Relative to recognizing Dr. Michael Agustin and Dr. Michele Yamamoto for establishing Guam's first hybrid specialty center, the Guam Lung & Infectious Disease Center, at the Guam Regional Medical City; and commending them for their efforts in addressing the island's need for comprehensive respiratory and infectious disease care, and for their service to the island community.

BE IT RESOLVED BY THE COMMITTEE ON RULES OF I MINA TRENTAI SIETTE NA LIHESLATURAN GUÅHAN:

WHEREAS, it is the sense of *I Liheslaturan Guåhan* to recognize the life and accomplishments of those distinguished citizens of this great island who have devoted themselves to faithfully serving the best interests of our community and the needs of our people, and two of those distinguished citizens are Dr. Michael Agustin and Dr. Michele Yamamoto; and

WHEREAS, Dr. Michael Agustin, a distinguished Pulmonologist and Critical Care Physician, is celebrated for his exceptional expertise and significant contributions to the medical field. He completed his Pulmonary and Critical Care Fellowship at Saint Elizabeth's Medical Center/Tufts University in Boston, Massachusetts, after finishing his residency at the Memorial Hospital of Rhode Island, which is affiliated with Brown University; and his dedication and outstanding performance during his training earned him the titles of "Intern of the Year" in 2010 and "Resident of the Year" in 2013; and

WHEREAS, a graduate of the University of Santo Tomas in Manila, Philippines, Dr. Agustin has played a pivotal role in advancing pulmonary care on Guam; and he was instrumental in establishing Guam's first comprehensive Pulmonary Department at the Guam Regional Medical City (GRMC). This initiative included the creation of specialized clinics such as the Pulmonary Subspecialty Clinic for lung cancer and severe asthma, the Pleural Clinic, and the Pulmonary Rehabilitation Clinic; and his innovative approach has significantly enhanced the diagnostic capabilities for lung cancer on the island, notably through the introduction of Endobronchial Ultrasound (EBUS) and the establishment of GRMC Tumor Boards in collaboration with oncologists; and

WHEREAS, Dr. Agustin's professional credentials are extensive. He holds triple board certifications in pulmonary, critical care, and internal medicine from the American Board of Internal Medicine; and he is licensed to practice in Massachusetts, Rhode Island, the Philippines, and Guam. In his previous roles, Dr. Agustin served as the Director of the Intensive Care Unit and Chair of the Medicine Department at GRMC; and his remarkable contributions to medicine on Guam earned him the prestigious designation as a Fellow of the American College of Chest Physicians (FCCP); and

WHEREAS, Dr. Agustin has contributed significantly to the field of pulmonology through numerous peer-reviewed publications and presentations. His research has been published in esteemed journals such as *Case Reports in Pulmonology* and *Critical Care Research and Practice*, covering topics from massive pulmonary hemorrhage to the impact of delayed ICU admissions on sepsis outcomes; and his notable publications include studies on spontaneous chylothorax, diffuse alveolar hemorrhage induced by vaping, and spontaneous pneumomediastinum following methamphetamine inhalation. Dr. Agustin has presented his findings at prominent conferences, including the ATS International Conference and the CHEST Conference, with topics ranging from granulomatous pneumocystis jirovecii pneumonia to pulmonary metastasis after thymoma resection. Additionally, he has authored book chapters on sarcoidosis and anthrax in *Ferri's Clinical Advisor*. His clinical expertise encompasses a range of interventional pulmonary procedures, including bronchoscopy, endobronchial ultrasound, and pleural catheter insertions, as well as critical care procedures such as central lines, arterial lines, and intubations; and

WHEREAS, Dr. Michele Yamamoto, an esteemed specialist in infectious diseases, is renowned for her expertise and unwavering dedication to patient care. She joined GRMC following a Clinical Fellowship in Infectious Diseases at the University of Massachusetts Medical Center; and during her residency at the Memorial Hospital of Rhode Island, which is affiliated with Brown University, she was honored as "Intern of the Year" in 2011; and

WHEREAS, Dr. Yamamoto specializes in diagnosing and treating a wide range of infectious diseases, including HIV/AIDS, sexually transmitted infections, and infections affecting immunocompromised individuals; and she has been instrumental in establishing and overseeing GRMC's Outpatient Antimicrobial Program Therapy (OPAT) and the Viral Hepatitis Clinic, significantly enhancing patient care and treatment outcomes; and

WHEREAS, holding dual board certifications in Infectious Diseases and Internal Medicine from the American Board of Internal Medicine, Dr. Yamamoto is licensed to practice medicine in Massachusetts, Rhode Island, the Philippines, and Guam; and her role as the head of Antimicrobial Stewardship at GRMC underscores her commitment to promoting responsible antibiotic use and improving patient outcomes; and

WHEREAS, Dr. Yamamoto completed her Infectious Diseases & Immunology Clinical Fellowship at the University of Massachusetts Medical School in Worcester, Massachusetts, and her Internal Medicine Residency at the Memorial Hospital of Rhode Island/Alpert Medical School of Brown University in Warwick, Rhode Island. She undertook her clinical internship and earned her medical degree from the University of Santo Tomas in Manila, Philippines, where she had graduated *cum laude*, highlighting her academic excellence; and she holds board certifications from the American Board of Internal Medicine in Infectious Disease and Internal Medicine, and certification from the Philippine Medical Board. Professionally, Dr. Yamamoto has served as Chair of Infection Control and Section Head of Infectious Disease at the Guam Regional Medical City, in addition to her role as a Clinical Fellow at the University of Massachusetts Medical School; and

WHEREAS, Dr. Yamamoto has extensively contributed to infectious disease research and clinical practice. Her abstracts and oral presentations at prestigious conferences like the ATS International Conference and the CHEST Conference cover a wide range of topics, including granulomatous pneumocystis jirovecii pneumonia, tracheal bronchus, and cobblestone airway from mycobacterium tuberculosis, and she has co-authored several case reports in pulmonology, addressing issues such as spontaneous chylothorax following septic pulmonary embolization and diffuse alveolar hemorrhage induced by vaping. Dr. Yamamoto has also presented research on klebsiella pneumoniae liver abscess and septic arthritis and studies on the acute inflammatory response in experimental models of peritonitis and pneumococcal pneumonia; and her clinical competencies include managing infections in immunocompromised hosts, transplant infectious disease, HIV and viral hepatitis clinics, tuberculosis, STD clinics, outpatient antimicrobial therapy, antimicrobial stewardship, and infection control and hospital epidemiology; and

MARIE CRUZ

10:40AM

WHEREAS, Dr. Michael Agustin and Dr. Michele Yamamoto have played a transformative role in Guam's healthcare landscape by establishing the Guam Lung & Infectious Disease (GLID) Center at the Guam Medical Regional City in 2022, and this GLID Center represents the island's first hybrid specialty center, marking a significant milestone in the provision of specialized healthcare services; and

WHEREAS, before the GLID Center, patients on Guam had limited access to specialized care for respiratory and infectious diseases, often necessitating travel off-island for comprehensive treatment. Recognizing this critical gap, Dr. Agustin and Dr. Yamamoto envisioned a facility offering integrated, specialized care within the local community; and the GLID Center addresses a broad spectrum of needs related to respiratory and infectious diseases, ensuring that patients can access advanced medical services without leaving the island; and

WHEREAS, the GLID Center is designed to offer a comprehensive suite of services, integrating diagnostics, treatment, and ongoing management of lung and infectious diseases. This hybrid model is innovative in that it combines multiple specialties under one roof, promoting a seamless continuum of care for patients; and by consolidating these services, the GLID Center enhances the efficiency and effectiveness of medical care, reducing wait times and improving health outcomes; and

WHEREAS, Dr. Agustin and Dr. Yamamoto's collaboration is central to the GLID Center's success, and their combined expertise in pulmonary and infectious diseases brings a high level of proficiency and knowledge to the facility. Dr. Agustin, with his extensive background in pulmonology, and Dr. Yamamoto, an expert in infectious diseases, ensure that the GLID Center is at the forefront of medical advancements and practices. Their teamwork not only elevates the standard of care but also fosters a collaborative environment where medical professionals can share insights and develop innovative treatment protocols; and

WHEREAS, the establishment of the GLID Center underscores Dr. Agustin and Dr. Yamamoto's dedication to improving healthcare outcomes on Guam, as they have prioritized accessibility and quality of care by making advanced medical services available to a broader population segment; and this initiative is particularly crucial for an island community where geographical isolation can pose significant barriers to accessing specialized healthcare; and

WHEREAS, since its inception, the GLID Center has had a profound impact on healthcare outcomes in Guam. By providing localized, specialized care, the GLID Center has reduced the need for patients to seek treatment abroad, thereby minimizing the associated financial and emotional burdens. Additionally, the GLID Center's focus on cutting-edge therapies and preventive care has led to better management of chronic respiratory conditions and infectious diseases, ultimately enhancing the overall health of the community; and

WHEREAS, driven by the visionary efforts of Dr. Michael Agustin and Dr. Michele Yamamoto, the GLID Center represents a landmark achievement in Guam's healthcare system, and their pioneering initiative fills a critical void in medical services on the island and sets a new standard for integrated, patient-centered care; and through their leadership and dedication, they have positively shaped the health and well-being of Guam's residents; and Dr. Michael Agustin and Dr. Michele Yamamoto are to be both recognized for their dedicated service and leadership within the field of lung and infectious disease; now therefore, be it

RESOLVED, that the Committee on Rules of *I Mina'trentai Sietit Na Liheslaturan Guåhan* does hereby, on behalf of *I Liheslaturan Guåhan* and the people of Guam, recognize Dr. Michael Agustin and Dr. Michele Yamamoto for establishing Guam's first hybrid specialty center, the Guam Lung & Infectious Disease Center, at the Guam Regional Medical City; and commend them for their efforts in addressing the island's need for comprehensive respiratory and infectious disease care, and for their service to the island community; and be it further

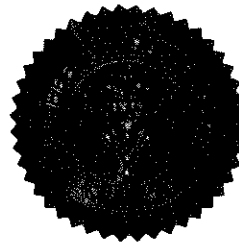

RESOLVED, that the Speaker and the Chairperson of the Committee on Rules certify, and the Legislative Secretary attest to, the adoption hereof, and that copies of the same be thereafter transmitted to Dr. Michael Agustin and Dr. Michele Yamamoto; and to the Honorable Lourdes A. Leon Guerrero, *I Maga'åhågan Guåhan*

DULY AND REGULARLY ADOPTED BY THE COMMITTEE ON RULES OF *I MINA'TRENTAI SIETIT NA LIHESLATURAN GUÅHAN* ON THE 6TH DAY OF JUNE 2024.
