- Design of Umatac-Merizo Wastewater Treatment Plant Upgrades for Guam Waterworks Authority (April 2015 – November 2015)

CONSTRUCTION MANAGER |EA ENGINEERING, SCIENCE AND TECHNOLOGY| 2012 - 2014

- Consult with engineers to develop plans and designs for building and installation work;
- Review plans and specifications prior to Bid Invitation and assist in the bidding process;
- Review construction plans and specifications to plan construction management procedures, completion timelines and staffing requirements;
- Assemble team members and define site organization and subcontractors at the start of a project to plan procedures for timely completion;
- Confer with and direct personnel and subcontractors in planning and executing work procedures;
- Interpret plans and specifications and coordinate various phases of construction to prevent interferences and project delays;
- Confer with supervisory and engineering personnel, inspectors, suppliers and subcontractors to resolve construction issues or delays and improve construction means and methods;
- Inspect work in progress to ensure the highest quality workmanship; conformance with specifications and construction schedules;
- Prepare weekly, monthly and annual progress reports;
- Ensure construction work performed is in accordance with plans and specifications;
- Conduct cost estimates of materials, labor and equipment; and
- Maintain engineering "As-Built" drawings;

PRESIDENT & PRINCIPAL ENGINEER |BELANGER & ASSOCIATES, INC.| 1991-PRESENT

- **Engineering Experience:** Project Management, Design and Construction Management functions.

  - Over 30 years of experience as a Project Manager, Project Engineer or Quality Control Manager.

- **Project Management Experience:**

  - Identification of key personnel and their roles. Assigns site management personnel to specific phases or aspects of a project such as technical studies, designs, preparation of specifications and technical plans and testing;
  - Development of flow charts addressing information flow and key personnel;
  - Development of comprehensive project schedules encompassing all tasks from project inception through design, construction and final acceptance;
  - Establishment of organizational structure;
  - Evaluation of various approaches, systems and controls;
  - Evaluation of various approaches such as conventional owner financing, phased bid, fast tracking, and contractor financed/design/build methods;
  - Development of an outline and schedule for all required governmental reviews and approvals;

Note that the Legislature has taken steps to ensure that any protected personal identifying information has been redacted or excluded in whole or in part in order to protect the privacy of any individual(s) whose information has been included as part of this transmittal.

- Development of a clear understanding of Local and Federal procurement laws as it applies to a project;
- Familiar with USACE EM 385-1-1 and experience in areas of hazard identification and safety compliance;
- Installation and monitoring of schedule controls;
- Long-Lead procurement controls;
- Construction cost estimates and cost control;
- Value Engineering;
- Scope Control;
- Bid Preparation;
- Identifying adequacy of resources;
- Government agency coordination;
- Provides consultation on engineering and project management related matters, including cost and schedule controls; and
- Provides leadership, motivation and managerial skills necessary to move projects forward in a cost effective and timely manner.

Design Experience:

- Oversees Design projects;
- Provides third party engineering services including constructability and design reviews for code compliances, environmental compatibility, value engineering and evaluation of means and methods;
- Reviews specifications/designs for compliance with engineering principles, company standards and customer's contract specifications;
- Coordinates activities concerned with technical developments, scheduling and resolving engineering design or test problems;
- Evaluates and approves design changes, specifications and drawing releases with customer approval; and
- Evaluates design features means and methods as Guam has a very harsh environment, i.e., seismic, cooling and corrosive awareness which is necessary to ensure compatibility of materials for Guam's environment. Design features are analyzed to ensure cost effectiveness and the longevity of materials for products specified in design and utilized in construction. Components are reviewed to ensure timeliness of project schedules and budget requirements.

Quality Control Experience:

- Department of the Navy's Web CM which is an internet-based construction software and Quality Control tool supported by Primavera Systems. Web CM utilizes Project Management tools to make available project records to other users for constructing a project in a timely and cost-effective manner during a project. Utilization of Web CM on Navy MILCON projects for the review and coordination of the project related work, including but not limited to project submittals, daily reporting, quality control, invoicing, and specifications and drawing control. Web CM has been utilized on Navy MILCON projects on Guam since October 2004.
- Perform WebCM functions since its inception on Guam in July 2004. See Project Experience for projects utilizing WebCM.
- Proficient in NAVFAC QC programs, including the three-phase approach for accomplishing the work. These include the Preparatory Phase, Initial Phase and Follow Up Phase for each Definable Feature of Work (DFOW).
- Primavera P6 Training November 2011 – Oracle Instructor through the Guam Contractors Association Trades Academy.
- Use of Primavera P6, P3 and SureTrak on all projects since 1986. These are fundamental tools for project planning and scheduling in the construction industry and has revolutionized construction

Note that the Legislature has taken steps to ensure that any protected personal identifying information has been redacted or excluded in whole or in part in order to protect the privacy of any individual(s) whose information has been included as part of this transmittal.

planning and project controls.

- Conduct 2-day seminars on Primavera P3 to incoming employees while working with Peterson Consulting in the home office in Chicago in 1989-1990. An additional training seminar was provided to Government of Guam, Department of Public Works employees in the vertical and horizontal construction quality sections.
- Prepare SureTrak schedule for DODEA School RFP with Dillingham Construction in 1999, assisted in preparing the RFP Proposed Project schedules.
- Use of SureTrak schedule for the construction of the Sherwood Hotel (1997), all MILCON projects since 2000 see Project Experience for MILCON projects.
- Other QC responsibilities include but are not limited to: correspondence, inspections, cost control and reporting, contract changes, contract progress payment processing, monitoring submittals, document clarifications, owner-purchased items, project start-up, community relations, safety, punch lists, substantial and completion inspections, warranties, and disputes and claims

General Construction Experience:

- Contracts Management
- Oversee all labor, materials, equipment and supervision for various construction projects. Project Manager & Construction Quality Control Manager plans, directs and coordinates all activities of the firm's construction program to ensure that goals and objectives are specified and adhered to;
- Responsible for ensuring home office support and field operations are linked;
- Responsible for reviewing individual project proposals and plans to ascertain time frame and funding limitations and to determine methods and procedures for accomplishing projects;
- Identifies labor/material requirements and allotment of funds for various projects;
- Direct construction activities on construction projects;
- Review specifications to plan procedures for construction based on start and completion timelines and staffing requirements;
- Assembles members and defines site organization and subcontractors at the start of a project to plan procedures for timely completion;
- Confers with and direct personnel and subcontractors in planning and executing work procedures;
- Interprets specifications and coordinate various phases of construction to prevent interferences and project delays;
- Confers with supervisory and engineering personnel, inspectors, suppliers and subcontractors to resolve construction issues or delays and improve construction means and methods;
- Inspects work in progress to ensure the highest quality workmanship; conformance with specifications and construction schedules;
- Prepares progress reports;
- Designates workers according to type of project, work or construction activity involved;
- Ensures construction work performed is in accordance with plans and specifications;
- Conducts cost estimates of materials, labor and equipment; and
- Maintains engineering "As-Built" drawings; consults with engineers to develop plans and designs for building and installation work; and prepares layout diagrams.

REGIONAL MANAGER |BARRETT CONSULTING GROUP| 1991

- Provide oversight of Barrett Consulting Group's Guam operations. Responsibilities included marketing in the Marianas Islands, providing engineering design and supervision of 11-man office in water & waste water design contracts with the Public Utilities Agency of Guam; Highway design with Department of Public Works; and Guam Community College Master Planning.

Note that the Legislature has taken steps to ensure that any protected personal identifying information has been redacted or excluded in whole or in part in order to protect the privacy of any individual(s) whose information has been included as part of this transmittal.

EXECUTIVE CONSULTANT |PETERSON CONSULTING LIMITED PARTNERSHIP| SAN FRANCISCO, CALIFORNIA 1986-1991

- Provide cost and schedule analysis to assist in the resolution of litigated matters. Projects consisted of time delays and/or cost overruns on educational facilities, office buildings, hotels, hospitals, prisons, highways, bridges, light rail projects, power generation facilities, condominiums and other industrial, commercial and residential facilities.

SENIOR COST AND SCHEDULING ENGINEER |DILLINGHAM CONSTRUCTION/HAWAIIAN DREDGING AND CONSTRUCTION COMPANY| 1979-1986

- Provide cost and schedule training to entry level engineers. Assisted construction operations and formulation of project CPM schedules, preparation of construction budgets, monitoring the project schedule and forecasting project completion and costs. Pleasanton, California (1984-1986)

- Provide cost and schedule analysis for Building, commercial and heavy divisions of Hawaiian Dredging & Construction Company and Dillingham Construction Company. Hawaiian Islands (1979-1984)

Projects include:

- TOSCO Oil Refinery Maintenance Shutdown, Martinez, California (1986)
- Golden Gate Bridge Replace Decking, San Francisco (1985-1986)
- Torras Causeway, Georgia (1985)
- Holiday Inn, Pleasanton, California (1985)
- Storm Water Storage, Milwaukee, Wisconsin (1985)
- Encino Business Center, Encino, California (1984-1985)
- New United Motors, Fremont, California (1984)
- Kaneohe Waterline, Oahu (1984)
- H2 Interchange, Oahu (1983-1984)
- Hawaii Loa Ridge - Residential Subdivision Earthworks, Oahu (1983)
- Highlands Highway (84-mile, 2-lane road 32 Bridges), Papua New Guinea (1983)
- Kauai Hilton Hotel, Kauai (1982)
- Bank of Hawaii Kauai Shopping Mall, Kauai (1982)
- Marriott Kaanapali Beach Hotel, Maui (1980-1982)
- Maaleae Mermaid Condominiums, Maui (1980)
- Regency Park Condominiums, Oahu (1979-1980)
- Straub Clinic, Oahu (1979-1980)

CO-OWNER & PRINCIPAL ENGINEER |A TO Z ENGINEERING AND SURVEYING COMPANY | 1978-1979

Provide engineering services for residential planning and full-service property surveying including boundary and route location surveys. Projects included:

- Route location for Public Service Co. of New Mexico - Power Pole Locations.
- Route location for Gas Company of New Mexico - Location of/for Gas Lines.
- Route Location of Access Road for Goldfield Mines, Santa Fe.
- Various Property Subdivisions and Lot Splits.

PROJECT ENGINEER/PRINCIPAL ENGINEER |GUAM DEPARTMENT OF PUBLIC WORKS | 1974-1978

- Monitored the construction of Highways, Bridges, Sewer lines and Waterlines for the Government to include excavations and embankments, pavement grinding, asphalt pavement, concrete pavement, pavement marking, grooving and above ground utilities. Projects included:

Note that the Legislature has taken steps to ensure that any protected personal identifying information has been redacted or excluded in whole or in part in order to protect the privacy of any individual(s) whose information has been included as part of this transmittal.

- Principal Engineer for the Construction of Capital Improvement Projects, Guam. Staff consisted of 10 Engineers and 8 Inspectors (1977-1978).
- Project Engineer, Route 4, Southern Seashore Road Reconstruction and 12-inch Water Main Installation, Merizo (1977)
- Project Engineer, Marine Drive / Route 1 Road Reconstruction from Airport Rd. to Route 16 (1976)
- Project Engineer, Route 4 Reconstruction and Sewer Installation from Route 10 to Chaot Bridge (1975)
