BUREAU OF STATISTICS AND PLANS

GUAM COASTAL MANAGEMENT PROGRAM

February 24, 2020

Federal Consistency Notices

Federal consistency is a provision in the Coastal Zone Management Act (CZMA) that requires the federal government to comply with a state's Coastal Management Program when taking actions that are likely to affect coastal resources.

The CZMA, passed in 1973, provides for the management of the nation's coastal resources by balancing economic development with environmental conservation.

The goal of the CZMA is to "preserve, protect, develop, and where possible, to restore or enhance the resources of the nation's coastal zone. The entire island of Guam has been designated a 'coastal zone' in the context of the CZMA.

Federal Consistency reviews are conducted by the Bureau of Statistics and Plans' Network Agencies to ensure development is in compliance with Guam's enforceable land use policies.

Network Agencies

- Department of Agriculture
- Department of Land Management
- Department of Parks and Recreation
- Department of Public Works
- Guam Waterworks Authority
- Guam Environmental Protection Agency
- Other Government of Guam Agencies as Necessary

2020 FEB 25 AM 10:48

The Bureau of Statistics and Plans, Guam Coastal Management Program is the designated agency authorized to comment officially on or concur with or object to a federal consistency application per the CZMA, 15 CFR §930.6(b) and is currently reviewing the following proposal for consistency:

- **Guam Waterworks Authority's Northern Guam Lens Aquifer (NGLA) Monitoring System Expansion and Rehabilitation Project**
- **Customs and Quarantine Agency's Satellite Boat House and Boat Slip Project in Cabras Island, Piti.**
