Virtual Board of Director's Meeting
Thursday, June 25, 2020
Main Office Conference Room

MINUTES

I. **Call to Order**: Chairman Robert Perron called the Board of Director's meeting to order at 4:01 p.m.
The following individuals were present during the virtual board meeting via Google meet **Board Members**: Robert Perron-*Chairman*, Florida Sanchez, Ann Roth, Nicholas Pape, Steven Carbullido, Steve Carrera and Nonito Blas **Guam EPA Staff**: Walter S. Leon Guerrero-*Administrator*, Michelle Lastimoza-*Deputy Administrator,* Arlene S Acfalle, Kristan Finney, Brian Bearden, Nic Rupley, Glenn San Nicolas, Sabrina Cruz-Sablan, Connie Aflleje and Jesse Cruz. **Participants**: Steve Hollister and Moneka De Oro

II. **Approval of Agenda**: *Director Pape* made a motion to approve the agenda, seconded by *Director Hollister*. All voted in favor and motion passed.

III. **Approval of Minutes**: *Director Carbullido* requested we make corrections as to the dollar figure (ex: $500 vs. $500K) also to add the description of the approved $900K funding for FY2021. *Director Roth* inquired if the $900K included the $500K for the stimulus for FY2021. Deputy advised that the $900K is inclusive of the $424K rollover (unused funds) from FY2020 and the $500K for the stimulus for FY2021.
Director Roth made a motion to approve the minutes, seconded by *Director Carbullido.* All voted in favor and motion passed to include changes and approve.

IV. **Administrator's Report:** *Administrator* extended his well wishes to the Board during this pandemic. Administrator discussed our position as an essential agency and what measures are set in place while working in the office. The Deputy put together an extensive plan that has been implemented. This also includes the write-ups and procedures on what to do when working out in the field or in the office in conjunction with the Governor's Executive Order, the Center of Disease Control (CDC) and USEPA guidelines. *Deputy* advised of the infectious control procedures that have been implemented prior to the opening of the office to include the 6ft distancing guideline, proper sanitation protocol, temperature check of all staff and customers entering and exiting the building. Customers are assisted by someone in our Admin staff, one by one due to limited access in the Admin building. All documents being dropped off are currently housed in the conference room for proper quarantine procedure. At this time, all staff is required to report if they are feeling any symptoms in regards to COVID-19. Our Agency is still working with staggered schedules and some staff are currently teleworking from home. **A copy of our Infections Control plan and procedures are available upon request**

V. **Old Business**:
Active NOV'S

- UST (Underground Storage Tank) Rules & Regs update – Per Kristan there is no update at this time. Conchita updated that is still with the AG's office

VI. Guam EPA/ Mayor Council of Guam (MCOG) Memorandum of Agreement Update – Sabrina advised the MOU was signed by the Governor this afternoon. MCOG was advised and given a copy of the approved permitting facilities and collection companies. A meeting will be held next week Thursday, July 2, 2020, with the Mayor's administrative assistants to go over how to properly fill out the required data forms. Once the purchase

orders are submitted and they update their operations plan, we should be up and running in the next couple of weeks. Board Chairman inquired if all the issues we had in the past have been "tightened up" to avoid further discrepancies in the future. This was concurred by Sabrina. *Board Chairman* reiterated that he has recused himself from further discussion due to his involvement as a recycler. Director Blas asked if we were meeting the Administrative Assistants as a group or by village. Per Sabrina meeting will be held as a group at the Dededo Senior Citizen center. Hopefully, this location will be large enough to adhere to the social distancing guidelines and if not, we (GEPA) are willing to do two (2) sessions. Meeting is set for 10am, Thursday July 2nd. *Chairman* inquired if this meeting is open to the public which Sabrina advised it is not. Steve Hollister inquired on timeline when the funds will be released to the Mayors. Per Sabrina the funds are already with DOA and waiting for the funds to be loaded to the MCOG account. Connie (ASO) also advised the funds are with DOA and the Mayors should have the funds readily available once DOA changes the expiration date.

Moneka De Oro inquired if there are guidelines as to how the funds can be used or is it up the individual Mayors discretion. Sabrina clarified that there are guidelines in place and the purchase orders specifically states what the funds can be used for. Kristen added that it is all explained in the MOU. *Director Carbullido* requested for the MOU to be provided for their review. Sabrina advised this will be sent via email. Moneka inquired if there is a universal accounting sheet in place for all the Mayor's to use. Sabrina advised this is already in place and data sheets must be submitted within ten (10) days, which clarifies Director Carbullidos' statement in regards to reporting deadlines. Additionally the MCOG has only fourteen (14) days to submit all documentation to Guam EPA for certification.

VII. New Business:

- Board of Directors Inquiries – *Director Carbullido* asked for update on Plastic Bag Ban and any work related to the Agent Orange.
    - Plastic Bag Ban -*Administrator* reported that we have been engaging with Senator Sabina Perez Office in regards to the verbiage on the first run. *Chairman* asked when are will it be going into full legislation. *Administrator* advised January 1, 2021. Moneka inquired on addendums to legislation or status updates. *Administrator* advised we are looking to determine what is best and we are trying to move as much plastics coming in, as far as plastic bags are concerned. Moneka inquired if the agency has a public education campaign. She noted there are some organizations providing information but she has not heard of any coming from Guam EPA in regards to public outreach. *Administrator* again reiterated that we are working with Senator Sabina Perez in regards to the verbiage and having to do public outreach will be premature until we figure out what the regulations will be.
    - Agent Orange – *Administrator* advised that we are trying to do away with not using Agent Orange but instead Pesticides. At this point we are working with USEPA in regards to our recommendations to DoD.

Moneka De Oro inquired on the Tire Reef removal timeline. Jesse reported the RFP closed in March 2020 in which we had three (3) submittals and we finished the evaluation in May. We are currently in the negotiation phase with the highest rate offer. Once we finish the negotiations we can then move with the project. Timeline start date is in January 2021 and end of project looking at June 2021.

Steve Hollister asked what the most hindered operation for Guam EPA was during the lockdown and what measures can be done in case we have a lockdown situation again. Also inquired of the ongoing coastal work at the south of Adelup.

- Coastal work - *Administrator* advised that in regards to the project at Adelup. We've sent out our inspectors to ensure that they have met all Guam EPA requirements. As far as the coastline, we can't order them to stop as this is out of the scope of Guam EPA. Steve Hollister inquired which agency was responsible for this project. Administrator advised we are giving the Department of Agriculture and Coastal Management time to do what they need to do.
- GEPA Operations - *Administrator* advised the biggest challenge was to keep our staff safe and healthy. We are still working to make sure our staff do not get cross contaminated while working on

the field or in the office. *Deputy* added that this pandemic is always revolving and we have to keep up with CDC guidelines and following the Governor's Executive Order in regards to the stay at home order. Although we were teleworking, we were expected to stay home and keep our families safe. While trying to get the office ready to reopen, having to purchase the proper PPE and cleaning supplies was a challenge because of the limited supplies. Although we submitted our purchase orders the Governor had prioritized the first responders. We also took account of each employee and their medical condition, if any. Although we would like to get back on track, our main priority is to keep our staff safe and healthy.

Administrator advised the Board of a Stop Sale notice that has been issued by our Pesticide program. The respondents have filed a Notice of Appeal and Administrator inquired if it has been forwarded to the Board. Per Chairman it has not been brought to the Board so we do not want to go into it until we get full details on the matter.

VIII. New Business Topics for Next Regular Board Meeting:

- Plastic Bag Ban
- Director Roth - Update of active NOV's
- Director Roth - Code of Conduct and Ethics Training

Moneka De Oro inquired on recycling on Guam. She mentioned GSWA was not collecting recyclables for couple months. She wanted an update on recycling program on the agenda. She also mentioned she works for Micronesia Climate Change Alliance which started to collect plastics 2 and 5 and she has a particular keen interest as to what is being done on a community level and our government specifically our agency in regards to recycling.

Chairman advised he can update on plastics. He spoke to Peggy Denny about getting plastic from recycling programs and they can dump mixed plastics to their tipping floor after 2:30pm. Companies such as the Alliance may then pull out what plastics meets their needs.

Administrator advised after GSWA decided to stop collecting recyclables Guam EPA issued a letter stating sorting did not need to be done. Because the sorting is done manually, we did not want exposure for their employees or their contractor. The recycling market shut down much like the visitor industry and it is easy to collect but hard to store. Companies like Pyramid Recyclable are at max capacity with their plastics per Board Chairman.

Ms. De Oro inquired on industrial shredding on Guam and our Board Chairman advised there is no shredder on island.

Ms. De Oro also inquired on Island Wide clean up scheduled for this weekend. Glenn, SWMP Manager, advised although the cleanup is scheduled for Saturday, June 27th, our agency will start tomorrow, Friday June 26th at our route which is Naval Base gate to Polaris Point.

IX. New Meeting Date/ Adjournment: Next meeting set for July 16, 2020 at 4pm via Google meet platform. Moneka De Oro made motion to adjourn but Nic advised that the capacity of Director De Oro and Director Hollister has lapsed therefore we would need a current active Board Member to make the motion. *Director Roth* made motion to adjourn meeting and seconded by *Director Carbullido.* All voted in favor and meeting adjourned at 4:51pm.

RE: Request for Hearing Officer

Hafa Adai Attorney General Camacho,

The Guam Environmental Protection Agency ("Guam EPA") issued a Stop Sale and Removal from Sale Order to R&R Distributors, Inc. ("Respondent") on June 1, 2020. Respondent filed a Notice of Appeal in reference to the Stop Sale and Removal from Sale Orders issued on June 1, 2020 before Guam Environmental Protection Agency (Guam EPA). Guam EPA therefore requests that the Office of the Attorney General assign a hearing officer for this matter pursuant to 10 GCA §50117(b), **the hearing must be held no later than August 14, 2020.**

Please let me know as soon as possible whether you are able to provide a hearing officer. Please direct any questions regarding this matter to Arlene MS Acfalle, Board Secretary at 300-4751 or 300-4759 or by email at arlene.acfalle@epa.guam.gov

Sincerely,

WALTER S. LEON GUERRERO
Administrator

ROBERT PERRON
Board Chairman

RECEIVED
JUN 15 2020
Guam Environmental Protection Agency

BEFORE THE
GUAM ENIRONMENTAL PROTECTION AGENCY

R&R DISTRIBUTORS, INC., Petitioner, vs. GUAM ENVIRONMENTAL PROTECTION AGENCY, Respondent.	**VERIFIED PETITION**

Petitioner R&R DISTRIBUTORS, INC. (hereafter "Petitioner R&R DISTRIBUTORS"), through counsel, law offices of **CUNLIFFE & COOK**, A Professional Corporation, by F. Randall Cunliffe, Esq., and hereby appeals the Stop-Sale and Removal From Sale Orders issued on June 1, 2020, pursuant to 10 GCA §50117.

1. On June 1, 2020, members of the Pesticide Protection Program came to Petitioner R&R Distributors' location and issued a Stop-Sale and Removal From Sale Orders.

2. The description of the item is SDS Blockers.

3. The notice provides that the order is made pursuant to 10 GCA §50111.

4. The items in question, SDS Blockers, are not pesticides as defined in 10 GCA Chapter 50. In 10 GCA §50102(34), it provides as follows:

> **Pest shall mean any insect, rodent, nematode, fungus, weed or any other form of terrestrial or aquatic plant or animal life or virus, bacteria or other microorganism, <u>except</u> viruses, bacteria or other microorganisms on or in living man or other living animals which the Board declares to be a pest under §50103.**
>
> Subparagraph "hh" Pesticide shall mean:
>
> 1. **any substance or mixture of substances intended for preventing, destroying or repelling or mitigating any pest; ...**
>
> 2. **any substance or mixture of substances intended for use as a plant growth regulator, or defoliant or desiccant.**

5. The Guam statute, and definition set forth therein, closely mirrors the federal EPA Standards.

6. A pest therefore does not include the viruses on or in a living man or other living animal.

7. Under the federal regulations, the federal government has enacted the Code of Federal Regulations. Under 40 CFR §152.6, it excludes certain items from the federal statutes. Specifically §152.6(c), "Human Drugs. Fungi, bacteria, viruses or other microorganisms in or on living man are "pest", as defined in §2(t) of the FIFRA (the Federal Law). Products intended and labeled for use against such organisms are human drugs, subject to the regulation of the FDA under FFDCA."

8. 40 CFR §152.10 Products that Are Not Pesticides Because They Are not Intended for Pesticidal Purposes provides:

> **A product that is not intended to prevent, destroy, repel or mitigate a pest or defoliate, desiccate or regulate the growth of plants, is not considered to be a pesticide.**
>
> **The following types of products or articles are not considered to be pesticides unless the pesticidal claim is made on their label or in connection with their sale or distribution:**
>
> **a. Deodorizers, bleaches, and cleaning agents;**
>
> **b. Products not containing toxicants, intended only to attract pest for survey or detection purposes and labeled accordingly;**
>
> **c. Products that are intended to exclude pest only by providing a physical barrier against pest access and which contain no toxicants such as certain pruning paints on trees.**

9. As can be seen from the Federal Regulations, citing to the Federal Statute which was copied by Guam, the SDS Blockers is not labeled as a pesticide, and is exempted from the definition of pest under 10 GCA §50102(34).

10. As SDS Blockers does not mean the definition of "pest", and is not a pesticide, it is not subject to the Stop-Sale and Removal From Sale Orders issued by the Guam Environmental Protection Agency on June 1, 2020.

11. There are rules on Guam contained in 22 GAR Chapter 15. These rules have a list of Restricted Pesticides. This list does not include Chlorine Dioxide. A copy of the rules are attached hereto and incorporated herein by this reference as Exhibit "1".

///

PRAYER

WHEREFORE, Petitioner R&R DISTRIBUTORS requests the following from this body:

(1) That Stop-Sale and Removal From Sale Orders issued on June 1, 2020 be vacated.

(2) For such further and other relief as the agency deems appropriate.
