Relative to recognizing the observance of "Engineers, Architects, and Land Surveyors Week" from February 19 to February 25, 2023; with this year's theme: *Creating the Future!*; and commending them for making a difference on Guam and improving the quality of life for all in our island community.

BE IT RESOLVED BY THE COMMITTEE ON RULES OF I MINA TRENTAI SIETTE NA LIHESLATURAN GUÅHAN:

WHEREAS, the principles and practices of Engineering, Architecture, and Land Surveying have served humankind in its creation of social, cultural, and economic systems through a disciplined approach to physical developments for over two thousand (2,000) years; and

WHEREAS, Engineers, Architects, and Land Surveyors contributed greatly to the rebuilding of our island after World War II; and their expertise can be seen in many homes, school buildings, newly-constructed roads, and water and power lines servicing our community; and

WHEREAS, our Pacific island paradise has been greatly transformed since the time our ancestors lived in latte-supported huts and built the fastest proas in the world. History books tell us tales of the structures built by our ancestors, and about the dexterity of the ancient *Chamorro* people; and

WHEREAS, now in the twenty-first (21st) century, we see the ingenuity and creativity in the work of Guam's Engineers, Architects, and Land Surveyors; and the power of their creativity, imagination, mathematics, science, and technology to enhance our quality of life, build better communities, and promote our culture through historical preservation; and their touch can be seen in any home, school building, newly-constructed road, water and power lines, or military facility, with their talents ensuring growth and progress within our community; and it is the result of countless hours of work by dedicated private sector, government, and military Engineers, Architects, and Land Surveyors that has led to the enhanced quality of life we enjoy every day; and

WHEREAS, during the celebration of "Engineers, Architects, and Land Surveyors Week," the social impact of this event increases public dialogue about the need for the expertise of our Engineers, Architects, and Land Surveyors, spreading education to youth, educators, and parents, and serving as the catalyst that sparks organizations and volunteers to make a difference by engaging students in engineering, architecture, and land surveying, and celebrating the profession; and

WHEREAS, "Engineers, Architects, and Land Surveyors Week" also promotes the values of good design and work within the community, and the allied professionals that create a safer, more sustainable environment, as well as maintain the rich heritage of the island; and

WHEREAS, Engineers, Architects, and Land Surveyors provide services and products that touch many aspects of life, including the health, welfare, and safety of Guam's people for a better future; and they help to turn ideas into reality, design the building environment from concept to completion, and help to support the President's and Governor's vision of improving our island's students in the fields of Science, Technology, Engineering, and Mathematics, also known as STEM; and

WHEREAS, this year's "Engineers, Architects, and Land Surveyors Week" theme, *Creating the Future!*, recognizes the integrity, skill, and commitment of Guam's engineers, architects, and land surveyors. The countless hours of work done by these dedicated professionals in the private sector, government, and military make a world of difference. Just as they have played a vital role in development for over two thousand (2,000) years - from helping rebuild our island after World War II, to implementing today's sustainable design - Engineers, Architects, and Land Surveyors will continue to inspire innovative thinking and design; and

WHEREAS, "Engineers, Architects, and Land Surveyors Week" is an annual event that helps bring awareness to the works and contributions of our nation and island's Engineers, Architects, and Land Surveyors; and is a week filled with activities for the adults and youth of our island community, helping to advance the image of engineering, architecture, and land surveying, and getting them involved in the professions; now therefore, be it

RESOLVED, that the Committee on Rules of *I Mina Trentai Siette Na Liheslaturan Guåhan*, does hereby, on behalf of *I Liheslaturan Guåhan* and the people of Guåhan, recognize the observance of "Engineers, Architects, and Land Surveyors Week" from February 19 to February 25, 2023; with this year's theme: *Creating the Future!*; and commend them for making a difference on Guam and improving the quality of life for all in our island community; and be it further

RESOLVED, that the Speaker and the Chairperson of the Committee on Rules certify, and the Legislative Secretary attest to the adoption hereof, and that copies of the same be thereafter transmitted to Maria Inna J. Wiess, R.A., President of the American Institute of Architects, Marianas Chapter; to Evangeline C. D. Lujan, Chairperson of the American Water Works Association, Hawaii Section, Western Pacific Subsection; to Thomas P. Camacho, P.E., S.E., Chairperson of the Guam Building Code Council; to Cedric Q. T. Cruz, R.A., Chairperson of the Guam Board of Registration for Professional Engineers, Architects, and Land Surveyors; to Tor Gudmundsen, P.E., President of the Guam Society of Professional Engineers; to Charles B. Hazzard III, PMP, President of the Society of American Military Engineers; and to the Honorable Lourdes A. Leon Guerrero, *I Mago'ndagan Guåhan*.

DULY AND REGULARLY ADOPTED BY THE COMMITTEE ON RULES OF I MINA TRENTAI SIETTE NA LIHESLATURAN GUÅHAN ON THE 16TH DAY OF FEBRUARY 2023.
