Hafa Adai Honorable Senators, Mayors, and Vice Mayors:

MAYORS' COUNCIL OF GUAM to our Senators:

During the period of Declaration of Public Health Emergency all offices under the MCoG were closed.

This included all 19 Mayors' offices, 12 senior centers, 3 Adult Day Care centers and the central MCoG office.

However, due to the needs of the community being provided at the mayor's offices and the humanitarian care services required to be provided our man'amko all employees were required to report to work and continue to do so as of this date.

Mayor's offices were required to assist residents in obtaining residence verifications for the various public assistance programs being offered due to the pandemic. Additionally maintenance staff were continually maintain the village by way of street side grass cutting, removal of trash illegally dumped on roadsides, and assisting man'amko requesting for trash removal assistance. They were also used to assist the senior centers due to the limited staff in preparing food commodities for distribution and delivery 5 days a week. Mayors and Vice Mayors were out in the community daily at all hours providing assistance and information to their residents.

All senior center and ADC staff reported to work to coordinate the preparation, distribution and record keeping of all items made available to man'amko which was not limited to meals alone. This included distribution of dry goods such as masks, toiletries, and hygiene care products.

Central staff were required to report to work to continue processing requisitions and purchase orders for various emergency needs at the village level. They were also required to do a daily accounting of all COVID-19 related work for payroll purposes.

All of our employees are ***front-line workers including the Mayors and Vice Mayors*** who through their work potentially exposed themselves to any COVID-19 health risks because they were required to do services that could not be suspended, deferred, or cancelled.

The status of our employees as "unclassified" workers should not disallow their qualification to receive double pay or whatever pay is given to other government "essential workers" whether they are classified or unclassified. **The addition of "UN" in our status doesn't make us UNnecessary, UNneeded, UNworthy, or UNequal employees.**

I ask for your support in including them in any pay variance being given during this pandemic or any emergency declared by the Governor that requires for our services to continue even if our offices or operations are closed.

Senseramente,

Si Angel Sablan
