract or document transferring or disposing of the sponsor's interest, and make binding upon the transferee all of the terms, conditions, and assurances contained in this grant agreement.

c. For all noise compatibility program projects which are to be carried out by another unit of local government or are on property owned by a unit of local government other than the sponsor, it will enter into an agreement with that government. Except as otherwise specified by the Secretary, that agreement shall obligate that government to the same terms, conditions, and assurances that would be applicable to it if it applied directly to the FAA for a grant to undertake the noise compatibility program project. That agreement and changes thereto must be satisfactory to the Secretary. It will take steps to enforce this agreement against the local government if there is substantial non-compliance with the terms of the agreement.

d. For noise compatibility program projects to be carried out on privately owned property, it will enter into an agreement with the owner of that property which includes provisions specified by the Secretary. It will take steps to enforce this agreement against the property owner whenever there is substantial non-compliance with the terms of the agreement.

e. If the sponsor is a private sponsor, it will take steps satisfactory to the Secretary to ensure that the airport will continue to function as a public-use airport in accordance with these assurances for the duration of these assurances.

f. If an arrangement is made for management and operation of the airport by any agency or person other than the sponsor or an employee of the sponsor, the sponsor will reserve sufficient rights and authority to insure that the airport will be operated and maintained in accordance Title 49, United States Code, the regulations and the terms, conditions and assurances in this grant agreement and shall insure that such arrangement also requires compliance therewith.

g. Sponsors of commercial service airports will not permit or enter into any arrangement that results in permission for the owner or tenant of a property used as a residence, or zoned for residential use, to taxi an aircraft between that property and any location on airport. Sponsors of general aviation airports entering into any arrangement that results in

permission for the owner of residential real property adjacent to or near the airport must comply with the requirements of Sec. 136 of Public Law 112-95 and the sponsor assurances.

6. **Consistency with Local Plans.** The project is reasonably consistent with plans (existing at the time of submission of this application) of public agencies that are authorized by the State in which the project is located to plan for the development of the area surrounding the airport.

7. **Consideration of Local Interest.** It has given fair consideration to the interest of communities in or near where the project may be located.

8. **Consultation with Users.** In making a decision to undertake any airport development project under Title 49, United States Code, it has undertaken reasonable consultations with affected parties using the airport at which project is proposed.

9. **Public Hearings.** In projects involving the location of an airport, an airport runway, or a major runway extension, it has afforded the opportunity for public hearings for the purpose of considering the economic, social, and environmental effects of the airport or runway location and its consistency with goals and objectives of such planning as has been carried out by the community and it shall, when requested by the Secretary, submit a copy of the transcript of such hearings to the Secretary. Further, for such projects, it has on its management board either voting representation from the communities where the project is located or has advised the communities that they have the right to petition the Secretary concerning a proposed project.

10. **Air and Water Quality Standards.** In projects involving airport location, a major runway extension, or runway location it will provide for the Governor of the state in which the project is located to certify in writing to the Secretary that the project will be located, designed, constructed, and operated so as to comply with applicable air and water quality standards. In any case where such standards have not been approved and where applicable air and water quality standards have been promulgated by the Administrator of the Environmental Protection Agency, certification shall be obtained from such Administrator. Notice of certification or refusal to certify shall be provided within sixty days after the project application has been received by the Secretary.

11. **Pavement Preventive Maintenance.** With respect to a project approved after January 1, 1995, for the replacement or reconstruction of pavement at the airport, it assures or certifies that it has implemented an effective airport pavement maintenance-management program and it assures that it will use such program for the useful life of any pavement constructed, reconstructed or repaired with Federal financial assistance at the airport. It will provide such reports on pavement condition and pavement management programs as the Secretary determines may be useful.

12. **Terminal Development Prerequisites.** For projects which include terminal development at a public use airport, as defined in Title 49, it has, on the date of

submittal of the project grant application, all the safety equipment required for certification of such airport under section 44706 of Title 49, United States Code, and all the security equipment required by rule or regulation, and has provided for access to the passenger enplaning and deplaning area of such airport to passengers enplaning and deplaning from aircraft other than air carrier aircraft.

13. **Accounting System, Audit, and Record Keeping Requirements.**

    a. It shall keep all project accounts and records which fully disclose the amount and disposition by the recipient of the proceeds of this grant, the total cost of the project in connection with which this grant is given or used, and the amount or nature of that portion of the cost of the project supplied by other sources, and such other financial records pertinent to the project. The accounts and records shall be kept in accordance with an accounting system that will facilitate an effective audit in accordance with the Single Audit Act of 1984.

    b. It shall make available to the Secretary and the Comptroller General of the United States, or any of their duly authorized representatives, for the purpose of audit and examination, any books, documents, papers, and records of the recipient that are pertinent to this grant. The Secretary may require that an appropriate audit be conducted by a recipient. In any case in which an independent audit is made of the accounts of a sponsor relating to the disposition of the proceeds of a grant or relating to the project in connection with which this grant was given or used, it shall file a certified copy of such audit with the Comptroller General of the United States not later than six (6) months following the close of the fiscal year for which the audit was made.

14. **Minimum Wage Rates.** It shall include, in all contracts in excess of $2,000 for work on any projects funded under this grant agreement which involve labor, provisions establishing minimum rates of wages, to be predetermined by the Secretary of Labor, in accordance with the Davis-Bacon Act, as amended (40 U.S.C. 276a-276a-5), which contractors shall pay to skilled and unskilled labor, and such minimum rates shall be stated in the invitation for bids and shall be included in proposals or bids for the work.

15. **Veteran's Preference.** It shall include in all contracts for work on any project funded under this grant agreement which involve labor, such provisions as are necessary to insure that, in the employment of labor (except in executive, administrative, and supervisory positions), preference shall be given to Vietnam era veterans, Persian Gulf veterans, Afghanistan-Iraq war veterans, disabled veterans, and small business concerns owned and controlled by disabled veterans as defined in Section 47112 of Title 49, United States Code. However, this preference shall apply only where the individuals are available and qualified to perform the work to which the employment relates.

16. **Conformity to Plans and Specifications.** It will execute the project subject to plans, specifications, and schedules approved by the Secretary. Such plans, specifications, and schedules shall be submitted to the Secretary prior to

commencement of site preparation, construction, or other performance under this grant agreement, and, upon approval of the Secretary, shall be incorporated into this grant agreement. Any modification to the approved plans, specifications, and schedules shall also be subject to approval of the Secretary, and incorporated into this grant agreement.

17. **Construction Inspection and Approval.** It will provide and maintain competent technical supervision at the construction site throughout the project to assure that the work conforms to the plans, specifications, and schedules approved by the Secretary for the project. It shall subject the construction work on any project contained in an approved project application to inspection and approval by the Secretary and such work shall be in accordance with regulations and procedures prescribed by the Secretary. Such regulations and procedures shall require such cost and progress reporting by the sponsor or sponsors of such project as the Secretary shall deem necessary.

18. **Planning Projects.** In carrying out planning projects:

    a. It will execute the project in accordance with the approved program narrative contained in the project application or with the modifications similarly approved.
    b. It will furnish the Secretary with such periodic reports as required pertaining to the planning project and planning work activities.
    c. It will include in all published material prepared in connection with the planning project a notice that the material was prepared under a grant provided by the United States.
    d. It will make such material available for examination by the public, and agrees that no material prepared with funds under this project shall be subject to copyright in the United States or any other country.
    e. It will give the Secretary unrestricted authority to publish, disclose, distribute, and otherwise use any of the material prepared in connection with this grant.
    f. It will grant the Secretary the right to disapprove the sponsor's employment of specific consultants and their subcontractors to do all or any part of this project as well as the right to disapprove the proposed scope and cost of professional services.
    g. It will grant the Secretary the right to disapprove the use of the sponsor's employees to do all or any part of the project.
    h. It understands and agrees that the Secretary's approval of this project grant or the Secretary's approval of any planning material developed as part of this grant does not constitute or imply any assurance or commitment on the part of the Secretary to approve any pending or future application for a Federal airport grant.

19. **Operation and Maintenance.**

    a. The airport and all facilities which are necessary to serve the aeronautical users of the airport, other than facilities owned or controlled by the United States, shall be operated at all times in a safe and serviceable condition

and in accordance with the minimum standards as may be required or prescribed by applicable Federal, state and local agencies for maintenance and operation. It will not cause or permit any activity or action thereon which would interfere with its use for airport purposes. It will suitably operate and maintain the airport and all facilities thereon or connected therewith, with due regard to climatic and flood conditions. Any proposal to temporarily close the airport for non-aeronautical purposes must first be approved by the Secretary. In furtherance of this assurance, the sponsor will have in effect arrangements for-

1) Operating the airport's aeronautical facilities whenever required;
2) Promptly marking and lighting hazards resulting from airport conditions, including temporary conditions; and
3) Promptly notifying airmen of any condition affecting aeronautical use of the airport. Nothing contained herein shall be construed to require that the airport be operated for aeronautical use during temporary periods when snow, flood or other climatic conditions interfere with such operation and maintenance. Further, nothing herein shall be construed as requiring the maintenance, repair, restoration, or replacement of any structure or facility which is substantially damaged or destroyed due to an act of God or other condition or circumstance beyond the control of the sponsor.

b. It will suitably operate and maintain noise compatibility program items that it owns or controls upon which Federal funds have been expended.

20. **Hazard Removal and Mitigation.** It will take appropriate action to assure that such terminal airspace as is required to protect instrument and visual operations to the airport (including established minimum flight altitudes) will be adequately cleared and protected by removing, lowering, relocating, marking, or lighting or otherwise mitigating existing airport hazards and by preventing the establishment or creation of future airport hazards.

21. **Compatible Land Use.** It will take appropriate action, to the extent reasonable, including the adoption of zoning laws, to restrict the use of land adjacent to or in the immediate vicinity of the airport to activities and purposes compatible with normal airport operations, including landing and takeoff of aircraft. In addition, if the project is for noise compatibility program implementation, it will not cause or permit any change in land use, within its jurisdiction, that will reduce its compatibility, with respect to the airport, of the noise compatibility program measures upon which Federal funds have been expended.

22. **Economic Nondiscrimination.**

a. It will make the airport available as an airport for public use on reasonable terms and without unjust discrimination to all types, kinds and classes of aeronautical activities, including commercial aeronautical activities offering services to the public at the airport.

b. In any agreement, contract, lease, or other arrangement under which a right or privilege at the airport is granted to any person, firm, or corporation to conduct or to engage in any aeronautical activity for

furnishing services to the public at the airport, the sponsor will insert and enforce provisions requiring the contractor to-

1) furnish said services on a reasonable, and not unjustly discriminatory, basis to all users thereof, and
2) charge reasonable, and not unjustly discriminatory, prices for each unit or service, provided that the contractor may be allowed to make reasonable and nondiscriminatory discounts, rebates, or other similar types of price reductions to volume purchasers.

c. Each fixed-based operator at the airport shall be subject to the same rates, fees, rentals, and other charges as are uniformly applicable to all other fixed-based operators making the same or similar uses of such airport and utilizing the same or similar facilities.

d. Each air carrier using such airport shall have the right to service itself or to use any fixed-based operator that is authorized or permitted by the airport to serve any air carrier at such airport.

e. Each air carrier using such airport (whether as a tenant, non tenant, or subtenant of another air carrier tenant) shall be subject to such nondiscriminatory and substantially comparable rules, regulations, conditions, rates, fees, rentals, and other charges with respect to facilities directly and substantially related to providing air transportation as are applicable to all such air carriers which make similar use of such airport and utilize similar facilities, subject to reasonable classifications such as tenants or non tenants and signatory carriers and non signatory carriers. Classification or status as tenant or signatory shall not be unreasonably withheld by any airport provided an air carrier assumes obligations substantially similar to those already imposed on air carriers in such classification or status.

f. It will not exercise or grant any right or privilege which operates to prevent any person, firm, or corporation operating aircraft on the airport from performing any services on its own aircraft with its own employees [including, but not limited to maintenance, repair, and fueling] that it may choose to perform.

g. In the event the sponsor itself exercises any of the rights and privileges referred to in this assurance, the services involved will be provided on the same conditions as would apply to the furnishing of such services by commercial aeronautical service providers authorized by the sponsor under these provisions.

h. The sponsor may establish such reasonable, and not unjustly discriminatory, conditions to be met by all users of the airport as may be necessary for the safe and efficient operation of the airport.

i. The sponsor may prohibit or limit any given type, kind or class of aeronautical use of the airport if such action is necessary for the safe operation of the airport or necessary to serve the civil aviation needs of the public.

23. **Exclusive Rights.** It will permit no exclusive right for the use of the airport by any person providing, or intending to provide, aeronautical services to the public.

For purposes of this paragraph, the providing of the services at an airport by a single fixed-based operator shall not be construed as an exclusive right if both of the following apply:

a. It would be unreasonably costly, burdensome, or impractical for more than one fixed-based operator to provide such services, and

b. If allowing more than one fixed-based operator to provide such services would require the reduction of space leased pursuant to an existing agreement between such single fixed-based operator and such airport. It further agrees that it will not, either directly or indirectly, grant or permit any person, firm, or corporation, the exclusive right at the airport to conduct any aeronautical activities, including, but not limited to charter flights, pilot training, aircraft rental and sightseeing, aerial photography, crop dusting, aerial advertising and surveying, air carrier operations, aircraft sales and services, sale of aviation petroleum products whether or not conducted in conjunction with other aeronautical activity, repair and maintenance of aircraft, sale of aircraft parts, and any other activities which because of their direct relationship to the operation of aircraft can be regarded as an aeronautical activity, and that it will terminate any exclusive right to conduct an aeronautical activity now existing at such an airport before the grant of any assistance under Title 49, United States Code.

24. **Fee and Rental Structure.** It will maintain a fee and rental structure for the facilities and services at the airport which will make the airport as self-sustaining as possible under the circumstances existing at the particular airport, taking into account such factors as the volume of traffic and economy of collection. No part of the Federal share of an airport development, airport planning or noise compatibility project for which a grant is made under Title 49, United States Code, the Airport and Airway Improvement Act of 1982, the Federal Airport Act or the Airport and Airway Development Act of 1970 shall be included in the rate basis in establishing fees, rates, and charges for users of that airport.

25. **Airport Revenues.**

a. All revenues generated by the airport and any local taxes on aviation fuel established after December 30, 1987, will be expended by it for the capital or operating costs of the airport; the local airport system; or other local facilities which are owned or operated by the owner or operator of the airport and which are directly and substantially related to the actual air transportation of passengers or property; or for noise mitigation purposes on or off the airport. The following exceptions apply to this paragraph:

1) If covenants or assurances in debt obligations issued before September 3, 1982, by the owner or operator of the airport, or provisions enacted before September 3, 1982, in governing statutes controlling the owner or operator's financing, provide for the use of the revenues from any of the airport owner or operator's facilities, including the airport, to support not only the airport but also the

airport owner or operator's general debt obligations or other facilities, then this limitation on the use of all revenues generated by the airport (and, in the case of a public airport, local taxes on aviation fuel) shall not apply.

2) If the Secretary approves the sale of a privately owned airport to a public sponsor and provides funding for any portion of the public sponsor's acquisition of land, this limitation on the use of all revenues generated by the sale shall not apply to certain proceeds from the sale. This is conditioned on repayment to the Secretary by the private owner of an amount equal to the remaining unamortized portion (amortized over a 20-year period) of any airport improvement grant made to the private owner for any purpose other than land acquisition on or after October 1, 1996, plus an amount equal to the federal share of the current fair market value of any land acquired with an airport improvement grant made to that airport on or after October 1, 1996.

3) Certain revenue derived from or generated by mineral extraction, production, lease, or other means at a general aviation airport (as defined at Section 47102 of title 49 United States Code), if the FAA determines the airport sponsor meets the requirements set forth in Sec. 813 of Public Law 112-95.

b. As part of the annual audit required under the Single Audit Act of 1984, the sponsor will direct that the audit will review, and the resulting audit report will provide an opinion concerning, the use of airport revenue and taxes in paragraph (a), and indicating whether funds paid or transferred to the owner or operator are paid or transferred in a manner consistent with Title 49, United States Code and any other applicable provision of law, including any regulation promulgated by the Secretary or Administrator.

c. Any civil penalties or other sanctions will be imposed for violation of this assurance in accordance with the provisions of Section 47107 of Title 49, United States Code.

26. Reports and Inspections. It will:

a. submit to the Secretary such annual or special financial and operations reports as the Secretary may reasonably request and make such reports available to the public; make available to the public at reasonable times and places a report of the airport budget in a format prescribed by the Secretary;

b. for airport development projects, make the airport and all airport records and documents affecting the airport, including deeds, leases, operation and use agreements, regulations and other instruments, available for inspection by any duly authorized agent of the Secretary upon reasonable request;

c. for noise compatibility program projects, make records and documents relating to the project and continued compliance with the terms,

conditions, and assurances of this grant agreement including deeds, leases, agreements, regulations, and other instruments, available for inspection by any duly authorized agent of the Secretary upon reasonable request; and

d. in a format and time prescribed by the Secretary, provide to the Secretary and make available to the public following each of its fiscal years, an annual report listing in detail:
   1) all amounts paid by the airport to any other unit of government and the purposes for which each such payment was made; and
   2) all services and property provided by the airport to other units of government and the amount of compensation received for provision of each such service and property.

27. **Use by Government Aircraft.** It will make available all of the facilities of the airport developed with Federal financial assistance and all those usable for landing and takeoff of aircraft to the United States for use by Government aircraft in common with other aircraft at all times without charge, except, if the use by Government aircraft is substantial, charge may be made for a reasonable share, proportional to such use, for the cost of operating and maintaining the facilities used. Unless otherwise determined by the Secretary, or otherwise agreed to by the sponsor and the using agency, substantial use of an airport by Government aircraft will be considered to exist when operations of such aircraft are in excess of those which, in the opinion of the Secretary, would unduly interfere with use of the landing areas by other authorized aircraft, or during any calendar month that –

   a. Five (5) or more Government aircraft are regularly based at the airport or on land adjacent thereto; or
   b. The total number of movements (counting each landing as a movement) of Government aircraft is 300 or more, or the gross accumulative weight of Government aircraft using the airport (the total movement of Government aircraft multiplied by gross weights of such aircraft) is in excess of five million pounds.

28. **Land for Federal Facilities.** It will furnish without cost to the Federal Government for use in connection with any air traffic control or air navigation activities, or weather-reporting and communication activities related to air traffic control, any areas of land or water, or estate therein, or rights in buildings of the sponsor as the Secretary considers necessary or desirable for construction, operation, and maintenance at Federal expense of space or facilities for such purposes. Such areas or any portion thereof will be made available as provided herein within four months after receipt of a written request from the Secretary.

29. **Airport Layout Plan.**

   a. It will keep up to date at all times an airport layout plan of the airport showing (1) boundaries of the airport and all proposed additions thereto, together with the boundaries of all offsite areas owned or controlled by the sponsor for airport purposes and proposed additions thereto; (2) the location and nature of all existing and proposed airport facilities and structures (such as runways, taxiways, aprons, terminal buildings, hangars

and roads), including all proposed extensions and reductions of existing airport facilities; (3) the location of all existing and proposed nonaviation areas and of all existing improvements thereon; and (4) all proposed and existing access points used to taxi aircraft across the airport's property boundary. Such airport layout plans and each amendment, revision, or modification thereof, shall be subject to the approval of the Secretary which approval shall be evidenced by the signature of a duly authorized representative of the Secretary on the face of the airport layout plan. The sponsor will not make or permit any changes or alterations in the airport or any of its facilities which are not in conformity with the airport layout plan as approved by the Secretary and which might, in the opinion of the Secretary, adversely affect the safety, utility or efficiency of the airport.

b. If a change or alteration in the airport or the facilities is made which the Secretary determines adversely affects the safety, utility, or efficiency of any federally owned, leased, or funded property on or off the airport and which is not in conformity with the airport layout plan as approved by the Secretary, the owner or operator will, if requested, by the Secretary (1) eliminate such adverse effect in a manner approved by the Secretary; or (2) bear all costs of relocating such property (or replacement thereof) to a site acceptable to the Secretary and all costs of restoring such property (or replacement thereof) to the level of safety, utility, efficiency, and cost of operation existing before the unapproved change in the airport or its facilities except in the case of a relocation or replacement of an existing airport facility due to a change in the Secretary's design standards beyond the control of the airport sponsor.

30. Civil Rights. It will comply with such rules as are promulgated to assure that no person shall, on the grounds of race, creed, color, national origin, sex, age, or handicap be excluded from participating in any activity conducted with or benefiting from funds received from this grant. This assurance obligates the sponsor for the period during which Federal financial assistance is extended to the program, except where Federal financial assistance is to provide, or is in the form of personal property or real property or interest therein or structures or improvements thereon in which case the assurance obligates the sponsor or any transferee for the longer of the following periods: (a) the period during which the property is used for a purpose for which Federal financial assistance is extended, or for another purpose involving the provision of similar services or benefits, or (b) the period during which the sponsor retains ownership or possession of the property.

31. Disposal of Land.

a. For land purchased under a grant for airport noise compatibility purposes, including land serving as a noise buffer, it will dispose of the land, when the land is no longer needed for such purposes, at fair market value, at the earliest practicable time. That portion of the proceeds of such disposition which is proportionate to the United States' share of acquisition of such land will be, at the discretion of the Secretary, (1) reinvested in another

project at the airport, or (2) transferred to another eligible airport as prescribed by the Secretary. The Secretary shall give preference to the following, in descending order, (1) reinvestment in an approved noise compatibility project, (2) reinvestment in an approved project that is eligible for grant funding under Section 47117(e) of title 49 United States Code, (3) reinvestment in an approved airport development project that is eligible for grant funding under Sections 47114, 47115, or 47117 of title 49 United States Code, (4) transferred to an eligible sponsor of another public airport to be reinvested in an approved noise compatibility project at that airport, and (5) paid to the Secretary for deposit in the Airport and Airway Trust Fund. If land acquired under a grant for noise compatibility purposes is leased at fair market value and consistent with noise buffering purposes, the lease will not be considered a disposal of the land. Revenues derived from such a lease may be used for an approved airport development project that would otherwise be eligible for grant funding or any permitted use of airport revenue.

b. For land purchased under a grant for airport development purposes (other than noise compatibility), it will, when the land is no longer needed for airport purposes, dispose of such land at fair market value or make available to the Secretary an amount equal to the United States' proportionate share of the fair market value of the land. That portion of the proceeds of such disposition which is proportionate to the United States' share of the cost of acquisition of such land will, (1) upon application to the Secretary, be reinvested or transferred to another eligible airport as prescribed by the Secretary. The Secretary shall give preference to the following, in descending order: (1) reinvestment in an approved noise compatibility project, (2) reinvestment in an approved project that is eligible for grant funding under Section 47117(e) of title 49 United States Code, (3) reinvestment in an approved airport development project that is eligible for grant funding under Sections 47114, 47115, or 47117 of title 49 United States Code, (4) transferred to an eligible sponsor of another public airport to be reinvested in an approved noise compatibility project at that airport, and (5) paid to the Secretary for deposit in the Airport and Airway Trust Fund.

c. Land shall be considered to be needed for airport purposes under this assurance if (1) it may be needed for aeronautical purposes (including runway protection zones) or serve as noise buffer land, and (2) the revenue from interim uses of such land contributes to the financial self-sufficiency of the airport. Further, land purchased with a grant received by an airport operator or owner before December 31, 1987, will be considered to be needed for airport purposes if the Secretary or Federal agency making such grant before December 31, 1987, was notified by the operator or owner of the uses of such land, did not object to such use, and the land continues to be used for that purpose, such use having commenced no later than December 15, 1989.

d. Disposition of such land under (a) (b) or (c) will be subject to the retention or reservation of any interest or right therein necessary to ensure that such land will only be used for purposes which are compatible with noise levels associated with operation of the airport.

32. **Engineering and Design Services.** It will award each contract, or sub-contract for program management, construction management, planning studies, feasibility studies, architectural services, preliminary engineering, design, engineering, surveying, mapping or related services with respect to the project in the same manner as a contract for architectural and engineering services is negotiated under Title IX of the Federal Property and Administrative Services Act of 1949 or an equivalent qualifications-based requirement **prescribed** for or by the sponsor of the airport.

33. **Foreign Market Restrictions.** It will not allow funds provided under this grant to be used to fund any project which uses any product or service of a foreign country during the period in which such foreign country is listed by the United States Trade Representative as denying fair and equitable market opportunities for products and suppliers of the United States in procurement and construction.

34. **Policies, Standards, and Specifications.** It will carry out the project in accordance with policies, standards, and specifications approved by the Secretary including but not limited to the advisory circulars listed in the Current FAA Advisory Circulars for AIP projects, dated 01/12/2012 and included in this grant, and in accordance with applicable state policies, standards, and specifications approved by the Secretary.

35. **Relocation and Real Property Acquisition.** (1) It will be guided in acquiring real property, to the greatest extent practicable under State law, by the land acquisition policies in Subpart B of 49 CFR Part 24 and will pay or reimburse property owners for necessary expenses as specified in Subpart B. (2) It will provide a relocation assistance program offering the services described in Subpart C and fair and reasonable relocation payments and assistance to displaced persons as required in Subpart D and E of 49 CFR Part 24. (3) It will make available within a reasonable period of time prior to displacement, comparable replacement dwellings to displaced persons in accordance with Subpart E of 49 CFR Part 24.

36. **Access By Intercity Buses.** The airport owner or operator will permit, to the maximum extent practicable, intercity buses or other modes of transportation to have access to the airport; however, it has no obligation to fund special facilities for intercity buses or for other modes of transportation.

37. **Disadvantaged Business Enterprises.** The recipient shall not discriminate on the basis of race, color, national origin or sex in the award and performance of any DOT-assisted contract or in the administration of its DBE program or the requirements of 49 CFR Part 26. The Recipient shall take all necessary and reasonable steps under 49 CFR Part 26 to ensure non discrimination in the award and administration of DOT-assisted contracts. The recipient's DBE program, as required by 49 CFR Part 26, and as approved by DOT, is incorporated by reference in this agreement. Implementation of this program is a legal obligation

and failure to carry out its terms shall be treated as a violation of this agreement. Upon notification to the recipient of its failure to carry out its approved program, the Department may impose sanctions as provided for under Part 26 and may, in appropriate cases, refer the matter for enforcement under 18 U.S.C. 1001 and/or the Program Fraud Civil Remedies Act of 1986 (31 U.S.C. 3801).

38. **Hangar Construction.** If the airport owner or operator and a person who owns an aircraft agree that a hangar is to be constructed at the airport for the aircraft at the aircraft owner's expense, the airport owner or operator will grant to the aircraft owner for the hangar a long term lease that is subject to such terms and conditions on the hangar as the airport owner or operator may impose.

39. **Competitive Access.**

a. If the airport owner or operator of a medium or large hub airport (as defined in section 47102 of title 49, U.S.C.) has been unable to accommodate one or more requests by an air carrier for access to gates or other facilities at that airport in order to allow the air carrier to provide service to the airport or to expand service at the airport, the airport owner or operator shall transmit a report to the Secretary that-

1) Describes the requests;
2) Provides an explanation as to why the requests could not be accommodated; and
3) Provides a time frame within which, if any, the airport will be able to accommodate the requests.

b. Such report shall be due on either February 1 or August 1 of each year if the airport has been unable to accommodate the request(s) in the six month period prior to the applicable due date.

A.B. WON PAT
INTERNATIONAL AIRPORT AUTHORITY, GUAM
OCT 01 2013
TIME: 3pm
REC'D BY:

Mr. Charles H. Ada II
Executive Manager
A. B. Won Pat Guam International
Airport Authority
P. O. Box 8770
Tamuning, GU 96931

Dear Mr. Ada:

We are enclosing two copies of the Grant Offer for Airport Improvement Program (AIP) Project No. 3-66-0001-088-2013 at Guam International Airport in Agana, Guam. This letter outlines expectations for success. Please read the conditions and assurances carefully.

To properly enter into this agreement, you must do the following:

- The official of the Sponsor authorized to accept the enclosed Grant Offer shall accept by signing said offer and inserting the date in the space provided under the "Acceptance" section. The Sponsor's attorney shall certify that the acceptance complies with all applicable laws and constitutes a legal and binding obligation of the Sponsor by executing the "Certificate of Sponsor's Attorney" section. The date of said certificate shall be the same as, or later than the date of acceptance. The grant execution, along with your attorney's certification, must be completed by September 20, 2013, in order for the grant to be valid.
- When the document is fully executed, certified, attested and appropriate seals are impressed, please return one (1) originally signed and dated copy of the executed Grant Agreement to this office. Retain the remaining copy for your files.

Subject to the requirements in 49 CFR 18.21, each payment request for reimbursement under this grant must be made electronically via the Delphi eInvoicing System. Please see the attached Grant Agreement for more information regarding the use of this System.

Please note Grant Condition No. 4 requires you to complete the project without undue delay. We will be paying close attention to your progress to ensure proper stewardship of these Federal funds. **You are required to submit a payment request for reimbursement for allowable incurred project expenses every 30 days.**

Should you fail to make draws on a regular basis, your grant may be placed in "inactive" status which will impact future grant offers.

Until the grant is completed and closed, you are responsible for submitting formal reports as follows:

- A signed/dated SF-270 (non-construction projects) or SF-271 or equivalent (construction projects) and SF-425 annually, due 90 days after the end of each federal fiscal year in which this grant is open (due December 31 of each year this grant is open); and
- Quarterly Progress Reports due every quarter.

Once the project(s) is completed and all costs are determined, we ask that you close the project without delay and submit, as a minimum, the following:

- Sponsor Certification for Project Final Acceptance; and
- Summary of all change orders and summary of all testing; and
- Final SF-270 or SF-271 (or equivalent) and SF-425.

Steve Wong, (808) 541-1225, is the assigned program manager for this grant and is readily available to assist you and your designated representative with the requirements stated herein. We sincerely value your cooperation in these efforts and look forward to working with you to complete this important project.

Sincerely,

Ronnie V. Simpson
Manager, Airports District Office

GRANT AGREEMENT

PART I – OFFER

September 16, 2013
Date of Offer
Guam International
(herein called the "Airport")
3-66-0001-088-2013
Grant No
855035531
DUNS No

TO: **The A. B. Won Pat Guam International Airport Authority**
(herein called the "Sponsor")

FROM: **The United States of America, acting through the Federal Aviation Administration**
(herein called the "FAA")

WHEREAS, the Sponsor has submitted to the FAA a Project Application dated July 24, 2013, for a grant of Federal funds for a project at or associated with the Guam International Airport, which Project Application, as approved by the FAA, is hereby incorporated herein and made a part hereof; and

WHEREAS, the FAA has approved a project for the Airport (or Planning Area) (herein called the "Project") consisting of the following:

Update Airport Master Plan Study

all as more particularly described in the Project Application.

NOW THEREFORE, pursuant to and for the purpose of carrying out the provisions of Title 49, United States Code, as amended, herein called "the Act," and in consideration of (a) the Sponsor's adoption and ratification of the representations and assurances contained in said Project Application and its acceptance of this Offer as hereinafter provided, and (b) the benefits to accrue to the United States and the public from the accomplishment of the Project and compliance with the assurances and conditions as herein provided, **THE FEDERAL AVIATION ADMINISTRATION, FOR AND ON BEHALF OF THE UNITED STATES, HEREBY OFFERS AND AGREES** to pay, as the United States' share of the allowable costs incurred in accomplishing the Project, ninety (90) per centum thereof.

This Offer is made on and **SUBJECT TO THE FOLLOWING TERMS AND CONDITIONS:**

CONDITIONS

1. The maximum obligation of the United States payable under this Offer shall be $500,000.00. For the purposes of any future grant amendments which may increase the foregoing maximum obligation of the United States under the provisions of Section 47108(b) of the Act, the following amounts are being specified for this purpose:

   $ 500,000.00 for planning

   $ 0.00 for airport development or noise program implementation

2. The allowable costs of the project shall not include any costs determined by the FAA to be ineligible for consideration as to allowability under the Act.

3. Payment of the United States' share of the allowable project costs will be made pursuant to and in accordance with the provisions of such regulations and procedures as the Secretary shall prescribe. Final determination of the United States' share will be based upon the final audit of the total amount of allowable project costs and settlement will be made for any upward or downward adjustments to the Federal share of costs.

4. The Sponsor shall carry out and complete the Project without undue delays and in accordance with the terms hereof, and such regulations and procedures as the Secretary shall prescribe, and agrees to comply with the assurances which were made part of the project application.

5. The FAA reserves the right to amend or withdraw this offer at any time prior to its acceptance by the Sponsor.

6. This offer shall expire and the United States shall not be obligated to pay any part of the costs of the project unless this offer has been accepted by the Sponsor on or before September 20, 2013, or such subsequent date as may be prescribed in writing by the FAA.

7. The Sponsor shall take all steps, including litigation if necessary, to recover Federal funds spent fraudulently, wastefully, or in violation of Federal antitrust statutes, or misused in any other manner in any project upon which Federal funds have been expended. For the purposes of this grant agreement, the term "Federal funds" means funds however used or dispersed by the Sponsor that were originally paid pursuant to this or any other Federal grant agreement. It shall obtain the approval of the Secretary as to any determination of the amount of the Federal share of such funds. It shall return the recovered Federal share, including funds recovered by settlement, order, or judgment, to the Secretary. It shall furnish to the Secretary, upon request, all documents and records pertaining to the determination of the amount of the Federal share or to any settlement, litigation, negotiation, or other efforts taken to recover such funds. All settlements or other final positions of the Sponsor, in court or otherwise, involving the recovery of such Federal share shall be approved in advance by the Secretary.

8. The United States shall not be responsible or liable for damage to property or injury to persons which may arise from, or be incident to, compliance with this grant agreement.

9. **CENTRAL CONTRACTOR REGISTRATION AND UNIVERSAL IDENTIFIER REQUIREMENTS**

   A. Requirement for Central Contractor Registration (CCR)

   Unless you are exempted from this requirement under 2 CFR 25.110, you as the recipient must maintain the currency of your information in the CCR until you submit the final financial report required under this award or receive the final payment, whichever is later. This requires that you review and update the information at least annually after the initial registration and more frequently if required by changes in your information or another award term.

   B. Requirement for Data Universal Numbering System (DUNS) Numbers

   If you are authorized to make subawards under this award, you:

   1. Must notify potential subrecipients that no entity (see definition in paragraph C of this award term) may receive a subaward from you unless the entity has provided its DUNS number to you.

   2. May not make a subaward to an entity unless the entity has provided its DUNS number to you.

C. Definitions

For purposes of this award term:

1. Central Contractor Registration (CCR) means the Federal repository into which an entity must provide information required for the conduct of business as a recipient. Additional information about registration procedures may be found at the CCR Internet site (currently at https://www.sam.gov/portal/public/SAM/).

2. Data Universal Numbering System

DUNS number means the nine-digit number established and assigned by Dun and Bradstreet, Inc. (D & B) to uniquely identify business entities. A DUNS number may be obtained from D & B by telephone (currently 866–705–5711) or the Internet (currently at http://fedgov.dnb.com/webform).

3. Entity, as it is used in this award term, means all of the following, as defined at 2 CFR Part 25, Subpart C:

a. A Governmental organization, which is a State, local government, or Indian Tribe;

b. A foreign public entity;

c. A domestic or foreign nonprofit organization;

d. A domestic or foreign for-profit organization; and

e. A Federal agency, but only as a subrecipient under an award or subaward to a non-Federal entity.

4. Subaward:

a. This term means a legal instrument to provide support for the performance of any portion of the substantive project or program for which you received this award and that you as the recipient award to an eligible subrecipient.

b. The term does not include your procurement of property and services needed to carry out the project or program (for further explanation, see Sec. 210 of the attachment to OMB Circular A–133, "Audits of States, Local Governments, and Non-Profit Organizations"). A subaward may be provided through any legal agreement, including an agreement that you consider a contract.

5. Subrecipient means an entity that:

a. Receives a subaward from you under this award; and

b. Is accountable to you for the use of the Federal funds provided by the subaward.

c. A subaward may be provided through any legal agreement, including an agreement that you consider a contract.

10. **ELECTRONIC GRANT PAYMENT(S):** The requirements set forth in these terms and conditions supersede previous financial invoicing requirements for FAA grantees. Each payment request under this grant agreement must be made electronically via the Delphi eInvoicing System for Department of Transportation (DOT) Financial Assistance Awardees. The following are the procedures for accessing and utilizing the Delphi eInvoicing System.

A. Grant Recipient Requirements.
   (1) Grantees must have Internet access to register and submit payment requests through the Delphi eInvoicing system unless, under limited circumstances, a waiver is granted by the FAA and DOT under section (c) below.
   (2) Grantees must submit payment requests electronically and the FAA will process payment requests electronically.

B. System User Access.
   (1) Grantees must contact the FAA Airports District/Regional Office and officially submit a written request to sign up for the system. The FAA Office of Airports will provide the grantee's name, email address and telephone number to the DOT Financial Management Office. The DOT will then invite the grantee via email to sign up for the system and require the grantee to complete two forms. The grantee will complete a web based DOT registration form and download the Proof of Identification form to verify the grantee's identity.

(2) The grantee must complete the Proof of Identification form, and present it to a Notary Public for verification. The grantee will return the notarized form to:

DOT Enterprise Services Center

FAA Accounts Payable, AMZ-100

PO Box 25710

Oklahoma City, OK 73125

(3) The DOT will validate the both forms and email a user ID and password to the grantee. Grantees should contact the FAA Airports District/Regional Office with any changes to their system information.

Note: Additional information, including access forms and training materials, can be found on the DOT eInvoicing website (http://www.dot.gov/cfo/delphi-einvoicing-system.html).

C. Waivers. DOT Financial Management officials may, on a case by case basis, waive the requirement to register and use the electronic grant payment system based on user requests and concurrence of the FAA. Waiver request forms can be obtained on the DOT eInvoicing website (http://www.dot.gov/cfo/delphi-einvoicing-system.html) or by contacting the FAA Airports District/Regional Office. Recipients must explain why they are unable to use or access the Internet to register and enter payment requests.

(1) All waiver requests should be sent to the FAA Airports District/Regional Office for concurrence, prior to sending to the Director of the Office of Financial Management, US Department of Transportation, Office of Financial Management, B-30, room W93-431, 1200 New Jersey Avenue SE, Washington DC 20590-0001, DOTElectronicInvoicing@dot.gov. The Director of the DOT Office of Financial Management will confirm or deny the request within approximately 30 days.

(2) If a grantee is granted a waiver, the grantee should submit all hard-copy invoices directly to:
DOT/FAA

PO Box 25082

AMZ-110

Oklahoma City, OK 73125

11. **INFORMAL LETTER AMENDMENT OF AIP PROJECTS:** It is mutually understood and agreed that if, during the life of the project, the FAA determines that the maximum grant obligation of the United States exceeds the expected needs of the Sponsor by $25,000.00 or five percent (5%), whichever is greater, the maximum obligation of the United States can be unilaterally reduced by letter from the FAA advising of the budget change. Conversely, if there is an overrun in the total actual eligible and allowable project costs, FAA may increase the maximum grant obligation of the United States to cover the amount of the overrun not to exceed the statutory percent limitation and will advise the Sponsor by letter of the increase. It is further understood and agreed that if, during the life of the project, the FAA determines that a change in the grant description is advantageous and in the best interests of the United States, the change in grant description will be unilaterally amended by letter from the FAA. Upon issuance of the aforementioned letter, either the grant obligation of the United States is adjusted to the amount specified or the grant description is amended to the description specified.

12. **AIR AND WATER QUALITY:** Approval of the project included in this agreement is conditioned on the Sponsor's compliance with applicable air and water quality standards in accomplishing project construction. Failure to comply with this requirement may result in suspension, cancellation, or termination of Federal assistance under this agreement.

13. **BUY AMERICAN REQUIREMENT:** Unless otherwise approved by the FAA, the Sponsor will not acquire or permit any contractor or subcontractor to acquire any steel or manufactured products produced outside the United States to be used for any project for airport development or noise compatibility for which funds are provided under this grant. The Sponsor will include in every contract a provision implementing this special condition.

14. **MAXIMUM OBLIGATION INCREASE FOR PRIMARY AIRPORTS:** In accordance with Section 47108(b) of the Act, as amended, the maximum obligation of the United States, as stated in Condition No. 1 of this Grant Offer

a. may not be increased for a planning project;

b. may be increased by not more than 15 percent for development projects;

c. may be increased by not more than 15 percent for land projects.

The Sponsor's acceptance of this Offer and ratification and adoption of the Project Application incorporated herein shall be evidenced by execution of this instrument by the Sponsor, as hereinafter provided, and this Offer and Acceptance shall comprise a Grant Agreement, as provided by the Act, constituting the contractual obligations and rights of the United States and the Sponsor with respect to the accomplishment of the Project and compliance with the assurances and conditions as provided herein. Such Grant Agreement shall become effective upon the Sponsor's acceptance of this Offer.

PART II - ACCEPTANCE

The Sponsor does hereby ratify and adopt all assurances, statements, representations, warranties, covenants, and agreements contained in the Project Application and incorporated materials referred to in the foregoing Offer and does hereby accept this Offer and by such acceptance agrees to comply with all of the terms and conditions in this Offer and in the Project Application. I declare under penalty of perjury that the foregoing is true and correct. [1]

CERTIFICATE OF SPONSOR'S ATTORNEY

I, Janalynn Cruz Damian, acting as Attorney for the Sponsor do hereby certify:

That in my opinion the Sponsor is empowered to enter into the foregoing Grant Agreement under the laws of the Territory of Guam. Further, I have examined the foregoing Grant Agreement and the actions taken by said Sponsor and Sponsor's official representative has been duly authorized and that the execution thereof is in all respects due and proper and in accordance with the laws of the said State and the Act. In addition, for grants involving projects to be carried out on property not owned by the Sponsor, there are no legal impediments that will prevent full performance by the Sponsor. Further, it is my opinion that the said Grant Agreement constitutes a legal and binding obligation of the Sponsor in accordance with the terms thereof.

Dated at Hagatna, Guam this 20th day of September, 2013.

By

(Signature of Sponsor's Attorney)

[1] Knowingly and willfully providing false information to the Federal government is a violation of 18 U.S.C. Section 1001 (False Statements) and could subject you to fines, imprisonment, or both.

ASSURANCES
Airport Sponsors

A. General.

1. These assurances shall be complied with in the performance of grant agreements for airport development, airport planning, and noise compatibility program grants for airport sponsors.

2. These assurances are required to be submitted as part of the project application by sponsors requesting funds under the provisions of Title 49, U.S.C., subtitle VII, as amended. As used herein, the term "public agency sponsor" means a public agency with control of a public-use airport; the term "private sponsor" means a private owner of a public-use airport; and the term "sponsor" includes both public agency sponsors and private sponsors.

3. Upon acceptance of this grant offer by the sponsor, these assurances are incorporated in and become part of this grant agreement.

B. Duration and Applicability.

1. **Airport development or Noise Compatibility Program Projects Undertaken by a Public Agency Sponsor.** The terms, conditions and assurances of this grant agreement shall remain in full force and effect throughout the useful life of the facilities developed or equipment acquired for an airport development or noise compatibility program project, or throughout the useful life of the project items installed within a facility under a noise compatibility program project, but in any event not to exceed twenty (20) years from the date of acceptance of a grant offer of Federal funds for the project. However, there shall be no limit on the duration of the assurances regarding Exclusive Rights and Airport Revenue so long as the airport is used as an airport. There shall be no limit on the duration of the terms, conditions, and assurances with respect to real property acquired with federal funds. Furthermore, the duration of the Civil Rights assurance shall be specified in the assurances.

2. **Airport Development or Noise Compatibility Projects Undertaken by a Private Sponsor.** The preceding paragraph 1 also applies to a private sponsor except that the useful life of project items installed within a facility or the useful life of the facilities developed or equipment acquired under an airport development or noise compatibility program project shall be no less than ten (10) years from the date of acceptance of Federal aid for the project.

3. **Airport Planning Undertaken by a Sponsor.** Unless otherwise specified in this grant agreement, only Assurances 1, 2, 3, 5, 6, 13, 18, 30, 32, 33, and 34 in section C apply to planning projects. The terms, conditions, and assurances of this grant agreement shall remain in full force and effect during the life of the project.

C. **Sponsor Certification.** The sponsor hereby assures and certifies, with respect to this grant that:

1. **General Federal Requirements.** It will comply with all applicable Federal laws, regulations, executive orders, policies, guidelines, and requirements as they relate to the application, acceptance and use of Federal funds for this project including but not limited to the following:

Federal Legislation

a. Title 49, U.S.C., subtitle VII, as amended.
b. Davis-Bacon Act - 40 U.S.C. 276(a), et seq.[1]

e. 29 CFR Part 3 - Contractors and subcontractors on public building or public work financed in whole or part by loans or grants from the United States.[1]
f. 29 CFR Part 5 - Labor standards provisions applicable to contracts covering federally financed and assisted construction (also labor standards provisions applicable to non-construction contracts subject to the Contract Work Hours and Safety Standards Act).[1]
g. 41 CFR Part 60 - Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor (Federal and federally assisted contracting requirements).[1]
h. 49 CFR Part 18 - Uniform administrative requirements for grants and cooperative agreements to state and local governments.[3]
i. 49 CFR Part 20 - New restrictions on lobbying.
j. 49 CFR Part 21 - Nondiscrimination in federally-assisted programs of the Department of Transportation - effectuation of Title VI of the Civil Rights Act of 1964.
k. 49 CFR Part 23 - Participation by Disadvantage Business Enterprise in Airport Concessions.
l. 49 CFR Part 24 - Uniform relocation assistance and real property acquisition for Federal and federally assisted programs.[1 2]
m. 49 CFR Part 26 – Participation By Disadvantaged Business Enterprises in Department of Transportation Programs.
n. 49 CFR Part 27 - Nondiscrimination on the basis of handicap in programs and activities receiving or benefiting from Federal financial assistance.[1]
o. 49 CFR Part 29 – Government wide debarment and suspension (nonprocurement) and government wide requirements for drug-free workplace (grants).
p. 49 CFR Part 30 - Denial of public works contracts to suppliers of goods and services of countries that deny procurement market access to U.S. contractors.
q. 49 CFR Part 41 - Seismic safety of Federal and federally assisted or regulated new building construction.[1]

Office of Management and Budget Circulars

a. A-87 - Cost Principles Applicable to Grants and Contracts with State and Local Governments.
b. A-133 - Audits of States, Local Governments, and Non-Profit Organizations

[1] These laws do not apply to airport planning sponsors.

[2] These laws do not apply to private sponsors.

[3] 49 CFR Part 18 and OMB Circular A-87 contain requirements for State and Local Governments receiving Federal assistance. Any requirement levied upon State and Local Governments by this regulation and circular shall also be applicable to private sponsors receiving Federal assistance under Title 49, United States Code.

Specific assurances required to be included in grant agreements by any of the above laws, regulations or circulars are incorporated by reference in this grant agreement.

2. **Responsibility and Authority of the Sponsor.**

   a. **Public Agency Sponsor:** It has legal authority to apply for this grant, and to finance and carry out the proposed project; that a resolution, motion or similar action has been duly adopted or passed as an official act of the applicant's governing body authorizing the filing of the application, including all understandings and assurances contained therein, and directing and authorizing the person identified as the official representative of the applicant to act in connection with the application and to provide such additional information as may be required.

   b. **Private Sponsor:** It has legal authority to apply for this grant and to finance and carry out the proposed project and comply with all terms, conditions, and assurances of this grant agreement. It shall designate an official representative and shall in writing direct and authorize that person to file this application, including all understandings and assurances contained therein; to act in connection with this application; and to provide such additional information as may be required.

3. **Sponsor Fund Availability.** It has sufficient funds available for that portion of the project costs which are not to be paid by the United States. It has sufficient funds available to assure operation and maintenance of items funded under this grant agreement which it will own or control.

4. **Good Title.**

   a. It, a public agency or the Federal government, holds good title, satisfactory to the Secretary, to the landing area of the airport or site thereof, or will give assurance satisfactory to the Secretary that good title will be acquired.

   b. For noise compatibility program projects to be carried out on the property of the sponsor, it holds good title satisfactory to the Secretary to that portion of the property upon which Federal funds will be expended or will give assurance to the Secretary that good title will be obtained.

5. **Preserving Rights and Powers.**

   a. It will not take or permit any action which would operate to deprive it of any of the rights and powers necessary to perform any or all of the terms, conditions, and assurances in this grant agreement without the written approval of the Secretary, and will act promptly to acquire, extinguish or

modify any outstanding rights or claims of right of others which would interfere with such performance by the sponsor. This shall be done in a manner acceptable to the Secretary.

b. It will not sell, lease, encumber, or otherwise transfer or dispose of any part of its title or other interests in the property shown on Exhibit A to this application or, for a noise compatibility program project, that portion of the property upon which Federal funds have been expended, for the duration of the terms, conditions, and assurances in this grant agreement without approval by the Secretary. If the transferee is found by the Secretary to be eligible under Title 49, United States Code, to assume the obligations of this grant agreement and to have the power, authority, and financial resources to carry out all such obligations, the sponsor shall insert in the contract or document transferring or disposing of the sponsor's interest, and make binding upon the transferee all of the terms, conditions, and assurances contained in this grant agreement.

c. For all noise compatibility program projects which are to be carried out by another unit of local government or are on property owned by a unit of local government other than the sponsor, it will enter into an agreement with that government. Except as otherwise specified by the Secretary, that agreement shall obligate that government to the same terms, conditions, and assurances that would be applicable to it if it applied directly to the FAA for a grant to undertake the noise compatibility program project. That agreement and changes thereto must be satisfactory to the Secretary. It will take steps to enforce this agreement against the local government if there is substantial non-compliance with the terms of the agreement.

d. For noise compatibility program projects to be carried out on privately owned property, it will enter into an agreement with the owner of that property which includes provisions specified by the Secretary. It will take steps to enforce this agreement against the property owner whenever there is substantial non-compliance with the terms of the agreement.

e. If the sponsor is a private sponsor, it will take steps satisfactory to the Secretary to ensure that the airport will continue to function as a public-use airport in accordance with these assurances for the duration of these assurances.

f. If an arrangement is made for management and operation of the airport by any agency or person other than the sponsor or an employee of the sponsor, the sponsor will reserve sufficient rights and authority to insure that the airport will be operated and maintained in accordance Title 49, United States Code, the regulations and the terms, conditions and assurances in this grant agreement and shall insure that such arrangement also requires compliance therewith.

g. Sponsors of commercial service airports will not permit or enter into any arrangement that results in permission for the owner or tenant of a property used as a residence, or zoned for residential use, to taxi an aircraft between that property and any location on airport. Sponsors of general aviation airports entering into any arrangement that results in

permission for the owner of residential real property adjacent to or near the airport must comply with the requirements of Sec. 136 of Public Law 112-95 and the sponsor assurances.

6. **Consistency with Local Plans.** The project is reasonably consistent with plans (existing at the time of submission of this application) of public agencies that are authorized by the State in which the project is located to plan for the development of the area surrounding the airport.

7. **Consideration of Local Interest.** It has given fair consideration to the interest of communities in or near where the project may be located.

8. **Consultation with Users.** In making a decision to undertake any airport development project under Title 49, United States Code, it has undertaken reasonable consultations with affected parties using the airport at which project is proposed.

9. **Public Hearings.** In projects involving the location of an airport, an airport runway, or a major runway extension, it has afforded the opportunity for public hearings for the purpose of considering the economic, social, and environmental effects of the airport or runway location and its consistency with goals and objectives of such planning as has been carried out by the community and it shall, when requested by the Secretary, submit a copy of the transcript of such hearings to the Secretary. Further, for such projects, it has on its management board either voting representation from the communities where the project is located or has advised the communities that they have the right to petition the Secretary concerning a proposed project.

10. **Air and Water Quality Standards.** In projects involving airport location, a major runway extension, or runway location it will provide for the Governor of the state in which the project is located to certify in writing to the Secretary that the project will be located, designed, constructed, and operated so as to comply with applicable air and water quality standards. In any case where such standards have not been approved and where applicable air and water quality standards have been promulgated by the Administrator of the Environmental Protection Agency, certification shall be obtained from such Administrator. Notice of certification or refusal to certify shall be provided within sixty days after the project application has been received by the Secretary.

11. **Pavement Preventive Maintenance.** With respect to a project approved after January 1, 1995, for the replacement or reconstruction of pavement at the airport, it assures or certifies that it has implemented an effective airport pavement maintenance-management program and it assures that it will use such program for the useful life of any pavement constructed, reconstructed or repaired with Federal financial assistance at the airport. It will provide such reports on pavement condition and pavement management programs as the Secretary determines may be useful.

12. **Terminal Development Prerequisites.** For projects which include terminal development at a public use airport, as defined in Title 49, it has, on the date of

submittal of the project grant application, all the safety equipment required for certification of such airport under section 44706 of Title 49, United States Code, and all the security equipment required by rule or regulation, and has provided for access to the passenger enplaning and deplaning area of such airport to passengers enplaning and deplaning from aircraft other than air carrier aircraft.

13. **Accounting System, Audit, and Record Keeping Requirements.**

    a. It shall keep all project accounts and records which fully disclose the amount and disposition by the recipient of the proceeds of this grant, the total cost of the project in connection with which this grant is given or used, and the amount or nature of that portion of the cost of the project supplied by other sources, and such other financial records pertinent to the project. The accounts and records shall be kept in accordance with an accounting system that will facilitate an effective audit in accordance with the Single Audit Act of 1984.

    b. It shall make available to the Secretary and the Comptroller General of the United States, or any of their duly authorized representatives, for the purpose of audit and examination, any books, documents, papers, and records of the recipient that are pertinent to this grant. The Secretary may require that an appropriate audit be conducted by a recipient. In any case in which an independent audit is made of the accounts of a sponsor relating to the disposition of the proceeds of a grant or relating to the project in connection with which this grant was given or used, it shall file a certified copy of such audit with the Comptroller General of the United States not later than six (6) months following the close of the fiscal year for which the audit was made.

14. **Minimum Wage Rates.** It shall include, in all contracts in excess of $2,000 for work on any projects funded under this grant agreement which involve labor, provisions establishing minimum rates of wages, to be predetermined by the Secretary of Labor, in accordance with the Davis-Bacon Act, as amended (40 U.S.C. 276a-276a-5), which contractors shall pay to skilled and unskilled labor, and such minimum rates shall be stated in the invitation for bids and shall be included in proposals or bids for the work.

15. **Veteran's Preference.** It shall include in all contracts for work on any project funded under this grant agreement which involve labor, such provisions as are necessary to insure that, in the employment of labor (except in executive, administrative, and supervisory positions), preference shall be given to Vietnam era veterans, Persian Gulf veterans, Afghanistan-Iraq war veterans, disabled veterans, and small business concerns owned and controlled by disabled veterans as defined in Section 47112 of Title 49, United States Code. However, this preference shall apply only where the individuals are available and qualified to perform the work to which the employment relates.

16. **Conformity to Plans and Specifications.** It will execute the project subject to plans, specifications, and schedules approved by the Secretary. Such plans, specifications, and schedules shall be submitted to the Secretary prior to

commencement of site preparation, construction, or other performance under this grant agreement, and, upon approval of the Secretary, shall be incorporated into this grant agreement. Any modification to the approved plans, specifications, and schedules shall also be subject to approval of the Secretary, and incorporated into this grant agreement.

17. **Construction Inspection and Approval.** It will provide and maintain competent technical supervision at the construction site throughout the project to assure that the work conforms to the plans, specifications, and schedules approved by the Secretary for the project. It shall subject the construction work on any project contained in an approved project application to inspection and approval by the Secretary and such work shall be in accordance with regulations and procedures prescribed by the Secretary. Such regulations and procedures shall require such cost and progress reporting by the sponsor or sponsors of such project as the Secretary shall deem necessary.

18. **Planning Projects.** In carrying out planning projects:

    a. It will execute the project in accordance with the approved program narrative contained in the project application or with the modifications similarly approved.
    b. It will furnish the Secretary with such periodic reports as required pertaining to the planning project and planning work activities.
    c. It will include in all published material prepared in connection with the planning project a notice that the material was prepared under a grant provided by the United States.
    d. It will make such material available for examination by the public, and agrees that no material prepared with funds under this project shall be subject to copyright in the United States or any other country.
    e. It will give the Secretary unrestricted authority to publish, disclose, distribute, and otherwise use any of the material prepared in connection with this grant.
    f. It will grant the Secretary the right to disapprove the sponsor's employment of specific consultants and their subcontractors to do all or any part of this project as well as the right to disapprove the proposed scope and cost of professional services.
    g. It will grant the Secretary the right to disapprove the use of the sponsor's employees to do all or any part of the project.
    h. It understands and agrees that the Secretary's approval of this project grant or the Secretary's approval of any planning material developed as part of this grant does not constitute or imply any assurance or commitment on the part of the Secretary to approve any pending or future application for a Federal airport grant.

19. **Operation and Maintenance.**

    a. The airport and all facilities which are necessary to serve the aeronautical users of the airport, other than facilities owned or controlled by the United States, shall be operated at all times in a safe and serviceable condition

and in accordance with the minimum standards as may be required or prescribed by applicable Federal, state and local agencies for maintenance and operation. It will not cause or permit any activity or action thereon which would interfere with its use for airport purposes. It will suitably operate and maintain the airport and all facilities thereon or connected therewith, with due regard to climatic and flood conditions. Any proposal to temporarily close the airport for non-aeronautical purposes must first be approved by the Secretary. In furtherance of this assurance, the sponsor will have in effect arrangements for-

1) Operating the airport's aeronautical facilities whenever required;
2) Promptly marking and lighting hazards resulting from airport conditions, including temporary conditions; and
3) Promptly notifying airmen of any condition affecting aeronautical use of the airport. Nothing contained herein shall be construed to require that the airport be operated for aeronautical use during temporary periods when snow, flood or other climatic conditions interfere with such operation and maintenance. Further, nothing herein shall be construed as requiring the maintenance, repair, restoration, or replacement of any structure or facility which is substantially damaged or destroyed due to an act of God or other condition or circumstance beyond the control of the sponsor.

b. It will suitably operate and maintain noise compatibility program items that it owns or controls upon which Federal funds have been expended.

20. Hazard Removal and Mitigation. It will take appropriate action to assure that such terminal airspace as is required to protect instrument and visual operations to the airport (including established minimum flight altitudes) will be adequately cleared and protected by removing, lowering, relocating, marking, or lighting or otherwise mitigating existing airport hazards and by preventing the establishment or creation of future airport hazards.

21. Compatible Land Use. It will take appropriate action, to the extent reasonable, including the adoption of zoning laws, to restrict the use of land adjacent to or in the immediate vicinity of the airport to activities and purposes compatible with normal airport operations, including landing and takeoff of aircraft. In addition, if the project is for noise compatibility program implementation, it will not cause or permit any change in land use, within its jurisdiction, that will reduce its compatibility, with respect to the airport, of the noise compatibility program measures upon which Federal funds have been expended.

22. Economic Nondiscrimination.

a. It will make the airport available as an airport for public use on reasonable terms and without unjust discrimination to all types, kinds and classes of aeronautical activities, including commercial aeronautical activities offering services to the public at the airport.

b. In any agreement, contract, lease, or other arrangement under which a right or privilege at the airport is granted to any person, firm, or corporation to conduct or to engage in any aeronautical activity for

furnishing services to the public at the airport, the sponsor will insert and enforce provisions requiring the contractor to-

1) furnish said services on a reasonable, and not unjustly discriminatory, basis to all users thereof, and
2) charge reasonable, and not unjustly discriminatory, prices for each unit or service, provided that the contractor may be allowed to make reasonable and nondiscriminatory discounts, rebates, or other similar types of price reductions to volume purchasers.

c. Each fixed-based operator at the airport shall be subject to the same rates, fees, rentals, and other charges as are uniformly applicable to all other fixed-based operators making the same or similar uses of such airport and utilizing the same or similar facilities.

d. Each air carrier using such airport shall have the right to service itself or to use any fixed-based operator that is authorized or permitted by the airport to serve any air carrier at such airport.

e. Each air carrier using such airport (whether as a tenant, non tenant, or subtenant of another air carrier tenant) shall be subject to such nondiscriminatory and substantially comparable rules, regulations, conditions, rates, fees, rentals, and other charges with respect to facilities directly and substantially related to providing air transportation as are applicable to all such air carriers which make similar use of such airport and utilize similar facilities, subject to reasonable classifications such as tenants or non tenants and signatory carriers and non signatory carriers. Classification or status as tenant or signatory shall not be unreasonably withheld by any airport provided an air carrier assumes obligations substantially similar to those already imposed on air carriers in such classification or status.

f. It will not exercise or grant any right or privilege which operates to prevent any person, firm, or corporation operating aircraft on the airport from performing any services on its own aircraft with its own employees [including, but not limited to maintenance, repair, and fueling] that it may choose to perform.

g. In the event the sponsor itself exercises any of the rights and privileges referred to in this assurance, the services involved will be provided on the same conditions as would apply to the furnishing of such services by commercial aeronautical service providers authorized by the sponsor under these provisions.

h. The sponsor may establish such reasonable, and not unjustly discriminatory, conditions to be met by all users of the airport as may be necessary for the safe and efficient operation of the airport.

i. The sponsor may prohibit or limit any given type, kind or class of aeronautical use of the airport if such action is necessary for the safe operation of the airport or necessary to serve the civil aviation needs of the public.

23. Exclusive Rights. It will permit no exclusive right for the use of the airport by any person providing, or intending to provide, aeronautical services to the public.

For purposes of this paragraph, the providing of the services at an airport by a single fixed-based operator shall not be construed as an exclusive right if both of the following apply:

a. It would be unreasonably costly, burdensome, or impractical for more than one fixed-based operator to provide such services, and

b. If allowing more than one fixed-based operator to provide such services would require the reduction of space leased pursuant to an existing agreement between such single fixed-based operator and such airport. It further agrees that it will not, either directly or indirectly, grant or permit any person, firm, or corporation, the exclusive right at the airport to conduct any aeronautical activities, including, but not limited to charter flights, pilot training, aircraft rental and sightseeing, aerial photography, crop dusting, aerial advertising and surveying, air carrier operations, aircraft sales and services, sale of aviation petroleum products whether or not conducted in conjunction with other aeronautical activity, repair and maintenance of aircraft, sale of aircraft parts, and any other activities which because of their direct relationship to the operation of aircraft can be regarded as an aeronautical activity, and that it will terminate any exclusive right to conduct an aeronautical activity now existing at such an airport before the grant of any assistance under Title 49, United States Code.

24. Fee and Rental Structure. It will maintain a fee and rental structure for the facilities and services at the airport which will make the airport as self-sustaining as possible under the circumstances existing at the particular airport, taking into account such factors as the volume of traffic and economy of collection. No part of the Federal share of an airport development, airport planning or noise compatibility project for which a grant is made under Title 49, United States Code, the Airport and Airway Improvement Act of 1982, the Federal Airport Act or the Airport and Airway Development Act of 1970 shall be included in the rate basis in establishing fees, rates, and charges for users of that airport.

25. Airport Revenues.

a. All revenues generated by the airport and any local taxes on aviation fuel established after December 30, 1987, will be expended by it for the capital or operating costs of the airport; the local airport system; or other local facilities which are owned or operated by the owner or operator of the airport and which are directly and substantially related to the actual air transportation of passengers or property; or for noise mitigation purposes on or off the airport. The following exceptions apply to this paragraph:

1) If covenants or assurances in debt obligations issued before September 3, 1982, by the owner or operator of the airport, or provisions enacted before September 3, 1982, in governing statutes controlling the owner or operator's financing, provide for the use of the revenues from any of the airport owner or operator's facilities, including the airport, to support not only the airport but also the

airport owner or operator's general debt obligations or other facilities, then this limitation on the use of all revenues generated by the airport (and, in the case of a public airport, local taxes on aviation fuel) shall not apply.

2) If the Secretary approves the sale of a privately owned airport to a public sponsor and provides funding for any portion of the public sponsor's acquisition of land, this limitation on the use of all revenues generated by the sale shall not apply to certain proceeds from the sale. This is conditioned on repayment to the Secretary by the private owner of an amount equal to the remaining unamortized portion (amortized over a 20-year period) of any airport improvement grant made to the private owner for any purpose other than land acquisition on or after October 1, 1996, plus an amount equal to the federal share of the current fair market value of any land acquired with an airport improvement grant made to that airport on or after October 1, 1996.

3) Certain revenue derived from or generated by mineral extraction, production, lease, or other means at a general aviation airport (as defined at Section 47102 of title 49 United States Code), if the FAA determines the airport sponsor meets the requirements set forth in Sec. 813 of Public Law 112-95.

b. As part of the annual audit required under the Single Audit Act of 1984, the sponsor will direct that the audit will review, and the resulting audit report will provide an opinion concerning, the use of airport revenue and taxes in paragraph (a), and indicating whether funds paid or transferred to the owner or operator are paid or transferred in a manner consistent with Title 49, United States Code and any other applicable provision of law, including any regulation promulgated by the Secretary or Administrator.

c. Any civil penalties or other sanctions will be imposed for violation of this assurance in accordance with the provisions of Section 47107 of Title 49, United States Code.

26. Reports and Inspections. It will:

a. submit to the Secretary such annual or special financial and operations reports as the Secretary may reasonably request and make such reports available to the public; make available to the public at reasonable times and places a report of the airport budget in a format prescribed by the Secretary;

b. for airport development projects, make the airport and all airport records and documents affecting the airport, including deeds, leases, operation and use agreements, regulations and other instruments, available for inspection by any duly authorized agent of the Secretary upon reasonable request;

c. for noise compatibility program projects, make records and documents relating to the project and continued compliance with the terms,

conditions, and assurances of this grant agreement including deeds, leases, agreements, regulations, and other instruments, available for inspection by any duly authorized agent of the Secretary upon reasonable request; and

d. in a format and time prescribed by the Secretary, provide to the Secretary and make available to the public following each of its fiscal years, an annual report listing in detail:
   1) all amounts paid by the airport to any other unit of government and the purposes for which each such payment was made; and
   2) all services and property provided by the airport to other units of government and the amount of compensation received for provision of each such service and property.

27. **Use by Government Aircraft.** It will make available all of the facilities of the airport developed with Federal financial assistance and all those usable for landing and takeoff of aircraft to the United States for use by Government aircraft in common with other aircraft at all times without charge, except, if the use by Government aircraft is substantial, charge may be made for a reasonable share, proportional to such use, for the cost of operating and maintaining the facilities used. Unless otherwise determined by the Secretary, or otherwise agreed to by the sponsor and the using agency, substantial use of an airport by Government aircraft will be considered to exist when operations of such aircraft are in excess of those which, in the opinion of the Secretary, would unduly interfere with use of the landing areas by other authorized aircraft, or during any calendar month that –

   a. Five (5) or more Government aircraft are regularly based at the airport or on land adjacent thereto; or
   b. The total number of movements (counting each landing as a movement) of Government aircraft is 300 or more, or the gross accumulative weight of Government aircraft using the airport (the total movement of Government aircraft multiplied by gross weights of such aircraft) is in excess of five million pounds.

28. **Land for Federal Facilities.** It will furnish without cost to the Federal Government for use in connection with any air traffic control or air navigation activities, or weather-reporting and communication activities related to air traffic control, any areas of land or water, or estate therein, or rights in buildings of the sponsor as the Secretary considers necessary or desirable for construction, operation, and maintenance at Federal expense of space or facilities for such purposes. Such areas or any portion thereof will be made available as provided herein within four months after receipt of a written request from the Secretary.

29. **Airport Layout Plan.**

   a. It will keep up to date at all times an airport layout plan of the airport showing (1) boundaries of the airport and all proposed additions thereto, together with the boundaries of all offsite areas owned or controlled by the sponsor for airport purposes and proposed additions thereto; (2) the location and nature of all existing and proposed airport facilities and structures (such as runways, taxiways, aprons, terminal buildings, hangars

and roads), including all proposed extensions and reductions of existing airport facilities; (3) the location of all existing and proposed nonaviation areas and of all existing improvements thereon; and (4) all proposed and existing access points used to taxi aircraft across the airport's property boundary. Such airport layout plans and each amendment, revision, or modification thereof, shall be subject to the approval of the Secretary which approval shall be evidenced by the signature of a duly authorized representative of the Secretary on the face of the airport layout plan. The sponsor will not make or permit any changes or alterations in the airport or any of its facilities which are not in conformity with the airport layout plan as approved by the Secretary and which might, in the opinion of the Secretary, adversely affect the safety, utility or efficiency of the airport.

b. If a change or alteration in the airport or the facilities is made which the Secretary determines adversely affects the safety, utility, or efficiency of any federally owned, leased, or funded property on or off the airport and which is not in conformity with the airport layout plan as approved by the Secretary, the owner or operator will, if requested, by the Secretary (1) eliminate such adverse effect in a manner approved by the Secretary; or (2) bear all costs of relocating such property (or replacement thereof) to a site acceptable to the Secretary and all costs of restoring such property (or replacement thereof) to the level of safety, utility, efficiency, and cost of operation existing before the unapproved change in the airport or its facilities except in the case of a relocation or replacement of an existing airport facility due to a change in the Secretary's design standards beyond the control of the airport sponsor.

30. Civil Rights. It will comply with such rules as are promulgated to assure that no person shall, on the grounds of race, creed, color, national origin, sex, age, or handicap be excluded from participating in any activity conducted with or benefiting from funds received from this grant. This assurance obligates the sponsor for the period during which Federal financial assistance is extended to the program, except where Federal financial assistance is to provide, or is in the form of personal property or real property or interest therein or structures or improvements thereon in which case the assurance obligates the sponsor or any transferee for the longer of the following periods: (a) the period during which the property is used for a purpose for which Federal financial assistance is extended, or for another purpose involving the provision of similar services or benefits, or (b) the period during which the sponsor retains ownership or possession of the property.

31. Disposal of Land.

a. For land purchased under a grant for airport noise compatibility purposes, including land serving as a noise buffer, it will dispose of the land, when the land is no longer needed for such purposes, at fair market value, at the earliest practicable time. That portion of the proceeds of such disposition which is proportionate to the United States' share of acquisition of such land will be, at the discretion of the Secretary, (1) reinvested in another

project at the airport, or (2) transferred to another eligible airport as prescribed by the Secretary. The Secretary shall give preference to the following, in descending order, (1) reinvestment in an approved noise compatibility project, (2) reinvestment in an approved project that is eligible for grant funding under Section 47117(e) of title 49 United States Code, (3) reinvestment in an approved airport development project that is eligible for grant funding under Sections 47114, 47115, or 47117 of title 49 United States Code, (4) transferred to an eligible sponsor of another public airport to be reinvested in an approved noise compatibility project at that airport, and (5) paid to the Secretary for deposit in the Airport and Airway Trust Fund. If land acquired under a grant for noise compatibility purposes is leased at fair market value and consistent with noise buffering purposes, the lease will not be considered a disposal of the land. Revenues derived from such a lease may be used for an approved airport development project that would otherwise be eligible for grant funding or any permitted use of airport revenue.

b. For land purchased under a grant for airport development purposes (other than noise compatibility), it will, when the land is no longer needed for airport purposes, dispose of such land at fair market value or make available to the Secretary an amount equal to the United States' proportionate share of the fair market value of the land. That portion of the proceeds of such disposition which is proportionate to the United States' share of the cost of acquisition of such land will, (1) upon application to the Secretary, be reinvested or transferred to another eligible airport as prescribed by the Secretary. The Secretary shall give preference to the following, in descending order: (1) reinvestment in an approved noise compatibility project, (2) reinvestment in an approved project that is eligible for grant funding under Section 47117(e) of title 49 United States Code, (3) reinvestment in an approved airport development project that is eligible for grant funding under Sections 47114, 47115, or 47117 of title 49 United States Code, (4) transferred to an eligible sponsor of another public airport to be reinvested in an approved noise compatibility project at that airport, and (5) paid to the Secretary for deposit in the Airport and Airway Trust Fund.

c. Land shall be considered to be needed for airport purposes under this assurance if (1) it may be needed for aeronautical purposes (including runway protection zones) or serve as noise buffer land, and (2) the revenue from interim uses of such land contributes to the financial self-sufficiency of the airport. Further, land purchased with a grant received by an airport operator or owner before December 31, 1987, will be considered to be needed for airport purposes if the Secretary or Federal agency making such grant before December 31, 1987, was notified by the operator or owner of the uses of such land, did not object to such use, and the land continues to be used for that purpose, such use having commenced no later than December 15, 1989.

d. Disposition of such land under (a) (b) or (c) will be subject to the retention or reservation of any interest or right therein necessary to ensure that such land will only be used for purposes which are compatible with noise levels associated with operation of the airport.

32. **Engineering and Design Services.** It will award each contract, or sub-contract for program management, construction management, planning studies, feasibility studies, architectural services, preliminary engineering, design, engineering, surveying, mapping or related services with respect to the project in the same manner as a contract for architectural and engineering services is negotiated under Title IX of the Federal Property and Administrative Services Act of 1949 or an equivalent qualifications-based requirement **prescribed** for or by the sponsor of the airport.

33. **Foreign Market Restrictions.** It will not allow funds provided under this grant to be used to fund any project which uses any product or service of a foreign country during the period in which such foreign country is listed by the United States Trade Representative as denying fair and equitable market opportunities for products and suppliers of the United States in procurement and construction.

34. **Policies, Standards, and Specifications.** It will carry out the project in accordance with policies, standards, and specifications approved by the Secretary including but not limited to the advisory circulars listed in the Current FAA Advisory Circulars for AIP projects, dated 01/12/2012 and included in this grant, and in accordance with applicable state policies, standards, and specifications approved by the Secretary.

35. **Relocation and Real Property Acquisition.** (1) It will be guided in acquiring real property, to the greatest extent practicable under State law, by the land acquisition policies in Subpart B of 49 CFR Part 24 and will pay or reimburse property owners for necessary expenses as specified in Subpart B. (2) It will provide a relocation assistance program offering the services described in Subpart C and fair and reasonable relocation payments and assistance to displaced persons as required in Subpart D and E of 49 CFR Part 24. (3) It will make available within a reasonable period of time prior to displacement, comparable replacement dwellings to displaced persons in accordance with Subpart E of 49 CFR Part 24.

36. **Access By Intercity Buses.** The airport owner or operator will permit, to the maximum extent practicable, intercity buses or other modes of transportation to have access to the airport; however, it has no obligation to fund special facilities for intercity buses or for other modes of transportation.

37. **Disadvantaged Business Enterprises.** The recipient shall not discriminate on the basis of race, color, national origin or sex in the award and performance of any DOT-assisted contract or in the administration of its DBE program or the requirements of 49 CFR Part 26. The Recipient shall take all necessary and reasonable steps under 49 CFR Part 26 to ensure non discrimination in the award and administration of DOT-assisted contracts. The recipient's DBE program, as required by 49 CFR Part 26, and as approved by DOT, is incorporated by reference in this agreement. Implementation of this program is a legal obligation

and failure to carry out its terms shall be treated as a violation of this agreement. Upon notification to the recipient of its failure to carry out its approved program, the Department may impose sanctions as provided for under Part 26 and may, in appropriate cases, refer the matter for enforcement under 18 U.S.C. 1001 and/or the Program Fraud Civil Remedies Act of 1986 (31 U.S.C. 3801).

38. **Hangar Construction.** If the airport owner or operator and a person who owns an aircraft agree that a hangar is to be constructed at the airport for the aircraft at the aircraft owner's expense, the airport owner or operator will grant to the aircraft owner for the hangar a long term lease that is subject to such terms and conditions on the hangar as the airport owner or operator may impose.

39. **Competitive Access.**

a. If the airport owner or operator of a medium or large hub airport (as defined in section 47102 of title 49, U.S.C.) has been unable to accommodate one or more requests by an air carrier for access to gates or other facilities at that airport in order to allow the air carrier to provide service to the airport or to expand service at the airport, the airport owner or operator shall transmit a report to the Secretary that-

1) Describes the requests;
2) Provides an explanation as to why the requests could not be accommodated; and
3) Provides a time frame within which, if any, the airport will be able to accommodate the requests.

b. Such report shall be due on either February 1 or August 1 of each year if the airport has been unable to accommodate the request(s) in the six month period prior to the applicable due date.

TO: Procurement File

FROM: Executive Manager

DATE: October 31, 2013

NAME OF PROCUREMENT: Recapitalization and Optimization of Baggage Handling System from Siemens Industry, Inc.

RE: **WRITTEN DETERMINATION REGARDING USE OF SOLE SOURCE PROCUREMENT**

Pursuant to the Guam Procurement Law and Regulations, the following determinations are made by the Executive Manager with regard to a sole source procurement of Baggage Handling System (BHS) equipment, installation, commissioning and training from Siemens Industry, Inc. to be issued by the A.B. Won Pat International Airport Authority, Guam (the "Authority" or "GIAA").

Use of sole source for equipment procurement and installation (2 GAR § 3112(b))

Utilizing sole source procurement, GIAA seeks to procure BHS equipment from Siemens Industry, Inc. ("Siemens"), to have BHS and/or its subcontracts install and commission the BHS equipment, and to have Siemens provide training on the same.

The following determinations are made pursuant to Section 3112(b) of the Guam Procurement Regulations:

1. On September 26, 2013, GIAA entered into an Other Transaction Agreement with the Transportation Security Administration (TSA) referenced as OTA No. HSTS04-13-H-CT1145 (OTA). The OTA provides substantial federal funding for the recapitalization and optimization of GIAA's BHS.

2. The OTA's scope includes modifications, extensions and integration to the existing GIAA BHS. The BHS is a special system unique only to airports. The OTA will not fund the complete replacement of the BHS.

3. Siemens is the original equipment manufacturer of the GIAA BHS and the subsequent international transit facility for screening of international transit bags.

4. Siemens provides the only compatible equipment for integration to the existing GIAA BHS and TSA's checked baggage inspection system.

5. Compatible equipment standardizes operational safety, maintenance and spare parts.

6. Siemens anticipates that it will sub-contract logistical, electrical and installation services to qualified local Guam companies.

7. Construction services for facility modifications, extensions and utility infrastructure are not in Siemens's scope and GIAA will procure said services through competitive sealed bidding.

8. Siemens will be an independent contractor of the Authority. The contract will be a fixed fee arrangement.

In view of the above, it is determined that sole source procurement may be authorized pursuant to Section 3112 of the Guam Procurement Regulations.

Subject: A.B. Won Pat International Airport– Guam Optimization of Existing Outbound Baggage System

Mr. Ada,

Siemens DFW operations team has been integral in the design and development of your baggage handling needs for over 16 years. This partnership started in 1998 with the construction of your original outbound sortation system and in 2008 the original system was modified for the addition of the International Transit Facility for screening of international transit bags. The partnership continued this year with the successful TSA submittal and approval for OTA Optimization funding. Contained within this proposal package is the opportunity for Guam to maintain the same compatibility and continuity you have enjoyed for the last 16 years for the TSA optimization of your existing Guam baggage handling system.

Guam Airport Strategy/Implementation Plan
Our management team is acutely aware of the specific baggage handling system renovation requirements at A.B. Won Pat International Airport (Guam). We understand the complexity and planning required to be incorporated from early on in the planning and programming phases that will lead to the successful design management process. Guam Airport poses some unique challenges due to its location and specific high profile areas of renovation. As such, our team understands that our primary reason for being is to build and maintain the communication bridge between the construction renovation process and the end user.
Specifically, we understand the importance and critical nature of renovating and expanding service areas regarding baggage handling conveyor systems. Our management team is aware of the Guam Airport operational schedules for arriving aircraft during the day, as well as the operational peaks associated with your operational departures schedule. Careful and attentive focus will be placed on the design constructability and more specifically, the construction phasing for renovation of these critical areas. Our team is sensitive to the specific requirements of performing work in an airside SIDA secure area, as well as the interface with the Transportation Security Administration (TSA). We understand that as a separate agency with unique security and access restrictions, close coordination and specific respectful communication with TSA operations officials is paramount for a successful project. Additionally, proper oversight and management to maintain security access policy for all construction team members is critical. As an extension of Guam Airport staff, the Siemens Team will place the highest priority on sensitivity, awareness, and communication with these important external stakeholders. ***We are focused on providing the least disruptive environment to TSA and Airline Operations areas to minimize process delays to allow for a positive passenger experience while maintaining operational and security integrity.***

Capacity Constraining Projects
In the case of most large airport terminal BHS renovation projects, the effect of renovation on the operational staff is the constraint that ultimately impacts the passenger experience. The successful planning for your BHS system becomes mission critical. Our seasoned expert management team will continually evaluate the design, phasing and constructability components to allow for a workable construction and renovation solution in the congested high impact areas. Our team shares obvious concerns of performing a significant renovation in an Operational Facility such as the Guam Airport International Terminal. The operational peaks for passenger throughput in the Terminal Processor areas push the existing infrastructure to the operational limits as it functions today. We understand the sensitivity of any operational impact of this renovation to the net operational impact to passengers as well as aircraft operational flight schedules. Our team believes strongly in communication and understanding of intricate details of Guam Airport and airline operations so that we can provide optimal options and contingency for a seamless renovation and expansion process.

Tel: 972-947-7100

The scope of this project will require intricate and advanced industry design solutions to accomplish the renovation, upgrade and expansion of the in-line EDS areas and newly installed baggage conveyor systems. Our seasoned design management team will work closely with the Architectural and Engineering teams to guarantee the best design and construction approach that will minimize cost and schedule impact. Specifically, our teams past Guam experience makes us aware of the structural challenges to maintain seismic design criteria as well as territory of Guam code requirements. Our team will focus on the most cost effective solution that will satisfy all external agency requirements, and allow for a minimized impact on passenger flow and security checkpoint operations. All of our team members are intimately aware of the security requirements and importance of communication and project planning with the Transportation Security Administration (TSA). ***We will involve all critical stakeholders in all of the Siemens team coordination meetings to insure and guarantee a successful project with all stakeholders concerns embraced in the planning and implementation of renovation work.***

Relationships

Our senior management and project team place the highest priority on developing and maintaining team relationships. Our core team fundamental philosophy mandates that the relationships and trust developed between Guam Airport, their stakeholders and our Program staff will only be the result of our core management approach. Our approach and cultural mantra is to embrace the constraints and challenges of the operational requirements of the facility, but more importantly, to ***put the needs of Guam Airport and their stakeholders first.*** It is our duty to communicate our cultural management philosophy to all project team members including all consultants and construction trades so that a seamless respectful project execution will occur throughout.

Program Level Approach

Our Siemens Program Approach capitalizes on the unique industry gap that has been naturally created with post 9/11 security type projects. Prior to full EDS in-line technology, the BHS market sector focus was limited to relatively simple technical solutions with only a minimum to moderate amount on conveyance apparatus. In contrast, the considerable increase in technical and mechanical systems needed post 9/11 has created a BHS majority in terms of percentage of scope for many projects. Airport clients have continued on utilizing traditional A/E firms and general contractors that have a fairly minimal scope with BHS contracts. The resulting "tail wagging the dog" coupled with intermediate layers of A/E firms and GC's that do not specialize in technical BHS has produced overall poor results. Our new Siemens customer and solutions based "program approach" allows for a comprehensive Design-Build delivery method. We will have the direct responsibility to develop, coordinate, manage and maintain all the relationships and communications required for the execution of an overall successful BHS program at Guam Airport. Our program team has been carefully selected with a unique, comprehensive industry understanding. Our team understands the view of the project through the client's perspective. We understand that the design management and stakeholder integration with this project is critical to developing an overall solution that embraces the program needs.

One of the most significant differences with our Siemens team is our cultural philosophy. Our team members have worked harmoniously on past projects, and all maintain the same common goal for the success of the project. We embrace the actual daily operational constraints of the airlines, TSA, Guam Airport operations, security and other authorities having jurisdiction. We invite all stakeholders to regular project meetings and also hold specific "impact" meetings. Our Impact meetings allow the potentially affected stakeholders to understand what our immediate scope of planned work is and the sequences of the work, lay-down areas, working times, and security access and coordination notifications for proper communications.

We have embraced the reality that communications on a common platform is the key to success. We also have learned that communications to the specific stakeholders and regular notifications of status helps to raise the general understanding of the impacts.

Integrated Solution

The Program Team incorporates all planning elements into the master schedule. Specifically, we integrate all process steps and step durations into the schedule. The "front end" of the program schedule will include all tasks that are specific to Guam Airport and all using agencies that will require submittal and approval, as well as realistic and manageable timeframes. Each task will be identified in the schedule and therefore "resource loaded". This will bring a clear understanding of responsible party for the task, and any sub-tasks associated with them. The integrated schedule coupled with the workflow Progress Curve module will allow a high level or detailed level of monitoring and

Siemens Postal, Parcel & Airport Logistics LLC

Tel: 972-947-7100

management available for review at all times. This program level monitoring will inform management early on of any Schedule and/or Cost slippage so that a mitigation plan can be implemented.

Initial Program Level Tasks
Our program team will develop a comprehensive master planning and programming BHS schedule that will embrace all required process steps from Guam Airport as well as external agencies and authorities having jurisdiction. We conduct a series of stakeholder meetings and develop detailed sequencing of tasks that need to be performed in the initial "design phase". A Program Needs Assessment is performed by the team to determine all the design criteria for the proper communication of scope to the design team. The needs assessment will consider functional space requirements, constructability, code compliance, operational requirements, cost and schedule.
The design phases for each project will also include the operational considerations for continued and uninterrupted airline, TSA and airport operations. Proper understanding of the detailed operations will allow the program team to coordinate some of the specific Program Level tasks that benefit the project.

Specific Program Level Tasks
Maintenance of Traffic (MOT) is a common focal point in our renovation and expansion activities. Our program team is focused on bringing an overall solution to the planned impact areas, and we plan and implement changes in current airport operations to accommodate the flow of aircraft, ground support equipment and services in conjunction with construction activities. A cohesive team effort at a high level allows for a communication to all levels of operation in the AOA and terminal support areas.
We continually interface with the airline operations groups as well as TSA to determine the best approach to renovation in every project area. Temporary facilities as well as temporary traffic routing and signage is very important from a safety aspect as well as an operational efficiency. Our detailed phasing of BHS installation allows for a seamless operational integration of existing systems.

The following proposal details the proposed scope and price to manufacture, furnish, and install the new baggage screening system.

Our proposal pricing is valid for 30 days. If you have any questions please call Dan Stricklin at anytime at (972) 947-7465 or on his cell at (817) 475-6240.

Best Regards,

Gert Seidel
Chief Executive Officer

1 Introduction

1.1 Overview

This proposal document is to outline the work necessary to complete the Engineering, Manufacturing, Installation, testing and implementation of the Baggage Handling System (BHS) equipment for the A.B. Won Pat International Airport Guam Transportation Security Administration Other Transaction Agreement Optimization Effort.

The objective of this project is to implement a new Inline Checked Baggage Inspection System (CBIS) solution that is Planning Guidelines and Design Standards (PGDS) v4.1 compliant, cost effective, schedule friendly, minimizes the disruption to existing operations, improves customer service and supports Airport growth opportunities. This will be accomplished through a 470 day project duration which consists of 5 distinct phases. The BHS phasing plan will consist of: demolishing of the existing BHS conveyor equipment; implementing a new collection conveyor which is feed by the 5 existing ticket counter conveyors; installation of a new CBIS and CBRA; replacement and reconfiguration of a new BHS sortation and manual encode while maintaining the existing double stacked sort piers.

2 Engineering

The oversight of the final detailed Engineering for this project will be performed by the members of the Design Team. The Mechanical and Electrical Engineering disciplines will further develop the 100% Design Package as described below in the following sections.

2.1 Mechanical Engineering

The mechanical engineering scope shall bridge the gap between the 100% Design Package and the final Issued for Construction drawing package. Below is a list of required deliverables that mechanical engineering is responsible to complete the BHS project.

1. General Arrangement and Elevation drawings
2. Structural Header steel and point load drawings
3. Catalog Cuts
4. Participate in Coordination effort with GC
5. Bill of Materials / Order Entry
6. Structural Supports to meet seismic zone requirements
7. PE Stamping of required drawings
8. Generate Recommended Spare Parts List
9. Issue for Construction Drawing Set
10. Field Support when required
11. Issue As-Built Drawing Set

2.2 Electrical & Controls Engineering

The electrical engineering scope shall bridge the gap between the 100% Design Package and the final Issued for Construction drawing package. Below is a list of required deliverables that electrical engineering is responsible to complete the BHS project.

1. ENET / CNET drawings
2. Field devices and control stations drawings
3. Motor Control Panel drawings
4. Re-Control of existing conveyors as required
5. Catalog Cuts
6. Description of Concept of Operations
7. Graphics Software Package
8. Required Programming for BHS
9. Factory Acceptance Test
10. Develop Field Test Plans
11. PE Stamping of one-line drawings
12. Generate Recommended Spare Parts List
13. Field Support when required
14. Testing and Commissioning
15. Issue As-Built Documentation

3 Manufacturing

Manufacturing includes all mechanical equipment and electrical hardware required for the Baggage Handling System installation. The proposed Equipment is standard Siemens components and conveyors. The color of the new BHS is blue. The new BHS will use SEW Eurodrive Gearmotors and Movimot VFD per the equipment list provided in Section 12 Attachments of this document. The Controls Hardware is based on an Allen Bradley platform. All MCP's will have IEC motor starters.

Below is a summary of the Mechanical equipment used on this project:

4 Shipping & Logistics

Guam Logistics Plan

1. For the Guam Baggage Handling Optimization Project, Siemens has produced a comprehensive Logistics Plan, below is a high level description of the process. For additional information please review the table below.
2. Siemens will contract with a local DFW cargo and logistics company to accept all manufactured items to be purchased by GIAA for this project. The local DFW logistics company will receive and inventory all products manufactured and delivered by Siemens and Siemens 3rd party drop ship suppliers delivered to them for packaging, containerizing and shipment to Guam. All product shipments will be coordinated to occur within certain times so a Siemens quality manager can review each shipment for completeness and damage upon arrival to the cargo facility. The same materials will be prepared for overseas shipment by ocean freight. They will provide all necessary paperwork for Sea transit including a detailed BoL, custom forms, insurance forms, etc. The manufactured items will be loaded into containers and delivered to the Dallas Rail ramp for transport by rail to the outbound port. Each container will be loaded based upon the final detail project phasing plan. The material will be transported via ocean freight to Guam.
3. A local Guam logistics company will be designated as the receiver in Guam to obtain status reports for shipments. Upon arrival in Guam, all necessary customs paperwork will be completed and each container will be processed though Customs Clearance and then delivered to our local Airport warehouse.
4. Once received at the Airport warehouse the local Guam logistics company will provide container drayage, unload and stage and store the equipment until the final delivery to the job site. Materials stored will be based on Site Managers preferred layout for delivery. All materials will be inventoried upon receipt at warehouse and site.

GUM Optimization Material Logistics Plan			
Guam Logistics	DFW Cargo + Logistic	Siemens	Guam Warehouse
Receives all transit paperwork from DFW CL	Collects Siemens Manufactured Equipment from DFW Facility	Manufactures Conveyor Equipment	Receives Sea Containers and performs the unloading at Warehouse facility
Coordinates with Shipping Company as the receiver in Guam to obtain status reports	Receives Drop Ship Material for transit	Site Manager uses detailed BoL for Installation Planning	Stores material in accordance with Site Managers preferred layout
Provides regular status reports to Siemens and DFW CL on transit.	Stores Manufactured and drop ship Equipment at DFW CL Facility	Site Manager observes the unloading and Goods Receipt[t to advise of any issues	Creates material inventory of all parts in storage
Coordinates receipt with Port of Guam and CBP	Coordinates with Ocean Freight Company to arrange Sea Containers, Ship availability, Insurance etc	Site Manager creates preferred materials storage layout for the Warehouse in Guam	Loads material delivery trucks in accordance with Siemens Site Manager pick list
Completes all necessary customs paperwork and walks equipment through the customs process in Guam	Packs and Crates all Equipment for Sea Transit – producing optimized can loading scheme to minimize wasted space	Site Manager creates materials pick list for transfer to job site for installation – daily and weekly	Deliver materials to installation site as required
Transfers all Sea containers to warehousing facility and oversees unloading	Creates all necessary paperwork for Sea Transit including detailed BoL, customs forms, insurance forms etc		Updates inventory as materials are consumed referencing pick list and date delivered
Produces goods receipt report including photographic evidence of delivered equipment	Sends copies of all paperwork to Siemens and Baker International for reconciliation in Guam		Creates weekly inventory status report (including photos) for Siemens Project Manager and Site Manager
Completes insurance paperwork to support claims if necessary	Transports all containers to Port and oversees loading		

5 Installation

5.1 Mechanical Installation-Siemens & Local Subcontractor

1. Obtain and provide installation permits and license fees
2. Install Header Steel
3. Conveyor installation
4. Install Conveyor supports
5. Install Sway Bracing
6. Install Seismic Bracing
7. Install Motors & VFDs
8. Install Conveyor belting
9. Set all Motor Control Panels (MCP) in place
10. Remediate all mechanical punchlist items
11. Provide redlined mechanical drawings of as-built system
12. Provide Testing support
13. Provide Commissioning support
14. Install casters on CTX entrance and exit queues
15. A quantity of (17) TSA inspection tables will be will be installed
16. Provide installation rental equipment
17. Provide tools and consumables
18. Provide dumpster
19. Provide mobilization
20. Provide airfare expenses
21. Provide living and travel
22. Provide insurance
23. Install TSA Work Stations mechanical
24. Install CBRA Cladding Hot Rolled
25. Install EDS Static Wedges
26. Install Stainless Steel Cladding on Turns
27. Install Seismic Bracing - Both Compression and Sway

5.2 Electrical & Controls Installation

5.2.1 Electrical – Siemens & Subcontractors

1. Obtain and provide installation permits and license fees
2. Install all field devices including – motors, photo eyes, shaft encoders and other electrical devices.
3. CTX – Morpho supplies all UPS's for each machine, cabinet is 24"x32" with 12" between units. Each machine gets 1 - UPS (inverter) Cabinet and 1 - Battery Cabinet. Add the location of these units to the drawing and coordinate with EMPSCO

   a. As you face units, the doors are hinged on the right side.
   b. Two disconnects are required, one prior to the Inverter and second prior to the 50 Amp outlet for machine
   c. Each unit is shipped with 4-L shaped mounting brackets to mount to floor, use either wedge or tapcon anchors for installation
4. Twist locks are required. No terminal strips will be allowed for quick disconnect at EDS queues, terminal blocks were not considered quick disconnects.
5. Install quick disconnects and casters for queue entering and exiting the EDS machines
6. A quantity of (17) TSA tables will be purchased by Siemens and installed. Siemens will provide either written scope or wire diagram drawings for the TSA workstation installation for electrical installer.

5.2.2 MUX Room Coordination

This section describes items that must be coordinated between all parties including Siemens, TSA, Project General Contractor, and Airport Management.

1. The MUX room will share multiple racks because the TSA has lockable racks. The PLC, GIAA and TSA racks will be in the in same room that is lockable with ability to see who entered room and when via card reader.
2. Siemens to supply cord to attach above for UPS for Rack in shared MUX room, cords on floor create tripping hazard.
3. MUX room Air Conditioning required for maintaining the proper environment for equipment is to be provided and installed by the project general contractor.
4. All power and data will be fed from above for MUX Room.

6 Testing & Acceptance

After installation of the BHS, Siemens shall demonstrate its operating capability. Prior to the start of the Systems Acceptance Testing "debugging" and internal testing of the system will be substantially complete.

1. Mechanical Testing
    a. Mechanical Static Inspection must be performed and documented to ensure the system is installed per the contract drawings and specifications. A static check sheet will be provided for each conveyor.
    b. A load test of the conveyors must be performed per the specifications to ensure the conveyor system is capable of transporting the desired baggage load.
        i. The load is determined by the baggage weight and the speed of the conveyor with 20 lbs/ft being the minimum requirement.
        ii. The test shall consist of loading the conveyor with the pre-determined weight spaced equally across the belt.
        iii. The conveyor is started and the load must ramp up and travel to the adjacent belt without slippage or any tripped breaker / blown fuse.
        iv. If the conveyor starts and runs - the test has passed
        v. If the conveyor is slipping or fails to start – the test has failed and the problem must be resolved.
        vi. A Load Test Plan shall be submitted 30 days prior to actual test commencement.
2. Electrical Testing
    a. An Electrical Static Inspection will be performed and documented to ensure the system is installed per the contract drawings and specifications.
    b. A static check sheet will be provided for each MCP.
3. Functional Testing will be performed and verified to ensure the system performs per the contract specifications and drawings.
    a. Functional testing will be completed before TRR and Battelle Testing is started.
    b. A Functional Test Plan shall be submitted 30 days prior to actual test commencement.
4. IT and Software
    a. IT and Software will be performed and verified to ensure the system performs per the contract specifications and drawings.
    b. IT and Software testing will be completed before TRR and Battelle Testing is started to ensure graphics and reporting has been completed.
    c. A Test Plan shall be submitted 30 days prior to the actual test commencement.

5. TSA Testing

The BHS system will be tested under the current PGDS v4.1 requirements. A Throughput and Rate Test will be performed to ensure that the contract specifications
are met. The system requirements will be based on the N + 1 criteria set forth by the PGDS v4.1. The existing Legacy systems, both the Check-in input System and Outbound Sortation system will not be upgraded or tested to meet these requirements as this is the responsibility of Owner. A Site Specific Test Plan by TSA authorized representative shall be submitted 30 days prior to actual Test commencement.

a. A "dry test run" will be performed prior to conducting the TRR/Battelle Acceptance Test per the PGDS v4.1. This Pre-TRR testing will be performed to validate the system readiness status for the TRR. Test results will be published to GIAA or its representatives.
b. Upon successful Pre-TRR testing, final scheduling conformation and coordination with the TSA to perform the TRR will be completed.
c. TRR Testing will be performed.
d. TRR Test results will be analyzed, any deficiencies will be remedied and any issues will be resolved.
e. TSA recommendations from the TRR that are required for acceptance will be implemented.
f. TSA recommendations from the TRR that are not required for acceptance will be analyzed for impact to the system and presented to GIAA for cost benefit analysis.
g. Upon successful TRR testing, final scheduling conformation and coordination with the TSA to perform the iSAT will be completed.
h. iSAT will be performed.
i. iSAT Test results will be analyzed, any deficiencies will be remedied and any issues will be resolved.
j. TSA recommendations from the iSAT that are required for acceptance will be implemented.
k. TSA recommendations from the iSAT that are not required for acceptance will be analyzed for impact to the system and presented to GIAA for cost benefit analysis.
l. Upon receipt of TSA approval for live operational use the system will released for use of screening of live bags.
m. Upon start of live bag screening the TSA 30-Day run in period shall commence.

7 Training

7.1.1 Operation and Maintenance Training

7.1.1.1 General

1. Instruct and train the Owner's operating and maintenance personnel at the worksite in a maximum of three (3) training sessions. Additional training sessions shall be provided for the Owner's BHS Operating and Maintenance personnel. Conduct this training prior to Substantial Completion.

2. Training is to be provided by an in-house subject matter expert.

3. Provide all tools, equipment, materials and supplies, and perform all functions and services required to complete the training as specified. With the exception of safety and overview training, training shall be divided into separate categories for operations training and maintenance training further broken down to specific trades.

4. No actual operations training of a piece of equipment will be permitted until the equipment is properly installed and is operational.

5. A detailed description, with associated training material/documentation, of the proposed training to be conducted shall be submitted to the Owner or his representative for review and approval in accordance with the schedule of submissions.

6. Times and duration of the classes may involve irregular hours in order to provide training of the operational and maintenance personnel on different shifts.

7. Develop and maintain a training attendance record for all operation and maintenance training sessions presented. The record is to note the following information in duplicate form. The original copy of the record shall be submitted to the Owner or his representative with the second copy being retained by the Contractor for his files. The recorded training information must include for each session:

    a. Date of training session
    b. Name of project
    c. Name of Instructor
    d. Subject of training
    e. Time of training session
    f. Signature and department of each attendee

7.1.1.2 Operational Training

1. Provide formal instruction of the Owner's operational personnel at the site who will be charged with operation of the BHS. Include a description and on-site demonstration of the electrical controls and their operation, modes of

operation, the operating limitations of the equipment and the safety devices and their functions.

2. Minimum requirements for Operational Training shall include, but not be limited to, the following:

   a. Bag placement on load conveyors.
   b. Tub usage and loading.
   c. Operating procedures for all BHS conveyance equipment.
   d. CBIS failsafe procedures and layout – including responsible party for clearing failsafes, as coordinated with local TSA.
   e. Provide description of the BHS Control Interface with CBIS.
   f. System Safety procedures, including lock-out and Tag-out requirements.
   g. Bag Jam Clearing procedures, as coordinated with the Airport's O&M group and local TSA.
   h. Sensitive Security Information (SSI) Training for any BHS/CBIS related reports that are classified as SSI; this training shall comply with government SSI guidelines as per the TSA's PGDS.

3. Provide a minimum of 10 hours of operational training per shift for this project, for a minimum of three (3) shifts.

7.1.1.3 Maintenance Training

1. Provide formal training of the BHS maintenance personnel with the objective of preparing the employees to perform the required preventive maintenance to minimize breakdown and to perform necessary repairs when work stoppages or breakdowns of the equipment occur. The training shall include, but not limited to the following:

   a. Preventive and corrective maintenance procedures, including replacement of parts; lubrication quantities, types, frequencies and application points; and an estimate of the time to perform such procedures.
   b. Special tools, techniques, or procedures required for either preventative or corrective maintenance of the equipment, or it's auxiliary or support components.
   c. Procedures to perform adjustments required for alignment, wear and calibration for all preventative and corrective maintenance, and an estimate of time required to perform such procedures.
   d. Assembly and disassembly procedures, including parts lists required for appropriate and corrective maintenance. Models, "exploded" views, and audiovisual materials shall be used for training. These materials shall be provided to the Owner or his representative upon completion of training. Hands on field training shall be provided, subject to the approval of the Owner or his representative but if in excess of the one (1) scheduled session, extra charges may apply.

2. The formal training shall consist of classroom and on the equipment training, as required to properly train personnel for each shift, prior to the start of operation. The training must cover all aspects of the electrical and

mechanical equipment provided in this project. The electrical aspects shall include but not be limited to, electrical controls and control systems and PLC control systems.

3. On-site training shall be scheduled to commence immediately following classroom training and shall stress hands-on performance based application of the classroom training. Equipment shall be started and relevant systems and components shall be demonstrated.

4. Provide a minimum of 20 hours of maintenance training per shift for this project, for a minimum of three (3) shifts.

7.1.1.4 Supplemental Training

If the Owner requires supplemental training beyond that specified above, provide at a time and at rates as mutually agreed upon between the Owner or his representative and the Contractor.

8 Project Closeout

1. All equipment inspections performed by GIAA or their appointed representatives have been completed and accepted by GIAA. Siemens will have received the results of this inspection in writing.
2. Passed all CBIS testing and acceptance criteria as defined by PGDS 4.1 including SAT, iSAT and Operational Run-In. Successful completion of all of these activities will be documented by the TSA or their appointed representatives
3. Performed and documented all test and commissioning activities on equipment not covered under PGDS 4.1 to the acceptance performance criteria defined by the Siemens BHS design package described in this proposal and accepted by GIAA for Operational Use. This acceptance by GIAA will be recorded in writing
4. Completed and provided a full set of "As-Built" design drawings for both the mechanical and electrical systems, complete with a drawing and equipment manifest, PLC code and Descriptions of Operation
5. Provide an "As-Built" AutoCAD drawing of the BHS layout
6. Completed all documented punch list activities provided by GIAA
7. Provided and completed all O&M documentation and training as defined by Siemens in the O&M manual supplied to GIAA
8. Issue a Final Payment and Lien Waiver Release (On receipt of final payment)
9. Issue Final Warranty Procedure Document (Interim documents will be released for phases put into operation early) to include all required contact and replacement part numbers
10. Perform full site demobilization

9 Schedule

The preliminary schedule reflects a ------ day project from issuance of a Notice to Proceed. A brief outline of the projected key milestone dates are presented below:

1.	Contract Award	9/30/13
2.	Start Installation	6/05/14
3.	Battelle Certification / Live Bags	5/11/15
4.	System Complete	7/09/15
5.	Project Closeout	8/06/15

NOTE: Siemens will be providing BHS milestone updates to the PM/CM for integration into the overall project schedule. The airport or designated PM/CM is responsible to coordinate all GC works to accommodate and enable the BHS per the phasing plan presented in the schedule. Any cost arising from schedule delays or sequencing changes are not included.

Please refer to Section 12 "Attachments" for a detailed project schedule.

10 Pricing & Cost Clarification

1. **Pricing:** Siemens is pleased to provide the proposal for the work described in this document for the "Base Price" of **$17,995,424.00 USD**. The Base Price includes BHS Engineering, Manufacturing, Installation, Testing and Commissioning, Start Up and System Warranty as described in the project contract documents. This Base Price is based on the 70% TSA submittal drawings and documentation. Any modifications made to the baggage handling system design after the TSA 70% submittal have not been accounted for in this proposal. Changes in scope may arise between the 70% and 100% submittals and any agreed to changes in scope will have to be priced and contract amount modified.

    a. **Engineering Labor:** Consists of engineering design, drawings, documentation, coordination, programming and commissioning.

    b. **Field Labor:** Field labor consists of installation labor as well as project management, quality management and installation management, which is necessary to supervise the additional scope.

    c. **Mechanical and Electrical Labor:** This labor consists of Millwright mechanical foreman and electrician foreman that are qualified and experienced BHS installers on the project. Installation efforts are described above.

    d. **60 Day Standby Support** – 60 Days after Screening System goes live. For the 60 day standby, after the CBRA Live date, we have included two engineers (one PLC and one Software) for one week 8 hours/day onsite with the remainder of the sixty days to include one PLC engineer onsite with a software engineer available remotely 24/7. We have also included two mechanical and two electrical installation support staff for 30 days (16 hours per day).

    e. **After the Sortation Live** date for ML2 we have included 30 days onsite for one PLC engineer 8 hours/ day and a Software engineer available offsite remotely 24/7. After that and additional 30 days for both the PLC and Software engineers will be available with remote access 24/7. (see diagram below)

    f. **Taxes.** The foregoing price includes a 4% Guam goods received tax for equipment and materials being shipped into Guam. A Business Privilege Tax (4%) is not included and Siemens is seeking an exemption from this tax on the basis that it is the sale of property to the Guam government (GIAA as an agency of the Guam government). In the event the exemption is denied, Siemens will add the 4% Business Privilege Tax as a separate line item to each invoice.

g. **30 Day TSA run-in** (operational period) we have included 1 PLC Engineer, 2 mechanical and 2 electrical installation personnel above the onsite and 1 Software Engineer remote. The software engineer will be onsite for the first 7 days of the run-in and then available offsite with remote access. For next 30 days after completing the TSA run-in (operational period) we have 1 PLC Engineer and 1 Software Engineer available offsite with remote access.

h. **30 Day Standby Support** – 30 Days after Sort System goes live. For 30 days after beneficial use of entire sortation system TSA run-in (operational period) we have included 1 PLC Engineer onsite and 1 Software Engineer remote. The software engineer will be onsite for the first 7 days after beneficial use and then available offsite with remote access.

2. **Options** The following additional options are made available for purchase from Siemens. The following options are not included in the foregoing lump sum price. Each of the options listed below are only valid for 20 days after NTP.

   a. Installing the redundant MDS workstation from the new CBIS control room and temporally installing it in the existing control room. This will allow the existing control room to review and monitor the entire system in one location during the 5 phases. As the new sort controller comes on line with phase 1 of the CBIS, it will only integrate the additions to the system until completion of the final phase. This option will eliminate the need to monitor from both control rooms at the same time once bags start using the conveyors in the new CBIS system. Once the full system is completed, the redundant MDS workstation from the existing control room

will be installed in its final configuration in the new control room and the old control room will be demolished. **Price $24,748**

b. The base system only contains one hand scanner on the alarm line located at the last station for the reinsertion bags, AL4-33. This price includes adding hand scanners at all TSA work stations on the alarm line not in base bid for bag tracking reporting. **Price $50,905**

c. The base system does not contain any hand scanners on the OG line at the TSA workstations. This price is to include hand scanners at all OG and OS TSA work stations in base bid for bag tracking reporting. **Price $39,564**

3. **Clarifications and Exclusions**

a. The price includes **$109,000** for commissioning spare parts in our proposal. This amount will cover mechanical and electrical commissioning spares and this order will be applied to the final spares amount.
b. The pricing includes an allowance of $268,753 for the 4% use tax on equipment sold to site but does not include taxes for a 4% business privilege tax for which we were seeking an exemption. If the exemption is denied for any reason then we may have to add tax to the invoices thereby modifying the price.
c. Included an allowance of $120,000 for Building Permits and Fees.
d. We have not included any costs for temporary electricity that would be required to perform the work within the construction zone.
e. We have not provided any costs for toilet facilities at the Terminal.
f. For all 58 existing conveyors not demoed (TC1 thru TC5, OS1, OS2, and all Sort Piers (SP) will reuse all existing field mounted devices, motors, and wiring. The 48 re-controlled TC1 thru TC5 and existing SP conveyors will be integrated into the new MCP's. All existing SP clutch brakes will remain. The existing OS1 and OS2 conveyors will remain in the existing MCP's in the field.
g. Warranty starts at beneficial use for each phase of the system. Certification will be given at time of beneficial use.
h. We are reusing the existing outside radius of TC1-2 and TC5-2 stainless steel cladding for the new 45" wide Powerturns.
i. We have included a modem for internet connection, internet connection to be provided by others. This remote access must be made available as shown on our proposal schedule.
j. Sample bag tags will be provided by others to confirm the readability of the ATR system.
k. We have not included any costs to provide power upgrades that may be required for the BHS. We have not included new or modifications to existing Power Distribution Panels (PDP), wiring, and conduits associated with the power upgrade requirements. Siemens price is based on the

proper power supplied to each MCP panel. Siemens is responsible from the MCP panel to final termination to the BHS system.

l. Included is one Battelle system test. Additional Battelle testing is not included. We have included all labor and test bags for internal testing of our system.
m. Core drilled Bollards / impact protection by others
n. No costs or scope have been included to design, install, move or protect any TSA supplied equipment or TSA subcontractors equipment.
o. No Program Management or Construction Management Services have been included:
    i. MOT Plan by others
    ii. GC Permits by others
    iii. Overall Integrated Project Schedule by others
    iv. Demolition of GC related scope by others
    v. Dumpsters for Siemens work only
    vi. Clearing of Right of Ways for BHS by others
    vii. Concrete or Masonry work by others
    viii. TSA Reimbursement Application by others
    ix. OSR and MUX Room setup by others
    x. MEP by others
    xi. HVAC by others
    xii. Fire Protection or Modifications to fire protection (fire sprinkler) including any heads required for BHS by others
    xiii. Daily Coordination Meetings managed by others
p. Siemens assumes that the CM/GC will handle all project scheduling requirements for this project. Siemens will provide BHS inputs for airport schedule.
q. Not included are any costs for a Guam office. It is Siemens understanding that the airport is to supply Siemens with office space behind the secured wall capable of housing 6 people.
r. No General Construction costs have been included.
s. Included in this proposal are Building Permits and Fees for BHS scope only.
t. Included in this proposal is Guam Goods Received Tax on goods shipped to Guam but does not include the Business Privilege Tax in the event an exemption is denied.
u. Included in this proposal are Payment and Performance Bonds.
v. Included in this proposal is owner Liability Insurance
w. Included in this proposal is a 1 year warranty from Substantial Completion or Beneficial Use of each phase.
x. Not included are any costs for airport, BHS, or PGDS required TSA CCTV.
y. Not included are any General Construction costs, like x-raying structure, cutting openings, pouring concrete, analysis of existing build structure, power upgrades, PDP's, etc.
z. Demolition of conveyor equipment includes removal from site but does not include disposal fee costs to remove from the island if required.
aa. Any additional requirements of section 19.15.2 of the General Provisions (redlined) v5 document that the parties have not agreed to during the Preconference are excluded.

11 Terms & Conditions

This offer is made subject to the GIAA Base Form Contract Template Redlined v.5 (Exhibit 7), GIAA General Provisions Redlined v.5 (Exhibit 8), the Siemens Special Provisions (Exhibit 9). Siemens was not provided the exhibits shown in the Contract Template list and will review same when submitted but does not anticipate any material changes. Siemens understands that the parties have not yet reviewed or agreed upon any modifications or supplemental terms contained in the foregoing exhibits and is willing to negotiate terms as required. Except as otherwise provided herein, all deliverables by Siemens will be in conformance with PGDS 4.1 as published by the Transportation Security Administration (TSA) as it applies to the delivery of the BHS system described in this document along with attached layouts and drawings.

This offer is valid for 30 days from the date of this document.

ANTONIO B. WON PAT INTERNATIONAL AIRPORT AUTHORITY, GUAM
BOARD OF DIRECTORS RESOLUTION NO. 14-01

RELATIVE TO THE
EXTENSION OF THE AGREEMENT FOR LEGAL SERVICES –
CONFLICTS COUNSEL
WITH FISHER & ASSOCIATES

WHEREAS, an Agreement for Legal Services – Conflicts Counsel (the "Conflicts Counsel Agreement") was entered into in December 2011, by and between the ANTONIO B. WON PAT INTERNATIONAL AIRPORT AUTHORITY, GUAM ("GIAA") and Fisher & Associates; and

WHEREAS, the Conflicts Counsel Agreement provides for a term of one year with four options to extend for a period of one year each, not to exceed a total contract period of five years with GIAA approval; and

WHEREAS, the Board of Directors has determined that GIAA continues to require the services of conflicts legal counsel and that it is in the best interests of GIAA to extend the term of the Conflicts Counsel Agreement for an additional one year period commencing on December 1, 2013, under the same terms and conditions as set forth in the Conflicts Counsel Agreement.

NOW, THEREFORE, BE IT RESOLVED, that the Board of Directors of GIAA hereby extends the term of the Conflicts Counsel Agreement for an additional one year period commencing on December 1, 2013, under the same terms and conditions as set forth in the Conflicts Counsel Agreement.

DULY AND REGULARLY ADOPTED BY THE BOARD OF DIRECTORS OF THE ANTONIO B. WON PAT INTERNATIONAL AIRPORT AUTHORITY, GUAM AT THE OCTOBER 31, 2013 REGULAR BOARD MEETING.

EDWARD G. UNTALAN, Chairman	**ROSALINDA A. TOLAN**
JESUS Q. TORRES	**MARTIN J. GERBER**
LUCY ALCORN	**PEDRO P. ADA III**

AIRLINE ISSUES

Oren Air Charters

Avia Charters and HIS Tour officials met with Airport officials on October 22, 2013 to discuss the commencement of once weekly charter services by Oren Air from Khabarovsk and Vladivostok, Russia. The inaugural flight for Khabarovsk/Guam is scheduled for November 7, 2013 with an arrival time of 1:40 pm and departure at 3:00 pm, and is scheduled every Thursday through March 2014. The inaugural flight for Vladivostok/Guam is scheduled for November 8, 2013 with an arrival time of 12:45 pm and departure at 2:00pm, operating on Fridays through March 2014. Oren Air will be utilizing B737-800 series aircraft with a one-class seating configuration of 189 seats for both flights.

Japan Airlines

Japan Airline's (JAL) business profile has expanded with the opening of a full flight crew training center here at the A.B. Won Pat International Airport Authority, Guam (GIAA). A certificate presentation took place on Monday, October 14, 2013. Lt. Governor Ray Tenorio presented certificates to 4 cadets who started flight training on Guam. The cadets will be trained to operate two of JAL's fleet models that include the B737-800 and the B767-300. In addition to take-off and landing, they will also be practicing touch-and-goes. Aircraft will remain overnight over a ten-day training period each month for a period of five years.

Japan Airlines has announced it will be operating charters in Winter from Tokushima and Takamatsu, Japan, in addition to their regularly scheduled flights from Narita.

Fiscal Year 2013 Financial Audit

The Entrance Audit with Ernst and Young is tentatively scheduled for mid-November 5, 2013. The purpose of the audit, preliminary timelines, the accounting system, reporting activity and internal controls will be discussed with the Auditor prior to commencement of the project.

FAA Issues

UDO Projects

In a teleconference held on October 24, 2013 with the Honolulu District office, GIAA Management and staff reported on the status of GUM UDO projects with the FAA. Detailed information will be presented in the status of CIPs in Old Business, Item D.

Airport Emergency Table Top Exercise

GIAA is in the planning stage of its Table Top Exercised scheduled for December 4, 2013. The annual Table Top Exercise a requirement for the GIAA pursuant to Code of Federal Regulations (CFR)Title 14, and Federal Aviation Regulation (FAR) 139.

Executive Manager's Report
GIAA Board of Directors Meeting
October 31, 2013

Legislative Issues

A roundtable discussion was held November 23, 2014 at the Legislative Session Hall on the Customs Users Fees which recently increased from $6.36 to $8.29 per passenger. The User Fees offsets the rent Customs pay for space in the Terminal and the Integrated Air Cargo Facility.

ANNOUNCEMENTS

- A Veterans Day Event is planned for November 8, 2013. The Families of our Fallen Heroes will be presented the banners now on display in the East Ticket Lobby. A digital presentation on a 52 inch flatscreen will honor our Fallen Brave thereafter. Airport staff is working closely with the Fallen Heroes of the Pacific Foundation and the Family Support Group of the National Guard to ensure all honor and respect are given to our heroes and their survivors.

- The 9th Airports Council International Asia-Pacific Small Airports Seminar hosted by the Guam International Airport Authority ended on a very successful note with delegates commenting on the quality of speakers and topics, and rating as a very favorable conference location and organization. Thank you to all Board members who attended the Developing Nations training on Airport Finance, and to all Board, Management and staff who participated in the conference as part of the committee or attending participants. All delegates especially enjoyed the social activities hosted and commented on the hospitality and great food they were provided during their conference on Guam.

MINUTES OF THE REGULAR MEETING OF THE BOARD OF DIRECTORS OF THE A.B. WON PAT INTERNATIONAL AIRPORT AUTHORITY, GUAM
Wednesday, November 27, 2013, 3:00p.m.
GIAA TERMINAL CONFERENCE ROOM #3

1. CALL TO ORDER AND ATTENDANCE

The November 27, 2013, regular meeting of the Board of Directors of the A.B. Won Pat International Airport Authority, Guam ("GIAA" or the "Authority") was called to order by Chairman Untalan at 3:05p.m. at the GIAA Terminal Conference Room #3, 355 Chalan Pasaheru, Tamuning, Guam, 96913.

Directors Present:	**Offices or positions:**
Edward G. Untalan	Chairman
Martin Gerber	
Lucy M. Alcorn	
Rosalinda A. Tolan	
Pedro P. Ada III	
Gurvinder Sobti	
Directors Absent:	
Jesus Q. Torres	Vice Chairman
GIAA Officials:	
Charles H. Ada II	Executive Manager
Peter Roy Martinez	Deputy Executive Manager
Carlos P. Bordallo	Comptroller
Frank R. Santos	Business and Financial Consultant
Jean M. Arriola	Air Services Manager
Gerard Bautista	Air Terminal Manager
Robert D. Camacho	Chief of Police
Frank P. Taitano	Procurement Administrator
Victor Cruz	Engineer Supervisor
Edward Muna	Airport Operations Superintendant
Joseph G. Javellana	Program Coordinator IV
Janalynn Cruz Damian, Esq.	GIAA Legal Counsel
Michael A. Pangelinan, Esq.	GIAA Legal Counsel

Chairman Untalan welcomed the presence of GIAA tenants, stakeholders, and members of the public who are noted in a sign-in sheet made as an attachment to these minutes.

Chairman Untalan welcomed GIAA's newly appointed Board Director, Gurvinder 'Bic' Sobti. Director Sobti thanked the Board for attending his swearing-in ceremony that morning.

2. APPROVAL OF AGENDA

Chairman Untalan asked if there were any changes to the agenda. No changes were requested. On motion duly made by Director Ada, seconded by Director Gerber, the agenda as presented was unanimously approved.

3. APPROVAL OF MINUTES

A. September 19, 2013 Regular Meeting *(Tabled)*

The next item on the agenda was approval of the minutes of the September 19, 2013 regular meeting. Chairman Untalan informed the Board that the minutes were tabled at the last meeting to incorporate a new format. The minutes have been modified, and resolutions are included within the minutes themselves. Chairman Untalan noted that the only change he would like to add is that it be stated in the minutes that the Directors absent at that meeting due to the weather, were excused.

On motion duly made by Director Ada, seconded by Director Tolan, the following resolution was unanimously approved:

ResolutionNo. 14-09

The Board hereby approves the minutes of the September 19, 2013 regular meeting, subject to corrections.

B. October 31, 2013 Regular Meeting

The next item on the agenda was the approval of the minutes of the October 31, 2013 regular meeting. Director Ada informed the Board that he had made a comment relative to the baggage handling system, stating that the Authority should avoid any sole source procurement; he would like to request that this comment be on the record.

On motion duly made by Director Tolan, seconded by Director Alcorn, the following resolution was unanimously approved:

ResolutionNo. 14-10

The Board hereby approves the minutes of the October 31, 2013 regular meeting, subject to corrections.

4. CORRESPONDENCE

A. Letter from Association of Mariana Islands Mayors, Vice Mayors & Elected Municipal Council Members (AMIM) Relative to a Request to Re-Open GIAA's Commuter Terminal

The Executive Manager presented to the Board a letter dated November 12, 2013 relative to requesting the Board of Directors re-open GIAA's commuter terminal for travel within the Marianas. The Manager stated that he was informed that there is an effort to increase air activity between Guam and the Mariana Islands with numerous daily flights.

The Manager reported that the old commuter terminal is currently being leased by United Airlines amongst others, and the Authority has long term contracts with those, and therefore would not be able to re-open that terminal for aeronautical use. He went on to add that GIAA will respond to the organization as to what was presented to the Board in reference to the letter. Director Tolan inquired on what triggered the request, and asked if it was a delay in processing. The Executive Manager responded that he believed the organization is trying to stimulate the economics within the CNMI.

5. OLD BUSINESS

A. Status of Capital Improvement Projects

The first matter discussed was the Status of Capital Improvement Projects. Mr. Frank Santos, Business and Financial Consultant, presented the UDO Analysis for the Board's information. Mr. Santos reported that the Authority already received half of the 2013 grants that were ratified at the last Board meeting. He went on to add that the demolition of the former GPD facility is expected to start next month with a ground breaking ceremony planned outside of the AOA to kick off the demolition phase and to get as much exposure as possible.

Mr. Santos provided the Board with a listing of Capital Improvement Projects, essentially projects that will be funded by Bond proceeds and federal grants. Mr. Santos also informed the Board that at the December regular meeting the report will provide a financial update as to what the draw-down is, how much money has been appropriated and how much money has been spent.

Mr. Santos reported that the RFP for the design portion of the Arrivals Corridor with seismic upgrades is out and will be brought to the Board at the next available meeting for award. He also stated that the bid solicitation is expected to begin in December for the construction portion of the Baggage Screening Relocation.

Mr. Santos then informed the Board of Management's intent to issue an Indefinite Delivery Indefinite Quantity (IDIQ) RFP for a number of small projects. Chairman Untalan inquired about the projects that would be covered under the IDIQ RFP. Mr. Santos responded that the IDIQ RFP would include the 'Priority 2' Capital Improvement Projects, such as the Enclosed Arrival Tunnel and the Terminal Flooring Replacement projects. Chairman Untalan asked whether all of the projects were funded by Bond proceeds or if there were other projects. Mr. Santos responded that there are other projects, which were approved as part of the budget, to include the exterior painting of the terminal, and the other large project being the replacement of the fire alarm system.

Relative to the fire alarm system, Mr. Santos added that Management will be coming to the Board to increase the budget and include approximately $600,000.00 worth of replacements to the suppression system, which are the sprinklers and that the system is from 1996. Chairman Untalan inquired on how they came up with the amount of $600,000.00, and if it meets all of the current fire code requirements. Mr. Santos responded that it was based on a review by a mechanical engineer and that it does meet the fire code requirements. Mr. Santos went on to say that the fire alarm system was removed from the Energy Management contract due to Guam Fire Department (GFD) requiring a full replacement. To replace the central lines was another $600,000.00.

Chairman Untalan suggested that in order to keep the Board informed of those ongoing projects, to incorporate them into the report somehow. Mr. Santos responded that he will work on integrating everything into the report, as well as the financial information.

Next, Mr. Santos presented Management's request to amend the Loan Agreement with First Hawaiian Bank (FHB).

At this time Chairman Untalan stated for the record that he would like to recuse himself from this discussion as he is employed by FHB. Legal Counsel, Michael Pangelinan, recommended that the Board elect an Acting Chairman for this discussion as the Vice Chairman is not present.

After further discussion, on motion duly made by Director Ada, seconded by Director Alcorn, the following resolution was unanimously approved:

Resolution No. 14-11

The Board hereby approves the nomination and election of Director Gerber to Chair the discussion relative to the amendment of the Loan Agreement with First Hawaiian Bank. Mr. Santos provided background to the Board – the loan was for the Authority's Energy Management Program for the principal amount of $11.9M, with a five (5) year term. Initially, GIAA intended to pay-off the loan with Bond proceeds; however, after further analysis it did not make financial sense. Mr. Santos explained that the legislation approving the bonds gave GIAA the authority to have subordinate loans for a term of ten (10) years. Currently on the loan, the Authority is paying interest on monies that have been disbursed. Director Tolan inquired on the interest rate. Carlos B. Bordallo, Comptroller, responded 3.75%. Mr. Santos stated that at this time Management is requesting that the Board approve a modification of the Loan Agreement to continue the interest only payments through January 24, 2014, at which time GIAA will have extended the $11.9M. Mr. Santos further advised the Board that Management will be returning to the Board for approval to extend the loan term to ten (10) years, which was part of the finance plan that was presented to the Bond investors and rating agencies.

Director Ada inquired if there were any additional fees to be paid for the extension. Mr. Santos replied no; however there will be fees to refinance to the ten (10) year period, and that modification agreement should be presented to the Board at the December meeting.

Legal Counsel, Michael Pangelinan, informed the Acting Chairman that FHB has submitted a resolution relative to the amendment, and that it would be appropriate for the Board to adopt the resolution that FHB has provided. Legal Counsel, Janalynn Damian, added that in addition to approving the modification, the resolution designates authorizing signatories, and it can be made subject to conflicts counsel's review.

With regard to designating authorized signatories, the Executive Manager stated that it has been somewhat challenging to get in touch with Vice Chairman Torres at times, and requested that since Director Gerber is serving as Acting Chairman, that he also be designated as an authorized signatory for the modification. The Board had no objection. Director Ada asked that the Board move on with the meeting at this time while waiting for copies of the resolution and continue the discussion at a later time during the meeting. Chairman Untalan asked Mr. Santos if there was anything else to present before moving on. Mr. Santos replied no.

B. GIAA Board Standing Committees

The second matter discussed was the GIAA Board Standing Committees. In order to work closely with Management on various Airport issues and concerns, Chairman

Untalan suggested establishing the following committees with respective Board Members as Chairperson:

1.	Finance/Strategic Planning	Edward Untalan
2.	Operations/IT	Jess Torres
3.	Capital Projects	Martin Gerber
4.	Tenant Relations/Marketing	Lucy Alcorn
5.	Personnel/Policies & Procedures	Lynda Tolan
6.	Air Service/Property Development	Sonny Ada
7.	Legal/Legislation/Regulatory	Open

It was noted that the open committee is available to be chaired by Director Sobti with Chairman Untalan clarifying that on that particular committee the legal aspect would be eliminated. Chairman Untalan added that if a Board member would like to assist another Committee or Board member they are more than welcome to do so.

After further discussion, on motion duly made by Director Gerber, seconded by Director Ada, the following resolution was unanimously approved:

Resolution No. 14-12

The Board hereby approves the suggested committees as presented by Chairman Untalan, with the respective Chairpersons, subject to change as follows:

1.	Finance/Strategic Planning	Edward Untalan
2.	Operations/IT	Jess Torres
3.	Capital Projects	Martin Gerber
4.	Tenant Relations/Marketing	Lucy Alcorn
5.	Personnel/Policies & Procedures	Lynda Tolan
6.	Air Service/Property Development	Sonny Ada
7.	Legislation/Regulatory	Bic Sobti

C. Board By-Laws

The third matter discussed was the Board By-Laws. Legal Counsel, Janalynn Damian, presented to the Board an updated draft. She reported significant changes such as the creation of a Secretary position to be elected by the Board from members of the Board for purposes of certifying the passage of resolutions and such. Keeping consistent with GIAA's enabling statute, the current Board secretary is to be labeled as the Corresponding Secretary to handle day-to-day matters. Ms. Damian noted that other sections were amended to conform to current Guam law.

Discussion followed relative to the definition and responsibilities of both secretary positions, with Director Ada inquiring that in the absence of both the Chairman and Vice Chairman, would the Secretary assume the position of chairing that meeting. Ms. Damian responded no, not automatically. The director chairing the meeting would still require Board action.
After further discussion, on motion duly made by Director Ada, seconded by Director Alcorn, the following resolution was unanimously approved:

Resolution No. 14-13

The Board hereby approves the amended and restated A.B. Won Pat International Airport Authority, Guam Board By-Laws as presented by Legal Counsel.

At this time, Chairman Untalan called for nominations to elect a Board Secretary. Director Ada stated that he would like to nominate Director Sobti. Director Sobti accepted the nomination.

After further discussion, on motion duly made by Director Ada, seconded by Director Alcorn, the following resolution was unanimously approved:

Resolution No. 14-14

The Board hereby approves the nomination of and elects Director Sobti to the position of Board Secretary of the A.B. Won Pat International Airport Authority, Guam Board of Directors.

At this time the Board referred back to an earlier discussion regarding the Board Resolution relative to the First Hawaiian Bank Loan.

After further discussion, on motion duly made by Director Ada, seconded by Director Alcorn, the following resolution was unanimously approved without the vote of Chairman Untalan who recused himself from this matter as earlier stated:

Resolution No. 14-08

WHEREAS, on June 27, 2012, **FIRST HAWAIIAN BANK**, a Hawaii corporation (the "Bank") agreed to lend to **ANTONIO B. WON PAT INTERNATIONAL AIRPORT AUTHORITY, GUAM**, a public corporation and autonomous instrumentality of the Government of Guam (the "Authority"), and Authority agreed to repay to the Bank, together with the interest and charges, the principal amount of $11,900,000.00 (the "Loan"); and

WHEREAS, the Loan was made pursuant to a Term Loan Agreement dated June 27, 2012 (the "Loan Agreement") and evidenced by a Promissory Note dated June 27, 2012 (the "Note"), executed by the Authority in favor of Bank; and

WHEREAS, the Loan Agreement was amended by an Addendum to Loan Agreement dated June 29, 2012 (the "Addendum"); and

WHEREAS, the Loan and the Authority's obligations under Loan Agreement and Note, as amended, are secured by a certain Security Agreement dated June 27, 2012 (the "Security Agreement") executed by the Authority as Debtor in favor of the Bank as Lender and granting to the Bank a security interest in the Collateral as defined and described therein; and

WHEREAS, the obligations of the Authority under the Loan Agreement and Note, as amended, are guaranteed by the United States Department of Agriculture ("USDA"); and

WHEREAS, the Loan Agreement and Note were amended by a Commercial Loan Modification Agreement dated August 26, 2013 (the "First Modification") extending the period during which interest only payments are to be made under the Loan Agreement and Note to November 27, 2013; and

WHEREAS, the Authority has requested the Bank amend the Loan Agreement and Note to, among other things, extend further the period during which the Authority is to make interest only payments to January 24, 2014; and

WHEREAS, the Bank has agreed to do so pursuant to a Commercial Loan Modification Agreement (the "Second Modification") in substantially the form submitted to this meeting.

NOW, THEREFORE, BE IT RESOLVED, that the execution and delivery by the Authority of the Loan Agreement, the Note and the Security Agreement all dated June 27, 2012, the Addendum dated June 29, 2012, and the First Modification dated August 26, 2013 are hereby confirmed, ratified and approved in all respects; and

FURTHER RESOLVED, that the Authority execute and deliver to the Bank the Second Modification which is hereby approved; and

FURTHER RESOLVED, that Director Martin J. Gerber and the Executive Manager of the Authority be and they hereby are authorized and directed to execute, seal and deliver to the Bank, on behalf of and in the name of the Authority, the Second Modification in substantially the form hereby approved, with such changes, additions or deletions as Director Martin J. Gerber and Executive Manager may approve, subject to Conflicts Counsel review, such approval to be conclusively evidenced by their execution and delivery of the same; and

FURTHER RESOLVED, that Director Martin J. Gerber and the Executive Manager be and they hereby are authorized and empowered to do and perform, or cause to be done and performed, any and all such other acts, matters and things as in their judgment may be necessary, proper or convenient in order to obtain the agreement of the Bank to modify the Loan, the Loan Agreement and the Note, and

FURTHER RESOLVED, that these resolutions shall constitute a continuing authority and direction to Director Martin J. Gerber and Executive Manager to act on behalf of the Authority, and the several powers and authority in the foregoing paragraphs of these resolutions shall continue until revoked by the Board of Directors of the Authority and until formal written notice of such revocation shall have been given to the Bank; and

FURTHER RESOLVED, that these Resolutions of Board of Directors may be executed in any number of counterparts, each of which, when so executed and delivered, shall constitute one and the same document, and that facsimile signatures shall have the force and effect of original signatures.

D. Signage Policy – Non-Commercial

The fourth matter discussed was Signage Policy – Non-Commercial. The Executive Manager informed the Board that GIAA's Airport Services Manager, Ms. Jean Arriola is in communication with Legal Counsel to create a Non-Commercial Signage Policy, with a draft already completed; however, there were some issues to be addressed before presenting it to the Board. The Manager stated that it would be presented at the next Board meeting.

Legal Counsel, Michael Pangelinan added that they were asked by Management to look at a Policy for Signage and after some research on airports in the United States they had found a number of airports in California that have Signage Policies, and are currently reconciling that with GIAA's existing Policy that applies to commercial advertising signage to make sure they are not in conflict because GIAA is trying to adopt something that is more geared toward non-commercial. He also informed the Board that it would be presented at the next Board meeting. Chairman Untalan noted that this item would be tabled until the next meeting.

E. Authority of Executive Manager to pay Day-to-Day Operating Expenses

The next item discussed was the authority of the Executive Manager to pay day-to-day operating expenses. Chairman Untalan referred to the discussion from last meeting relative to the number of disbursement requests and checks that he had to sign on a daily basis. In light of the controls and procedures that are already in place and that are overseen by the Comptroller and by the Board of Directors, a Board resolution has been

prepared giving authority to the Executive Manager to pay the day-to-day operating expenses, provided that the controls and procedures are in place.

Legal Counsel, Janalynn Damian presented the resolution to the Board stating that it allows the Executive Manager to pay the day-to-day operating expenses to include expenses such as utilities, retirement contributions. Ms. Damian also noted, in light of the fact that there are controls and procedures in place, such as dual signatories on disbursements and reports by the Comptroller, these payments should not have to be presented for Board approval. Chairman Untalan added that the expenses authorized for payment by the Manager must be within the approved budget.

Ms. Damian noted that the Board already has a policy in place for contracts over $50,000.00, which have to come before the Board for approval. So once those contracts are approved by the Board, the disbursements under those contracts should not need further Board approval. Mr. Bordallo asked if there would be a limit. Ms. Damian replied that the $50,000.00 still applies for contracts. The utilities are more than $50,000.00 but you would not have to come to the Board for ratification of those payments as they are day-to-day operating expenses and they are presented in the Comptroller's monthly report to the Board. Discussion followed relative to the resolution that either the Executive Manager or Chairman sign for disbursements at the Chairman's discretion.

The Board then discussed the $50,000.00 threshold for contracts, with Mr. Santos suggesting an increase to $100,000.00, for at least capital improvement projects. Director Ada asked if that issue had to be addressed now or if the Board can put more thought into it first. Chairman Untalan stated yes, it could be brought back for discussion at the next Board meeting. Director Sobti suggested the maximum cap amount be $100,000.00 for contracts. Chairman Untalan agreed with the suggested amount, and stated that it would need to be reported to the Board every month.

Going back to disbursements, Mr. Bordallo inquired if the threshold would also be $100,000.00 in terms of reporting to the Board. Chairman Untalan responded that right now the report requires anything over the $50,000.00 threshold for disbursements, and requested to leave it at that amount.

After further discussion, on motion duly made by Director Tolan, seconded by Director Gerber, the following resolution was unanimously approved:

Resolution No. 14-15

WHEREAS, the ANTONIO B. WON PAT INTERNATIONAL AIRPORT AUTHORITY, GUAM's ("GIAA" or the "Authority")enabling statute (codified at 12 G.C.A. § 1101 et seq.) provides that the Executive Manager "shall have full charge and control of the

operations and maintenance of the airports controlled by the Authority" (12 G.C.A. § 1107(a)); and

WHEREAS, GIAA's enabling statute further provides that the powers of the Executive Manager include "keep[ing] the Board advised on the needs of the Authority and approv[ing] demands for payment of obligations within the purposes and amounts authorized by the Board" (12 G.C.A. § 1107(b)(3)); and

WHEREAS, current protocols provide that all disbursements of GIAA funds are subject to dual authorizing signatures – one authorized signatory from the Accounting Department (either the Comptroller or Assistant Comptroller) and one authorized signatory from the Administration Department (either the Executive Manager, Deputy Executive Manager, or Airport Services Manager); and

WHEREAS, the expenses relating to the day-to-day operations of the Authority are included in the Report of the Comptroller provided to the Board of Directors at every monthly Board of Directors meeting; and

WHEREAS, in light of the controls and procedures already in place, the monthly reporting to the Board of Directors by the Comptroller, and the need for the Executive Manager to pay the day-to-day operating expenses of the Authority without waiting for Board approval or obtaining Board ratification, the Board of Directors has determined that it is prudent to give the Executive Manager the authority to pay the day-to-day operating expenses of the Authority without further Board approval, including, without limitation, monthly utility expenses and the Authority's share of contributions to the Government of Guam Retirement Fund.

NOW, THEREFORE, BE IT RESOLVED, that the Board of Directors of GIAA hereby authorizes the Executive Manager to pay all expenses relating to the day-to-day operations of the Authority without further Board approval, including, without limitation, monthly utility expenses and the Authority's share of contributions to the Government of Guam Retirement Fund.

After further discussion, on motion duly made by Director Ada, seconded by Director Tolan, the following resolution was unanimously approved:

Resolution No. 14-16

The Board hereby authorizes the Executive Manager to enter into contracts without Board approval not to exceed $100,000.00, with the Comptroller reporting any contracts entered into up to $100, 000.00 to the Board on a monthly basis.

6. NEW BUSINESS

The next item on the agenda was New Business.

A. Approval of Award for Rental of Trash Bin Containers and Pick-up Services – IFB No. GIAA-002-FY14

The first matter discussed was approval of the contract award for Rental of Trash Bin Containers and Pick-up Services, IFB No. GIAA-002-FY14. The Executive Manager informed the Board that an Invitation for Bid was announced to solicit bids from firms to provide rental of trash bins/containers and pick-up services in the Main Terminal building, inclusive of labor, materials, supplies and equipment. The term of the contract is for a period of three (3) years with an option for an additional one (1) year renewal period, not to exceed a total contract term of five (5) years. Four (4) firms/individuals received bid packages and four (4) firms submitted bids before the bid submission deadline. There were four different bid items, based on the size of the trash bins.

The Executive Manager requested that the Board authorize the contract award for bid items 1 & 3 of $15,680.00 to HCP Inc. dba Lagu Sanitation and bid items 2 & 4 of $90,383.44 to Pacific Waste Systems. It has been determined that both firms have met the standards of responsibility and responsiveness outlined in the Guam Procurement Regulations.

Chairman Untalan inquired if it was more effective to separate the bids. Mr. Franklin Taitano, Procurement Administrator, replied yes as not all firms are able to provide all of the sizes. Discussion followed relative to insurance requirements and tipping fees with Chairman Untalan noting the significant difference in bid amounts. Gerard Baustista, Air Terminal Manager, responded that he assumes that the firms assumed the risk of underbidding on the tipping fees and how they determined their estimates. Discussion moved to a firm not fulfilling their contract due to underbidding.

With the bids being under $100,000.00, Chairman Untalan noted the fact that the Executive Manager would now be able to approve the contract without Board approval, therefore he stated moving forward, the Board will not see these small bid amounts apart from in the Comptroller's monthly report and the Executive Manager's report.

After further discussion, on motion duly made by Director Ada, seconded by Director Sobti, the following resolution was unanimously approved:

Resolution No. 14-17

The Board hereby approves the contract awards for the Rental of Trash Bins/Containers and Pick-up Services, IFB No. GIAA-002-FY14 to (1) HCP Inc. dba Lagu Sanitation in the

amount of $15,680.00 for rental of the 3 cubic yards and 10 cubic yards bins; and (2) Pacific Waste Systems in the amount of $90,383.44 for rental of the 4 cubic yards and 24 cubic yards bins.

7. REPORT OF EXECUTIVE MANAGER

The next item on the agenda was the report of the Executive Manager. The Executive Manager reported on various matters concerning airline and charter operations. Reporting on the Fiscal Year 2013 financial audit, the Entrance Audit Meeting was held on November 19, 2013 with Ernst and Young, GIAA and the Office of Public Accountability, with the audit being completed before February 1, 2014, as mandated by statute.

On FAA Issues, the Manager updated the Board on the Tiyan Parkway, stating that after a meeting with Governor Calvo, the FAA and the Federal Highway Administration on November 18, 2013, FAA agreed to keep Central Avenue and Sunset Boulevard open until Phase 1 is completed.

Mr. Jose Ralls, the new TSA Regional Director, paid a courtesy visit to GIAA Management on November 18, 2013, with the main issue discussed being the additional TSA Checkpoints for transit passengers. Mr. Ralls was amenable to GIAA's requests and concerns and asked that GIAA submit them to him in writing.

The Executive Manager announced that GIAA is in the planning stages of its annual Table Top Exercise scheduled for December 4, 2013. The Exercise is a requirement for GIAA pursuant to the Code of Federal Regulations (CFR) Title 14, and Federal Aviation Regulation (FAR) 139.

On Tenant Issues, the Manager went on to report that Lotte Duty Free awarded the contract for the Retail Concession Renovations/Upgrade to Black Construction with work commencing on November 19, 2013. The project will be done in phases with final completion in the first quarter of 2014.

The contract for the GSA/TSA Renovations was awarded to BME& Sons Inc. for the renovation of additional offices for TSA and is scheduled to be completed within 90 days.

The Executive Manager attended the Japan Guam Travel Council Meeting held on November 20, 2013 with the main discussions revolving around U.S. Customs and Border Protection (USCBP) issues, processing times, and assistance from the ambassadors of the Airport Ambassador Program. USCBP advised that they are down to62 officers from 80, and with the U.S. sequestration, USCBP does not see any respite in the near future.

The Manager announced that the 3rd year in a row GIAA received the Department of the Year Award in the Medium Sized Agency Category at the 2013 MagPro Awards. GIAA's Runway Safety Program won Program of the Year and Mr. Oscar Aflague of the Administration Division and Mr. Thomas Perez of the Properties & Facilities represented GIAA in the Talent Competition and won first place. The following employees garnered awards in the MagPro Awards Program:

- Ricky Garcia, IACE – Airport Police Officer II, Airport Police Division
  Employee of the Year/Security & Correction
- Raymond Mantanona – Fire Captain (Airfield), ARFF Unit
  Supervisor of the Year / Public Safety
- Carl V. Cruz, A.C.E.- Airport Police Supervisor, Airport Police Division
  Supervisor of the Year/ Security & Correction
- Santiago Crisostomo – Maintenance Supervisor, Properties & Facilities Division
  Supervisor of the Year/ Labor, Grounds & Maintenance

The Executive Manager announced that the 2013 Holiday Illumination Project is underway with both the interior and the exterior of the Terminal currently being decorated with festive holiday décor and lights.

At this time Director Tolan requested that the Executive Manager give the Board an update relative to their travel to the Manila, Philippines to meet with Cebu Airlines. The Manager informed the Board that he and Director Tolan met with Cebu Airlines and were informed that they will no longer proceed under a wet lease arrangement and will wait to enter the Guam market. The Airline is expecting to be given the approval by the FAA in early 2014. However, the airline did commit to starting up in the end of 2014.

Director Ada inquired on the problems that GIAA is having with Immigration, asking if there are lines for the elderly or women with infants. Mr. Gerard Bautista replied no, that it is the Airlines' responsibility to bring those people needing assistance to the front of the lines.

Chairman Untalan inquired if there is any upcoming travel to report for the next two (2) months. The Executive Manager replied yes in January. Mr. Bordallo informed Chairman Untalan of travel requests for two (2) Accounting staff to attend an Airport Finance and Administration Conference to be held in Orlando, Florida in January 2014. Chairman Untalan reminded Management to inform the Board in advance of upcoming travel.

Discussion followed relative to the Ambassador Program, with Director Alcorn noting that if there were representatives from each airline it would be more beneficial for everyone. Chairman Untalan noted that the issue would fall under Director Alcorn's

Subcommittee, and went on to express the importance of the Board's Subcommittees becoming proactive.

At this time Director Ada congratulated Management on winning the MagPro Award for Department of the Year, and suggested that the Chairman write to the MagPro award winners on behalf of the Board recognizing their achievement. Chairman Untalan asked that the Board Secretary work on congratulatory letters, and suggested the Talent Show winners perform at the Employee Recognition Party on January 17, 2014.

8. REPORT OF THE COMPTROLLER

The next item on the agenda was the report of the Comptroller. Mr. Bordallo provided a report to the Board on the Revenues and Expenses of the Authority as of October 31, 2013. Mr. Bordallo reported that year-to-date Total Signatory Revenues are below budgeted revenues by -4.2%, year-to-date Total Concession Revenues are above budget estimates by 1.2%, and Passenger Facility Charges below budget estimates by5.8%. Further, year-to-date Total Other Revenues, inclusive of non-signatory and non-airline revenues, are below the budget estimate by 4.2%. Year-to-date Total Operating Revenues Actual of $5.16M is -2.87% below the budget estimate of $5.31M. Year-to-date Total Operating Expenses are below budget by -6.8%. The actual year-to-date Net Revenues from Operations of $2.38M reflects an increase of 2.2% over the year-to-date budgeted amount of $2.33M. The Authority's year-to-date results for Debt Service Coverage is at 1.40 versus the requirement of 1.25.

Mr. Bordallo informed the Board that there was a slight drop in enplanements from what was budgeted and those were just based on the numbers provided by the Airlines. Chairman Untalan noted the budget does not include the FHB loan and suggested that the budget be revised to reflect the pricing of the new bonds and the loan. He then inquired if the Comptroller does a balance sheet on a monthly basis, and asked that he incorporate the day's cash on the balance sheet.

Chairman Untalan informed Mr. Bordallo that the report would be adjusted moving forward to include the disbursements.

Director Tolan inquired on Accounts Receivable, and if it was included in the report. Mr. Bordallo responded no, that Accounting's system has been updated and accounts receivable will provided at the next meeting.

9. EXECUTIVE SESSION

Upon written recommendation of counsel, on motion duly made by Director Tolan and seconded by Director Alcorn, and unanimously approved, at 5:05 p.m. the Board recessed to convene executive session to discuss pending litigation.

On motion made by Director Alcorn, seconded by Director Gerber, unanimously approved, Executive Session adjourned at 5:47 p.m., at which time the Board reconvened the regular session.

At this time Chairman Untalan asked Management to explain the Memorandum of Understanding (MOU) regarding the Tiyan Parkway that was just brought to the Board's attention. Mr. Santos informed the Board that the MOU is a replacement MOU for one that was done back in 2007, and the MOU was held up because of the issues involving the closure of Central Avenue. He went on to add that the parties involved are Department of Land Management (DLM), Department of Public Works (DPW), GIAA, and Governor Calvo; it is also concurred by the two (2) federal oversight agencies, the Federal Aviation Administration (FAA), and the Federal Highway Administration (FHA); and it has also been reviewed by the parties' respective attorneys. Mr. Santos confirmed that this MOU is acceptable to all parties, including the FAA.

Mr. Santos offered a brief report to the Board regarding the Parkway issue. He stated that Phase I properties which are going to be purchased by DPW are for a perpetual easement for the working plan of Phase I. Discussion followed relative to the appraisals, with Mr. Santos informing the Board that the FAA is satisfied with the commitment from the Government with an appropriation of $1.8M.

Chairman Untalan inquired on the reason this is being bought to the Board. Mr. Santos responded stating that based on the changes that the Governor's Chief Policy Advisor made, they're ready to execute those changes, adding that the FAA and FHA were pushed to execute so there could be a formal sign off in Guam by the Government of Guam agencies this Friday, November 29, 2013. Chairman Untalan asked if Conflicts Counsel has been part of these developments. Mr. Santos replied yes, and directed the Board to page 4, section 2 of the MOU to see the Authority's responsibilities. Director Gerber inquired if it should be subject to FAA approval. Mr. Santos responded that the FAA has approved the MOU.

Chairman Untalan asked if there will be a cost to the Authority. Mr. Santos replied that the only area where there may be a cost to the Authority is the issue of drainage.

Mr. Santos informed the Board that Management will be presenting other documents from FAA for the use of the property, so there are going to be obligations from FAA on how the Authority proceeds.

After further discussion, on motion duly made by Director Tolan, seconded by Director Alcorn, the following resolution was unanimously approved:

Resolution No. 14-18

The Board hereby approves the Memorandum of Understanding by and between the A.B. Won Pat International Airport Authority, Guam, Department of Public Works, Department of Land Management, the United States Department of Transportation Federal Aviation Administration, and the United States Department of Transportation Federal Highway Administration relative to the Tiyan Parkway, as presented.

10. PUBLIC COMMENTS

The next item on the agenda was Public Comments. Chairman Untalan called upon any public member wishing to make comments. There were none.

11. ADJOURNMENT

There being no further business to address before the Board, on motion duly made by Director Alcorn, seconded by Director Ada, unanimously approved, at 6:03 p.m., the meeting was adjourned.

Dated this 7th, day of March, 2014.

MINUTES OF THE REGULAR MEETING OF THE BOARD OF DIRECTORS OF THE A.B. WON PAT INTERNATIONAL AIRPORT AUTHORITY, GUAM
Friday, December 27, 2013, 3:00p.m.
GIAA TERMINAL CONFERENCE ROOM #3

1. CALL TO ORDER AND ATTENDANCE

The December 27, 2013,regular meeting of the Board of Directors of the A.B. Won Pat International Airport Authority, Guam ("GIAA" or the "Authority") was called to order by Chairman Untalan at 3:01p.m. at the GIAA Terminal Conference Room #3, 355 Chalan Pasaheru, Tamuning, Guam, 96913.

Directors Present:	**Offices or positions:**
Edward G. Untalan	Chairman
Martin Gerber	
Rosalinda A. Tolan	
Pedro P. Ada III	
Gurvinder Sobti	
Directors Absent:	
Jesus Q. Torres	Vice Chairman
Lucy M. Alcorn (Excused)	
GIAA Officials:	
Charles H. Ada II	Executive Manager
Peter Roy Martinez	Deputy Executive Manager
Ann Bautista	Assistant Comptroller
Frank R. Santos	Business and Financial Consultant
Jean M. Arriola	Air Services Manager
Gerard Bautista	Air Terminal Manager
Janalynn Cruz Damian, Esq.	GIAA Legal Counsel

The Chairman welcomed the presence of Airport tenants, stakeholders, and members of the public who are noted in a sign-in sheet made as an attachment to these minutes.

2. APPROVAL OF AGENDA

The Chairman asked if there were any changes to the agenda. On motion duly made by Director Ada, seconded by Director Tolan, the agenda was amended as follows: Signage Policy – Non-Commercial was requested by the Executive Manger to be tabled as a draft Policy is still being drawn up.

3. APPROVAL OF MINUTES

A. November 27, 2013 Regular Meeting

The next item on the agenda was approval of the minutes of the November 27, 2013 regular meeting. Chairman Untalan requested that the minutes be tabled as Legal Counsel has not had a chance to review them.

4. CORRESPONDENCE

No Correspondence presented.

5. OLD BUSINESS

The next item on the agenda was Old Business.

A. Status of Capital Improvement Projects

The first matter discussed was the Status of Capital Improvement Projects. Mr. Frank Santos, Business and Financial Consultant informed the Board that he was deferring until next month to give his full consolidated report on federally funded projects, bond projects, and other capital improvement projects.

Mr. Santos provided a brief update on the, Arrival Corridor with Seismic Upgrades project. The Airport received eight (8) proposals in response to the design RFP, and the proposals are being evaluated. Mr. Santos added that this is a key project and Management is taking steps to ensure that cost estimates are refined and there is sufficient funding. Management requested that the Board call a Special meeting in mid-January to address the award of that RFP. At that special meeting, Mr. Santos also requested that the Board consider a time sensitive issue relative to the refinancing of the Authority's Energy Efficiency loan. At the last meeting, the Board had approved extending the interest only payments until January, with the expiring date for that being January 24, 2014.

Mr. Santos provided a brief update to the Board on other current projects to include the Airport Fire Alarm System, stating that the fire suppression system is replacement of key areas and that the project cost is estimated at $2.4M.

Mr. Santos went on to add that next month the Indefinite Delivery Indefinite Quantity (IDIQ) RFP will be issued and with that RFP the Authority will award a number of smaller projects, which hopefully will be awarded in February 2014. He added that in terms of getting an update on all the projects, possibly mid-January at the very least.

Discussion followed relative to regulations for calling a Special Board meeting in mid-January to address the items mentioned.

Chairman Untalan suggested an 'Industry Day' to give contractors notification of upcoming projects, which would be good for public relations.

B. Signage Policy – Non-Commercial *(Tabled)*

6. NEW BUSINESS

The next item on the agenda was New Business.

A. Approval of Award for Environmental Consulting Services – RFP No. GIAA-004-FY14

The first matter discussed was approval of award of the Environmental Consulting Services contract, RFP No. GIAA-004-FY14. The Executive Manager informed the Board that a Request for Proposals was announced to solicit proposals from professional environmental consulting firms to assist GIAA in the management of its environmental programs. The preliminary scope of work includes, but is not limited to, monitoring storm water discharge in accordance to NPDES permit requirements, evaluation of existing oil/water separators, evaluation of surface drainage and detention pond system, and sampling and analyses of storm water in UIC wells.

A total of twelve (12) firms picked-up a RFP package, however, only four (4) firms submitted proposals before the established deadline. After receipt of all proposals, an Evaluation Committee was established to perform an independent evaluation of the proposals to determine the best qualified proposer based on the evaluation criteria set forth in the RFP. As a result of the evaluation committee's tabulation, the selected firms in order of their ranking are as follows:

1. Proposer A
2. Proposer D

3. Proposer C
4. Proposer B

Management recommends the approval of the ranking results and the contract award to Proposer A, as the highest ranked proposer, subject to negotiations of fair and reasonable fees. In the event that the negotiations prove unsuccessful, GIAA Management will enter negotiations with the next highest ranked proposer.

Chairman Untalan requested that the Board be given the opportunity to review the proposals submitted. Ms. Janalynn Damian, Legal Counsel explained why a letter designation was used, stating that under the Procurement Law the names of the proposers are required to be kept confidential and the non-winning proposals are never made public, so until the award is finished the names of the proposers will remain confidential.

Chairman Untalan inquired on the amount of the contract. The Executive Manager replied that the contract is not to exceed $300,000.00 - $400,000.00 per year for a term of five (5) years.

After further discussion, on motion duly made by Director Ada, seconded by Director Sobti, the following resolution was unanimously approved:

Resolution No. 14-19

The Board hereby approves the ranking results and contract award to Proposer A, as the highest ranked proposer for the Environmental Consulting Services, RFP No. GIAA-004-FY14, subject to negotiation of fair and reasonable fees and legal review. If negotiations prove unsuccessful, Management can enter into negotiations with the next highest ranked proposer.

Executive Manager Ada then announced that Proposer A is PCR Environmental.

Director Ada inquired if the current contractor's, PCR Environmental, prior contract was for five (5) years also. Management replied yes.

7. REPORT OF EXECUTIVE MANAGER

The next item on the agenda was the report of the Executive Manager. The Executive Manager reported on various matters concerning airline and charter operations, to include China Air and Dynamic Air planning to conduct charters for Chinese Winter and Chinese New Year. Eva Air, Korean Air, China Airlines and United Airlines will offer direct charter flights from Japan cities to Guam from December 27, 2013 to January 3, 2014.

Management provided the Board with a list of 2013 Accomplishments and Management's Goals and Objectives for 2014 ("Go 2014") for the Board's review and information. The Executive Manager commended all of the Authority's Managers and respective divisions on all of their efforts in achieving these accomplishments for the fiscal year. Chairman Untalan inquired on the annual evaluation of the Executive Manager and if it was due. The Executive Manager responded yes. The Chairman informed the Manager that the Board will work with Director Tolan on completing that evaluation. The Executive Manager added that Management appreciates the Board members setting higher standards, and noted the importance of forming additional subcommittees such as Legislative/Regulatory and Air Service Development, as a lot of the challenges that the Airport will be facing moving forward will fall within those subcommittees. The Executive Manager informed the Board that Director Ada has already made contact with Management for the first Air Service Development committee meeting. Chairman Untalan noted that one of the challenges the Airport will face in 2014 is that the specialty retail concession improvements will be completed by March 2014, and there needs to be a plan to bring the rest of the Airport up to par with the new renovations. Discussion followed relative to projects that the Airport is requiring, to include the Airport's Strategic Plan.

Director Tolan inquired on the status of the restroom renovations. The Executive Manager informed the Board that the Project Manager for Black Construction reported that the restrooms near Gate 9 should be completed within the first quarter. Director Tolan inquired on the number of restrooms to be renovated. The Executive Manager informed the Board that there are six (6). The Manager expressed to the Board some of the challenges the Airport is having with regard to the cleaning of the restrooms.

Mr. Santos was asked to give an update on the Tiyan Parkway. He informed the Board of a conference call earlier that same day with FAA, DPW, Department of Land Management, the Governor's Office, and GIAA. He stated that things are moving forward; documents are being prepared for the release of the Authority's land for the Parkway. On Tuesday, January 31, 2013 at 10:00 a.m. there will be a ceremony to demolish the former GPD facility. The appraisal of the Airport property should be completed by Monday, December 30, 2013, and is estimated between $75.00 to $100.00 per square meter; with $100.00 being the highest and this is for the purchase of a perpetual easement. In terms of land purchases, the Land Purchase Agreements are already being drafted by the Attorney General, the signing ceremony will be Monday, December 30, 2013.

8. REPORT OF THE COMPTROLLER

The next item on the agenda was the report of the Comptroller. Ms. Ann Bautista, Assistant Comptroller, provided a report to the Board on the Revenues and Expenses of the Authority as of November 30, 2013. Ms. Bautista reported that year-to-date Total Signatory Revenues are below budgeted revenues by -1.7%, year-to-date Total Concession Revenues are above budget estimates by 1.5% and Passenger Facility Charges are below budget estimates by -1.9%. Further, year-to-date Total Other Revenues, inclusive of non-signatory and non-airline revenues, are below the budget estimate by -6.0%. Year-to-date Total Operating Revenues Actual of $10.5M is -1.8% below the budget estimate of $10.7M. Year-to-date Total Operating Expenses are below budget by -17.6%. The actual year-to-date Net Revenues from Operations of $4.94M reflects an increase of 25.1% over the year-to-date budgeted amount of $3.95M. The Authority's year-to-date results for Debt Service Coverage is at 1.37 versus the requirement of 1.25.

Chairman Untalan inquired if the charter flights mentioned in the Executive Manager's Report were included in the revenue projection. Ms. Bautista replied no. Chairman Untalan inquired if the Debt Coverage Ratio is inclusive of the First Hawaiian Bank loan payment. Ms. Bautista responded yes.

Ms. Bautista referenced Accounts Receivables and Accounts Payable, stating that those over ninety (90) days are already being referred to Legal, most are current receivables therefore they are expected to be received toward the end of the month. Director Ada noted on the report there are three accounts with Legal, and asked what triggers an account being referred to Legal. Ms. Bautista replied that after Accounting has exerted their efforts, Management will assist, by referring it to Legal. Chairman Untalan asked for clarification, if a Concessionaire falls ninety (90) days past due, what is the process. Ms. Bautista replied that first a notice is given for collection, then a second notice after thirty days (30), and then Management will assist. Ms. Jean Arriola added that a courtesy reminder is given, then five (5) days' notice, followed by legal proceedings.

Director Tolan inquired on the Holiday Illumination project, asking what happens to the light fixtures. Ms. Arriola replied that the contract is for installation and removal.

Director Ada at this time informed the Board that he has been in communication with Airports Council International (ACI) relative to a Peer Review; it is a service that ACI offers, by coming to Guam, and seeing how GIAA compares to similar sized Airports. Chairman Untalan inquired if a Peer Review has ever been done before. The Executive Manager responded not that he is aware of. Director Ada added that there is an Asia-Pacific division located in Hong Kong that could assist with a peer review.

9. EXECUTIVE SESSION

Upon written recommendation of counsel, on motion duly made by Director Tolan and seconded by Director Sobti, and unanimously approved, at 3:47 p.m. the Board recessed regular session. The Board convened executive session at 3:57 p.m. to discuss pending litigation.

On motion duly made by Director Ada, seconded by Director Tolan and unanimously approved, Executive Session adjourned at 4:10 p.m., at which time the Board reconvened the regular session.

10. PUBLIC COMMENTS

The next item on the agenda was Public Comments. Chairman Untalan called upon any public member wishing to make comments. There were none.

At this time the Executive Manager informed the Board of an item he would like to bring to the Board's attention. He stated that October 2013 the Administration paid out the last 10% salary increment of the required 40% salary increase for Law Enforcement personnel, which applies to the Airport Police and ARFF divisions. The law requires four consecutive 10% salary increments, but the Authority deferred payment on the last increment and Management is now seeking authority to pay the retroactive payments for the deferred increment. Management is looking at the retroactive payments as an obligation for FY2013, at an estimated amount of $700,000.00 to $800,000.00 for the two (2) divisions.

The Chairman informed the Board that he had asked the Comptroller to update and revise the budget, to include the new Debt Service Schedule for both the Bonds and the Loan, and bringing in the revised budget to the Board for approval. The Comptroller was working on making certain adjustments to be able make the Debt Service Schedule without increasing the emplaned passenger cost, and with any additional costs outside of that it is going to adversely affect the financials of the Authority.

Ms. Arriola added that the law requires that 10% increments be implemented consecutively from 2009 to 2012. Discussion followed relative to the Authority's Law Enforcement personnel salaries compared to outside Law Enforcement.

The Chairman expressed how tight the revised budget would be after the new Debt Schedule was included. Director Ada inquired on when it was due. The Executive Manager stated that it would be a continuing liability from FY2011.

Chairman Untalan informed Management that the Board would review it. If it is something that the Authority is legally bound to, they would have to find $800,000.00 of cuts somewhere. Discussion followed relative to budget areas that could absorb the amount. The Chairman called for any comments from the Board. Director Tolan stated as long as the Authority has the funds available it should be paid. The Chairman informed the Board that he would work with Management and advise the Board accordingly.

After further discussion, on motion duly made by Director Ada, seconded by Director Sobti, the following resolution was unanimously approved:

Resolution No. 14-20

The Board hereby authorizes the Chairman of the Board to review and advise Management on how to proceed on the retroactive payments owed to GIAA's Law Enforcement divisions.

11. ADJOURNMENT

There being no further business to address before the Board, on motion duly made by Director Tolan, seconded by Director Sobti, unanimously approved, at 4:38 p.m., the meeting was adjourned.

Dated this 7th, day of March, 2014.

Bridges out for bid

By Jasmine Stole
jasmine@mvguam.com
Variety News Staff

THE Department of Public Works is soliciting bids from contractors for the reconstruction of the Bile and Pigua bridges along Route 4 in Merizo. Bids are due Jan. 15, 2014. The bid calls for the replacement and widening of both bridges and denotes the approximate constructed value to be between $1 million and $5 million. The contract is expected to last 450 days.

Joaquin Blaz, DPW acting highway administrator, said the entire structure needs replacing, including the foundation and superstructure of both bridges.

The bridges' concrete beams have broken into fragments, exposing the steel reinforcement bars, which have also experienced corrosion. Both bridges have also undergone wood rot in the deck of the structure and erosion because of stream flow and ocean surges, Blaz said.

A single-lane temporary bridge is currently in place so that traffic may flow through the area. "But even that structure is at risk of being damaged by high water and ocean surges," Blaz said.

The plan for the restoration and widening of the new bridges has been drawn up by Duenas, Camacho and Associates Inc. Currently, the Pigua bridge is 21 feet wide. Blaz said after the reconstruction, each bridge will have two new lanes that will be 12 feet wide, two shoulders that will be six feet wide and the entire bridge will be 36 feet wide between the faces of the bridge barriers.

DPW follows guidelines instituted by the Federal Highways Administration and the American Association of State Highway and Transportation Officials when developing new roadway structures, Blaz said.

"The new structures will significantly improve safety for travelers," he said. In addition to steady two-way flow of traffic, Blaz said the improved structures will be able to support full legal loads and will have a greater resistance to being washed out in the event of stream flooding or ocean surges.

Blaz said DPW will be maintaining the bridges after the construction and that the department regularly inspects the island's bridges. It is through this systematic inspection that DPW decided the Bile and Pigua bridges were in stark need for reconstruction.

GLUC rejects condo's zone variance

By Jasmine Stole
jasmine@mvguam.com
Variety News Staff

Property owners in the area expressed opposition to the proposed zone variance. Residents were concerned the suggested parking lot would lead to an increase in traffic congestion in the area, which could devalue the surrounding property.

A MAJORITY of Guam Land Use Commission members voted against a proposed condominium zone variance at the GLUC meeting on Dec. 12.

The developers, Can Pacific LLC, requested the variance to construct a building with six stories and 36 units, including a parking lot with 84 stalls. This request was rejected by the GLUC.

Marvin Aguilar, GLUC chief planner, said more than half of the commission members felt the application for the zone variance did not meet the requirements of the law in terms of justifying the variance.

Property owners in the area expressed opposition to the proposed zone variance. Residents were concerned the suggested parking lot would lead to an increase in traffic congestion in the area, which could devalue the surrounding property.

The area where the structure was to be built, which is in East Hagåtña near Shirley's Coffee Shop, is a "multiple dwelling zone." Can Pacific is able to build a 36-unit structure without a zone variance, provided the building is no more than three stories high.

In its application for zone variance, the developers wrote that "the building is to be constructed and that such building will not interfere with or adversely affect the surrounding property owners' or public's right to an untrammeled use of the beach and its natural beauty."

Suspect violates release, sent back to jail

By Gina Tabonares-Reilly
gina@mvguam.com
Variety News Staff

A MALE defendant who was on pretrial release was ordered by the federal court to serve five days' imprisonment after he tested positive for illegal drugs.

Raymond Taison Cruz was in the District Court yesterday after the U.S. Probation Officer assigned to supervise him requested a warrant following reports of pretrial release violations.

Cruz was indicted with Lucille Lefever and Tanya Lynn Manibusan on 23 counts of identity theft and fraud charges.

After entering a plea of not guilty he was granted pretrial release with conditions.

On July 11 the probation officer filed a petition to revoke pretrial release based on an alleged admission of drug and alcohol use by the defendant. He was admonished by the court for his alleged misconduct and was allowed continued release while waiting for his April 8, 2014 trial.

One of the special conditions for Cruz's release is his participation in a mental health assessment and recommended treatment. However, the defendant failed to appear at Marianas Psychiatric Services for a scheduled drug test on Dec. 12. He denied the use of illicit substances but later allegedly admitted smoking the drug "ice" and consuming large amounts of water with baking soda in an effort to mask the drug and flush the substance from his system.

In addition, the defendant, according to his probation officer, failed to attend counseling sessions at MPS on Sept 4, 28 and Oct. 17, 26 and 31.

Cruz also failed to appear for drug testing on several occasions.

His co-defendant, Manibusan, was also sent to jail for 10 days after violating her release conditions in August.

She entered a plea agreement and pled guilty to aggravated identity theft on July 27, 2012 and admitted that she and Cruz defrauded financial institutions, customer credit card holders and merchants.

She was granted a pretrial release with conditions and was ordered to participate in a substance abuse program.

It was the second time Manibusan was ordered by the court to spend time in jail for violating her pretrial release conditions.

On Dec. 28, 2012, a violation petition was filed by the U.S. Probation Office after Manibusan's drug tests rendered positive results. She was ordered to spend a week in jail from Feb. 1 to 7.

The three allegedly obtained approximately $22,550 worth of goods and services for themselves and others.

The list of alleged victims includes the Guam Power Authority, the Guam Waterworks Authority, SandCastle and Napa Auto Parts.

According to Variety news files, Lefever, Cruz and Manibusan were arrested in April 2011 in connection with house and vehicle break-ins.

Police officers learned at the time that the three allegedly stole credit cards that were being used at various locations for gas purchases, online purchases and online payments to GPA and GWA.

Felon seeking holiday dinner with his family

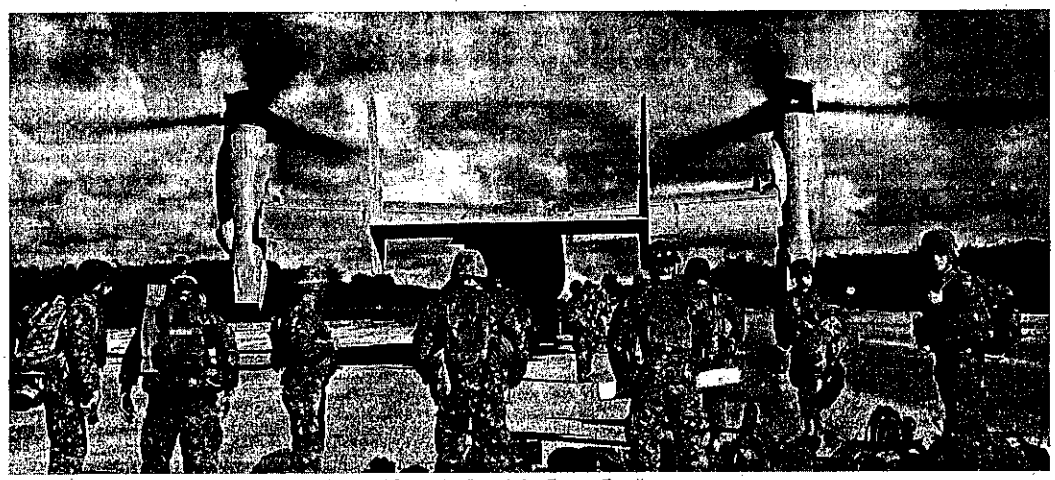
By Gina Tabonares-Reilly
gina@mvguam.com
Variety News Staff

IT'S Christmas time and everyone wants to celebrate with family, including convicted felon Patrick J. Brennan who requested District Court Judge Frances Tydingco-Gatewood to allow him to join a Christmas dinner on Christmas Eve with his family.

In a motion filed through his lawyer, Louie Yanza, Brennan asked the court to amend his release conditions and allow him to attend a family gathering on Dec. 24.

Brennan, who fled to the Philippines and was brought back to Guam following his indictment on drug-related charges, also requested the court to extend his current curfew from 7 p.m. to 10.

He is currently released to a third-party custodian, his sister, and is under house arrest.



He said the Christmas dinner will be next door to his sister's residence.

The court had not ruled on his request as of press time.

Meanwhile, Julian Robles, another defendant awaiting sentencing, will be able to spend the holidays with his loved ones after the court granted his motion for release.

After hearing from Robles' lawyer, Howard Trapp, the U.S. attorney did not object to the motion and the District Court granted the drug defendant's release.

Robles entered a plea agreement in November and pleaded guilty to the distribution of 50 grams of methamphetamine, and conspiracy to launder money.

Marines complete annual Forager Fury II training

By Jasmine Stole
jasmine@mvguam.com
Variety News Staff

FORAGER Fury II is the second of an annual aircraft training exercise conducted by the U.S. Marine Corps. This year's training took place in Guam and Tinian. Service members started training on Dec. 2 and concluded last Friday.

The Marine groups who participated, Marine Aircraft Group 12 and Marine Wing Support Squadron 171, expanded their capabilities during the exercise, Lt. Col. Howard Eyth said.

Eyth said during this year's Forager Fury II, two refueling points were established in Tinian, one at West Field and one at North Field. These refueling points enabled aircraft to rapidly refuel and launch back into combat.

Within four weeks, Eyth said 161 acres of vegetation in Tinian was cleared to expose four aircraft runways as well as the accompanying access roads. The runways were labeled Able, Baker, Charlie and Dog.

In addition to the runways, the combat engineering platoon and heavy equipment sections set up a helicopter landing zone on the Charlie runway.

The exercise is conducted in order to rehearse the aircraft group's ability to project rapid aviation combat power in the Pacific area. This year, aviation units flew more than 500 defensive training attacks while logging approximately 700 flight hours, according to a release.

Maj. Donald Hall, Forager Fury II exercise officer, said planning for this year's Forager Fury training began almost immediately after last year's exercise and this coming January, the planning for next year's exercise will begin.

Community service

During their stay in Tinian and Guam, the men and women participating in Forager Fury II extended their services to the youth. The group spent time as mentors while visiting schools and youth-oriented programs.

On Guam, Marines and service members of MAG-12 visited some youth at Andersen Air Force Base, the Marine Corps Junior ROTC cadets at Okkodo High School as well as kids at the Department of Youth Affairs.

In conjunction with the Islandwide Beautification Task Force, the group helped clean up Benavente Middle School.

Additionally, a media day was held which allowed local leaders and media outlets to access the base and to speak with the Marines who participated in the training.

"While our purpose is training and readiness, we are also committed to building local relationships and respecting the local community," said Staff Sgt. Emanuel Melton, content manager for exerciser Forager Fury II.

Melton said these events help connect with the community outside the base and creates a lasting, positive, impact on both outreach participants and the people they assist.

NOTICE

In accordance with the order of the Banking and Insurance Commissioner, TakeCare Insurance Company, Inc. (TakeCare) hereby announces its intention to effect a distribution of surplus in January 2014, from its unassigned surplus as of September 30, 2013. Under applicable National Association of Insurance Commissioners (NAIC)'s guidelines for total capital and surplus, following the distribution, TakeCare will have a total capital and surplus base which is significantly more than the minimum required by NAIC to underwrite its risk portfolio and to meet operating requirements.

SERIES 2013 BOND CAPITAL IMPROVEMENT PROJECTS

	Project Title	Total Project Cost	Federal Grants	Bond Proceeds	Balance as of 1/15/14	Purpose / Comments	Status
				PRIORITY 1			
1	International Arrivals Corridor with Building Seismic Upgrades	$53,900,000	$13,200,000	$40,700,000	40,700,000.00	Permanent solution to TSA mandate. 3rd level corridor for arrivals only with vertical circulation from gate groups. Must include seismic upgrades.	RFP to designer awarded by the Board. Fee submission by Feb 5. for review and negotiations.
2	Hold Bag Screening Relocation	$26,069,263	$24,899,330	$1,169,933	25,627,649.46	In-line bag screening with BHS. Check in capacity restored. Reduced costs for TSA and airlines.	The 70% design submittal with the TSA for review. Contract executed with BHS manufacturer.
3	SSCP Improvements	$3,100,000		$3,100,000	3,100,000.00	Increase security screening lanes and expand queuing area.	Pending IDIQ RFP issuance in Feb 2014.
4	FIDS Replacement	$5,000,000		$5,000,000	4,707,315.00	Replace obsolete and non-reliable system with multimedia multipurpose software/hardware.	Prioritized upgrades in progress.
5	Integrated PLB Replacement	$8,200,000	$2,000,000	$6,200,000	5,507,480.00	Replace 5 aged loading bridges and 34 power and pre-conditioned air point of use units.	Installation in progress for the 34 power and preconditioned air units. 1 replacement loading bridge for Board action.
6	Common Use Check-In Facilities	$2,800,000		$2,800,000	2,800,000.00	Single airline check-in program with counter modifications and expanded use of kiosks. Avoids expanded building footprint.	Common use study for airline review and comment.
7	Fuel System Improvements	$1,000,000		$1,000,000	1,000,000.00	Improve fire suppression system and connections.	Improvements being handled through fuel system operator.
8	Parking Expansion	$7,400,000		$7,400,000	7,355,296.85	Single level parking deck over commercial vehicle area to replace capacity loss from expanded access road. Improves passenger service.	Preliminary engineering in progress. Designer pending IDIQ RFP issuance.
9	Interisland Passenger Facility	$3,000,000		$3,000,000	3,000,000.00	Separate processing facility for domestic interisland operations. No CBP and minimal TSA inspections.	Planning session with CBP, TSA and Guam Customs followed by prospective users.
10	ARFF Facility Replacement	$11,600,000	$10,440,000	$1,160,000	11,536,102.10	Replace aged Navy structure with code compliant facility meeting FAA standards.	Preliminary engineering completed. Grant application to the FAA being prepared.
11	Cargo Apron Relocation	$7,700,000	$6,930,000	$770,000	$770,000.00	New cargo only apron adjacent to integrated air cargo facility. Hydrant fuel capability.	Preliminary engineering study and FAA grant application being updated.
12	Replace Terminal Seating	$3,500,000		$3,500,000	$3,500,000.00	Replace dilapidated seating and expand additional seating to other terminal areas.	Full re-upholstering of existing seating being evaluated. Architect under IDIQ RFP to determine
	SUB TOTALS	$133,269,263	$57,469,330	$75,799,933	$109,603,843		

				PRIORITY 2			
13	Access Control and Security Improvements	$4,000,000		$4,000,000	4,000,000.00	Replace security access control system with biometric system. Facility modifications as security solutions.	Pending IDIQ RFP issuance in Feb 2014.
14	Terminal Flooring Replacement	$2,700,000		$2,700,000	2,700,000.00	Replace deteriorating tile surface with durable non-skid material with longer life cycle.	Pending IDIQ RFP issuance in Feb 2014.
15	Upgrade Airport IT and FMS	$2,000,000		$2,000,000	1,688,239.86	Upgrade financial management system, add facility management GIS and improve infrastructure.	Partial upgrades completed.
16	Route 10A Landscape Component	$1,700,000		$1,700,000	1,700,000.00	Incorporate landscaping mediums consistent with DPW project to expand the Route 10A access roadways.	Pending IDIQ RFP issuance in Feb 2014.
17	Enclose Arrival Tunnels	$1,200,000		$1,200,000	1,200,000.00	Increase arrivals lobby area through enclosing arrival tunnel with climate control. Adds commercial areas.	Pending IDIQ RFP issuance in Feb 2014.
18	Replace Conveyance Systems	$2,600,000		$2,600,000	2,600,000.00	Replace with energy efficient equipment. Includes elevators, escalators and moving walks.	Pending IDIQ RFP issuance in Feb 2014.
19	Strengthen and Expand Curbside Canopies	$2,800,000		$2,800,000	2,800,000.00	Expand departures curbside canopies for extended weather protection and security reinforcement.	Pending IDIQ RFP issuance in Feb 2014.
20	1% Arts Program	$639,000		$639,000	639,000.00		For further discussion with the Guam Council of the Arts & Humanities.

BOARD OF DIRECTORS
EXECUTIVE SUMMARY

REQUEST FOR PROPOSALS, RFP NO. GIAA-004-FY14
ENVIRONMENTAL CONSULTING SERVICES

December 27, 2013

Purpose

Board action is requested to approve the ranking results based on the evaluation process performed through the Request For Proposals (RFP) No. GIAA-004-FY14 for Environmental Consulting Services.

Background

The referenced RFP solicits proposals from professional environmental consulting firms to assist GIAA in the management of its environmental programs. The preliminary scope of work includes, but not limited to; monitoring storm water discharge in accordance to NPDES permit requirements, evaluation of existing oil/water separators, evaluation of surface drainage and detention pond system, sampling and analyses of stormwater in UIC wells.

The Firm or Consultant is required to have particular expertise in the management of environmental programs at commercial airports, and experience in environmental sampling and analysis. Also, the firm must be knowledgeable of the applicable environmental laws, regulations and FAA Airport Environmental Program and regulations.

Procurement Background

The above referenced RFP was advertised in the local newspapers throughout the months of November & December 2013. The established deadline to submit the proposals was on December 13, 2013.

A total of twelve (12) firms showed their interest by obtaining the RFP package; however, four (4) firms responded by submitting their proposals before the established deadline.

After receipt of all proposals, an Evaluation Committee was established to perform an independent evaluation of the proposals to determine the best qualified proposer. The proposals were evaluated based on the point system assigned for each criteria identified in the RFP package.

The Evaluation Committee has completed their evaluations and the scores sheets were gathered and tabulated by Procurement Office. As a result, the selected firms in the order of their ranking are as follows:

1. Proposer A
2. Proposer D
3. Proposer C
4. Proposer B

Legal Review

Upon Board approval, a standard professional services contract will be forwarded to Legal Counsel for review and approval as to form.

Financial Review

The Environmental Consulting Services Agreement will be funded from the O & M Budget for Fiscal Year 2014.

Recommendation

Management recommends the approval of the ranking results and the contract award to **Proposer A,** as the highest ranked proposer for the Environmental Consulting Services subject to negotiations of fair and reasonable fees. In the event that the negotiations prove unsuccessful, GIAA Management will enter negotiations with the next highest ranked proposer.

MEMORANDUM

TO: Charles H. Ada II, Executive Manager

FROM: Franklin P. Taitano, Supply Management Administrator

SUBJECT: Evaluation and Recommendation - Request For Proposal (RFP)
Environmental Consulting Services
RFP No. GIAA-004-FY14

The referenced Request for Proposal (RFP) solicits interests from firms or individuals to provide professional services for the Environmental Consulting Services. The advertisement for this RFP was published in the local newspaper for the months of November & December 2013. The deadline to submit the proposals was on December 13, 2013.

Twelve (12) firms/individuals acknowledged receipt of the package and four (4) firms submitted qualification documents before the submission deadline.

Evaluation and Selection

Pursuant to Section X of the package, after receipt of all proposals, the GIAA Evaluation Committee conducted an independent evaluation for the purpose of selecting the most responsive and responsible offeror based on the evaluation criteria. The committee which Management established to evaluate the firms' qualifications included the following:

a. Jean M. Arriola, Airport Services Manager
b. Gerard Bautista, Air Terminal Manager
c. Victor Cruz, Engineering Supervisor
d. Frank R. Santos, Expansion Office

The committee completed their evaluation and the scores were tabulated as reflected on the attached summary worksheet. As a result of our tabulation, the firms selected in the order of their ranking are as follows:

1. Proposer A
2. Proposer D
3. Proposer C
4. Proposer B

Doc. No. 35GL-19-0628.*

AMERICAN ASSOCIATION OF AIRPORT EXECUTIVES
AIRPORTS COUNCIL INTERNATIONAL
NASAO National Association of State Aviation Officials
TIACA THE INTERNATIONAL AIR CARGO ASSOCIATION

Recommendation

Based on the tabulation of the proposers ranking, it is determined that **Proposer A** ranked number one and the best qualified firm to perform the required services in accordance with the criteria set forth in the RFP. Also, as a result of our review of the submitted required documents, the firm has been deemed to have met the standards of responsibility and responsiveness outlined in the Guam Procurement Regulations.

Therefore, management recommends the approval of the ranking results and the contract award to **Proposer A**, as the highest ranked proposer for the Environmental Consulting Services subject to negotiations of fair and reasonable fees. In the event that the aforementioned negotiations prove unsuccessful, the GIAA may enter negotiations with the next highest ranked proposer.

Should you have any questions or need to discuss this matter further, I am available at your request.

Franklin P. Taitano

AIRLINE ISSUES

Chinese Winter and New Year Charters

- **China Air** will be operating 2 round trip charters on the TPE/GUM route in December with A330 aircraft with a seat capacity of 313 passengers.
- **Dynamic Air** met with GIAA officials on December 17, 2014 to discuss their plans to conduct charters from three Chinese cities during the Chinese New Year Holiday in February 2014. Dynamic Air will be operating 3 round trips from Beijing (PEK), 3 round trips for Dalian (DLC), and 2 round trips from Chengdu (CTU). All flights will be serviced by a B767 with a 218 seat capacity.

Japan Winter Charters (Dec. 27 through Jan. 3, 2014 – 42 charters total)

- **EVA Air** will be operating 7 round trip charters servicing the NRT/GUM route on their A321-200 aircraft with a 182 pax seat capacity.
- **Korean Air** will be operating 10 round trip charters servicing the NRT/GUM route on their A330 aircraft with a 253 pax seat capacity. They will also be operating a NGO/GUM charter on a B737 with a 176 pax seat capacity.
- **China Airlines** will be operating 4 charters on the KIX (Kansai)/GUM route and 2 charters on the FUK (Fukuoka)/GUM route, operating A330 aircraft with a 313 seat capacity.
- **United Airlines** will operate 16 winter charters from 5 Japan cities, all utilizing the B&37-800 with a 155 seat capacity:
    - 3 FUK (Fukuoka) /GUM
    - 2 NRT(Narita)/GUM
    - 2 KIX (Kansai)/GUM
    - 2 NGO (Nagoya)/GUM
    - 2 HIJ (Hiroshima)/GUM
    - 1 OKJ (Okiyama)/GUM
    - 1 MYJ (Matsumaya)/GUM
    - 1 KMI (Miyazaki)/GUM
    - 1 TOY (Toyama)/GUM
    - 1 KIJ (Niigata)/GUM
- Delta will operate a charter on the NGO (Nagoya)/GUM route operating a B757 with 174 passenger seat capacity.

2013 ACCOMPLISHMENTS AND GOALS AND OBJECTIVES 2014

Attached for reference is Management's report on 2013 Accomplishments and the Authority's Goals and Objectives for 2014 ("GO 2014") for the Board's review and information.

FAA ISSUES

The FAA has announced a "Finding of No Significant Impact and Record of Decision (FONSI/ROD) based upon results of a Final Environmental Assessment prepared in August 2012 by the USDOT, in cooperation with the FAA. The proposed project is for the construction for the segment of the Tiyan Parkway that will cross through the GIAA property. The following projects are addressed by FONSI/ROD:

- Release of Airport land at GUM for sale or lease for use in construction of portions of the Tiyan Parkway
- Change to the GUM Airport Layout Plan (ALP) to depict the proposed project

- Site preparation, grading, drainage, paving, marking and lighting of the roadway
  GIAA will inform the public of the FONSI/ROD via newspaper advertising as required and as part of its public information program.

In a teleconference between GIAA Management and FAA, status of CIP projects, ongoing assessments of FAA issues at GIAA and general items were discussed. These issues are incorporated in the draft Goals and Objectives for 2014 , "GO 2014" document, for reference.

CUSTOMER SERVICE ISSUES

Website and Mobile Application
A refreshed website and introduction of the newly-developed Guam Airport mobile application is scheduled for launch on January 10, 2014, to coincide with the Proclamation Signing of Airport Week 2014. The website and mobile application streamlines information and incorporates a new modern look. While Phase 1 of the mobile application will be launched, a Phase2 is planned for implementation 60 days thereafter for a passenger way finder feature that will enable passengers to find their way around the Airport, and a Phase 3 will be in place 60 days after initial launch which features the mobile app and website to be available in Japanese, Chinese, and Korean, from the official English homepage.

Baggage Information Display System (BIDS)
A new BIDS System based on LCD technology will be installed January 2014. There will be four monitors per carousel. One will be placed at a domestic gate and in the U.S. Customs & Border Protection Hall. This will eliminate the static signage presently used by airlines.

38th AIRPORT WEEK ACTIVITIES
Commencing January 10 through 17, 2014, the 38th Anniversary of the creation of the Airport Authority as a Government of Guam entity will be celebrated with a series of activities throughout the week.

Beginning Jan. 3	Basketball, Softball, and Volleyball tourney
January 10, 2014	Proclamation Signing , 10:30am, Governor's Cabinet Conference Room Road Wave @ 4pm, Airport Lower Parking Lot
Jan. 11, 2014	5K Run/Walk Show 5am, Go 6am
Jan. 11, 2014	Airport Family Mass, 6pm, Hagatna Cathedral
Jan. 12, 2014	Paddling Challenge
Jan. 12, 2014	Bowling Bash
January 17, 2014	Tenant Appreciation Banquet and Employee Recognition Program "A Tribute to our Troops" Hyatt Regency Guam

ANNOUNCEMENTS

- ACI Asia-Pacific and the GIAA reconciled funds received and expended for the ACI Asia-Pacific Small and Emerging Airports Seminar held on Guam in October 2013. The final report shows that entire conference was fully underwritten by the generous support of our sponsors, and by registration fees of this well-attended and highly-regarded meeting and network of airport executives. We thank all our employees who worked hard on this event, and our tenants and airport partners who contributed generously to host over 100 international and local participants.

- **Holiday Activities:** The Airport hosted the Guam Adventist Academy Handbell Choir, the Symphony Society of Guam Horn Quartet, the Harvest Baptist Bible College Choir December 13 through 24, to bring holiday cheer to our passengers in the TSA Pre-Screening area. The Airport will also host the refreshments at the Peace Festival on December 28, 2013 from 6pm to 10pm at the Government House, along with GPD and GFD.

- An Airport Emergency Response Table Top Exercise was held on December 4, 2013 at the GIAA conference rooms. All emergency responders (ARFF, Airport players, GFD, GPD, Homeland Security/Civil Defense, Joint military forces, Public Health, GMH etc.) participated. The Table Top Exercise is conducted to meet Federal Air Regulations Part 139 requirements and tests the GIAA Airport Emergency Plan which is reviewed and approved by the Federal Aviation Administration.

- A "Clearing the Path for Progress" Ceremony is scheduled for December 31, 2013 for Phase I of the Demolition and Remediation of Airport Structures. The ceremony will be held in the parking lot of the old GPD headquarters in Tiyan at 10am. Governor Calvo and legislative dignitaries will be in attendance and are confirmed to participate in the activities.

FISCAL YEAR 2013
ACCOMPLISHMENTS

AIR SERVICE DEVELOPMENT

Item #	Stated Goal	Accomplishments
1.	Capture air service from new airline operators (Star Flyer, Summer 2013; Cebu Pacific, Fall 2013) with engaged air service development consultant.	• Cebu Pacific received DOT conditional approval for service from Manila on October 17, 2012. • Korean Airlines commenced new charter service from the un-served market of Busan, to Guam in October 2012, operating twice weekly, utilizing B737-800 aircraft during winter season. They continued to service the Busan/Guam route during peak travel periods through 2013. • Star Flyer commenced twice weekly charter services (13 total flights) from Kitkyushu Japan to Guam, utilizing an A320 with 150 seats on August 13, 2013. • Skymark, a Japanese domestic airline, commenced service with nine charter flights that operated March 14 through 23, 2013 on the NRT/GUM route utilizing B738 aircraft with a 177-seat capacity, adding 1,593 seats in this 9-day period. •
2.	Incentivize stopover flight operations from foreign airlines.	PAL continues re-fueling/tech stops from San Francisco-Manila flight.
3.	Market GUM for regional airline flight training.	JAL commenced cadet pilot training on the B737-800 and the B767-300 at the Guam International Airport on October 14, 2013.
4.	Establish cooperative agreements with industry stakeholders for air service development. (GEDA/GVB joint marketing initiatives)	GIAA, together with GVB and GEDA participated in multiple trade forums in China, Korea, and Japan and took part in travel fairs in Seoul, Busan, Taiwan, Hong Kong, Beijing, Guangzhou, Taipei and Tokyo. GVB and GEDA also partnered with the Airport at the World Routes Forum held in Las Vegas in October 2013.

Finance

Item #	Stated Goal	Accomplishments
1.	Refinance 2003 Revenue Bonds /Assess need for new capital bonds/ Influence re-affirmed or upgraded bond ratings.	The Airport issued and closed $247Million in General Revenue bonds on 9/27/13. The bonds refinanced the 2003 revenue bond balance($135M, and provides for new money ($112M) for additions, improvements and enhancement of GIAA terminal and facilities.

FISCAL YEAR 2013
ACCOMPLISHMENTS

2.	Apply for EB-5 airport regional center status.	RFP procurement completed forEB-5 consultant. USCIS application in progress.
3.	Continue cost containment and efficiency maximization.	Subject to ongoing financial audit.
4.	Increase non-aeronautical revenue sources.	Subject to ongoing financial audit.
5.	Sustain downward trend for airline costs.	Subject to ongoing financial audit.
6.	Implement next phase for employee compensation program	Migration to market percentile of 20% implemented and in effect in FY 2013.

Capital Programs

Item #	Stated Goal	Accomplishments
1.	Rehabilitate Runway 6L/24R.	**IFB Rehabilitate RWY 6L-24R Phase 1** Announced: May 3, 2013 Pre Bid Conference: May 16, 2013, 10:00 am Submission Deadline: June 3, 2013, 2:00 pm This project is currently under construction. NTP was issued October 2013.
2.	Complete installation of new ILS for Runway 6L-24R	Substantially complete pending FAA flight checks. Active operations delayed until runway safety area is cleared.
3.	Finalize master plan update pending noise exposure maps.	Master plan update complete. Part 150 noise study is being updated.
4.	Install PAPI NAVAID for Runway 24L.	This is part of the Rehabilitation of Runway 6L-24R Phase 2 project. The project is pending the issuance of the NTP by the end of December 2014 or thereafter.
5.	Proceed with Noise Mitigation Program.	**IFB Residential Sound Insulation Program Phase 2A** Announced: Dec 11, 2012 Submission Deadline: January 15, 2013,, 2:00pm Preliminary NTP was issued for the procurement of materials. Materials are expected to be on island by January 2014 with installation starting around February 2014.

ACCOMPLISHMENTS

6.	Invite bids for phased demolition packages. Note that this not the final demolition phase. The final phase is Demolition and Remediation of Various Airport Facilities Phase 2 which is currently under design and is scheduled to be out for bidding by January 2014.	**IFB Demolition and Remediation of Various Airport Facilities Phase I** Announced: June 19, 2013 Pre Bid: Tuesday, July 2, 2013 10am Closing: Friday, August 2, 2013, 2pm Award & Contract issued. Pending is the issuance of the unconditional building permit.
7.	Initiate design for concourse segregation project.	Bond Funding Secured Nov. 2013
8.	Complete FAA sponsored Airport Geographic Information System (AGIS) pilot program	This project is currently pending the acceptance by the FAA National Geodetic Survey (NGS) of the uploaded data for the eALP. All field survey and aerial survey work is completed.
9.	Replace one ARFF vehicle.	The grant was issued by FAA this FY. The specifications for the vehicle is being reviewed by FAA for authorization to advertise for bids by December 2013.
10.	Commence design for new ARFF facility.	The final Preliminary/Conceptual Design plans are being finalized for the FAA Grant application to be submitted by December 2013.
11.	Conduct planning for common use passenger check-in facilities.	Conceptual study completed for GIAA and airline user reviews.
12.	Completion of FAA sponsored Electrical upgrades.	**Replace/Upgrade Terminal Ramp Light System.** This project involves the installation of the new ramp light poles and flood light fixtures. Completed in September 2013. Utility Power Hardening for Airport Facilities Phase 2. This project involves the installation of the new underground power transmission lines to the remaining critical facilities in the South Airport Tiyan area. Completed in September 2013

Operations

Item #	Stated Goal	Accomplishments
1.	Implement Table Top Annual Disaster Exercise for Certification.	GIAA conducted its Table Top Exercise on December 4, 2013. A good show and play of responders were in attendance at the exercise, discussion and hot wash.

INTERNATIONAL AIRPORT
GUAM

FISCAL YEAR 2013
ACCOMPLISHMENTS

2.	Obtain "0" discrepancies in Annual FAA Inspections.	GIAA received high marks on its April 29, 2013 inspection by Airport Certification Inspector out of the Airport District, Honolulu, with only one recommendation to update the Airport's Wildlife Management Program.
3.	Improve efficiency in terminal equipment to include full implementation of the Energy Performance Management Program.	Replacement lighting completed for selected areas. Major air conditioning equipment installed. Building automation system and spare parts pending.
4.	Assess and adopt tiered aviation insurance requirements.	Insurance consultant assessment under review.
5.	Start new fuel system operations and maintenance contract.	RFP procurement action complete. New contract commenced in May 2013.
6.	Negotiate new water system O&M contract with GWA.	Operational and financial reviews are in progress.

Services & Community Engagement

Item #	Stated Goal	Accomplishments
1.	Renovate Terminal Restrooms	Concourse restroom renovations included in merchandizing concessionaire capital improvements.
2.	Support implementation of CBP Global Entry program.	Global Entry kiosks installed.
3.	Expand Ambassador Program Services.	**Ambassador and Airport Information Center Program Bid** Announced: November 13, 2012 Bid Submission Deadline: November 29, 2012, 4pm Awarded: January 15, 2013, adding 2 additional Japanese and 2 additional Korean ambassadors on the am and pm shifts. Also increased hours for Chinese Ambassador services to accommodate Taiwan visa waiver program effective November 1, 2012.
4.	Lobby for TSA Pre-Check expedited screening initiative.	Effective august 14, 2013 **TSA Precheck** is in place for eligible United Airlines passengers, who may be selected for the program. Eligible United customers will start to see the TSA Precheck indicator on mobile boarding passes, boarding passes printed at home or from the kiosks at

MANAGEMENT
Goals & Objectives
"GO 2014"

Strategic Plan

1. Engage GIAA employee and stakeholder information exchange to develop the first draft
2. Filter draft plan based on operational forecasts, financial projections and realistic timelines
3. Adoption of Strategic Plan for FY'15 - FY'24 by Board of Directors

Air Service Development

4. Adopt air service development strategy
5. Develop new air links with engaged air service development consultant
6. Create new destination based air service incentive.
7. Expand opportunities for regional airline flight training
8. Establish cooperative agreements with industry stakeholders for air service development
9. Identify China-ready initiatives for pending approval of parole authority for visa waiver

Finance

1. Refinance energy efficiency loan
2. Maximize investment earnings
3. Influence upgraded bond ratings
4. Apply for EB-5 airport regional center status
5. Continue cost containment and efficiency maximization
6. Increase non-aeronautical revenue sources – lobby for amended legislation
7. Sustain downward trend for airline costs
8. Study HR reorganization efficiencies
9. Minimize findings in financial and compliance audits

MEMORANDUM

To: Mr. Edward G. Untalan
Chairman
GIAA Board of Directors

From: Carlos Bordallo
Comptroller

Subject: **Operating Results - Revenues and Expenses as of November30,2013**

Attached herewith is GIAA's Operating Results Report for the month ending November30, 2013. This report summarizes the Budgeted versus Actual Revenues and Expenses for the month and year-to-date results ended November 30, 2013.

The key operating results for 2 month(s) of FY 2014 ending November 30, 2013 - (in $000's) are:

CATEGORY	YEAR-TO-DATE				FORECAST FOR FULL YEAR-FY14	
	Budget FY 14 Y-T-D	Actual FY 14 Y-T-D	% Variance Budget vs. Actual		Actual Y-T-D + Remaining FY 14 Budget	% Variance Budget vs. Estimate for Full Year
			Y-T-D Current Month	Y-T-D Last Month		
Total Signatory Revenues	$4,209.2	$4,135.7	-1.7%	-4.2%	$26,657.0	-0.3%
Total Concession Revenues	$2,972.9	$3,017.2	1.5%	1.2%	$18,015.0	0.2 %
Total PFC's	$1,008.3	$989.6	-1.9%	-5.8%	$6,417.5	-0.3%
Total Other Revenues	$2,488.8	$2,340.3	-6.0%	-4.2%	$15,066.7	-1.0%
Total Operating Revenues	$10,679.1	$10,482.9	-1.8%	-2.8%	$66,156.1	-0.3%
Total Operating Expenses	$6,732.6	$5,545.4	-17.6%	-6.8	$38,583.3	-3.0%
Net Revenues from Operations	$3,946.6	$4,937.5	25.1%	2.2%	$27,572.9	3.7%
Non-Operating Expenses	$225.0	$0.0	-100.%	-100.%	$275.0	-45.0%
Other Available Moneys/other sources of funds	$1,141.4	$1,065.6	-6.6%	-7.0%	$6,772.5	-1.1%
Net Debt Service Coverage	**1.18**	**1.43**	**21.0%**	**6.1%**	**1.37**	**3.1%**

Year-to-date Total Signatory Revenues for the month ending November 30, 2013are below Budgeted revenues by**-1.7%.** Signatory revenue estimates are based on projections submitted by Signatory airlines and adopted in the annual budget.

Year-to-date Total Concession Revenues are above budget estimates by **1.5%**andPassenger Facility Charges arebelow by **-1.9%.**

Year-to date Total Other Revenues, inclusive of non-signatory and non-airline revenues, arebelow the budget estimateby **-6.0%.**

Year-to-date Total Operating Revenues Actual of**$10.5M**is**-1.8%** below the budget estimate of **$10.7M**.

Year-to-date Total Operating Expenses are below budget by **-17.6%**. Components of this line item include a **-18.6%**decrease in Personnel Service, a**-15.2%**decrease in Contractual Services, a**-43.2%** decrease in Materials & Supplies and a **0%**decreasein Equipment/Furnishings from budgeted amounts for these respective categories.

The actual year-to-date Net Revenues from Operations of**$4.94M**reflects an increase of **25.1%** over the year-to-date budgeted amount of **$3.95M**.

Finally, our year-to-dateresults for Debt Service Coverage is at **1.37**versus the requirement of **1.25**.

RECOMMENDATION OF COUNSEL

TO: Board of Directors
ANTONIO B. WON PAT INTERNATIONAL AIRPORT AUTHORITY, GUAM

CC: Mr. Charles H. Ada II
Executive Manager
ANTONIO B. WON PAT INTERNATIONAL AIRPORT AUTHORITY, GUAM

FROM: Janalynn Cruz Damian
CALVO FISHER & JACOB LLP

DATE: December 18, 2013

SUBJECT: **Executive Session**

Pursuant to 5 G.C.A. § 8111(c)(1), I hereby recommend that the Board of Directors of GIAA conduct an Executive Session at the next regularly scheduled Board meeting to discuss pending or threatened litigation to which GIAA is or may be a party.

MINUTES OF THE SPECIAL MEETING OF THE BOARD OF DIRECTORS OF THE A.B. WON PAT INTERNATIONAL AIRPORT AUTHORITY, GUAM
Wednesday, January 15, 2014, 3:00p.m.
GIAA TERMINAL CONFERENCE ROOM #3

1. CALL TO ORDER AND ATTENDANCE

The January 15, 2014, special meeting of the Board of Directors of the A.B. Won Pat International Airport Authority, Guam ("GIAA" or the "Authority") was called to order by Chairman Untalan at 3:06p.m. at the GIAA Terminal Conference Room #3, 355 Chalan Pasaheru, Tamuning, Guam, 96913.

Directors Present:	**Offices or positions:**
Edward G. Untalan	Chairman
Lucy M. Alcorn	
Martin Gerber	
Pedro P. Ada III	
Gurvinder Sobti	
Directors Absent:	
Jesus Q. Torres	Vice Chairman
Rosalinda A. Tolan (Excused)	
GIAA Officials:	
Charles H. Ada II	Executive Manager
Peter Roy Martinez	Deputy Executive Manager
Carlos Bordallo	Comptroller
Frank R. Santos	Business and Financial Consultant
Jean M. Arriola	Air Services Manager
Gerard Bautista	Air Terminal Manager
Janalynn Cruz Damian, Esq.	GIAA Legal Counsel
Thomas J. Fisher Esq.	GIAA Conflicts Counsel

The Chairman welcomed the presence of Airport tenants, stakeholders, and members of the public who are noted in a sign-in sheet made as an attachment to these minutes.

2. APPROVAL OF AGENDA

The Chairman asked if there were any changes to the agenda. No changes were requested. On motion duly made by Director Ada, seconded by Director Sobti, the agenda as presented was unanimously approved.

3. NEW BUSINESS

The next item on the agenda was New Business.

A. Approval of Award for A-E Services for the Terminal Building Structural Upgrade & Concourse Isolation Design – RFP No. GIAA-001-FY14

The first matter discussed was approval of award of the contract A-E Services for the Terminal Building Structural Upgrade and Concourse Isolation Design, RFP No. GIAA-001-FY14. The Executive Manager informed the Board that a Request for Proposals was issued soliciting proposals from professional firms to provide architectural and engineering services for the terminal building structural upgrade and concourse isolation design. A total of eighteen (18) firms picked-up the RFP packages, however, only eight (8) firms submitted proposals before the established deadline. After receipt of all proposals, an Evaluation Committee was established to perform an independent evaluation of the proposals to determine the best qualified proposer based on the criteria identified in the RFP package. As a result of the evaluation committee's tabulation, the selected firms in order of their ranking are as follows:

1. Proposer B
2. Proposer G
3. Proposer E
4. Proposer A
5. Proposer C
6. Proposer D
7. Proposer H
8. Proposer F

Management recommends the approval of the ranking results and the contract award to Proposer B, as the highest ranked proposer, subject to negotiations of fair and reasonable fees. In the event that the negotiations prove unsuccessful, GIAA Management will enter negotiations with the next highest ranked proposer.

Mr. Frank Santos recommended in the interest of accelerating the review process and in light of the workload and limited resources of the Authority's Engineering

Department, that the second highest ranked proposer be selected for peer and technical reviews, subject to negotiation of a fair and reasonable fee and legal review.

The Chairman informed the Board that he took the opportunity to come in and review the proposals; he noted that it is a very important project for Guam and that the RFP attracted high caliber firms. The Chairman asked that Management state for the record the criteria that these firms were ranked under. Mr. Santos responded, informing the Board that the criteria include: Plan of action, the Ability to provide the service, Personnel, Past Performance, Degree of Interest, for a total of 100 points.

Director Ada inquired if the criteria are specific to Airport work. Mr. Santos replied there is a structural engineering aspect and an architectural aspect. Director Ada inquired if all eight firms have experience in Airport development and or architectural engineering work. Mr. Santos replied yes.

Chairman Untalan inquired if all of the proposers have local offices or do they have off-island offices and are hiring local. Mr. Santos replied that he believed they all have local offices. Chairman Untalan informed the Board that he did review the proposals and that he was quite impressed.

Director Ada asked for clarification as to why Conflicts Counsel, Thomas J. Fisher Esq. was present for this item. Ms. Damian replied that Mr. Fisher was designated by the Authority for this issue.

Chairman Untalan asked for further explanation as to awarding to the top two (2) proposers, and will the Authority negotiate with both firms. Mr. Santos replied that they will first negotiate the contract for the architectural-engineering services, and once completed will go to the next highest ranked to negotiate a contract for peer review of the A-E contractor. Mr. Santos explained that at this time the Authority does not have engineering resources to conduct the peer review. Chairman asked for clarification if the Authority will select Proposer G to review Proposer B's work. Mr. Santos informed the Board that one firm will be the designer and the other will be the design reviewer, instead of an in-house review, it will be contracted out. Mr. Santos further explained that because this project is a large project, instead of taking resources from the already ongoing projects, the Authority decided, if legally permissible, to have the second highest proposer be awarded a peer review contract.

The Chairman inquired if that was stipulated in the RFP. Mr. Santos replied that it was not stated directly in the RFP, but Management would like to proceed in that manner if it was legally permissible. Director Ada expressed the down-side to the peer review. Mr. Santos responded that they are all professional and licensed in their field.

Chairman Untalan stated that before the Board is asked for consideration Legal Counsel would have to review and determine the legality of selecting the second highest proposer to perform a peer review.

Director Ada inquired if this would be an added cost to the Airport outside of the Bond proceeds for this specific project. Mr. Santos responded that it is added cost, but in order to meet the workload it would be that added cost of bringing on more engineering staff not to mention the learning curve involved to bring the engineering staff to that point of where they would be able to conduct the peer review needed for this project.

The Chairman inquired of the remaining projects, if there will be any other projects that are going to require a peer review. Mr. Santos responded no, because they are smaller and easier to manage.

Discussion followed relative to the peer review not stipulated in the RFP, with Mr. Santos informing the Board if the peer review is not legally permissible then another RFP would be issued for a peer reviewer. He added that if it is not possible from a procurement stand point, when the RFP for a construction manager is put out then it will be included. The Chairman inquired if the reviewer would need to be in place right now while the contract is being negotiated for the design. Discussion followed, with Legal Counsel, Mr. Tom Fisher, informing the Board that he would not be able to give the Board a final answer at this time as he needed to review the matter further.

After further discussion, on motion duly made by Director Ada, seconded by Director Alcorn, the following resolution was unanimously approved:

Resolution No. 14-21

The Board hereby approves the ranking results and the contract award to proposer B, as the highest ranked proposer for A-E Services for the Terminal Building Structural Upgrade & Concourse Isolation Design – RFP No. GIAA-001-FY14.In addition, the Board hereby approves a contract award to the second highest ranked proposer, proposer G, to provide peer review services, subject to legal review that such award is permissible under the RFP. Both contracts are subject to negotiation of a fair and reasonable fee and legal review. In the event that negotiations prove unsuccessful, GIAA Management will enter negotiations with the next highest ranked proposer.

A. Refinancing of the Energy Efficiency Loan

The second matter discussed was the Refinancing of the Energy Efficiency Loan. At this time Chairman Untalan stated for the record that he would like to recuse himself from this discussion as he is employed by First Hawaiian Bank (FHB), and requested that an

Acting Chairman be nominated to Chair the discussion as the Vice Chairman was not present.

Chairman Untalan exited the conference room.

After further discussion, on motion duly made by Director Alcorn, seconded by Director Ada, the following resolution was unanimously approved:

Resolution No. 14-22

The Board hereby approves the nomination and election of Director Gerber to Chair the discussion relative to the refinancing of the Energy Efficiency loan with First Hawaiian Bank.

Mr. Santos stated that at the November Board meeting the Board approved the amendment to the Loan Agreement with FHB to extend and continue the interest only payments up to January 24, 2014, and indicated at that time that Management would return to the Board for approval to extend the loan term to ten (10) years. Mr. Santos provided background to the Board, stating the loan was for the Authority's Energy Management Program, at a principal amount of $11.9M, with a five (5) year term. During the Bond Financing program, GIAA intended to pay-off the loan with Bond proceeds; however, after further financial analysis it was not feasible. Mr. Santos explained that legislation, Public Law 32-62, provides authorization for the Authority to refinance the FHB Loan up to ten (10) years. The new refinanced interest rate for this ten (10) year term will be 5.75% maximum. The start date for the ten (10) term is now January 23, 2014 with the expiration date of January 22, 2024. He advised the Board that the resolution provided by FHB calls for monthly payments of principal and interest in the amount of $130,625.37 per month. Mr. Santos informed the Board that Attorney Fisher has reviewed the resolution, and noted corrections to the note commencement date Public Law number. Discussion followed relative to interest rates and maturity date of the loan.

Attorney Fisher informed the Board that he was able to review the documents, therefore he would recommend that the Board adopt the resolution that FHB has provided.

Director Ada inquired if the refinancing was advertised or did the Authority just go with FHB. Mr. Santos informed the Board that a Request for Proposals was issued out.

Attorney Fisher added that a correction needs to be made to the proposed resolution to change the Chairman as an authorized representative of the Authority to Acting Chairman Gerber since Chairman Untalan is disqualified.

After further discussion, on motion duly made by Director Ada, seconded by Director Sobti, the following resolution was unanimously approved without the vote of Chairman Untalan who recused himself from this matter as earlier stated:

Resolution No. 14-23

WHEREAS, on June 27, 2012, **FIRST HAWAIIAN BANK**, a Hawaii corporation (the "Bank") agreed to lend to **ANTONIO B. WON PAT INTERNATIONAL AIRPORT AUTHORITY, GUAM**, a public corporation and autonomous instrumentality of the Government of Guam (the "Authority"), and Authority agreed to repay to the Bank, together with interest and charges, the principal amount of $11,900,000.00 (the "Loan"); and

WHEREAS, the Loan was made pursuant to a Term Loan Agreement dated June 27, 2012 (the "Loan Agreement") and evidenced by a Promissory Note dated June 27, 2012 (the "Note"), executed by the Authority in favor of Bank; and

WHEREAS, the Loan Agreement was amended by an Addendum to Loan Agreement dated June 29, 2012 (the "Addendum"); and

WHEREAS, the Loan Agreement and Note were amended further by a Commercial Loan Modification Agreement dated August 26, 2013 (the "First Modification") and a Commercial Loan Modification Agreement dated December 4, 2013 (the "Second Modification"); and

WHEREAS, the Loan and the Authority's obligations under Loan Agreement and Note, as amended, are secured by a certain Security Agreement dated June 27, 2012 (the "Security Agreement") executed by the Authority as Debtor in favor of the Bank as Lender and granting to the Bank a security interest in the Collateral as defined and described therein; and

WHEREAS, the obligations of the Authority under the Loan Agreement and Note, as amended, are guaranteed by the United States Department of Agriculture ("USDA"); and

WHEREAS, the Authority has requested that the Bank further amend the Loan Agreement and Note in various respects including, without limitation: (i) extending the term of the Loan and Note, and (ii) increasing the interest of the Loan to 5.75% per annum as authorized by Public Law Number 32-62 thereby decreasing the monthly payments of principal and interest to be made to $130,625.37 per month commencing on February 23, 2014; and

WHEREAS, the Bank has agreed to do so pursuant to a Commercial Loan Modification Agreement (the "Third Modification") and an Amended and Restated Promissory Note (the "Amended Note") in substantially the form submitted to this meeting.

NOW, THEREFORE, BE IT:

RESOLVED, that the Loan Agreement, the Note and the Security Agreement all dated June 27, 2012, the Addendum dated June 29, 2012, the First Modification dated August 26, 2013 and the Second Modification dated December 4, 2013 are hereby confirmed, ratified and approved in all respects; and

FURTHER RESOLVED, that the Authority execute and deliver to the Bank the Third Modification and the Amended Note which are hereby approved in all respects; and

FURTHER RESOLVED, that either the Acting Board Chairman Martin J. Gerber or the Vice Chairman, and the Executive Manager of the Authority be and they hereby are authorized and directed to execute, seal and deliver to the Bank, on behalf of and in the name of the Authority, the Third Modification and the Amended Note in substantially the form hereby approved, with such changes, additions or deletions as such Acting Board Chairman Martin J. Gerber or Vice Chairman and Executive Manager may approve, such approval to be conclusive evidence by their execution and delivery of the same; and

FURTHER RESOLVED, that the Acting Board Chairman Martin J. Gerber or Vice Chairman and Executive Manager be and they hereby are authorized and empowered to do and perform, or cause to be done and performed, any and all such other acts, matters and things as in their judgment may be necessary, proper or convenient in order to obtain the agreement of the Bank to modify the Loan, the Loan Agreement and the Note as aforesaid; and

FURTHER RESOLVED, that these resolutions shall constitute a continuing authority and direction to the Acting Board Chairman Martin J. Gerber or Vice Chairman and Executive Manager to act on behalf of the Authority, and the several powers and authority in the foregoing paragraphs of these resolutions shall continue until revoked by the Board of Directors of the Authority and until formal written notice of such revocation shall have been given to the Bank; and

FURTHER RESOLVED, that this Resolutions of Board of Directors may be executed in any number of counterparts, each of which, when so executed and delivered, shall constitute one and the same document. Facsimile signatures shall have the force and effect of original signatures.

Chairman Untalan returned to the conference room.

B. Procurement Approval for Gate 21 Replacement Loading Bridge

The third matter discussed was the Procurement approval for the purchase of a Replacement Passenger Loading Bridge ("PLB") for Gate 21. Mr. Santos provided a brief background to the Board. On November 2013, the Gate 21 PLB was taken out of service for safety and operating purposes. All GIAA's PLBs are manufactured by JBT AeroTech. Mr. Santos informed the Board of a similar sole source procurement with JBT AeroTech that was approved by the Board at the July 2013 Board meeting for the 34 pre-conditioned air units and ground power units, half of those units are on Guam and are in the process of installation. Since the Gate 21 PLB was taken out of service, Management has been in communication with JBT AeroTech as to the type of PLB that should be used for the Airport as compared to the current PBLs, and JBT AeroTech identified the Hawaii-style Bridge. Mr. Santos referenced the documentation provided from JBT AeroTech including a quote. He went on to add this project was included as one of the Bond-funded projects, and approximately $8.2M was set aside under the integrated PLB replacement project. Mr. Santos explained that since the PLB for Gate 21 is out of service, Management would like to accelerate the purchase of one of the five (5) PLB's that are slated to be replaced. Assessments are ongoing of the other PLB so that a priority list can be completed and replacement plan put in. The proposal from JBT AeroTech is in the amount of $855,495.00.

Mr. Santos stated that he understands the concern with sole source procurement. Discussion followed relative to the changes in the bridge style. Mr. Santos informed the Board that this bridge style was not available in 2003.

Chairman Untalan inquired if GIAA will have to sole source for the other PLB replacements, and will Management have to return to the Board for approval for those also. Mr. Santos explained that the purchase of the other four (4) bridges would be by sole source procurement, and added that assessments are being done so that they can prioritize which Gates need to be done first. Based on the condition of the PLB, the remaining bridges are going to be scheduled for Capital Improvements Projects, or if all of the Priority 1 and 2 projects are completed and there is money remaining then these could be accelerated.

Chairman Untalan stated that he thought there was $8M set aside for the integrated PLB replacement project. Mr. Santos replied that of the $8M, $4.6M was used for the purchase of (34) pre-conditioned air and ground power units. Chairman Untalan requested confirmation whether the Authority moves forward on the four remaining bridges will be based upon if there are any excess Bond funds. Mr. Santos responded yes, or they will be funded as part of GIAA's annual budget.

Chairman Untalan inquired on how long it will take to deliver the PLB. Mr. Santos responded that it is not indicated however based on the two previous orders, six (6) to nine (9) months. Once the order is placed, there is a waitlist. JBT AeroTech will give an official schedule once the order is placed. Chairman Untalan inquired on ordering the other five (5) bridges now. Mr. Santos replied that each PLB design is specific to each Gate and an overall assessment is necessary. Chairman Untalan inquired on who completes the assessments. Mr. Santos replied that there are three (3) assessments that occur, by JBT AeroTech, the maintenance provider; United Airlines official from off-island; and by Johnson Controls.

Director Gerber inquired on the life expectancy of this type equipment. Mr. Santos responded that PLBs usually last for ten (10) years. Discussion followed relative to the parts and management for the PLBs with Mr. Santos in forming the Board that by the February Board meeting Management should have an answer as to which four PLBs are to be replaced.

Director Ada inquired on the reason for the sole source procurement. Mr. Santos replied that all seventeen bridges are from the same manufacturer. Director Ada expressed his concerns with sole sourcing. Discussion followed relative to sole sourcing and searching for another manufacturer, with Director Ada stating that he would not be able to vote in favor of this sole source procurement, and questioned the fairness of the quote offered, and further expressed his concerns on the Authority being tied to one manufacturer. Chairman Untalan also expressed his concern with the quote offered. Mr. Santos introduced United representative, Mike Yost, who referenced the importance of the quality of the bridge products.

Director Sobti inquired on the last time a PLB was replaced. Mr. Santos replied in 2004 at the amount of $1M. Director Gerber questioned the quote amount and suggested Management provide information to support the amount quoted by JBT AeroTech. The Chairman asked if the item can wait until the next meeting. Mr. Santos expressed the need for the bridge to be replaced.

The Chairman requested for the benefit of the Board that Management provide a summary explaining the issues that the Board is questioning and that Legal Counsel review the legality of the sole source procurement for this purchase.

The Chairman informed Management that this item would be tabled until the next Board meeting. The Chairman stated for the record that the Board is very concerned about customer service, that it is important for visitors and partners to be happy with the service provided. He added that he understands the urgency to get the project completed however he expressed the importance in making sure the Authority is not being gauged financially and that the process be completed legally.

4. ADJOURNMENT

There being no further business to address before the Board, on motion duly made by Director Ada, seconded by Director Sobti, unanimously approved, at 4:05 p.m., the meeting was adjourned.

Dated this 7th, day of March, 2014.

Beijing refutes report it will centralize military command

BEIJING (Reuters) – China denied on Tuesday a state media report that said its military will establish a joint operational command structure for its forces to improve coordination between different parts of the defense system.

The English-language China Daily newspaper reported last week that the government would implement a joint command system "in due course" and it had already launched pilot programs to that effect.

"With regards to this, the Defense Ministry has clarified that the relevant report is groundless," the ministry said in a statement on its website.

The People's Daily, the mouthpiece of the Communist Party, and its sister tabloid, the Global Times, carried the denials on Monday, citing unidentified ministry sources. The ministry posted the People's Daily report on its website on Tuesday.

China has been moving rapidly to upgrade its military hardware, but military analysts say operational integration of complex and disparate systems across a regionalized command structure is a major challenge.

In the past, regional-level military commanders have enjoyed major latitude over their forces and branches of the military have remained highly independent of each other.

'Snowden has more secrets'

JERUSALEM (Reuters) – Former U.S. spy agency contractor Edward Snowden has more secrets to reveal that relate to Israel, the journalist who first brought his leaks to the world's attention said on Monday.

Among allegations aired by Snowden last year were that the U.S. National Security Agency and its British counterpart GCHQ had in 2009 targeted an email address listed as belonging to then-Israeli Prime Minister Ehud Olmert and monitored emails of senior defense officials.

Israel played down the disclosures. But Prime Minister Benjamin Netanyahu said he had ordered the matter examined and that "there are things that must not be done" between allies.

Glenn Greenwald, who as a writer for Britain's Guardian met face-to-face with the fugitive Snowden and has written or co-authored many of the newspaper's stories based on his material, was asked in an Israeli television interview whether the ex-contractor had more secrets to tell that related to Israel.

"Yes. I don't want to preview any stories that aren't yet published, but it is definitely the case that there are a huge number of very significant stories that are left to report," said the Brazil-based Greenwald, speaking to Channel Ten TV by video link.

In this Monday, Dec. 30, photo, two babies are held by their mothers, as one of them breast feeds, at the Mofid Children's Hospital in Tehran, Iran. Having curbed birth rates for two decades, Iran is once again promoting a baby boom to help make up for its graying population. AP

Iran to reverse slumping birth rate

TEHRAN, Iran (AP) – In Iran, free condoms and government-backed vasectomies are out, replaced by sermons praising larger families and discussions of even offering gold coins to the families of newborns.

Having successfully curbed birth rates for two decades, Iran now is promoting a baby boom to help make up for its graying population. But experts say it is difficult to encourage Iranians to have more children in a mismanaged economy hit by Western sanctions and 36 percent inflation.

"A gold coin won't change couples' calculations," said Mohammad Jalal Abbasi, head of Demographics Department at Tehran University. "Many young Iranians prefer to continue their studies, not marry. Lack of financial ability to buy a house and meet expenses are among other reasons why the youth postpone marriage or have no interest in raising many children."

Iran's birthrate reached a peak of 3.6 children per couple after its 1979 Islamic Revolution, among the world's highest at the time. By 1990, experts estimated Iran could be home to 140 million people if the rate was left unchecked. To combat the rise, Iran's supreme leader Ayatollah Ali Khamenei endorsed birth control, while then-President Akbar Hashemi Rafsanjani made controlling the birth rate a part of his development plans.

Mass-produced condoms reached Iranians, as a month's supply of birth control cost the equivalent of 10 cents in 1992. The birth rate dropped precipitously, now reportedly standing at 1.8 children per couple with a population of some 77 million people. Experts now say that drive might have been too successful, estimating that Iran's population growth could reach zero in the next 20 years if the trend is not reversed.

Fearing that population decline, the machinery of state in Iran has changed course entirely. Khamenei, who has final say over all matters of state, now says Iran should have a population of 150 million people or more.

Rolenda Faasuamalie, spokeswoman for the A.B. Won Pat International Airport, unveils a new design for a mobile application for the airport during a ceremony at the Governor's Complex at Adelup on Friday to designate Jan. 10 to 17 as Airport Week. Norman Tarlac / For Variety

Guam Airport Week proclaimed

By Gina Tabonares-Reilly
gina@mvguam.com
Variety News Staff

IN OBSERVANCE of the 38th Anniversary of the Antonio B. Won Pat International Airport, the week of Jan. 10 to 17 has been proclaimed Airport Week.

Named as the Department of the Year for three consecutive years under the governor's MagPro Awards, the management and employees of the Guam International Airport Authority were recognized during the proclamation signing at the Governor's Complex at Adelup last Friday.

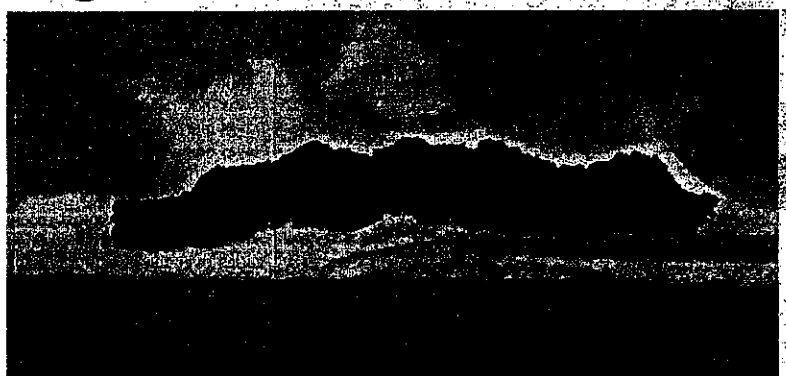
Acting Gov. Ray Tenorio underscored the important role of the airport in welcoming the troops deployed in Afghanistan in support of Operation Enduring Freedom.

With tourism as the lifeline of the Guam economy, Tenorio said GIAA "made great strides for the development and progress of the airport over the years allowing the diversification of tourism markets and the capture of new airline services."

Tenorio mentioned the expanded Ambassador Program services to Japanese, Korean and Chinese travelers.

Last year, the airport spent $26 million to improve its landing strip, extend its runways, and move its power underground.

With newly-secured $247 million in general revenue bonds, GIAA will focus its efforts on capital improvement projects including the construction of a safe concourse area for departing and arriving passengers, in addition to a single-level parking deck, and the replacement of all old terminal seating.



GIAA said the airport is also Guam's leading agency in promoting and practicing energy efficiency, taking important steps to replace lighting in key areas and install major air conditioning equipment as part of its Energy Performance Management Program.

"These improvements will enhance the traveling experience of our residents and the millions of visitors that come through our gates," GIAA said.

The airport authority was recognized by the U.S. Department of Commerce as the eighth top U.S. Port for foreign arrivals.

Last year, the airport welcomed 2.5 million arriving and transiting passengers.

High surf advisory for today

A high surf advisory is in effect until 4 p.m. today, according to the National Weather Service. Variety file photo

By Jasmine Stole
jasmine@mvguam.com
Variety News Staff

A HIGH surf advisory is in effect until 4 p.m. today, according to the National Weather Service. Northern swells may be 7 to 9 feet high today. An NWS report stated Ypao Beach lifeguards reported occasional 10-foot surf yesterday.

The public is advised to exercise caution and to avoid exposed reefs and beaches, especially north-facing reefs which will have "life-threatening" rip currents.

Paul Stanko, Guam NWS senior meteorologist, said the high surf surrounding the island is due to the winter storms leaving Japan. "They can get some really strong north winds and those start pushing the water down in our direction," Stanko said.

This kind of surf is normal around this time of the year and usually lasts about two days, Stanko added. Recently, however, there have been a series of winter storms in the Japan area which have led to a sequence of higher surf advisories around the Marianas.

Mayors back Bill 241

By Louella Losinio
louella@mvguam.com
Variety News Staff

DURING its last regularly scheduled monthly meeting held last week, the Mayors' Council of Guam unanimously supported Bill 241, a measure which would provide for a special election to fill any vacancy among Guam mayors or vice mayors.

The bill was introduced by Sen. Rory Respicio who said that with vacancies at the mayoralty and vice mayoralty level subject to the decision of only a handful of people, Bill 241 would "uphold the will of the people" by allowing a special election provided that such vacancy or vacancies occur 240 days or more before the date of the next general election for mayors and vice mayors.

During the public hearing for the measure, bill co-sponsor Sen. Tina Muña-Barnes said in villages where there are no vice mayors to assume the mayorally position, the bill requires the vacancy to be filled by a majority vote of the municipal planning council, subject to the consent of the Legislature.

In the council meeting, the motion to unanimously support the bill was made by Piti Mayor Vicente Gumataotao and seconded by Ordot-Chalan Pago Mayor Jessy Gogue.

Angel Sablan, executive director of the council, said the essence of the bill has been discussed back and forth among different mayors and vice mayors.

"There are some mayors asking if they don't finish their term this year, what would happen to their village? As we all know, it is an election year and some mayors are looking for other opportunities," he said.

Although the law provides for the vice mayors to move up should a vacancy occur, Sablan said some are not willing to assume the mayorship.

"They just want to remain as vice mayors. What is in the law right now is the municipal planning council of that village would recommend a name to the governor for appointment as an acting mayor or the governor does not have to stick to that list nor does he have to accept any of those nominees vetted by the municipal planning council. He can always name somebody on his own," Sablan said.

Although this would be an additional election cost, Sablan emphasized that it is the fairest way to fill these vacant positions.

"Nobody else but the villagers know who is best and who has been working hard in their village," he said.

BOARD OF DIRECTORS
EXECUTIVE SUMMARY

REQUEST FOR PROPOSALS, RFP NO. GIAA-001-FY14
A/E SERVICES FOR TERMINAL BUILDING STRUCTURAL UPGRADE AND CONCOURSE ISOLATION DESIGN

January 15, 2014

Purpose

Board action is requested to approve the ranking results based on the evaluation process performed through the Request For Proposals (RFP) No. GIAA-001-FY14 for A/E Services for Terminal Building Structural Upgrade and Concourse Isolation Design.

Background

The referenced RFP solicits proposals from professional firms to provide architectural and engineering services for the terminal building structural upgrade and concourse isolation design.

Procurement Background

The above referenced RFP was advertised in the local newspapers throughout the months of November & December 2013. The established deadline to submit the proposals was on December 20, 2013.

A total of eighteen (18) firms showed their interest by obtaining the RFP package; however, eight (8) firms responded by submitting their proposals before the established deadline.

After receipt of all proposals, an Evaluation Committee was established to perform an independent evaluation of the proposals to determine the best qualified proposer. The proposals were evaluated based on the point system assigned for each criteria identified in the RFP package.

The Evaluation Committee has completed their evaluations and the scores sheets were gathered and tabulated by Procurement Office. As a result, the selected firms in the order of their ranking are as follows:

1. Proposer B
2. Proposer G
3. Proposer E
4. Proposer A
5. Proposer C
6. Proposer D
7. Proposer H
8. Proposer F

Legal Review

Upon Board approval, a standard professional services contract will be forwarded to Legal Counsel for review and approval as to form.

Financial Review

The A/E Services for Terminal Building Structural Upgrade and Concourse Isolation Design Agreement funding for this project is available under the CIF.

Recommendation

Management recommends the approval of the ranking results and the contract award to **Proposer B,** as the highest ranked proposer for the A/E Services for Terminal Building Structural Upgrade and Concourse isolation Design subject to negotiations of fair and reasonable fees. And in the event that the negotiations prove unsuccessful, GIAA Management will enter negotiations with the next highest ranked proposer.

Additionally, in the interest of accelerating the review process and in view of our workload and limited resources, Management recommends the No.2 highest ranked offeror be selected for peer and technical reviews, subject to a fair and reasonable fee and legal review.

MEMORANDUM

TO: Charles H. Ada II, Executive Manager

FROM: Franklin P. Taitano, Supply Management Administrator

**SUBJECT: Evaluation and Recommendation - Request For Proposal (RFP)
A/E Services for Terminal Building Structural Upgrade and
Concourse Isolation Design
RFP No. GIAA-001-FY14; Project No. GIAA-FY14-01-1**

The referenced Request for Proposal (RFP) solicits interests from firms or individuals to provide professional services for the A/E Services for Terminal Building Structural Upgrade and Concourse Isolation Design. The advertisement for this RFP was published in the local newspaper for the months of November & December 2013. The deadline to submit the proposals was on December 20, 2013.

Eighteen (18) firms/individuals acknowledged receipt of the package and eight (8) firms submitted qualification documents before the submission deadline.

Evaluation and Selection

Pursuant to Section IX of the package, after receipt of all proposals, the GIAA Evaluation Committee conducted an independent evaluation for the purpose of selecting the most responsive and responsible offeror based on the evaluation criteria. The committee which Management established to evaluate the firms' qualifications included the following:

a. Victor Cruz, Engineering Supervisor
b. Gerard Bautista, Air Terminal Manager
c. Jean M. Arriola, Airport Services Manager
d. Frank R. Santos, Expansion Office
e. Tony Laniog, Engineering Office

The committee completed their evaluation and the scores were tabulated as reflected on the attached summary worksheet. As a result of our tabulation, the firms selected in the order of their ranking are as follows:

1. Proposer B
2. Proposer G
3. Proposer E
4. Proposer A
5. Proposer C
6. Proposer D

7. Proposer H
8. Proposer F

Recommendation

Based on the tabulation of the proposers ranking, it is determined that **Proposer B** ranked number one and the best qualified firm to perform the required services in accordance with the criteria set forth in the RFP. Also, as a result of our review of the submitted required documents, the firm has been deemed to have met the standards of responsibility and responsiveness outlined in the Guam Procurement Regulations.

Therefore, management recommends the approval of the ranking results and the contract award to **Proposer B**, as the highest ranked proposer for the A/E Services for Terminal Building Structural Upgrade and Concourse Isolation Design subject to negotiations of fair and reasonable fees. In the event that the aforementioned negotiations prove unsuccessful, the GIAA may enter negotiations with the next highest ranked proposer.

Should you have any questions or need to discuss this matter further, I am available at your request.

Franklin P. Taitano

APPROVED:

CHARLES H. ADA II
Executive Manager

RESOLUTIONS OF BOARD OF DIRECTORS

OF

ANTONIO B. WON PAT INTERNATIONAL AIRPORT AUTHORITY, GUAM

WHEREAS, on June 27, 2012, **FIRST HAWAIIAN BANK,** a Hawaii corporation (the "Bank") agreed to lend to **ANTONIO B. WON PAT INTERNATIONAL AIRPORT AUTHORITY, GUAM,** a public corporation and autonomous instrumentality of the Government of Guam (the "Authority"), and Authority agreed to repay to the Bank, together with interest and charges, the principal amount of $11,900,000.00 (the "Loan"); and

WHEREAS, the Loan was made pursuant to a Term Loan Agreement dated June 27, 2012 (the "Loan Agreement") and evidenced by a Promissory Note dated June 27, 2012 (the "Note"), executed by the Authority in favor of Bank; and

WHEREAS, the Loan Agreement was amended by an Addendum to Loan Agreement dated June 29, 2012 (the "Addendum"); and

WHEREAS, the Loan Agreement and Note were amended further by a Commercial Loan Modification Agreement dated August 26, 2013 (the "First Modification") and a Commercial Loan Modification Agreement dated December 4, 2013 (the "Second Modification"); and

WHEREAS, the Loan and the Authority's obligations under Loan Agreement and Note, as amended, are secured by a certain Security Agreement dated June 27, 2012 (the "Security Agreement") executed by the Authority as Debtor in favor of the Bank as Lender and granting to the Bank a security interest in the Collateral as defined and described therein; and

WHEREAS, the obligations of the Authority under the Loan Agreement and Note, as amended, are guaranteed by the United States Department of Agriculture ("USDA"); and

WHEREAS, the Authority has requested that the Bank further amend the Loan Agreement and Note in various respects

including, without limitation: (i) extending the term of the Loan and Note, and (ii) increasing the interest of the Loan to 5.75% per annum as authorized by Public Law Number 32-62 thereby decreasing the monthly payments of principal and interest to be made to $130,625.37 per month commencing on February 24, 2014; and

WHEREAS, the Bank has agreed to do so pursuant to a Commercial Loan Modification Agreement (the "Third Modification") and an Amended and Restated Promissory Note (the "Amended Note") in substantially the form submitted to this meeting.

NOW, THEREFORE, BE IT:

RESOLVED, that the Loan Agreement, the Note and the Security Agreement all dated June 27, 2012, the Addendum dated June 29, 2012, the First Modification dated August 26, 2013 and the Second Modification dated December 4, 2013 are hereby confirmed, ratified and approved in all respects; and

FURTHER RESOLVED, that the Authority execute and deliver to the Bank the Third Modification and the Amended Note which are hereby approved in all respects; and

FURTHER RESOLVED, that either the Board Chairman or the Vice Chairman, and the Executive Manager of the Authority be and they hereby are authorized and directed to execute, seal and deliver to the Bank, on behalf of and in the name of the Authority, the Third Modification and the Amended Note in substantially the form hereby approved, with such changes, additions or deletions as such Board Chairman or Vice Chairman and Executive Manager may approve, such approval to be conclusive evidence by their execution and delivery of the same; and

FURTHER RESOLVED, that the Board Chairman or Vice Chairman and Executive Manager be and they hereby are authorized and empowered to do and perform, or cause to be done and performed, any and all such other acts, matters and things as in their judgment may be necessary, proper or convenient in order to

obtain the agreement of the Bank to modify the Loan, the Loan Agreement and the Note as aforesaid; and

FURTHER RESOLVED, that these resolutions shall constitute a continuing authority and direction to the Board Chairman or Vice Chairman and Executive Manager to act on behalf of the Authority, and the several powers and authority in the foregoing paragraphs of these resolutions shall continue until revoked by the Board of Directors of the Authority and until formal written notice of such revocation shall have been given to the Bank; and

FURTHER RESOLVED, that this Resolutions of Board of Directors may be executed in any number of counterparts, each of which, when so executed and delivered, shall constitute one and the same document. Facsimile signatures shall have the force and effect of original signatures.

IN WITNESS WHEREOF, the undersigned being all of the members of the Board of Directors of the **ANTONIO B. WON PAT INTERNATIONAL AIRPORT AUTHORITY, GUAM** hereby certify that these resolutions have been duly adopted by said Board of Directors at a duly and legally called meeting thereof.

WON PAT INTERNATIONAL AIRPORT AUTHORITY, GUAM**, a public corporation and autonomous instrumentality of the Government of Guam (the "Borrower") and **FIRST HAWAIIAN BANK**, a Hawaii corporation, duly qualified and authorized to engage in the banking business in Guam (the "Bank").

RECITALS

WHEREAS, on June 27, 2012, the Bank made a term loan (the "Loan") to the Borrower in the original principal amount of up to **ELEVEN MILLION NINE HUNDRED THOUSAND AND NO/100 DOLLARS ($11,900,000.00)**, which Loan was made pursuant to a Term Loan Agreement dated June 27, 2012 (the "Loan Agreement") and evidenced by a Promissory Note (the "Note") dated June 27, 2012, executed by the Borrower in favor of Bank; and

WHEREAS, the Loan Agreement was amended by an Addendum to Loan Agreement dated June 29, 2012; and

WHEREAS, the Loan Agreement and Note were amended by Commercial Loan Modification Agreements dated August 26, 2013 and December 4, 2013; and

WHEREAS, the Loan and the Borrower's obligations under Loan Agreement and Note, as amended, are secured by a certain Security Agreement dated June 27, 2012 (the "Security Agreement") executed by the Borrower as Debtor in favor of the Bank as Lender and granting to the Bank a security interest in the Collateral described therein; and

WHEREAS, the obligations of the Borrower under the Loan Agreement and Note, as amended, are guaranteed by the United States Department of Agriculture; and

WHEREAS, pursuant to Guam Public Law 32-69, the Borrower was authorized to restructure the Loan and the Borrower and the Bank have agreed to do so subject to the terms and conditions set forth herein.

WITNESSETH

THAT IN CONSIDERATION of the mutual covenants contained herein and for other good and valuable consideration, the receipt and adequacy of which is hereby acknowledged, the Borrower and the Bank agree as follows:

1. **CONFIRMATION OF AMOUNT OWED.** Borrower confirms that the entire amount of the Loan has been disbursed to or for the account of Borrower and that the outstanding principal balance of the Loan as of the date hereof is **ELEVEN MILLION NINE HUNDRED THOUSAND AND NO/100 DOLLARS ($11,900,000.00).**

2. **INTEREST.** Commencing on the Effective Date, the interest rate payable under the Amended Note shall be a fixed rate of **FIVE AND THREE-FOURTHS PERCENT (5.75%)** per annum until the Amended Note is paid in full

3. **PRINCIPAL AND INTEREST PAYMENTS.** Beginning on February 24, 2014 and continuing on the twenty-fourth (24^{th}) day of each calendar month thereafter during the term of the Loan Agreement, as amended, and the Amended Note, principal and interest shall be paid in consecutive monthly installments of **ONE HUNDRED THIRTY THOUSAND SIX HUNDRED TWENTY-FIVE AND 37/100 DOLLARS ($130,625.37)** each. The amount of such monthly payment is equal to the amount required to amortize the principal amount of the Amended Note, together with interest at the interest rate provided for therein over a period of ten (10) years from January 25, 2014 to January 24, 2024, based upon the use of a year of twelve (12) thirty (30) day months and based upon an assumption that the payments will be made on a timely basis.

4. **MATURITY DATE.** The maturity date of the Loan and Amended Note is hereby extended to January 24, 2024.

5. **THE AMENDED AND RESTATED PROMISSORY NOTE.** The obligation of the Borrower to repay the Loan shall be evidenced by an Amended and Restated Promissory Note (the "Amended Note") duly executed and delivered to the Bank by the Borrowers.

6. **MODIFICATION FEE.** The Borrower shall pay a modification fee in the amount of Eleven Thousand Nine Hundred and No/100 Dollars ($11,900.00) payable upon execution of this Agreement and as a condition to its effectiveness.

7. **AMENDMENT AND EXTENSION OF LOAN DOCUMENTS.** The obligation of the Borrower to repay the Amended Note, together with accrued interest thereon, shall be evidenced by any other documents deemed necessary by the Bank's legal counsel to effectuate this Agreement, duly executed and delivered to the Bank by the Borrower.

8. **CONDITIONS PRECEDENT.** As conditions precedent to the effectiveness of this Agreement, the written approval of this Agreement by Participant and the written approval of this Agreement and confirmation of the Guaranty by USDA must be obtained, as well as the written approval of the Governor of Guam and of the Board of Directors of the Guam Economic Development Authority, as required by Guam Public Law 32-62, Sections 4(a) and 4(b).

9. **RIGHTS OF BANK.** This Agreement is made on the express condition that nothing contained herein shall in any way be construed as affecting, impairing or waiving any rights of the Bank under, Loan Agreement, as amended, the Amended Note, the Security Agreement and all documents executed in conjunction therewith or pursuant thereto (the "Loan Documents") or the validity or priority of any security instrument or similar instrument constituting the Loan Documents.

10. **CONFIRMATION OF REPRESENTATIONS AND WARRANTIES.** The Borrower agrees that each and every representation and warranty of the Borrower contained in each of the Loan Documents are hereby restated and confirmed to be true, valid and correct as of the date of this Agreement.

11. **COMPLIANCE.** The Borrower hereby agrees and represents and warrants to the Bank that the Borrower has, as of the date of this Agreement, performed and complied with all agreements and conditions contained in the Loan Documents which are required thereby to be performed and complied with by the Borrower prior to or as of the date of this Agreement.

12. **VALIDITY.** The Borrower hereby represents and warrants to the Bank that this Agreement has been duly authorized, executed and delivered by the Borrower, constitutes the legal, valid and binding obligations of the Borrower and is enforceable against the Borrower in accordance with its terms, subject only to bankruptcy, insolvency, moratorium, reorganization or other similar laws or equitable principles affecting creditors' rights in general.

13. **EXPENSES.** The Borrower shall pay all expenses incurred by the Bank in connection with this Agreement, including any attorneys' fees and other related costs and expenses.

14. **CONFIRMATION OF OBLIGATIONS.** This Agreement is an amendment and not a novation. As an essential inducement to the Bank to amend the terms and conditions of the Loan Agreement and the Loan Documents and to amend and restate the Note as provided herein, the Borrower hereby ratifies and confirms each and every Loan Document in all respects.

15. **COOPERATION TO ENSURE BANK'S PRIORITY IN SECURITY.** The Borrower shall, as requested by the Bank, execute and deliver such additional instruments which are reasonably necessary to ensure the Bank's priority and continuing security in each of the Loan Documents. The Borrower shall be responsible for and shall reimburse the Bank for any and all fees and costs incurred by the Bank, including reasonable attorneys' fees, to ensure such priority and security.

16. **NO DEFENSES; WAIVERS.** The Borrower represents and agrees that the Borrower has no claims, defenses or offsets against the Bank or against the Borrower's obligations under the Loan Documents whether in connection with the negotiations for execution of this Agreement, or otherwise, and if any such claims, defenses or offsets exist, the Borrower hereby irrevocably waives and releases each such claim, defense and offset as an essential condition for, and as the Borrower's inducement to the Bank to obtain, the Bank's agreement to enter into this Agreement and to modify the Loan.

17. **FULL FORCE AND EFFECT.** In the event of any conflict between the provisions of this Agreement and the provisions of the Loan Documents, the provisions of this Agreement shall control, but in all other respects, the provisions of each of the Loan Documents shall continue in full force and effect, and shall not be otherwise impaired by this Agreement.

18. **BINDING EFFECT.** This Agreement shall be binding upon the Borrower and the Borrower's successors and assigns and shall inure to the benefit of the Bank, its successors and assigns.

19. **JOINT AND SEVERAL OBLIGATIONS.** If more than one person other than the Bank signs this Agreement, each such person is jointly and severally obligated to keep all of the promises and obligations contained in this Agreement. The Bank may enforce the Bank's rights under this Agreement against each such person individually or against all such persons together.

20. **WAIVER OF JURY TRIAL. THE BORROWER HEREBY KNOWINGLY, VOLUNTARILY AND INTENTIONALLY WAIVES ANY RIGHT BORROWER MAY HAVE TO A JURY TRIAL IN ANY LEGAL PROCEEDING WHICH MAY BE HEREINAFTER INSTITUTED BY THE BANK OR THE BORROWER TO ASSERT ANY OF THEIR RESPECTIVE CLAIMS ARISING OUT OF OR RELATING TO ANY OF THE LOAN DOCUMENTS OR ANY OTHER AGREEMENT, INSTRUMENT OR DOCUMENT CONTEMPLATED THEREBY. IN SUCH EVENT, THE BORROWER, AT THE REQUEST OF THE BANK, SHALL CAUSE ITS ATTORNEY OF RECORD TO EFFECTUATE SUCH WAIVER IN COMPLIANCE WITH THE GUAM RULES OF CIVIL PROCEDURE, AS THE SAME MAY BE AMENDED FROM TIME TO TIME.**

21. **APPLICABLE LAW.** Notwithstanding anything to the contrary in any of the Loan Documents, this Agreement and each and all of the Loan Documents shall be governed by and interpreted in accordance with the laws of Guam.

22. **COMPLIANCE WITH OFAC RESTRICTIONS.** The Bank and the Borrower are obligated to comply with the laws and regulations administered by the United States Office of Foreign Asset Control ("OFAC Restrictions"). In order to comply with OFAC Restrictions, the Bank may be required to temporarily suspend processing a transaction which may result in delayed availability of funds, or may be prohibited from closing a transaction altogether. The Borrower agrees to the foregoing, and further agrees that if the Bank is required by applicable OFAC Restrictions to suspend processing of a transaction, or is prohibited by applicable OFAC Restrictions from closing a transaction, the Bank will not be liable for any damages of any kind or nature (including without limitation, actual, consequential, special, incidental, punitive, or indirect damages, whether arising out of claims for "lender liability" or any other cause), which the Borrower may suffer or incur in connection with any such suspension of, or failure to close, a transaction.

23. **SEVERABILITY.** If any provision of this Agreement is held to be invalid or unenforceable, the validity or

_____

_____

enforceability of the other provisions shall remain unaffected.

24. **PARAGRAPH HEADING.** The headings of paragraphs in this Agreement are inserted only for convenience and shall in no way define, describe or limit the scope or intent of any provision of this Agreement.

25. **COUNTERPARTS.** This Agreement may be executed in one or more counterparts, all of which shall constitute one and the same agreement.

IN WITNESS WHEREOF, the Borrower and the Bank have executed this Agreement as of the Effective Date.

Attention: William Calori

RE: $11,900,000.00 LOAN TO ANTONIO B. WON PAT INTERNATIONAL AIRPORT AUTHORITY, GUAM

Dear Mr. Calori:

BankPacific, Ltd., a participant in the above-referenced loan pursuant to a participation agreement between First Hawaiian Bank and BankPacific, Ltd. dated June 27, 2012, hereby consents to the modification of that loan to:

a) effective January 25, 2014, increase the interest rate to 5.75%
b) extend the amortization period to 10 years
c) extend the maturity date from June 27, 2017 to January 24, 2024
d) to reduce the monthly installment payments of principal and interest commencing February 24, 2014 from $296,185.77 to $130,625.37.

Sincerely,

BANKPACIFIC, LTD.

AMENDED AND RESTATED PROMISSORY NOTE

HAGÅTÑA, GUAM

DATE OF NOTE:	**ORIGINALLY DATED JUNE 27, 2012** **AMENDED AND RESTATED JANUARY 25, 2014**
PRINCIPAL AMOUNT OF NOTE:	**$11,900,000.00**
INITIAL INTEREST RATE:	**5.75% FIXED**

FOR VALUE RECEIVED, **ANTONIO B. WON PAT INTERNATIONAL AIRPORT AUTHORITY, GUAM,** a public corporation and autonomous instrumentality of the Government of Guam (the "Maker"), promises to pay to the order of **FIRST HAWAIIAN BANK,** a Hawaii corporation authorized to transact business in Guam (the "Payee") or to the Payee's successors or assigns, in legal tender of the United States, at such place or places as the holder of this Note ("Holder") may from time to time designate, the principal sum of **ELEVEN MILLION NINE HUNDRED THOUSAND AND NO/100 DOLLARS ($11,900,000.00),** or so much thereof as may be disbursed, together with interest thereon from the date of disbursement of said principal sum, all as provided herein.

INTEREST. The interest rate payable under this Note shall be a fixed rate of **FIVE AND THREE-FOURTHS PERCENT (5.75%)** per annum from the date hereof until this Note is paid in full. Interest will be calculated based on a 360 day year and the actual number of days elapsed.

PAYMENTS. Beginning on February 24, 2014 and continuing on the twenty-fourth (24th) day of each calendar month thereafter, principal and interest shall be paid in consecutive monthly installments of **ONE HUNDRED THIRTY THOUSAND SIX HUNDRED TWENTY-FIVE AND 37/100 DOLLARS ($130,625.37)** each. The amount of such monthly payment is equal to the amount required to amortize the outstanding principal amount of this Note, together with interest at the interest rate provided for herein, over a period of ten (10) years from January 25, 2014 to January 24, 2024, based upon the use of a year of twelve (12) thirty (30) day months and based upon an assumption that the payments will be made on a timely basis.

MATURITY. Notwithstanding anything to the contrary contained in the foregoing, all unpaid principal and accrued but unpaid interest shall be due and payable on January 23,

2024, unless sooner due as hereinafter provided. Except in the case of an election to the contrary by the Holder in the event of a default, all payments will be applied first to charges, then interest accrued, then principal.

OPTIONAL PREPAYMENT. The Maker shall have the privilege of prepaying principal upon three (3) business days' prior written notice, subject to the payment of a prepayment charge equal to three percent (3.0%) of the amount of the prepayment. The full amount of such principal specified for prepayment, together with the applicable prepayment charge, shall become due and payable on the prepayment date stated in such notice. Any prepayment shall be applied against the principal sum outstanding and shall not postpone the due date of any subsequent monthly payments or change the amount of any subsequent monthly payments.

PLACE OF PAYMENT. Maker agrees that until otherwise notified in writing by Payee or any other Holder of this Note, Maker will make all payments set forth herein payable to First Hawaiian Bank, 400 Route 8, Mongmong, Guam 96910.

SECURITY. This Note is secured by a Security Agreement and a UCC-1 Financing Statement (collectively the "Security Documents") dated June 27, 2012.

LIMITATIONS OF INTEREST. Notwithstanding any provision to the contrary contained in this Note or in the Security Documents, the rate and amount of interest which the Maker shall be required to pay to the Holder shall in no event, contingency or circumstance exceed the maximum rate or amount limitation, if any, imposed by applicable law. If, from any circumstance whatsoever, performance by the Maker of any obligation under this Note or under the Security Documents at the time performance shall be due (including, without limiting the generality of the foregoing, the payment of any fee, charge or expense paid or incurred by the Maker which shall be held to be interest), shall involve transcending the limits of validity prescribed by law, if any, then, automatically, such obligation to be performed shall be reduced to the limit of such validity prescribed by applicable law. If, notwithstanding the foregoing limitations, any excess interest shall at the maturity of this Note be determined to have been received, the same shall be deemed to have been held as additional security. The foregoing provisions shall never be superseded or waived and shall control every other provision of all agreements between the Holder and the Maker.

REPRESENTATIONS AND WARRANTIES. The Maker represents and warrants that (a) this Note constitutes a valid and enforceable obligation; and (b) neither the making of this Note nor the performance by the Maker of Maker's obligations hereunder will violate any provision of law, or any agreement, indenture, note or other instrument binding upon the Maker, nor give cause for acceleration of any indebtedness of the Maker.

LATE CHARGES. If any monthly payment shall not be paid within ten (10) days after the same becomes due and payable, the Holder, in addition to its other remedies, may collect, and the Maker shall pay on demand, a late charge equal to five percent (5%) of the amount overdue. Failure to assess such late charge for any late payment shall not constitute a waiver of the Holder's right to do so in the event of the same or any subsequent late payment.

REASONABLENESS OF DEFAULT CHARGES. The Maker acknowledges that nonpayment of any monthly payment when due and nonpayment at maturity (whether or not resulting from acceleration due to an event of default under the Security Documents) will cause damages to the Holder by reason of the additional expenses incurred in servicing the indebtedness evidenced by this Note and by reason of the loss to the Holder of the use of the money due and frustration to the Holder in meeting its other commitments. The Maker also acknowledges and agrees that the occurrence of any other default under the Security Documents will cause damages to the Holder. The Maker further acknowledges that it is and will be extremely difficult and impracticable to ascertain the extent of such damages caused by nonpayment of any sums when due or resulting from any other event of default under the Security Documents. The Maker by their execution and delivery hereof and the Holder hereof by the acceptance of this Note agree that a reasonable estimate of such damages must be based in part upon the duration of the default and that the rate of interest prescribed above with respect to the amount due and payable upon maturity or acceleration would not unreasonably compensate the Holder for such damages.

PROMISE TO PAY ADDITIONAL SUMS. The Maker promises to pay the attorneys' fees and such expenses as are incurred to induce or compel the payment of this Note (or any portion of the indebtedness evidenced hereby) or the performance of any obligations under the Security Documents, whether suit is brought hereon or thereon or not.

_____

_____

WAIVER. Except as otherwise provided herein, the Maker, and any endorsers or guarantors hereof, and all others who may become liable for any part of this obligation jointly or severally, waive presentment, protest, demand and notice of protest, demand, dishonor and nonpayment of this Note and consent to any number of renewals or extensions of the time of payment hereof and to any release of parties obligated hereunder or forbearance in the enforcement hereof.

GOVERNING LAW. This Note shall be governed by and construed according to the laws of Guam.

WAIVER OF JURY TRIAL. THE MAKER HEREBY KNOWINGLY, VOLUNTARILY AND INTENTIONALLY WAIVES ANY RIGHT MAKER MAY HAVE TO A JURY TRIAL IN ANY LEGAL PROCEEDING WHICH MAY BE HEREINAFTER INSTITUTED BY THE HOLDER OR THE MAKER TO ASSERT ANY OF THEIR RESPECTIVE CLAIMS ARISING OUT OF OR RELATING TO THIS NOTE, OR ANY OTHER AGREEMENT, INSTRUMENT OR DOCUMENT EVIDENCING, SECURING OR RELATING TO THE SECURITY DOCUMENTS OR ANY OTHER AGREEMENT, INSTRUMENT OR DOCUMENT CONTEMPLATED THEREBY. IN SUCH EVENT, THE MAKER, AT THE REQUEST OF THE HOLDER, SHALL CAUSE MAKER'S ATTORNEYS OF RECORD TO EFFECTUATE SUCH WAIVER IN COMPLIANCE WITH THE RULES OF CIVIL PROCEDURE OF THE APPLICABLE JURISDICTION, AS THE SAME MAY BE AMENDED FROM TIME TO TIME. THE SECURITY DOCUMENTS SHALL INCORPORATE COVENANTS BY THE MAKER CONFIRMING THESE AGREEMENTS.

AMEND AND RESTATE. This Amended and Restated Promissory Note amends, restates and supersedes that certain promissory note made by Maker in favor of the Holder on June 27, 2012.

IN WITNESS WHEREOF, the Maker has caused this Note to be duly executed.

Subject: Quotation for the **Guam International Airport** new **Passenger Boarding Bridge Equipment, Gate 21**

Enclosed is our Revised Quotation No. **2402-E** dated January 7, 2014. Our quotation is based on JBT AeroTech Jetway Systems standard terms and conditions, which are attached to this quotation.

This revision shows quoting the Hawaii style truss bridge as the Base Bid. The following are some clarifications
We have quoted an open truss design without our wallboard
We have added the polyurea coating on the roof as a separate line item. This was not included in the last proposal.
We have included Norament tile in the tunnels.

Should you have any questions or comments, please do not hesitate to contact us. We appreciate the opportunity to submit this proposal and look forward to being of service to you.

Sincerely,

J. Garrett Macfarlane

Date:

CONDITIONS OF SALE - DOMESTIC
ALL QUOTATIONS ARE MADE SUBJECT TO THE FOLLOWING TERMS

The following terms and conditions shall apply to contracts entered into by JOHN BEAN TECHNOLOGIES CORPORATION (JBT CORPORATION), operating through the Jetway business unit of its JBT AeroTech Division.

The conditions of sale quoted herein shall remain in effect and supersede all other conditions of sale expressed or implied by Buyer, unless Buyer and Seller otherwise agree in writing. As used throughout this Contract, the term "Product" or "Products" is defined to include all equipment, materials, supplies, components, and any services, engineering, design, and data or other work supplied by Seller under this Contract. Any modifications to the terms herein shall be deemed rejected unless expressly approved by Seller in writing

1. QUOTATION VALIDITY: This Quotation expires and becomes void on the stated validity date, unless on, or prior thereto, Seller has received (i) Buyer's order evidenced by its return of this Quotation signed in the space provided for Buyer's acceptance, or (ii) Buyer's Notice To Proceed,(referencing this quotation) to commence design or fabrication of the project herein specified. All orders are subject to acceptance at Seller's offices in Ogden, Utah, and any sale to Buyer hereunder shall be governed solely by the terms and conditions contained herein which shall supersede any conflicting terms and conditions of Buyer, any statement in Buyer's terms notwithstanding.

2. PAYMENT TERMS: Product(s) sold under this contract require an advance payment of 25% of the total contract value. The remaining 75% shall be invoiced for monthly progress payments based on an approved schedule of values or in accordance with the payment schedule submitted with Seller's proposal. Spare Part sales shall be 100% payable upon shipment of goods by Seller.

   a. Terms are net 30 days subject to credit approval. Security for the advance payment and progress payments issued for off-site materials and completed manufactured products shall be provided in accordance with Buyer's requirements or by a Bank Guarantee issued in an amount equal to the progress payment. Interest at 1-1/2% per month will be added to all accounts overdue and payable in accordance with the above Terms of Payment.

   b. If Buyer fails to perform any condition of the terms of payment of this Contract, Seller may (1) withhold deliveries and suspend performance, or (2) continue performance if Seller deems it reasonable to do so, or (3) place the Products in storage pursuant to the provisions of Article 8 and Buyer shall be liable for all applicable costs resulting therefrom. In addition, Seller shall be entitled to an extension of time for performance of its obligations equaling the period of non-performance and if Buyer fails to rectify the non-performance promptly upon notice thereof, Seller may cancel this Contract, and Buyer shall pay Seller its charges for cancellation upon submission of Seller's invoices therefor.

3. PRICE: This is a firm fixed price contract. No changes in the price will be allowed unless mutually agreed to in writing by both parties. Prices are FOB Origin (Ex-Works) unless noted otherwise on the quotation. All freight prices are estimated amounts and will be invoiced at actual costs upon receipt of shipper's invoice.

4. TAXES: State sales and/or use taxes are not included. In areas where Seller is not authorized to collect such taxes, the remittance of any sales/use tax shall be the responsibility of the Buyer. Seller will accept a valid exemption certificate from the Buyer if applicable; however, if an exemption certificate previously accepted is not recognized by the governmental taxing authority involved, or the certificate doesn't cover all assessed taxes and the Seller is required to pay such taxes , Buyer agrees to promptly reimburse Seller for the taxes paid.

5. DELIVERY: The shipment of all Products shall be scheduled as mutually agreed and in accordance with Article 3 above. Partial deliveries shall be permitted. Delivery times are approximate and are dependent upon timely receipt by Seller of all necessary equipment definition (paint color, desired carpet, column heights, etc.) and information from the Buyer necessary to proceed with the manufacturing work. In the event Buyer does not timely provide the requested definition and information, the delivery time will be delayed accordingly and Seller will notify Buyer of the next available delivery time for the Equipment which is compatible with Seller's factory production schedule.

6. DELAYS: In the event Seller should be requested by, or caused by, Buyer to delay its delivery and/or installation of any Product(s) purchased under this Contract, Seller shall be entitled to the following:

   a. A storage fee will be assessed for all delayed Products pending final delivery and installation at Buyer's site(s).

   b. Any additional costs incurred by Seller in repairing and refurbishing the Product(s) to original condition following such storage period and preliminary to delivery to Buyer.

c. Any extra handling costs incurred in extra or double handling of the Product(s) to accommodate Buyer caused or requested delays.

d. Payment in full for the Product(s) completed in accordance with the Buyer's contract schedule but placed into storage to accommodate the Buyer.

Items A, B & C may be waived for Product(s) stored less than one month or as mutually agreed upon between Buyer and Seller.

7. **FORCE MAJUERE:**

a. Seller shall not be liable for delays in delivery or failure to perform due directly or indirectly to (i) causes beyond Seller's reasonable control; (ii) acts of god, act (including failure to act) of any governmental authority (*de jure* or *de facto*), wars (declared or undeclared), governmental priorities, port congestion, riots, revolutions, strikes, fires, floods, sabotage, nuclear incidents, earthquakes, storms, epidemics; or (iii) inability due to causes beyond Seller's reasonable control to timely obtain either necessary and proper materials, components, energy, fuel, transportation, or Buyer authorizations or instructions, definition or information required for Seller to complete the manufacture of the equipment.

b. In the event of any delay or failure excused by this Article, Seller shall as soon as practical notify Buyer and shall at the same time, or at the earliest practical date after such notice, specify the revised delivery date. In the event of such delay, the time of delivery or of performance shall be extended for a period equal to the time lost by Seller by reason of the delay. If delay excused by this Article extends for more than sixty (60) days and the parties have not agreed upon a revised schedule for continuing the work at the end of the 60 day period, including adjustment of the price if applicable, then either party upon thirty (30) days written notice, may terminate this Contract with respect to the unexecuted portion of the work, whereupon Buyer shall pay Seller for all the work completed to the date of termination including profit for that work and Seller shall turn over all materials and Products completed at the termination date.

8. **SHIPMENT & STORAGE :** If any part of the Product(s) cannot be shipped when ready due to any cause referred to in Articles 6 or 7, Seller may place such Products in storage at the place of manufacture or Buyer designated site. In such event; (i) Seller shall notify Buyer of the placement of any Product in storage; (ii) Seller's delivery obligations shall be deemed fulfilled and title and all risk of loss or damage shall thereupon pass to Buyer; (iii) any amounts otherwise payable to Seller upon delivery shall be payable upon presentation of Seller's invoice; (iv) implementation of conditions of Article 6 above; and (v) when conditions permit and upon payment of all amounts due hereunder, Seller shall assist and cooperate with Buyer in any reasonable manner for the removal and delivery of any Product(s) which has been placed in storage.

9. **RISK OF LOSS & TITLE:** Full risk of loss shall pass to the Buyer upon delivery of products. However, Seller retains title, for security purposes only, to all products until paid for in full. Seller may at Seller's option repossess the same upon buyer's default in payment hereunder and charge Buyer with any deficiency.

10. **INSTALLATION:** In the event Seller is responsible for installation of the Products, Buyer agrees to provide Seller and/or its subcontractors full and timely access to the installation site, available power for testing, and an uninterrupted installation schedule. In the event that Seller shall suffer any costs or expense due to delays at the site that are beyond Seller's control, Buyer shall be charged with Seller's increased costs so incurred.

11. **PRODUCT ACCEPTANCE:** The Buyer shall inspect all Product(s) and associated work within ten (10) business days of notice from the Seller to the Buyer that the applicable work is substantially complete. Buyer shall identify in writing all punch list items during the inspection and Seller shall immediately correct such items. Buyer shall inspect and provide a final acceptance certificate within five (5) business days of notice from the Seller to the Buyer that all punch list items have been corrected.

12. **NEW PRODUCT WARRANTY**

a. Seller warrants that Products manufactured by Seller shall be free from defects in material, workmanship, and title and shall be of the kind and quality specified or designated by Seller in this Contract for a period of one year from the date of final acceptance or beneficial occupancy or 18 months from shipment of the product, whichever occurs first. Defective and nonconforming items must be held for Seller's inspection and if requested returned to the Seller's manufacturing facility. **THERE ARE NO OTHER WARRANTIES, STATUTORY, AT LAW, EXPRESS OR IMPLIED, INCLUDING THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, WHICH EXTEND BEYOND THE FACE OF THIS AGREEMENT.**

b. Upon Buyer's submission of a claim as provided above and following its substantiation, seller shall provide a replacement part for the defective or faulty part.

c. The foregoing is Seller's only obligation and Buyer's exclusive remedy for breach of warranty against Seller for all claims arising hereunder or relating hereto. In no event shall Buyer be entitled to incidental or consequential damages. Any action by Buyer arising hereunder, or relating hereto whether based on breach of contract, tort (including negligence and strict liability) or other theories must be discovered within one (1) year after the cause of action occurs or it shall be barred.

d. Seller disclaims any warranty responsibility as to its products in the event of any modification of such product without prior written consent of Seller. With respect to any Products not manufactured by Seller (except for integral parts of Seller's Products, to which the warranties set forth above shall apply), Seller gives no warranty, and only the warranty, if any, given by the manufacturer of the other product shall apply.

e. The foregoing warranty provisions are applicable only if the Buyer has performed preventative maintenance in accordance with Seller's maintenance manual. The required maintenance must be performed and records maintained for Seller's review and inspection if requested.

f. Due to the inherent design and operational use of the canopy closure curtains, tires, aircraft supply hose and hose storage basket, input and aircraft cables, light bulbs, light lenses, and fuses (when required), these items are considered expendable parts and are not covered by any warranty other than that of workmanship and quality. In addition, the following after-installation-adjustments are considered a part of standard boarding bridge maintenance and therefore are not covered by any warranty: (i) Vertical travel limits, (ii) Horizontal travel limits, (iii) Swing tunnel warning and limit, (iv) Adjustment of motor brakes and timer, (v) Steer and over-steer limits, (vi) Tire pressure, (vii) Cable adjustment, electrical and mechanical and (viii) Tunnel roller adjustments.

g. Should Buyer elect to have the installation of the Product(s) performed by someone other than Seller, the warranty shall not commence until the Product(s) has been inspected and approved for fitness of operation by the Seller. Costs for this inspection shall be borne by the Buyer.

13. **REHAB PRODUCT WARRANTY:** Seller warrants that any rehab work performed will meet all applicable specifications and other specific product and work requirements of this agreement and will be free from defects in material and workmanship for a period of one year from final acceptance of the work or beneficial occupancy, whichever occurs first. All parts not manufactured by Seller that are purchased from other vendors shall be warranted for 6 months or the vendor's stated warranty for the part whichever is less. The sole remedy for breach of this warranty is the repair or replacement (at Seller's option) of the defective good, and Seller will not be liable under this warranty for labor to remove or reinstall the good, for transportation or freight on the good or any replacement good, for down time or for any other costs. All other terms stated in Article 12 above shall apply.

14. **PATENT INFRINGMENT:**

a. If notified promptly in writing by Buyer and given complete authority, information and assistance, Seller shall defend, or may settle, at its option, any suit or proceeding brought against Buyer based upon a claim that the use or sale of any equipment in accordance with this Agreement constitutes literal infringement of any apparatus claim of a United States patent. Seller shall pay all damages and costs awarded in such suit or proceeding provided Buyer does not, by any act, except as may be required by law, or compelled during or as a result of legal proceedings (including any admission or acknowledgment), materially impair or compromise the defense of such suit or proceeding. If in such suit or proceeding, the equipment or any portion thereof is held to constitute infringement and its use is enjoined, Seller shall, at its own expense and option, either procure the right for Buyer's continued use or sale thereof, replace or modify the affected portion so that it becomes non-infringing, or accept return of such portion and refund a prorata portion of any amount paid by Buyer for such portion. This states the entire liability of Seller with respect to any infringement by the equipment.

b. The foregoing paragraph shall not apply to any claim of infringement arising from any item of equipment or portion thereof specified by Buyer, or Buyer's modification of the equipment, or Buyer's use thereof with other software or equipment not supplied by Seller. As to any such use, Seller assumes no liability whatsoever for patent infringement and Buyer will hold Seller harmless against any infringement claims arising therefrom.

15. INDEMNIFICATION AND CONSEQUENTIAL DAMAGES:

    a. Each Party shall indemnify, defend and hold harmless the other Party, from and against the loss, liability, claim, or action, to persons, property or third parties ("Loss") to the extent that such Loss was caused by the indemnifying Party or its agents, subcontractors or affiliates.

    b. Seller shall release, defend, indemnify and hold harmless Buyer, its affiliates and its other contractors for pollution or contamination arising above the surface of the land or water and which escapes or emanates directly from Sellers' equipment which equipment is wholly within Sellers' control. Buyer shall release, defend, indemnify and hold harmless Seller for all other pollution not specifically assumed by Seller.

    c. Notwithstanding the foregoing, neither Party shall be liable to the other for any indirect, special, or consequential damages, including, but not limited to, lost profits, loss of use, environmental or pollution damage, or consequential or indirect damages to the other Party's property or facilities, regardless of cause.

16. TERMINATION: In the event Buyer shall terminate the order for the Product(s) referenced herein for reasons other than a default by the Seller, Buyer agrees to pay Seller for any costs incurred and all work that Seller has performed up to the date of termination plus a reasonable rate of profit for the work performed. Except as specifically agreed in writing, termination shall not relieve either party of any obligation arising out of work performed prior to the date of termination.

17. STANDARDS: Unless otherwise specified, units are designed to meet all applicable U.S. national equipment codes, including NEC, AISC and AWS. Costs of meeting any local codes not specifically mentioned shall be an addition to the contract unless noted in Schedule A of this quotation.

18. LICENSES AND PERMITS: Building permits by any airport or regulatory authority, and applicable fees for said permits are the responsibility of the Buyer.

19. MANUALS: The prices herein cover the cost of providing our Standard Operation & Maintenance manual for each Product sold. One (1) copy per model will be provided per location. The charge for any additional manuals will be given upon request. Unless otherwise specified, all manuals provided will be in the English language.

20. VERIFICATION OF ROTUNDA HEIGHT: Seller does not assume responsibility for verification of rotunda column heights (distance from the top of foundation to second level terminal floor), anchor bolt placements, or foundation design or installation. However, Seller will furnish anchor bolt templates for specific installations upon written request and at an extra cost to Buyer. Rotunda column heights must be given to Jetway in writing at least 45 calendar days prior to the estimated shipment date specified in this Agreement. In the event Rotunda column heights are delayed, Seller will be entitled to an extension of time for performance of its obligations equaling the period of delay and will be entitled to collect all costs associated with the delay.

21. TRAINING: If purchased by the Buyer, Seller will provide operator and maintenance training at a time or times convenient to the Buyer at the time of installation, but no later than the operational date of the Equipment. Unless specified otherwise in the Contract, training sessions will utilize prepared text, slides, and other instructional aids as required in the English language. Buyer to provide language interpreters as required for training sessions.

22. DISPUTES AND GOVERNING LAW: This contract shall be governed under the laws of the State of Utah. In the event of any dispute, or difference arising out of, or relating to this contract, or the breach thereof, the parties shall use their best endeavors to settle such dispute, or difference by consulting and negotiating with each other, in good faith, and understanding of their mutual interests, to reach a just and equitable resolution which is satisfactory to the parties. In the event the parties cannot resolve such dispute up to the level of each party's Senior Management within ninety (90) days after a party's initial notice of the dispute, the parties shall be free to litigate their differences in local, state, or federal courts in Ogden, Utah.

23. SUCCESSORS AND ASSIGNS: This contract shall inure to the benefit of and bind any successor in interest to a party to this contract. The Buyer will not assign this contract or delegate its performance thereunder by subcontract or other instrumentality, in whole or in part, without the prior written consent of the Seller. However, the Seller may assign this contract to any subsidiary, affiliate or successor in interest upon notice to the Buyer of such assignment, in which case, the Seller shall be released from any and all obligations arising under this contract.

24. CONFIDENTIALITY: Buyer acknowledges that during the execution of this Agreement that Seller will provide confidential information to Buyer regarding the Equipment design. Buyer agrees that such information is and will remain the property of

Seller and that Buyer will use the information only for the operation and maintenance of the Equipment and protect the confidential information from disclosure to other person, and entities. Buyer and Seller agree not to disclose the existence or terms of this Agreement to any third person or entity without first obtaining the written permission of the other party.

25. LIMITATION OF LIABLITY: Under no circumstances shall the total aggregate liability under any contract for all Sellers' exposures (e.g., pollution, warranty, indemnification, liquidated damages) exceed the value of the contract.

26. SOFTWARE: Seller hereby grants to Buyer a non-exclusive, non-transferable and non sublicensible license to use the PCL control Software solely in conjunction with the operation of the Equipment provided under the contract and otherwise in accordance with any other applicable agreements in existence between the parties. Buyer agrees that the Software and any other related information or data supplied by Seller constitutes a valuable trade secret and is proprietary information of Seller and/or Seller's licensors. Unless expressly authorized by Seller in writing, the Software may not be copied, modified, translated, reverse engineered, compiled or decompiled, transferred, or disclosed to another party. Notwithstanding the foregoing, the Software may be copied for backup or archival purposes reasonably necessary to support the license granted herein.

27. MISCELLANEOUS: The invalidity, in whole or in part, of any Article or Paragraph thereof shall not affect the validity of the remainder of such Article or Paragraph of this Contract.

28. ENTIRE AGREEMENT: This Agreement, when accepted, shall constitute the entire Agreement between Seller and Buyer, superseding any oral or written negotiations or promises, and this Agreement may be changed, discharged or terminated only by an instrument in writing executed by a duly authorized representative of the parties.

MINUTES OF THE REGULAR MEETING OF THE BOARD OF DIRECTORS OF THE A.B. WON PAT INTERNATIONAL AIRPORT AUTHORITY, GUAM
Thursday, January 30, 2014, 3:00p.m.
GIAA TERMINAL CONFERENCE ROOM #3

1. CALL TO ORDER AND ATTENDANCE

The January 30, 2014, regular meeting of the Board of Directors of the A.B. Won Pat International Airport Authority, Guam ("GIAA" or the "Authority") was called to order by Chairman Untalan at 3:04p.m. at the GIAA Terminal Conference Room #3, 355 Chalan Pasaheru, Tamuning, Guam, 96913.

Directors Present:	**Offices or positions:**
Edward G. Untalan	Chairman
Martin Gerber	
Rosalinda A. Tolan	
Gurvinder Sobti	
Lucy M. Alcorn	
Directors Absent:	
Jesus Q. Torres	Vice Chairman
Pedro P. Ada III (Off Island)	
GIAA Officials:	
Charles H. Ada II	Executive Manager
Peter Roy Martinez	Deputy Executive Manager
Carlos Bordallo	Comptroller
Frank R. Santos	Business and Financial Consultant
Jean M. Arriola	Air Services Manager
Gerard Bautista	Air Terminal Manager
Antonio Taitingfong	Assistant Chief of Police
Victor Cruz	Engineer Supervisor
Edward Muna	Airport Operations Superintendant
Franklin Taitano	Procurement Supervisor
Joseph G. Javellana	Program Coordinator IV
Janalynn Cruz Damian, Esq.	GIAA Legal Counsel

The Chairman welcomed the presence of Airport tenants, stakeholders, and members of the public who are noted in a sign-in sheet made as an attachment to these minutes.

2. APPROVAL OF AGENDA

The Chairman asked if there were any changes to the agenda. On motion duly made by Director Gerber, seconded by Director Sobti, the agenda was amended as follows: To include under New Business a new item C. Approval of Estoppel Certificate from PacAir Properties.

3. APPROVAL OF MINUTES

A. November 27, 2013 Regular Meeting *(Tabled)*
B. December 27, 2013 Regular Meeting
C. January 15, 2014 Special Meeting

The next item on the agenda was approval of the minutes of the November 27, 2013 regular meeting; December 27, 2013 regular meeting; and January 15, 2014 special meeting.

Chairman Untalan noted that during the January 15, 2014 special meeting the award to Proposer B for the A-E Services for the Terminal Building Structural Upgrade & Concourse Isolation Design was approved, but the identity of Proposer B was not announced. Chairman Untalan requested that the name of Proposer B be stated for the record. Mr. Franklin Taitano informed the Board that Proposer B is E&A Engineers. The Chairman also mentioned that there were questions at that meeting whether it was legally permissible to use the existing RFP to select the number two (2) highest ranked proposer to conduct peer review of the number one (1) highest ranked proposer. Management informed the Board that Legal Counsel has confirmed that all procurement issues are cleared and that Management may proceed with the selection of Proposer G as the number two (2) highest ranked proposer. Mr. Franklin Taitano informed the Board that the number two (2) highest ranked proposer is Rim Architects.

Relative to the December 27, 2013 minutes, the Chairman inquired if the appraisal of the Airport property was completed by December 30, 2013 as stated. Mr. Frank Santos replied that the appraisal is done and went on to give the Board a brief update relative to the Tiyan Parkway, stating that ten (10) days ago an offer to purchase was received from Department of Public Works (DPW) for the Airport property as a perpetual easement, not a change in title, in the amount of $3.6M.

On motion duly made by Director Gerber, seconded by Director Tolan, the minutes of the November 27, 2013 regular meeting; December 27, 2013 regular meeting; and

January 15, 2014 special meeting were unanimously approved, subject to corrections.

4. CORRESPONDENCE

No Correspondence presented.

5. OLD BUSINESS

The next item on the agenda was Old Business.

A. Approval of GIAA FY13 Financial Audit Report by Ernst & Young

The first matter discussed was the approval of GIAA's FY13 Financial Audit Report by Ernst & Young LLP (E&Y). Mr. James Whitt from E&Y provided a brief power point presentation to the Board. Mr. Whitt informed the Board that E&Y was able to give an unqualified opinion.

Following the presentation, the Chairman commended Management and staff for doing an outstanding job and stated that the results are a tremendous improvement. He added that while GIAA saw a net growth, the focus is going to be on continuing improvement in the revenue base. The Chairman asked the E&Y team if the Airport would be considered low-risk in two (2) years. Mr. Whitt replied yes.

After further discussion, on motion duly made by Director Tolan, seconded by Director Alcorn, the following resolution was unanimously approved:

Resolution No. 14-24

The Board hereby approves the GIAA FY13 Financial Audit Report as presented by Ernst & Young LLP.

Chairman Untalan noted for the record that GIAA had met with the Public Auditor during the exit interview and she had very positive things to say regarding the improvements of the Airport. The Chairman added that the Board will be working with Management to create policies and procedures. The Public Auditor also noted that the Airport is again and usually the first to release its Audit in a timely manner.

A. Status of Capital Improvement Projects

The second matter discussed was the Status of Capital Improvement Projects. Mr. Frank Santos informed the Board that three (3) schedules were included in their packets, the first being the Series 2013 Bond Capital Improvement Projects. Mr. Santos provided updates on the Bond projects, informing the Board that the projects identified with

'Pending IDIQ RFP Issuance' are projects that are not federally funded and are not of a large dollar value so they will be combined under a single RFP under an Indefinite Delivery Indefinite Quantity (IDIQ) concept, previously done by GIAA. Proceeding this way will allow the Airport to place all of these projects together and be able to conduct surveys and cost estimates and streamline engineering, design and construction management. Several firms will be selected that the Airport can contract to handle these projects concurrently. Mr. Santos informed that the Board that the IDIQ RFP will include all of the professional services. Discussion followed relative to the IDIQ RFP projects.

Mr. Santos went on to update the Board on the AIP Grants, informing the Board the ARFF Fire truck is out for bid.

Mr. Santos reported on the Capital Improvement Projects for Fiscal Year 2014, Funding Source. He explained that this is an amended project schedule including projects for FY14 only, and will be updated to include previously approved but pending projects from prior fiscal years, everything is subject to availability of funding. Discussion followed relative to projects identified, but pending availability of funding to include bathroom renovations. The Chairman requested for a Priority List to be presented to the Board.

Mr. Santos provided an update on the Terminal Fire Alarm and Fire Suppression System, stating that $2.5M has been appropriated. Director Alcorn inquired on the amount to upgrade. Mr. Santos replied that a light for light replacement would be over $400,000, to upgrade to meet the fire code is $1.8M. Mr. Santos announced that the change does not have to be approved in the budget at this time, however it will need to be approved once the bid results come back.

B. Procurement Approval for Gate 21 Replacement Loading Bridge

The Executive Manager informed the Board that Management is still in the process of acquiring the data that was requested from the Board relative to the loading bridges and requested if this item be tabled until the next meeting so that the report may be completed.

6. NEW BUSINESS

The next item on the agenda was New Business.

A. Approval of Award for Exterior Wall Painting/Repair of Terminal Building and Other Airport Structures – IFB No. GIAA-C02-F14

The first matter discussed was approval of award under the Invitation for Bids for Exterior Wall Painting/Repair of the Terminal Building and Other Airport Structures, IFB No. GIAA-C02-FY14 (the "IFB"). The Executive Manager informed the Board that the IFB solicited bids from firms to provide painting/repair work inclusive of all labor, materials, supplies and equipment for painting of terminal building. Thirteen (13) firms/individuals purchased the bid package and ten (10) firms submitted bid proposals before the submission deadline. The firms were evaluated and nine (9) were determined to be acceptable. The Manager informed the Board that the lowest responsive, responsible total bid amount received is $397,999.00, which is 53% below the government estimate of $850,000.00. Management recommends that the Board approve the contract award of $397,999.00 to J&B Modern Tech, who has been determined to have met the standards of responsibility and responsiveness outlined in the Guam Procurement Regulations.

Director Alcorn inquired on EONS Enterprise Corp.'s bid amount being lower than Management's recommendation. Ms. Janalynn Damian informed the Board that upon review of the bid submitted by EONS it was determined that the bid was non-responsive because EON's did not submit the proper bid form. Discussion followed relative to the bid amounts and the type of paint to be used and if it was outlined in the bid package, with the Executive Manager informing the Board that the bid package specified the type of paint to be used.

After further discussion, on motion duly made by Director Tolan, seconded by Director Gerber, the following resolution was unanimously approved:

Resolution No. 14-25

The Board hereby approves the contract award for Exterior Wall Painting/Repair of the Terminal Building and Other Airport Structures, IFB No. GIAA-C02-FY14 to J&B Modern Tech in the amount of $397,999.00, and disqualification of the bid submitted by EONS Enterprise Corp. for non-responsiveness.

The Chairman inquired on when the water blasting will begin. Ms. Jean Arriola informed the Board approximately one month.

B. Approval of Award for Design Services for GIAA Tiyan Site Development Access Road – RFP No. GIAA-003-FY14

The second matter discussed was approval of award under the Request for Proposal for Design Services for GIAA Tiyan Site Development Access Road, RFP No. GIAA-003-FY14 (the "RFP"). The Executive Manager informed the Board that the RFP solicited proposals from professional firms to provide design services for the Tiyan site development access road. A total of twelve (12) firms obtained the RFP packages, however seven (7) firms

responded by submitting proposals before the established deadline. After receipt of all proposals, an Evaluation Committee was established to perform an independent evaluation of the proposals to determine the best qualified proposer. The proposals were evaluated based on the point system assigned for each criteria identified in the RFP package. As a result of the evaluation committee's tabulation, the selected firms in order of their ranking are as follows:

1. Proposer A
2. Proposer B
3. Proposer C
4. Proposer F
5. Proposer D
6. Proposer G
7. Proposer E

Management recommends the approval of the ranking results and the contract award to Proposer A, as the highest ranked proposer, subject to negotiations of fair and reasonable fees. In the event that the negotiations prove unsuccessful, GIAA Management will enter negotiations with the next highest ranked proposer.

The Chairman inquired if these firms have done work with the Airport in the past. The Executive Manager replied yes. The Chairman informed the Board that he took the opportunity to come in to review the proposals prior to the meeting and noted that the same firms are continuing to show interest in the projects. He added that one of the main reasons why Mr. Frank Santos is requesting for the IDIQ RFP process next month is to avoid having to put out individual RFP's for the smaller projects; under the one (1) RFP, a number of firms will be awarded, and will be rotated. Discussion followed relative to the IDIQ project.

Relative to the Tiyan Site Development Access Road RFP, Director Gerber inquired on the location. Mr. Santos directed the Board to a map and pointed out the location. The Executive Manager informed the Board that the Access Road would provide the Airport accessibility should anything unforeseen occur on the Tiyan Parkway. The Chairman inquired on who would have access to this road. Mr. Santos replied that it would be for Airport related use and would depend on the developers and tenants.

After further discussion, on motion duly made by Director Gerber, seconded by Director Alcorn, the following resolution was unanimously approved:

Resolution No. 14-26

The Board hereby approves the ranking results and contract award to Proposer A for Design Services for GIAA Tiyan Site Development Access Road, RFP No. GIAA-003-FY14,

subject to negotiation of fair and reasonable fees and legal review. If negotiations prove unsuccessful, Management can enter into negotiations with the next highest ranked proposer.

The Executive Manager announced to the Board that Proposer 'A' is Duenas & Associates.

C. Approval of Estoppel Certificate from PacAir Properties

The third matter discussed was the approval of the Estoppel Certificate from PacAir Properties. At this time Chairman Untalan stated for the record that he would like to recuse himself from this discussion as he is employed by First Hawaiian Bank (FHB), and that FHB provided financing to PacAir Properties, and he recommended that the Board elect an Acting Chairman for this discussion as the Vice Chairman is not present.

After further discussion, on motion duly made by Director Alcorn, seconded by Director Sobti, the following resolution was unanimously approved:

Resolution No. 14-27

The Board hereby approves the nomination and election of Director Gerber to Chair the discussion relative to the approval of Estoppel Certificate from PacAir Properties.

Chairman Untalan exited the conference room.

Acting Chairman Gerber requested that Mr. Santos to provide a brief background to the Board regarding the Estoppel Certificate.

Mr. Santos referred to the current Ground Lease Agreement between GIAA and PacAir Properties of which the Air Cargo Facility is constructed upon. PacAir Properties is requesting to increase its loan amount with FHB in the amount of $3.9M in order to finance tenant improvements within the facility and FHB is requesting the Estoppel Certificate as part of the financing. The tenants that they now have are Social Security Administration, U.S. Citizenship & Immigration Services and National Oceanographic Atmospheric Administration. Mr. Santos informed the Board that that the Estoppel Certificate affirms that there is a Lease Agreement, and indicates that should PacAir Properties default on their loan with FHB that GIAA is permitting FHB to either make payments on the rent and continue as the Landlord for that building or substitute. Mr. Santos stated that Management recommends that the Board approve the Estoppel Certificate and it essentially amends the Estoppel previously authorized by the Board.

Director Tolan inquired if there were a negative impact for the Airport. Mr. Santos replied none that he is aware of. Acting Chairman Gerber inquired if this would be

subject to Conflicts Counsel review, and asked if Conflicts Counsel had reviewed the Estoppel Certificate. Mr. Santos replied that he believed that Conflicts Counsel had reviewed it and would have to sign off on page 3 of the Estoppel Certificate.

After further discussion, on motion duly made by Director Tolan, seconded by Director Sobti, the following resolution was unanimously approved:

Resolution No. 14-28

The Board hereby approves the Estoppel Certificate from PacAir Properties as presented by Management subject to review by Conflicts Counsel.

Chairman Untalan returned to the conference room.

7. REPORT OF EXECUTIVE MANAGER

The next item on the agenda was the report of the Executive Manager. The Executive Manager reported on various matters concerning airline and charter operations. He announced that beginning January 15, 2014 through the end of February, the U.S. National Science Foundation (NSF) and the U.K. Facility for Airborne Atmospheric Measurements (FAAM) will be operating at the ACI hangar to monitor tropical atmosphere and changes as a result of global warming. GIAA is partnering with NSF and FAAM with two (2) days of Community Outreach presentations on February 11 and 13, and a half day Open House on February 15, 2014 at the ACI Hangar.

Reporting on FAA issues, the Manager reported that Mr. Ron Simpson, FAA Manager out of the Honolulu District Office, met with GIAA Management and staff to discuss key items that include, Tiyan Parkway, AIP Funding, Noise Mitigation, and the FY 2013 Single Audit. The next scheduled FAA visit is in April 2014 for GIAA's annual certification inspection.

The Executive Manager reported on a number of announcements to include GIAA hosting a Route Development Strategy Workshop on January 28 and 29, 2014 at the Hyatt, Guam. The workshop was facilitated by the Authority's Air Service Consultant, with the objective to identify an overall air service development strategy for GIAA and implementation plan for the remainder of 2014 and 2015. The Guam Economic Development Authority (GEDA) and the Guam Visitors Bureau (GVB) also participated in the workshop.

GIAA has been invited to attend GVB's launching of their 2020 Vision Plan scheduled for 2:00 p.m., February 4, 2014 at the Sandcastle in Tumon. All Board members are invited to attend and support the launch, with a press conference scheduled which will be led by Governor Eddie Baza Calvo.

GIAA has been working with the Lieutenant Governor's Office on the planning of "Soaring High", an island beautification Task Force fundraiser in collaboration with Japan Airlines. The fundraiser is scheduled for March 14, 2014 and will consist of lunch on the concourse and a tour of the island on board a Japan Airlines aircraft.

The Chairman announced that he attended the Route Development Strategy Workshop and he had thought it was interesting, he inquired with Management on what was the next step, will the strategy be finalized and brought to the Board for review. The Executive Manager replied that it is in line with the release of GVB's Master Plan. Having gone through the workshop, the Manager stated now GIAA can meet with GVB and GEDA and come up with a Plan that all three (3) Boards can be presented with.

The Chairman mentioned GVB's 2020 Vision Plan, and noted the importance of the three (3) agencies working together in terms of a strategy. Discussion followed relative to GVB's 2020 Vision Plan and Marketing strategies.

8. REPORT OF THE COMPTROLLER

Before moving on with the Comptroller's report, Mr. Carlos Bordallo directed the Board to a handout of proposed amendments to the budget, he explained that the numbers in the Comptroller's report are predicated upon the proposed amendments to the budget. The Comptroller informed the Board that the amendments to the budget came about as a result of the debt service level that was finalized with the Bond issuance and went on to list the amendments, stating that the revisions are simply a shift of obligations to avoid raising the Airline rates. He added that with the new First Hawaiian Bank (FHB) loan, the Debt Service Coverage ratio moved from 1.40 to 1.34, which is still above the required 1.25.

The Chairman inquired on the calculations of the Debt Service Coverage ratio amount for FY13 reported in the Ernst & Young audit report showing over 2.00. The Comptroller replied that this report showing 1.68 is from August and was not updated. The Chairman informed the Board that the objective was to revise the budget to include the Debt Service for the Bond and the Energy Efficiency loan as the numbers were off at the time the Board last reviewed the report. He added that the adjustments to the budget are being brought to the Board so that they are aware and know what to expect by the end of the year. The Chairman asked that the Comptroller explain the Amortization of Assets. The Comptroller informed the Board that it is based on GIAA recovering costs from Capital Improvement Projects through implementing tariffs, in the interest of keeping the rates the same for the Airlines, he stated that he recommended deferring the Amortization of Assets for FY14 and instead include extension of the FHB Energy Efficiency Loan. Chairman Untalan added that in July 2014 when GIAA begins negotiations with the Airlines, GIAA would incorporate back this recovery into the FY15

budget. Discussion followed relative to enplanement costs.

After further discussion, on motion duly made by Director Gerber, seconded by Director Sobti, the following resolution was unanimously approved:

Resolution No. 14-29

The Board hereby approves the amendment to the FY14 budget as presented to defer the Amortization of Assets for FY14 for one (1) year to incorporate the Debt Service for the Energy Efficiency Loan, at which time the budget for FY15 will be adjusted to recapture the Amortization of Assets as well as continue to incorporate the Debt Service for the Energy Efficiency Loan.

The next item on the agenda was the report of the Comptroller. Mr. Bordallo provided a report to the Board on the Revenues and Expenses of the Authority as of December 31, 2013. Mr. Bordallo reported that year-to-date Total Signatory Revenues are below budgeted revenues by -0.2%, year-to-date Total Concession Revenues and Passenger Facility Charges are above budget estimates by 1.9% and 2.8%, respectively. Further, year-to-date Total Other Revenues, inclusive of non-signatory and non-airline revenues, are below the budget estimate by -4.5%. Year-to-date Total Operating Revenues Actual of $16.2M is -0.3% below the budget estimate of $16.3M. Year-to-date Total Operating Expenses are below budget by -15.4%. The actual year-to-date Net Revenues from Operations of $7.64M reflects an increase of 24.5% over the year-to-date budgeted amount of $6.14M. The Authority's year-to-date results for Debt Service Coverage is at 1.44 versus the requirement of 1.25.

Chairman Untalan inquired on the incorporation of both the Merit Bonus and Law Enforcement Pay to the FY13 budget, if those funds had been reserved. The Comptroller replied yes, out of the FY13 budget. The Chairman informed the Board that there have been discussions with Legal Counsel regarding the legality of the Merit Bonus and will be working with Management on an implementation plan.

The Chairman inquired on the cash on hand by the end of last fiscal year. The Comptroller replied the total unrestricted funds at the end of FY13 $30.1M. Discussion followed relative to cash on hand with the Comptroller informing the Board that after calculations GIAA would have 380 days worth of cash on hand should anything unforeseen happen; 280 days after removing the one (1) time obligation cost for the Merit Bonus.

9. EXECUTIVE SESSION

Upon written recommendation of counsel, on motion duly made by Director Gerber and seconded by Director Alcorn, and unanimously approved, at 4:47 p.m. the Board

recessed regular session. The Board convened executive session at 4:52 p.m. to discuss pending litigation.

Executive Session adjourned at 5:00 p.m., at which time the Board reconvened the regular session.

10. PUBLIC COMMENTS

The next item on the agenda was Public Comments. Chairman Untalan called upon any public member wishing to make comments. There were none.

11. ADJOURNMENT

There being no further business to address before the Board, on motion duly made by Director Alcorn, seconded by Director Tolan, unanimously approved, at 5:01 p.m., the meeting was adjourned.

Dated this 13th, day of March, 2014.

Ichihara appeal denied

By Gina Tabonares-Reilly
gina@mvguam.com
Variety News Staff

A MAN who was sentenced both in federal and local court for meth distribution was denied his petition for post-conviction relief, claiming judicial error.

Richard Ichihara, 41, entered guilty pleas for three separate cases filed in the Superior Court of Guam in 2000 in connection with his possession of a Schedule II controlled substance and intent to distribute methamphetamine hydrochloride, commonly known as "ice."

He was sentenced to imprisonment for a term of five years with five years' probation.

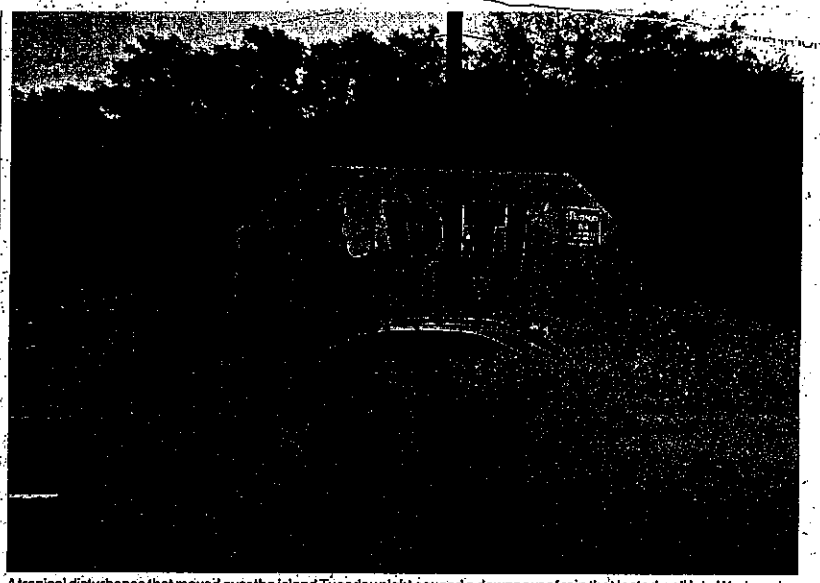
On July 3, 2013, he filed a petition for post-conviction relief. He argued that his guilty plea was involuntary and therefore unconstitutional because no record exists to show whether the court failed to elucidate the elements of his offense.

He also claimed that he received ineffective assistance of counsel when his lawyers failed to inform him of the real consequences of his plea.

Superior Court Judge James Canto, however, denied the petition, saying the convicted drug kingpin failed to show the requirements needed for post-conviction relief under the writ of error.

According to the court, Ichihara made his arguiment 13 years after his 2000 conviction and did not provide any reason for not attacking the conviction earlier.

With respect to ineffective assistance of counsel, Judge Canto ruled that the lack of aid of counsel is not a basis for relief under a writ of error.



According to the court, Ichihara made his arguiment 13 years after his 2000 conviction and did not provide any reason for not attacking the conviction earlier. With respect to ineffective assistance of counsel, Judge Canto ruled that the lack of aid of counsel is not a basis for relief under a writ of error.

Ichihara was also convicted in the District Court of Guam for meth distribution and is appealing his conviction to the 9th Circuit Court of Appeals.

He was sentenced in May 2009 to 30 years in federal prison on charges of a continuing criminal enterprise, 30 years for selling, distributing or dispensing a controlled substance, and 20 years for money laundering.

Ichihara pleaded guilty to operating a continuing criminal enterprise to distribute more than 50 grams of ice, as well as money laundering and forfeiture.

Court documents stated that Ichihara was engaged in the trafficking of ice from California to Guam and was the principal organizer of a drug trafficking ring with more than five individuals on Guam distributing meth for him.

A tropical disturbance that moved over the island Tuesday night caused a downpour of rain that lasted well into Wednesday morning. With rain, concern for farmers anew

By Louella Losinio

Variety News Staff

WITH the rainy weather in the last few days, concerns have been raised again over the welfare of the island's farmers and possible damage to their crops.

Sen. Rory Respicio, in a letter to Mariquita F. Taitague, Department of Agriculture director, said the department must be proactive in making sure the island's farmers and their crops are well taken care of.

"Our island has received significant amounts of rain in the past two days, and flooding is again occurring in many areas throughout our villages. These heavy rains have a negative impact on our local farmers, many of whom are still recovering from damaging floods," the senator wrote.

Respicio has been championing the cause of farmers, especially when a spell of stormy weather hit the island last year. In a letter to Gov. Eddie Calvo at the time, Respicio said many local farmers had suffered severe losses to their crops due to the adverse weather.

According to the senator, Guam public law has already established a program for the compensation of farmers for crop damage due to natural disasters such as typhoons, severe rain storms, floods and drought.

He said the rules and regulations authorized by 5 GCA Chapter 64A have been in place for years now, and compensation for crop damage has been dispensed previously under this authority when there has been severe damage to local farms, as in the case of Typhoon Chata'an.

But in his letter to Taitague, Respicio lamented the executive department's inaction on the matter.

"While you have made public statements about the need to amend Title 5 GCA Government Operations, Chapter 64A, Compensation to Farmers for Crop Damages, I have yet to receive your recommendations," Respicio wrote.

"Our government must be proactive on all matters affecting our people. This requires you, and others in key government positions, to carry out your duties effectively, and, in this case, administer programs to help our farmers," he added.

Respicio is now asking the Department of Agriculture to forward its recommendations immediately.

"I do maintain, however, that Public Law 32-99 remains sufficient, and allows the governor to provide immediate relief to our farmers. I think the hiccup occurred from the inconsistent administration of the Crop Damage Compensation Program," Respicio said.

"Moreover, your initial response to my FOIA request dated Dec. 30, 2013 may have indicated that you did not even utilize the statutory Crop Damage Compensation Program. I have sent you a letter dated Jan. 13, 2014 requesting clarity regarding the authority you exercised in processing recent farmer's claims for crop damages. Regrettably, you have yet to provide me details surrounding the processing of claims pursuant to Title 5 GCA Government Operations, Chapter 64A, Compensation To Farmers For Crop Damages and Public Law 32-99," he added.

Island gets nearly 5 inches of rain

By Jasmine Stole
jasmine@mvguam.com
Variety News Staff

A TROPICAL disturbance that moved over the island Tuesday night caused a downpour of rain that lasted well into Wednesday morning.

From 4 p.m. Tuesday until 4 p.m. yesterday, 4.86 inches of rain fell on the island, according to the National Weather Service. The rain had largely stopped by noon yesterday.

The NWS issued an area flooding notice during the morning's heavy showers.

Derek Williams, a forecaster at the National Weather Service's Guam office, said today and tomorrow should be relatively clear of rain.

However, a cold front coming off Japan will affect the weather for the weekend, Williams said. Rain caused by the cold front will most likely begin Friday night and last through Saturday.

As of 8 p.m. yesterday, the NWS office had not issued any weather-related advisories.

For current weather updates, residents can view forecasts on the NWS website at www.prh.noaa.gov/guam or call 211 for

Thai protesters obstruct vote

BANGKOK(AP)–Anti-government demonstrators swarmed dozens of polling stations in Thailand on Sunday to stop advance voting for next week's general elections, chaining gates shut, threatening voters and preventing hundreds of thousands of people from casting ballots.

A protest faction leader was fatally shot in a confrontation near a voting center that also left 11 people wounded, the city's emergency services said, and isolated street brawls broke out in several parts of Bangkok.

The chaos underscored the precariousness of Thailand's fragile democracy, and the increasing weakness of Prime Minister Yingluck Shinawatra's elected administration. Yingluck had called the Feb. 2 vote in a failed bid to ease months of street protests, but police did not disperse the crowds because of longstanding orders to avert violence, which many fear would give the all-powerful army reason to stage a coup.

"It's a sad day for democracy when the right to vote ... is assaulted by a political movement that claims to be striving for reform and people's empowerment," Sunai Phasuk, a senior researcher at Human Rights Watch, said of the protesters. "Everything that happened today shows they are striving for the opposite."

Although most polling stations in Bangkok and many in the opposition stronghold in the south were forced to close, voting proceeded largely unhindered in the rest of the country. Still, the upheaval proved that demonstrators struggling to overthrow Yingluck have the ability to disrupt the main vote next week, and the country's electoral commission is unlikely to stand in their way.

Reunions proposed in Koreas

SEOUL, South Korea (AP) – South Korea on Monday proposed that the rival Koreas restart arranging reunions next month for families separated by the 1950 to '53 Korean War.

North Korea last week agreed to resume the reunions by letting South Korea choose dates for the humanitarian program. The move was the latest in a recent series of conciliatory gestures North Korea has taken in a sharp contrast from last spring when the country raised tension with threats of nuclear wars.

Analysts say the North needs better ties with the outside world to help draw foreign investment and aid.

Seoul's Unification Ministry said Monday that it sent a message proposing that the reunions take place from Feb. 17 to 22 at a North Korean mountain.

Seoul has proposed working-level talks on Jan. 29 to discuss details about the reunions, according to the ministry statement.

North Korea didn't immediately respond to the South Korean proposals.

Millions of Koreans have been separated since the Korean War which ended with an armistice, not a peace treaty. The two Koreas share one of the world's most heavily fortified borders and bar ordinary citizens from exchanging correspondence.

Syria talks yield narrow deal

GENEVA (AP) – Two days of face-to-face peace talks yielded a narrow and tentative agreement Sunday for women and children trapped in a besieged Syrian city, and the government said President Bashar Assad had no intention of giving up "the keys to Damascus."

With little progress to show after months of international pressure for the conference in Geneva, the U.N. mediator hoping to broker an end to Syria's civil war defended their pace.

"I think being too slow is a better way than going too fast," Lakhdar Brahimi said. "If you run, you may gain one hour and lose one week."

The limited agreement to let women and children leave a blockaded part of the old city of Homs, under negotiation for at least two days, fell far short of expectations and was called into question by multiple reports of government shelling.

The talks have yet to touch upon the issue of a possible transitional government – their purpose according to terms laid out when they were first conceived. But the government was unequivocal that Assad's future was assured in the country led by his family since 1970.

"This is a red line. If some people think we are coming here to give them the keys of Damascus they are wrong," said Deputy Foreign Minister Faisal al-Mikdad, echoing the language U.S. President Barack Obama used to describe a chemical weapons attack in Syria.

In Syria, the war continued as if there were no effort to stop it – gunfire and shelling in Homs, between Assad's forces and rebels, and between the al-Qaida-linked militants and Kurdish fighters, according to the Britain-based Syrian Observatory for Human Rights.

The blockaded districts of Homs came under intense fire that activists blamed on the government, calling into question how any deals reached in remote Switzerland could be implemented or verified in a chaotic civil war with dozens of players that began as a largely peaceful uprising against Assad. More than 130,000 people have died in less than three years, and millions of Syrians have fled their homes.

Brahimi acknowledged that the agreement for Homs fell short of his hope to send a humanitarian aid convoy to the city. But, he said, "to bring Syria out of the ditch in which it has fallen will take time."

There have been a number of short-lived, local truces reached between opposition-held towns and government forces in recent months that, including in Moadamiyeh, a sprawling rebel-held community west of Damascus, where about 5,000 residents were allowed to evacuate in the fall.

Monzer Akbik, an opposition spokesman, said the coalition was still determined to stay for the political talks set to begin Monday despite accusing the government of stalling.

Both sides claim to represent the Syrian people.

MINUTES OF THE REGULAR MEETING OF THE BOARD OF DIRECTORS OF THE A.B. WON PAT INTERNATIONAL AIRPORT AUTHORITY, GUAM
Wednesday, November 27, 2013, 3:00p.m.
GIAA TERMINAL CONFERENCE ROOM #3

1. CALL TO ORDER AND ATTENDANCE

The November 27, 2013, regular meeting of the Board of Directors of the A.B. Won Pat International Airport Authority, Guam ("GIAA" or the "Authority") was called to order by Chairman Untalan at 3:05p.m. at the GIAA Terminal Conference Room #3, 355 Chalan Pasaheru, Tamuning, Guam, 96913.

Directors Present:	**Offices or positions:**
Edward G. Untalan	Chairman
Martin Gerber	
Lucy M. Alcorn	
Rosalinda A. Tolan	
Pedro P. Ada III	
Gurvinder Sobti	
Directors Absent:	
Jesus Q. Torres	Vice Chairman
GIAA Officials:	
Charles H. Ada II	Executive Manager
Peter Roy Martinez	Deputy Executive Manager
Carlos P. Bordallo	Comptroller
Frank R. Santos	Business and Financial Consultant
Jean M. Arriola	Air Services Manager
Gerard Bautista	Air Terminal Manager
Robert D. Camacho	Chief of Police
Frank P. Taitano	Procurement Administrator
Victor Cruz	Engineer Supervisor
Edward Muna	Airport Operations Superintendant
Joseph G. Javellana	Program Coordinator IV
Janalynn Cruz Damian, Esq.	GIAA Legal Counsel
Michael A. Pangelinan, Esq.	GIAA Legal Counsel

Chairman Untalan welcomed the presence of GIAAtenants, stakeholders, and members of the public who are noted in a sign-in sheet made as an attachment to these minutes.

Chairman Untalan welcomed GIAA's newly appointed Board Director, Gurvinder 'Bic' Sobti. Director Sobti thanked the Board for attending his swearing-in ceremony that morning.

2. APPROVAL OF AGENDA

Chairman Untalan asked if there were any changes to the agenda. No changes were requested. On motion duly made by Director Ada, seconded by Director Gerber, the agenda as presented was unanimously approved.

3. APPROVAL OF MINUTES

A. September 19, 2013 Regular Meeting *(Tabled)*

The next item on the agenda was approval of the minutes of the September 19, 2013 regular meeting. Chairman Untalan informed the Board that the minutes were tabled at the last meeting to incorporate a new format. The minutes have been modified, and resolutions are included within the minutes themselves. Chairman Untalan noted that the only change he would like to add is that it be stated in the minutes that the Directors absent at that meeting due to the weather, were excused.

On motion duly made by Director Ada, seconded by Director Tolan, the following resolution was unanimously approved:

ResolutionNo. 14-09

The Board hereby approves the minutes of the September 19, 2013 regular meeting, subject to corrections.

B. October 31, 2013 Regular Meeting

The next item on the agenda was the approval of the minutes of the October 31, 2013 regular meeting. Director Ada informed the Board that he had made a comment relative to the baggage handling system, stating that the Authority should avoid any sole source procurement;he would like to request that this comment be on the record.

On motion duly made by Director Tolan, seconded by Director Alcorn, the following resolution was unanimously approved:

ResolutionNo. 14-10

The Board hereby approves the minutes of the October 31, 2013 regular meeting, subject to corrections.

4. CORRESPONDENCE

A. Letter from Association of Mariana Islands Mayors, Vice Mayors & Elected Municipal Council Members (AMIM) Relative to a Request to Re-Open GIAA's Commuter Terminal

The Executive Manager presented to the Board a letter dated November 12, 2013 relative to requesting the Board of Directors re-open GIAA's commuter terminal for travel within the Marianas. The Manager stated that he was informed that there is an effort to increase air activity between Guam and the Mariana Islands with numerous daily flights.

The Manager reported that the old commuter terminal is currently being leased by United Airlines amongst others, and the Authority has long term contracts with those, and therefore would not be able to re-open that terminal for aeronautical use. He went on to add that GIAA will respond to the organization as to what was presented to the Board in reference to the letter. Director Tolan inquired on what triggered the request, and asked if it was a delay in processing. The Executive Manager responded that he believed the organization is trying to stimulate the economics within the CNMI.

5. OLD BUSINESS

A. Status of Capital Improvement Projects

The first matter discussed was the Status of Capital Improvement Projects. Mr. Frank Santos, Business and Financial Consultant, presented the UDO Analysis for the Board's information. Mr. Santos reported that the Authority already received half of the 2013 grants that were ratified at the last Board meeting. He went on to add that the demolition of the former GPD facility is expected to start next month with a ground breaking ceremony planned outside of the AOA to kick off the demolition phase and to get as much exposure as possible.

Mr. Santos provided the Board with a listing of Capital Improvement Projects, essentially projects that will be funded by Bond proceeds and federal grants. Mr. Santos also informed the Board that at the December regular meeting the report will provide a financial update as to what the draw-down is, how much money has been appropriated and how much money has been spent.

Mr. Santos reported that the RFP for the design portion of the Arrivals Corridor with seismic upgradesis out and will be brought to the Board at the next available meeting for award.He also stated that the bid solicitation is expected to begin in December for the construction portion of the Baggage Screening Relocation.
Mr. Santos then informed the Board of Management's intent to issue an Indefinite Delivery Indefinite Quantity (IDIQ) RFP fora number of small projects. Chairman Untalan inquired about the projects that would be covered under the IDIQ RFP. Mr. Santos responded that the IDIQ RFP would include the 'Priority 2' Capital Improvement Projects, such as the Enclosed Arrival Tunnel and the Terminal Flooring Replacement projects. Chairman Untalan asked whether all of the projects were funded by Bond proceeds or if there were other projects. Mr. Santos respondedthat there are other projects, which were approved as part of the budget, to include the exterior painting of the terminal, and the other large project being the replacement of the fire alarm system.

Relative to the fire alarm system, Mr. Santos added that Management will be coming to the Board to increase the budget and include approximately $600,000.00 worth of replacements to the suppression system, which are the sprinklers and that the system is from 1996. Chairman Untalan inquired on how they came up with the amount of $600,000.00, and if it meets all of the current fire code requirements. Mr. Santos responded that it was based on a review by a mechanical engineer and thatit does meet the fire code requirements. Mr. Santos went on to say that the fire alarm system was removed from the Energy Management contract due to Guam Fire Department (GFD) requiring a full replacement. To replace the central lines was another $600,000.00.

Chairman Untalan suggested that in order to keep the Board informed of those ongoing projects, to incorporatethem into the report somehow. Mr. Santos responded that he will work on integrating everything into the report, as well as the financial information.

Next, Mr. Santos presented Management's request to amend the Loan Agreement with First Hawaiian Bank (FHB).

At this time Chairman Untalan stated for the record that he would like to recuse himself from this discussion as he is employed by FHB. Legal Counsel, Michael Pangelinan, recommended that the Board elect an Acting Chairman for this discussion as the Vice Chairman is not present.

After further discussion, on motion duly made by Director Ada, seconded by Director Alcorn, the following resolution was unanimously approved:

Resolution No. 14-11

The Board hereby approves the nomination and election of Director Gerber to Chair the discussion relative to the amendment ofthe Loan Agreement with First Hawaiian Bank.

Mr. Santos provided background to the Board – the loan was for the Authority's Energy Management Program for the principal amount of $11.9M, with a five (5) year term. Initially, GIAA intended to pay-off the loan with Bond proceeds; however, afterfurther analysis it did not make financial sense. Mr. Santos explained that the legislation approving the bonds gave GIAA the authority to have subordinate loans for a term of ten (10) years. Currently on the loan, the Authority is paying interest on monies that have been disbursed. Director Tolan inquired on the interest rate. Carlos B. Bordallo, Comptroller, responded 3.75%. Mr. Santos stated that at this time Management is requesting that the Board approve a modification of the Loan Agreement to continue the interest only payments through January 24, 2014, at which time GIAA will have extended the $11.9M. Mr. Santos further advised the Board that Management will be returning to the Board for approval to extend the loan term to ten (10) years, which was part of the finance plan that was presented to the Bond investors and rating agencies.

Director Ada inquired if there were any additional fees to be paid for the extension. Mr. Santos replied no; however there will be fees to refinance to the ten (10) year period, and that modification agreement should be presented to the Board at the December meeting.

Legal Counsel, Michael Pangelinan, informed the Acting Chairman that FHB has submitted aresolution relative to the amendment, and that it would be appropriate for the Board to adopt the resolution that FHB has provided. Legal Counsel, Janalynn Damian, added that in addition to approving the modification, the resolution designates authorizing signatories, and it can be made subject to conflicts counsel's review.

With regard to designating authorized signatories, the Executive Manager stated that it has been somewhat challenging to get in touch with Vice Chairman Torres at times, and requested that since Director Gerber is serving as Acting Chairman, that he also be designatedas an authorized signatory for the modification. The Board had no objection. Director Ada asked that the Board move on with the meeting at this time while waiting for copies of the resolution and continue the discussion at a later time during the meeting. Chairman Untalan asked Mr. Santos if there was anything else to present before moving on. Mr. Santos replied no.

B. GIAA Board Standing Committees

The second matter discussed was the GIAA Board Standing Committees. In order to work closely with Management on various Airport issues and concerns, Chairman Untalansuggested establishing the following committees with respective Board Members as Chairperson:

1. Finance/Strategic Planning Edward Untalan

2.	Operations/IT	Jess Torres
3.	Capital Projects	Martin Gerber
4.	Tenant Relations/Marketing	Lucy Alcorn
5.	Personnel/Policies & Procedures	Lynda Tolan
6.	Air Service/Property Development	Sonny Ada
7.	Legal/Legislation/Regulatory	Open

It was noted that the open committee is available to be chaired by Director Sobti with Chairman Untalan clarifying that on that particular committee the legal aspect would be eliminated. Chairman Untalan added that if a Board member would like to assist another Committee or Board member they are more than welcome to do so.

After further discussion, on motion duly made by Director Gerber, seconded by Director Ada, the following resolution was unanimously approved:

Resolution No. 14-12

The Board hereby approves the suggested committees as presented by Chairman Untalan, with the respective Chairpersons, subject to change as follows:

1.	Finance/Strategic Planning	Edward Untalan
2.	Operations/IT	Jess Torres
3.	Capital Projects	Martin Gerber
4.	Tenant Relations/Marketing	Lucy Alcorn
5.	Personnel/Policies & Procedures	Lynda Tolan
6.	Air Service/Property Development	Sonny Ada
7.	Legislation/Regulatory	BicSobti

C. Board By-Laws

The third matter discussed was the Board By-Laws. Legal Counsel, Janalynn Damian, presented to the Board anupdated draft. She reportedsignificant changes such as creation of a Secretary position to be elected by the Board from members of the Boardfor purposes of certifying the passage of resolutions and such. Keeping consistent with GIAA's enabling statute, the current Board secretary is to be labeled as the Corresponding Secretary to handle day-to-day matters. Ms. Damian noted that other sectionswere amended to conform to current Guam law.

Discussion followed relative to the definition and responsibilities of both secretary positions, with Director Ada inquiring that in the absence of both the Chairman and Vice Chairman, would the Secretary assume the position of chairing that meeting. Ms. Damian responded no, not automatically. The director chairing the meeting would still require Board action.

After further discussion, on motion duly made by Director Ada, seconded by Director Alcorn, the following resolution was unanimously approved:

Resolution No. 14-13

The Board hereby approves the amended and restated A.B. Won Pat International Airport Authority, Guam Board By-Laws as presented by Legal Counsel.

At this time, Chairman Untalan called for nominations to elect a Board Secretary. Director Ada stated that he would like to nominate Director Sobti. Director Sobti accepted the nomination.

After further discussion, on motion duly made by Director Ada, seconded by Director Alcorn, the following resolution was unanimously approved:

Resolution No. 14-14

The Board hereby approves the nomination of and elects Director Sobti to the position of Board Secretary of the A.B. Won Pat International Airport Authority, Guam Board of Directors.

At this time the Board referred back to an earlier discussion regarding the Board Resolution relative to the First Hawaiian Bank Loan.

After further discussion, on motion duly made by Director Ada, seconded by Director Alcorn, the following resolution was unanimously approvedwithout the vote of Chairman Untalan who recused himself from this matter as earlier stated:

Resolution No. 14-08

WHEREAS, on June 27, 2012, **FIRST HAWAIIAN BANK**, a Hawaii corporation (the "Bank") agreed to lend to **ANTONIO B. WON PAT INTERNATIONAL AIRPORT AUTHORITY, GUAM**, a public corporation and autonomous instrumentality of the Government of Guam (the "Authority"), and Authority agreed to repay to the Bank, together with the interest and charges, the principal amount of $11,900,000.00 (the "Loan"); and

WHEREAS, the Loan was made pursuant to a Term Loan Agreement dated June 27, 2012 (the "Loan Agreement") and evidenced by a Promissory Note dated June 27, 2012 (the "Note"), executed by the Authority in favor of Bank; and

WHEREAS, the Loan Agreement was amended by an Addendum to Loan Agreement dated June 29, 2012 (the "Addendum"); and

WHEREAS, the Loan and the Authority's obligations under Loan Agreement and Note, as amended, are secured by a certain Security Agreement dated June 27, 2012 (the

"Security Agreement") executed by the Authority as Debtor in favor of the Bank as Lender and granting to the Bank a security interest in the Collateral as defined and described therein; and

WHEREAS, the obligations of the Authority under the Loan Agreement and Note, as amended, are guaranteed by the United States Department of Agriculture ("USDA"); and

WHEREAS, the Loan Agreement and Note were amended by a Commercial Loan Modification Agreement dated August 26, 2013 (the "First Modification") extending the period during which interest only payments are to be made under the Loan Agreement and Note to November 27, 2013; and

WHEREAS, the Authority has requested the Bank amend the Loan Agreement and Note to, among other things, extend further the period during which the Authority is to make interest only payments to January 24, 2014; and

WHEREAS, the Bank has agreed to do so pursuant to a Commercial Loan Modification Agreement (the "Second Modification") in substantially the form submitted to this meeting.

NOW, THEREFORE, BE IT RESOLVED, that the execution and delivery by the Authority of the Loan Agreement, the Note and the Security Agreement all dated June 27, 2012, the Addendum dated June 29, 2012, and the First Modification dated August 26, 2013 are hereby confirmed, ratified and approved in all respects; and

FURTHER RESOLVED, that the Authority execute and deliver to the Bank the Second Modification which is hereby approved; and

FURTHER RESOLVED, that Director Martin J. Gerber and the Executive Manager of the Authority be and they hereby are authorized and directed to execute, seal and deliver to the Bank, on behalf of and in the name of the Authority, the Second Modification in substantially the form hereby approved, with such changes, additions or deletions as Director Martin J. Gerber and Executive Manager may approve, subject to Conflicts Counsel review, such approval to be conclusively evidenced by their execution and delivery of the same; and

FURTHER RESOLVED, that Director Martin J. Gerber and the Executive Manager be and they hereby are authorized and empowered to do and perform, or cause to be done and performed, any and all such other acts, matters and things as in their judgment may be necessary, proper or convenient in order to obtain the agreement of the Bank to modify the Loan, the Loan Agreement and the Note, and

FURTHER RESOLVED, that these resolutions shall constitute a continuing authority and direction to Director Martin J. Gerber and Executive Manager to act on behalf of the Authority, and the several powers and authority in the foregoing paragraphs of these resolutions shall continue until revoked by the Board of Directors of the Authority and until formal written notice of such revocation shall have been given to the Bank; and

FURTHER RESOLVED, that these Resolutions of Board of Directors may be executed in any number of counterparts, each of which, when so executed and delivered, shall constitute one and the same document, and that facsimile signatures shall have the force and effect of original signatures.

D. Signage Policy – Non-Commercial

The fourth matter discussed was Signage Policy – Non-Commercial. The Executive Manager informed the Board that GIAA's AirportServices Manager, Ms. Jean Arriola is in communication with Legal Counsel to create a Non-Commercial Signage Policy, with a draft already completed; however there are some redlines to be adjustedbefore presented. The Manager stated that it would be presented at the next Board meeting.

Legal Counsel, Michael Pangelinan added that they were asked by Management to look at a Policy for Signage and after some research on airports in the United States they had found a number of airports in California that have Signage Policies, and are currently reconciling that with GIAA's existing Policy that applies to commercial advertising signage to make sure they are not in conflict because GIAA is trying to adopt something that is more geared toward non-commercial. He also informed the Board that it would be presented at the next Board meeting. Chairman Untalan noted that this item would be tabled until the next meeting.

E. Authority of Executive Manager to pay Day-to-Day Operating Expenses

The next item discussed was the authority of the Executive Manager to pay day-to-day operating expenses. Chairman Untalan referred to the discussion from last meeting relative to the number of disbursement requests and checks that he had to sign on a daily basis. In light of the controls and procedures that are already in place and that are overseen by the Comptroller and by the Board of Directors, a Board resolution has been prepared giving authority to the Executive Manager to pay the day-to-day operating expenses, provided that the controls and procedures are in place.

Legal Counsel, Janalynn Damian presented the resolution to the Board stating that it allows the Executive Manager to pay the day-to-day operating expenses to include expenses such as utilities, retirement contributions.Ms. Damian also noted, in light of the fact that there are controls and procedures in place, such as dual signatories on

disbursements and reports by the Comptroller, these payments should not have to be presented for Board approval. Chairman Untalan added that the expenses authorized for payment by the Manager must be within the approved budget.
Ms. Damian noted that the Board already has a policy in place for contracts over $50,000.00, which have to come before the Board for approval. So once those contracts are approved by the Board, the disbursements under those contracts should not need further Board approval. Mr. Bordallo asked if there would be a limit. Ms. Damian replied that the $50,000.00 still applies for contracts. The utilities are more than $50,000.00 but you would not have to come to the Board for ratification of those payments as they are day-to-day operating expenses and they are presented in the Comptroller's monthly report to the Board. Discussion followed relative to the resolution that either the Executive Manager or Chairman sign for disbursements at the Chairman's discretion.

The Board then discussed the $50,000.00 threshold for contracts, with Mr. Santos suggesting an increase to $100,000.00, for at least capital improvement projects. Director Ada asked if that issue had to be addressed now orif the Board can put more thought into it first. Chairman Untalan stated yes, it could be brought back for discussion at the next Board meeting. Director Sobti suggested the maximum cap amount be $100,000.00 for contracts. Chairman Untalan agreed with the suggested amount, and stated that it would need to be reported to the Board every month.

Going back to disbursements, Mr. Bordallo inquired if the threshold would also be $100,000.00 in terms of reporting to the Board. Chairman Untalan responded that right now the report requires anything over the $50,000.00 threshold for disbursements, and requested to leave it at that amount.

After further discussion, on motion duly made by Director Tolan, seconded by Director Gerber, the following resolution was unanimously approved:

Resolution No. 14-15

WHEREAS, the ANTONIO B. WON PAT INTERNATIONAL AIRPORT AUTHORITY, GUAM's ("GIAA" or the "Authority")enabling statute (codified at 12 G.C.A. § 1101 et seq.) provides that the Executive Manager "shall have full charge and control of the operations and maintenance of the airports controlled by the Authority" (12 G.C.A. § 1107(a)); and

WHEREAS, GIAA's enabling statute further provides that the powers of the Executive Manager include "keep[ing] the Board advised on the needs of the Authority and approv[ing] demands for payment of obligations within the purposes and amounts authorized by the Board" (12 G.C.A. § 1107(b)(3)); and

WHEREAS, current protocols provide that all disbursements of GIAA funds are subject to dual authorizing signatures – one authorized signatory from the Accounting Department (either the Comptroller or Assistant Comptroller) and one authorized signatory from the Administration Department (either the Executive Manager, Deputy Executive Manager, or Airport Services Manager); and

WHEREAS, the expenses relating to the day-to-day operations of the Authority are included in the Report of the Comptroller provided to the Board of Directors at every monthly Board of Directors meeting; and

WHEREAS, in light of the controls and procedures already in place, the monthly reporting to the Board of Directors by the Comptroller, and the need for the Executive Manager to pay the day-to-day operating expenses of the Authority without waiting for Board approval or obtaining Board ratification, the Board of Directors has determined that it is prudent to give the Executive Manager the authority to pay the day-to-day operating expenses of the Authority without further Board approval, including, without limitation, monthly utility expenses and the Authority's share of contributions to the Government of Guam Retirement Fund.

NOW, THEREFORE, BE IT RESOLVED, that the Board of Directors of GIAA hereby authorizes the Executive Manager to pay all expenses relating to the day-to-day operations of the Authority without further Board approval, including, without limitation, monthly utility expenses and the Authority's share of contributions to the Government of Guam Retirement Fund.

After further discussion, on motion duly made by Director Ada, seconded by Director Tolan, the following resolution was unanimously approved:

Resolution No. 14-16

The Board hereby authorizes the Executive Manager to enter into contracts without Board approval not to exceed $100,000.00, with the Comptroller reporting any contracts entered into up to $100, 000.00 to the Board on a monthly basis.

6. NEW BUSINESS

The next item on the agenda was New Business.

A. Approval of Award for Rental of Trash Bin Containers and Pick-up Services – IFB No. GIAA-002-FY14

The first matter discussed was approval of the contract award for Rental of Trash Bin Containers and Pick-up Services, IFB No. GIAA-002-FY14. The Executive Manager informed the Board that an Invitation for Bid was announced to solicit bids from firms to provide rental of trash bins/containers and pick-up services in the Main Terminal building, inclusive of labor, materials, supplies and equipment. The term of the contract is for a period of three (3) years with an option for an additional one (1) year renewal period, not to exceed a total contract term of five (5) years. Four (4) firms/individuals received bid packages and four (4) firms submitted bids before the bid submission deadline. There were four different bid items, based on the size of the trash bins.

The Executive Manager requested that the Board authorize the contract award for bid items 1 & 3 of $15,680.00 to HCP Inc. dba Lagu Sanitation and bid items 2 & 4 of $90,383.44 to Pacific Waste Systems. It has been determined that both firms have met the standards of responsibility and responsiveness outlined in the Guam Procurement Regulations.

Chairman Untalan inquired if it is more effective to separate the bids. Mr. Franklin Taitano, Procurement Administrator, replied yes as not all firms are able to provide all of the sizes. Discussion followed relative to insurance requirements and tipping fees with Chairman Untalan noting the significant difference in bid amounts. Gerard Baustista, Air Terminal Manager, responded that he assumes that the firms assumed the risk of underbidding on the tipping fees and how they determined their estimates. Discussion moved to a firm not fulfilling their contract due to underbidding.

With the bids being under $100,000.00, Chairman Untalan noted the fact that the Executive Manager would now be able to approve the contract without Board approval, therefore he stated moving forward, the Board will not see these small bid amountsapart from in the Comptroller's monthly report and the Executive Manager's report.

After further discussion, on motion duly made by Director Ada, seconded by Director Sobti, the following resolution was unanimously approved:

Resolution No. 14-17

The Board hereby approves the contract awards for the Rental of Trash Bins/Containers and Pick-up Services, IFB No. GIAA-002-FY14 to (1) HCP Inc. dba Lagu Sanitation in the amount of $15,680.00 for rental of the 3 cubic yards and 10 cubic yards bins; and (2) Pacific Waste Systems in the amount of $90,383.44 for rental of the 4 cubic yards and 24 cubic yards bins.

7. REPORT OF EXECUTIVE MANAGER

The next item on the agenda was the report of the Executive Manager. The Executive Manager reported on various matters concerning airline and charter operations. Reporting on the Fiscal Year 2013 financial audit, the Entrance Audit Meeting was held on November 19, 2013 with Ernst and Young, GIAA and the Office of Public Accountability, with theaudit being completed before February 1, 2014, as mandated by statute.

On FAA Issues, the Manager updated the Board on the Tiyan Parkway, stating that after a meeting with Governor Calvo, the FAA and the Federal Highway Administration on November 18, 2013, FAA agreed to keep Central Avenue and Sunset Boulevard open until Phase 1 is completed.

Mr. Jose Ralls, the new TSA Regional Director, paid a courtesy visit to GIAA Management on November 18, 2013, with the main issue discussed being the additional TSA Checkpoints for transit passengers. Mr. Ralls was amenable to GIAA's requests and concerns and asked that GIAA submit them to him in writing.

The Executive Manager announced that GIAA is in the planning stages of its annual Table Top Exercise scheduled for December 4, 2013. The Exercise is a requirement for GIAA pursuant to the Code of Federal Regulations (CFR) Title 14, and Federal Aviation Regulation (FAR) 139.

On Tenant Issues, the Manager went on to report that Lotte Duty Free awarded the contract for the Retail Concession Renovations/Upgrade to Black Construction with work commencing on November 19, 2013. The project will be done in phases with final completion in the first quarter of 2014.

The contract for the GSA/TSA Renovations was awarded to BME& Sons Inc. for the renovation of additional offices for TSA and is scheduled to be completed within 90 days.

The Executive Manager attended the Japan Guam Travel Council Meeting held on November 20, 2013 with the main discussions revolving around U.S. Customs and Border Protection (USCBP) issues, processing times, and assistance from the ambassadors of the Airport Ambassador Program. USCBP advised that they are down to62 officers from 80, and with the U.S. sequestration, USCBP does not see any respite in the near future.

The Manager announced that the 3rd year in a row GIAA received the Department of the Year Award in the Medium Sized Agency Category at the 2013 MagPro Awards. GIAA's Runway Safety Program won Program of the Year and Mr. Oscar Aflague of the Administration Division and Mr. Thomas Perez of the Properties & Facilities represented

GIAA in the Talent Competition and won first place. The following employees garnered awards in the MagPro Awards Program:

- Ricky Garcia, IACE – Airport Police Officer II, Airport Police Division
  Employee of the Year/Security & Correction
- Raymond Mantanona – Fire Captain (Airfield), ARFF Unit
  Supervisor of the Year / Public Safety
- Carl V. Cruz, A.C.E.- Airport Police Supervisor, Airport Police Division
  Supervisor of the Year/ Security & Correction
- Santiago Crisostomo – Maintenance Supervisor, Properties & Facilities Division
  Supervisor of the Year/ Labor, Grounds & Maintenance

The Executive Manager announced that the 2013 Holiday Illumination Project is underway with both the interior and the exterior of the Terminal currently being decorated with festive holiday décor and lights.

At this time Director Tolan requested that the Executive Manager give the Board an update relative to their travel to the Manila, Philippines to meet with Cebu Airlines. The Manager informed the Board that he and Director Tolan met with Cebu Airlinesand were informed that they will no longer proceed under a wet lease arrangement and will wait to enter the Guam market until they are given the approval by the FAA, which they are expecting in early 2014. However, the airline did commit to starting up in the end of 2014.

Director Ada inquired on the problems that GIAA is having with Immigration, asking if there are lines for the elderly or women with infants. Mr. Gerard Bautista replied no, that it is the Airlines'responsibility to bring those people needing assistance to the front of the lines.

Chairman Untalan inquired if there is any upcoming travel to report for the next two (2) months. The Executive Manager replied yes in January. Mr. Bordallo informed Chairman Untalan of travel requests for two (2) Accounting staff to attend an Airport Finance and Administration Conference to be held in Orlando, Florida in January 2014. Chairman Untalan reminded Management to inform the Board in advance of upcoming travel.

Discussion followed relative to the Ambassador Program, with Director Alcorn noting that if there were representatives from each airline it would be more beneficial for everyone. Chairman Untalan noted that the issue would fall under Director Alcorn's Subcommittee, and went on to express the importance of the Board's Subcommittees becoming progressive.

At this time Director Ada congratulated Management on winning the MagPro Award for Department of the Year, and suggested that the Chairman write to the MagPro award winners on behalf of the Board recognizing their achievement. Chairman Untalan asked that the Board Secretary work on congratulatory letters, and suggested the Talent Show winners perform at the Employee Recognition Party on January 17, 2014.

8. REPORT OF THE COMPTROLLER

The next item on the agenda was the report of the Comptroller. Mr. Bordallo provided a report to the Board on the Revenues and Expenses of the Authority as of October 31, 2013. Mr. Bordallo reported that year-to-date Total Signatory Revenues are below budgeted revenues by -4.2%, year-to-date Total Concession Revenues are above budget estimates by 1.2%, and Passenger Facility Charges belowbudget estimates by5.8%. Further, year-to-date Total Other Revenues, inclusive of non-signatory and non-airline revenues, are below the budget estimate by 4.2%. Year-to-date Total Operating Revenues Actual of $5.16M is -2.87% below the budget estimate of $5.31M. Year-to-date Total Operating Expenses are below budget by -6.8%. The actual year-to-date Net Revenues from Operations of $2.38M reflects an increase of 2.2% over the year-to-date budgeted amount of $2.33M. The Authority's year-to-date results for Debt Service Coverage is at 1.40 versus the requirement of 1.25.

Mr. Bordallo informed the Board that there was a slight drop in enplanements from what was budgeted and those were just based on the numbers provided by the Airlines. Chairman Untalan noted the budget does not include the FHB loan and suggested that the budget be revised to reflect the pricing of the new bonds and the loan. He then inquired if the Comptroller does a balance sheet on a monthly basis, and asked that he incorporate the day's cash on the balance sheet.

Chairman Untalan informed Mr. Bordallo that the report would be adjusted moving forward to include the disbursements.

Director Tolan inquired on Accounts Receivable, and if it was included in the report. Mr. Bordallo responded no, that Accounting's system has been updated and accounts receivable will provided at the next meeting.

9. EXECUTIVE SESSION

Upon written recommendation of counsel, on motion duly made by Director Tolanand seconded by Director Alcorn, and unanimously approved, at 5:05 p.m. the Board recessed to convene executive session to discuss pending litigation.

On motion made by Director Alcorn, seconded by Director Gerber, unanimously approved, Executive Session adjourned at 5:47 p.m., at which time the Board reconvened the regular session.

At this time Chairman Untalan asked Management to explain the Memorandum of Understanding (MOU) regarding the Tiyan Parkway that was just brought to the Board's attention. Mr. Santos informed the Board that the MOU is a replacement MOU for one that was done back in 2007, and the MOU was held up because of the issues involvingthe closure of Central Avenue. He went on to add that the parties involved are Department of Land Management (DLM), Department of Public Works (DPW), GIAA, and Governor Calvo; it is also concurred by the two (2) federal oversight agencies, the Federal Aviation Administration (FAA), and the Federal Highway Administration (FHA); and it has also been reviewed by the parties' respective attorneys. Mr. Santos confirmed that this MOU is acceptable to all parties, including the FAA.

Mr. Santos offered a brief report to the Board regarding the Parkway issue. He stated that Phase I properties which are going to be purchased by DPW are for a perpetual easement for the working plan of Phase I. Discussion followed relative to the appraisals, with Mr. Santos informing the Board that the FAA is satisfied with the commitment from the Government with an appropriation of $1.8M.

Chairman Untalan inquired on the reason this is being bought to the Board. Mr. Santos responded stating that based on the changes that the Governor's Chief Policy Advisor made, they're ready to execute those changes, adding that the FAA and FHA were pushed to execute so there could be a formal sign off in Guam by the Government of Guam agencies this Friday, November 29, 2013. Chairman Untalan asked if Conflicts Counsel has been part of these developments. Mr. Santos replied yes, and directed the Board to page 4, section 2 of the MOU to see the Authority's responsibilities. Director Gerber inquired if it should be subject to FAA approval. Mr. Santos responded that the FAA has approved the MOU.

Chairman Untalan asked if there will be a cost to the Authority. Mr. Santos replied that the only area where there may be a cost to the Authority is the issue of drainage.

Mr. Santos informed the Board that Management will be presenting other documents from FAA for the use of the property, so there are going to be obligations from FAA on how the Authority proceeds.

After further discussion, on motion duly made by Director Tolan, seconded by Director Alcorn, the following resolution was unanimously approved:

Resolution No. 14-18

The Board hereby approves the Memorandum of Understanding by and between the A.B. Won Pat International Airport Authority, Guam, Department of Public Works, Department of Land Management, the United States Department of Transportation Federal Aviation Administration, and the United States Department of Transportation Federal Highway Administration relative to the Tiyan Parkway, as presented.

10. PUBLIC COMMENTS

The next item on the agenda was Public Comments. Chairman Untalan called upon any public member wishing to make comments. There were none.

11. ADJOURNMENT

There being no further business to address before the Board, on motion duly made by DirectorAlcorn, seconded by DirectorAda, unanimously approved, at 6:03 p.m., the meeting was adjourned.

Dated this _____, day of _____, 2014.

MINUTES OF THE REGULAR MEETING OF THE BOARD OF DIRECTORS OF THE A.B. WON PAT INTERNATIONAL AIRPORT AUTHORITY, GUAM
Friday, December 27, 2013, 3:00p.m.
GIAA TERMINAL CONFERENCE ROOM #3

1. CALL TO ORDER AND ATTENDANCE

The December 27, 2013,regular meeting of the Board of Directors of the A.B. Won Pat International Airport Authority, Guam ("GIAA" or the "Authority") was called to order by Chairman Untalan at 3:01p.m. at the GIAA Terminal Conference Room #3, 355 Chalan Pasaheru, Tamuning, Guam, 96913.

Directors Present:	**Offices or positions:**
Edward G. Untalan	Chairman
Martin Gerber	
Rosalinda A. Tolan	
PedroP. Ada III	
Gurvinder Sobti	
Directors Absent:	
Jesus Q. Torres	Vice Chairman
Lucy M. Alcorn (Excused)	
GIAA Officials:	
Charles H. Ada II	Executive Manager
Peter Roy Martinez	Deputy Executive Manager
Ann Bautista	Assistant Comptroller
Frank R. Santos	Business and Financial Consultant
Jean M. Arriola	Air Services Manager
Gerard Bautista	Air Terminal Manager
Janalynn Cruz Damian, Esq.	GIAA Legal Counsel

The Chairman welcomed the presence of Airport tenants, stakeholders, and members of the public who are noted in a sign-in sheet made as an attachment to these minutes.

2. APPROVAL OF AGENDA

The Chairman asked if there were any changes to the agenda. On motion duly made by Director Ada, seconded by Director Tolan, the agenda was amended as follows: Signage Policy – Non-Commercial was requested by the Executive Manger to be tabled as a draft Policy is still being drawn up.

3. APPROVAL OF MINUTES

A. November 27, 2013 Regular Meeting

The next item on the agenda was approval of the minutes of the November 27, 2013 regular meeting. Chairman Untalan requested that the minutes be tabled as Legal Counsel has not had a chance to review them.

4. CORRESPONDENCE

No Correspondence presented.

5. OLD BUSINESS

The next item on the agenda was Old Business.

A. Status of Capital Improvement Projects

The first matter discussed was the Status of Capital Improvement Projects. Mr. Frank Santos, Business and Financial Consultant informed the Board that he was deferring until next month to give his full consolidated report on federally funded projects, bond projects, and other capital improvement projects.

Mr. Santos provided a brief update on the, Arrival Corridor with Seismic Upgrades project. The Airport received eight (8) proposals in response to the design RFP, and the proposals are being evaluated. Mr. Santos added that this is a key project and Management is taking steps to ensure that cost estimates are refined and there is sufficient funding. Management requested that the Board call a Special meeting in mid-January to address the award of that RFP. At that special meeting, Mr. Santos also requested that the Board consider a time sensitive issue relative to the refinancing of the Authority's Energy Efficiency loan. At the last meeting, the Board had approved extending the interest only payments until January, with the expiring date for that being January 24, 2014.

Mr. Santos provided a brief update to the Board on other current projects to include the Airport Fire Alarm System, stating that the fire suppression system is replacement of key areas and that the project cost is estimated at $2.4M.

Mr. Santos went on to add that next month the Indefinite Delivery Indefinite Quantity (IDIQ) RFP will be issued and with that RFP the Authority will o award a number of smaller projects,which hopefully will be awarded in February 2014.He added that in terms of getting an update on all the projects, possibly mid-January at the very least.

Discussion followed relative to regulations for calling a Special Board meeting in mid-January to address the items mentioned.

Chairman Untalan suggested an 'Industry Day' to give contractors notification of upcoming projects, which would be good for public relations.

B. Signage Policy – Non-Commercial*Tabled*

6. NEW BUSINESS

The next item on the agenda was New Business.

A. Approval of Award for Environmental Consulting Services – RFP No. GIAA-004-FY14

The first matter discussed was approval of award of the Environmental Consulting Services contract, RFP No. GIAA-004-FY14. The Executive Manager informed the Board that a Request for Proposals was announced to solicit proposals from professional environmental consulting firms to assist GIAA in the management of its environmental programs. The preliminary scope of work includes, but is not limited to, monitoring storm water discharge in accordance to NPDES permit requirements, evaluation of existing oil/water separators, evaluation of surface drainageand detention pond system, and sampling and analyses of storm water in UIC wells.

A total of twelve (12) firms picked-up a RFP package, however, only four (4) firms submitted proposals before the established deadline. After receipt of all proposals, an Evaluation Committee was established to perform an independent evaluation of the proposals to determine the best qualified proposer based on the evaluation criteria set forth in the RFP. As a result of the evaluation committee's tabulation,the selected firms in order of their ranking are as follows:

1. Proposer A
2. Proposer D

3. Proposer C
4. Proposer B

Management recommends the approval of the ranking results and the contract award to Proposer A, as the highest ranked proposer, subject to negotiations of fair and reasonable fees. In the event that the negotiations prove unsuccessful, GIAA Management will enter negotiations with the next highest ranked proposer.

Chairman Untalan requested that the Board be given the opportunity to review the proposals submitted. Ms. Janalynn Damian, Legal Counsel explained why a letter designation was used, stating that under the Procurement Law the names of the proposers are required to be kept confidential and the non-winning proposals are never made public, so until the award is finished the names of the proposers will remain confidential.

Chairman Untalan inquired on the amount of the contract. The Executive Manager replied that the contract is not to exceed $300,000.00 - $400,000.00 per year for a term of five (5) years.

After further discussion, on motion duly made by Director Ada, seconded by Director Sobti, the following resolution was unanimously approved:

Resolution No. 14-19

The Board hereby approves the ranking results and contract award to Proposer A, as the highest ranked proposer for the Environmental Consulting Services, RFP No. GIAA-004-FY14, subject to negotiation of fair and reasonable fees and legal review.If negotiations prove unsuccessful, Management can enter into negotiations with the next highest ranked proposer.

Executive Manager Ada then announced that Proposer A is PCR Environmental.

Director Ada inquired if the current contractor's, PCR Environmental, prior contract was for five (5) years also. Management replied yes.

7. REPORT OF EXECUTIVE MANAGER

The next item on the agenda was the report of the Executive Manager. The Executive Manager reported on various matters concerning airline and charter operations, to include China Air and Dynamic Air planning to conduct charters for Chinese Winter and Chinese New Year.Eva Air, Korean Air, China Airlines and United Airlines will offer direct charter flights from Japan cities to Guam from December 27, 2013 to January 3, 2014.

Management provided the Board with a list of 2013 Accomplishments and Management's Goals and Objectives for 2014 ("Go 2014") for the Board's review and information. The Executive Manager commended all of the Authority's Managers and respective divisions on all of their efforts in achieving these accomplishments for the fiscal year. Chairman Untalan inquired on the annual evaluation of the Executive Manager and if it was due. The Executive Manager responded yes. The Chairman informed the Manager that the Board will work with Director Tolan on completing that evaluation. The Executive Manager added that Management appreciates the Board members setting higher standards, and noted the importance of forming additional subcommittees such as Legislative/Regulatory and Air Service Development, as a lot of the challenges that the Airport will be facing moving forward will fall within those subcommittees. The Executive Manager informed the Board that Director Ada has already made contact with Management for the first Air Service Development committee meeting. Chairman Untalan noted that one of the challenges the Airport will face in 2014 is that the specialty retail concession improvements will be completed by March 2014, and there needs to be a plan to bring the rest of the Airport up to par with the new renovations. Discussion followed relative to projects that the Airport is requiring, to include the Airport's Strategic Plan.

Director Tolan inquired on the status of the restroom renovations. The Executive Manager informed the Board that the Project Manager for Black Construction reported that the restrooms near Gate 9 should be completed within the first quarter. Director Tolan inquired on the number of restrooms to be renovated. The Executive Manager informed the Board that there are six (6).. The Manager expressed to the Board some of the challenges the Airport is having with regard to the cleaning of the restrooms.

Mr. Santos was asked to give an update on the Tiyan Parkway. He informed the Board of a conference call earlier that same day with FAA, DPW, Department of Land Management, the Governor's Office, and GIAA. He stated that things are moving forward; documents are being prepared for the release of the Authority's land for the Parkway. On Tuesday, January 31, 2013 at 10:00 a.m. there will be a ceremony to demolish the former GPD facility. The appraisal of the Airport property should be completedby Monday, December 30, 2013, and is estimated between $75.00 to $100.00 per square meter; with $100.00 being the highest and this is for the purchase of a perpetual easement. In terms of land purchases, the Land Purchase Agreements are already being drafted by the Attorney General, the signing ceremony will be Monday, December 30, 2013.

8. REPORT OF THE COMPTROLLER

The next item on the agenda was the report of the Comptroller. Ms. Ann Bautista, Assistant Comptroller, provided a report to the Board on the Revenues and Expenses of the Authority as of November 30, 2013. Ms. Bautista reported that year-to-date Total Signatory Revenues are below budgeted revenues by -1.7%, year-to-date Total Concession Revenues are above budget estimates by 1.5% and Passenger Facility Charges are belowbudget estimates by -1.9%. Further, year-to-date Total Other Revenues, inclusive of non-signatory and non-airline revenues, are below the budget estimate by -6.0%. Year-to-date Total Operating Revenues Actual of $10.5M is -1.8% below the budget estimate of $10.7M. Year-to-date Total Operating Expenses are below budget by -17.6%. The actual year-to-date Net Revenues from Operations of $4.94M reflects an increase of 25.1% over the year-to-date budgeted amount of $3.95M. The Authority's year-to-date results for Debt Service Coverage is at 1.37 versus the requirement of 1.25.

Chairman Untalan inquired if the charter flights mentioned in the Executive Manager's Report were included in the revenue projection. Ms. Bautista replied no. Chairman Untalan inquired if the Debt Coverage Ratio is inclusive of the First Hawaiian Bank loan payment. Ms. Bautista responded yes.

Ms. Bautista referenced Accounts Receivables and Accounts Payable, stating that those over ninety (90) days are already being referred to Legal, most are current receivables therefore they are expected to be received toward the end of the month. Director Ada noted on the report there are three accounts with Legal, and asked what triggers an account being referred to Legal. Ms. Bautista replied that after Accounting has exerted their efforts, Management will assist, by referring it to Legal.Chairman Untalan asked for clarification, if a Concessionaire falls ninety (90) days past due, what is the process. Ms. Bautista replied that first a notice is given for collection, then a second notice after thirty days (30), and then Management will assist.Ms. Jean Arriola added that a courtesy reminder is given, then five (5) days' notice, followed by legal proceedings.

Director Tolan inquired on the Holiday Illumination project, asking what happens to the light fixtures. Ms. Arriola replied that the contract is for installation and removal.

Director Ada at this time informed the Board that he has been in communication with Airports Council International (ACI) relative to a Peer Review;it is a service that ACI offers,by coming to Guam, and seeing how GIAA compares to similar sized Airports. Chairman Untalan inquired if a Peer Review has ever been done before. The Executive Manager responded not that he is aware of. Director Ada added that there is an Asia-Pacific division located in Hong Kong that could assist with a peer review.

9. EXECUTIVE SESSION

Upon written recommendation of counsel, on motion duly made by Director Tolan and seconded by Director Sobti, and unanimously approved, at 3:47 p.m. the Board recessed regular session. The Board convened executive session at 3:57 p.m. to discuss pending litigation.

On motion duly made by Director Ada, seconded by Director Tolan and unanimously approved, Executive Session adjourned at 4:10 p.m., at which time the Board reconvened the regular session.

10. PUBLIC COMMENTS

The next item on the agenda was Public Comments. Chairman Untalan called upon any public member wishing to make comments. There were none.

At this time the Executive Manager informed the Board of an item he would like to bring to the Board's attention. He stated that in early December the Administration paid out the last two 10% salary increments of the required 40% salary increase for Law Enforcement personnel, which applies to the Airport Police and ARFF divisions. The Executive Manager informed the Board that the Authority paid out the last 10% salary increment last year. The law requires four consecutive 10% salary increments, but the Authority deferred payment on the last two increments and Management is now seeking authority to pay the retroactive payments for the deferred increments. Management is looking at the retroactive payments as an obligation for FY2014, at an estimated amount of $700,000.00 to $800,000.00 for the two (2) divisions.

The Chairman informed the Board that he had asked the Comptroller to update and revise the budget, to include the new Debt Service Schedule for both the Bonds and the Loan, and bringing in the revised budget to the Board for approval. The Comptroller was working on making certain adjustments to be able make the Debt Service Schedule without increasing the emplaned passenger cost, and with any additional costs outside of that it is going to adversely affect the financials of the Authority.

Ms. Arriola added that the law requires that 10% increments be implemented consecutively from 2009 to 2012. Discussion followed relative to the Authority's Law Enforcement personnel salaries compared to outside Law Enforcement.

The Chairman expressed how tight the revised budget would be after the new Debt Schedule was included. Director Ada inquired on when it was due. The Executive Manager stated that it would be a continuing liability from 2012.

Chairman Untalan informed Management that the Board would review it. If it is something that the Authority is legally bound to, they would have to find $800,000.00 of cuts somewhere. Discussion followed relative to budget areas that could absorb the amount. The Chairman called for any comments from the Board. Director Tolan stated as long as the Authority has the funds available it should be paid.The Chairman informed the Board that he would work with Management and advise the Board accordingly.

After further discussion, on motion duly made by Director Ada, seconded by Director Sobti, the following resolution was unanimously approved:

Resolution No. 14-20

The Board hereby authorizes the Chairman of the Board to review and advise Management on how to proceed on the retroactive payments owed to GIAA's Law Enforcement divisions.

11. ADJOURNMENT

There being no further business to address before the Board, on motion duly made by Director Tolan, seconded by Director Sobti, unanimously approved, at 4:38 p.m., the meeting was adjourned.

Dated this _____, day of _____, 2014.

MINUTES OF THE SPECIAL MEETING OF THE BOARD OF DIRECTORS OF THE A.B. WON PAT INTERNATIONAL AIRPORT AUTHORITY, GUAM
Wednesday, January 15, 2014, 3:00p.m.
GIAA TERMINAL CONFERENCE ROOM #3

1. CALL TO ORDER AND ATTENDANCE

The January 15, 2014, special meeting of the Board of Directors of the A.B. Won Pat International Airport Authority, Guam ("GIAA" or the "Authority") was called to order by Chairman Untalan at 3:06p.m. at the GIAA Terminal Conference Room #3, 355 Chalan Pasaheru, Tamuning, Guam, 96913.

Directors Present:	**Offices or positions:**
Edward G. Untalan	Chairman
Lucy M. Alcorn	
Martin Gerber	
Pedro P. Ada III	
Gurvinder Sobti	
Directors Absent:	
Jesus Q. Torres	Vice Chairman
Rosalinda A. Tolan (Excused)	
GIAA Officials:	
Charles H. Ada II	Executive Manager
Peter Roy Martinez	Deputy Executive Manager
Carlos Bordallo	Comptroller
Frank R. Santos	Business and Financial Consultant
Jean M. Arriola	Air Services Manager
Gerard Bautista	Air Terminal Manager
Janalynn Cruz Damian, Esq.	GIAA Legal Counsel
Thomas J. Fisher Esq.	GIAA Conflicts Counsel

The Chairman welcomed the presence of Airport tenants, stakeholders, and members of the public who are noted in a sign-in sheet made as an attachment to these minutes.

2. APPROVAL OF AGENDA

The Chairman asked if there were any changes to the agenda. No changes were requested. On motion duly made by Director Ada, seconded by Director Sobti, the agenda as presented was unanimously approved.

3. NEW BUSINESS

The next item on the agenda was New Business.

A. Approval of Award forA-E Services for the Terminal Building Structural Upgrade & Concourse Isolation Design – RFP No. GIAA-001-FY14

The first matter discussed was approval of award of the contract A-E Services for the Terminal Building Structural Upgrade and Concourse Isolation Design, RFP No. GIAA-001-FY14. The Executive Manager informed the Board that a Request for Proposals was issued soliciting proposals from professional firms to provide architectural and engineering services for the terminal building structural upgrade and concourse isolation design. A total of eighteen (18) firms picked-up the RFP packages, however, only eight (8) firms submitted proposals before the established deadline. After receipt of all proposals, an Evaluation Committee was established to perform an independent evaluation of the proposals to determine the best qualified proposer based on the criteria identified in the RFP package. As a result of the evaluation committee's tabulation,the selected firms in order of their ranking are as follows:

1. Proposer B
2. Proposer G
3. Proposer E
4. Proposer A
5. Proposer C
6. Proposer D
7. Proposer H
8. Proposer F

Management recommends the approval of the ranking results and the contract award to Proposer B, as the highest ranked proposer, subject to negotiations of fair and reasonable fees. In the event that the negotiations prove unsuccessful, GIAA Management will enter negotiations with the next highest ranked proposer.

Mr. Frank Santos recommended in the interest of accelerating the review process and in light of the workload and limited resources of the Authority's Engineering

Department, that the second highest ranked proposer be selected for peer and technical reviews, subject to negotiation of a fair and reasonable fee and legal review.

The Chairman informed the Board that he took the opportunity to come in and review the proposals; he noted that it is a very important project for Guam and that the RFP attracted high caliber firms. The Chairman asked that Management state for the record the criteria that these firms were ranked under. Mr. Santos responded, informing the Board that the criteria include: Plan of action, the Ability to provide the service, Personnel, Past Performance, Degree of Interest, for a total of 100 points.

Director Ada inquired if the criteria are specific to Airport work. Mr. Santos replied there is a structural engineering aspect and an architectural aspect. Director Ada inquired if all eight firms have experience in Airport development and or architectural engineering work. Mr. Santos replied yes.

Chairman Untalan inquired if all of the proposers have local offices or do they have off-island offices and are hiring local. Mr. Santos replied that he believed they all have local offices. Chairman Untalan informed the Board that he did review the proposals and that he was quite impressed.

Director Ada asked for clarification as to why Conflicts Counsel, Thomas J. Fisher Esq. was present for this item. Ms. Damian replied that Mr. Fisher was designated by the Authority for this issue.

Chairman Untalan asked for further explanation as to awarding to the top two (2) proposers, and will the Authority negotiate with both firms. Mr. Santos replied that they will first negotiate the contract for the architectural-engineering services, and once completed will go to the next highest ranked to negotiate a contract for peer review of the A-E contractor. Mr. Santos explained that at this time the Authority does not have engineering resources to conduct the peer review. Chairman asked for clarification if the Authority will select Proposer G to review Proposer B's work. Mr. Santos informed the Board that one firm will be the designer and the other will be the design reviewer, instead of an in-house review, it will be contracted out. Mr. Santos further explained that because this project is a large project, instead of taking resources from the already ongoing projects, the Authority decided, if legally permissible, to have the second highest proposer be awarded a peer review contract.

The Chairman inquired if that was stipulated in the RFP. Mr. Santos replied that it was not stated directly in the RFP, but Management would like to proceed in that manner if it was legally permissible. Director Ada expressed the down-side to the peer review. Mr. Santos responded that they are all professional and licensed in their field.

Chairman Untalan stated that before the Board is asked for consideration Legal Counsel would have to review and determine the legality of selecting the second highest proposer to perform a peer review.

Director Ada inquired if this would be an added cost to the Airport outside of the Bond proceeds for this specific project. Mr. Santos responded that it is added cost, but in order to meet the workload it would be that added cost of bringing on more engineering staff not to mention the learning curve involved to bring the engineering staff to that point of where they would be able to conduct the peer review needed for this project.

The Chairman inquired of the remaining projects, if there will be any other projects that are going to require a peer review. Mr. Santos responded no, because they are smaller and easier to manage.

Discussion followed relative to the peer review not stipulated in the RFP, with Mr. Santos informing the Board if the peer review is not legally permissible then another RFP would be issued for a peer reviewer. He added that if it is not possible from a procurement stand point, when the RFP for a construction manager is put out then it will be included. The Chairman inquired if the reviewer would need to be in place right now while the contract is being negotiated for the design. Discussion followed, with Legal Counsel, Mr. Tom Fisher, informing the Board that he would not be able to give the Board a final answer at this timeas he needed to review the matter further.

After further discussion, on motion duly made by Director Ada, seconded by Director Alcorn, the following resolution was unanimously approved:

Resolution No. 14-21

The Board hereby approves the ranking results and the contract award to proposer B, as the highest ranked proposer for A-E Services for the Terminal Building Structural Upgrade & Concourse Isolation Design – RFP No. GIAA-001-FY14.In addition, the Board hereby approves a contract award to the second highest ranked proposer, proposer G, to provide peer review services, subject to legal review that such award is permissible under the RFP. Both contracts are subject to negotiation of a fair and reasonable fee and legal review.In the event that negotiations prove unsuccessful, GIAA Management will enter negotiations with the next highest ranked proposer.

A. Refinancing of the Energy Efficiency Loan

The second matter discussed was the Refinancing of the Energy Efficiency Loan. At this time Chairman Untalan stated for the record that he would like to recuse himself from this discussion as he is employed by First Hawaiian Bank (FHB), and requested that an

Acting Chairman be nominated to Chair the discussion as the Vice Chairman was not present.

Chairman Untalan exited the conference room.

After further discussion, on motion duly made by Director Alcorn, seconded by Director Ada, the following resolution was unanimously approved:

Resolution No. 14-22

The Board hereby approves the nomination and election of Director Gerber to Chair the discussion relative to the refinancing of the Energy Efficiency loan with First Hawaiian Bank.

Mr. Santos stated that at the November Board meeting the Board approved the amendment to the Loan Agreement with FHB to extend and continue the interest only payments up to January 24, 2014, and indicated at that time that Management would return to the Board for approval to extend the loan term to ten (10) years. Mr. Santos provided background to the Board, stating the loan was for the Authority's Energy Management Program, at a principal amount of $11.9M, with a five (5) year term. During the Bond Financing program, GIAA intended to pay-off the loan with Bond proceeds; however, after further financial analysis it was not feasible. Mr. Santos explained that legislation, Public Law 32-62, provides authorization for the Authority to refinance the FHB Loan up to ten (10) years. The new refinanced interest rate for this ten (10) year term will be 5.75% maximum. The start date for the ten (10) termis now January 23, 2014 with the expiration date of January 22, 2024. He advised the Board that the resolution provided by FHB calls for monthly payments of principal and interest in the amount of $130,625.37 per month. Mr. Santos informed the Board that Attorney Fisher has reviewed the resolution, and noted corrections to the note commencement date Public Law number. Discussion followed relative to interest rates and maturity date of the loan.

Attorney Fisher informed the Board that he was able to review the documents, therefore he would recommend that the Board adopt the resolution that FHB has provided.

Director Ada inquired if the refinancing was advertised or did the Authority just go with FHB. Mr. Santos informed the Board that a Request for Proposals was issued out.

Attorney Fisher added that a correction needs to be made to the proposed resolution to change the Chairman as an authorized representative of the Authority to Acting Chairman Gerber since Chairman Untalan is disqualified.

After further discussion, on motion duly made by Director Ada, seconded by Director Sobti, the following resolution was unanimously approved without the vote of Chairman Untalan who recused himself from this matter as earlier stated:

Resolution No. 14-23

WHEREAS, on June 27, 2012, **FIRST HAWAIIAN BANK**, a Hawaii corporation (the "Bank") agreed to lend to **ANTONIO B. WON PAT INTERNATIONAL AIRPORT AUTHORITY, GUAM**, a public corporation and autonomous instrumentality of the Government of Guam (the "Authority"), and Authority agreed to repay to the Bank, together with interest and charges, the principal amount of $11,900,000.00 (the "Loan"); and

WHEREAS, the Loan was made pursuant to a Term Loan Agreement dated June 27, 2012 (the "Loan Agreement") and evidenced by a Promissory Note dated June 27, 2012 (the "Note"), executed by the Authority in favor of Bank; and

WHEREAS, the Loan Agreement was amended by an Addendum to Loan Agreement dated June 29, 2012 (the "Addendum"); and

WHEREAS, the Loan Agreement and Note were amended further by a Commercial Loan Modification Agreement dated August 26, 2013 (the "First Modification") and a Commercial Loan Modification Agreement dated December 4, 2013 (the "Second Modification"); and

WHEREAS, the Loan and the Authority's obligations under Loan Agreement and Note, as amended, are secured by a certain Security Agreement dated June 27, 2012 (the "Security Agreement") executed by the Authority as Debtor in favor of the Bank as Lender and granting to the Bank a security interest in the Collateral as defined and described therein; and

WHEREAS, the obligations of the Authority under the Loan Agreement and Note, as amended, are guaranteed by the United States Department of Agriculture ("USDA"); and

WHEREAS, the Authority has requested that the Bank further amend the Loan Agreement and Note in various respects including, without limitation: (i) extending the term of the Loan and Note, and (ii) increasing the interest of the Loan to 5.75% per annum as authorized by Public Law Number 32-62 thereby decreasing the monthly payments ofprincipal and interest to be made to $130,625.37 per month commencing on February 23, 2014; and

WHEREAS, the Bank has agreed to do so pursuant to a Commercial Loan Modification Agreement (the "Third Modification") and an Amended and Restated Promissory Note (the "Amended Note") in substantially the form submitted to this meeting.

NOW, THEREFORE, BE IT:

RESOLVED, that the Loan Agreement, the Note and the Security Agreement all dated June 27, 2012, the Addendum dated June 29, 2012, the First Modification dated August 26, 2013 and the Second Modification dated December 4, 2013 are hereby confirmed, ratified and approved in all respects; and

FURTHER RESOLVED, that the Authority execute and deliver to the Bank the Third Modification and the Amended Note which are hereby approved in all respects; and

FURTHER RESOLVED, that either the Acting Board ChairmanMartin J. Gerber or the Vice Chairman, and the Executive Manager of the Authority be and they hereby are authorized and directed to execute, seal and deliver to the Bank, on behalf of and in the name of the Authority, the Third Modification and the Amended Note in substantially the form hereby approved, with such changes, additions or deletions as such Acting Board Chairman Martin J. Gerber or Vice Chairman and Executive Manager may approve, such approval to be conclusive evidence by their execution and delivery of the same; and

FURTHER RESOLVED, that the Acting Board Chairman Martin J. Gerber or Vice Chairman and Executive Manager be and they hereby are authorized and empowered to do and perform, or cause to be done and performed, any and all such other acts, matters and things as in their judgment may be necessary, proper or convenient in order to obtain the agreement of the Bank to modify the Loan, the Loan Agreement and the Note as aforesaid; and

FURTHER RESOLVED, that these resolutions shall constitute a continuing authority and direction to the Acting Board Chairman Martin J. Gerber or Vice Chairman and Executive Manager to act on behalf of the Authority, and the several powers and authority in the foregoing paragraphs of these resolutions shall continue until revoked by the Board of Directors of the Authority and until formal written notice of such revocation shall have been given to the Bank; and

FURTHER RESOLVED, that this Resolutions of Board of Directors may be executed in any number of counterparts, each of which, when so executed and delivered, shall constitute one and the same document. Facsimile signatures shall have the force and effect of original signatures.

Chairman Untalan returned to the conference room.

B. Procurement Approval for Gate 21 Replacement Loading Bridge

The third matter discussed was the Procurement approval for the purchase of a Replacement Passenger Loading Bridge ("PLB") for Gate 21. Mr. Santos provided a brief background to the Board. On November 2013, the Gate 21 PLB was taken out of service for safety and operating purposes. All GIAA's PLBs are manufactured by JBT AeroTech. Mr. Santos informed the Board of a similar sole source procurement with JBT AeroTech that was approved by the Board at the July 2013 Board meeting for the 34 pre-conditioned air units and ground power units, half of those units are on Guam and are in the process of installation. Since the Gate 21 PLB was taken out of service, Management has been in communication with JBT AeroTech as to the type of PLB that should be used for the Airport as compared to the current PBLs, and JBT AeroTech identified the Hawaii-style Bridge. Mr. Santos referenced the documentation provided from JBT AeroTech including a quote. He went on to add this project was included as one of the Bond-funded projects, and approximately $8.2M was set aside under the integrated PLB replacement project. Mr. Santos explained that since the PLB for Gate 21 is out of service, Management would like to accelerate the purchase of one of the five (5) PLBsthat are slated to be replaced. Assessments are ongoing of the other PLB so that a priority list can be completed and replacement plan put in. The proposal from JBT AeroTech is in the amount of $855,495.00.

Mr. Santos stated that he understands the concern with sole source procurement. Discussion followed relative to the changes in the bridge style. Mr. Santos informed the Board that this bridge style was not available in 2003.

Chairman Untalan inquired if GIAA will have to sole source for the other PLB replacements, and will Management have to return to the Board for approval for those also. Mr. Santos explained that the purchase of the other four (4) bridges would be by sole source procurement, and added that assessments are being done so that they can prioritize which Gates need to be done first. Based on the condition of the PLB, the remaining bridges are going to be scheduled for Capital Improvements Projects, or if all of the Priority 1 and 2 projects are completed and there is money remaining then these could be accelerated.

Chairman Untalan stated that he thought there was $8M set aside for the integrated PLB replacement project. Mr. Santos replied that of the $8M, $4.6M was used for the purchase of (34) pre-conditioned air and ground power units. Chairman Untalan requested confirmation whether the Authority moves forward on the four remaining bridges will be based upon if there are any excess Bond funds. Mr. Santos responded yes, or they will be funded as part of GIAA's annual budget.

Chairman Untalan inquired on how long it will take to deliver the PLB. Mr. Santos responded that it is not indicated however based on the two previous orders, six (6) to nine (9) months. Once the order is placed, there is a waitlist. JBT AeroTech will give an official schedule once the order is placed. Chairman Untalan inquired on ordering the other five (5) bridges now. Mr. Santos replied that each PLB design is specific to each Gate and an overall assessment is necessary. Chairman Untalan inquired on who completes the assessments. Mr. Santos replied that there are three (3) assessments that occur, by JBT AeroTech, the maintenance provider; United Airlines official from off-island; and by Johnson Controls.

Director Gerber inquired on the life expectancy of this type equipment. Mr. Santos responded that PLBs usually last for ten (10) years. Discussion followed relative to the parts and management for the PLBs with Mr. Santos in forming the Board that by the February Board meeting Management should have an answer as to which four PLBs are to be replaced.

Director Ada inquired on the reason for the sole source procurement. Mr. Santos replied that all seventeen bridges are from the same manufacturer. Director Ada expressed his concerns with sole sourcing. Discussion followed relative to sole sourcing and searching for another manufacturer, with Director Ada stating that he would not be able to vote in favor of this sole source procurement, and questioned the fairness of the quote offered, and further expressed his concerns on the Authority being tied to one manufacturer. Chairman Untalan also expressed his concern with the quote offered. Mr. Santos introduced United representative, Mike Yost, who referenced the importance of the quality of the bridge products.

Director Sobti inquired on the last time a PLB was replaced. Mr. Santos replied in 2004 at the amount of $1M. Director Gerber questioned the quote amount and suggested Managementprovide information to support the amount quoted by JBT AeroTech. The Chairman asked if the item can wait until the next meeting. Mr. Santos expressed the need for the bridge to be replaced.

The Chairman requested for the benefit of the Board that Management provide a summary explaining the issues that the Board is questioning and that Legal Counsel review the legality of the sole source procurement for this purchase.

The Chairman informed Management that this item would be tabled until the next Board meeting. The Chairman stated for the record that the Board is very concerned about customer service, that it is important for visitors and partners to be happy with the service provided. He added that he understands the urgency to get the project completed however he expressed the importance in making sure the Authority is not being gauged financially and that the process be completed legally.

4. ADJOURNMENT

There being no further business to address before the Board, on motion duly made by Director Ada, seconded by Director Sobti, unanimously approved, at 4:05 p.m., the meeting was adjourned.

Dated this _____, day of _____, 2014.
